- 1. We face risks and uncertainties associated with the implementation of expansion and new projects which may impact our initiation or continuation of certain training programme and other educational consultancy services. Consequently, our business, operations and revenue may be affected.***

Our business plan includes expansion of our services to our clients in various parts of Country. We may face risks and uncertainties in relation to expansion which may include various factors i.e. we may face difficulties in recruiting, training and retaining sufficient skilled faculty members, technical and management personnel and inability to or difficulty in satisfying clients expectations. This may adversely affect our business, results of operation and revenues.

- 2. Our ability to retain the customers is heavily dependent upon various factors including our reputation and our ability to maintain a high level of service quality including our satisfactory performance for the customers. Any failure by us to retain or attract customers may impact its business and revenues.***

We are an education support services and the premier customer focused training academy in India and are providing real time training solutions to our customers in the educational institutions. We believe that our brands are widely recognized in Maharashtra by students, teachers and institutions. We also believe our strong brand reputation has helped us attract and retain customers who use our products throughout the education cycle. As a result, our reputation and customer perception of our brands are critical to our business. Although, we believe that we have a dedicated and talented team of professionals that comprise of experienced personnel in the field of training and education. Our business heavily relies on our reputation as well as the quality and popularity of the services provided by us and our visibility and perception amongst our customers. It is important that we retain the trust placed by our clients and their management, students their parents, principals, professors of educational institutes and middle level managers, supervisors and executives of various corporates on our result oriented approach. We must also continue to attract more and increase the number of our customers serviced by us at a consistent rate.

**Global Education Limited**

We attempt to retain our position by maintaining quality and by our ability to improve and add value to the performance of our customers in their respective areas. This requires constant upgradation of the methodology and study material utilised along with ensuring that our faculty members are adequately equipped to instruct the clients. Further, we rely on a variety of advertising efforts tailored to target the client community, such as advertising through print and electronic media, outdoor media, below the line advertising activities such as distributing leaflets, displays, brochures, and ambient media, amongst others.

Prospective clients also gain awareness of our Courses and quality of training at the training centres through interactions with the others presently enrolled in various Courses. Further, due to the relatively low barriers of entry in the coaching sector, new entrants may compete with the existing players with lesser difficulty as compared to other sectors. Further, the education industry is perceived to be an industry in which scalability is difficult to achieve. This is primarily due to dominance of unorganized segment, varied different requirements across the states, high dependence on people, and price sensitive nature of the business. Whilst we believe that we have achieved reasonable scale in our business in the School and College Section, any decrease in our service or delay in our expansion plans may lead to slow down in our growth and scale. Failure to maintain and enhance our reputation or any actual or perceived reasons leading to reduction of benefits from the Courses by our customers or any negative publicity against us may affect the rate of enrolments and consequently, the clients serviced by us. Further, if the clients perceive that the locations of our training centres or the schedule or the training style are unsuitable to them, it may adversely impact our ability to retain and attract new clients. Additionally, the satisfaction of the clients and quality of the services in terms of the training, providing study materials and administration of our benchmarks our service standards. We believe that before enrolling with any training services provider, the trainers consult the previous trainees. An inferior quality services may lead to dis-satisfaction of our clients, which may adversely impact our business and revenues. In the event of occurrence of any of the above mentioned risks, our existing clients may not seek admissions for our other Courses leading to loss of our existing customer base and we may be unable to attract new clients. Any failure by us to retain or attract clients may adversely impact our business and revenues.

3. ***While we are currently not subject to extensive Governmental regulation, any regulatory or legal framework introduced in the future may increase our compliance requirements and costs, which may adversely affect our business, results of operations and prospects. However to run our business, we require certain regulatory permits and approval to operate.***

At present, the segments in which we operate are not subject to extensive Government regulation. While we are not in a position to predict the likelihood, timing or content of any such regulation or legislation, if any such regulation or legislation is notified, we may be affected in various ways. However, we require certain statutory and regulatory permits, licenses and approvals to operate our business. We have made an application under Shops and Establishments Act of the state for registration in respect of our Registered Office located at Mumbai, Maharashtra and the same is under process. Though we believe that we have obtained other permits and licenses which are adequate to run our business, we cannot assure that there is no other statutory/regulatory requirement which we are required to comply with. Further, some of these approvals are granted for fixed periods of time and need renewal from time to time. We are required to renew such permits, licenses and approvals. There can be no assurance that the relevant authorities will issue any of such permits or approvals in time or at all. Failure by us to renew, maintain or obtain the required permits or approvals in time may result in the interruption of our operations and may have a material adverse effect on our business.

Our Company has made applications to regulatory authorities for grant of the following Government / statutory approvals and licenses but the same has not been issued to us till date:

Sr. No.	Nature of Registration / License	Status/ Validity	Issuing Authority	Purpose for which said licenses is applied for
1	 Logo	Applied for registration	Trademark Registry	Trademark
2	 Trademark	Applied for registration	Trademark Registry	Trademark

Sr. No.	Nature of Registration / License	Status/ Validity	Issuing Authority	Purpose for which said licenses is applied for
3	 Trademark	Applied for registration	Trademark Registry	Trademark
4	 Trademark	Applied for registration	Trademark Registry	Trademark

Note: <sup>1</sup> Our Company has made an application dated December 13, 2016 under class 41 of Trademark Registry. The Company has made application for the corporate logo and in respect of the other trademarks, the Company has made several attempts to follow-up on the pending license with the concerned issuing authority. Accordingly, the grant of such approvals is in various stages of processing.

If we fail to obtain any of the aforesaid licenses, approvals or permissions, our ability to carry on business may be affected and our Company and our officials may be subject to fines and penalties under the relevant laws. Consequently, our turnover and profitability may be adversely affected.

For details regarding pending approvals, please refer to section titled “**Government and Other Approvals**” beginning on page 200 of the Prospectus.

**4. Our success depends largely on our senior management and our ability to attract and retain our key personnel.**

Our success depends on the continued services and performance of the members of our management team and other key employees. Competition for senior management in the industry is intense, and we may not be able to retain our existing senior management or attract and retain new senior management in the future. The loss of the services of our Promoters could seriously impair our ability to continue to manage and expand our business. Further, the loss of any other member of our senior management or other key personnel may adversely affect our business, results of operations and financial condition. We do not maintain ‘key man’ life insurance for our Promoters, senior members of our management team or other key personnel.

**5. We operate in a significantly fragmented and competitive market in each of our business segments and any failure on our part to compete effectively may adversely affect our business, results of operation and prospects.**

Competition in the education sector as a whole, as well as in each of our business segments, is generally fragmented. We face significant competition from local or regional players in the business segments and geographical markets in which we operate, and our success depends on our ability to ensure the continued quality, relevance and innovation of our services and products. In our integrated business, marketing and sales services for corporates (where our services in this segment include event management, marketing support, customer engagement, managed manpower and training services), we face competition including from corporates who may undertake to recruit and train their own staff as well as conducting in-house event management activities. Some of our competitors may have better financial and other resources than we have, or may be able to develop more effective advertisement and marketing campaigns or better priced or more innovative courses, services and delivery platforms than us, which may enable them to compete against us more effectively for future enrolments. These competitive factors may force us to reduce our fees and/or increase our spend in order to continue to attract enrolments for our training services and to retain and attract faculty, and to pursue new market opportunities.

Increased competition could result in reduced demand for our services and products, increased expenses, reduced margins and loss of market share. Failure to compete successfully against current or future competitors in each of our business segments could harm our business, operating cash flows and financial condition.

***Global Education Limited***

6. *We have experienced negative cash flows in previous years. Any operating losses or negative cash flows in the future could adversely affect our results of operations and financial conditions*

The details of Cash flows of our Company are as follows:

Particulars	For the period ended (in ₹)	For the year ended (in ₹)				
	30.09.2016	31.03.2016	31.03.2015	31.03.2014	31.03.2013	31.03.2012
<b>Net Cash Generated from Operating Activities</b>	(4,07,14,599)	3,79,89,690	1,27,52,295	80,54,022	29,39,335	(68,380)
<b>Net Cash from Investing Activities</b>	1,86,73,519	(2,74,20,371)	(1,05,11,076)	(68,87,231)	(6,23,482)	(31,600)
<b>Net Cash from Financing Activities</b>	(1,02,01,738)	1,14,94,977	35,50,585	14,59,962	2,96,225	1,00,000

Cash flow of a Company is a key indicator to show the extent of cash generated from operations to meet capital expenditure, pay dividends, repay loans and to make new investments without raising finance from external resources. Any operating losses or negative cash flows could adversely affect our results of operations and financial conditions. If we are not able to generate sufficient cash flows, it may adversely affect our business and financial operations. However, management perception is as stated below:

1. The substantial income of the Company is from educational activities and Company's operating cycle shows trend of realization of funds during the year end. Hence, there is a negative cash flow during the period ending September 30, 2016 (i.e. mid of the year) due to the nature of the operations of the company.
2. During the period ended September 30, 2016, our Company has sold out solar panels hence investing activity is showing inflow of funds as against outflow of funds during previous years in which investments were made.
3. During the period ended September 30, 2016, our Company has repaid loan of Rs. 1,00,00,000/- (Rupees One crore) taken for purchasing solar panels, hence, financing activity is showing outflows of funds as against inflow of funds during previous year in which loans were taken.

- 19. Trademark of our logo is not registered and we are in the process of seeking registration of trademark of our logo. There is no assurance that this application shall result in us being granted registration in a timely manner. Failure to protect our intellectual property may adversely affect our reputation, goodwill and business operations**

Our corporate name and logo  has not been registered as a result of the same the use of the words “GLOBAL” in the corporate and trading names by any third parties may lead consumers to confuse them with our Company and if they experience any negative publicity, it could have an adverse effect on our business, results of operations and financial condition. This confusion might also lead to our Company losing business to such competitors and might adversely affect our goodwill. However, we have made an application for the registration of the trademark of our logo . Further, since it is not registered we do not enjoy the statutory protections accorded to a registered trademark and are subject to the various risks arising out of the same, including but not limited to infringement or passing off our name and logo by a third party. Maintaining the reputation of our brands, corporate name, logo and the goodwill associated with these trademarks is critical to our success. - 20. There have been some instance of delayed filing of form required to be filed by the Company with regulatory authorities**

There have been some instances of delayed filing by the Company in respect of the filings required to be made with regulatory authorities, including filings under the Companies Act. Till date, the Company has not received any notices from any authorities however there can be no assurance that the regulator may not initiate proceedings against us. However, we will be able to sufficiently defend against any action initiated by regulators in relation to regulatory compliances for all instances and periods. Any adverse order passed or penalty imposed by regulators on us may adversely affect our business and results of operations to that extent.

- 21. We face competition in our business from organized and unorganized players, which may adversely affect our business operation and financial condition.**

The market for our services is competitive on account of both the organized and unorganized players. Players in this industry generally compete with each other on key attributes such as quality of products, distribution network, skilled man power, pricing and timely delivery and quality of services. Some of our competitors may have longer industry experience and greater financial, technical and other resources, which may enable them to react faster in changing market scenario and remain competitive. Moreover, the unorganized sector Issues their products at highly competitive prices which may not be matched by us and consequently affect our volume of revenue and growth prospects. Growing competition may result in a decline in our market share and may affect our margins which may adversely affect our business operations and our financial condition.

**EXTERNAL RISKS**

- 22. The Companies Act, 2013 and SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 have effected significant changes to the existing Indian company law/ listing framework, which may subject us to higher compliance requirements and increase our compliance costs.**

A majority of the provisions and rules under the Companies Act, 2013 have come into effect. The Companies Act, 2013 has brought into effect significant changes to the Indian company law framework, such as in the provisions related to issue of capital (including provisions in relation to issue of securities on a private placement basis), disclosures in Issuing documents, corporate governance norms, accounting policies and audit matters, related party transactions, introduction of a provision allowing the initiation of class action suits in India against companies by shareholders or depositors, a restriction on investment by an Indian company through more than two layers of subsidiary investment companies (subject to certain permitted exceptions), prohibitions on loans to directors and insider trading and restrictions on directors and key managerial personnel from engaging in futures trading. Further, the Companies Act, 2013 imposes greater monetary and other liability on us and our directors for any non-compliance.

To ensure compliance with the requirements of the Companies Act, 2013 and SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, we may need to allocate additional resources, which may increase our regulatory

compliance costs and divert management attention. The Companies Act, 2013 introduced certain additional requirements which do not have corresponding equivalents under the Companies Act, 1956. Accordingly, we may face challenges in interpreting and complying with such provisions due to the limited jurisprudence on them. In the event our interpretation of such provisions of the Companies Act, 2013 differs from, or contradicts with, any judicial pronouncements or clarifications issued by the Government in the future, we may face regulatory actions or we may be required to undertake remedial steps. Further, we cannot currently determine the impact of provisions of the Companies Act, 2013 which are yet to be notified. Any increase in our compliance requirements or in our compliance costs may have an adverse effect on our business and results of operations.

***23. Our business is dependent on economic growth in India.***

Our performance is dependent on the health of the overall Indian economy. There have been periods of slowdown in the economic growth of India. India economic growth is affected by various factors including domestic consumption and savings, balance of trade movements primarily resulting from export demand and movements in key imports, such as oil and oil products, and annual rainfall, which affect agricultural production. For example, in the monsoon of 2009, several parts of the country experienced below average rainfall, leading to reduced farm output which impaired economic growth. In the past, economic slowdowns have harmed industries and industrial development in the country. Any future slowdown in the Indian economy could harm our business, financial condition and results of operations.

***24. The extent and reliability of Indian infrastructure could adversely affect our results of operations and financial condition.***

India's physical infrastructure is less developed than that of many developed countries. Any congestion or disruption in its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt our normal business activity. Any deterioration of India's physical infrastructure would harm the national economy, disrupt the transportation of goods and supplies, and add costs to doing business in India. These problems could interrupt our business operations, which could have an adverse effect on our results of operations and financial condition.

If the rate of Indian price inflation increases, our results of operations and financial condition may be adversely affected. In recent years, India's wholesale price inflation index has indicated an increasing inflation trend compared to prior periods. An increase in inflation in India could cause a rise in the price of transportation, wages, raw materials or any other expenses. In particular, the prices of raw materials required for manufacturing of our products are subject to increase due to a variety of factors beyond our control, including global commodities prices and economic conditions. If this trend continues, we may be unable to reduce our costs or pass our increased costs on our customers and our results of operations and financial condition may be materially and adversely affected.

***25. Global economic downturn and adverse market conditions could cause our business to suffer. A slowdown in economic growth in India could cause our business to suffer***

The developed economies of the world viz. U.S., Europe, Japan and others are in midst of a downturn affecting their economic condition and markets general business and consumer sentiment has been adversely affected due to the global slowdown and there can be no assurance whether the developed economies or the emerging market economies will see good economic growth in the near future. Consequently, this has also affected the global stock and commodity markets. Our performance and growth is directly related to the performance of the Indian economy. The performance of the Indian economy is dependent among other things on the interest rate, political and regulatory actions, liberalization policies, commodity and energy prices etc. A change in any of the factors would affect the growth prospects of the Indian economy, which may in turn adversely impact our results of operations, and consequently the price of our Equity Shares.

***26. Regional hostilities, terrorist attacks, communal disturbances, civil unrest and other acts of violence or war involving India and other countries may result in a loss of investor confidence and adversely affect the financial markets and our business.***

Some parts of India have experienced communal disturbances, terrorist attacks and riots during recent years. If such events recur, our operational and marketing activities may be adversely affected, resulting in a decline in our income. The Asian region has, from time to time, experienced instances of civil unrest and hostilities among neighbouring countries. Since May 1999, military confrontations between countries have occurred in Kashmir. The hostilities between India and its

**Global Education Limited**

neighbouring countries are particularly threatening because India and certain of its neighbours possess nuclear weapons. Hostilities and tensions may occur in the future and on a wider scale. Also, since 2003, there have been military hostilities and continuing civil unrest and instability in Afghanistan. There has also recently been hostility in the Korean Peninsula. In July 2006 and November 2008, terrorist attacks in Mumbai resulted in numerous casualties. Events of this nature in the future, as well as social and civil unrest within other countries in Asia, could influence the Indian economy and could have a material adverse effect on the market for securities of Indian companies, including our Equity Shares.

**27. *The occurrence of natural disasters may adversely affect our business, financial condition and results of operations.***

The occurrence of natural disasters, including hurricanes, floods, earthquakes, tornadoes, fires and pandemic disease may adversely affect our financial condition or results of operations. The potential impact of a natural disaster on our results of operations and financial position is speculative, and would depend on numerous factors. The extent and severity of these natural disasters determines their effect on the Indian economy. Although the long term effect of diseases such as the H5N1 “avian flu” virus, or H1N1, the swine flu virus, cannot currently be predicted, previous occurrences of avian flu and swine flu had an adverse effect on the economies of those countries in which they were most prevalent. An outbreak of a communicable disease in India would adversely affect our business and financial conditions and results of operations. We cannot assure you that such events will not occur in the future or that our business, financial condition and results of operations will not be adversely affected.

**28. *Changing laws, rules and regulations and legal uncertainties, including adverse application of corporate and tax laws, may adversely affect our business, results of operations, financial condition and prospects.***

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes, including the instances mentioned below, may adversely affect our business, results of operations, financial condition and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy.

- The GoI has proposed a comprehensive national goods and services tax ("**GST**") regime that will combine taxes and levies by the Central and State Governments into a unified rate structure which is proposed to be effective from April 1, 2016. While the GoI and other state governments have announced that all committed incentives will be protected following the implementation of the GST, given the limited availability of information in the public domain concerning the GST, we are unable to provide any assurance as to this or any other aspect of the tax regime following implementation of the GST. The implementation of this rationalized tax structure may be affected by any disagreement between certain state governments, which may create uncertainty. Any such future increases or amendments may affect the overall tax efficiency of companies operating in India and may result in significant additional taxes becoming payable.
- Further, the General Anti Avoidance Rules ("**GAAR**") are proposed to be made effective from April 1, 2017. The tax consequences of the GAAR provisions being applied to an arrangement could result in denial of tax benefit amongst other consequences. In the absence of any precedents on the subject, the application of these provisions is uncertain. If the GAAR provisions are made applicable to our Company, it may have an adverse tax impact on us.

We have not determined the impact of these proposed legislations on our business. Uncertainty in the applicability, Interpretation or implementation of any amendment to, or change in, governing law, regulation or policy in the jurisdictions in which we operate, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current business or restrict our ability to grow our business in the future. Further, the GoI may introduce a waiver or incentive scheme in relation to specific population segments such as MSEs in public interest, pursuant to which we may be required to Issue our products and services at discounted rates. This may affect our business and results of operations.

There is a national organization that plays a key role in developing policies and programmes in the country, called the National Council for Educational Research and Training (NCERT) that prepares a National Curriculum Framework. Each state has its counterpart called the State Council for Educational Research and Training (SCERT). Currently, higher education contributes 59.7 per cent of the market size, school education 38.1 per cent, pre-school segment 1.6 per cent, and technology and multi-media the remaining 0.6 per cent. Let's deal all the components of the education system in brief-

### Pre-school Education

Pre-school education refers to education of children from birth to age 5, before they enter the formal education system. The Indian government has recognized the importance of Early Childhood Care and Education (ECCE) in improving health and education outcomes for children. The Integrated Child Development Scheme (ICDS) run under the aegis of the Government of India's Ministry of Women and Child Development provides for early childhood education and development by running anganwadis across the country. Pre-school education not only impacts the immediate education of a child but also their future lives and those of their parents and families. The scope of the Pre- school education is wide and it's a growing at a scorching pace. While there has been rise in organized players, the unorganized players too are in abundance and growing equally.

### School Education

The National Policy on Education, 1986 and the Programme of Action (POA) 1992 envisaged free and compulsory education of satisfactory quality for all children below 14 years before the 21st Century. The school system in India has four levels: lower primary (age 6 to 10), upper primary (11 and 12), high (13 to 15) and higher secondary (17 and 18). The lower primary school is further divided into five "standards", upper primary school into two, high school into three and higher secondary into two. One of the new mode that has changed the way education is imparted is the K-12 education. K-12 education is a kind of educational system which is different from the conventional method of teaching and involves a more teacher-student communication than the conventional version.

### College Education

Every year, millions of students from within the country and abroad, enter this segment mainly for their graduate, post graduate studies. College or Higher Education is the shared responsibility of both the Centre and the States. The coordination and determination of standards in Universities & Colleges is entrusted to the UGC and other statutory regulatory bodies. At the time of Independence of India, there were only 20 Universities and 500 Colleges in the country with 2.1 lakhs students in higher education. The numbers now have increased 40 times in the case of the Universities, and over 82 times in the case of Colleges.

**Illustration of Book Building and Price Discovery Process:** *(Investors should note that this example is solely for illustrative purposes and is not specific to the Issue)*

Bidders can bid at any price within the price band. For instance, assume a price band of ₹20 to ₹24 per equity share, issue size of 3,000 equity shares and receipt of five bids from bidders, details of which are shown in the table below. A graphical representation of the consolidated demand and price would be made available at the bidding centers during the bidding period. The illustrative book below shows the demand for the equity shares of the issuer company at various prices and is collated from bids received from various investors.

Bid Quantity	Bid Amount(₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the issuer is able to issue the desired number of shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The issuer, in consultation with the Book Running Lead Manager will finalize the issue price at or below such cut-off price, i.e., at or below ₹ 22.00. While, the government is taking many measures to improve the quality of education, the sector is changing rapidly with more private players entering the field. As per estimates, last fiscal the education market was worth about \$ 100 billion and is expected to reach \$ 116.4 billion in FY 2016-17. India has 3rd largest education system globally and the spends on education is estimated at 4% of GDP. The country has the largest illiterate population in the world, as the literacy rate of India as per 2011 Population Census is 74.04%, with male literacy rate at 82.14% and female at 65.46%. There is a national organization that plays a key role in developing policies and programmes in the country, called the National Council for Educational Research and Training (NCERT) that prepares a National Curriculum Framework. Each state has its counterpart called the State Council for Educational Research and Training (SCERT). Currently, higher education contributes 59.7 per cent of the market size, school education 38.1 per cent, pre-school segment 1.6 per cent, and technology and multi-media the remaining 0.6 per cent. Let's deal all the components of the education system in brief-

### Pre-school Education

Pre- school education refers to education of children from birth to age 5, before they enter the formal education system. The Indian government has recognized the importance of Early Childhood Care and Education (ECCE) in improving health and education outcomes for children. The Integrated Child Development Scheme (ICDS) run under the aegis of the Government of India's Ministry of Women and Child Development provides for early childhood education and development by running anganwadis across the country. Pre-school education not only impacts the immediate education of a child but also their future lives and those of their parents and families. The scope of the Pre- school education is wide and it's a growing at a scorching pace. While there has been rise in organized players, the unorganized players too are in abundance and growing equally.

### **School Education**

The National Policy on Education, 1986 and the Programme of Action (POA) 1992 envisaged free and compulsory education of satisfactory quality for all children below 14 years before the 21st Century. The school system in India has four levels: lower primary (age 6 to 10), upper primary (11 and 12), high (13 to 15) and higher secondary (17 and 18). The lower primary school is further divided into five “standards”, upper primary school into two, high school into three and higher secondary into two. One of the new mode that has changed the way education is imparted is the K-12 education. K-12 education is a kind of educational system which is different from the conventional method of teaching and involves a more teacher-student communication than the conventional version.

### **College Education**

Every year, millions of students from within the country and abroad, enter this segment mainly for their graduate, post graduate studies. College or Higher Education is the shared responsibility of both the Centre and the States. The coordination and determination of standards in Universities & Colleges is entrusted to the UGC and other statutory regulatory bodies. At the time of Independence of India, there were only 20 Universities and 500 Colleges in the country with 2.1 lakhs students in higher education. The numbers now have increased 40 times in the case of the Universities, and over 82 times in the case of Colleges.

### **Technology and media education**

Technical Education plays a vital role in human resource development of the country by creating skilled manpower, enhancing industrial productivity and improving the quality of life of its people. It’s a very vast field covering programmes in engineering, technology, management, architecture, town planning, pharmacy, applied arts & crafts, hotel management and catering technology. All India Council for Technical Education (AICTE) is assigned the job of conducting survey on the facilities on technical education and to promote development in the country in a coordinated and integrated manner.

### **Price of education**

Cost of education has been witnessing continuous rise not only in private sector but in the government owned institutions as well, tuition fee for undergraduate education in the IITs was increased from Rs 90,000 per annum to Rs 2 lakh per annum, some IIMs too had increased their fees for the two-year diploma programme. It’s not only the higher or technical but school education too, which has seen sharp hike, fees for Kendriya Vidyalaya students was increased three-fold from Rs 4,500 to Rs 12,000 annually.

### **Current trend**

Technology-oriented courses are gaining popularity due to the rising demand in these industries. The medical industry is also revamping itself. There is a need for more doctors and skilled professionals in this area. Thus, engineering and medical colleges are going to be in demand. Apart from them demand for management education is also rising and many international management institutes are creating ties with Indian colleges or setting up their own centers in India. E-learning and Distance learning programmes are also gaining popularity. Many students and working professionals are taking these courses to get a quality education. The drawing factors for these programmes are the world-class curriculum, comfort, and low costs. As many Indians go to foreign shores for quality education, the market for foreign universities is very present in India.

The US remains the most popular destination for Indian students and is still perceived to provide the most prestigious and valuable credentials of all study abroad destinations. After US, UK and Australia are other major favoured destination for foreign education. Countries like Sweden, Denmark, Italy, and Ireland are now in Indian students’ consideration sets. The Indian students are looking at countries where education is considerably cheaper and part-time jobs are easier to secure. An important reason for many Indians choosing to study abroad is the lack of good institutions in India and growing competition for limited seats amongst the existing institutes.

## **FRFDI in Education sector**

Foreign Direct Investments (FDI) in the country has been witnessing steady rise, according to the recent data from the Department of Industrial Policy and Promotion (DIPP), foreign investors have contributed more than \$200 million in Indian education sector and the number is going to increase steeply in coming years as well. In the last four quarters the FDI has been increasing steadily with India emerging as big growth driver in education sector. The sector is considered one of the prime areas of investments as the education system of India has been going through a strong phase of revolution.

The Government of India has decided to establish an Indian Institute of Agricultural Biotechnology with investment of about Rs 300 crores. Foreign investors are also encouraged to invest in these kinds of projects which have strong growth prospect in coming years.

## **Outlook**

In last couple of years the Indian education sector has gone through major changes resulting in substantial increase in the market share of the education industry. Indian education sector is expected to attract enormous investment from Private Equity firms in the next 5 years. Like any other industry, the education industry too is considered one of the prime areas of investments, projected over the coming years the education sector has opened up vast growth avenue, not only in technical education but school and college education there are big opportunities. 13. Consequently the financial information has been prepared after making such regroupings and retrospective adjustments as were, in our opinion, considered appropriate to comply with the same. As result of these regroupings and adjustments, the amount reported in the financial information may not necessarily be same as those appearing in the respective audited financial statements for the relevant years.
14. We have no responsibility to update our report for events and circumstances occurring after the date of report.

#### **16. Auditors’ Responsibility**

Our responsibility is to express an opinion on these restated financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under.

We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

In making those risk assessments, the auditor considers internal control relevant to the Company’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

#### **(d) Illustration of the Book Building and Price Discovery Process**

*Bidders should note that this example is solely for illustrative purposes and is not specific to the Offer; it also excludes Bidding by Anchor Investors.*

Bidders can bid at any price within the price band. For instance, assume a price band of ₹20 to ₹24 per share, issue size of 3,000 equity shares and receipt of five bids from bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the equity shares of the issuer company at various prices and is collated from bids received from various investors.

<b>Bid Quantity</b>	<b>Bid Price (₹)</b>	<b>Cumulative Quantity</b>	<b>Subscription</b>
500	24	500	16.70%
1,000	23	1500	50.00%
1,500	22	3000	100.00%
2,000	21	5000	166.70%
2,500	20	7500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the issuer is able to issue the desired number of equity shares is the price at which the book cuts off, i.e., ₹22.00 in the above example. The issuer, in consultation with the book running lead managers, will finalise the issue price at or below such cut-off price, i.e., at or below ₹22.00. All bids at or above this issue price and cut-off bids are valid bids and are considered for allocation in the respective categories.

#### **(e) Alternate Method of Book Building**

In case of FPOs, Issuers may opt for an alternate method of Book Building in which only the Floor Price is specified for the purposes of Bidding (“Alternate Book Building Process”). The Issuer may specify the Floor Price in the RHP or advertise the Floor Price at least one Working Day prior to the Bid/Offer Opening Date. QIBs may Bid at a price higher than the Floor Price and the Allotment to the QIBs is made on a price priority basis. The Bidder with the highest Bid Amount is allotted the number of Equity Shares Bid for and then the second highest Bidder is Allotted Equity Shares and this process continues until all the Equity Shares have been allotted. RIBs, NIBs and Employees are Allotted Equity Shares at the Floor Price and Allotment to these categories of Bidders is made proportionately. If the number of Equity Shares Bid for at a price is more than available quantity then the Allotment may be done on a proportionate basis. Further, the Issuer may place a cap either in terms of number of specified securities or percentage of issued capital of the Issuer that may be Allotted to a single Bidder, decide whether a Bidder be allowed to revise the bid upwards or downwards in terms of price and/or quantity and also decide whether a Bidder be allowed single or multiple bids.

### RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are FIPB and the RBI.

The Government has from time to time made policy pronouncements on FDI through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India ("**DIPP**"), issued the Consolidated FDI Policy, which with effect from May 12, 2015, consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DIPP that were in force and effect as on May 12, 2015. The Government proposes to update the consolidated circular on FDI Policy once every year and therefore, the Consolidated FDI Policy will be valid until the DIPP issues an updated circular.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that (i) the activities of the investee company are under the automatic route under the Consolidated FDI Policy and transfer does not attract the provisions of the SEBI Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the Consolidated FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/ RBI.

As per the existing policy of the GoI, OCBs cannot participate in the Issue.

**The Equity Shares have not been and will not be registered under the Securities Act or any state securities laws in the United States, and, unless so registered, may not be Issued or sold within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable state securities laws.**

Accordingly, the Equity Shares are being Issued and sold (a) in the United States only to persons reasonably believed to be "qualified institutional buyers" (as defined in Rule 144A under the Securities Act and referred to in this Prospectus as "U.S. QIBs" pursuant to the private placement exemption set out in Section 4(a)(2) of the Securities Act; for the avoidance of doubt, the term U.S. QIBs does not refer to a category of institutional investor defined under applicable Indian regulations and referred to in this Prospectus as "QIBs"), in transactions exempt from the registration requirements of the Securities Act and (b) outside the United States in offshore transactions in reliance on Regulation S under the Securities Act and the applicable laws of the jurisdiction where those Issues and sales occur.

The above information is given for the benefit of the Bidders. Our Company and the Book Running Lead Manager are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Prospectus.
