The words and expressions used but not defined in this Draft Prospectus will have the same meaning as assigned to such terms under the Companies Act, 2013, the Securities and Exchange Board of India Act, 1992 (the “SEBI Act”), the SCRA, SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018 the Depositories Act and the rules and regulations made thereunder. Notwithstanding the foregoing, terms in “**Main Provisions of the Articles of Association**”, “**Statement of Tax Benefits**”, “**Industry Overview**”, “**Regulations and Policies in India**”, “**Financial Information of the Company**”, “**Outstanding Litigations and Material Developments**” and “**Offer Procedure**”, will have the meaning ascribed to such terms in these respective sections.

CERTAIN CONVENTIONS, USE OF FINANCIAL INFORMATION AND MARKET DATA AND CURRENCY OF FINANCIAL PRESENTATION

Certain Conventions

All references in the Draft Prospectus to “India” are to the Republic of India. All references in the Draft Prospectus to the “U.S.”, “USA” or “United States” are to the United States of America.

In this Draft Prospectus, unless the context otherwise requires, all references to one gender also refers to another gender and the word “Lac / Lakh” means “one hundred thousand”, the word “million (mn)” means “Ten Lac / Lakh”, the word “Crore” means “ten million” and the word “billion (bn)” means “one hundred crore”. In this Draft Prospectus, any discrepancies in any table between total and the sum of the amounts listed are due to rounding-off.

Use of Financial Data

Unless stated otherwise, throughout this Draft Prospectus, all figures have been expressed in Rupees and Lakh. Unless stated otherwise, the financial data in the Draft Prospectus is derived from our restated financial statements prepared for the financial year ended 31st March 2021, 2020 and 2019 in accordance with Ind AS, the Companies Act and SEBI (ICDR) Regulations, 2018 included under Section titled “*Financial Information of the Company*” beginning on page 146 of this Draft Prospectus.

There are significant differences between Ind AS, the International Financial Reporting Standards (“IFRS”) and the Generally Accepted Accounting Principles in the United States of America (“U.S. GAAP”). Accordingly, the degree to which the Ind AS financial statements included in this Draft Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting practice and Ind AS. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Draft Prospectus should accordingly be limited. We have not attempted to explain those differences or quantify their impact on the financial data included herein, and we urge you to consult your own advisors regarding such differences and their impact on our financial data.

Any percentage amounts, as set forth in “*Risk Factors*”, “*Our Business*”, “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” and elsewhere in the Draft Prospectus unless otherwise indicated, have been calculated on the basis of the Company’s restated financial statements prepared in accordance with the applicable provisions of the Companies Act, Ind AS and restated in accordance with SEBI (ICDR) Regulations, 2018, as stated in the report of our Statutory Auditor, set out in section titled “*Financial Information of the Company*” beginning on page 146 of this Draft Prospectus. There are no subsidiaries of our Company as on date of the Draft Prospectus. Our fiscal year commences on April 1 of every year and ends on March 31st of every next year.

For additional definitions used in this Draft Prospectus, see the section “*Definitions and Abbreviations*” on page 1 of this Draft Prospectus. In the section titled “*Main Provisions of the Articles of Association*”, on page 268 of the Draft Prospectus defined terms have the meaning given to such terms in the Articles of Association of our Company.

Use of Industry & Market Data

Unless stated otherwise, industry and market data and forecast used throughout the Draft Prospectus was obtained from internal Company reports, data, websites, Industry publications report as well as Government Publications. Industry publication data and website data generally state that the information contained therein has been obtained from sources believed to be reliable, but that their accuracy and completeness and underlying assumptions are not guaranteed and their reliability cannot be assured.

Although, we believe industry and market data used in the Draft Prospectus is reliable, it has not been independently verified by us or the LM or any of their affiliates or advisors. Similarly, internal Company reports and data, while believed by us to be reliable, have not been verified by any independent source. There are no standard data gathering methodologies in the

Jainam Ferro Alloys (I) Limited

industry in which we conduct our business and methodologies and assumptions may vary widely among different market and industry sources.

In accordance with the SEBI (ICDR) Regulations, 2018 the section titled ***“Basis for Offer Price”*** on page 89 of the Draft Prospectus includes information relating to our peer group companies. Such information has been derived from publicly available sources, and neither we, nor the LM, have independently verified such information.

Currency of Financial Presentation

All references to “Rupees” or “INR” or “₹” or “Rs.” are to Indian Rupees, the official currency of the Republic of India. Except where specified, including in the section titled ***“Industry Overview”*** throughout the Draft Prospectus all figures have been expressed in Lakhs.

Any percentage amounts, as set forth in ***“Risk Factors”***, ***“Our Business”***, ***“Management's Discussion and Analysis of Financial Conditions and Results of Operations”*** on page 27, 103 and 201 of this Draft Prospectus, unless otherwise indicated, have been calculated based on our restated respectively financial statement prepared in accordance with Ind AS.

The Draft Prospectus contains conversion of certain US Dollar and other currency amounts into Indian Rupees that have been presented solely to comply with the requirements of the SEBI (ICDR) Regulations, 2018. These conversions should not be construed as a representation that those US Dollar or other currency amounts could have been, or can be converted into Indian Rupees, at any particular rate.

FORWARD LOOKING STATEMENTS

This Draft Prospectus includes certain “forward-looking statements”. We have included statements in the Draft Prospectus which contain words or phrases such as “will”, “aim”, “is likely to result”, “believe”, “expect”, “will continue”, “anticipate”, “estimate”, “intend”, “plan”, “contemplate”, “seek to”, “future”, “objective”, “goal”, “project”, “should”, “will pursue” and similar expressions or variations of such expressions, that are “forward-looking statements”. Also, statements which describe our strategies, objectives, plans or goals are also forward looking statements.

All forward looking statements are subject to risks, uncertainties and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. Forward-looking statements reflect our current views with respect to future events and are not a guarantee of future performance. These statements are based on our management’s beliefs and assumptions, which in turn are based on currently available information. Although we believe the assumptions upon which these forward-looking statements are based are reasonable, any of these assumptions could prove to be inaccurate, and the forward-looking statements based on these assumptions could be incorrect. Important factors that could cause actual results to differ materially from our expectations include but are not limited to:

1. General economic and business conditions in the markets in which we operate and in the local, regional, national and international economies;
2. Changes in consumer demand;
3. Failure to successfully upgrade our product portfolio, from time to time;
4. Any change in government policies resulting in increases in taxes payable by us;
5. Our ability to retain our key managements persons and other employees;
6. Changes in laws and regulations that apply to the industries in which we operate.
7. Our failure to keep pace with rapid changes in technology;
8. Our ability to grow our business;
9. Our ability to make interest and principal payments on our existing debt obligations and satisfy the other covenants contained in our existing debt agreements;
10. General economic, political and other risks that are out of our control;
11. Inflation, deflation, unanticipated turbulence in interest rates, equity prices or other rates or prices;
12. Company’s ability to successfully implement its growth strategy and expansion plans ;
13. Failure to comply with regulations prescribed by authorities of the jurisdictions in which we operate;
14. Inability to successfully obtain registrations in a timely manner or at all;
15. Occurrence of Environmental Problems & Uninsured Losses;
16. Conflicts of interest with affiliated companies, the promoter group and other related parties;
17. Any adverse outcome in the legal proceedings in which we are involved; and
18. Concentration of ownership among our Promoters.
19. The performance of the financial markets in India and globally.
20. Impact of covid-19 on our business and operations.

For further discussion of factors that could cause our actual results to differ, see the Section titled “**Risk Factors**”, “**Our Business**” and “**Management’s Discussion and Analysis of Financial Condition and Results of Operations**” beginning on page 27, 103 and 201 respectively of the Draft Prospectus. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated.

There can be no assurance to investors that the expectations reflected in these forward-looking statements will prove to be correct. Given these uncertainties, investors are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements to be a guarantee of our future performance.

Neither our Company or our Directors or our Officers or Lead Manager or Underwriter nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI requirements, our Company and the LM will ensure that investors in India are informed of material developments until such time as the grant of listing and trading permission by the Stock Exchange for the Equity Shares allotted pursuant to this Offer.

SECTION II: SUMMARY OF DRAFT PROSPECTUS

A. OVERVIEW OF BUSINESS

We are currently manufacturing two types of Ferro Alloys namely, Ferro Manganese (FeMn) and Silico-manganese (SiMn). Both the alloys are largely used in Steel industry. Ferro-manganese adds strength, toughness and other properties to steel. Silico manganese provides additional silicon which is a stronger De-oxidant in manufacturing steel. Our Company also generates revenue from its trading activities of manganese ore, used as a raw material in manufacturing Ferro alloys.

The products manufactured by our Company are primarily used in manufacturing of steel and in foundry activities.

B. OVERVIEW OF THE INDUSTRY

INDIAN FERRO ALLOYS INDUSTRY

Ferro-alloys are one of the important inputs in the manufacture of alloys and special steel. They impart special properties to steel. The alloys provide increased resistance to corrosion, improves hardness and tensile strength at high temperature, gives wear and abrasion resistance and increases creep strength, etc. The growth of Ferro-alloys Industry is, thus, linked with the development of the Iron and Steel Industry, Foundry Industry and to some extent Electrode Industry.

At present, major portion of the ferro-alloys produced is exported. India has sufficient highly skilled technical manpower and the latest equipment technology for production of ferro-alloys.

SECTION III: RISK FACTORS

An investment in Equity Shares involves a high degree of risk. prospective investors should carefully consider all the information in this Draft Prospectus, particularly the “**Financial Information of the Company**” and the related notes, “**Our Business**” and “**Management’s Discussion and Analysis of Financial Condition and Results of Operations**” beginning on pages 146, 103 and 201 respectively and the risks and uncertainties described below, before making a decision to invest in our Equity Shares.

The risk factors set forth below are not exhaustive and do not purport to be complete or comprehensive in terms of all the risk factors that may arise in connection with our business or any decision to purchase, own or dispose of the Equity Shares. This section addresses general risks associated with the industry in which we operate and specific risks associated with our Company. Any of the following risks, individually or together, could adversely affect our business, financial condition, results of operations or prospects, which could result in a decline in the value of our Equity Shares and the loss of all or part of your investment in our Equity Shares. While we have described the risks and uncertainties that our management believes are material, these risks and uncertainties may not be the only risks and uncertainties we face. Additional risks and uncertainties, including those we currently are not aware of or deem immaterial, may also have an adverse effect on our business, results of operations, financial condition and prospects.

This Draft Prospectus contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Draft Prospectus. The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors below. However, there are risk factors the potential effects of which are not quantifiable and therefore no quantification has been provided with respect to such risk factors. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of the Offer, including the merits and the risks involved.

Materiality

The Risk factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality.

1. Some events may not be material individually but may be found material collectively.
2. Some events may have material impact qualitatively instead of quantitatively.
3. Some events may not be material at present but may be having material impact in future.

Note:

The risk factors as envisaged by the management along with the proposals to address the risk if any. Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial implication of any of the risks described in this section.

In this Draft Prospectus, any discrepancies in any table between total and the sums of the amount listed are due to rounding off. Any percentage amounts, as set forth in “**Risk Factors**” beginning on page 27 and “**Management Discussion and Analysis of Financial Condition and Results of Operations**” beginning on page 201 unless otherwise indicated, has been calculated on the basis of the amount disclosed in the “Audited Financial Statements, as restated” prepared in accordance with the IND AS.

1. An increase in raw material costs or other input costs or loss of any of our suppliers due to delayed payments or otherwise, resulting in shortfall in the supply of our raw material may adversely impact the pricing and supply of our products and have an adverse effect on our business.

The major raw material used in manufacturing Ferro alloys is Manganese ore. The other raw materials used are Reductants like - Coke and Coal and Fluxes like Quartz, Bauxite, Dolomite. These raw materials are subject to supply disruptions and

Jainam Ferro Alloys (I) Limited

are very volatile due to price fluctuations resulting from, domestic and foreign trade policies, and shifts in supply and demand, competition and other factors beyond our control.

Presently, our Company is sourcing its raw materials such as Manganese Ores from domestic suppliers and is also importing it from South Africa; Coal/ Coke and fluxes are procured from local market. We ensure to procure quality raw materials from reputed suppliers in lawful manner. Any interruption in supply of raw material from our regular suppliers may hamper the production process. We do not have any formal agreements with our vendors/suppliers as we operate on a purchase order system. Due to the absence of any formal contract with our vendors/suppliers, we are exposed to the risks of irregular supplies or no supplies at all or delayed supplies or volatility in the prices of raw materials that we normally procure. Our suppliers may be unable to provide us with a sufficient quantity of raw material at a suitable price for us to meet the demand for our products. Additionally there is a risk that one or more of these existing suppliers could discontinue their operations, which could adversely impact our ability to source quality raw materials at a suitable price and meet our order requirements.

Identifying a suitable supplier or any delay, interruption or increased cost in the supply of raw materials pertaining to our products arising from a lack of long-term contracts could have an adverse effect on our ability to meet customer demand for our products and result in lower revenue from operations.

Further our Company has outstanding dues of trade payables for the Fiscal Years ended 20-21, 19-20 and 18-19 for Rs. 2039.49 Lakhs, Rs 1202.80 Lakhs and Rs. 1331.84 Lakhs respectively. For the financial year ended on March 31, 2021, our company has material dues exceeding 10% of total trade payables, outstanding to 3 creditors, which constitute of 75.78% of total trade payables of our Company as on March 31, 2021. Any delay in payment to our creditors may impact our long standing relations with our suppliers and may result in stoppage of timely or at all delivery of raw material. Any such disruption would impact the production and overall financial position of our Company.

2. Our success depends on stable and reliable logistics and transportation infrastructure. Disruption of logistics and transportation services could impair the ability of our suppliers to deliver raw materials or our ability to deliver products to our customers and/ or increase our transportation costs, which may adversely affect our operations

We utilize third party transportation services by road for transportation of raw materials and our products from/ to our suppliers and customers. Further, we rely on the freight ships for the transportation of imported manganese ore. Transportation by road or ship, as the case may be, involves risks, including, collision, grounding, storm, fire, explosion, lightning, political instability, allotment of berths for cargo ships for our imports and operating restrictions/ lockdown consequent to outbreak of infectious diseases, such as the COVID-19 pandemic. Any delay or disruption caused to the transportation of raw materials or our products could adversely impact our ability to procure the raw materials as well as to meet the delivery schedule of our products in an economical manner. To ensure timely delivery of our products, we may also be required to maintain relatively high level of inventory of raw materials and this may also resultantly increase our cost.

3. Our business is dependent on our manufacturing facilities and we are subject to certain risks in our manufacturing process. Obsolescence, destruction, theft, breakdowns of our major plants or machineries or failures to repair or maintain the same may affect our business, cash flows, financial condition and results of operations.

Our business is dependent upon our ability to manage our manufacturing facilities, which are subject to various operating risks, including those beyond our control, such as the breakdown and failure of equipment or industrial accidents and severe weather conditions and natural disasters. Any significant malfunction or breakdown of our machinery may entail significant repair and maintenance costs and cause delays in our operations. If we are unable to repair malfunctioning machinery in a timely manner or at all, our operations may need to be suspended until we procure machinery to replace the same. In addition, we may be required to carry out planned shutdowns of our facilities for maintenance, statutory inspections and testing, or may shut down certain facilities for capacity expansion and equipment upgrades.

Obsolescence, destruction, theft or breakdowns of our major plants or machineries may significantly increase our machineries purchase cost and the depreciation of our plants and machineries, as well as change the way our management estimates the useful life of our plants and machineries. In such cases, we may not be able to acquire new plants or machineries or repair the damaged plants or machineries in time or at all, particularly where our plants or machineries are not

Jainam Ferro Alloys (I) Limited

readily available from the market or require services from original machinery manufacturers. Some of our major machineries or parts may be costly to replace or repair. We may experience significant price increases due to supply shortages, inflation, transportation difficulties or unavailability. Such obsolescence, destruction, theft, breakdowns, repair or maintenance failures or price increases may not be adequately covered by the insurance policies availed by our Company and may have an effect on our business, cash flows, financial condition and results of operations

Although we have not experienced any significant disruptions at our manufacturing facilities in the past, we cannot assure you that there will not be any disruptions in our operations in the future. Our inability to effectively respond to such events and rectify any disruption, in a timely manner and at an acceptable cost, could lead to the slowdown or shut-down of our operations or the under-utilization of our manufacturing facilities, which in turn may have an adverse effect on our business, results of operations and financial condition. Any slowdown or shutdown in our manufacturing operations or underutilization of our manufacturing facilities could have an adverse effect on our business, results of operations and financial condition.

4. The COVID-19 pandemic and resulting deterioration of general economic conditions has impacted our business and results of operations in the past and the extent to which it will impact our future business and results of operations will depend on future developments, which are difficult to predict

Since first being reported in December 2019, the outbreak of COVID-19 has spread globally. The World Health Organization declared the novel coronavirus disease (“COVID-19”) outbreak a Public Health Emergency of International Concern on January 30, 2020, and a pandemic on March 11, 2020. The rapid and diffused spread of COVID-19 and global health concerns relating to this pandemic have had a severe negative impact on, among other things, financial markets, liquidity, economic conditions and trade and could continue to do so or could worsen for an unknown period of time, that could in turn have a material adverse impact on our business, cash flows, results of operations and financial condition, including liquidity and growth. The extent to which the COVID-19 outbreak impacts our business, cash flows, results of operations and financial condition will depend on future developments, including on the duration and severity of the pandemic, the nature and scope of government actions to contain it, and the potential impact on global and national economic conditions, including inflation, interest rates, availability of capital markets, consumer spending rates, energy availability and costs (including fuel surcharges), which are highly uncertain and cannot be predicted. The scope, duration and frequency of such measures and the adverse effects of COVID-19 remain uncertain and are likely to be severe. In addition, while the Government of India in coordination with the state governments have started the bulk immunization process or vaccination drive since January 16, 2021, achieving a complete vaccination scale may take significant amount of time. There is also no assurance that the vaccines that are developed will be fully effective and/ or may not have side effects.

On March 14, 2020, India declared COVID-19 as a ‘notified disaster’ and imposed a nationwide lockdown announced on March 24, 2020. Subsequently, progressive relaxations have been granted for movement of goods and people and cautious re-opening of businesses and offices. Thus our manufacturing facilities were under lock down during the nationwide lockdown due to the spread of COVID 19 Pandemic from March 25, 2020 to May 02, 2020. It was also shut down during the month of June 2020 due to widespread COVID – 19 pandemic. Further, our manufacturing plants are currently operating subject to certain social distancing and additional safety measures, such as, regular temperature checks, regular sanitization, and compulsory use of masks and hand sanitization. While we have not been able to determine any material impact on our operations and results on account of COVID-19, in the previous Fiscal, our Company has witnessed a lower quantum of sales compared to similar periods in previous years. In addition, recently, throughout March and April 2021, due to an increase in the number of daily COVID-19 cases, several state governments in India re-imposed lockdowns, curfews and other restrictions to curb the spread of the virus. As a result of the detection of new strains and subsequent waves of COVID-19 infections in several states in India as well as throughout various parts of the world, we may be subject to further reinstatements of lockdown protocols or other restrictions, which may adversely affect our business operations. We continue to closely monitor the impact that COVID-19 may have on our business and results of operations

5. Our business operations are being conducted on owned and leased premises. Our inability to seek renewal, registration or extension of such leases may materially affect our business operations.

Our business operations in our manufacturing plant is being conducted on premises owned by us by way of lease deed executed on September 07, 2016 from Chhattisgarh state Industrial Development Corporation Ltd (“CSIDL”) for the term of

Jainam Ferro Alloys (I) Limited

72 years. While the factory land acquired by us is under long term lease, we cannot assure you that we will continue to be able to renew the lease at favourable terms or at all. Given that some of our business operations are conducted on premises leased from third parties, any adverse impact on, or deficiency in, the title, ownership rights or development rights of the owners from whose premises we operate, breach of the contractual terms of any lease or leave and license agreements, or any inability to renew such agreements on acceptable terms or at all may materially affect our business operations.

- 6. We are yet to seek registration of mines acquired from Raghuvir Ferro Alloys Private Limited vide sale deed dated June 21, 2016. Our inability to seek registration of such mines may adversely affect the financial condition and reputation of our Company.***

Pursuant to sale deed executed between our Company and Raghuvir Ferro Alloys Private Limited, we have rights on the allotted manganese ore mines situated at K.H. No. 8/2, 9/1, 10/1, 10/2 and 14/1, Village Jagantola, Tehsil – Baihar, District Balaghat, Madhya Pradesh with valid lease period of upto 2028 and further extended upto 2058. However the Manganese ore Mines are inoperative and are yet not transferred in the name of our Company. If we are unable to transfer the ownership rights of the mines in the name of our Company, we may not be able to operate it. In the event of any dispute with the lessor or if the government / local authorities do not permit / register the transfer, we may not be able to effectively enforce our rights of ownership on the said mines. Further any prior consent required from relevant government authorities in relation to transfer of such mines is awaited. Moreover any liability relating to pending lease payments of these mines may attract penal clauses and may affect our financial condition and reputation.

- 7. We have limited experience in operating our business and managing the level of growth we have experienced in our business. If we are unable to successfully manage our growth, our business, prospects, financial condition and results of operations could be adversely affected.***

We started commercial production with one furnace having designed capacity of 9 MVA with 5000 KVA power load for the production of Ferro alloys of the different grades. In June 2017, the company started another furnace having designed capacity of 6 MVA with 4000 KVA power load for the same manufacturing activity. Our total revenue increased to Rs. 10152.95 Lakhs for the financial year 2021 from Rs. 2594.36 Lakhs for the financial year 2016-17. We do not have the long-term experience typically prevalent among our competitors that would demonstrate our ability to manage our business and the growth of our business at the rate we expect for the next few years. Any inability to effectively manage and operate our operations could adversely affect our business, prospects, financial condition and results of operations.

- 8. Our operations are subject to high working capital requirements. . If we are unable to generate sufficient cash flows to allow us to make required payments, there may be an adverse effect on our results of operations.***

Our business requires significant amount of working capital and major portion of our working capital is utilized towards debtors, inventories, security deposits and cash and cash equivalents. We have been sanctioned financing facilities of ₹ 6100 lakhs (including Fund and Non-Fund based limits of Cash Credit, Bank Guarantee, Buyers Credit and LCBD) from Kotak Mahindra Bank Limited and State Bank of India. Our inability to maintain sufficient cash flow, credit facility and other sources of funding, in a timely manner, or at all, to meet the requirement of working capital or pay out debts, could adversely affect our financial condition and result of our operations. Further, we have high outstanding amount due from our debtors which may result in a high risk in case of non-payment by these debtors. In case of any such defaults from our debtors, it may affect our business operations and financials.

- 9. We have significant power and water requirements for continuous running of our factory. Any disruption to our operations on account of interruption in power or water supply or any irregular or significant hike in their tariffs may have an effect on our business, results of operations and financial condition.***

Our factory has significant electricity requirements and any interruption in power supply to our factory may disrupt our operations. Also availability of water is an essential utility in our manufacturing process, it is used in our manufacturing processes for cooling process in copper pads, in transformers' heat exchangers and in jigging process and for cooling hot molten. Our business and financial results may be affected by any disruption of operations due to lack of essential utilities.

Jainam Ferro Alloys (I) Limited

We depend on third parties for all of our power and water requirements. Since we have significant power consumption, any unexpected or significant increase in its tariff can increase the operating cost.

10. The demand and pricing in the steel industry is volatile and are sensitive to the cyclical nature of the industries it serves. A decrease in steel prices or change in government policies in relation to this steel or infrastructure industry may have a material adverse effect on our business, results of operations, prospects and financial condition.

The products manufactured by our Company are primarily used in steel industry. It is used as an alloying element which enhances some key physical properties of steel like elasticity, ultimate tensile, strength and toughness etc. Thus the demand and pricing in the steel industry directly has an impact on our profitability. Steel prices fluctuate based on a number of factors, such as, the availability and cost of raw material inputs, fluctuations in domestic and international demand and supply of steel and steel products, international production and capacity, fluctuation in the volume of steel imports, transportation costs, protective trade measures and various social and political factors, in the economies in which the steel producers sell their products and are sensitive to the trends of particular industries, such as, the infrastructure, construction and machinery industries. Therefore, the growth of steel industry would also depend on government policies relating to these industries where steel and its products are used as a major component. Thus any change in government policies relating to infrastructure industry could also affect the demand and pricing of steel products thereby affecting the demand and pricing of our products.

When downturns occur in these economies or sectors, there may be a downturn in steel industry as well and we may experience decreased demand for our products, which may have a material adverse effect on our business, results of operations, financial condition and prospects.

11. Our Company operates under several statutory and regulatory approvals in respect of our operations. Failure to obtain or maintain licenses, registrations, permits and approvals may affect our business and results of operations.

We are governed by various laws and regulations for our business and operations. We are engaged in the business of manufacturing ferro alloys and use raw materials like: Manganese ore, Reductants like - Coke and Coal and Fluxes like Quartz, Bauxite, Dolomite etc. In this relation, our Company has obtained necessary approvals like: Factory license, Consent under Air (Prevention & Control of Pollution) Act, 1981 and consent under Water (Prevention & Control of Pollution) Act, 1974, License under Electricity Act, 2003, License under Import and Export Code, ISO 9001:2015 and ISO 14001:2015 certificate etc. but there is no assurance that there are no other statutory/regulatory requirements which we are required to be complied with.

In addition, we may need to in the future, apply for certain additional approvals, in relation to trade permits, storage or usage of mining materials required as a raw material in our business. The approvals, licenses, registrations and permits obtained by us may contain conditions, some of which could be onerous. Moreover, we are yet to apply for Registration as Principal Employer under Contract Labour Regulation Act, 1970, for the hired contract labour to facilitate our manufacturing operations.

We cannot assure you that the approvals, licenses, registrations and permits required will be issued to us and those already issued will not be suspended or revoked in the event of non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. Any denial, suspension or revocation of the approvals, licenses, registrations and permits that has been or may be issued to us may affect our business and results of operations. Also some of the registration certificate of our company does not carry the present address of the registered office of the company or are in the old name of the company, prior to its conversion into public company. The same needs to be updated in the records of concerned authorities. While we endeavour to comply with applicable regulatory requirements, it is possible that such compliance measures may restrict our business and operations, result in increased cost and onerous compliance measures, and an inability to comply with such regulatory requirements may attract penalty. For further details regarding the material approvals, licenses, registrations and permits, which have not been obtained by our Company or are, pending renewal, see ***“Government and Other Approvals”*** on page 212 of this Draft Prospectus.

12. Failure to comply with environmental laws and regulations by us could lead to unforeseen environmental litigation which could impact our business and our future net earnings.

We are subject to various regulations concerning environmental protection in India, including laws addressing the discharge of pollutants into the air and water, the management and disposal of any hazardous substances, and wastes and the clean-up of contaminated sites. Environmental laws and regulations in India are becoming more stringent, and the scope and extent of new environmental regulations, including their effect on our operations, cannot be predicted with any certainty. In case of any change in environmental or pollution regulations, we may be required to further invest in, among other things, environmental monitoring, pollution control equipment, and emissions management. Further, any violation of the environmental laws and regulations may result in fines, criminal sanctions, revocation of operating permits, or shutdown of our manufacturing plant.

13. A certain amount of our revenue is generated from certain key customers, and the loss of one or more such customers, the deterioration of their financial condition or prospects, or a reduction in their demand for our products could adversely affect our business, results of operations, financial condition and cash flows.

We are dependent on a limited number of customers for a certain portion of our revenues. Our top ten customers accounted for approximately 74.80% of our revenue from operations for the year ending March 31, 2021. There can be no assurance that our significant customers in the past will continue to place similar orders with us in the future. A significant decrease in business from any such key customer, whether due to circumstances specific to such customer or adverse market conditions affecting the industry or the economic environment generally, such as the COVID-19 pandemic, may materially and adversely affect our business, results of operations and financial condition.

Our reliance on a select group of customers may also constrain our ability to negotiate our arrangements, which may have an impact on our profit margins and financial performance. The deterioration of the financial condition or business prospects of these customers could reduce their requirement of our products and result in a significant decrease in the revenues we derive from these customers. We cannot assure you that we will be able to maintain historic levels of business from our significant customers, or that we will be able to significantly reduce customer concentration in the future. In addition, our revenues may be adversely affected if there is an adverse change in any of our customers supply chain strategies or a reduction in their outsourcing of products we offer, or if our customers decide to choose our competitors over us or if there is a significant reduction in the volume of our business with such customers. The loss of one or more of our significant customers or a reduction in the amount of business we obtain from them could have an adverse effect on our business, results of operations, financial condition and cash flows.

Further, to sustain or increase our revenue, we must add new customers and encourage existing customers to allocate a greater portion of their marketing spend to us. As our industry matures and competitors introduce lower cost or differentiated products or services, our ability to sell our goods could be impaired.

14. Our Promoters/Directors have provided personal guarantees for loan facilities obtained by our Company, and any failure or default by our Company to repay such loans in accordance with the terms and conditions of the financing documents could trigger repayment obligations on them, which may impact their ability to effectively service their obligations as our Promoters/Directors and thereby, impact our business and operations.

Our Promoters Mr. Archit Parakh and Mr. Aditya Parakh, our Directors, Mr. Arpit Parakh and Mrs. Namita Bai Parakh along with our promoter group members Mr. Abhay Parakh, Mr. Sanjay Parakh, Mr. Ajay Parakh, Mrs. Rita Parakh and Mr. Mangilal Parakh have provided personal guarantee towards loan facilities taken by our Company from Kotak Mahindra Bank and may continue to provide such guarantees and other securities post listing. Any default or failure by us to repay the loans in a timely manner, or at all could trigger repayment obligations of our guarantors in respect of such loans, which in turn, could have an impact on their ability to effectively service their obligations as Directors of our Company, thereby having an effect on our business, results of operation and financial condition. Furthermore, in the event that these individuals or companies withdraw or terminate their guarantees, our lenders for such facilities may ask for alternate guarantees, repayment of amounts outstanding under such facilities, or even terminate such facilities. We may not be successful in procuring guarantees satisfactory to the lenders, and as a result may need to repay outstanding amounts under such facilities or seek

Jainam Ferro Alloys (I) Limited

additional sources of capital, which could affect our financial condition and cash flows. For further details, please refer to chapter titled “**Statement of Financial Indebtedness**” beginning on page 196 of this Draft Prospectus.

15. *Our insurance coverage may not be adequate to protect us against all potential losses to which we may be subject and this may have a material effect on our business and financial condition.*

While we maintain insurance coverage, in amounts which we believe are commercially appropriate, including (i) Standard fire and special perils insurance policies, (ii) Marine Cargo Open Policy and (iii) Vehicle Insurance Policies we may not have sufficient insurance coverage to cover all possible economic losses, including when the loss suffered is not easily quantifiable. Even if we have made a claim under an existing insurance policy, we may not be able to successfully assert our claim for any liability or loss under such insurance policy.

We have not insured our risks pertaining to Machinery Breakdown, Cash in transit, Keyman Insurance Policy, Vehicle Insurance, Public Liability Insurance Policy and our liabilities that may generate under Employees Compensation Act 1923. The absence of such policies may affect our production facilities to halt, and may hinder our operations. Additionally, there may be various other risks and losses for which we are not insured either because such risks are uninsurable or not insurable on commercially acceptable terms. The occurrence of an event for which we are not adequately or sufficiently insured could have an effect on our business, results of operations, financial condition and cash flows.

For further details of our Insurance Policies, please refer section titled “**Our Business**” beginning on page 103 of this Draft Prospectus.

16. *Our contingent liabilities as stated in our Restated Financial Statements could affect our financial condition.*

Our Contingent liability as on March 31, 2021 was Rs. 302.60 Lakhs. If this contingent liability materializes, fully or partly, the financial condition of our Company could be affected.

Particulars	Amount in Lakhs
	31 March 2021
(i) Contingent liabilities	-
a) Claims against company not acknowledged as debts : Bank Guarantees	302.60
(ii) Commitments	-
Estimated amount of contracts remaining to be executed on capital account and not provided for (net of advances)	-
b) Direct Tax Liabilities	

For more information, regarding our contingent liabilities, please refer “**Note 33**” in chapter titled “**Financial Information of the Company**” beginning on page 146 of this Draft Prospectus.

17. *Our manufacturing activities require deployment of labour and depend on availability of labour. In case of unavailability of such labour, our business operations could be affected.*

Our manufacturing operations require deployment of labour and depend on our ability to retain labour. In case such labour is unavailable or we are unable to identify and retain such labour our business could be adversely affected. But, we cannot guarantee that we may be able to continue with the same on favourable terms or at all. Any such failure may impact the operations, business process and profitability. In case of any action being taken against our Company by any competent authority for hiring labour through Job work basis may adversely affect our business operations and financials.

Additionally, there have been amendments in the Labour and Employment related laws, which may have a direct impact on our employee costs and consequently, on our margins. Further, latest amendments in labour laws in India may be lead to increasing cost of compliance, wages, social security, Occupational Safety, Health and Working Conditions. We cannot assure you that we will continue to comply with all these labour related laws and that as we continue to grow our business in the future, our labour and employee costs coupled with operating compliances and expenses will not significantly increase.

18. Fluctuation in foreign currency exchange rates could affect our financial condition and results of operations.

Our business involves import transactions with foreign companies, which is paid in U.S. Dollars or other foreign currencies. A depreciation of Rupee against these foreign currencies would mean that our import of raw materials would become expensive and will impact our cost of production. During the FY 2020-21, 2019-20 and 2018-19 the imports accounted for approximately Rs. 2860.84 lakhs, Rs. 3544.70 lakhs and Rs. 3569.12 lakhs respectively. The exchange rate between the Rupee and these foreign currencies has fluctuated substantially in recent years and may continue to fluctuate significantly in the future. We bear the complete risk of currency exchange rate fluctuations.

19. Our Business is dependent on our Continuing relationships with our Customer, with whom we have not entered into long term arrangements.

The products of our Company are used in manufacturing of steel and in foundry activities. Though we have had repeat orders from customers and have developed relationships with certain customers, we do not typically enter into long-term contracts with our customers. In the absence of long-term contracts, there can be no assurance that our existing customers will continue to purchase our products that may have a material adverse effect on our business, results of operations and financial condition. We are also exposed to risks of lower sales volume or lower price realization on such volumes depending on prevailing market conditions. Our Company has had long standing business relationships with certain customers and has been supplying our products to such customers, for several years. However, we have not entered into any contracts with any of our customers and we cater to them on an order-by-order basis.

As a result, our customers can terminate their relationships with us without any notice, which could materially and adversely impact our business. There is no assurance that we will be able to obtain continuous business with those customers at all or on favourable terms.

Our relationship with our customers are therefore dependent to a large extent on our ability to regularly meet customer requirements, including price competitiveness, efficient and timely product deliveries, and consistent product quality. In the event we are unable to meet such requirements in the future, it may result in decrease in orders or cessation of business from affected customers and agents. Further, the deterioration of the financial condition or business prospects of these customers could reduce their requirement for our products and could result in a significant decline in the revenues we derive from such customers.

20. Our Company and Group Company are involved in certain legal proceedings and potential litigations. Any adverse decision in such proceedings may render us/them liable to liabilities/penalties/prosecutions and may adversely affect our business and results of operations.

Our Company, Promoter and Directors are currently involved in certain legal proceedings. These legal proceedings are pending at different levels of adjudication before various courts, tribunals, and government departments. The summary of outstanding litigation in relation to taxation matters, civil matters, economic offence and actions by regulatory/ statutory authorities against our Company, Promoter and Directors have been set out below.

Litigations involving our Company:-

Nature of Litigation	Number of Cases Outstanding	Amount Involved (in Lacs)
Against the Company		
Taxation Liabilities (Direct Tax Cases)	1	Not ascertainable

Litigations involving Group Company:-

Nature of Litigation	Number of Cases Outstanding	Amount Involved (in Lacs)
Against the Group Company		
Taxation Liabilities (Direct Tax)	2	414.88

Jainam Ferro Alloys (I) Limited

**Amount mentioned to the extent quantifiable. The amount may be subject to additional interest/other charges being levied by the concerned authorities which are unascertainable as on date of this draft prospectus*

For further details, see “***Outstanding Litigation and Material Developments***” beginning on page 209 of this Draft Prospectus.

Any adverse decisions in the aforesaid proceedings may have a material effect on our business, future financial performance and results of operations. If the courts or tribunals rule against our Company, our Promoter and Directors, may face monetary and/or reputational losses and may have to make provisions in our financial statements, which could increase our expenses and our liabilities

21. Any penalty or action taken by any regulatory authorities in future, for non-compliance with provisions of corporate and other law could impact our financial position to that extent.

Our company has not complied with certain statutory provisions in the past including but not limited to the details as mentioned in this risk factor. Further, Our Company has failed to create charge for vehicle loans taken during the year 2018 and 2019, however the said loan have been fully repaid as on date and no such amount is pending.

Our company is registered with Indian Bureau of Mines as End User of Minerals. However, we have inadvertently failed to submit the monthly and annual returns to be filed with IBM as required under Rule 45(6) of the Mineral Conservation and Development Rules, 2017 with respect to use of said minerals by the company.

In case of any action being taken by the regulatory authorities against the Company and/or its officers, the same may have an adverse effect on our business and reputation. Although, no show cause notice in respect of the above has been received by the Company till date, any penalty imposed for such non-compliance in future by any regulatory authority could affect our financial conditions to that extent.

22. Our Statutory Auditors have expressed emphasis on Matter on our audited financial statements for the period ended on March 31, 2021, 2020 and 2019.

The auditor’s report for the year ended March 31, 2021, 2020 and 2019 includes the emphasis of matter as under:

We draw attention to the following matters in the notes to the financial statements:

Refer Note No. 39 to the financial statement for the year ended March 31, 2021 and March 31, 2020 and note no. 41 to the financial statement for the year ended March 31, 2019 which describes regarding certain disclosures relating to SSI Enterprises & Micro/Small/Medium Enterprises, as reproduced below:

“The Company has purchased raw materials and other consumables from different firms and companies, but the company has not identified its status that whether the same are either SSI Units. Hence the particulars are not mentioned here.

In respect of Micro/Small/Medium Enterprises Development Act, 2006, certain disclosures are required to be made relating to Micro/Small/Medium enterprises. The Company is in process of complying relevant information from its suppliers about their coverage under the act. Few parties have not provided any details regarding their coverage under the act. Hence, such parties have been considered as other than Micro/Small/Medium enterprises and the interest payable to parties who are registered as MSME could not be ascertained and has not been provided for in the books of accounts.”

23. Inventories and trade receivables form a major part of our current assets. Failure to manage our inventory and trade receivables could have an adverse effect on our net sales, profitability, cash flow and liquidity.

We are in the business of manufacturing ferro alloys. Our Company’s business is working capital intensive and hence, inventories and trade receivables form a major part of our current assets. The results of operations of our business are dependent on our ability to effectively manage our inventory (raw materials and finished goods) and trade receivables.

Jainam Ferro Alloys (I) Limited

To effectively manage our inventory, we must be able to accurately estimate customer demand / potential orders and supply requirements and purchase new inventory accordingly. However, if we misjudge expected customer demand / potential orders, it could cause either a shortage of products or an accumulation of excess inventory. During FY 2020-21, 2019-20 and 2018-19 our inventory were Rs 2137.28 Lakhs, Rs 1156.18 Lakhs and Rs 1457.29 Lakhs. Further, if we fail to convert the inventory we purchase by manufacturing our products, we may be required to write-down our inventory or pay our suppliers without new purchases, or create additional vendor financing, all of which could have an adverse impact on our income and cash flows.

To effectively manage our trade receivables, we must be able to accurately evaluate the credit worthiness of our customers and ensure that suitable terms and conditions are given to them in order to ensure our continued relationship with them. However, if we fail to accurately evaluate the credit worthiness of our customers, it may lead to bad debts, delays in recoveries and / or write-offs which could lead to a liquidity crunch, thereby adversely affecting our business and results of operations. During FY 2020-21, 2019-20 and 2018-19 our trade receivables were Rs 633.99 Lakhs, Rs 711.64 Lakhs and Rs 469.71 Lakhs. A liquidity crunch may also result in case of increased working capital borrowings and, consequently, higher finance cost which will adversely impact our profitability.

24. The Logo used by our Company is currently not registered under Trade Marks Act, 1999. Failure to protect our intellectual property rights may adversely affect our competitive business position, financial condition and profitability.

Presently, our Company is using logo  and we have applied for registration of the same under the Trade Marks Act, 1999. Therefore as on date we do not enjoy the statutory provisions that are accorded to a registered trademark. Further, we may not be able to detect any unauthorized use or infringement or take appropriate and timely steps to enforce or protect our intellectual property, nor can we provide any assurance that any unauthorized use or infringement will not cause damage to our business prospects. Thus, we cannot guarantee that the application made for registration of our trademark will be allowed. In case we are unable to obtain the registration for the said trademark in our name, our business revenues and profitability may be impacted.

25. Our Company has taken unsecured loans that may be recalled by the lenders at any time.

Our Company have availed unsecured loans which may be called by their lenders at any time. As on March 31, 2021 the unsecured loan amounting Rs. 284.92 Lacs were due to lenders. In the event that lender seeks a repayment of any such loan, our Company would need to find alternative sources of financing, which may not be available on commercially reasonable terms, or at all. Also there is no formal agreement with any of our lenders. As a result, any such demand may affect our business, cash flows, financial condition and results of operations. For further details on financing arrangements entered into by our Company, please refer chapter titled “*Statement of Financial Indebtedness*” beginning on page 196 of Draft Prospectus.

26. Technology failures could disrupt our operations and adversely affect our business operations and financial performance

IT systems are critical to our ability to manage our operations. Our IT systems enable us to coordinate our operations, from planning, production scheduling and raw material ordering, invoicing, customer relationship management and decision support. If we do not allocate and effectively manage the resources necessary to build and sustain the proper IT infrastructure, we could be subject to transaction errors, processing inefficiencies, customer service disruptions and, in some instances, loss of customers.

Our IT systems, and the systems of our third party IT service providers may also be vulnerable to a variety of interruptions due to events beyond our control, including, but not limited to, natural disasters, telecommunications failures, computer viruses, hackers and other security issues. IT interruptions and system failures could have a material and adverse effect on our ability to realise the anticipated improvements in productivity and efficiency. A fault in or disruption to our information technology systems could cause disruption to our business. In addition, technological advances from time to time may result

Jainam Ferro Alloys (I) Limited

in our systems, methods or processing facilities becoming obsolete. Any significant upgrade to or replacement of our systems could require considerable capital expenditure, which could affect our results of operations and financial condition

27. We are dependent on our Promoters, our senior management and other key personnel, and the loss of, or our inability to attract or retain, such persons could affect our business, results of operations, financial condition and cash flows.

Our performance depends largely on the efforts and abilities of our senior management and other key personnel, including our Promoter and Managing Director Mr. Archit Parakh and our Whole Time Director, Mr. Arpit Parakh. They have gained experience in this line of business and have over the years built relations with suppliers, third party service providers, customers, regulators and other persons who are connected with us and have been actively involved in the day to day operations and management, further we believe that the inputs and experience of our senior management, in particular, and other key personnel are valuable for the development of our business and operations and the strategic directions taken by our Company. For details in relation to the experience of our key management personnel, see **“Our Management”** on page 127 of this Draft Prospectus. We cannot assure you that these individuals or any other member of our senior management team will not leave us or join a competitor or that we will be able to retain such personnel or find adequate replacements in a timely manner, or at all. We may require a long period of time to hire and train replacement personnel when qualified personnel terminate their employment with our Company. We may also be required to increase our levels of employee compensation more rapidly than in the past to remain competitive in attracting employees that our business requires. The loss of the services of such persons may have an effect on our business, results of operations, financial condition and cash flows.

28. The Present Production capacity installed at our manufacturing unit is not fully utilized

The installed capacity at our manufacturing unit is not fully utilized. The underutilization of the available capacity can affect our capacity to fully absorb fixed cost and thus may impact our manufacturing efficiency. The underutilization of installed capacity in future may affect profitability due to increase in per unit fixed cost of production. For further details of installed capacity and utilization, please refer to chapter titled **“Our Business”** beginning on page 103 of the Draft Prospectus.

29. Our business is seasonal in nature and therefore our results of operations for any quarter in a given year may not, therefore, be comparable with other quarters in that year.

Demand for our products is seasonal as climatic conditions, particularly the monsoon, affect the level of activity in the steel and infrastructure industry, where our products are used. As a result, we usually experience relatively weaker sales volume during the monsoon and somewhat stronger sales in other seasons. We expect our results of operations will continue to be affected by seasonality in the future. Our results of operations for any quarter in a given year may not, therefore, be comparable with other quarters in that year.

30. Excessive dependence on the Kotak Mahindra Bank Limited in respect of Working capital Loan obtained by the Company for its working capital requirement.

Our working capital loan has been sanctioned by Kotak Mahindra Bank Limited. The Company is dependent on such facility for its Working Capital requirement and any default under such arrangement with such lender may create problem for operation of the Company, which may affect the financial stability of the Company. At the same time this may result into difficulty in arranging for funds for re-payment and may also adversely affect the financial position of the Company.

31. We sell our products in highly competitive markets and our inability to compete effectively may lead to lower market share or reduced operating margins, and adversely affect our results of operations.

India is our primary market and we face competition in our business from local as well as nationwide manufacturers of ferro alloys. The products that we sell are of industrial nature, i.e. there are a large number of players manufacturing same or similar products. Thus, competition in these markets is based primarily on demand and price. As a result, to remain competitive in our market, we must continuously strive to reduce our procurement, transportation and distribution costs, improve our operating efficiencies and secure our materials requirements. If we fail to do so, other manufacturers and

Jainam Ferro Alloys (I) Limited

suppliers of similar products may be able to sell their products at prices lower than our prices, which would have an adverse effect on our market share and results of operations.

Further, we cannot assure you that our current or potential competitors will not offer products comparable or superior to our products. Failure to match our product quality and consistency accordingly might have an adverse effect on our operations and financial results. Developments in the competitive environment in the ferro alloy industry, such as consolidation among our competitors, could have a material adverse effect on our competitive position and hence our business, financial condition, results of operations or prospects.

32. Our lenders have charge over our immovable and movable properties in respect of finance availed by us.

We have secured our lenders by creating a charge over our movable and immovable properties in respect of Working loan availed by us from Kotak Mahindra Bank Limited. We have been extended such loan against hypothecation of our Company's property and current assets.

For further information on the financing and loan agreements along with the total amounts outstanding and the details of the repayment schedule, please refer to chapter "***Statement of Financial Indebtedness***" beginning on page 196 of this Draft Prospectus.

33. Relevant copies of educational qualifications of some of Directors are not available for verification.

Relevant copies of the educational qualifications of our Directors namely, Mrs. Namita Bai Parakh and Nand Kishore Bhutda are not available for verification. In accordance with the disclosure requirements, brief biographies of the Promoters, Director and Key Managerial Personnel's are disclosed in the Chapter titled "***Our Management***" on page 127 of this Draft Prospectus, which are based on the information received from the concerned person. However, we have relied on information provided by such Directors to verify the authenticity of such disclosure.

34. Our Company will not receive the entire proceeds from the Offer. Some of our Shareholders are selling shares in the Offer and will receive proceeds as part of the Offer for Sale.

The Offer comprises a Fresh Issue of 13,02,000 Equity Shares aggregating up to [●] lakhs by our Company and an offer for sale of 15,00,000 Equity Shares aggregating up to [●] lakhs by the Selling Shareholders. The proceeds from the Offer for Sale will be paid to the Selling Shareholders in proportion to their respective portion of their Offered Shares and our Company will not receive any such proceeds. For further details, see the section entitled "***Objects of the Offer***" and "***Capital Structure***" on pages 84 and 60 respectively. Other than the listing fees for the Offer all cost, fees and expenses in respect of the Offer will be shared amongst our Company and the Selling Shareholders, in proportion to the proceeds received for the Fresh Issue and their respective portion of Offered Shares, as may be applicable, upon the successful completion of the Offer.

35. Information relating to our production capacities and the historical capacity utilization of our production facilities included in this Draft Prospectus is based on certain assumptions and has been subjected to rounding off and future production and capacity utilization may vary.

Information relating to our production capacities and the historical capacity utilization of our production facilities included in this Draft Prospectus is based on various assumptions and estimates of our management, including proposed operations, assumptions relating to availability and quality of raw materials, assumptions relating to operational efficiencies, as well as assumptions in relation to the average density of products manufactured by us. Actual production levels and utilization rates may differ significantly from the estimated production capacities or historical estimated capacity utilization information of our facilities. Undue reliance should therefore not be placed on our production capacity or historical estimated capacity utilization information for our existing facilities included in this Draft Prospectus. For further information, see the section titled "***Our Business***" on page 103 of this Draft Prospectus.

36. Our business operations may be materially & adversely affected by strikes, work stoppages or increased wage demands by our employees or labour.

As on July 31, 2021, we have employed total 81 full time employees, including senior management. Although we have not experienced any work stoppages due to labour disputes or cessation of work in the recent past, we cannot assure you that we will not experience disruptions in work due to disputes or other problems with our work force, which may adversely affect our ability to continue our business operations. Further, our employees are not unionised into any labour or workers' unions and have not experienced any major work stoppages due to labour disputes or cessation of work in the last three years. Any labour unrest directed against us, could directly or indirectly prevent or hinder our normal operating activities, and, if not resolved in a timely manner, could lead to disruptions in our operations. These actions are improbable for us to forecast or control and any such event could adversely affect our business, results of operations and financial condition.

India has stringent labour legislation that protects the interests of workers, including legislation that sets forth detailed procedures for the establishment of unions, dispute resolution and employee removal and legislation that imposes certain financial obligations on employers upon retrenchment.. We are also subject to laws and regulations governing relationships with employees/workers, in such areas as minimum wage and maximum working hours, overtime, working conditions, hiring and terminating of employees and work permits. Shortage of skilled personnel or work stoppages caused by disagreements with employees can have an adverse effect on our business and results of operations.

37. The Objects of the Offer for which funds are being raised, are based on our management estimates and have not been appraised by any bank or financial institution or any independent agency. The deployment of funds will be entirely at our discretion, based on the parameters as mentioned in the chapter titled "Objects of the Offer".

The fund requirement and deployment, as mentioned in the "***Objects of the Offer***" on page 84 of this Draft Prospectus is based on the estimates of our management and has not been appraised by any bank or financial institution or any other independent agency. These fund requirements are based on our current business plan. We cannot assure that the current business plan will be implemented in its entirety or at all. In view of the highly competitive and dynamic nature of our business, we may have to revise our business plan from time to time and consequently these fund requirements. The deployment of the funds as stated under chapter "***Objects of the Offer***" is at the discretion of our Board of Directors and is not subject to monitoring by any external independent agency. Further, we cannot assure that the actual costs or schedule of implementation as stated under chapter "***Objects of the Offer***" will not vary from the estimated costs or schedule of implementation. Any such variance may be on account of one or more factors, some of which may be beyond our control. Occurrence of any such event may delay our business plans and/or may have an adverse bearing on our expected revenues and earnings.

38. Our operations may be adversely affected in case of industrial accidents at our production facility.

Usage of heavy machinery, handling of materials by labour during production process or otherwise, lifting of materials by humans, cranes, heating processes of the furnace etc. may result in accidents, which could cause injury to our labour, employees, other persons on the site and could also damage or affect our operations.

Therefore, although we take steps to ensure safety, accidents, including human fatalities, may occur and there can be no assurance that our safety measures and the precautions undertaken will be completely effective or sufficient. Further, in absence of adequate insurance cover in relation to the foregoing, our company may be subject to financial obligation or delay in settlement which shall increase our exposure to the associated risk. Any accident at our area of operations could also harm our reputation. Such accidents may have an impact on our business.

39. Our Promoters and the Promoter Group will jointly continue to retain majority shareholding in our Company after the Offer, which will allow them to determine the outcome of the matters requiring the approval of shareholders.

Our Promoters along with the promoter group will continue to hold collectively almost 73.47% of the Post offer Equity Share Capital of our Company. As a result of the same, they will be able to exercise significant influence over the control of the outcome of the matter that requires approval of the majority shareholders vote. Such a concentration of the ownership may also have the effect of delaying, preventing or deterring any change in the control of our company. In addition to the above, our promoters will continue to have the ability to take actions that are not in, or may conflict with our interest or the interest

Jainam Ferro Alloys (I) Limited

of some or all of our minority shareholders, and there is no assurance that such action will not have any adverse effect on our future financials or results of operations.

40. We are subject to certain restrictive covenants in debt facilities provided to us by our lenders.

We have entered into agreements for availing debt facilities from lenders. Certain covenants in these agreements require us to obtain approval/permission from our lenders in certain conditions. In the event of default or the breach of certain covenants, our lender has the option to make the entire outstanding amount payable immediately. There can be no assurance that we will be able to comply with these financial or other covenants or that we will be able to obtain consents necessary to take the actions that we believe are required to operate and grow our business.

For further details in this regard, please refer to chapter titled “*Statement of Financial Indebtedness*” beginning on page 196 of this Draft Prospectus.

41. Our Company has in the past entered into related party transactions and may continue to do so in the future.

We have entered into and may in the course of our business continue to enter into transactions specified in the Restated Financial Information contained in this Draft Prospectus with related parties that include our Promoters, Directors, Promoter Group Members and Group Companies. For further details in relation to our related party transactions, see “*Related Party Transactions*” on page 181 of this Draft Prospectus. While we believe that all such transactions have been conducted on an arm’s length basis and in the ordinary course of business, there can be no assurance that we could not have achieved more favourable terms had such transactions not been entered into with related parties. Furthermore, it is likely that we may enter into related party transactions in the future. The Companies Act, 2013 has brought into effect significant changes to the Indian company law framework, including specific compliance requirements such as obtaining prior approval from audit committee, the board of directors and shareholders for certain related party transactions. There can be no assurance that such transactions, individually or in the aggregate, will not have a material effect on our financial condition and results of operations.

42. We appoint contract labour for carrying out certain of our operations and we may be held responsible for paying the wages of such workers, if the independent contractors through whom such workers are hired default on their obligations, and such obligations could have an adverse effect on our results of operations and financial condition

In order to retain flexibility and control costs, our Company appoints independent contractors who in turn engage on-site contract labour for performance of certain of our operations. Although our Company does not engage these labourers directly, we may be held responsible for any wage payments to be made to such labourers in the event of default by such independent contractor. Any requirement to fund their wage requirements may have an adverse impact on our results of operations and financial condition. Any order from a regulatory body or court may have an adverse effect on our business, results of operations and financial condition.

43. In addition to normal remuneration, other benefits and reimbursement of expenses some of our Directors are interested in our Company to the extent of their shareholding and dividend entitlement in our Company.

Some of our Directors are interested in our Company to the extent of their shareholding and dividend entitlement in our Company, in addition to normal remuneration or benefits or reimbursement of expenses taken by the Directors of the Company. We cannot assure you that our Directors would always exercise their rights as Shareholders to the benefit and best interest of our Company. As a result, our Directors will continue to exercise significant control over our Company, including being able to control the composition of our board of directors and determine decisions requiring simple or special majority voting, and our other Shareholders may be unable to affect the outcome of such voting. Our Directors may take or block actions with respect to our business, which may conflict with our best interests or the interests of other minority Shareholders, such as actions with respect to future capital raising or acquisitions. We cannot assure you that our Directors will always act to resolve any conflicts of interest in our favour, thereby affecting our business and results of operations and prospects.

44. The average cost of acquisition of Equity Shares by our Promoters could be lower than the Offer Price.

Our Promoters' average cost of acquisition of Equity Shares in our Company may be lower than the Offer Price as may be decided by the Company, in consultation with the Lead Manager. For further details regarding average cost of acquisition of Equity Shares by our Promoters in our Company and build-up of Equity Shares by our Promoters in our Company, please refer to the chapter titled "**Capital Structure**" beginning on pages 60 of this Draft Prospectus.

45. We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Offer proceeds may delay the implementation schedule

The proposed fund requirement for our business, as detailed in the section titled "**Objects of the Offer**" is to be funded from the proceeds of this IPO. We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Offer proceeds may delay the operations. We therefore, cannot assure that we would be able to execute our future plans/strategy within the given timeframe. For details, please refer to the Chapter titled "**Objects of the Offer**" beginning on page 84 of this Draft Prospectus.

46. There is no monitoring agency appointed by Our Company to monitor the utilization of the Offer proceeds.

As per SEBI (ICDR) Regulations, 2018, as amended, appointment of monitoring agency is required only for Offer size above ₹10,000 Lakhs. Hence, we have not appointed any monitoring agency to monitor the utilization of Offer proceeds. However, the audit committee of our Board will monitor the utilization of Offer proceeds in terms of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. Further, our Company shall inform about material deviations in the utilization of Offer proceeds to the stock exchange and shall also simultaneously make the material deviations / adverse comments of the audit committee public.

47. Our inability to effectively manage our growth or to successfully implement our business plan and growth strategy could have an effect on our business, results of operations and financial condition.

The success of our business will depend greatly on our ability to effectively implement our business and growth strategy. Our growth strategy involves focusing on Optimal Utilization of Resources and to developed relationships with customer and suppliers. For further details, see the section titled "**Our Business – Our Strategies**" on page 106. Our success in implementing our growth strategies may be affected by:

- Our ability to identify new markets to expand;
- Our ability to maintain the quality of our products;
- Changes in the Indian regulatory environment

There can be no assurance that we will be able to execute our strategy on time and within our estimated budget, or that our expansion and development plans will increase our profitability. Any of these factors could impact our results of operations. We cannot assure you that we will not face any time or cost overruns in respect of implementation of our strategies in the future. Further, we expect our growth strategy to place significant demands on our management, financial and other resources and require us to continue developing and improving our operational, financial and other internal controls. Our inability to manage our business and implement our growth strategy could have a effect on our business, financial condition and profitability.

48. We have not independently verified certain data in this Draft Prospectus.

We have not independently verified data from the Industry and related data contained in this Draft Prospectus and although we believe the sources mentioned in the report to be reliable, we cannot assure you that they are complete or reliable. Such data may also be produced on a different basis from comparable information compiled with regards to other countries. Therefore, discussions of matters relating to India, its economy or the industries in which we operate that is included herein are subject to the caveat that the statistical and other data upon which such discussions are based have not been verified by us and may be incomplete, inaccurate or unreliable. Due to incorrect or ineffective data collection methods or discrepancies

Jainam Ferro Alloys (I) Limited

between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, we cannot assure you that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

49. Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Additionally, under some of our loan agreements, we are not permitted to declare any dividends, if there is a default under such loan agreements or unless our Company has paid all the dues to the lender up to the date on which the dividend is declared or paid or has made satisfactory provisions thereof. Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our dividend history, see “*Dividend Policy*” on page 145 of this Draft Prospectus.

50. The Offer price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Offer and the market price of our Equity Shares may decline below the Offer price and you may not be able to sell your Equity Shares at or above the Offer Price

The Offer price of the equity shares have been based on many factor and may not be indicative of the market price of our Equity Shares after the Offer. For further information please refer the section titled “*Basis for Offer Price*” beginning on page 89. The market price of our Equity Shares could be subject to significant fluctuations after the Offer, and may decline below the Offer Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Offer Price

EXTERNAL RISK FACTORS

51. We are exposed to risks associated with the steel industry in India.

We derive and expect to continue to derive in the foreseeable future, our revenues and operating profits in India. Changes in macroeconomic conditions generally impact the steel industry and could negatively impact our business. Accordingly, our business is highly dependent on the state of development of the Indian economy and the macroeconomic environment prevailing in India. Changes in government policies that may have adverse effect on the development of steel industry and infrastructure projects, may have an adverse impact on our business. Since the industry depends on macroeconomic factors that may negatively impact demand for steel products in India or the timely commencement of infrastructure projects could in turn have a material adverse effect on our growth prospects, business and cash flows. In addition, access to financing may be more expensive or not available on commercially acceptable terms during economic downturns. Any of these factors and other factors beyond our control could have a material adverse effect on our business, prospects, financial condition, results of operations and cash flows.

52. Our business is dependent on the Indian and global economy.

The performance and growth of our business is necessarily dependent on economic conditions prevalent in India and abroad, which may be materially and adversely affected by political instability or regional conflicts, a general rise in interest rates, inflation, and economic slowdown elsewhere in the world or otherwise. India’s economic growth is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports global economic uncertainty and liquidity crisis, volatility in exchange currency rates and annual rainfall which affects agricultural production. Any continued or future slowdown in the Indian economy or a further increase in inflation could have a material adverse effect on our services and, as a result, on our business and financial results. The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the U.S. and elsewhere in the world in recent years

Jainam Ferro Alloys (I) Limited

has affected the Indian economy. Although economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any worldwide financial instability, including the financial crisis and fluctuations in the stock markets in China and further deterioration of credit conditions in the U.S. or European markets, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our business and financial results. As a result, the performance and growth of our business may be dependent on the economic conditions in these regions, and in particular, in India.

53. Regional hostilities, terrorist attacks, communal disturbances, civil unrest and other acts of violence or war involving India and other countries may result in a loss of investor confidence and adversely affect the financial markets and our business.

Terrorist attacks, civil unrest and other acts of violence or war may negatively affect the Indian markets on which our Equity Shares will trade and also adversely affect the worldwide financial markets. In addition, the Asian region has from time to time experienced instances of civil unrest and hostilities among neighbouring countries. Hostilities and tensions may occur in the future and on a wider scale. Military activity or terrorist attacks in India, may result in investor concern about stability in the region, which may adversely affect the price of our Equity Shares. Events of this nature in the future, as well as social and civil unrest within other countries in the world, could influence the Indian economy and could have an adverse effect on the market for securities of Indian companies, including our Equity Shares.

54. Changing laws, rules and regulations and legal uncertainties in India, including adverse application of tax laws and regulations, may adversely affect our business and financial performance.

Our business and financial performance could be adversely affected by changes in law or interpretations of existing, or the promulgation of new, laws, rules and regulations in India applicable to us and our business. For further details please refer to the chapter "***Key Industrial Regulations and Policies.***" beginning on page 114 for details of the laws currently applicable to us. There can be no assurance that the central or the state governments in India may not implement new regulations and policies which will require us to obtain approvals and licenses from the central or the state governments in India and other regulatory bodies or impose onerous requirements and conditions on our operations. Any such changes and the related uncertainties with respect to the implementation of the new regulations may have a material adverse effect on all our business, financial condition and results of operations. In addition, we may have to incur capital expenditures to comply with the requirements of any new regulations, which may also materially harm our results of operations.

55. Instability in financial markets could materially and adversely affect our results of operations and financial conditions.

The Indian economy and financial markets are significantly influenced by worldwide economic, financial and market conditions. Any financial turmoil, especially in the United States of America or Europe, may have a negative impact on the Indian economy. Although economic conditions differ in each country, investors' reactions to any significant developments in one country can have adverse effects on the financial and market conditions in other countries. A loss in investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets. The global financial turmoil, an outcome of the sub-prime mortgage crisis which originated in the United States of America, led to a loss of investor confidence in worldwide financial markets. Indian financial markets have also experienced the contagion effect of the global financial turmoil, evident from the sharp decline in benchmark index of stock exchanges i.e. NSE-NIFTY and BSE-SENSEX. Any prolonged financial crisis may have an adverse impact on the Indian economy and us, thereby resulting in a material and adverse effect on our business, operations, financial condition, profitability and price of our Equity Shares.

56. Government regulation of foreign ownership of Indian securities may have an adverse effect on the price of the Equity Shares.

Foreign ownership of Indian securities is subject to government regulation. Under foreign exchange regulations currently in

effect in India, transfer of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the rupees proceeds from the sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the Income Tax authorities. There can be no assurance that any approval required from the RBI or any other government agency can be obtained.

57. Natural calamities could have a negative impact on the Indian economy and cause Our Company's business to suffer.

India has experienced natural calamities such as earthquakes, tsunami, floods, pandemic or epidemics etc. In recent years, the extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

58. If certain labour laws become applicable to us, our profitability may be adversely affected.

India has stringent labour legislations that protect the interests of workers, including legislation that sets forth detailed procedures for dispute resolution and employee removal and legislation that imposes certain financial obligations on employers upon retrenchment. Any change or modification in the existing labour laws may affect our flexibility in formulating labour related policies.

59. Our performance is linked to the stability of policies and the political situation in India.

The Government of India has traditionally exercised, and continues to exercise, a significant influence over many aspects of the economy. Our business, and the market price and liquidity of our Equity Shares, may be affected by interest rates, changes in government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. Since 1991, successive Indian governments have pursued policies of economic liberalization and financial sector reforms. The current Government has announced its general intention to continue India's current economic and financial sector liberalization and deregulation policies.

However, there can be no assurance that such policies will be continued and a significant change in the government's policies in the future could affect business and economic conditions in India and could also adversely affect our business, prospects, financial condition and results of operations.

Any political instability in India may adversely affect the Indian securities markets in general, which could also adversely affect the trading price of our Equity Shares. Any political instability could delay the reform of the Indian economy and could have a material adverse effect on the market for our Equity Shares. There can be no assurance to the investors that these liberalization policies will continue under the newly elected government. Protests against privatization could slow down the pace of liberalization and deregulation. The rate of economic liberalization could change, and specific laws and policies affecting companies in the industrial equipment manufacturing sectors, foreign investment, currency exchange rates and other matters affecting investment in our securities could change as well. A significant change in India's economic liberalization and deregulation policies could disrupt business and economic conditions in India and thereby affect our business.

DETAILS OF THE MARKET MAKING ARRANGEMENT FOR THIS OFFER

Our Company and the Lead Manager has entered into Market Making Agreement dated August 25, 2021 with the following Market Maker, to fulfill the obligations of Market Making for this Offer:

Name	Hem Finlease Private Limited
Correspondence Address:	203, Jaipur Tower, M I Road, Jaipur, India
Tel No.:	0141-4051000
E-mail:	ib@hemsecurities.com
Website:	www.hemsecurities.com
Contact Person:	Mr. Anil Bhargava
SEBI Registration No.:	INZ000167734
Market Maker Registration No.	11100

The Market Maker shall fulfill the applicable obligations and conditions as specified in the SEBI (ICDR) Regulations, and its amendments from time to time and the circulars issued by the NSE and SEBI regarding this matter from time to time.

Following is a summary of the key details pertaining to the Market making arrangement:

- The Market Maker(s) (individually or jointly) shall be required to provide a 2-way quote for 75% of the time in a day. The same shall be monitored by the stock exchange. Further, the Market Maker(s) shall inform the exchange in advance for each and every black out period when the quotes are not being offered by the Market Maker(s).
- The prices quoted by Market Maker shall be in compliance with the Market Maker Spread Requirements and other particulars as specified or as per the requirements of the NSE Emerge and SEBI from time to time.
- The minimum depth of the quote shall be ₹ 1,00,000/- . However, the investors with holdings of value less than ₹ 1,00,000/- shall be allowed to offer their holding to the Market Maker(s) (individually or jointly) in that scrip provided that he sells his entire holding in that scrip in one lot along with a declaration to the effect to the selling broker.
- The Market Maker shall not sell in lots less than the minimum contract size allowed for trading on the NSE Emerge (in this case currently the minimum trading lot size is [•] Equity shares; however the same may be changed by the NSE from time to time).
- After a period of three (3) months from the market making period, the Market Maker would be exempted to provide quote if the Shares of Market Maker in our company reaches to 25% of Offer Size. Any Equity Shares allotted to Market Maker under this Offer over and above 25% of Offer Size would not be taken in to consideration of computing the

Jainam Ferro Alloys (I) Limited

threshold of 25% of Offer Size. As soon as the Shares of Market Maker in our Company reduces to 24% of Offer Size, the Market Maker will resume providing 2 way quotes.

- There shall be no exemption/threshold on downside. However, in the event the Market Maker exhausts his inventory through market making process, NSE may intimate the same to SEBI after due verification.
- Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker(s), for the quotes given by him.
- There would not be more than five Market Makers for a script at any point of time and the Market Makers may compete with other Market Makers for better quotes to the investors.
- On the first day of the listing, there will be pre-opening session (call auction) and there after the trading will happen as per the equity market hours. The circuits will apply from the first day of the listing on the discovered price during the pre-open call auction.
- The Market maker may also be present in the opening call auction, but there is no obligation on him to do so.
- There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily/fully from the market – for instance due to system problems, any other problems. All controllable reasons require prior approval from the Exchange, while force-majeure will be applicable for non-controllable reasons. The decision of the Exchange for deciding controllable and non-controllable reasons would be final
- The Market Maker(s) shall have the right to terminate said arrangement by giving a six months’ notice or on mutually acceptable terms to the Merchant Banker, who shall then be responsible to appoint a replacement Market Maker(s) and execute a fresh arrangement.
- In case of termination of the above mentioned Market Making agreement prior to the completion of the compulsory Market Making period, it shall be the responsibility of the LM to arrange for another Market Maker in replacement during the term of the notice period being served by the Market Maker but prior to the date of releasing the existing Market Maker from its duties in order to ensure compliance with the requirements of regulation 106 V of the SEBI (ICDR) Regulations, 2018, as amended. Further our Company and the LM reserve the right to appoint other Market Makers either as a replacement of the current Market Maker or as an additional Market Maker subject to the total number of Designated Market Makers does not exceed five or as specified by the relevant laws and regulations applicable at that particular point of time. The Market Making Agreement is available for inspection at our office from 10.00 a.m. to 5.00 p.m. on working days.
- **Risk containment measures and monitoring for Market Makers:** NSE Emerge will have all margins, which are applicable on the NSE main board viz., Mark-to-Market, Value-At-Risk (VAR) Margin, Extreme Loss Margin, Special Margins and Base Minimum Capital etc. NSE Emerge can impose any other margins as deemed necessary from time-to-time.
- **Punitive Action in case of default by Market Makers:** NSE Emerge Exchange will monitor the obligations on a real time basis and punitive action will be initiated for any exceptions and/or non-compliances. Penalties / fines may be imposed by the Exchange on the Market Maker, in case he is not able to provide the desired liquidity in a particular security as per the specified guidelines. These penalties / fines will be set by the Exchange from time to time. The Exchange will impose a penalty on the Market Maker in case he is not present in the market (offering two way quotes) for at least 75% of the time. The nature of the penalty will be monetary as well as suspension in market making activities / trading membership. The Department of Surveillance and Supervision of the Exchange would decide and publish the penalties / fines / suspension for any type of misconduct/ manipulation/ other irregularities by the Market Maker from time to time.
- **Price Band and Spreads:** The price band shall be 20% and the market maker spread (difference between the sell and the buy quote) shall be within 10% or as intimated by Exchange from time to time.

Jainam Ferro Alloys (I) Limited

- Pursuant to SEBI Circular number CIR/MRD/DSA/31/2012 dated November 27, 2012, limits on the upper side for market makers during market making process has been made applicable, based on the offer size and as follows:

offer Size	Buy quote exemption threshold (including mandatory initial inventory of 5% of the Offer Size)	Re-Entry threshold for buy quote (including mandatory initial inventory of 5% of the Offer Size)
Up to ₹20 Crore	25%	24%
₹20 to ₹50 Crore	20%	19%
₹50 to ₹80 Crore	15%	14%
Above ₹80 Crore	12%	11%

- 1) The SEBI Circular bearing reference no: CIR/MRD/DP/ 02/2012 dated January 20, 2012, has laid down that for Offer size up to ₹ 250 crores, the applicable price bands for the first day shall be:

i. In case equilibrium price is discovered in the Call Auction, the price band in the normal trading session shall be 5% of the equilibrium price.

ii. In case equilibrium price is not discovered in the Call Auction, the price band in the normal trading session shall be 5% of the Offer price.

Additionally, the securities of the Company will be placed in SPOS and would remain in Trade for Trade settlement for first 10 days from commencement of trading. The following spread will be applicable on the SME Exchange Platform.

S. No.	Market Price Slab (in Rs.)	Proposed Spread (in % to sale price)
1.	Up to 50	9
2.	50 to 75	8
3.	75 to 100	6
4.	Above 100	5

All the above mentioned conditions and systems regarding the Market Making Arrangement are subject to change based on changes or additional regulations and guidelines from SEBI and Stock Exchange from time to time.

OBJECTS OF THE OFFER

The Offer includes a fresh Issue of up to 13,02,000 Equity Shares and an Offer for Sale of 15,00,000 Equity Shares by the Selling Shareholders of our Company at an Offer Price of Rs. [●] per Equity Share.

We believe that listing will enhance our corporate image and visibility of brand name of our Company. We also believe that our Company will receive the benefits from listing of Equity Shares on the SME Platform of NSE. It will also provide liquidity to the existing shareholders and will also create a public trading market for the Equity Shares of our Company.

The Offer for Sale

Our Company will not receive any proceeds of the Offer for Sale by the Selling Shareholders. Each of the selling Shareholders will be entitled to the respective proportion of the proceeds of the Offer for Sale after deducting their portion of the Offer related expenses and relevant taxes thereon. Other than the listing fees for the Offer all cost, fees and expenses in respect of the Offer will be shared amongst our Company and Selling Shareholders, respectively, in proportion to the proceeds received for the Fresh Issue and their respective portion of Offered Shares, as may be applicable, upon the successful completion of the Offer.

The Fresh Issue

Our Company proposes to utilize the funds which are being raised through the Fresh Issue, up to ₹ [●] lakhs, after deducting the Offer related expenses to the extent payable by our Company with respect to the Fresh Issue, towards funding the following objects:

1. To meet Working Capital requirements
2. General Corporate Purpose
3. To meet offer related expenses

(Collectively referred as the “Objects”)

Net Proceeds

The details of the Net Proceeds are set forth below:

Particulars	Amt (Rs. in Lacs)
Gross Proceeds of the Fresh Issue	[●]
Less: Offer related expenses*	[●]
Net Proceeds	[●]

*Except for the Listing fees, which will be borne by our Company, all other expenses relating to the Offer as mentioned above will be borne by our Company and the Selling Shareholder in proportion to the Equity Shares contributed / issued in the offer

Requirement of Funds and Utilization of Net Proceeds

The Net Proceeds are proposed to be used in accordance with the details as set forth below:

Sr. No	Particulars	Amt (Rs. in Lacs)
1.	To meet Working Capital requirements	[●]
3.	General Corporate Purpose	[●]
	Total	[●]

Our fund requirements and deployment thereof are based on internal management estimates of our current business plans and have not been appraised by any bank or financial institution. These are based on current conditions and are subject to change

Jainam Ferro Alloys (I) Limited

in light of changes in external circumstances or costs or in other financial conditions, business strategy, as discussed further below.

Means of Finance

We intend to finance our Objects of Offer through Net Offer Proceeds which is as follows:

Particulars	Amt (Rs. in Lacs)
Net Offer Proceeds	[●]
Total	[●]

Since, the entire fund requirement are to be funded from the proceeds of the Offer, there is no requirement to make firm arrangements of finance under Regulation 230(1)(e) of the SEBI ICDR Regulations through verifiable means towards at least 75% of the stated means of finance, excluding the amounts to be raised through the proposed Offer.

In case of any increase in the actual utilization of funds earmarked for the Objects, such additional funds for a particular activity will be met by way of means available to our Company, including from internal accruals. If the actual utilization towards any of the Objects is lower than the proposed deployment such balance will be used for future growth opportunities including funding existing objects, if required. In case of delays in raising funds from the Offer, our Company may deploy certain amounts towards any of the above-mentioned Objects through a combination of Internal Accruals or Unsecured Loans (Bridge Financing) and in such case the Funds raised shall be utilized towards repayment of such Unsecured Loans or recouping of Internal Accruals. However, we confirm that no bridge financing has been availed as on date, which is subject to being repaid from the Offer Proceeds.

As we operate in competitive environment, our Company may have to revise its business plan from time to time and consequently our fund requirements may also change. Our Company’s historical expenditure may not be reflective of our future expenditure plans. Our Company may have to revise its estimated costs, fund allocation and fund requirements owing to various factors such as economic and business conditions, increased competition and other external factors which may not be within the control of our management. This may entail rescheduling or revising the planned expenditure and funding requirements, including the expenditure for a particular purpose at the discretion of the Company’s management.

For further details on the risks involved in our business plans and executing our business strategies, please see the section titled **“Risk Factors”** beginning on page 27 of the Draft Prospectus.

Appraisal

Jainam Ferro Alloys (I) Limited

None of the Objects have been appraised by any bank or financial institution or any other independent third-party organization. The funding requirements of our Company and the deployment of the proceeds of the Offer are currently based on available quotations and management estimates. The funding requirements of our Company are dependent on a number of factors which may not be in the control of our management, including but not limited to variations in interest rate structures, changes in our financial condition and current commercial conditions of our Business and are subject to change in light of changes in external circumstances or in our financial condition, business or strategy.

Shortfall of Funds

Any shortfall in meeting the fund requirements will be met by way of internal accruals and or unsecured Loans.

Bridge Financing Facilities

As on the date of the Prospectus, we have not raised any bridge loans which are proposed to be repaid from the Net Proceeds.

Monitoring Utilization of Funds

As the size of the Offer will not exceed Rs.10,000 Lakhs, the appointment of Monitoring Agency would not be required as per Regulation 262(1) of the SEBI ICDR Regulations. Our Board and the management will monitor the utilization of the Net Offer Proceeds through our audit committee. Pursuant to Regulation 32 of the SEBI Listing Regulations, our Company shall on half-yearly basis disclose to the Audit Committee the Application of the proceeds of the Offer. On an annual basis, our Company shall prepare a statement of funds utilized for purposes other than stated in this Prospectus and place it before the Audit Committee. Such disclosures shall be made only until such time that all the proceeds of the Offer have been utilized in full.

Interim Use of Proceeds

Pending utilization of the offer proceeds of the Offer for the purposes described above, our Company will deposit the Net Proceeds with scheduled commercial banks included in schedule II of the RBI Act.

Our Company confirms that it shall not use the Net Proceeds for buying, trading or otherwise dealing in shares of any listed company or for any investment in the equity markets or investing in any real estate product or real estate linked products.

Variation in Objects

In accordance with Section 27 of the Companies Act, 2013, our Company shall not vary the objects of the offer without our Company being authorized to do so by the Shareholders by way of a special resolution. In addition, the notice issued to the Shareholders in relation to the passing of such special resolution shall specify the prescribed details as required under the Companies Act and shall be published in accordance with the Companies Act and the rules there under. As per the current provisions of the Companies Act, our Promoters or controlling Shareholders would be required to provide an exit opportunity to such shareholders who do not agree to the proposal to vary the objects, at such price, and in such manner, as may be prescribed by SEBI, in this regard.

Other confirmations

There are no material existing or anticipated transactions with our Promoter, our Directors, our Company's key Managerial personnel, in relation to the utilization of the Net Proceeds. No part of the Net Proceeds will be paid by us as consideration to our Promoters, our Directors or key managerial personnel except in the normal course of business and in compliance with the applicable laws.

STATEMENT OF TAX BENEFITS

To,
The Board of Directors,
Jainam Ferro Alloys (I) Limited
Plot No. 103 to 113 & 130 to 136/A & 137,
Sector-C, Urla Industrial Area, Raipur, Chhattisgarh - 492003, India

Sub: Statement of Possible Tax Benefits (“The Statement”) available to Jainam Ferro Alloys (I) Limited (“The Company”) and its shareholders prepared in accordance with the requirement of Securities and Exchange Board of India (Issue of Capital Disclosure Requirements) Regulations 2018, as amended (“The Regulation”).

We hereby report that the enclosed annexure prepared by Jainam Ferro Alloys (I) Limited, states the possible special Tax benefits available to Jainam Ferro Alloys (I) Limited (“the Company”) and the shareholders of the Company under the Income - Tax Act, 1961 (‘Act’), presently in force in India. Several of these benefits are dependent on the Company or its shareholders fulfilling the conditions prescribed under the relevant provisions of the Act. Hence, the ability of the Company or its shareholders to derive the tax benefits is dependent upon fulfilling such conditions which, based on business imperatives, the Company may or may not choose to fulfill.

The benefits discussed in the enclosed Annexure cover only special tax benefits available to the Company and do not cover any general tax benefits available to the Company Further , the preparation of enclosed statement and the contents stated therein is the responsibility of the Company’s management. We are informed that, this Statement is only intended to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of the tax consequences and the changing tax laws, each investor is advised to consult his or her own tax consultant with respect to the specific tax implications arising out of their participation in the proposed initial public offering of equity shares (“the Issue”) by the Company.

We do not express any opinion or provide any assurance as to whether:

- a) The Company or its Equity Shareholders will continue to obtain these possible special income-tax benefits in future; or
- b) The conditions prescribed for availing the possible special income-tax benefits have been/would be met with; or
- c) The revenue authorities/courts will concur with the views expressed herein.

The contents of the enclosed statement are based on information, explanations and representations obtained from the Company and on the basis of our understanding of the business activities and operations of the Company.

Limitations:

Our views are based on facts and assumptions indicated to us and the existing provisions of tax law and its interpretations, which are subject to change or modification from time to time by subsequent legislative, regulatory, administrative, or judicial decisions. Any such changes, which could also be retrospective, could have an effect on the validity of our views stated herein. We assume no obligation to update this statement on any events subsequent to its issue, which may have a material effect on the discussions herein. This report including enclosed annexure are intended solely for your information and for the inclusion in the Draft Prospectus/ Prospectus or any other issue related material in connection with the proposed initial public offer of the Company and is not to be used, referred to or distributed for any other purpose without our prior written consent. This statement has been prepared solely in connection with the Proposed Offer by the Company under the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended.

ANNEXURE TO THE STATEMENT OF POSSIBLE TAX BENEFITS

The information provided below sets out the possible special tax benefits available to the Company and the Equity Shareholders under the Income Tax Act 1961 presently in force in India. It is not exhaustive or comprehensive and is not intended to be a substitute for professional advice. Investors are advised to consult their own tax consultant with respect to the tax implications of an investment in the Equity Shares particularly in view of the fact that certain recently enacted legislation may not have a direct legal precedent or may have a different interpretation on the benefits, which an investor can avail.

YOU SHOULD CONSULT YOUR OWN TAX ADVISORS CONCERNING THE INDIAN TAX IMPLICATIONS AND CONSEQUENCES OF PURCHASING, OWNING AND DISPOSING OF EQUITY SHARES IN YOUR PARTICULAR SITUATION.

A. SPECIAL TAX BENEFITS TO THE COMPANY : NIL

B. SPECIAL TAX BENEFITS TO THE SHAREHOLDER : NIL

Note:

1. All the above benefits are as per the current tax laws and will be available only to the sole / first name holder where the shares are held by joint holders.
2. The above statement covers only certain relevant direct tax law benefits and does not cover any indirect tax law benefits or benefit under any other law.

No assurance is given that the revenue authorities/courts will concur with the views expressed herein. Our views are based on the existing provisions of law and its interpretation, which are subject to changes from time to time. We do not assume responsibility to update the views consequent to such changes. We do not assume responsibility to update the views consequent to such changes. We shall not be liable to any claims, liabilities or expenses relating to this assignment except to the extent of fees relating to this assignment, as finally judicially determined to have resulted primarily from bad faith or intentional misconduct. We will not be liable to any other person in respect of this statement.

SECTION IV – ABOUT THE COMPANY

INDUSTRY OVERVIEW

The information in this section has been extracted from various websites and publicly available documents from various industry sources. The data may have been re-classified by us for the purpose of presentation. Neither we nor any other person connected with the issue has independently verified the information provided in this section. Industry sources and publications, referred to in this section, generally state that the information contained therein has been obtained from sources generally believed to be reliable but their accuracy, completeness and underlying assumptions are not guaranteed and their reliability cannot be assured, and, accordingly, investment decisions should not be based on such information.

Global Scenario

The pandemic raised unprecedented health challenges on a global scale and posed unique policy dilemmas. Since 2018, the growth momentum in global output was on a weakened footing owing to various factors like trade tensions, political instability, slowed demand and reduction in industrial activity. COVID-19 pandemic accentuated the deceleration by causing severe demand and supply disruptions. Economic activity has been belaboured by reduced mobility, owing both to official restrictions and private decisions; uncertainty regarding the post-pandemic economic prospects and policies has impacted investment; disruptions in education have decelerated human capital accumulation; concerns about the viability of global value chains; and the adverse impact on international trade and tourism.

Global output is expected to witness the sharpest contraction in a century, contracting in the range of 3.5 - 4.3 per cent in 2020 as per the estimates provided by IMF and World Bank. The cumulative loss to global GDP over 2020 and 2021 is estimated at around USD 9 trillion – greater than the economies of Japan and Germany combined. Loss of output is anticipated to be more severe in AEs at 5.4 per cent compared to EMDEs, excluding China, which stood at 5.0 per cent for the year 2020. This is aligned with the more severe impact of the pandemic spread in AEs than EMDEs as was seen above. The estimates for global growth were revised upward through the year with easing of lockdowns and resurgence in economic activity in July-September quarter of the year. The rebound in global activity has, however, been uneven and subdued since the beginning of second half of the year due to resurgence in COVID-19 infection rates in AEs.

Global financial conditions have remained accommodative on the back of continued policy support via unprecedented swift interventions by Central banks. Despite subdued activity and a highly uncertain outlook, global equity markets have rebounded at a faster pace from the March lows, though with notable differentiation across countries, depending on the spread of the virus, the scope of policy support, and sectoral composition. Behind the broad rebound of risky assets, there are clear signs of differentiation across sectors. Some sectors (such as airlines, hotels, energy, and financials) have been more affected by the lockdown and social distancing, whereas those that are less contact-intensive (information technology, communications) have fared better. US dollar index has weakened by 7.4 per cent on year-to-date basis in comparison to most G-10 currencies with countries adopting various policies to alleviate downward pressure on their exchange rates.

Jainam Ferro Alloys (I) Limited

Most commodity prices rebounded from their mid-2020 lows as strict lockdowns were gradually lifted and demand firmed, especially from China. The recovery in oil prices was more modest amid concerns over the pandemic’s lasting impact on oil demand. Gold emerged as a safe-haven investment in the backdrop of the pandemic prices with prices increasing by 26.2 per cent in November, 2020 as compared to December, 2019. Food prices also surged during the year reflecting supply chain disruptions. As a result of weak demand and subdued energy prices, inflation moderated in most part of the world, deflationary pressure emerged in major AEs. Fall in inflation in EMDEs was less broad based than in AEs, reflecting the effects of sharp currency depreciations as well as rising domestic food prices in some countries.

Indian Economy Overview

The year 2020 was predominated by the COVID-19 pandemic, posing the most formidable economic challenge to India and to the world, since the Global Financial Crisis. Global economic output is estimated to fall by 4.4 per cent in 2020, the sharpest contraction in a century. COVID-19 put emergency brake on an economy that was gaining momentum at the start of the year 2020. India's GDP is estimated to grow by (-)7.7 per cent in FY2021, composed of a sharp 15.7 per cent decline in H1 and a modest (-)0.1 per cent fall in the second half. Inflation, mainly driven by food prices, remained above 6 per cent for much of the year, given supply disruptions. The softening of CPI inflation recently reflects easing of supply side constraints that affected food inflation.

The weak demand led to a sharper contraction in imports than exports, with Forex reserves rising to cover 18 months of imports. Sharp rise in commercial paper issuances, easing yields, and sturdy credit growth to MSMEs, portend a revamped credit flow mechanism for enterprises to survive and grow.

As part of India's four-pillar strategy, calibrated fiscal and monetary support was provided attuned to the evolving economic situation, cushioning the vulnerable in the lockdown and boosting consumption and investment while unlocking. Long-pending structural reforms in agriculture, mining, labour, etc. were concurrently undertaken for the economy to return to the potential growth path, keeping super-hysteresis at bay. The estimated real GDP growth for FY 2022 at 11 per cent is the highest since independence.

OVERVIEW: SHORT TERM

To facilitate a resilient recovery of the economy from the impact of COVID-19 pandemic, Government of India adopted a calibrated approach best suited for the evolving situation of the economy in contrast with a front-loaded large stimulus package adopted by many countries.

The expenditure policy in 2020-21 changed according to the needs of an evolving situation. It was initially aimed at supporting the vulnerable sections but once the lockdown was unwound, it was re-oriented to reinflating overall demand through capital spending.

Owing to the recovery of the economy, the monthly GST collections have crossed the ₹ 1 lakh crore mark consecutively for the last 3 months. Reforms in tax administration have set in motion a process of transparency, accountability and enhancing the experience of a tax-payer with the tax authority.

The GoI announced a remedial and reform package (Atmanirbhar Bharat Abhiyan) comprising of stimulus of package amounting to 15 per cent of India's GDP.

During FY20, total FDI equity inflows were US\$49.98 billion as compared to US\$44.37 billion during FY19. The similar number for FY21 (up to September-2020) was US\$30.0 billion. The bulk of FDI equity flow is in the non-manufacturing sector leading to a reduction in the share of manufacturing in the FDI flows. Within the manufacturing sector, industries like automobile, telecommunication, metallurgical, non-conventional energy, chemical (other than fertilizers), food processing, and petroleum & natural gas get the bulk of FDI equity flows.

With the objective of enhancing India's manufacturing capabilities and exports, the GoI has introduced the Production-Linked Incentive (PLI) Scheme in the 10 key sectors under the aegis of Atmanirbhar Bharat.

GLOBAL FERRO ALLOYS INDUSTRY

Ferroalloys are a group of materials composed of iron and one or more additional elements which are usually used as addition agents primarily in the manufacture of steel. Ferroalloys are incorporated into the molten stage of the steelmaking process for the purpose of producing specific properties in the steel [1]. The main focus of this paper is to review the structure and trends in bulk ferroalloys—ferrochromium (FeCr), ferromanganese (FeMn), ferrosilicon (FeSi), and silicomanganese (SiMn)—in

Jainam Ferro Alloys (I) Limited

North America. In addition, ferroboration (FeB), ferromolybdenum (FeMo), ferronickel (FeNi), ferroniobium (FeNb), ferrotitanium (FeTi), ferrotungsten (FeW), and ferrovandium (FeV) are included in some of the analysis.

The major ferroalloys producing countries were China, South Africa, India, Russia and Kazakhstan. The production of ferroalloys in China during 2018 was 31,234 thousand tonnes, while production of ferrochrome in South Africa during 2018 was 3,700 thousand tonnes. The markets for the bulk alloys like high-carbon ferromanganese, silicomanganese, ferrosilicon and high-carbon ferrochrome showed varied responses to the fluctuations in steel and stainless steel production which seem to have influence as per the different circumstances that prevailed in different markets.

(Source: http://www.ifapaindia.org/About_us.aspx)

Prospects for the development of the global ferroalloy industry are determined primarily by the corresponding trends in the “large” metallurgy, especially in the production of high-quality (special) steels, which consumes the bulk of the ferroalloys produced. By 2020, global steel production will increase to 1.814 billion tonnes in the Russian Federation, steel production will be about 78 million tonnes. The growth in steel production, including steel of special high-alloy grades, entails the need to increase the production of ferroalloys – chromium, manganese, silicon, nickel.

Dynamics of world production of ferroalloys for the period 2008 – 2018 is shown. The world structure of production of ferroalloys has not undergone significant changes in recent years and corresponds to their world consumption. In the world, manganese alloys are in first place in terms of production volumes. In Russia, manganese alloys also occupy the first place in production growth: in 2015, 10.8%, and in 2018, 25.8%, with more than 2 times growth. Among the ferroalloys on the Russian market in 2018, one can distinguish ferrosilicon with a share in the production volume of 49.39% and ferrochrome – 13.92%.

INDIAN FERRO ALLOYS INDUSTRY

Ferro-alloys are one of the important inputs in the manufacture of alloys and special steel. They impart special properties to steel. The alloys provide increased resistance to corrosion, improves hardness and tensile strength at high temperature, gives wear and abrasion resistance and increases creep strength, etc. The growth of Ferro-alloys Industry is, thus, linked with the development of the Iron and Steel Industry, Foundry Industry and to some extent Electrode Industry. The principal ferroalloys are chromium, manganese and silicon. The product series consists mainly of ferro-manganese, silico-manganese, ferro-silicon and ferro-chrome.

Ferro-alloys are classified into two main categories, viz, bulk ferro-alloys and noble ferroalloys. Owing to high cost of power, Ferro-alloys Industry has not been operating to its full capacity in India. The Electricity cost accounts over 40 % to 70 % of total cost of production, depending on the Ferro Alloys produced.

At present, major portion of the ferro-alloys produced is exported. Ferro-manganese, silicomanganese, ferro-silicon, high carbon ferro-chrome and charge-chrome are exported after meeting the domestic requirements. India has sufficient highly skilled technical manpower and the latest equipment technology for production of ferro-alloys.

India ranks 1st in the world for the export of Sillico Manganese & ranks 4th in the world for export of Ferro Manganese

The Industry structure (By capacity) represents as follows:

Capacity	Million Tonnes (MT)
Manganese Alloys	3.16
Chromium Alloys	1.69
Ferro Silicon	0.25
Noble Alloys	0.05
TOTAL	5.15

Ferro-manganese/Silico-manganese

Ferro-manganese is produced as high carbon ferro-manganese with 72-82% Mn, 6-8% C and 1.5% Si, medium carbon ferro-manganese with 74-82% Mn, 1-3% C and 1.5% Si and low carbon ferromanganese with 80-85% Mn, 0.1-0.7% C and 1-2% Si. Manganese in the form of ferro-manganese is added for hardening and desulphurisation of steel.

Silico-manganese, a combination of 60-70% manganese, 16-28% silicon and 1.5 to 2.5% carbon is used as a more effective deoxidizing agent than high carbon ferromanganese in the production of various types of steels. It is also used as feedstock to produce refined alloys like medium and low carbon ferromanganese. It consumes around 4,750 to 5,250 kWh power per tonne of silico-manganese produced. Silico-manganese has emerged as a more important alloy than ferro-manganese. The country, thus, has emerged as a leading producer of silico-manganese. Silico-manganese was also produced by a number of small-scale ferro-alloy producers. The total production of ferromanganese in 2017-18 was about 5,18,000 tonnes which remained same in 2018-19. The estimated consumption of ferromanganese was 50,800 tonnes in 2017-18. The production of silicomanganese (including medium-carbon & lowcarbon silicomanganese) which was about 3,11,326 tonnes in 2017-18

Jainam Ferro Alloys (I) Limited

increased to 3,45,291 tonnes in 2018-19. In 2017-18, the total consumption of silicomanganese by all industries has been estimated at 1,22,600 tonnes.

Source: <https://ibm.gov.in/writereaddata/files/08012020124231Ferroalloys2019.pdf>

Ferrochrome/Chargechrome

Ferrochrome when added to steel imparts hardness, strength and augments its stainless characteristics. For every tonnes of stainless steel (depending on the grade), there is 17-23% of chrome content is required. Hence, if the stainlesssteel Industry grows, the ferrochrome Industry also grows. Carbon content classifies the ferrochrome alloy into high-carbon (6-8%), medium-carbon (3-4%) and low-carbon (1.5-3%), although chromium content in all the three grades is around 60-70%. Around 2.5 tonnes chrome ore with an estimated power consumption of 4,500 kWh is required to produce one tonne of ferrochrome. Ferrochrome is produced by electric carbothermic reduction of chromite

The total production of ferrochrome/charge chrome in 2017-18 was about 9,44,000 tonnes which remained same in 2018-19. The consumption of ferrochrome was estimated at 14,600 tonnes in 2017-18.

Ferrosilicon

Ferrosilicon contains about 75-90% silicon and minor amounts of iron, carbon, etc. It is produced by using quartzite, iron ore, coke and electrode paste. Around 1.75 to 2 tonnes quartzite is required to produce one tonne of ferrosilicon. A very high consumption of power, i.e., 9,000 to 10,000 kWh is required to produce one tonne of ferrosilicon. It is a powerful deoxidising agent and its major applications are in electrical steel used for transformers and dynamos, alloy steel for tools & automobile valves and in iron casting and mineral dressing. Ferrosilicon is used by the military to quickly produce hydrogen for balloons. For this, chemical reaction of sodium hydroxide, ferrosilicon and water is utilised.

NOBLE FERROALLOYS

Noble ferroalloys are one of the vital additive inputs required especially in production of alloy and special steel. Noble ferroalloys also refer to alloys used in small quantities and are relatively expensive compared to bulk ferroalloys. These are used in the production of steel as deoxidant and alloying agents. These high temperature alloys impart strength, resistance and stability within a temperature range from 260 to 1,200 oC. These alloys are used generally in turbine engines, power plants, furnaces and all pollution control equipment. Noble ferroalloys include ferrovanadium, ferrotitanium, ferronickel, ferromolybdenum, ferrotungsten and ferroniobium. In India, noble ferro-alloys are mostly manufactured through aluminothermic process.

Ferronickel

The consumption and production of ferronickel were not reported in the Organised Sector.

Ferromolybdenum

There were five important Units, namely, Mehra Ferroalloys, Electro Ferroalloys Pvt. Ltd, India Thermit Corporation, Bharat Pulverising Mills Ltd and Sunbel Alloys Co. of India Ltd. The all India production decreased considerably by 17% to 1,003 tonnes in 2018-19 as compared 1,205 tonnes in 2017-18.

Ferrotungsten

The consumption and production of ferrotungsten in 2018-19 were not reported in the Organised Sector. Ferrovanadium Production of ferrovanadium in 2017-18 was 1,331 tonnes which decreased considerably by 24% to 1,013 tonnes in 2018-19.

Manganese Ore

Manganese ore is silvery in colour and very hard and brittle in nature. It is always available in combination with iron, laterite and other minerals. Manganese in Alloy form is an essential input in steel making and is one of the most important metals in an industrial economy. Manganese of major commercial importance are: Pyrolusite (MnO – Mn about 63.2%) (ii) psilomelane (manganese oxide) containing water and varying amounts of oxides of Ba, K and Na as impurities; Mn commonly 45-60%) (iii) manganite (Mn₂O₃·H₂O, Mn about 62.4%) and (v) braunite (3Mn₂O₃·MnSiO₃ – Mn about 62% and SiO₂ about 10%)

Indian manganese ore deposits occur mainly as metamorphosed bedded sedimentary deposits associated with Gondite Series (Archaeans) of Madhya Pradesh, (Balghat, Chhindwara & Jhabua districts), Maharashtra (Bhandara & Nagpur districts), Gujarat (Pasnchmahal district), Odisha (Sundargarh district) and with Kodurite Series (Archaeans) of Odisha (Ganjam and Koraput districts) and Andhra Pradesh (Srikakulam and Vishakapatnam districts)

Resources

The total reserves/resources of manganese ore in the country as on 1.04.2015 has been placed at 495.87 million tonnes as per NMI database, based on UNFC system. Out of these, 93.47 million tonnes are categorised as Reserves and the balance 402.40 million tonnes are in the Remaining Resources category. Gradewise, Ferromanganese grade accounts for 7%, Medium grade 11%, BF grade 28% and the remaining 54% are of Mixed, Low, Others, Unclassified, and Not-known grades including 0.17 million tonnes of Battery/Chemical grade. Statewise, Odisha tops the total reserves/ resources with 44% share followed by Karnataka 22%, Madhya Pradesh 12%, Maharashtra & Goa 7% each, Andhra Pradesh 4% and Jharkhand 2%. Rajasthan, Gujarat, Telangana and West Bengal together shared the remaining 2% resources.

Uses & Specifications

Classification of manganese ore, ferruginous manganese ore, siliceous manganese ore, dioxide manganese ore and manganiferous iron ore is laid down by BIS vide specifications no. IS:11895-2006 (Reaffirmed 2008) Manganese ore is an important material in iron and steel metallurgy, where it is used both in the ore form as such and as Ferro manganese. Manganese improves strength, toughness, hardness and workability of steel, acts as a deoxidizer and desulphuriser and also helps in getting ingots free from blowholes. About 90 to 95% world production of manganese ore is used in metallurgy of iron and steel. Manganese has no satisfactory substitute in its major applications. The specifications of manganese ore by different industries are detailed below:

In iron & steel industry specification is laid down for manganese ore (BIS:11281-2005) However, specification based on the user industry indicate that normally manganese ore containing 28 to 35%Mn is used. Ore size generally varies from 10 to 40mm.

For manganese ore used in Ferro manganese industry, besides manganese content other important considerations are high manganese to iron ratio and a very low content of deleterious phosphorus. Specifications of manganese ore for Ferro manganese are prescribed by BIS (IS:4763-2006) BIS has also laid down specification of manganese ore sinters for blending for Ferro manganese production (IS:12596-1989)

Consumption

The consumption of manganese ore in all industries was about 2.06 million tonnes in 2018-19 as against 2.70 million tonnes in 2017-18. Ferroalloys industries accounted for about 89% consumption followed by Iron & Steel (10%). The remaining (1%) was shared by Battery, Electrode, Chemical, Zinc Smelter and Alloy Steel industries (Table- 9). The consumption of ferromanganese in 2018-19 decreased by 36% to 51 thousand tonnes from 79 thousand tonnes in the previous year. Iron & steel Industry was the bulk consumer of ferromanganese accounting for about 87% consumption in 2018-19. The remaining 13% was consumed in alloy steel, foundry and electrode industries. Consumption of silicomanganese which was 161 thousand tonnes in 2017-18 decreased to 123 thousand tonnes in 2018-19

Industry

Manganese alloys are the largest produced ferroalloys in the world with a share of about 41% of the global production of ferroalloys. For production of one tonne of ferro manganese, about 2.6 tonnes of manganese ore, 0.5 tonne of reductant and 3

Jainam Ferro Alloys (I) Limited

MWh of electricity inputs are required. As per Indian Ferro Alloys Producers' Association (IFAPA), the total installed capacity of manganese alloys including ferromanganese/silicomanganese in the country was estimated to be around 3.16 million tonnes per annum

Ferro Manganese

The total production of various types of manganese alloys (high-carbon ferromanganese, medium-carbon ferromanganese and low-carbon ferromanganese) was about 5.18 lakh tonnes in 2018-19

Silico Manganese

Silico Manganese is combination of 60-70% Mn, 10-20% silica and about 20% carbon. As per Monthly Statistics of Mineral Production (March, 2019- Final Release), production of silico-manganese was reported at 3,45,291 tonnes in 2018-19 as compared to 3,11,326 tonnes in 2017-18. The major factor driving the production of manganese alloys is high production growth of low nickel austenitic stainless steel. India is emerging as the largest producer of this steel where manganese is added substituting the expensive nickel.

Imports:

Imports Imports of ferroalloys (total) decreased marginally by 7% to 5,08,008 tonnes in 2018-19 from 5,44,264 tonnes in the previous year. In terms of value, the ferroalloys import increased to ₹ 7,573 crore in 2018-19 from ₹ 6,617 crore in 2017- 18. Out of total imports in terms of quantity, imports of ferrosilicon accounted for about 44% followed by ferromanganese (24%), ferronickel (17%), ferrochrome (6%) and chargechrome (4%). Other ferroalloys together accounted for the remaining 5% of the imports in 2018-19. Imports were mainly from Bhutan (21%) followed by Malaysia (17%), China (14%), Indonesia & South Africa (9% each), Japan (4%) Korea Republic of, Russia & Singapore (3% each) and Brazil (2%) (Tables- 27 to 44).

FUTURE OUTLOOK

Depending on the process of steel making and the type of steel being manufactured, the requirement of different ferroalloys varies widely. Indian Ferroalloys Industry has immense potential and capability to compete in the international market. On the positive side, India produces some of the finest ferroalloys in the world. Indian ferroalloys are extensively preferred in Europe. India exports potential is indeed bright with very high growth prospects.

As per the steelworld report, ferroalloys Industry is estimated to grow at a CAGR of 5.9% between 2017 to 2025 and is expected to reach a valuation of US\$ 188.7 Bn by 2025. India is expected to show strong growth in usage of steel in the coming years because of its robust economy, massive infrastructure needs and expansion of industrial production. India is expected to become one of the leading steel consuming nations in the next decade. In this scenario, the Ferroalloys Industry estimates that the consumption of ferroalloys will increase domestically and internationally in the coming years. Some of the Ferroalloy Producers have already gone for expansion and some new units are coming up.

As per the National Steel Policy, 2017, Ferroalloy is a power intensive industry. Hence, captive power generation in the ferroalloys plants will be extensively supported. Since the demand for ferroalloys is likely to grow along with steel production in the country, the Industry would have to be encouraged to set up larger units to achieve adequate economies of scale. Efforts in the direction of providing necessary raw materials linkages and stable supply of power to the Ferroalloy units must be rendered priority.

OUR BUSINESS

Some of the information contained in the following discussion, including information with respect to our plans and strategies, contain forward-looking statements that involve risks and uncertainties. You should read the section “Forward-Looking Statements” for a discussion of the risks and uncertainties related to those statements and also the section “Risk Factors” for a discussion of certain factors that may affect our business, financial condition or results of operations. Our actual results may differ materially from those expressed in or implied by these forward looking statements. Our fiscal year ends on March 31 of each year, so all references to a particular fiscal are to the Twelve-month period ended March 31 of that year. In this section, a reference to the “Jainam Ferro”, “Company” or “we”, “us” or “our” means Jainam Ferro Alloys (I) Limited.

All financial information included herein is based on our “Financial information of the Company” included on page 146 of this Draft Prospectus.

OVERVIEW

Our Company was originally incorporated as Jainam Infraways Private Limited in March 2014. We are currently manufacturing two types of Ferro Alloys namely, Ferro Manganese (FeMn) and Silico-manganese (SiMn). Both the alloys are largely used in Steel industry. Ferro-manganese adds strength, toughness and other properties to steel. Silico manganese provides additional silicon which is a stronger De-oxidant in manufacturing steel. Our Company also generates revenue from its trading activities of manganese ore, used as a raw material in manufacturing Ferro alloys.

In the year 2016, our Company took over the ferro alloy plant of M/s Raghuvir Ferro Alloys Private Limited vide Sale deed dated June 21, 2016. Pursuant to the sale deed the company acquired the entire factory of M/s Raghuvir Ferro Alloys Private Limited having its factory located at Plot No. 103 to 113 & 130 to 136/A & 137, Sector-C, Urla Industrial Area, Raipur, Chhattisgarh- 492003, India including Super Structure Factory Shed, Administrative Buildings, Plant and Machinery, Weigh Bridge, Electrical Installation, Office equipment together with all rights, concessions, licenses and other privileges and the allotted manganese ore mines at K.H. No. 8/2, 9/1, 10/1, 10/2 and 14/1, Village Jagantola, Tehsil – Baihar, District Balaghat, Madhya Pradesh with valid lease period upto 2028 which was later extended upto 2058 by the State Government vide Extension Lease Deed dated April 11, 2018. The Company has not yet started extraction of manganese ore from these mines as the transfer of said mines to the name of the company in records of State Govt of Madhya Pradesh is yet pending.

Thereafter we started commercial production of Ferro alloys of the different grades with one furnace having designed capacity of 9 MVA with 5000 KVA power load. In June 2017, the company started another furnace having designed capacity of 6 MVA with 4000 KVA power load for the same manufacturing activity. The products manufactured by our Company are primarily used in manufacturing of steel and in foundry activities. It is used as an alloying element which enhances some key physical properties of steel like elasticity, ultimate tensile, strength and toughness etc. Sometimes addition of some elements in the form of alloys is done deliberately to liquid steel for developing abrasion resistance, wear resistance and corrosion resistance properties. Apart from using manganese alloys for alloying the steel, they are also widely used for deoxidizing, desulphurization & refining of steel. Phosphorus and other elements can also be controlled depending on customer specification. Smaller quantities of alloys are used as reductant in order to produce other metals. Besides their use in plain carbon steel and alloy steel plants, Ferro alloys are consumed by the foundries and electrode industries. A very specific application of refined manganese alloys is a constituent in the coating of welding electrodes. In ceramic industries, manganese alloys are used in small quantities.

As per the Restated Financial statements, our revenue from operations for the Financial year ended on March 31, 2021, 2020 and 2019 were ₹ 10152.95 lakhs, ₹ 12144.46 lakhs and ₹ 13159.30 lakhs, respectively. Our Profit after Tax for the similar period was ₹ 311.77 lakhs, ₹ 86.41 lakhs and ₹ 288.57 lakhs respectively.

OUR PRODUCTS:

1. HIGH CARBON FERROMANGANESE: HCFeMn:

Ferro Manganese is primarily an alloy of manganese and iron. It contains a high content of manganese and used in steel products wherein silicon content needs to be controlled at low levels. It is mainly used in the production of flat steel, manganese-rich steel and stainless steel products.

Chemical Composition

Our product can be variably differentiated with different chemical composition. Since chemicals play an important role in the usage of the product, it is necessary to manufacture the product with the defined chemical composition. The below table elaborates different variants of typical grades available.

Grade	Manganese Min	Ferro Max	Carbon Min - Max	Phosphorous Max	Sulphur Max	Silicon Max.
HCFeMn	65-70%	20%	6 - 8%	0.35%	0.05%	2.00%

Grade	Manganese Min	Ferro Max	Carbon Min - Max	Phosphorous Max	Sulphur Max	Silicon Max.
HCFeMn	70-75%	15%	6 - 8%	0.35%	0.05%	2.00%

Grade	Manganese Min	Ferro Max	Carbon Min - Max	Phosphorous Max	Sulphur Max	Silicon Max.
HCFeMn (Jipped Chips Black)	66-67%	23%	6 - 8%	0.35%	0.05%	2.00%

*Min- Minimum
Max - Maximum

Sizing

25 – 150mm – maximum 10 % undersize
 10 – 50 mm – maximum 10 % undersize
 3 – 10 mm – maximum 5 % undersize.
 All sizes: Maximum 10 % oversize.
 Other sizes are also available on request.

PHYSICAL DATA

Density: approx. 7.3 g/cm³
 Bulk density: approx. 4000 kg/m³
 Melting range: 1050°c – 1250°c

CHARACTERISTICS

It is lumpy material with a metallic surface that becomes covered with a dark layer of oxides during storage. HCFEMn is usually delivered as bulk. Packing in big bags and other packaging is on request.

EFFECTS OF THE ADDITION OF FERROMANGANESE TO STEEL: Manganese has an important influence on the structure and properties of steel, depending on the amount used and the combined effect with other alloying elements. Among all other alloying elements, manganese has the strongest effect on the hardening of steels. Manganese improves the tensile strength, workability, toughness, hardness and resistance to abrasion. It also reacts with the remaining sulphur in the steel, thus preventing hot shortness.

2. HIGH CARBON SILICOMANGANESE : HCSiMn:

This is ferro alloys with elevated contents of manganese and silicon.

CHEMICAL COMPOSITION

Our product can be variably differentiated with different chemical composition. Since chemicals play an important role in the usage of product, it is necessary to manufacture the product with the defined chemical composition. The below table elaborates different variants of typical grades available.

Grade	Manganese Min	Ferro Min	Carbon Min - Max	Phosphorous Max	Sulphur Max	Silicon Min
HCSiMn	60-65%	18%	2%	0.35%	0.05%	14-15%

Grade	Manganese Min	Ferro Min	Carbon Min - Max	Phosphorous Max	Sulphur Max	Silicon Min
HCSiMn (Jipped Chips Black)	60-65%	18%	2%	0.35%	0.05%	14-15%

SIZING

25 – 150 mm – maximum 10 % undersize
 10 – 50 mm – maximum 10 % undersize
 3 – 10 mm – maximum 5 % undersize.
 All sizes: Maximum 10 % oversize.
 Other sizes are also available on request.

PHYSICAL DATA

Density: approx.6.1g/cm³
 Bulk density: approx. 3200 kg/m³
 Melting range: 1060°c – 1285°c

CHARACTERISTICS

It is lumpy material with a silvery metallic surface.

HcSiMn is usually delivered as bulk. Packing in big bags and other packaging is on request.

EFFECTS OF THE ADDITION OF SILICOMANGANESE TO STEEL: Both silicon and manganese have an important influence on the properties of steel, depending on the amount added and the combined effect with other alloying elements. Silicon and manganese have a strong affinity for oxygen and will act as deoxidisers. Deoxidation with SiMn results in cleaner steel, as the liquid manganese silicate formed coagulates and separates easier from the melt, compared to solid silico-dioxide (SiO₂) formed during Ferro-silico (FeSi) deoxidation. Use of silicomanganese adds less carbon to steel. These products are offered in various profiles with a range of finish, tolerance and tempers for general and specific applications, in various specifications such as sizes, chemical composition etc. as per customer requirements.

Our Competitive Strengths

We believe that the following are our primary competitive strengths:

➤ **Quality Assurance**

Our Company is dedicated towards quality of our products, processes and input raw material. Our Company had been accredited with “ISO 9001:2015” Certification for Quality Management System and “ISO 14001:2015” Certification for Environmental Management System for Manufacturing of Ferro Alloys such as Ferro Manganese & Silico Manganese. We adhere to quality standards as prescribed by our customers to meet the desired chemical composition; hence we get repetitive orders from our buyers. Delivering Quality products on time is one of our prime objective. We dedicate resources for quality assurance to ensure that quality norms are continually met. We also have quality control checks before any consignment of Raw material is accepted since it has a direct impact on the quality of Finished Product.

➤ **Technical expertise and Operational Excellence**

We have experienced employees having technical and commercial backgrounds. Our company feels that the strength of any successful organization lies in the experience and guidance of its team leaders and staff alike. A lot of care is taken in choosing the right people for the right job. Our management has gained efficiency in the application of marketing and distribution initiatives in this sector. Thus the whole team of the company has been instrumental in the growth of Company’s sustainability. Our attention to process optimization to achieve the highest safety and quality has resulted in a culture of operational excellence. The strategic location of our factory facilitates with proper transportation of raw material and dispatch of finished goods, availability of power, fuel, water and other utilities.

➤ **Strategic location of manufacturing unit**

Our manufacturing facility is located in Urla Industrial Area, Raipur. Being strategically located, we gets easy access to labors having experience in ferro alloy industry as well as local raw material supplies. Our Plant is has good connectivity to roads which facilitates ease transportation of raw material and finished goods. Due to aforesaid reasons, we believe that the location of our manufacturing unit brings cost efficiencies in procurement of manpower and raw material and also reduce logistic cost which helps us to achieve economies of scale.

➤ **Strong & long-term relationship with our clients**

Jainam Ferro Alloys (I) Limited

We maintain long terms relationships with our key customers by providing quality products as per their requirements and specifications. Our long standing partnerships with our customers are also built on our successful execution of prior orders. We believe our track record of timely delivery of quality products has helped in forging strong relationships with our customers.

Our Strategies

1. Optimal Utilization of Resources and Installed Capacities

The Company's strategy is to operate the business in an efficient & effective way so as to supply quality products that satisfy its customer's needs and add value to its business. The focus of the Company will be to increase the contribution on the products by reducing the cost of production, control over logistics and command high prices through gradual shifting to value added products and to ensure long term sustainability of the Company. Our main thrust is on saving the Power cost which is quite significant in our industry with the use of technology and processes. Our Company constantly endeavors to improve our process, skill up-gradation of our employees, modernization of infrastructure, equipment's and methods of processing. We regularly analyze our existing process and to identify the areas of bottlenecks and correct the same in a timely manner. By taking the timely corrective action we can make optimal utilization of our resources and expand the manufacturing facility by increasing the volume of productions and adding more products to the portfolio. We look forward to build a self-sufficient and fully integrated manufacturing facility and shall continue to invest in increasing our operational efficiency throughout the organization.

2. Enhance customer base by entering new geographies to establish long-term relationships

We intend to cater to the increasing demand of our existing customers and also to increase our existing customer base by enhancing the distribution reach of our products in different parts of the country. Our Company operates from Raipur in India. Furthermore, we have deployed commission agents/brokers which thereby results in increase of our sales. We propose to increase our marketing and sales team which can focus in different regions and also maintain and establish relationship with customers. Enhancing our presence in additional regions will enable us to reach out to a larger population. Further, our Company believes in maintaining long term relationships with our customers in terms of increased sales. We aim to achieve this by adding value to our customers through innovation, quality assurance, timely delivery, and reliability

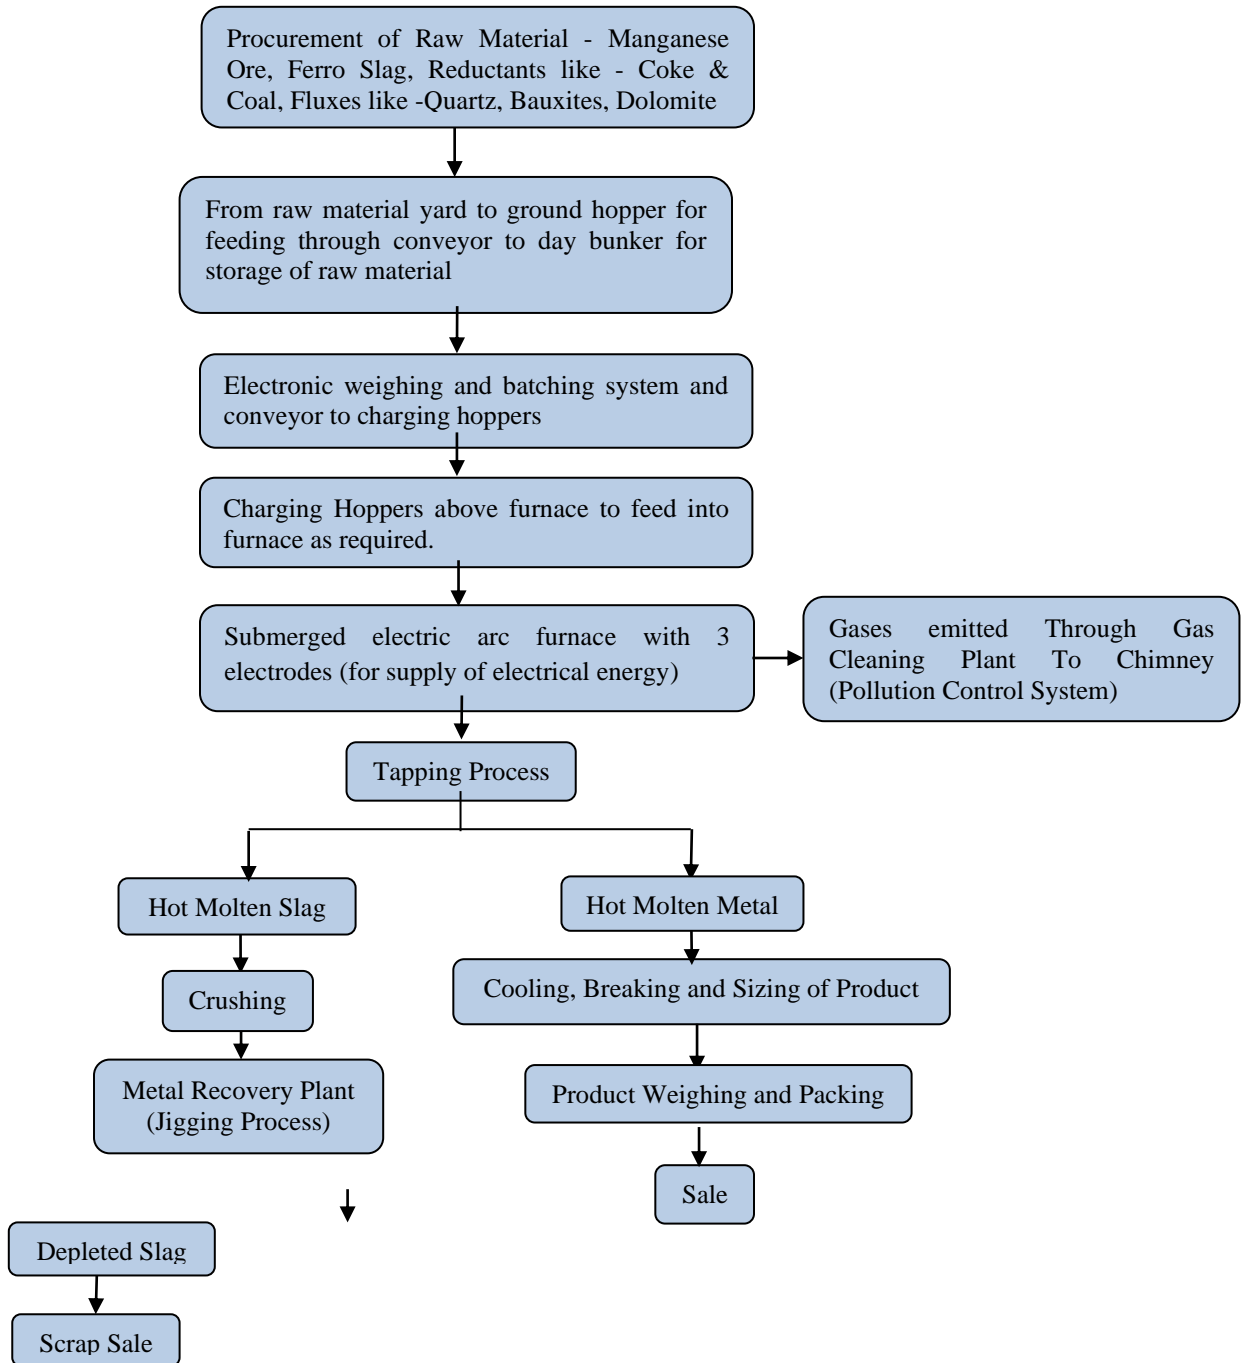

3. *Develop cordial relationship with our Suppliers, Customer and employees*

We believe in maintaining good relationship with our Suppliers and Customers which is the most important factor to keep our Company growing. Our dedicated and focused approach and efficient and timely delivery of products has helped us build strong relationships over a number of years. We bag and place repetitive order with our customers as well as with our suppliers. For us, establishing strong, mutually beneficial long-term relationships with strategic supplier relationship management is a critical step in improving performance across the supply chain, generating greater cost efficiency and enabling the business to grow and develop.

4. *Focus on consistently meeting quality standards*

Our Company intends to focus on adhering to the quality standards of the products. Quality of the product is very important for the company from both customer point of view and regulatory point of view. Continuous quality review of products and timely corrective measures in case of quality diversion are keys for maintaining quality standards of the products. Providing the desired and good quality products help us in enhancing customer trust and maintaining long term relationships with customers.

OUR MANUFACTURING PROCESS

➤ **Procurement of Raw Material**

The major raw material in manufacturing Ferro alloys is Manganese ore imported from South Africa and also indigenously. The other raw materials used are Reductants like - Coke and Coal, majorly procured from Dhanbad, and Fluxes like Quartz, Bauxite, Dolomite procured from Mandla. Furthermore, Ferro Slag is another raw material specifically used for manufacturing Silico manganese alloy. All the Raw Material are checked manually and by way of physical analysis in order to confirm the quality.

➤ **Mobilization & Storage of Raw Material**

From Raw Material Yard situated at ground level, required raw material, depending upon quantum of target production is taken into Ground Hopper for feeding into Day Bunker located at a height in the manufacturing plant. Movement of Raw Material from ground level to a height is facilitated through conveyor belts. Day Bunkers are used for Storage of Raw Materials.

➤ **Feeding of Charging Hopper**

Electronic weighing and batching system through conveyor belts are used to feed the charging hoppers. Electronic weighing and batching system are installed to measure and grade the raw materials required in manufacturing process. Charging hoppers placed above the furnace are the common bins filled with predetermined proportion of raw material drawn from different storage bunkers to obtain the optimum mix required for processing in the manufacturing of manganese alloy. The recipe will be set by the metallurgist from time to time based on the analysis of the raw materials. The weigh hoppers will be supported on hermetically sealed electronic load cells.

➤ **Feeding of Furnace**

Charging hoppers are used to feed the with the optimum ingredient mix into Submerged Electric Arc Furnace with 3 Electrodes, for supply of electrical energy, to be further processed in the manufacturing process. The charging hoppers are connected to the furnace by chutes with intermediate gates, which will be pneumatically actuated. Whenever the furnace operator actuates the gates to open, charge is unloaded into the furnace.

The hearth top and outer walls of the furnaces are lined with carbon paste backed by various grades of bricks. Silicon Carbide Bricks are used at the Tap Holes in view of their excellent Spalling Resistance and Thermal Conductivity. Normal operating conditions are established in 2-3 days from the beginning of charging.

➤ **Manufacturing Process within the Furnace**

The manufacturing process of Ferromanganese and Silicomanganese undergoes pre heating, prereluction and coke bed zone. The production process goes through stages such as smelting, and slag formation and reduction. Electric energy is supplied for the smelting reaction through three carbon electrodes, which are normally of self-baking type. The crucible consists of a steel shell lined with refractory bricks and an inside lining of Carbon blocks. Typically, reduction of oxides to metal is to be performed in 3 to 4 hours. Use of a reactive coke allows the iron oxide to be reduced to metal, The manganese oxide content is reduced to manganese monoxide (MnO) and a small amount of the MnO is reduced to Manganese dissolved in iron by the time the burden reaches the mixed slag-coke layer below the electrodes. In this stage formation of liquid slag and manganese oxide reduction takes place. Reduction reactions change the ore composition which in turn changes the melting temperature and other properties of ore. The slag obtained is mostly used as an active source of manganese in the production of silico manganese.

➤ **Gases emitted**

During the manufacturing process various effluents like – sulphur di-oxide, carbon mono oxide, carbon di-oxide, gases are released. The same is then passed through Gas Cleaning Plant for further treatment, processing and refining. The treated gas is then released in the air through Chimney. Our Company has Bag-filter Pollution System installed at the manufacturing facility to ensure that hazardous waste materials are not emitted directly in the environment.

➤ **Tapping Process**

The process of making Ferromanganese or Silicomanganese alloy produces hot molten metal and hot molten slag, which is tapped separately in two separate tap holes. Tapping is done periodically as per a specified schedule and based on the power consumption. The tap hole is opened with Oxygen Lancing and / or MS round via an arcing gun. The melt runs out through the hole and begins to pass on to the Ladles. A sample of any Alloy metal is taken for analysis during tapping. The liquid Alloy is cast in moulds in thin cakes through decanting of the ladle, which are broken to required sizes after solidification, weighed and packed.

➤ **Final Product**

The hot molten metal collected in the tapping process is left for 24-30 hours for cooling. Upon cooling the molten metal solidifies, which is then broken into different grades and sizes. The alloy metal is weighed and packaged as per the customer specification for sale and dispatch as a final product.

➤ **Crushing**

Hot molten slag extracted in the manufacturing process is fed into the primary jaw crusher for crushing from sizes of 150 mm to 25-30 mm. Ferro manganese slag is sold at size of 30 mm. silico manganese slag is then further crushed in roller crusher to reduce its size upto 12-15mm. The properly crushed and sized slag lumps are readily and easily saleable and also appropriate for further processing in the metal recovery plant.

➤ **Jigging Process**

In the jigging process, a water stream is pulsed, or moved by pistons upward and downward, through the material bed. Under the influence of this oscillating motion, the bed is separated into layers of different densities, the heaviest concentrate forming the lowest layer and the lightest product the highest layer. Therefore, Finer-grained slag particles can be effectively separated in a flowing stream of water on horizontal or inclined planes. As the grained slag flow, heavier metal particles concentrate on the lowest layer where they can be removed through special openings. These metal particles can be then sold as final jigged product or black chips in the market. The Depleted slag collected at the top of the bed is also disposed as scrap, which may be used for land filling.

INFRASTRUCTURE FACILITIES:

a) Availability of Raw Material

The major raw materials required for manufacturing of Ferromanganese and silicomanganese is manganese ore, which is sourced from Karnataka, Maharashtra etc. We also import manganese ore from the mines of South Africa. The other raw material required for manufacturing process are Reductants like - Coke & Coal, Fluxes like -Quartz, Dolomite, Carbon Electrode Paste etc.

b) Power and fuel

The requirement of power for our operations, like power for heating of the furnace and operating the machinery/equipment, is sourced from Chhattisgarh State Power Distribution Company Limited (CSPDCL). The Company avails the total sanctioned load of approx 9000 KVA.

c) Water

Our current water consumption at our manufacturing unit is sourced from Chhattisgarh state industrial development corporation Ltd. It is used in our manufacturing processes for cooling process in copper pads, in transformers' heat exchangers and in jigging process and for cooling hot molten. Our Company has water treatment plant, wherein used waste water is treated and recycled for further usage.

d) Health, Safety and Environmental Clearance

We are committed to protecting the environment in the course of our operations. We have put in place procedures to ensure that our operations comply with relevant environmental regulations. We have a health, safety and environment policy which reaffirms our commitment to provide a safe work place and clean environment to our employees. All the workmen are provided with safety helmets, safety belts, gloves, masks, boots and other necessary apparel as required. Our Factory and operational facility are also materially compliant with applicable local environmental regulations. We endeavor to minimize any accidents at our manufacturing facilities

In the manufacturing process of ferro alloys, slag is produced as a waste by-product and other effluent gases are generated. The slag is not a harmful substance and hence no effluent treatment plant is required. Slag is used in cement clinkers and used by cement industries and also used for road-filling purpose. It is therefore sold as a scrap in the market. The effluent gases generated during the manufacturing activity are hazardous and are therefore treated in Pollution Control Equipment like Gas Cleaning Plant and others installed in the factory. Once the gases are treated and refined, they are released in the air through Chimney. Our Company therefore undertakes proper responsibility of environment clearance and has also received approvals from Chhattisgarh Pollution Control Board for our plant.

Collaborations/Tie Ups/ Joint Ventures

Except as disclosed in this Draft Prospectus and normal course of business, we do not have any collaborations/Ties Ups/Joins Ventures as on date.

Export Obligation:

Our Company does not have any export obligations, as on date of this Draft Prospectus.

Capacity and Capacity Utilization

Below are the details of the installed and the utilized capacity of our company: -

Product		2021	2020	2019
Ferro Alloys	Installed Capacity	24000	24000	24000
	Actual Production	13703	15655	15875
	Utilization	57.10%	65.23%	66.15%

Plant & Machinery

The manufacturing facilities have been built with keeping in mind Efficiency, Safety and Environment factors. Our compact factory complex has all the key ingredients for a successful manufacturing unit. Some of our Plant and Machinery include: Submerged Electric ARC Furnace With Complete Equipment & Accessories 9 MVA Capacity, Submerged Electric ARC Furnace With Complete Equipment & Accessories 6 MVA Capacity, Electrodes Cooling Blower 5HP Capacity, Hydraulic Power Pack With All Accessories, Pollution Control Bag Filter Type, Pump House, Water Loading capacity, Cooling Tower, EOT Crane 10 Mt capacity, Complete Batching System, Skip Hoist 5 MT Capacity, Electric Hoist 3 Mt Capacity, Welding Machine, JCB, Workshop Lathe Machine, Mechanized Jigging Machine 3MT /hr with close conveyor circuit, Stand Drill Machine, Table Grinder, 33 KV Switch Yard, Capacitor Bank – 4200 KVAR, Capacitor Bank – 2500 KVAR, Series Reactor, 60 MT capacity weighbridge etc.

Sales and Marketing

Our Company is the member of Chhattisgarh Ferro Alloys Producers’ Association and had also participated in the International Ferro Alloys Conference 2018. The exhibitions and fair give a platform to exhibit our products in the market. Participation in seminars and fairs gives boost to our products and ultimately to the company as a whole. We sell our

Jainam Ferro Alloys (I) Limited

products mainly through Commission Agent/Broker. We sell our products in many states but our main area of sales are Gujarat, Maharashtra, Haryana, Orissa. Our clientele base mainly constitutes customers of Steel sector.

Revenue from Operations from our different products

The following table sets forth our revenue from operations from our different products for the periods indicated:

Particular	Revenue from operations (in lakhs)		
	2021	2020	2019
Ferro Manganese	3928.21	6937.77	6393.68
Silico manganese	6080.01	4552.96	6107.40
Slag	5.35	221.46	287.57
Others	139.38	432.27	370.64
Total	10152.95	12144.46	13159.30

Competition

The market for our products is highly competitive and fragmented, and we face competition from various domestic manufacturers in different segments. In order to counter the competition, our focus would be to provide products that would be in consonance with technical and quality requirements of our customer as well as by trying to offer a competitive pricing model without compromise on the quality. The Industry is fragmented consisting of large established players and small niche players. We have a number of competitors offering products and services similar to us. We believe the principal elements of competition in our industry are price, durability, overall product quality, timely delivery and reliability. With the growing markets, competition is bound to increase. Some of our major competitors are, Deepak Ferro Alloys Limited, Hira Ferro Alloys Limited, Hira Power and Steel Limited, Shree Girija Smelters Limited, Shri Bajrang Power and Ispat Limited, Maithan Alloys Limited, Sarda Energy & Minerals Limited etc

Human Resource:-

We have in our team qualified, technical, skilled and unskilled personnel who are abreast with the updated manufacturing norms. They are committed & dedicated to maintain the specified standard, quality & safety of our products. As on July 31, 2021, we have employed total 81 full time employees, including senior management. We have employed a prudent mix of the experienced staff and youth which gives us the dual advantage. Below are the details of the manpower engaged by our company: -

Category	No. of Employees
Senior Management	2
Office & Administration & Marketing	8
Skilled Workers, Semi-Skilled and Unskilled Worker	71
Total	81

Insurance

Operating our business involves many risks, which, if not insured, could adversely affect our business and results of operations. We maintain insurance coverage that we consider customary in the industry against certain of the operating risks. Our insurance policies include Marine Cargo Open Policy and Standard Fire & Special Perils Policy for Building – Superstructure, and Building - Plinth & Foundations, Plant, Machinery and accessories, Furniture, Fittings, Fixtures, Stocks. We believe that our current level of insurance is adequate for our business and consistent with industry practice, and we have not historically experienced a loss in excess of our policy limits. We may not be able to obtain insurance coverage in the future to cover all risks inherent in our business, or insurance, if available, may be at rates that we do not consider to be commercially reasonable.

A. INDUSTRIAL LAWS

Mining Regulations and Policies

The Company is governed by the Mines and Minerals (Development and Regulation) Act, 1957, as amended till date, (the “MMDR Act”) which lays down the legal frame-work for the regulation of mines and development of all minerals other than petroleum and natural gas. The Central Government have framed the Mineral Conservation and Development Rules, 2017, as amended (the “MCDR”), for conservation and systematic development of minerals. These are applicable to all minerals except coal, atomic minerals and minor minerals in respect of mining rights and the operations of mines in India.

The Mines and Minerals (Development and Regulation) Act, 1957 (the “MMDR Act”)

The Mines and Minerals (Development and Regulation) Act, 1957 (the “Act”) was enacted with a view to bring the regulation of mines and the development of minerals, under the control of the Union to a certain extent. The Act primarily states under Section 1 that no person shall undertake any reconnaissance, prospecting or mining operations in any area, except under and in accordance with the terms and conditions of a reconnaissance permit or of a prospecting licence or, as the case may be, of a mining lease, granted under this Act and the rules made there under. Section 1A of MMDR Act states that no person shall transport or store or cause to be transported or stored any mineral otherwise than in accordance with the provisions of this Act and the rules made there under. Whoever contravenes the provisions of sub-section (1) or sub-section (1A) of section 4 shall be punishable with imprisonment for a term which may extend to 5 years and with fine which may extend to Rs.5,00,000/- per hectare of the area. (2) Any rule made under any provision of this Act may provide that any contravention thereof shall be punishable with imprisonment for a term which may extend to 2 years or with fine which may extend to Rs.5,00,000/-, or with both, and in the case of a continuing contravention, with additional fine which may extend to Rs.50,000/- for every day during which such contravention continues after conviction for the first such contravention

The Bureau of Indian Standards Act, 2016

The Act has enabling provisions for the Government to bring under compulsory certification regime any goods or article of any scheduled industry, process, system or service which it considers necessary in the public interest or for the protection of human, animal or plant health, safety of the environment, or prevention of unfair trade practices, or national security. Enabling provisions have also been made for making hallmarking of the precious metal articles mandatory.

B. CORPORATE AND COMMERCIAL LAWS

The Companies Act, 2013

The Companies Act primarily regulates the formation, financing, functioning and restructuring of separate legal entity as companies. The Act provides regulatory and compliance mechanism regarding all relevant aspects including organizational, financial and managerial aspects of companies. The provisions of the Act state the eligibility, procedure and execution for various functions of the company, the relation and action of the management and that of the shareholders. The law lays down transparency, corporate governance and protection of shareholders & creditors. The Companies Act plays the balancing role between these two competing factors, namely, management autonomy and investor protection.

Competition Act, 2002

The Competition Act, 2002 came into effect on June 1, 2011 and has been enacted to “prohibit anti-competitive agreements, abuse of dominant positions by enterprises” and regulates “combinations” in India. The Competition Act also established the Competition Commission of India (the “CCI”) as the authority mandated to implement the Competition Act. The Act prohibits Combinations which are likely to cause an appreciable adverse effect on competition in a relevant market in India. The CCI may enquire into all combinations, even if taking place outside India, or between parties outside India, if such combination is likely to have an appreciable adverse effect on competition in India.

Indian Contract Act, 1872

Indian Contract Act codifies the way we enter into a contract, execute a contract, implementation of provisions of a contract and effects of breach of a contract. The Act consists of limiting factors subject to which contract may be entered into, executed and breach enforced as amended from time to time. It determines the circumstances in which promise made by the parties to a contract shall be legally binding on them.

The Consumer Protection Act, 2019

The Consumer Protection Act provides better protection to the interests of consumers. This is enabled with the establishment of consumer councils and other authorities for the settlement of consumers’ disputes and matters connected therewith. The Consumer Protection Act protects the consumers against any unfair/restrictive trade practice that has been adopted by any trader or service provider or if the goods purchased by him suffer from any defect or deficiency. In case of consumer disputes, the same can be referred to the redressal forums set up under the Act.

Negotiable Instruments Act, 1881

In India, any negotiable instruments such as cheques are governed by this Act, Section 138 of the Act, makes dishonor of cheques a criminal offence if the cheque is dishonored on the ground of insufficiency of funds in the account maintained by a person who draws the Cheque which is punishable with imprisonment as well as fine.

The Registration Act, 1908 (“Registration Act”)

The Registration Act was passed to consolidate the enactments relating to the registration of documents. The main purpose for which the Registration Act was designed to ensure information about all deals concerning land so that correct land records could be maintained. The Registration Act is used for proper recording of transactions relating to other immovable property also. The Registration Act provides for registration of other documents also, which can give these documents more authenticity. Registering authorities have been provided in all the districts for this purpose.

Indian Stamp Act, 1899 (the “Stamp Act”)

Under the Indian Stamp Act, 1899 (the “Stamp Act”) stamp duty is payable on instruments evidencing a transfer or creation or extinguishment of any right, title or interest in immovable property. Stamp duty must be paid on all instruments specified

Jainam Ferro Alloys (I) Limited

under the Stamp Act at the rates specified in the schedules to the Stamp Act. The applicable rates for stamp duty on instruments chargeable with duty vary from state to state. Instruments chargeable to duty under the Stamp Act, which are not duly stamped, are incapable of being admitted in court as evidence of the transaction contained therein and it also provides for impounding of instruments that are not sufficiently stamped or not stamped at all.

The Arbitration and Conciliation Act, 1996

This act was enacted by Parliament in the Forty-seventh Year of the Republic of India to consolidate and amend the law relating to domestic arbitration, international commercial arbitration and enforcement of foreign arbitral awards as also to define the law relating to conciliation.

The Insolvency and Bankruptcy Code, 2016

The Insolvency and Bankruptcy Code, 2016 (the “code”) cover Insolvency of individuals, unlimited liability partnerships, Limited Liability partnerships (LLPs) and companies. The Insolvency Regulator (The Insolvency and Bankruptcy Board of India) has been established to exercise regulatory oversight over (a) Insolvency Professionals, (b) Insolvency Professional Agencies and (c) Information Utilities.

The Micro, Small and Medium Enterprises Development Act, 2006 r/w Industries (Development and Regulation) Act, 1951

The Act provides for facilitating the promotion and development and enhancing the competitiveness of micro, small and medium enterprises. The Central Government is empowered to classify by notification, any class of enterprises including inter-alia, a company, a partnership, firm or undertaking by whatever name called, engaged in the manufacture or production of goods pertaining to any industry specified in the First Schedule to the Industries (Development and Regulation) Act, 1951 as: (i) a micro enterprise, where the investment in plant and machinery does not exceed Rs. 25,00,000/- (Rupees Twenty Five Lakhs Only) (ii) a small enterprise, where the investment in plant and machinery is more than Rs. 25,00,000/- (Rupees Twenty Five Lakh Only) but does not exceed Rs. 5,00,00,000/- (Rupees Five Crores Only); or (iii) a medium enterprise, where the investment in plant and machinery is more than Rs. 5,00,00,000/- (Rupees Five Crores Only) but does not exceed Rs. 10,00,00,000/- (Rupees Ten Crores Only). The MSMED Act inter-alia stipulates that any person who intends to establish, a micro or small enterprise or a medium enterprise engaged in rendering of services, may at his discretion and a medium enterprise engaged in the manufacture or production of goods as specified hereinabove, file a memorandum of micro, small or medium enterprise, as the case may be, with the prescribed authority.

C. LABOUR AND EMPLOYMENT LAWS

Industrial (Development and Regulation) Act, 1951

This Act has been liberalized under the New Industrial Policy dated July 24th, 1991, and all industrial undertakings have been made exempt from licensing except for certain industries such as distillation and brewing of alcoholic drinks, cigars and cigarettes of tobacco and manufactured tobacco substitutes, all types of electronic aerospace and defense equipment, industrial explosives including detonating fuses, safety fuses, gun powder, nitrocellulose and matches and hazardous chemicals and those reserved for the small scale sector. An industrial undertaking, which is exempt from licensing, is required to file an Industrial Entrepreneurs Memorandum (“IEM”) with the Secretariat for Industrial Assistance, Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India, and no further approvals are required.

Code of Wages, 2019

The Code aims to consolidate the laws relating to wages and bonus and matters connected therewith or incidental thereto. It received the assent of President of India on August 08, 2019. The Code contains procedure for fixing minimum wage, limit for fines and deductions in wages, minimum and maximum bonus, calculation of allocable and available surplus, as well as gender neutral consideration in fixing wages. The Code has given the power to Central Government to fix a “floor wage” and the State governments cannot fix any minimum wage less than the “floor wage”. It amalgamates and subsumes four

Jainam Ferro Alloys (I) Limited

imperative Labour laws - the Payment of Wages Act, 1936; the Minimum Wages Act, 1948; the Payment of Bonus Act, 1965 and the Equal Remuneration Act, 1976. The date of implementation of the Code is yet to be notified.

The Code on Social Security, 2020

This Code received the assent of President of India on September 28, 2020 though the implementation of the same is yet to be notified. The Code aims to provide better social security benefits such as provident fund, insurance and gratuity to workers. It extends the reach of the Employees' State Insurance Corporation and the Employees' Provident Fund Organization (which regulate benefits such as provident fund, insurance, pension, etc.) to the workers in the unorganized sector and the platform and gig workers. The Code further stipulates gratuity benefit for fixed term employees without any condition for minimum service period as envisaged under the current regime. The Code subsumes nine (9) labour laws relating to social security, namely, the Employees' Compensation Act, 1923, the Employees' State Insurance Act, 1948, the Employees' Provident Funds and Miscellaneous Provisions Act, 1952, the Employment Exchanges (Compulsory Notification of Vacancies) Act, 1959, the Maternity Benefit Act, 1961, the Payment of Gratuity Act, 1972, the Cine-Workers Welfare Fund Act, 1981, the Building and Other Construction Workers' Welfare Cess Act, 1996 and the Unorganised Workers Social Security Act, 2008.

The Industrial Relations Code, 2020

This Code received the assent of President of India on September 28, 2020 though the implementation of the same is yet to be notified. The Code aims to streamline the laws regulating industrial disputes and trade unions in India. For the benefit of the employers, the Code has introduced various aspects such as increasing the threshold of workers to three hundred (300) for obtaining the consent of the concerned government in case of lay off, retrenchment or closure of the establishment, notice of change not required to be given subject to the conditions stipulated in the Code, increasing the wage threshold to INR 18,000 (Indian Rupees Eighteen Thousand) for exclusion from the definition of worker, etc. The Industrial Relations Code also introduces the concept of deemed certification of standing orders. The Code subsumes three labour laws relating to industrial relations, namely, the Trade Unions Act, 1926, the Industrial Employment (Standing Orders) Act, 1946 and the Industrial Disputes Act, 1947

Occupational Safety, Health and Working Conditions Code, 2020

The Occupational Safety, Health and Working Conditions Code, 2020 (OSH Code) is one of three new labor codes that will consolidate the bulk of labor legislation in India and streamline labor compliance besides expanding the social security net for workers. This Code received the assent of President of India on September 28, 2020 though the implementation of the same is yet to be notified. Rules to implement the Code are expected to be finalized in the next few weeks.

New establishments covered by the OSH Code must register themselves (within 60 days of commencement of the Code) with registering officers appointed by the appropriate government. Establishments already registered under any other federal law will not be required to register again.

Every employer is directed to undertake the following obligations by the OSH Code:

- Ensure that the workplace is free from hazards can cause injury or occupational disease to the employees and comply with the OSH Code and the government's directions on the same;
- Provide free annual health examination or testing, free of cost, to certain classes of employees;
- Provide and maintain, as reasonably practical, a working environment that is safe and without risk to the health of the employees;
- Issue letters of appointments to employees; and
- Ensure that no charge is levied on any employee for maintenance of safety and health at workplace, including the conduct of medical examination and investigation for the purpose of detecting occupational diseases.

Further, the Code directs employers with respect to factories, mines, dock work, building and other construction work, or plantations to ensure: (i) safety arrangements in the workplace and absence of risk to health in connection with the use, storage, and transport of articles and substances; (ii) provision of such information, instruction, training, and supervision as

Jainam Ferro Alloys (I) Limited

are necessary to ensure the health and safety of all employees at work, etc. This Code shall subsume more than 10 labour laws including Factories Act 1948, Contract Labour Act 1970 and Mines Act 1952.

Apprentices Act, 1961

The Apprentices Act was enacted in 1961 for imparting training to apprentices i.e. a person who is undergoing apprenticeship training in pursuance of a contract of apprenticeship. Every employer shall make suitable arrangements in his workshop for imparting a course of practical training to every apprentice engaged by him in accordance with the programme approved by the apprenticeship adviser. The central apprenticeship adviser or any other person not below the rank of an assistant apprenticeship adviser shall be given all reasonable facilities for access to each apprentice with a view to test his work and to ensure that the practical training is being imparted in accordance with the approved programme.

Child Labour (Prohibition and Regulation) Act, 1986

This statute prohibits employment of children below 14 years of age in certain occupations and processes and provides for regulation of employment of children in all other occupations and processes. Under this Act, the employment of child labour in the building and construction industry is prohibited.

The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 (“SHWW Act”)

The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 provides for the protection of women at work place and prevention of sexual harassment at work place. The Act also provides for a redressal mechanism to manage complaints in this regard. Sexual harassment includes one or more of the following acts or behaviour namely, physical contact and advances or a demand or request for sexual favours or making sexually coloured remarks, showing pornography or any other unwelcome physical, verbal or non-verbal conduct of sexual nature. The Act makes it mandatory for every employer of a workplace to constitute an Internal Complaints Committee which shall always be presided upon by a woman. It also provides for the manner and time period within which a complaint shall be made to the Internal Complaints Committee i.e. a written complaint is to be made within a period of 3 (three) months from the date of the last incident. If the establishment has less than 10 (ten) employees, then the complaints from employees of such establishments as also complaints made against the employer himself shall be received by the Local Complaints Committee. The penalty for non-compliance with any provision of the SHWW Act shall be punishable with a fine extending to Rs. 50,000/- (Rupees Fifty Thousand Only).

Public Liability Insurance Act, 1991

Where death or injury to any person (other than a workman) or damage to any property has resulted from an accident, the owner shall be liable to give such relief as is specified in the Schedule for such death, injury or damage:

- (i) Reimbursement of medical expenses incurred up to a maximum of Rs. 12,500 in each case.
- (ii) For fatal accidents the relief will be Rs. 25,000 per person in addition to reimbursement of medical expenses if any, incurred on the victim up to a maximum of Rs. 12,500.
- (iii) For permanent total or permanent partial disability or other injury or sickness, the relief will be (a) reimbursement of medical expenses incurred, if any, up to a maximum of Rs. 12,500 in each case and (b) cash relief on the basis of percentage of disablement as certified by an authorised physician. The relief for total permanent disability will be Rs. 25,000.
- (iv) For loss of wages due to temporary partial disability which reduces the earning capacity of the victim, there will be a fixed monthly relief not exceeding Rs. 1,000 per month up to a maximum of 3 months: provided the victim has been hospitalised for a period of exceeding 3 days and is above 16 years of age.
- (v) Up to Rs. 6,000 depending on the actual damage, for any damage to private property.

D. ENVIRONMENTAL LAWS**Environment Protection Act, 1986**

The Environmental Protection Act, 1986 is an “umbrella” legislation designed to provide a framework for co-ordination of the activities of various central and state authorities established under various laws. The potential scope of the Act is broad, with “environment” defined to include water, air and land and the interrelationships which exist among water, air and land, and human beings and other living creatures, plants, micro-organisms and property.

Water (Prevention and Control of Pollution) Act, 1974, as amended

The Water (Prevention and Control of Pollution) Act, 1974 prohibits the discharge of pollutants into water bodies beyond a given standard, and lays down penalties for non-compliance. The Water Act also provides that the consent of the State Pollution Control Board must be obtained prior to opening of any new outlets or is charges, which is likely to discharge sewage or effluent.

The Water (Prevention and Control of Pollution) Cess Act, 1977

Provides for the levy and collection of a cess on water consumed by persons carrying on certain industries and by local authorities, with a view to augment the resources of the Central Board and the State Boards for the prevention and control of water pollution constituted under the Water (Prevention and Control of Pollution) Act, 1974.

The Air (Prevention and Control of Pollution) Act, 1981

The Air (Prevention and Control of Pollution) Act, 1981 requires that any individual or institution responsible for emitting smoke or gases by way of use as fuel or chemical reactions must apply in a prescribed form and obtain consent from the state pollution control board prior to commencing any activity. National Ambient Air Quality Standards (NAAQS) for major pollutants were notified by the Central Pollution Control Board in April 1994.

The Noise Pollution (Regulation & Control) Rules 2000 (“Noise Regulation Rules”)

The Noise Regulation Rules regulate noise levels in industrial, commercial and residential zones. The Noise Regulation Rules also establish zones of silence of not less than 100 meters near schools, courts, hospitals, etc. The rules also assign regulatory authority for these standards to the local district courts. Penalty for non-compliance with the Noise Regulation Rules shall be under the provisions of the Environment (Protection) Act, 1986.

Hazardous and other Wastes (Management and Trans boundary Movement) Rules, 2016 (“HW Rules”)

The HW Rules impose an obligation on every occupier of an establishment generating hazardous waste to recycle or reprocess or reuse such wastes through a registered recycler or to dispose of such hazardous wastes in an authorized disposal facility. Every person engaged, inter alia, in the generation, processing, treatment, package, storage and disposal of hazardous waste is required to obtain an authorization from the relevant state PCB for collecting, recycling, reprocessing, disposing, storing and treating the hazardous waste. The new HW Rules as compared to the Rules of 2008 have enlarged the scope of regulated wastes by including ‘other wastes’ in its ambit. Other wastes include: Waste tyre, paper waste, metal scrap, used electronic items, etc. and are recognized as a resource for recycling and reuse. These resources supplement the industrial processes and reduce the load on the virgin resource of the country.

E. TAX LAWS**Income Tax Act, 1961**

The Income Tax Act, 1961 deals with the taxation of individuals, corporate, partnership firms and others. As per the provisions of this Act the rates at which they are required to pay tax is calculated on the income declared by them or assessed by the authorities, after availing the deductions and concessions accorded under the Act. The maintenance of Books of

Jainam Ferro Alloys (I) Limited

Accounts and relevant supporting documents and registers are mandatory under the Act. Filing of returns of Income is compulsory for all assesses. The maintenance of Books of Accounts and relevant supporting documents and registers are mandatory under the Act.

The Central Goods and Services Tax Act, 2017

The Act received assent of the President on 12th April 2017 and came into force from 1st July 2017. Goods and Service Tax (GST) is an indirect tax levied on the supply of goods and services. This law has replaced many indirect tax laws that previously existed in India such as Service tax, Central Excise Act, Entry Tax, Octroi, Additional customs duty and other draconian indirect taxes. There are 3 taxes applicable under this system- CGST, SGST, IGST.

CGST: is collected by the Central Government on an intra-state sale;

SGST: Collected by the State Government on an intra-state sale;

IGST: Collected by the Central Government for inter-state sale.

Chhattisgarh Goods and Service Tax Act, 2017

This Act has been enacted to make a provision for levy and collection of tax on intra-State supply of goods or services or both by the State of Chhattisgarh except on liquor. This act repealed Chhattisgarh Value Added Sales Tax Act, 2005 and Chhattisgarh Entry Tax Act, 1976 and other indirect local acts. This act mandates every supplier making a taxable supply of goods or services or both in the State of Chhattisgarh to take registration if his annual turnover exceeds Rs. 40 Lakhs.

Following laws which have been subsumed in GST Acts were applicable to the Company till 30th June 2017 and shall remain applicable here after as stated in the GST ACTS.

Central Excise Act, 1944 and Excise Regulations

The Central Excise Act, 1944 sought to impose an excise duty on excisable goods which are produced or manufactured in India. Excise duty was levied on production of goods but the Liability of excise duty arose only on removal of goods from the place of storage, i.e., factory or warehouse.

Central Sales Tax Act, 1956

Central Sales Tax (“CST”) was levied in accordance with the Central Sales Tax Act, 1956 on movable goods sold in the course of inter-state trade or commerce. CST was payable by a dealer (i.e. a person who carries on the business of buying, selling, supplying or distributing goods) on his sales turnover at the rate prescribed in the VAT statute of the State from where the movement of the goods originate.

State laws governing Entry Tax

Entry Tax provides for the levy and collection of tax on the entry of goods into the local areas of the state for consumption, use or sale therein and matters incidental thereto and connected therewith. It was levied at such rate as may be specified by the State Government and different rates may be specified for different goods.

Service Tax, (The ‘Finance Act, 1994’)

Service tax was charged on taxable services as defined in Chapter V of Finance Act, 1994, which required a service provider of taxable services to collect service tax from a service recipient and pay such tax to the Government. There are other indirect taxes which are now subsumed under GST and these are Additional Duties of Excise, Cess, Purchase Tax, Taxes on advertisements.

Customs Act, 1962

The provisions of the Customs Act, 1962 and rules made there under are applicable at the time of import of goods i.e. bringing into India from a place outside India or at the time of export of goods i.e. taken out of India to a place outside India.

Any Company requiring to import or export any goods is first required to get it registered and obtain an IEC (Importer Exporter Code).

F. FOREIGN REGULATIONS

The Foreign Trade (Development & Regulation) Act, 1992

The Foreign Trade (Development & Regulation) Act, 1992 [herein after FTA], provides for the development and regulation of foreign trade by facilitating imports into and augmenting exports from India and for matters connected therewith or incidental thereto. As per the provisions of the FTA, the Government: (i) may make provisions for facilitating and controlling foreign trade; (ii) may prohibit, restrict and regulate exports and imports, in all or specified cases as well as subject them to exemptions; (iii) is authorised to formulate and announce an export and import policy and also amend the same from time to time, by notification in the Official Gazette; (iv) is also authorised to appoint a 'Director General of Foreign Trade' for the purpose of the Act, including formulation and implementation of the Export-Import Policy. FTA read with the Indian Foreign Trade Policy inter-alia provides that no export or import can be made by a company without an Importer-Exporter Code number unless such company is specifically exempt. An application for an Importer-Exporter Code number has to be made to the office of the Joint Director General of Foreign Trade, Ministry of Commerce.

Foreign Exchange Management Act, 1999 (“the FEMA”) and Rules and Regulations thereunder

Export of goods and services outside India is governed by the provisions of the Foreign Exchange Management Act, 1999 (“FEMA”), read with the applicable regulations. The Foreign Exchange Management (Export of goods and services) Regulations, 2000 have been superseded by the Foreign Exchange Management (Export of Goods and Services) Regulations, 2015 (“Export of Goods and Services Regulations 2015”) issued by the RBI on January 12, 2016 [last amended on June 23, 2017]. The RBI has also issued a Master Circular on Export of Goods and Services. The export is governed by these Regulations which make various provisions such as declaration of exports, procedure of exports as well as exemptions.

G. Intellectual Property Laws

The Trademarks Act, 1999 (“Trademarks Act”)

Under the Trademarks Act, a trademark is a mark capable of being represented graphically and which is capable of distinguishing the goods or services of one person from those of others used in relation to goods and services to indicate a connection in the course of trade between the goods and some person having the right as proprietor to use the mark. Section 18 of the Trademarks Act requires that any person claiming to be the proprietor of a trade mark used or proposed to be used by him, must apply for registration in writing to the registrar of trademarks. The right to use the mark can be exercised either by the registered proprietor or a registered user. The present term of registration of a trademark is 10 (ten) years, which may be renewed for similar periods on payment of a prescribed renewal fee.

ANNEXURE – V

SUMMARY STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

CORPORATE INFORMATION

Jainam Ferro Alloys (I) Limited (formerly known as “Jainam Infraways Private Limited”) (the ‘Company’) is a Public Limited Company incorporated in India on the 6th day of March 2014 under the Companies Act 2013. The company is involved in the business of manufacturing of Ferro Alloy Metals.

STATEMENT OF COMPLIANCE

The financial statements comply, in all material aspects, with Indian Accounting Standards (‘Ind AS’) notified under Section 133 of the Companies Act, 2013 (‘the 2013 Act’) read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and other relevant provisions of the Act.

BASIS OF PREPARATION AND PRESENTATION

The financial statements have been prepared on the historical cost basis, except for certain financial instruments and defined benefit plans which are measured at fair value at the end of each reporting period. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. All assets and liabilities have been classified as current or non-current as per the Company’s normal operating cycle and other criteria set out in the Schedule III to the 2013 Act.

CRITICAL ACCOUNTING ESTIMATES, ASSUMPTIONS AND JUDGEMENTS

The preparation of the financial statements requires management to make estimates, assumptions and judgments that affect the reported balances of assets and liabilities and disclosures as at the date of the financial statements and the reported amounts of income and expense for the periods presented. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates considering different assumptions and conditions. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying values of assets and liabilities within the next financial year are discussed below.

DEFERRED INCOME TAX ASSETS AND LIABILITIES

Significant management judgment is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits.

The amount of total deferred tax assets could change if management estimates of projected future taxable income or if tax regulations undergo a change.

USEFUL LIVES OF PROPERTY, PLANT AND EQUIPMENT (‘PPE’) AND INTANGIBLE ASSETS

Management reviews the estimated useful lives and residual value of PPE and Intangibles at the end of each reporting period. Factors such as changes in the expected level of usage, technological developments and product life-cycle, could significantly impact the economic useful lives and the residual values of these assets. Consequently, the future depreciation charge could be revised and may have an impact on the profit of the future years.

EMPLOYEE BENEFIT OBLIGATIONS

Jainam Ferro Alloys (I) Limited

Employee benefit obligations are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments. These include the estimation of the appropriate discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long term nature, the employee benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

PROVISIONS AND CONTINGENCIES

From time to time, the Company is subject to legal proceedings, the ultimate outcome of each being subject to uncertainties inherent in litigation. A provision for litigation is made when it is considered probable that a payment will be made and the amount can be reasonably estimated. Significant judgement is required when evaluating the provision including, the probability of an unfavorable outcome and the ability to make a reasonable estimate of the amount of potential loss. Litigation provisions are reviewed at each accounting period and revisions made for the changes in facts and circumstances. Contingent liabilities are disclosed in the notes forming part of the financial statements. Contingent assets are not disclosed in the financial statements unless an inflow of economic benefits is probable.

FOREIGN CURRENCY TRANSLATION

The functional currency of Jainam Ferro Alloys (I) Limited (i.e. the currency of the primary economic environment in which the Company operates) is the Indian Rupee (₹).

On initial recognition, all foreign currency transactions are recorded at exchange rates prevailing on the date of the transaction. Monetary assets and liabilities, denominated in a foreign currency, are translated at the exchange rate prevailing on the Balance Sheet date and the resultant exchange gains or losses are recognised in the Statement of Profit and Loss.

PROPERTY, PLANT AND EQUIPMENT

An item of property, plant and equipment is recognised as an asset if it is probable that the future economic benefits associated with the item will flow to the Company and its cost can be measured reliably. This recognition principle is applied to the costs incurred initially to acquire an item of property, plant and equipment and also to costs incurred subsequently to add to, replace part of, or service it and subsequently carried at cost less accumulated depreciation and accumulated impairment losses, if any.

The cost of PPE includes interest on borrowings directly attributable to the acquisition, construction or production of a qualifying asset. A qualifying asset is an asset that necessarily takes a substantial period of time to be made ready for its intended use or sale. Borrowing costs and other directly attributable cost are added to the cost of those assets until such time as the assets are substantially ready for their intended use, which generally coincides with the commissioning date of those assets.

The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision is met. Machinery spares that meet the definition of PPE are capitalised and depreciated over the useful life of the principal item of an asset.

All other repair and maintenance costs, including regular servicing, are recognised in the Statement of Profit and Loss as incurred. When a replacement occurs, the carrying value of the replaced part is de-recognised. Where an item of property, plant and equipment comprises major components having different useful lives, these components are accounted for as separate items.

PPE acquired and put to use for projects are capitalised and depreciation thereon is included in the project cost till the project is ready for commissioning.

Depreciation methods, estimated useful lives and residual value

Jainam Ferro Alloys (I) Limited

Depreciation on PPE (except leasehold improvements and PPE acquired under finance lease) is calculated using the Written Down Value Method to allocate their cost, net of their residual values, over their estimated useful lives. However, leasehold improvements and PPE acquired under finance lease are depreciated on a straight-line method over the shorter of their respective useful lives or the tenure of the lease arrangement. Freehold land is not depreciated.

Schedule II to the Companies Act 2013 prescribes the useful lives for various class of assets. For certain class of assets, based on technical evaluation and assessment, Management believes that the useful lives adopted by it reflects the periods over which these assets are expected to be used. Accordingly for those assets, the useful lives estimated by the management are different from those prescribed in the Schedule. Management’s estimates of the useful lives for various class of fixed assets are as given below:

ASSET	USEFUL LIFE
Factory Building	15 Years
Office Equipment	3 to 5 Years
Furniture & Fixtures	5 Years
Plant & Machinery	5 Years
Motor Vehicles	Upto 8 Years

Useful lives and residual values of assets are reviewed at the end of each reporting period. Losses arising from the retirement of, and gains or losses arising from disposal/adjustments of PPE are recognised in the Statement of Profit and Loss.

INTANGIBLE ASSET

Capital work-in-progress (‘CWIP’) and intangible assets under development

Projects under commissioning and other CWIP/ intangible assets under development are carried at cost, comprising direct cost, related incidental expenses and attributable borrowing cost.

Subsequent expenditures relating to property, plant and equipment are capitalised only when it is probable that future economic benefit associated with these will flow to the Company and the cost of the item can be measured reliably.

Advances given to acquire property, plant and equipment are recorded as non-current assets and subsequently transferred to CWIP on acquisition of related assets.

INVESTMENT PROPERTY

Investment properties are land and buildings that are held for long term lease rental yields and/ or for capital appreciation. Investment properties are initially recognised at cost including transaction costs. Subsequently investment properties comprising buildings are carried at cost less accumulated depreciation and accumulated impairment losses, if any.

Depreciation on buildings is provided over the estimated useful lives as specified in above note for property plat and equipment above. The residual values, estimated useful lives and depreciation method of investment properties are reviewed, and adjusted on prospective basis as appropriate, at each reporting date. The effects of any revision are included in the Statement of Profit and Loss when the changes arise.

An investment property is de-recognised when either the investment property has been disposed of or do not meet the criteria of investment property i.e. when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in the Statement of Profit and Loss in the period of de-recognition.

RESEARCH AND DEVELOPMENT EXPENSES

Jainam Ferro Alloys (I) Limited

Research expenses are charged to the Statement of Profit and Loss as expenses in the year in which they are incurred. Development costs are capitalised as an intangible asset under development when the following criteria are met:

- The project is clearly defined, and the costs are separately identified and reliably measured;
- The technical feasibility of the project is demonstrated;
- The ability to use or sell the products created during the project is demonstrated;
- The intention to complete the project exists and use or sale of output manufactured during the project;
- A potential market for the products created during the project exists or their usefulness, in case of internal use, is demonstrated, such that the project will generate probable
- Future economic benefits; and
- Adequate resources are available to complete the project.

These development costs are amortised over the estimated useful life of the projects or the products they are incorporated within. The amortisation of capitalised development costs begins as soon as the related product is released to production.

NON-CURRENT ASSETS HELD FOR SALE AND DISCONTINUED OPERATIONS

Non-current assets (including disposal groups) are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable.

Non-current assets classified as held for sale are measured at lower of their carrying amount and fair value less cost to sell.

Non-current assets classified as held for sale are not depreciated or amortised from the date when they are classified as held for sale.

Non-current assets classified as held for sale and the assets and liabilities of a disposal group classified as held for sale are presented separately from the other assets and liabilities in the Balance Sheet.

A discontinued operation is a component of the entity that has been disposed off or is classified as held for sale and:

- represents a separate major line of business or geographical area of operations and;
- Is part of a single coordinated plan to dispose of such a line of business or area of operations.

The results of discontinued operations are presented separately in the Statement of Profit and Loss.

FINANCIAL INSTRUMENTS

Investments and other financial assets:

Classification

The Company classifies its financial assets in the following measurement categories:

- Those to be measured subsequently at fair value (either through OCI, or through profit or loss), and
- Those measured at amortised cost.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows. For assets measured at fair value, gains and losses will either be recorded in the Statement of Profit and Loss or through OCI.

For investments in debt instruments, this will depend on the business model in which the investment is held.

Jainam Ferro Alloys (I) Limited

For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through OCI.

The Company's policy is to reclassify debt investments when and only when its business model for managing those assets changes.

Debt instruments

Measurement

A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue. Transaction costs of financial assets carried at fair value through profit or loss are expensed in the Statement of Profit and Loss.

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments:

- **Amortised cost**

Assets that are held for collection of contractual cash flows, where those cash flows represent solely payments of principal and interest, are measured at amortised cost. A gain or loss on a debt investment (unhedged) that is subsequently measured at amortised cost is recognised in the Statement of Profit and Loss when the asset is derecognised or impaired.

- **Fair value through other comprehensive income ('FVTOCI')**

Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVTOCI. Movements in the carrying amount are recorded through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains or losses which are recognised in the Statement of Profit and Loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is transferred from OCI to Other equity.

- **Fair value through profit or loss ('FVTPL')**

Assets that do not meet the criteria for amortised cost or FVTOCI are measured at FVTPL. A gain or loss on a debt investment that is subsequently measured at FVTPL (unhedged) is recognised net in the Statement of Profit and Loss in the period in which it arises. Interest income from these financial assets is included in other income.

Equity instruments

The Company subsequently measures all equity investments at fair value. Where the Company's management has elected to present fair value gains and losses on equity investments in OCI, there is no subsequent reclassification of fair value gains and losses to the Statement of Profit and Loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified to equity. Dividends from such investments are recognised in the Statement of Profit and Loss within other income when the Company's right to receive payments is established. Impairment losses (and reversal of impairment losses) on equity investments measured at FVTOCI are not reported separately from other changes in fair value.

Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value with a maturity within three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consist of balances with banks, which are unrestricted for withdrawal and usage.

Derecognition of financial assets

- A financial asset is derecognised only when the Company has transferred the rights to receive cash flows from the financial asset; or
- Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Company transfers an asset, it evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. Where the Company has transferred substantially all risks and rewards of ownership, the financial asset is derecognised. Where the Company has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised. Where the Company has neither transferred a financial asset nor retained substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognized if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

Debt and equity instruments

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangement.

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recorded at the proceeds received, net of direct Offer costs.

Financial liabilities

The Company's financial liabilities comprise borrowings, trade payables and other liabilities. These are initially measured at fair value, net of transaction costs, and are subsequently measured at amortised cost using the EIR method. The EIR is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period at effective interest rate. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period. Changes to the carrying amount of a financial liability as a result of renegotiation or modification of terms that do not result in derecognition of the financial liability, is recognised in the Statement of Profit and Loss.

Derecognition of financial liabilities

The Company derecognises financial liabilities when, and only when, its obligations are discharged, cancelled or they expire.

Presentation

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period.

Derivatives and hedging activities

In the ordinary course of business, the Company uses certain derivative financial instruments to reduce business risks which arise from its exposure to foreign exchange. When the Company opts to undertake hedge accounting, the Company documents, at the inception of the hedging transaction, the economic relationship between hedging instruments and hedged items including whether the hedging instrument is expected to offset changes in cash flows or fair values of hedged items. The Company documents its risk management objective and strategy for undertaking various hedge transactions at the inception of each hedge relationship.

Jainam Ferro Alloys (I) Limited

Derivatives are initially recognised at fair value on the date the derivative contract is entered into and are subsequently remeasured to their fair value at the end of each reporting period. The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged and the type of hedge relationship designated.

Derivatives that are not designated as hedges

When derivative contracts to hedge risks are not designated as hedges, such contracts are accounted through FVTPL.

As at the year-end, there were no designated accounting hedges.

The entire fair value of a hedging derivative is classified as a noncurrent asset or liability when the remaining maturity of the hedged item exceeds 12 months; it is classified as a current asset or liability when the remaining maturity of the hedged item does not exceed 12 months.

Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value.

IMPAIRMENT

Financial assets (other than at fair value)

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and debt instruments carried at FVTOCI. The impairment methodology applied depends on whether there has been a significant increase in credit risk. In respect of trade receivables the Company applies the simplified approach permitted by Ind AS 109 - Financial Instruments, which requires expected lifetime losses to be recognised upon initial recognition of the receivables.

PPE, CWIP and Intangible Assets

The carrying values of assets / cash generating units ('CGU') at each Balance Sheet date are reviewed to determine whether there is any indication that an asset may be impaired. If any indication of such impairment exists, the recoverable amount of such assets / CGU is estimated and in case the carrying amount of these assets exceeds their recoverable amount, an impairment loss is recognised in the Statement of Profit and Loss. The recoverable amount is the higher of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor. Assessment is also done at each Balance Sheet date as to whether there is indication that an impairment loss recognized for an asset in prior accounting periods no longer exists or may have decreased, consequent to which such reversal of impairment loss is recognised in the Statement of Profit and Loss.

INVENTORIES

Inventories are valued at lower of cost (on First In First Out basis) and net realisable value after providing for obsolescence and other losses, where considered necessary. Cost includes all charges in bringing the goods to their present location and condition, including other levies, transit insurance and receiving charges. Work-in-progress and finished goods include appropriate proportion of overheads and, where applicable, taxes and duties. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

REVENUE RECOGNITION

Sale of goods

Jainam Ferro Alloys (I) Limited

Revenue is recognised upon transfer of control of promised goods to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those goods. Revenue from the sale of goods is recognised at the point in time when control is transferred to the customer which is usually on dispatch / delivery of goods, based on contracts with the customers. Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, price concessions, incentives, and returns, if any, as specified in the contracts with the customers. Revenue excludes taxes collected from customers on behalf of the government. Accruals for discounts/incentives and returns are estimated (using the most likely method) based on accumulated experience and underlying schemes and agreements with customers. Due to the short nature of credit period given to customers, there is no financing component in the contract.

Interest income

For all debt instruments measured either at amortised cost or at FVTOCI, interest income is recorded using the EIR method.

Dividend income

Dividend income is accounted for when Company's right to receive the income is established.

Insurance claims

Insurance claims are accounted for on the basis of claims admitted / expected to be admitted and to the extent that there is no uncertainty in receiving the claims.

LEASES

The determination of whether an agreement is, or contains, a lease is based on the substance of the agreement at the date of inception.

Finance Leases:

Lease arrangements in which substantially all risks and rewards of ownership of the under-lying assets are transferred to the Company, are classified as finance lease.

Assets held under finance leases are initially recognised at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the Balance Sheet as a finance lease obligation. Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability.

Operating leases:

The leases which are not classified as finance lease are operating leases.

Lease arrangements where the risks and rewards of ownership of an asset substantially vest with the lessor are recognised as operating leases. Lease rentals under operating leases are recognised in the Statement of Profit and Loss on a straight-line basis over the lease term unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

BORROWING COSTS

Borrowing costs are interest and ancillary costs incurred in connection with the arrangement of borrowings. General and specific borrowing costs attributable to acquisition and construction of qualifying assets is added to the cost of the assets upto the date the asset is ready for its intended use. Capitalisation of borrowing costs is suspended and charged to the Statement of Profit and Loss during extended periods when active development activity on the qualifying assets is interrupted. All other borrowing costs are recognised in the Statement of Profit and Loss in the period in which they are incurred.

GOVERNMENT GRANTS

Government grants and subsidies are recognized when there is reasonable assurance that the Company will comply with the conditions attached to them and the grants and subsidies will be received. Government grants whose primary condition is that the Company should purchase, construct or otherwise acquire non-current assets are recognised as deferred revenue in the

Jainam Ferro Alloys (I) Limited

Balance sheet and transferred to the Statement of Profit and Loss on systematic and rational basis over the useful lives of the related asset.

SEGMENT REPORTING

The operating segments are the segments for which separate financial information is available and for which operating profit/loss amounts are evaluated regularly by the Managing Director and Chief Executive Officer (who is the Company's chief operating decision maker) in deciding how to allocate resources and in assessing performance.

The accounting policies adopted for segment reporting are in conformity with the accounting policies of the Company. Segment revenue, segment expenses, segment assets and segment liabilities shall be identified to segments on the basis of their relationship to the operating activities of the segment. Inter segment revenue shall be accounted on the basis of transactions which are primarily determined based on market / fair value factors. Revenue, expenses, assets and liabilities which relate to the Company as a whole and are not allocable to segments on a reasonable basis shall be included under 'unallocated revenue / expenses / assets / liabilities'.

INCOME TAX

Tax expense for the year comprises current and deferred tax. The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the Statement of Profit or Loss because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Company's liability for current tax is calculated using tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period.

Current tax assets and current tax liabilities are offset when there is a legally enforceable right to set off the recognised amounts and there is an intention to realise the asset or to settle the liability on a net basis.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying values of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount, except when the deferred income tax arises from the initial recognition of an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction. In contrast, deferred tax assets are only recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised.

The carrying value of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised based on the tax rates and tax laws that have been enacted or substantially enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to cover or settle the carrying value of its assets and liabilities.

Deferred tax assets and liabilities are offset to the extent that they relate to taxes levied by the same tax authority and there are legally enforceable rights to set off current tax assets and current tax liabilities within that jurisdiction.

Current and deferred tax are recognised as an expense or income in the statement of profit and loss, except when they relate to items credited or debited either in other comprehensive income or directly in equity, in which case the tax is also recognised in OCI or directly in equity.

Jainam Ferro Alloys (I) Limited

Deferred tax assets include a credit for the Minimum Alternate Tax ('MAT') paid in accordance with the tax laws, which is likely to give future economic benefits in the form of availability of set off against future income tax liability. MAT asset is recognized as deferred tax assets in the Balance Sheet when the asset can be measured reliably, and it is probable that the future economic benefit associated with the asset will be realised.

PROVISIONS AND CONTINGENCIES

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate of the amount can be made. Provisions are determined based on best estimate required to settle the obligation at the Balance Sheet date. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of the money is material). The increase in the provisions due to passage of time is recognized as interest expense. Provisions are reviewed as at each reporting date and adjusted to reflect the current estimate.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

Contingent assets are not disclosed in the financial statements unless an inflow of economic benefits is probable.

DIVIDEND

Final dividend on shares is recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

C. CHANGES IN ACCOUNTING POLICIES IN THE PERIODS/YEARS COVERED IN THE RESTATED FINANCIALS

Note 37: Financial risk management policy and objectives

Company’s principal financial liabilities, comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance company’s operations. Company’s principal financial assets include trade and other receivables and cash and cash equivalents, that derive directly from its operations. In order to minimise any adverse effects on the financial performance of the company, it has taken various measures. This note explains the source of risk which the entity is exposed to and how the entity manages the risk and impact of the same in the financial statements.

The Company has exposure to the following risks arising from financial instruments:

- Credit risk (i); and
- Liquidity risk (ii)

Risk	Exposure arising from	Measurement	Management
Credit risk	Cash and cash equivalents, trade receivables, financial assets measured at amortised cost.	Aging analysis, external credit rating(wherever available).	Diversification of bank deposits, credit limits.
Liquidity risk	Borrowings and other liabilities.	Rolling cash flow forecasts.	Availability of committed credit lines and borrowing facilities.

The company’s risk management is carried out by management, under policies approved by the board of directors. The board provides written principles for overall risk management, as well as policies covering specific areas, such as, credit risk, and investment of excess funds etc.

(i) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers; loans and deposits with banks.

The carrying amounts of financial assets represent the maximum credit risk exposure.

Credit risk management

Credit risk arises from the possibility that counter party may not be able to settle their obligations as agreed. To manage this, the Company periodically assesses the reliability of customers, taking into account the financial condition, current economic trends and analysis of historical bad debts and ageing of accounts receivable. Individual risk limits are set accordingly.

The company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk the company compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers reasonable and supportive forward looking information such as:

- (i) Actual or expected significant adverse changes in business,
- (ii) Actual or expected significant changes in the operating results of the counterparty,
- (iii) Financial or economic conditions that are expected to cause a significant change to counterparty's ability to meet its obligations,
- (iv) Significant increases in credit risk on other financial instruments of the same counterparty,

The company provides for expected credit loss (ECL) in case of trade receivables, claims receivable and security deposits when there is no reasonable expectation of recovery, such as a debtor declaring bankruptcy or failing to engage in a repayment plan with the company. The company categorises a receivable for provision for doubtful debts/write off when a debtor fails to make contractual payments. The amount of provision depends on certain parameters set by the Company in its provisioning policy. Where loans or receivables have been written off, the company continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognised in profit or loss.

Provision for expected credit loss

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss subject to realisation of financial assets in consecutive financial years.

(ii) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Prudent liquidity risk management implies maintaining sufficient cash and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, the Company maintains flexibility in funding by maintaining availability under committed credit lines.

Management monitors rolling forecasts of the Company's liquidity position (comprising the undrawn borrowing facilities below) and cash and cash equivalents on the basis of expected cash flows. This is carried out in accordance with practice and limits set by the Company. In addition, the Company's liquidity management policy involves projecting cash flows and

Jainam Ferro Alloys (I) Limited

considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

The table below summarises the maturity profile of the Company’s financial liabilities based on contractual undiscounted payments:

Note 38: Capital Management

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Management monitors the return on capital, as well as the level of dividends to equity shareholders.

The Company’s objectives when managing capital are to:

- (a) safeguard it’s ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders, and
- (b) Maintain an optimal capital structure to reduce the cost of capital.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATIONS

You should read the following discussion in conjunction with our restated financial statements attached in the chapter titled “Financial Information of the Company” beginning on page 146. You should also read the section titled “Risk Factors” on page 27 and the section titled “Forward Looking Statements” on page 17 of this Draft Prospectus, which discusses a number of factors and contingencies that could affect our financial condition and results of operations. The following discussion relates to us, and, unless otherwise stated or the context requires otherwise, is based on our Restated financial Statements.

Our financial statements have been prepared in accordance with Ind AS, the Companies Act and the SEBI (ICDR) Regulations and restated as described in the report of our auditor dated August 10, 2021 which is included in this Draft Prospectus under “Restated Financial Statements”. The Restated Financial Information has been prepared on a basis that differs in certain material respects from generally accepted accounting principles in other jurisdictions, including US GAAP and IFRS. Our financial year ends on March 31 of each year, and all references to a particular financial year are to the twelve-month period ended March 31 of that year.

OVERVIEW

Our Company was originally incorporated as Jainam Infraways Private Limited in March 2014. We are currently manufacturing two types of Ferro Alloys namely, Ferro Manganese (FeMn) and Silico-manganese (SiMn). Both the alloys are largely used in Steel industry. Ferro-manganese adds strength, toughness and other properties to steel. Silico manganese provides additional silicon which is a stronger De-oxidant in manufacturing steel. Our Company also generates revenue from its trading activities of manganese ore, used as a raw material in manufacturing Ferro alloys.

In 2016, we started commercial production with one furnace having designed capacity of 9 MVA with 5000 KVA power load for the production of Ferro alloys of the different grades. In June 2017, the company started another furnace having designed capacity of 6 MVA with 4000 KVA power load for the same manufacturing activity. The products manufactured by our Company are primarily used in manufacturing of steel and in foundry activities. It is used as an alloying element which enhances some key physical properties of steel like elasticity, ultimate tensile, strength and toughness etc. Sometimes addition of some elements in the form of alloys is done deliberately to liquid steel for developing abrasion resistance, wear resistance and corrosion resistance properties. Apart from using manganese alloys for alloying the steel, they are also widely used for deoxidizing, desulphurization & refining of steel. Phosphorus and other elements can also be controlled depending on customer specification. Smaller quantities of alloys are used as reductant in order to produce other metals. Besides their use in plain carbon steel and alloy steel plants, Ferro alloys are consumed by the foundries and electrode industries. A very specific application of refined manganese alloys is a constituent in the coating of welding electrodes. In ceramic industries, manganese alloys are used in small quantities. For further details about Business of the Company, please refer section titled “Our Business” on page 103 of the Draft Prospectus.

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

For Significant accounting policies please refer Significant Accounting Policy and Notes to Restated Financial Statements in “Annexure V and Annexure VI” beginning on page no 155 and 166 under the Chapter titled “Restated Financial Information of the Company” of the Draft Prospectus.

Factors Affecting our Results of Operations

Our business is subjected to various risks and uncertainties, including those discussed in the section titled “Risk Factors” beginning on page 27 of this Draft Prospectus. Our results of operations and financial conditions are affected by numerous factors including the following:

1. General economic and business conditions in the markets in which we operate and in the local, regional, national and international economies;

Jainam Ferro Alloys (I) Limited

2. Changes in consumer demand;
3. Failure to successfully upgrade our product portfolio, from time to time;
4. Any change in government policies resulting in increases in taxes payable by us;
5. Our ability to retain our key managements persons and other employees;
6. Changes in laws and regulations that apply to the industries in which we operate.
7. Our failure to keep pace with rapid changes in technology;
8. Our ability to grow our business;
9. Our ability to make interest and principal payments on our existing debt obligations and satisfy the other covenants contained in our existing debt agreements;
10. General economic, political and other risks that are out of our control;
11. Inflation, deflation, unanticipated turbulence in interest rates, equity prices or other rates or prices;
12. Company's ability to successfully implement its growth strategy and expansion plans ;
13. Failure to comply with regulations prescribed by authorities of the jurisdictions in which we operate;
14. Inability to successfully obtain registrations in a timely manner or at all;
15. Occurrence of Environmental Problems & Uninsured Losses;
16. Conflicts of interest with affiliated companies, the promoter group and other related parties;
17. Any adverse outcome in the legal proceedings in which we are involved; and
18. Concentration of ownership among our Promoters.
19. The performance of the financial markets in India and globally.
20. Impact of covid-19 on our business and operations.

Minimum Application Value, Market Lot and Trading Lot

As per regulations made under and Section 29(1) of the Companies Act, 2013 the Equity Shares to be allotted must be in Dematerialized form i.e. not in the form of physical certificates but be fungible and be represented by the statement issued through electronic mode. Hence, the Equity Shares being issued can be applied for in the dematerialized form only. In this context, two agreements shall be signed among our Company, the respective Depositories and Registrar to the Offer.

- Tripartite Agreement dated November 21, 2018 between NSDL, our Company and Registrar to the Offer; and
- Tripartite Agreement dated November 14, 2018 between CDSL, our Company and Registrar to the Offer;

The trading of the Equity Shares will happen in the minimum contract size of [●] Equity Shares and the same may be modified by the NSE Emerge from time to time by giving prior notice to investors at large.

Allocation and allotment of Equity Shares through this Offer will be done in multiples of [●] Equity Shares and is subject to a minimum allotment of [●] Equity Shares to the successful applicants in terms of the SEBI circular No. CIR/MRD/DSA/06/2012 dated February 21, 2012.

Minimum Number of Allottees

Jainam Ferro Alloys (I) Limited

The minimum number of allottees in the Offer shall be 50 shareholders. In case the number of prospective allottees is less than 50, no allotment will be made pursuant to this Offer and the amounts in the ASBA Account shall be unblocked forthwith.

Joint Holders

Where 2 (two) or more persons are registered as the holders of any Equity Shares, they will be deemed to hold such Equity Shares as joint-holders with benefits of survivorship.

Nomination Facility to Investor

In accordance with Section 72 of the Companies Act, 2013 the sole or first applicant, along with other joint applicant, may nominate any one person in whom, in the event of the death of sole applicant or in case of joint applicant, death of all the applicants, as the case may be, the Equity Shares allotted, if any, shall vest. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall in accordance with Section 72 of the Companies Act, 2013 be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to Equity Share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale of equity share(s) by the person nominating. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at the Registered Office of our Company or to the Registrar and Transfer Agents of our Company.

In accordance with Section 72 of the Companies Act, 2013 any Person who becomes a nominee by virtue of Section 72 of the Companies Act, 2013 shall upon the production of such evidence as may be required by the Board, elect either:

1. To register himself or herself as the holder of the Equity Shares; or
2. To make such transfer of the Equity Shares, as the deceased holder could have made.

Further, the Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of 90 (ninety) days, the Board may thereafter withhold payment of all dividends, bonuses or other moneys payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the allotment of Equity Shares in the Offer is in dematerialized form, there is no need to make a separate nomination with us. Nominations registered with the respective depository participant of the applicant would prevail. If the investors require changing the nomination, they are requested to inform their respective depository participant.

Withdrawal of the Offer

Our Company and the Selling Shareholder in consultation with the Lead Manager, reserve the right to not to proceed with the Offer after the Offer Opening Date but before the Allotment. In such an event, our Company would Offer a public notice in the newspapers in which the pre-Offer advertisements were published, within two (2) days of the Offer Closing Date or such other time as may be prescribed by SEBI, providing reasons for not proceeding with the Offer. The Lead Manager through, the Registrar to the Offer, shall notify the SCSBs or the Sponsor Bank to unblock the bank accounts of the ASBA Bidders within one (1) working day from the date of receipt of such notification. Our Company shall also inform the same to the Stock Exchange on which Equity Shares are proposed to be listed. If the Offer is withdrawn after the designated Date, amounts that have been credited to the Public Offer Account shall be transferred to the Refund Account.

Notwithstanding the foregoing, this Offer is also subject to obtaining (i) the final listing and trading approvals of the Stock Exchange, which our Company shall apply for after Allotment, and (ii) the final ROC approval of the Prospectus after it is registered with the ROC. If our Company withdraws the Offer after the Offer Closing Date and thereafter determines that it will proceed with an Offer, our Company shall file a fresh Prospectus.

Offer Program:

Event	Indicative Date
Bid/Offer Opening Date	[●]
Bid/Offer Closing Date	[●]
Finalization of Basis of Allotment with the Designated Stock Exchange	[●]
Initiation of Allotment / Refunds / Unblocking of Funds from ASBA Account or UPI ID linked bank account	[●]
Credit of Equity Shares to Demat accounts of Allottees	[●]
Commencement of trading of the Equity Shares on the Stock Exchange	[●]

The above timetable is indicative and does not constitute any obligation on our Company or the Lead Manager. Whilst our Company shall ensure that all steps for the completion of the necessary formalities for the listing and the commencement of trading of the Equity Shares on the Stock Exchange are taken within 6 Working Days of the Bid/Offer Closing Date, the timetable may change due to various factors, such as extension of the Bid/Offer Period by our Company, revision of the Price Band or any delays in receiving the final listing and trading approval from the Stock Exchange. The Commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchange and in accordance with the applicable laws.

Application Forms and any revisions to the same will be accepted only between 10.00 a.m. to 5.00 p.m. (IST) during the Offer Period (except for the Offer Closing Date). On the Offer Closing Date, the Application Forms will be accepted only between 10.00 a.m. to 3.00 p.m. (IST) for retail and non-retail Applicants. The time for applying for Retail Individual Applicants on Offer Closing Date maybe extended in consultation with the LM, RTA and NSE Emerge taking into account the total number of applications received up to the closure of timings.

Due to the limitation of time available for uploading the Application Forms on the Offer Closing Date, Applicants are advised to submit their applications one (1) day prior to the Offer Closing Date and, in any case, not later than 3.00 p.m. (IST) on the Offer Closing Date. Any time mentioned in this Draft Prospectus is IST. Applicants are cautioned that, in the event a large number of Application Forms are received on the Offer Closing Date, as is typically experienced in public Offer, some Application Forms may not get uploaded due to the lack of sufficient time. Such Application Forms that cannot be uploaded will not be considered for allocation under this Offer. Applications will be accepted only on Working Days, i.e., Monday to Friday (excluding any public holidays). Neither our Company nor the LM is liable for any failure in uploading the Application Forms due to faults in any software/hardware system or otherwise.

In accordance with SEBI ICDR Regulations, QIBs and Non-Institutional Applicants are not allowed to withdraw or lower the size of their Application (in terms of the quantity of the Equity Shares or the Application amount) at any stage. Retail Individual Applicants can revise or withdraw their Application Forms prior to the Offer Closing Date. Allocation to Retail Individual Applicants, in this Offer will be on a proportionate basis.

In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical Application Form, for a particular Applicant, the details as per the file received from Stock Exchange may be taken as the final data for the purpose of Allotment. In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical or electronic Application Form, for a particular ASBA Applicant, the Registrar to the Offer shall ask the relevant SCSBs / RTAs / DPs / stock brokers, as the case may be, for the rectified data.

Minimum Subscription and Underwriting

This Offer is not restricted to any minimum subscription level. This Offer is 100% underwritten. If the Issuer does not receive the subscription of 100% of the Offer through this Offer document including devolvment of Underwriter within sixty days from the date of closure of the Offer, the issuer shall forthwith refund the entire subscription amount received. If there is a delay beyond eight days after the issuer becomes liable to pay the amount, the issuer shall pay interest prescribed under section 40 of the Companies Act, 2013.

Jainam Ferro Alloys (I) Limited

In terms of Regulation 260 of the SEBI (ICDR) Regulations, 2018, the Offer is 100% underwritten. For details of underwriting arrangement, kindly refer the chapter titled “***General Information - Underwriting***” on page 56 of this Draft Prospectus.

Further, in accordance with Regulation 267 of the SEBI ICDR Regulations, 2018, the minimum application size in terms of number of specified securities shall not be less than Rupees One Lakh per application.

Migration to Main Board

As per the provisions of the Chapter IX of the SEBI (ICDR) Regulation, 2018, our Company may migrate to the main board of NSE from the SME Exchange on a later date subject to the following:

If the Paid up Capital of the company is likely to increase above Rs. 25 crores by virtue of any further issue of capital by way of rights, preferential issue, bonus issue etc. (which has been approved by a special resolution through postal ballot wherein the votes cast by the shareholders other than the promoter in favour of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal and for which the company has obtained in-principal approval from the main board), we shall have to apply to NSE for listing our shares on its Main Board subject to the fulfillment of the eligibility criteria for listing of specified securities laid down by the Main Board.

If the Paid up Capital of the company is more than Rs. 10 crores but below Rs. 25 crores, we may still apply for migration to the main board if the same has been approved by a special resolution through postal ballot wherein the votes cast by the shareholders other than the promoter in favour of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal.

Market Making

The shares issued through this Offer are proposed to be listed on the NSE Emerge, wherein the Lead Manager to this Offer shall ensure compulsory Market Making through the registered Market Makers of the SME Exchange for a minimum period of 3 (three) years from the date of listing on the NSE Emerge.

For further details of the agreement entered into between the Company, the Lead Manager and the Market Maker please refer to section titled “***General Information - Details of the Market Making Arrangements for this Offer***” on page 57 of this Draft Prospectus.

Arrangements for disposal of odd lots

The trading of the Equity Shares will happen in the minimum contract size of [●] shares in terms of the SEBI circular No. CIR/MRD/DSA/06/2012 dated February 21, 2012. However, the Market Maker shall buy the entire shareholding of a shareholder in one lot, where value of such shareholding is less than the minimum contract size allowed for trading on the NSE Emerge.

As per the extent Guideline of the Government of India, OCBs cannot participate in this Offer.

The current provisions of the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident outside India) Regulations, 2000, provides a general permission for the NRIs, FPIs and foreign venture capital investors registered with SEBI to invest in shares of Indian companies by way of subscription in an IPO. However, such investments would be subject to other investment restrictions under the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident outside India) Regulations, 2000, RBI and/or SEBI regulations as may be applicable to such investors.

The Allotment of the Equity Shares to Non-Residents shall be subject to the conditions, if any, as may be prescribed by the Government of India/RBI while granting such approvals.

Option to receive Equity Shares in Dematerialized Form

Jainam Ferro Alloys (I) Limited

Pursuant to Section 29 of the Companies Act, 2013, the Equity Shares in the Offer shall be allotted only in dematerialized form. Further, as per the SEBI ICDR Regulations, the trading of the Equity Shares shall only be in dematerialized form on the Stock Exchange.

SEBI through its circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018, and as modified through its circular SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019 and circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 and the circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 (collectively the “UPI Circulars”) has proposed to introduce an alternate payment mechanism using Unified Payments Interface (“UPI”) and consequent reduction in timelines for listing in a phased manner. From January 1, 2019, the UPI mechanisms for RIIs applying through Designated Intermediaries have been made effective along with the existing process and existing timeline of T+6 days. The same was applicable until June 30, 2019 (“UPI Phase I”).

With effect from July 1, 2019, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, read with circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019 with respect to Applications by RIIs through Designated Intermediaries (other than SCSBs), the existing process of physical movement of forms from such Designated Intermediaries to SCSBs for blocking of funds has been discontinued and only the UPI Mechanism for such Applications with existing timeline of T+6 days will continue for a period of three months or launch of five main board public issues, whichever is later (“UPI Phase II”), Further pursuant to SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 extended the timeline for implementation of UPI Phase II till further notice. However, given the prevailing uncertainty due to the COVID-19 pandemic, SEBI vide its circular no. The final reduced timeline of T+3 days be made effective using the UPI Mechanism for applications by RIIs (“UPI Phase III”), as may be prescribed by SEBI. The Offer will be undertaken pursuant to the processes and procedures under UPI Phase II, subject to any circulars, clarification or notification issued by SEBI from time to time. Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, has introduced certain additional measures for streamlining the process of initial public offers and redressing investor grievances. This circular shall come into force for initial public offers opening on/or after May 01, 2021, except as amended pursuant to SEBI circular SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, and the provisions of this circular, are deemed to form part of this Draft Prospectus.

Jainam Ferro Alloys (I) Limited

In case of any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding Four (4) Working Days from the Offer Closing Date, the Applicant shall be compensated at a uniform rate of ₹100 per day for the entire duration of delay exceeding Four (4) Working Days from the Offer Closing Date by the intermediary responsible for causing such delay in unblocking. The LM shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking. Further, SEBI vide its circular no. SEBI/HO/CFD/DIL1/CIR/P/2021/47 dated March 31, 2021, has reduced the timelines for refund of Application money to four days.

Phased implementation of Unified Payments Interface

SEBI has issued a circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018 and circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019 circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 June 28, 2019, circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019 and circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 08, 2019 (collectively the “UPI Circulars”) in relation to streamlining the process of public issue of equity shares and convertibles. Pursuant to the UPI Circulars, UPI will be introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under the ASBA) for applications by RIBs through intermediaries with the objective to reduce the time duration from public issue closure to listing from six working days to up to three working days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI Mechanism, the UPI Circular proposes to introduce and implement the UPI Mechanism in three phases in the following manner:

Phase I: *This phase has become applicable from January 1, 2019 and will continue till June 30, 2019. Under this phase, a Retail Individual Applicant would also have the option to submit the Application Form with any of the intermediary and use his / her UPI ID for the purpose of blocking of funds. The time duration from public Offer closure to listing would continue to be six Working Days.*

Phase II: *This phase commenced on completion of Phase I and will continue till March 31, 2020. Under this phase, submission of the Application Form by a Retail Individual Applicant through intermediaries to SCSBs for blocking of funds will be discontinued and will be replaced by the UPI Mechanism. However, the time duration from public Offer closure to listing would continue to be six Working Days during this phase.*

Phase III: *Subsequently, the time duration from public Offer closure to listing would be reduced to be three Working Days.*

Jainam Ferro Alloys (I) Limited

All SCSBs offering facility of making application in public issues shall also provide facility to make application using the UPI Mechanism. The Issuers are to appoint one of the SCSBs as a sponsor bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the Retail Individual Applicants into the UPI mechanism.

For further details, refer to the General Information Document available on the websites of the Stock Exchanges and the Lead Manager.

MAXIMUM AND MINIMUM APPLICATION SIZE**1. For Retail Individual Applicants**

The Application must be for a minimum of [●] Equity Shares and in multiples of [●] Equity Shares thereafter, so as to ensure that the Application Price payable by the Applicant does not exceed Rs. 2,00,000. In case of revision of Applications, the Retail Individual Applicants have to ensure that the Application Price does not exceed Rs. 2,00,000.

2. For Other than Retail Individual Applicants (Non-Institutional Applicants and QIBs):

The Application must be for a minimum of such number of Equity Shares that the Application Amount exceeds Rs. 2,00,000 and in multiples of [●] Equity Shares thereafter. An Application cannot be submitted for more than the Net Offer Size. However, the maximum Application by a QIB investor should not exceed the investment limits prescribed for them by applicable laws. Under existing SEBI Regulations, a QIB Applicant cannot withdraw its Application after the Offer Closing Date and is required to pay 100% QIB Margin upon submission of Application.

In case of revision in Applications, the Non-Institutional Applicants, who are individuals, have to ensure that the Application Amount is greater than Rs. 2,00,000 for being considered for allocation in the Non-Institutional Portion.

Applicants are advised to ensure that any single Application from them does not exceed the investment limits or maximum number of Equity Shares that can be held by them under applicable law or regulation or as specified in this Draft Prospectus.

The above information is given for the benefit of the Applicants. The Company and the LMs are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Draft Prospectus. Applicants are advised to make their independent investigations and ensure that the number of Equity Shares applied for do not exceed the applicable limits under laws or regulations.

BASIS OF ALLOTMENT

Allotment will be made in consultation with the Stock Exchange. In the event of oversubscription, the allotment will be made on a proportionate basis in marketable lots as set forth here:

1. The total number of Shares to be allocated to each category as a whole shall be arrived at on a proportionate basis i.e. the total number of Shares applied for in that category multiplied by the inverse of the over subscription ratio (number of applicants in the category X number of Shares applied for).
2. The number of Shares to be allocated to the successful applicants will be arrived at on a proportionate basis in marketable lots (i.e. Total number of Shares applied for into the inverse of the over subscription ratio).

For applications where the proportionate allotment works out to less than [●] Equity shares the allotment will be made as follows:

1. Each successful applicant shall be allotted [●] Equity shares; and
2. The successful applicants out of the total applicants for that category shall be determined by the drawl of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (2) above.

If the proportionate allotment to an applicant works out to a number that is not a multiple of [●] Equity shares, the applicant would be allotted Shares by rounding off to the nearest multiple of [●] Equity shares subject to a minimum allotment of [●] Equity shares.

If the Shares allotted on a proportionate basis to any category is more than the Shares allotted to the applicants in that category, the balance available Shares for allocation shall be first adjusted against any category, where the allotted Shares are

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and Foreign Exchange Management Act, 1999 ("FEMA"). While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the Reserve Bank of India ("RBI") and Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India ("DIPP").

The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the Consolidated Foreign Direct Investment Policy notified by the DPIIT File No. 5(2)/2020-FDI Policy dated October 15, 2020, with effect from October 15, 2020 (the "FDI Policy"), which consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT or the DPIIT that were in force and effect prior to October 15, 2020. The Government of India proposes to update the consolidated circular on FDI Policy once every year and therefore, the FDI Policy will be valid until the DPIIT issues an updated circular.

In terms of the FEMA NDI Rules, a person resident outside India may make investments into India, subject to certain terms and conditions, and provided that an entity of a country, which shares land border with India or the beneficial owner of an investment into India who is situated in or is a citizen of any such country, shall invest only with government approval

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that (i) the activities of the investee company are under the automatic route under the foreign direct investment policy and transfer does not attract the provisions of the Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI / RBI.

Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country ("Restricted Investors"), will require prior approval of the Government, as prescribed in the Consolidated FDI Policy and the FEMA Rules. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government. Furthermore, on April 22, 2020, the Ministry of Finance, Government of India has also made a similar amendment to the FEMA Rules. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank or fund in India. Each Bidder should seek independent legal advice about its ability to participate in the Offer. In the event such prior approval of the Government of India is required, and such approval has been obtained, the Bidder shall intimate our Company and the Registrar to the Offer in writing about such approval along with a copy thereof within the Offer Period.

As per the existing policy of the Government of India, OCBs cannot participate in this Offer and in accordance with the extant FDI guidelines on sectoral caps, pricing guidelines etc. as amended by Reserve bank of India, from time to time. Investors are advised to confirm their eligibility under the relevant laws before investing and / or subsequent purchase or sale transaction in the Equity Shares of our Company. Investors will not offer, sell, pledge or transfer the Equity Shares of our Company to any person who is not eligible under applicable laws, rules, regulations, guidelines. Our Company, the Underwriters and their respective directors, officers, agents, affiliates and representatives, as applicable, accept no responsibility or liability for advising any investor on whether such investor is eligible to acquire Equity Shares of our Company.

Investment conditions/restrictions for overseas entities

Under the current FDI Policy 2020, the maximum amount of Investment (sectoral cap) by foreign investor in an issuing entity is composite unless it is explicitly provided otherwise including all types of foreign investments, direct and indirect, regardless of whether it has been made for FDI, FPI, NRI/OCI, LLPs, FVCI, Investment Vehicles and DRs under Foreign Exchange Management (Non-debt Instruments) Rules, 2019. Any equity holding by a person resident outside India resulting from conversion of any debt instrument under any arrangement shall be reckoned as foreign investment under the composite cap.

Portfolio Investment upto aggregate foreign investment level of 49% or sectoral/statutory cap, whichever is lower, will not be subject to either Government approval or compliance of sectoral conditions, if such investment does not result in transfer of ownership and/or control of Indian entities from resident Indian citizens to non-resident entities. Other foreign investments will be subject to conditions of Government approval and compliance of sectoral conditions as per FDI Policy. The total foreign investment, direct and indirect, in the issuing entity will not exceed the sectoral/statutory cap.

Investment by FPIs under Portfolio Investment Scheme (PIS)

With regards to purchase/sale of capital instruments of an Indian company by an FPI under PIS the total holding by each FPI or an investor group as referred in SEBI (FPI) Regulations, 2014 shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or less than 10% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all FPIs put together shall not exceed 24% of paid-up equity capital on fully diluted basis or paid-up value of each series of debentures or preference shares or share warrants. The said limit of 10% and 24% will be called the individual and aggregate limit, respectively. However, this limit of 24 % may be increased up to sectoral cap/statutory ceiling, as applicable, by the Indian company concerned by passing a resolution by its Board of Directors followed by passing of a special resolution to that effect by its general body.

Investment by NRI or OCI on repatriation basis:

The purchase/sale of equity shares, debentures, preference shares and share warrants issued by an Indian company (hereinafter referred to as "Capital Instruments") of a listed Indian company on a recognised stock exchange in India by Non-Resident Indian (NRI) or Overseas Citizen of India (OCI) on repatriation basis is allowed subject to certain conditions under Foreign Exchange Management (Non-debt Instruments) Rules, 2019
