This section addresses general risks associated with the industry in which we operate and specific risks associated with our Company. Any of the following risks, individually or together, could adversely affect our business, financial condition, results of operations or prospects, which could result in a decline in the value of our Equity Shares and the loss of all or part of your investment in our Equity Shares. While we have described the risks and uncertainties that our management believes are material, these risks and uncertainties may not be the only risks and uncertainties we face. Additional risks and uncertainties, including those we currently are not aware of or deem immaterial, may also have an adverse effect on our business, results of operations, financial condition and prospects.

This Draft Prospectus contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Draft Prospectus. The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors below. However, there are risk factors the potential effects of which are not quantifiable and therefore no quantification has been provided with respect to such risk factors. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of the Issue, including the merits and the risks involved.

Any percentage amounts, as set forth in “Risk Factors” beginning on page 19 and “Management Discussion and Analysis of Financial Condition and Results of Operations” beginning on page 148 unless otherwise indicated, has been calculated on the basis of the amount disclosed in the “Audited Financial Statements, as restated” prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP).

- 1. Our business wholly depends on our Master franchisor - Anopchand Tilokchand Jewellers Private Limited. We have entered into a Master Franchise Agreement with them, which imposes certain restrictions and other obligations on our operations and the termination of which would adversely affect our business, results of operations, financial condition and prospects.***

We have entered into a Master Franchise agreement with Anopchand Tilokchand Jewelers Private Limited under which we have been allowed to use the Brand name and open Jewellery stores for sale of the Jewellery and related items supplied to us by them, either directly or through sub-franchisee arrangement or at our point of sale. The Master Franchise Agreement provides us with the right and license to develop, establish, operate and franchise and permit the sub-franchisees. As per the agreement, we are also required to seek the prior approval of our Master Franchisee for undertaking operations including: opening and operating each of our Company-owned store or sub-franchising stores. Further, we cannot control or influence the actions of our Master Franchisee at any time in case they have any economic, business or legal interests or goals that are inconsistent with ours. If the Master Franchisee takes certain actions that we do not agree with, our business operations may be adversely affected, which would have a material adverse effect on our

business, results of operations and financial condition. Also, if the Master Franchise Agreement is terminated for any reason the rights granted to us to operate and manage Franchisee would terminate, which would have a material adverse effect on our business, results of operations, financial condition and prospects. For further details, see “Our Business” on pages 81 of this Draft Prospectus.

2. Demand for our products may decrease due to changes in consumer preferences and fashion habits, which could have a material adverse effect on our business, results of operations, and financial condition.

The demand for our products is based on our strength in identification of the latest trends and our continued ability to offer products that are acceptable to the consumers. If consumer preferences change due to shifts in consumer demographics, national, regional or local economic conditions, change in trend and fashion which we are not able to adapt, our consumers may begin to seek alternative options, which would adversely affect our financial results. If we are unable to procure products to successfully meet changes in fashion and trends, our business and financial condition may be materially and adversely affected. Our success in responding to consumer demands depends in part on our ability to anticipate consumer preferences and introduce new and cost-effective items to address these preferences in a timely fashion. Any failure to successfully anticipate and address changing customer preferences could have a material adverse effect on our business, results of operations and financial condition.

3. Our business depends on the continued success and reputation of our Master Franchisee brand, and any negative impact on the brand may adversely affect our business, results of operations and financial condition.

We have entered into a Master Franchise agreement with Anopchand Tilokchand Jewelers Private Limited under which we have been allowed to sell directly or through our Franchisee stores for sale of the Jewellery under their Brand name. Our business is dependent wholly on the Master franchise Brand, our success is to a large extent directly related to the success of the Anopchand Tilokchand Jewellers brand, including the financial condition, advertising programs, new product development, overall quality of operations and the successful and consistent operation of Anopchand Tilokchand Jewellers Private Limited. We have no direct control over the management or operations of Anopchand Tilokchand Jewellers Private Limited’s businesses. There are many factors which may affect the brand that are beyond our control which could have a material adverse effect on our business. These factors include the inability or failure to support its franchisees, negative publicity, initiation of legal proceedings, employee misconduct, operational failures and regulatory investigations, which may adversely impact the brand. Any damage to the brand could adversely impact the trust placed in it and our reputation and cause existing customers or intermediaries to withdraw their business and reconsider doing business with us. Furthermore, negative publicity may also result in increased regulation and legislative scrutiny of industry practices as well as increased litigation, which may further increase our costs of doing business and adversely affect our profitability.

4. Any deterioration in the performance or our relationships with our customers or sub-franchisee may adversely affect our business, results of operations and financial condition.

We currently sell the products under B2B terms, through our sub-franchisee store located in Chhattisgarh, wholesale trade and third-party online platforms. For this we have entered into sub-franchisee agreement to sell the products with our sub-franchisee but in case of any dispute or deterioration in the performance of the sub-franchisee may result in termination of the agreement which may affect our result of operation and profitability. Also, with the introduction and growth of online ordering and mobile applications, the online sale business tends to increase, but we currently depend on third party online platform only for their services. It is possible that the negotiating leverage of these third-party platforms with respect to our arrangements with them could increase as their businesses grow, which means we may have to pay higher fees for their services or may have difficulty with them on commercially acceptable terms, or at all, in the future. Any adverse development with respect to the B2B customer, sub-franchisee or the online platforms that we use to sell our products could adversely affect our ability to reach customers which could have a material adverse effect on our business, results of operations and financial condition.

5. We may not be able to identify suitable locations for new store or identify new sub-franchisee arrangements, and also our expansion into new regions and markets may present increased risks due to our unfamiliarity with the areas in which we propose to locate.

The growth of our business depends on the pace of expansion of our stores network, which requires us to continually identify suitable and available locations and develop Stores or identify sub-franchisee, customers at those locations. As at the date of this Draft Prospectus, we have one Sub-Franchisee Store located in Chhattisgarh. In case we plan to open new stores, they involve substantial risks, including in relation to the following:

- the inability to identify or the unavailability of suitable sites on acceptable leasing terms;
- lack of our ability to compete successfully for suitable sites;
- unavailability of financing;

- the inability to obtain all necessary governmental or local authority permits and approvals and other requisite licenses and permits;
- consumer preference in new geographic regions and acceptance of our products;
- changes in governmental rules, regulations and interpretations; and
- changes in general economic and business conditions.

Further, our Master Franchisee may also impose certain limitations on our ability to open new stores, including that we are required to obtain prior written approval and we must adhere to the standards and policies prescribed by them. In addition, our efforts to develop and roll out new store/ sub-franchisee may also increase the complexity of our operations and put additional strain on our management and operational, financial and human resources. If we are not able to identify suitable locations and successfully develop and build out new stores in a timely, cost effective and profitable manner or otherwise manage the growth effectively, our business, results of operations, financial condition and prospects may be materially and adversely affected.

6. *Our new store or sub-franchisee may not be profitable or perform as planned and could also adversely impact sales in our existing stores, which could adversely affect our business, results of operations and financial condition.*

The profitability and performance of our new store or sub-franchisee store depend on a number of factors, and we cannot assure you that our new stores will be profitable or perform as planned. Some of our new stores may in the future be located in areas where we have little or no operating experience, which may expose us to additional risks. Further, we may not be able to identify new franchisee partners for these areas or they may not be willing to work for us. Also, these areas may have different competitive conditions, consumer preferences, discretionary spending patterns and economic conditions than our existing locations, which may cause to be less successful than our existing stores or to incur losses. Sales at newly opened stores in new areas may take longer to reach, or may never breakeven, which may adversely affect our business, results of operations and financial condition. In addition, costs of opening new stores in areas in which we have little or no operating experience and in which customer awareness of our brand is low may require us to incur additional costs in relation to the promotion which may be substantially greater than those incurred in other areas.

7. *Being in a B2B model we have limited number of customers any loss of the existing customer could adversely affect our business, results of operations and financial condition*

We operate under a B2B model, where we sell our goods to other business enterprises as wholesalers or Franchisee. We currently have entered into sub-franchisee agreement for the store opened at Korba, Chhattisgarh which is operated by Ms. Chhattisgarh Sales Corporation. Apart from that we also sell our good to M/s Grand Bhagwati under a B2B model who then sells the goods to ultimate customers. We have also provided a No objection to M/s Grand Bhagwati to sell the goods under the name of “Anopchand Tilokchand Jewellers” but we have not entered into any definitive agreement with them for the same. Our inability to identify new franchisee partners or new customers or any inability to maintain the relationship with the existing customers may adversely affect our business, results of operations and financial condition

8. *Changes in governmental regulation or public perception with respect to the jewellery industry could adversely affect our business, results of operations and financial condition.*

With the introduction of the gold bonds and ETFs the customer’s perception has changed towards physical gold and precious items. The customers who hold these items for investment purposes have shifted towards bonds and ETFs as they are safer and more convenient to hold and trade. These concerns may prompt governments in India to introduce new or increase such products which may shift such customers towards bonds and ETFs rather than holding physical gold etc. Further in order to make these products more competitive the government may introduce or increase taxes on physical gold etc. which may tend to increase the prices and affect the sales. Any sudden changes in the regulatory environment relating to our products as a result of these or other developments could require us to implement changes to our operations or alter our offerings or could negatively impact our ability to sell and market our products profitably. We cannot make any assurances regarding our ability to respond effectively to changes in governmental regulation or public perception with respect to their spending habits. Our failure to respond effectively to these and any other related developments could have an adverse effect on our business, results of operations and financial condition.

9. *A failure by us or Anopchand Tilokchand Jewellers Private Limited to protect the brand could adversely affect our business, results of operations and financial condition.*

Our business depends on consumers’ confidence and trust on the brand and the product delivered under the Anopchand Tilokchand Jewellers Brand name. In addition, one of our key strategies is to increase brand awareness and loyalty towards the brand. Under the terms of our Master Franchise Agreement, we are required to assist in protecting its intellectual property rights and other proprietary information by us and other sub-franchisee partners. However, our efforts to protect this intellectual property and other proprietary

information may prove to be inadequate and, as a result, the value of the brand could be harmed. There may be circumstances in which we may not be able to detect the unauthorized use of the Trademark by any party or any of our sub-franchisee may be unable to protect the rights under the trademark. If any of these occur it may affect our brand image as a result, our competitive position in the industry and our ability to grow our business could be negatively impacted, which would adversely affect our business, results of operations and financial condition. In addition, our Master Franchisee could deem any unauthorized use by us of the trademark or other proprietary information, whether intentional or not, to be a breach of the terms of the Master Franchise Agreement and seek to terminate the Master Franchise Agreement, which would have a material adverse effect on our business, results of operations and financial condition.

10. We do not have operational or financial control over the businesses of our sub-franchisees, and they could take actions that could harm our business.

Our sub-franchisee is independent operator and, while we can mandate certain operational standards and procedures through the enforcement of our sub-franchise agreements, they may take actions or conduct their businesses in a manner that could harm our business reputation and we may not be able to enforce our rights under the sub-franchise agreement in sufficient time to prevent damage to our reputation or at all. In addition, we cannot prevent our sub-franchisee from taking actions that could adversely affect their financial viability, such as incurring significant indebtedness, or the profitability of our Sub-Franchisee. In addition, sub-franchisee may be less directly interested in preserving or enhancing the brand and reputation than we are. While we can terminate sub-franchisees that do not comply with the terms and conditions of our sub-franchise agreements, our brand and reputation may nonetheless suffer as a result of the activities of our sub-franchisees. In addition, any amendment to the sub-franchise agreement or waiver of the sub-franchisee’s obligations to comply with a material condition under its sub-franchisee agreement may delay the implementation of its activities and adversely affect its business.

11. There are certain outstanding legal proceedings involving Our Company, Promoters, Directors and Group Companies*. Any failure to defend these proceedings successfully may have an adverse effect on our business prospects, reputation, financial conditions and result of ongoing operations.

Our Company, its Promoters, Directors and Group Companies* are involved in certain legal proceedings, which if determined, against us could have an adverse impact on our business prospects, reputation, financial conditions and result of ongoing operations. For details kindly refer chapter titled “*Outstanding Litigation and Material Developments*” at page 156 of this Draft Prospectus. A brief detail of such outstanding litigations as on the date of this Draft Prospectus are as follows:

Litigations/Matters involving our Company: -

Nature of Cases	No. of Outstanding Cases	Amount Involved (in ₹ Lacs)
Direct Tax Liabilities	2	0.59

Litigations/Matters involving our Promoters: -

Nature of Cases	No. of Outstanding Cases	Amount Involved (in ₹ Lacs)
Direct tax Liabilities	7	195.94

Litigations/Matters involving our Group Company*: -

Nature of Cases	No. of Outstanding Cases	Amount Involved (in ₹ Lacs)
Indirect tax Liabilities	1	310.00

**to the extent has a material effect on our Company.*

For further details on above litigations, please refer to the chapter titled “*Outstanding Litigation and Material Developments*” on page 156 of this Draft Prospectus.

12. Our Company operates under several statutory and regulatory permits, licenses and approvals. Our inability to obtain, renew or maintain the statutory and regulatory licenses, permits and approvals required to operate our business may have an adverse effect on our business & operations.

We require various statutory and regulatory licenses, permits and approvals to operate our business. We need to make compliance and applications at appropriate stages of our business to continue our operations. There can be no assurance that the relevant authorities

will issue these approvals or licenses, or renewals thereof in a timely manner, or at all. Further any default by our Company in complying with the same may result in the cancellation of such licenses, approvals or registrations which may adversely affect our operations and financial strength.

Further, we have to apply for change in name in all registrations and approvals which are in the name of private limited. Also, we are yet to apply for registration under the Maharashtra State Tax on Profession for our Mumbai office and registration under Legal Metrology Act, 2009. For further details on pending approvals, please refer to section titled “*Government and Other Approvals*” beginning on page 159 of the Draft Prospectus.

Further, certain licenses and registrations obtained by our Company contain certain terms and conditions, which are required to be complied by us. Any default by our Company in complying with the same, may result in inter alia the cancellation of such licenses, consents, authorizations and/or registrations, which may adversely affect our operations. There can be no assurance that the relevant authorities will issue or renew any of such permits or approvals in time or at all. Failure to renew, maintain or obtain the required permits or approvals in time may result in the interruption of our operations and may have a material adverse effect on our business.

13. Our income and sales are subject to seasonal fluctuations and lower income in a peak season may have a disproportionate effect on our results of operations.

Our industry has seasonal increases and decreases in revenues and profitability, corresponding with weddings and festivals. Our sales have historically exhibited certain seasonal fluctuations, reflecting higher sales volumes on festivals and other occasions such as Durga Puja, Akshay Tritiya, Dhanteras, Diwali and Christmas which occur in the third and fourth quarter of the fiscal year. This period also coincides with the wedding season in India. While our fixed costs such as lease rentals, employee salaries, operating costs and logistics-related expenses, which form a significant portion of operating costs, are relatively constant throughout the year. Consequently, lower than expected net sales during the third or fourth quarters of the fiscal year or more pronounced seasonal variations in sales in the future could have a disproportionate impact on our operating results for the fiscal year, or could strain our resources and impair our cash flows. Any slowdown in demand for our jewellery during peak seasons or failure by us to accurately anticipate and prepare for such seasonal fluctuations could have a material adverse effect on our business, financial condition and results of operations.

14. Our company has not complied with some statutory provisions of the Companies Act. Such non-compliance may attract penalties against our Company which could impact the financial position of us to that extent.

Our Company has not complied with certain statutory provisions under the Companies Act 2013, for instance our Company has taken loan in excess of its paid-up share capital & free reserves during the year 2014-15 which was not in accordance with the provisions of Section 180 of the Companies Act 2013. Our Company has made some clerical mistakes in documents and form filed in registrar of Companies, for instance, transfer details were not mentioned in the annual filing form and there was typographical error in the shareholding in the Financial Statement uploaded with RoC and also, note to accounts and Cash flow Statement were not attached with the accounts filed with Registrar of Companies. Also, the company has failed to file certain charge form related to car loan forms with the Registrar of companies, however as on date the car loan are fully repaid and no amount is outstanding.

Any penalty or action taken by any regulatory authorities in future for non-compliance with provisions of corporate and other law could impact the financial position of the Company to that extent. Although no show cause notice have been issued against our Company till date in respect of above, in the event of any cognizance being taken by the concerned authorities in respect of above, actions may be taken against our Company and its directors, in which event the financials of our Company and our directors may be affected.

15. The non-availability of quality ornaments and related items or fluctuations in their prices may have an adverse effect on our business, results of operations and financial condition.

The jewellery industry is generally affected by fluctuations in the price and supply of gold, diamonds and, also to some extent, other precious and semi-precious metals and stones. Timely procurement of materials such as gold bullion, diamonds and precious and semi-precious stones, as well as the quality and the price at which it is procured, play an important role in the successful operation of our business. Accordingly, our business is affected by the availability, cost and quality of materials. The prices and supply of these and other materials depend on factors beyond our control, including general economic conditions, competition, production levels and regulatory factors such as custom duties. Further, fluctuations in gold prices may affect our results of operations in various ways. An increase in the price of gold may result in an increase in our income from sales assuming such increases do not adversely affect sales volumes. However, a significant increase in the price of gold or a negative outlook on future gold prices could, in the short term,

adversely affect our sales volumes. There can be no assurance that we can completely budget for or predict any changes in these prices, which may increase the risk to our business and adversely affect our business, results of operations and financial condition.

16. Our Jewellery business is dependent on factors affecting consumer spending habit that are beyond our control.

Jewellery purchases are discretionary and are often considered as luxury purchase. Consequently, our business is sensitive to a number of factors that influence consumer spending habit which includes general economic conditions, consumer confidence in future economic conditions, recession and fears of recession, consumer debt, unstable consumer income, conditions in the housing market, interest rates, and inflation. Any fall in demand or a decline in the consumer spending habit on jewellery could adversely affect our business, financial condition and results of operations.

17. In past, our Promoters were involved in SEBI proceedings in relation to certain non-compliances under securities related laws.

Our Promoters namely Mr. Nikesh Bardia and Mr. Nitin Kumar Bardia were involved in proceedings initiated against them by SEBI. The said proceedings, which have however been later dropped against them by the SEBI Official, details are as following:

- SEBI had vide an interim ex parte order dated June 29, 2015 read with corrigendum order dated January 04, 2016, inter alia, restrained our Promoter's namely Mr. Nikesh Bardia and Mr. Nitin Kumar Bardia from accessing the securities market and dealing in securities, in any manner. Later, an investigation was carried out by SEBI to look into the role of debarred entities but on completion of investigation, violations were not observed in respect of our Promoter's and hence the interim order restraining our Promoter's from accessing the securities market was revoked with immediate effect vide SEBI order dated September 06, 2017.

In future, in case of any actual or alleged non-compliance with regulatory requirements, our Promoters or Group Company could be subject to investigations and administrative or judicial proceedings that may result in substantial penalties and/or diversion of management's attention, which could negatively affect our reputation and may have a material adverse effect on our business operations.

18. Our Franchisee showroom is geographically located in one area i.e., Chhattisgarh and any localized social unrest, natural calamities, etc. could have material adverse effect on business and financial operations.

Our sub-franchisee showroom is based in Korba, Chhattisgarh. As a result, any localized social unrest, natural calamities, distress or breakdown of services and utilities in and around these regions, could have material adverse effect on our business, financial position and results of operations. Further, any continuous addition of similar industries/shops in and around these areas, without commensurate growth of its infrastructural facilities may put pressure on the existing infrastructure, which may affect our business.

19. We do not own the registered office from which we carry out our business activities. Any dispute in relation to use of the premises would have a material adverse effect on our business and results of operations.

All our existing offices and registered office are obtained by us on rent. For details on the duration of existing rent agreements for our showrooms and offices, please refer to Chapter titled "**Our Business**" beginning on page 81 of this Draft Prospectus. In the event that the existing rent agreements are terminated or they are not renewed on commercially acceptable terms, we may suffer a disruption in our operations. Further, we also share our registered office with our group companies and there is no proper division of space between our company and our Group Companies. If alternative premises are not available at the same or similar costs, size or locations, our business, financial condition and results of operations may be adversely affected.

20. Failure to manage our inventory could have an adverse effect on our net sales, profitability, cash flow and liquidity.

As on September 30, 2021, our total inventory was Rs. 2153.38 Lacs against the total sales of Rs. 4414.29 Lacs, which is 48.78% of total sales for September 2021 and 29.67% for the year ended March 2021. For our operations we need huge inventory of ornaments/ jewellery of the running designs. Our results of operations are dependent on our ability to effectively manage our inventory. To effectively manage our inventory, we must be able to accurately estimate customer demand and supply requirements and purchase new inventory accordingly. If our management has misjudged expected customer demand it could adversely impact the results by causing either a shortage of ornaments or an accumulation of excess inventory. Further, if we fail to sell the inventory we got manufactured or purchased, we may be required to incur loss of labour charges of such unsold materials and also to block our working capital thereby incur loss of interest, which would have an adverse impact on our income and cash flows too.

21. Ineffective execution of marketing programs and reduced marketing expenditure could have an adverse effect on our sales.

Our company has made an application with the Bank to provide us with the NOC and is waiting to receive the same. In case the said consent or NOC is not received in time may delay the operations. Further, in case we undertake any operation without their prior consent may result in our lenders may ask for repayment of amounts outstanding under such facilities, or even terminate such facilities, and as a result we may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could affect our financial condition and cash flows.

24. If we are unable to collect our receivables from our clients, our results of operations and cash flows could be adversely affected.

Recovery of our receivables and timely collection of client balances depends on our ability to complete our commitments. We might experience delays in collection of and/or be unable to collect our client balances, and if this occurs, our results of operations and cash flows could be adversely affected. In addition, if we experience an increase in the time to bill and collect for our goods, our cash flows could be adversely affected. Further, the current status of one of our trademark applications dated September 24, 2014 for registration of Trademark "Oh my Silver" is under "refused" category. 33. *The Indian jewellery retail industry is extremely competitive.*

We operate in highly competitive and fragmented markets, and competition in these markets is based primarily on market trends and customer preferences. Further, the industry is highly dominated by the unorganized sector, from which the organized retail jewellery sector faces intense competition. The players in the jewellery sector in India often offer their products at highly competitive prices and many of them are well established in their local markets. We also compete against other organized national, regional and local players. Aggressive discounting by competitors, particularly those facing financial pressures or holding “going out of business” sales, may force us to reduce our prices in order to remain competitive and may thereby adversely impact our results of operations. This is particularly the case for easily comparable pieces of jewellery, of similar quality, sold through showrooms that are situated in our vicinity. The pricing of gold jewellery in particular is extremely competitive due to its objectively verifiable value. This result in us having limited control over our pricing of gold jewellery. There can be no assurance that we can effectively compete with our competitors in the future, and any such failure to compete effectively may have a material adverse effect on our business, financial condition and results of operations. For more information regarding our competitors, see “*Our Business*” on page 81 of this Draft Prospectus.

Our Company has entered into various transactions with our Directors, Promoter, Promoter Group entities. These transactions, inter-

alia includes sale and purchase of material, remuneration, rent payments, loans and advances, etc. Our Company has entered into such transactions due to easy proximity and quick execution. However, there is no assurance that we could not have obtained better and more favorable terms than from transaction with related parties. Additionally, while it is our belief that all our related party transactions have been conducted on an arm's length basis, we cannot provide assurance that we could have achieved more favorable terms had such transactions been entered with third parties. Our Company may enter into such transactions in future also and we cannot assure that in such events there would be no adverse effect on results of our operations, although going forward, all related party transactions that we may enter will be subject to board or shareholder approval, as under the Companies Act, 2013 and the Listing Regulations. For details of transactions, please refer to "Annexure Y" on "Related Party Transactions" of the Auditor's Report under Section titled "Financial Information of the Company" and Chapter titled "Capital Structure" beginning on page 142 and 44 respectively of this Draft Prospectus.

36. *We have incurred substantial indebtedness which exposes us to various risks which may have an adverse effect on our business and results of operations*

Our ability to borrow and the terms of our borrowings will depend on our financial condition, the stability of our cash flows, general market conditions, economic and political conditions in the markets where we operate and our capacity to service debt. As on September 30, 2021 our total outstanding indebtedness was ₹ 1316.62 Lakhs.

Our significant indebtedness results in substantial amount of debt service obligations which could lead to:

- increasing our vulnerability to general adverse economic, industry and competitive conditions;
- limiting our flexibility in planning for, or reacting to, changes in our business and the industry;
- affecting our credit rating;
- limiting our ability to borrow more money both now and in the future; and
- increasing our interest expenditure and adversely affecting our profitability.

If the loans are recalled on a short notice, we may be required to arrange for funds to fulfil the necessary requirements. The occurrence of these events may have an adverse effect on our cash flow and financial conditions of the company. For further details regarding our indebtedness, see "*Statement of Financial Indebtedness*" on page 147 of this Draft Prospectus.

37. *Our Promoters/Directors and Promoter Group Member have provided personal guarantees for loan facilities obtained by our Company, and any failure or default by our Company to repay such loans in accordance with the terms and conditions of the financing documents could trigger repayment obligations on them, which may impact their ability to effectively service their obligations as our Promoters/Directors and thereby, impact our business and operations.*

Our Promoters/Directors and Promoter Group Member have extended personally guarantee towards loan facilities taken by our Company. Any default or failure by us to repay the loans in a timely manner, or at all could trigger repayment obligations of our guarantors in respect of such loans, which in turn, could have an impact on their ability to effectively service their obligations as Promoters/Directors of our Company, thereby having an effect on our business, results of operation and financial condition. Furthermore, in the event that these individuals withdraw or terminate their guarantees, our lenders for such facilities may ask for alternate guarantees, repayment of amounts outstanding under such facilities, or even terminate such facilities. We may not be successful in procuring guarantees satisfactory to the lenders, and as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could affect our financial condition and cash flows.

38. *We are heavily dependent on our Promoters and Key Managerial Personnel for the continued success of our business through their continuing services and strategic guidance and support.*

Our success heavily depends upon the continued services of our Key managerial personnel, along with support of our Promoters. We also depend significantly on our Key Managerial Persons for executing our day-to-day activities. The loss of any of our Promoter and Key Management Personnel, or failure to recruit suitable or comparable replacements, could have an adverse effect on us. The loss of service of the Promoters and other senior management could seriously impair the ability to continue to manage and expand the business efficiently. If we are unable to retain qualified employees at a reasonable cost, we may be unable to execute our growth strategy. For further details of our Directors and key managerial personnel, please refer to Section "*Our Management*" on page 102 of this Draft Prospectus.

39. *We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds may delay the implementation schedule.*

The proposed fund requirement for our Working Capital requirements, as detailed in the section titled "Objects of the Issue" is to be funded from the proceeds of this IPO. We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds may delay the implementation schedule. We therefore, cannot assure that we would be able to execute our future plans/strategy within the given timeframe. For details, please refer to the Chapter titled "*Objects of the Issue*" beginning on page 60 of this Draft Prospectus.

40. We are subject to the restrictive covenants of banks in respect of the Loans/ Credit Limits and other banking facilities availed from them.

Our financing arrangements contain restrictive covenants whereby we are required to obtain approval from our lender, regarding, among other things such as, all future borrowings, undertake any guarantee obligation etc. There can be no assurance that such consents will be granted or that we will be able to comply with the financial covenants under our financing arrangements. In the event we breach any financial or other covenants contained in any of our financing arrangements, we may be required under the terms of such financing arrangements to immediately repay our borrowings either in whole or in part, together with any related costs. This may adversely impact our results of operations and cash flows. For further details on the Cash Credit Limits and other banking facilities, please see "*Statement of Financial Indebtedness*" on page 147 of the Draft Prospectus.

41. Our insurance coverage may not be adequate to protect us against certain operating hazards and this may have a material adverse effect on our business.

Our company has obtained insurance coverage in respect of certain risks. Our insurance coverage consists of jewellery comprehensive protection policy, special contingencies, fidelity guarantee policy and vehicle insurance. We have not sought any kind of transit insurances for delivery of material to and from the franchisee. While we believe that the insurance coverage maintained by us is adequate and consistent with the size of our business. However, there is no assurance that the insurance policy taken by us will be adequate for us to cover the losses. If we suffer any uninsured loss or if claim made by us in respect of an insurance is not accepted or any loss occurred by us is in excess of the insurance coverage may adversely affect our operation, results and financials. For further information, see the section titled "*Our Business*" on page 81 of this Draft Prospectus.

42. Our operations are subject to high working capital requirements. Our inability to maintain an optimal level of working capital required for our business may impact our operations adversely.

Our business requires significant amount of working capital and major portion of our working capital is utilized towards operating expenses, inventories and cash and cash equivalents. As on September 30, 2021, we have been sanctioned working capital limit from day-to-day Axis Bank Limited. Our growing scale and expansion, if any, may result in increase in the quantum of current assets. Our inability to maintain sufficient cash flow, credit facility and other sources of funding, in a timely manner, or at all, to meet the requirement of working capital or pay out debts, could adversely affect our financial condition and result of our operations. Further, we have high outstanding amount due from our debtors which may result in a high risk in case of non-payment by these debtors. In case of any such defaults from our debtors, may affect our business operations and financials. For further details regarding working capital requirement, please refer to the section "*Objects of the Issue*" on page 60 of this Draft Prospectus.

43. Any Penalty or demand raised by statutory authorities in future will affect our financial position of the Company.

Our Company is engaged in retail business of jewellery which attracts tax liability such as Goods and Service Tax, Income Tax, and Professional Tax as per the applicable provisions of Law. Currently we are not required to get registration under the labour laws like Provident Fund and ESI but in future we may be subjected to deposit of Provident Fund and ESI contribution of employees. However, we have deposited the required returns under various applicable Acts but any demand or penalty raised by the concerned authority in future for any previous year and current year will affect the financial position of the Company.

44. The Objects of the Issue for which funds are being raised have not been appraised by any bank or financial institution. Any variation between the estimation and actual expenditure as estimated by the management could result in execution delays or influence our profitability adversely.

The deployment of funds as stated in the "Objects of the Issue" beginning on page 60 of the Draft Prospectus is entirely at the discretion of our management and has not been appraised by any independent agency. Further, the purposes for which the Net Proceeds are to be utilised have not been appraised by an independent entity and are based on our estimates and on third-party quotations. In the event, for whatsoever reason, we are unable to execute our plans, we could have a significant amount of unallocated net proceeds. In such a situation, we would have broad discretion in allocating these net proceeds from the Issue without any action or

approval of our shareholders. In case the assumptions on which these estimates have been made are not correct or they become unrealistic then there will be a variation in the estimates and the actual expenditure incurred which could result in execution delays and have an adverse effect on our operations and profitability.

45. We may not be able to sustain effective implementation of our business and growth strategy.

The success of our business will largely depend on our ability to effectively implement our business and growth strategy. In the past we have generally been successful in execution of our business but there can be no assurance that we will be able to execute our strategy on time and within the estimated budget in the future. If we are unable to implement our business and growth strategy, this may have an adverse effect on our business, financial condition and results of operations.

46. Our ability to pay any dividends will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditures.

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our Dividend history refer to the Section “*Dividend Policy*” on page 118 of the Draft Prospectus.

47. There is no monitoring agency appointed by Our Company to monitor the utilization of the Issue proceeds.

As per SEBI (ICDR) Regulations, 2018, as amended, appointment of monitoring agency is required only for Issue size above ₹10,000.00 Lacs. Hence, we have not appointed any monitoring agency to monitor the utilization of Issue proceeds. However, the audit committee of our Board will monitor the utilization of Issue proceeds in terms of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. Further, our Company shall inform about material deviations in the utilization of Issue proceeds to the stock exchange and shall also simultaneously make the material deviations / adverse comments of the audit committee public.

48. Any future issuance of Equity Shares, or convertible securities or other equity linked securities by us and any sale of Equity Shares by our significant shareholders may dilute your shareholding and adversely affect the trading price of the Equity Shares.

Any future issuance of the Equity Shares, convertible securities or securities linked to the Equity Shares by us may dilute your shareholding in the Company, adversely affect the trading price of the Equity Shares and our ability to raise capital through an issue of our securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares. No assurance may be given that we will not issue additional Equity Shares. The disposal of Equity Shares by any of our significant shareholders, or the perception that such sales may occur may significantly affect the trading price of the Equity Shares. We cannot assure you that we will not issue Equity Shares or that such shareholders will not dispose of, pledge or encumber their Equity Shares in the future.

49. Our Promoters and the Promoter Group will jointly continue to retain majority shareholding in our Company after the issue, which will allow them to determine the outcome of the matters requiring the approval of shareholders.

Our promoters along with the promoter group will continue to hold collectively [●] of the equity share capital of the company. As a result of the same they will be able to exercise significant influence over the control of the outcome of the matter that requires approval of the majority shareholder’s vote. Such a concentration of the ownership may also have the effect of delaying, preventing or deterring any change in the control of our company. In addition to the above, our promoters will continue to have the ability to take actions that are not in, or may conflict with our interest or the interest of some or all of our minority shareholders, and there is no assurance that such action will not have any adverse effect on our future financials or results of operations.

50. The Issue price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue and the market price of our Equity Shares may decline below the issue price and you may not be able to sell your Equity Shares at or above the Issue Price.

The issue price of the equity shares has been based on many factors and may not be indicative of the market price of our Equity Shares after the Issue. For further information please refer the section titled “*Basis for Issue Price*” beginning on page 65 of the Draft

Prospectus. The market price of our Equity Shares could be subject to significant fluctuations after the Issue, and may decline below the Issue Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue Price.

51. Certain data mentioned in this Draft Prospectus has not been independently verified.

We have not independently verified data from industry publications contained herein and although we believe these sources to be reliable, we cannot assure that they are complete or reliable. Such data may also be produced on a different basis from comparable information compiled with regard to other countries. EXTERNAL RISK FACTORS

52. Any changes in the regulatory framework could adversely affect our operations and growth prospects.

Our Company is subject to various regulations and policies. For details see section titled “Key Industry Regulations and Policies” beginning on page 89 of this Draft Prospectus. Our business and prospects could be materially adversely affected by changes in any of these regulations and policies, including the introduction of new laws, policies or regulations or changes in the interpretation or application of existing laws, policies and regulations. There can be no assurance that our Company will succeed in obtaining all requisite regulatory approvals in the future for our operations or that compliance issues will not be raised in respect of our operations, either of which could have a material adverse effect on our business, financial condition and results of operations.

53. If there is any change in tax laws or regulations, or their interpretation, such changes may significantly affect our financial statements for the current and future years, which may have a material adverse effect on our financial position, business and results of operations

The Government of India may implement new laws or other regulations that could affect the jewellery industry, which could lead to new compliance requirements. New compliance requirements could increase our costs or otherwise adversely affect our business, financial condition and results of operations. Further, the manner in which new requirements will be enforced or interpreted can lead to uncertainty in our operations and could adversely affect our operations. To the extent that we are entitled to certain tax benefits in India which are available for a limited period of time, our profitability will be affected if such benefits will no longer be available, or are reduced or withdrawn prematurely or if we are subject to any dispute with the tax authorities in relation to these benefits or in the event, we are unable to comply with the conditions required to be complied with in order to avail ourselves of each of these benefits. Please see “Statement of Tax Benefits” on page 68 of this Draft Prospectus. In the event that any adverse development in the law or the manner of its implementation affects our ability to benefit from these tax incentives, our business, results of operations, financial condition and prospects may be adversely affected.

54. A decline in economic growth or political instability nationally or internationally or changes in the Government in India could adversely affect our business.

Our performance and the growth of our business are necessarily dependent on the health and performance of the overall Indian economy. In the recent past, Indian economy has been affected by global economic uncertainties and liquidity crisis, domestic policy and political environment, volatility in interest rates, currency exchange rates, commodity and electricity prices, rising inflation rates and various other factors. Risk management initiatives by banks and lenders in such circumstances could affect the availability of funds in the future or the withdrawal of our existing credit facilities. The Indian economy is undergoing many changes and it is difficult to predict the impact of certain fundamental economic changes on our business. Conditions outside India, such as a slowdown or recession in the economic growth of other major countries, especially the United States, have an impact on the growth of the Indian economy. Additionally, an increase in trade deficit, a downgrading in India’s sovereign debt rating or a decline in India’s foreign exchange reserves could negatively affect interest rates and liquidity, which could adversely affect the Indian economy and our business. Any downturn in the macroeconomic environment in India could adversely affect our business, financial condition, results of operation and the trading price of our Equity Shares. Changing demand patterns from economic volatility and uncertainty could have a significant negative impact on our results of operations. Further, our performance and the market price and liquidity of the Equity Shares may be affected by changes in exchange rates and controls, interest rates, government policies, taxation, social and ethnic instability and other political and economic developments affecting India.

55. Terrorist attacks, civil unrest and other acts of violence or war involving India and other countries could adversely affect the financial markets and our business.

Terrorist attacks and other acts of violence or war may negatively affect the Indian markets on which our Equity Shares will trade and also adversely affect the worldwide financial markets. These acts may also result in a loss of business confidence, impede travel and other services and ultimately adversely affect our business. In addition, any deterioration in relations between India and any other country might result in investor concern about stability in the region, which could adversely affect the price of our Equity Shares. India has also witnessed civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic and political events in India could have a negative impact on the value of share prices generally as well as the price of our Equity Shares. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse impact on our business and the price of our Equity Shares.

56. Instability in financial markets could materially and adversely affect our results of operations and financial condition.

The Indian economy and financial markets are significantly influenced by worldwide economic, financial and market conditions. Any financial turmoil, especially in the United States of America or Europe, may have a negative impact on the Indian economy. Although economic conditions differ in each country, investors' reactions to any significant developments in one country can have adverse effects on the financial and market conditions in other countries. A loss in investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets. Indian financial markets have also in the past experienced the contagion effect of the global financial turmoil, evident from the sharp decline in SENSEX, BSE's benchmark index. Any prolonged financial crisis may have an adverse impact on the Indian economy and us, thereby resulting in a material and adverse effect on our business, operations, financial condition, profitability and price of our Equity Shares.

57. Any downgrading of India's debt rating by a domestic or international rating agency could adversely affect our Company's business.

Any adverse revisions to India's credit ratings for domestic and international debt by domestic or international rating agencies may adversely affect our Company's ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing is available. This could harm our Company's business and financial performance and ability to obtain financing for capital expenditures.

58. Natural disasters, fires, epidemics, pandemics, acts of war, terrorist attacks, civil unrest and other events could materially and adversely affect our business.

Natural disasters (such as typhoons, flooding and earthquakes), epidemics, pandemics such as COVID-19, acts of war, terrorist attacks and other events, many of which are beyond our control, may lead to economic instability, including in India, or globally, which may in turn materially and adversely affect our business, financial condition and results of operations. Our operations may be adversely affected by fires, natural disasters and/or severe weather, which can result in damage to our property or inventory and generally reduce our productivity and may require us to evacuate personnel and suspend operations.

These are based on current conditions and are subject to change in light of changes in external circumstances or costs or in other financial conditions, business strategy, as discussed further below.

Means of Finance

We intend to finance our Objects of Issue through Net Issue Proceeds which is as follows:

Particulars	Amt (Rs. in Lacs)
Net Issue Proceeds	[●]
Total	[●]

Since, the entire fund requirement is to be funded from the proceeds of the Issue, there is no requirement to make firm arrangements of finance under Regulation 230(1)(e) of the SEBI ICDR Regulations through verifiable means towards at least 75% of the stated means of finance, excluding the amounts to be raised through the proposed Issue.

In case of any increase in the actual utilization of funds earmarked for the Objects, such additional funds for a particular activity will be met by way of means available to our Company, including from internal accruals. If the actual utilization towards any of the Objects is lower than the proposed deployment such balance will be used for future growth opportunities including funding existing objects, if required. In case of delays in raising funds from the Issue, our Company may deploy certain amounts towards any of the

above-mentioned Objects through a combination of Internal Accruals or Unsecured Loans (Bridge Financing) and in such case the Funds raised shall be utilized towards repayment of such Unsecured Loans or recouping of Internal Accruals. However, we confirm that no bridge financing has been availed as on date, which is subject to being repaid from the Issue Proceeds.

As we operate in competitive environment, our Company may have to revise its business plan from time to time and consequently our fund requirements may also change. Our Company's historical expenditure may not be reflective of our future expenditure plans. Our Company may have to revise its estimated costs, fund allocation and fund requirements owing to various factors such as economic and business conditions, increased competition and other external factors which may not be within the control of our management. This may entail rescheduling or revising the planned expenditure and funding requirements, including the expenditure for a particular purpose at the discretion of the Company's management.

SECTION IV – ABOUT THE COMPANY

INDUSTRY OVERVIEW

The information in this section has been extracted from various websites and publicly available documents from various industry sources. The data may have been re-classified by us for the purpose of presentation. Neither we nor any other person connected with the issue has independently verified the information provided in this section. Industry sources and publications, referred to in this section, generally state that the information contained therein has been obtained from sources generally believed to be reliable but their accuracy, completeness and underlying assumptions are not guaranteed and their reliability cannot be assured, and, accordingly, investment decisions should not be based on such information.

Global Scenario

The COVID-19 pandemic took a severe toll on global economic activity in H1:2020. Global demand plunged following a very sharp compression in consumption and a collapse in investment and international commodity prices. Propelled up by massive policy support by both governments and central banks, however, major economies recorded a sequential pick-up in Q3:2020. Even as intensification of containment measures in response to a strong resurgence of coronavirus infections across various countries posed downside risks, progress with vaccines and inoculation drives lifted expectations and reduced uncertainty on the global economic outlook as reflected in improvement in global economic projections for 2020 by the IMF in January 2021 and April 2021 (contraction of 3.5 per cent and 3.3 per cent, respectively). With demand conditions normalizing alongside easing of supply and mobility disruptions in an environment of sustained policy support, a faster economic recovery is expected in 2021.

Chart II.6.1: Real GDP and World Trade Volume Projections (Y-o-Y Growth)

Note: World trade in WTO projection relates to merchandise trade while that in IMF projection pertains to trade in goods and services.

Source: WTO, IMF, and OECD.

World merchandise trade activity also appears to be gaining momentum from the contraction of 21 per cent in Q2. A contraction of 6 per cent in Q3:2020 and an expansion of 2 per cent in Q4:2020 has signaled the turnaround. Services trade that contracted 28 per cent in Q2 is taking longer to revive. The WTO's goods trade barometer recovered from 84.5 in August to 103.9 in December 2020 but components of trade are since showing some signs of deceleration. Since the pandemic, travel and tourism have been the most impacted sectors due to a sharp cutback in global migration and imposition of travel restrictions. The impact of COVID-19 on global remittances, already discernible in 2020, may extend to 2021, as demand for expatriate workers may not recover fully amongst source countries.

Lockdowns also impacted cross-border investment across greenfield projects as well as cross-border mergers and acquisitions, leading to a decline in global foreign direct investment flows by 38 per cent in 2020. Europe faced a sudden stop, but developing economies, especially in Asia, fared better. After the COVID-19 pandemic triggered a massive portfolio outflow from EMEs in March 2020, the rapid and unprecedented response from governments and central banks, steps by the US Federal Reserve to support dollar liquidity, weakening of the US dollar, and the quick recovery in China helped rekindle portfolio flows in Q4:2020. Benefitting from reflation trade, EMEs hosted portfolio inflows to the tune of US\$ 518 billion during 2020-21 (April-March), of which almost 77 per cent has been into debt markets. Boosted by resurgence in capital flows and fall in US dollar, EME currencies recovered during April-June

2020 and remained stable thereafter. Starting March 2020, massive purchases by central banks and reflation trade helped suppress bonds' yields globally and the revival in risk appetite gave a much-needed impetus to foreign portfolio investors in acquisitions of EME assets. From Q3:2020, a broad-based recovery also set in upon commodity markets.

(Source: <https://www.rbi.org.in/scripts/AnnualReportPublications.aspx?Id=1315>)

Global output is expected to witness the sharpest contraction in a century, contracting in the range of 3.5 - 4.3 per cent in 2020 as per the estimates provided by IMF and World Bank. The cumulative loss to global GDP over 2020 and 2021 is estimated at around USD 9 trillion – greater than the economies of Japan and Germany combined. Loss of output is anticipated to be more severe in AEs at 5.4 per cent compared to EMDEs, excluding China, which stood at 5.0 per cent for the year 2020. This is aligned with the more severe impact of the pandemic spread in AEs than EMDEs as was seen above. The estimates for global growth were revised upward through the year with easing of lockdowns and resurgence in economic activity in July-September quarter of the year. The rebound in global activity has, however, been uneven and subdued since the beginning of second half of the year due to resurgence in COVID-19 infection rates in AEs.

(Source: <https://www.indiabudget.gov.in/economicsurvey/>)

The World Bank envisions global growth reaching 5.6 percent in 2021, the fastest post-recession pace in 80 years. Advanced-economy growth is expected to be exceptionally strong this year: in per capita terms, it will likely double its pace following the 2009 recession.

The rebound in emerging market and developing economies (EMDEs) is expected to be less pronounced than the recovery that followed the 2009 recession. As a result, this global recovery is expected to be less broad-based and more uneven than previous ones. Whereas over 90 percent of advanced economies are expected to regain their pre-recession per capita output levels in 2022, only about one third or EMDEs are expected to do so over that time.

 Note: Data for 2021-23 used in the "2020" episode are forecasts. Dashed yellow line is 50 percent.

The global growth is expected to moderate but remain robust, averaging 3.7 percent over 2022-23. If the possibility of recurring local COVID-19 outbreaks combined with a sharp tightening of global financial conditions - a "Faltering Recovery" scenario -- were to materialize, global growth could be notably weaker, averaging 2.4 percent in 2022-23.

 Note: Red bars show average of 2010-2019 GDP growth. Blue bars show baseline data from Global Economic Prospects June 2021 database. Yellow whiskers indicate the scenario ranges from Oxford Global Economic Model simulations compared to the baseline scenario.

The baseline scenario envisions a continued recovery in EMDEs through 2023, with growth averaging 4.5 percent in 2022-23. Still, this would be insufficient to return most EMDEs to their pre-pandemic levels, let alone their pre-pandemic trends. By 2022, only about one third of EMDEs would recover their 2019 level of per capita output. A sudden rise of global financial stress amid a lingering pandemic could cut the nascent recovery short, with EMDE growth averaging only 2.4 percent over 2022-23, well below an estimated potential output growth of 3.9 percent over that time. In contrast, if durable pandemic containment is achieved and EMDEs were to take advantage of benign global conditions to implement growth-enhancing reforms, the projected expansion could be even stronger, with growth averaging over 5 percent over 2022-23.

Most commodity prices rebounded from their mid-2020 lows as strict lockdowns were gradually lifted and demand firmed, especially from China. The recovery in oil prices was more modest amid concerns over the pandemic's lasting impact on oil demand. Gold emerged as a safe-haven investment in the backdrop of the pandemic prices with prices increasing by 26.2 per cent in November, 2020 as compared to December, 2019. Food prices also surged during the year reflecting supply chain disruptions. As a result of weak demand and subdued energy prices, inflation moderated in most part of the world, deflationary pressure emerged in major AEs. Fall in inflation in EMDEs was less broad based than in AEs, reflecting the effects of sharp currency depreciations as well as rising domestic food prices in some countries.

Indian Economy Overview

Against the backdrop of the collapse in world trade, India's merchandise exports and imports contracted by 7.3 per cent and 18.0 per cent, respectively, during 2020-21. A fall in prices, combined with a decline in volume by 3.5 per cent, pulled down exports. The stringent measures, which were imposed domestically to curb the spread of the pandemic disrupted export supply chains, especially in Q1:2020-21. Only pharmaceuticals, agricultural products and iron ore could withstand the onslaught of the pandemic. A revival gained strength in Q3, on the back of growth in non-oil exports (3.1 per cent).

India's GDP contraction of 23.9 per cent in Q1: FY 2020-21 and 7.5 per cent in Q2: FY 2020-21 quarter reflect the unparalleled effect of the Covid-19 pandemic and the containment measures that were taken to control the pandemic. The contraction was consistent with the India's enforcement of one of the most stringent lockdowns as reflected in the Government Response Stringency Index measured by Oxford University. The fundamentals of the economy remained strong as gradual scaling back of lockdowns, along with the astute support of Atmanirbhar Bharat Mission has placed the economy firmly on the path of recovery.

NSO has estimated a contraction of real GDP by 7.7 per cent in 2020-21 as compared to a growth of 4.2 per cent in 2019-20.

Figure 5 Trend in India’s Real GDP Growth

After an estimated 7.7 per cent pandemic-driven contraction in 2020-21, India’s real GDP is projected to record a growth of 11.0 percent in 2021-22 and nominal GDP by 15.4 per cent. These conservative estimates reflect upside potential that can manifest due to the continued normalization in economic activities as the rollout of Covid-19 vaccines gathers traction. This will further be supported by supply-side push from reforms and easing of regulations, push to infrastructural investments, boost to manufacturing sector through the Productivity Linked Incentive Schemes, recovery of pent-up demand for services sector, increase in discretionary consumption subsequent to roll-out of the vaccine and pick up in credit given adequate liquidity and low interest rates.

This path would entail a growth in real GDP by 2.4 percent over the absolute level of 2019-20 – implying that the economy would take two years to reach and go past the pre-pandemic level. These projections are in line with IMF estimate of real GDP growth of 11.5 per cent in 2021-22 for India and 6.8 per cent in 2022-23. India is expected to emerge as the fastest growing economy in the next two years as per IMF.

The GoI announced a remedial and reform package (Atmanirbhar Bharat Abhiyan) comprising of stimulus of package amounting to 15 per cent of India’s GDP. During FY20, total FDI equity inflows were US\$49.98 billion as compared to US\$44.37 billion during FY19. The similar number for FY21 (up to September-2020) was US\$30.0 billion. The bulk of FDI equity flow is in the non-manufacturing sector leading to a reduction in the share of manufacturing in the FDI flows. Within the manufacturing sector, industries like automobile, telecommunication, metallurgical, non-conventional energy, chemical (other than fertilizers), food processing, and petroleum & natural gas get the bulk of FDI equity flows.

With the objective of enhancing India’s manufacturing capabilities and exports, the GoI has introduced the Production-Linked Incentive (PLI) Scheme in the 10 key sectors under the aegis of Atmanirbhar Bharat.

The second advance estimate (SAE) that were released by the National Statistical Office (NSO) in February 2021 revealed that aggregate demand, measured by real GDP, contracted by 8.0 per cent in 2020-21. This is the first contraction experienced since 1980-81 and the severest ever. In fact, the contraction was of the order of 15.9 per cent in the first half of 2020-21 under the full brunt of the lockdown imposed to curb the transmission of COVID-19.

Progressive restoration in demand conditions was evident with a sharp rebound in seasonally adjusted annualized growth rate (SAAR) in Q2:2020-21, indicating a recovery in momentum. This was sustained in the next quarter as well, reflected in an uptick in the three-quarter moving average (MA-SAAR) of GDP in Q3:2020-21.

The unprecedented shock of the global pandemic impacted cross-border movement of capital flows, particularly in the form of foreign direct investment (FDI). Global FDI flows declined by 38 per cent in 2020 (OECD, 2021), to their lowest level since 2005. Lockdowns around the world not only caused delay in existing investment projects but also forced global companies to reassess their new projects.

Among the major economies, India and China are the only economies that bucked the global trend in FDI inflows. In the case of India, the bulk of these investments went into e-commerce and digital platforms, with mega deals in Indian companies mirroring the growing business prospects for digital operations worldwide.

(Source: <https://www.rbi.org.in/scripts/AnnualReportPublications.aspx?Id=1315>)

Even though FDI inflows were stronger in 2020-21, their distribution was highly skewed. The coefficient of variation of FDI flows (based on transaction size) was larger during the pandemic period, implying concentration in distribution. The lower incidence of transactions points to the underlying weakness in FDI inflows during the year. Without the top five FDI deals, FDI inflows during 2020-21 would have declined by about third of their level a year ago. The number of FDI transactions declined by 31 per cent during the pandemic period, while their average size decreased marginally.

GEMS & JEWELLERY INDUSTRY

The Gems and Jewellery Sector plays a significant role in the Indian economy, contributing around 6-7% of the country’s GDP. One of the fastest growing sectors, it is highly export-oriented and labor-intensive. Based on its potential for growth and value addition, the Government of India declared the Gems and Jewellery Sector as a focus area for export promotion. India is deemed to be the hub of the global jewellery market because of its low cost and availability of high-skilled labour. India is the world’s largest cutting and polishing centres for diamonds, with the cutting and polishing industry being well supported by government policies. The Gems and Jewellery market in India is home to more than 500,000 players, with the majority being small players.

Export Highlights

India is the most preferred country in terms of gems and jewellery export. The facts listed below give us an idea of India's position on the global gems and jewellery export map. Indian gems and jewellery are exported across continents.

- India is the world's second largest gold consumer.
- India's diamond exports ranked second in the world valued at US\$ 23.82 billion in 2018-19.
- In 2018-19, the net exports of gems and jewellery stood at US\$ 30.96 billion
- India's top export destinations for gems and jewellery are US, Europe, Japan and China. US account for nearly one-fourth of the country's total gems and jewellery exports.

Gems and jewellery exports, which were contracting in 2019-20, slumped further in 2020-21 due to COVID-19 related demand and supply disruptions. The contraction was particularly severe in Q1:2020-21, but export growth finally returned into positive territory in November 2020 due to revival in demand for pearls and precious stones. Gold jewellery, which is the other major component, remains in a deep contractionary mode. The UAE used to be the largest destination of gold jewellery exports, accounting for more than 50 per cent of India's total gold jewellery exports. However, travel restrictions and the reluctance of Indian exporters to ship goods on credit owing to the uncertainty created by COVID-19 led to a massive slump in exports of gold jewellery to the UAE.

India is one of the biggest consumers of gold, but it imported its lowest monthly volumes in April 2020, reflecting a significant fall in demand in the pandemic. However, gold imports, in value terms, picked up in Q2 and have continued to remain at an elevated level since then. The growth in gold imports has been essentially driven by steep rise in global gold prices, though even in volume terms they have recovered to levels seen last year. In particular, during Q4:2020-21, several factors, ranging from base effect to pre-festival

impact (Akshaya Tritiya), pent up wedding induced demand contributed to the sharp surge in gold imports. According to a recent report by the World Gold Council, high gold prices supported an increase in global recycling of gold, which spiked sharply in Q2 and Q3:2020

Reduction in import duty on Precious Metals Gold/Silver/ Platinum from 12.5% to 4% as this will help exports and help us to be globally competitive. The industry in Jaipur is impacted by high duty on cut and polished precious and semi-precious gemstones; and the 0.5% duty on rough colour gemstones. 0.5% is not much revenue impact but the time which goes in clearing parcels is impacting ease of doing business. The trade, nurtured over 30 years in Jaipur, is now gradually moving to Thailand.

National Environmental Policy, 2006

The Policy seeks to extend the coverage, and fill in gaps that still exist, in light of present knowledge and accumulated experience. This policy was prepared through an intensive process of consultation within the Government and inputs from experts. It does not displace, but builds on the earlier policies. It is a statement of India's commitment to making a positive contribution to international efforts. This is a response to our national commitment to a clean environment, mandated in the Constitution in Articles 48 A and 51 A (g), strengthened by judicial interpretation of Article 21. The dominant theme of this policy is that while conservation of environmental resources is necessary to secure livelihoods and well-being of all, the most secure basis for conservation is to ensure that people dependent on particular resources obtain better livelihoods from the fact of conservation, than from degradation of the resource.

Following are the objectives of National Environmental Policy:

An impairment loss is recognized wherever the carrying value of an asset exceeds its recoverable amount. The recoverable amount is higher of the asset's net selling price and value in use, which means the present value of future cash flows expected to arise from the continuing use of the asset and its eventual disposal. An impairment loss for an asset is reversed if, and only if, the reversal can be related objectively to an event occurring after the impairment loss was recognized. The carrying amount of an asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

7. CASH FLOW STATEMENT

The cash flows from operating, investing and financing activities are segregated.

8. BORROWING COSTS

A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use. Costs incurred in raising funds are amortized equally over the period for which the funds are acquired. All other borrowing costs are charged to profit and loss account.

9. INCOME TAX

The accounting treatment for the Income Tax in respect of the Company's income is based on the Accounting Standard on 'Accounting for Taxes on Income' (AS-22). The provision made for Income Tax in Accounts comprises both, the current tax and deferred tax. Provision for Current Tax is made on the assessable Income Tax rate applicable to the relevant assessment year after considering various deductions available under the Income Tax Act, 1961.

Deferred tax is recognized for all timing differences; being the differences between the taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Such deferred tax is quantified using the tax rates and laws enacted or substantively enacted as on the Balance Sheet date. The carrying amount of deferred tax asset/liability is reviewed at each Balance Sheet date and consequential adjustments are carried out.

10. EARNINGS PER SHARE

Diluted earnings per share is computed by dividing the profit after tax by the weighted average number of equity shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

The diluted potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value which is the average market value of the outstanding shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

11. PROVISIONS AND CONTINGENT LIABILITIES

A provision is recognized if, as a result of a past event, the Company has a present legal obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by the best estimate of the likely future outflow of economic benefits required to settle the obligation at the reporting date.

Where no reliable estimate can be made, a disclosure is made as contingent liability. A disclosure for a contingent liability is also made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

12. CASH & CASH EQUIVALENTS

BASIS OF ALLOTMENT

Allotment will be made in consultation with the Stock Exchange. In the event of oversubscription, the allotment will be made on a proportionate basis in marketable lots as set forth here:

1. The total number of Shares to be allocated to each category as a whole shall be arrived at on a proportionate basis i.e., the total number of Shares applied for in that category multiplied by the inverse of the over subscription ratio (number of applicants in the category X number of Shares applied for).
2. The number of Shares to be allocated to the successful applicants will be arrived at on a proportionate basis in marketable lots (i.e., Total number of Shares applied for into the inverse of the over subscription ratio).

For applications where the proportionate allotment works out to less than [●] Equity shares the allotment will be made as follows:

1. Each successful applicant shall be allotted [●] Equity shares; and
2. The successful applicants out of the total applicants for that category shall be determined by the drawl of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (2) above.

If the proportionate allotment to an applicant works out to a number that is not a multiple of [●] Equity shares, the applicant would be allotted Shares by rounding off to the nearest multiple of [●] Equity shares subject to a minimum allotment of [●] Equity shares.

If the Shares allotted on a proportionate basis to any category is more than the Shares allotted to the applicants in that category, the balance available Shares for allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful applicants in that category, the balance Shares, if any, remaining after such adjustment will be added to the category comprising of applicants applying for the minimum number of Shares.
