While we have described the risks and uncertainties that our management believes are material, these risks and uncertainties may not be the only risks and uncertainties we face. Additional risks and uncertainties, including those we currently are not aware of or deem immaterial, may also have an adverse effect on our business, results of operations, financial condition and prospects.

Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in the Draft Prospectus.

The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors below. However, there are risk factors the potential effects of which are not quantifiable and therefore no quantification has been provided with respect to such risk factors. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of the Issue, including the merits and the risks involved. 1. Some events may not be material individually but may be found material collectively.

Therefore for the purpose of becoming member in the society, we have registered the said property in the name of our employee, Mr. Ankit Jain. However, Mr. Ankit Jain has executed an MOU with our Company transferring all rights for use of property including selling, transferring and leasing of the property. Our Company holds all free and irrevocable rights in the said property. 4. ***There are certain non compliances of Accounting Standards (AS) issued by Institute of Chartered Accountants of India for previous financial years / periods.***

In past, there were certain non compliances of Accounting Standards (AS-15, AS-18, AS-19, AS -20 & AS-29) in our audited financial statements of various financial years. However our Company has made the suitable adjustments for the above non compliance in the restated financial statements.

M/s. Bhojpal Dwellings. However these activities were not covered under the object clause of our Memorandum of Association prior to July 3, 2014.***

In order to explore new business avenues, we had entered into a partnership deed dated April 30, 2011 to carry out civil construction and building development activities. Due to lack of professional guidance, we did not amend our object clause in Memorandum of Association suitably for insertion of the aforesaid business activities. However at our Annual General Meeting held on July 3, 2014 and with the consent of our members, we have now suitably modified our object clause to cover said activities and made requisite filings with ROC. While till date we have not commenced any business operation in the said partnership firm. However, we cannot assure that no penal action will be taken against us by any statutory authority.

6. ***We are highly dependent on one of our customers for a significant portion of our income.***

We derive significant portion of our revenues from one of our customer viz. CEO, Maharashtra. In FY 2013-14, CEO, Maharashtra accounted for 61.07% of our revenues. In future, if we fail to retain such client it will have an adverse impact on revenues and margins.

7. *We have experienced negative cash flows in previous years. Any operating losses or negative cash flows in the future could adversely affect our results of operations and financial conditions.*

(Rs in Lacs)

Particulars	For the year Ended 31st of				
	March-14	March -13	March -12	March -11	March -10
Net cash (used in) / from Operating Activities	155.78	87.17	373.8	114.11	250.88

Net increase / (decrease) in cash and cash equivalents	-181.8	-71.23	13.52	-13.6	-77.38

Cash flow of a Company is a key indicator to show the extent of cash generated from operations to meet capital expenditure, pay dividends, repay loans and to make new investments without raising finance from external resources. If we are not able to generate sufficient cash flows, it may adversely affect our business and financial operations. Please refer **Annexure III** in chapter titled “**Financial Information of the Company**” beginning on page 121 of the Draft Prospectus for further information.

8. *Our future success depends to a significant extent on Our Promoters, Directors & Key Technical and Managerial Personnel.*

We are highly dependent on our Promoters, Directors & Key Technical and Managerial Personnel .Our future performance may be affected by any disruptions in the continued service of these persons. Competition for senior management in our industry is intense, and we may not be able to retain the senior technical personnel or attract and retain the new ones in the future. The loss of any these members of our senior management or other key personnel may have a material adverse effect on our business, results of operations and financial condition. For details of the **Key Managerial Personnel**, please refer to page 112 of the Draft Prospectus.

9. *Our business and profitability will suffer if we fail to anticipate and develop new products and services and enhance existing products and services in order to keep pace with rapid changes in technology and the industries in which we operate.*

The IT services market is characterized by rapid technological change, evolving industry standards, changing client preferences and introduction of new product and service. Our future success will depend on our ability to anticipate these advances and develop new product and service offerings to meet client needs. We may not be successful in anticipating or adequately responding to these advances on timely basis, or, if we do respond, the products/ services or technologies we develop may not be successful in the marketplace. Further, products, services or technologies that are developed by our competitors may render our offerings non competitive, obsolete or force us to reduce prices, thereby adversely affecting our margins.

10. *Our attempts to secure Government and PSU projects may not always be successful. Our financial condition would be materially and adversely affected if we fail to obtain new contracts.*

As a part of our business, we bid for projects on an ongoing basis. Projects are awarded following competitive bidding processes and satisfaction of prescribed pre-qualification criteria. While service quality, technological capacity and performance, reputation and experience as well as sufficiency of financial resources are important

considerations in client decisions. There can be no assurance that we will be able to meet such qualification criteria.

Additionally, the tender processes conducted by Government & PSU entities may be subject to change in qualification criteria, unexpected delays and uncertainties. There can be no assurance that the projects for which we bid will be tendered within a reasonable timeframe, or at all. The growth of our business mainly depends on our ability to obtain new contracts in the sectors where we operate. Generally, it is very difficult to predict whether and when we will be awarded a new contract. Our future results of operations and cash flows can fluctuate materially from period to period depending on the timing of a contract being awarded.

11. Our operating results depend on our relationships with a limited number of customers, including our affiliates.

Our results of operations and our business depend on our relationships with a limited number of large customers, including Chief Electoral Office, Maharashtra. Set forth below is the total revenues during FY 2013-14 we derived from our top customers.

Name of Customers	Value (Rs in Lakhs)	Percentage of total Sales
C.E.O., Maharashtra	906.46	61.07
The Dena Bank, Mumbai, Maharashtra	112.28	7.57
The Collector, Churu, Rajasthan	103.77	6.99
IDBI Bank Head Office, Mumbai, Maharashtra	99.09	6.68
Collector & Dist. Election Officer, Bhopal, Madhya Pradesh	95.35	6.42
The Collector Dousa, Rajasthan	49.38	3.33
Total	1366.34	92.06

As a result of our reliance on relationships with a limited number of customers, we may face significant pressure on the price at which we offer our services. In addition, a customer that generates substantial revenues for us in one period may not be a substantial source of revenue for us in a subsequent period. Further, once we have completed an assignment for a customer, there can be no assurance that a customer will engage us for further services. As a result there can be no assurance that we will be able to maintain our historical rate of growth or our current level of revenues derived from the our current customers or any other customer in the future.

12. Excessive dependence on the Bank of Baroda, in respect of obtaining financial facilities.

All our secured loans have been obtained from one bank, i.e. the Bank of Baroda (Bhopal –Kotra Sultanabad Branch). Therefore, there is excessive dependence on only one lender. Any default under one loan/facility may trigger cross defaults under the other loans obtained by the same lender.

13. Our indebtedness, including various conditions and restrictions imposed on us under our financing agreements, could adversely affect our ability to grow our business or react to changes in our business environment.

Our Total Debts as per our Restated Financial Statements was Rs. 195.19 Lacs as on F.Y. ended March 31, 2014 and our Debt Equity ratio was 0.14 as of such date. For further details, please see “*Statement of Financial Indebtedness*” and “*Annexure-S-Statement of Capitalisation*” beginning on page 152 & page 149 respectively of the Draft Prospectus. Our Indebtedness could: -

- require us to dedicate a substantial portion of our cash flow from operations to payments in respect of our indebtedness, thereby reducing the availability of our cash flow to fund working capital, capital expenditures and other general corporate expenditures;
- increase our vulnerability to adverse general economic or industry conditions;
- limit our flexibility in planning for, or reacting to, competition and/or changes in our business or our industry;
- limit our ability to borrow additional funds;

- restrict us from making strategic acquisitions, introducing new services or exploiting business opportunities; and
- place us at a competitive disadvantage relative to competitors who have less debt or greater financial resources.

There can be no assurance that we will be able to generate enough cash flow from operations or that we will be able to obtain enough capital to service our debt or fund our planned expenditures. In addition, we may need to refinance some or all of our indebtedness on or before maturity.

14. Our lenders have charge over our movable and immovable properties in respect of finance availed by us.

We have secured our lenders by creating a charge over our movable and immovable properties in respect of loans / facilities availed by us from banks and financial institutions. The total amounts outstanding and payable by us as secured loans were Rs. 195.19 Lacs as on March 31, 2014. In the event, we default in repayment of the loans / facilities availed by us and any interest thereof, our properties may be forfeited by lenders. For further information on the "*Statement of Financial Indebtedness*" please refer to page no. 152 of the Draft Prospectus.

15. Our Promoters / Directors some of our Key Managerial Personnel (KMPs) have given personal guarantees in relation to debt facilities provided to us.

Our Promoters, Directors and KMPs namely Mr. Akhilesh Jain, Mrs. Rekha Jain and Mr. Archit Jain have provided personal guarantee in relation to our secured debt facilities availed from Bank of Baroda, Bhopal (Kotra Sultanabad)Branch. In the event that our Promoters/ Directors withdraw or terminates his/their guarantees, the lender for such facilities may ask for alternate guarantee/s or securities or for repayment of amounts outstanding under such facilities or even terminate such facilities. We may not be successful in procuring guarantee/s or collateral securities satisfactory to the lender and as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could adversely affect our financial condition. For more information please see the chapter titled "*Statement of Financial Indebtedness*" beginning on page 152 of the Draft Prospectus. Credit facility availed by us from Banks may be recalled or revoked at any time.

Pursuant to certain loan facilities availed by us, the bank reserves the right to recall and /or revoke the facilities in full or in parts without notice or giving any reason. We cannot assure you that we will have adequate funds at all times to repay credit facility and may also be subject to the payment of higher penal interest. Moreover, our ability to borrow and the terms of our borrowings depend on our financial condition, the stability of our cash flows and our capacity to service debt in a rising interest rate environment. We may not be successful in obtaining these additional funds in a timely manner, or on favourable terms or at all, which could adversely affect our results of operations. For further details, see "*Statement of Financial Indebtedness*" on page 152 of the Draft Prospectus.

16. We cannot assure you that we will be able to secure adequate financing in future on acceptable terms, in time, or at all.

We may require additional funds in connection with future business, expansion and development initiatives. In addition to the our existing available funds, we may need additional sources of funding to meet these requirements, which may include entering into new debt facilities with lending institutions or raising additional funds from the capital markets. If we decide to raise additional funds through the incurrence of debt, our interest obligations will increase, and we may be subject to additional covenants. Such financings could cause our debt to equity ratio to increase or require us to create charges or liens on our assets in favour of lenders. We cannot assure you that we will be able to secure adequate financing in the future on acceptable terms, in time, or at all. Our failure to obtain sufficient financing could result in the delay or abandonment of any of our business development plans and this may affect our business and future results of operations.

17. No standard valuation methodology and accounting practices in the IT industry.

The valuations in the Software/ IT industry are presently high, which may not be sustained in future and may also not be reflective of future valuations in the industry. There is no standard valuation methodology or accounting practices in the IT related industries. The financials of the issuer are not strictly comparable with the players in the industry.

18. Intense competition in the market for IT products and services could affect our cost advantages, which could reduce our share of business from clients and may adversely impact our revenues and profitability.

The IT products and services markets are highly competitive. The IT industry is experiencing rapid changes that are affecting the competitive landscape, including recent divestitures and acquisitions that have resulted in consolidation within the industry. These changes may result in larger competitors with significant resources. Many of our competitors are substantially larger than us and have significant experience with international operations, and we may face competition from them in India. Growing competition may force us to reduce the prices of our products and services, which may reduce our revenues and margins and/or decrease our market share, any of which could have a material adverse effect on our business, financial condition and results of operations. Many of our competitors have significantly greater financial, technical and marketing resources, generate greater revenues and have greater name recognition than we do. We cannot be reasonably certain that we will be able to compete successfully against such competitors, or that we will not lose clients to such competitors. Additionally, we believe that our ability to compete also depends in part on factors outside our control, such as the price at which our competitors offer comparable products and services, and the extent of our competitors' responsiveness to their clients' needs.

19. We require certain registrations and permits from government and regulatory authorities in the ordinary course of business and the failure to obtain them in a timely manner or at all may adversely affect our operations.

We require certain registrations and permits for operating our business. For more information, see **"Government and Other Approvals"** on page on 175 of the Draft Prospectus. If we fail to obtain approval of any of these registrations and permits in a timely manner or at all, our business may be adversely affected and our directors and officers may be subjected to criminal proceedings.

20. We have not registered our logo  and trade mark name.

We have not registered our logo  and trademark name and therefore we do not enjoy the statutory protections accorded to a registered trademark and are subject to the various risks arising out of the same, including but not limited to infringement or passing off our name and logo by a third party. As our logo is not registered, we would not enjoy the statutory protections accorded to a registered trademark and our ability to use our logo may be impaired. For further details please refer to section titled **"Government and Other Approvals"** on page no. 175.

21. Any increase in or occurrence of our contingent liabilities may adversely affect our financial condition.

As of March 31, 2014 our contingent liabilities as indicated in our restated summary statements were as follows:

Particulars	Amt (Rs in Lacs)
	31-Mar-2014
Guarantees given by bank on behalf of our company	260.47
Income Tax Demand as per website of Income Tax department	264.87
Total	525.34

Any increase in our contingent liabilities or occurrence of these liabilities may materially and adversely affect our financial position, results of operations and cash flows. For further details please refer to section titled **"Annexure-U- Statement of Contingent Liability"** on page 150

22. Our Insurance coverage may not be adequate to protect us against all potential losses to which we may be subject to and this may have a material adverse effect on our business.

Our insurance policies currently consists of coverage for our vehicle against accidents and does not cover our major assets such as Servers, Desktops, Cameras and Other Equipment, the details of which are disclosed under

section “ ***Our Business***” on page no. 76 of the Draft Prospectus. As stated, we have not obtained any other insurance policies. Therefore the insurance coverage that we maintain is adequate to cover all normal risks associated with the operation of our business, Further there can be no assurance that any claim under the insurance policies preferred by us will be honoured fully, in part or on time. Accordingly, to the extent that we suffer loss or damage that is not covered by insurance or which exceeds our insurance coverage, our results of operations or cash flows may be affected.

23. If we are unable to successfully protect our computer systems from security risks, our business could suffer.

Our client contracts require us to comply with certain security obligations, including maintenance of network security, back-up of data, ensuring our network is virus-free and ensuring the credentials of those employees who work with our clients. We cannot assure you that we will be able to comply with all these obligations and not incur any liability. Further, while we have implemented industry-standard security measures, our network may still be vulnerable to unauthorized access, computer viruses and other disruptive problems. A party that is able to circumvent security measures could misappropriate proprietary information and cause interruptions in our operations. We may be required to expend significant capital or other resources to protect against the threat of security breaches or to alleviate problems caused by such breaches. There can be no assurance that any measures implemented will not be circumvented in the future.

24. Any inability to manage our growth could disrupt our business and reduce our profitability.

We expect our growth to place significant demands on our management and other resources. Specifically, we will need to continue to develop and improve our operational, financial and other internal controls. Continued growth increases the challenges involved in:

- ✓ Recruiting, training and retaining sufficient skilled technical, marketing and management personnel;
- ✓ Adhering to our high quality and process execution standards;
- ✓ Preserving our culture, values and entrepreneurial environment;
- ✓ Developing and improving our internal administrative infrastructure, particularly our financial, operational, communications and other internal systems; and
- ✓ Maintaining high levels of client satisfaction.

25. We are still developing our service offerings in relation to certain of the newer IT solutions that we offer and are subject to certain risks as a new entrant in the markets for such service offerings.

Over the past several years, we have been expanding the nature and scope of our engagements by extending the breadth of IT solutions that we offer to include newer service offerings such as Smart Card and Radio Frequency Identification Card. In addition, demand for these services may be limited by customers moving such functions in-house.

The success of some of our newer service offerings depends, in part, upon continued demand for such services by our existing and new customers and our ability to meet this demand in a cost-competitive and effective manner. The development of our newer service offerings involves various risks, including, among others, execution risk and financing risk. Given our limited operating history in some of the newer service offerings, we may not have sufficient experience to address these risks.

26. Our proposed Hotel business and future results of operations of our Company may be adversely affected if we incur any time or cost overruns.

Our Company’s Hotel business plans are subject to various risks including time and cost overruns and delays in obtaining regulatory approvals. During the completion of project, there can be changes in the economic environment, local real estate market, prospective customer’s perception, price escalation, etc. Further, there could also be unexpected delays and cost overrun in relation to our projected / future projects and thus, no assurance can be given that they will be completed at the scheduled time and within the expected budget. If such changes take place during the course of development of our Hotel project, then our projections regarding the costs, revenues, return on the project, profitability as well as our operations will be adversely affected.

- 27. The hotel industry is subject to significant regulation and any failure to comply with the relevant regulations may adversely affect our business, results of operation and financial conditions.**

Our proposed hospitality business is subject to numerous laws and regulations, including those relating to the preparation and sale of food and beverages, such as health and liquor licensing laws.

- 28. There is no monitoring agency appointed by Our Company and the deployment of funds are at the discretion of our Management and our Board of Directors, though it shall be monitored by the Audit Committee.**

As per SEBI (ICDR) Regulations, 2009 appointment of monitoring agency is required only for Issue size above Rs. 500 Crore. Hence, we have not appointed a monitoring agency to monitor the utilization of Issue proceeds. However, the audit committee of our Board will monitor the utilization of Issue proceeds. Further, our Company shall inform about material deviations in the utilization of Issue proceeds to the BSE Limited and shall also simultaneously make the material deviations / adverse comments of the audit committee public.

- 29. Delay in raising funds from the IPO could adversely impact the implementation schedule.**

The proposed fund requirement, as detailed in the section titled "**Objects of the Issue**" is to be fully funded from the proceeds of this IPO. We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds may delay the implementation schedule. We therefore, cannot assure that we would be able to execute our future plans/strategy within the given timeframe.

- 30. Our Company is promoted by first generation entrepreneurs.**

Our Promoters are first generation entrepreneur. Their experience in managing and being instrumental in the growth of our Company is limited to the extent of their knowledge and experience and we cannot assure that this will not affect our business growth..

We have availed secured loans from Bank of Baroda and Credit Analysis & Research Limited vide its report dated October 29, 2013 has assigned rating of CARE BBB- [Triple B Minus] for our long-term facilities and a rating of 'CARE A3' to the short-term facilities and these ratings are subject to renew and surveillance every year. We have received a letter dated August 25, 2014 from Credit Analysis & Research Limited for annual surveillance based on our FY 2014 results. We cannot assure that our renewed credit rating would be favourable for continuing our loan facilities taken from bank.

- 32. We are entering into hospitality sector and we do not have any prior experience in hospitality sector.**

We have started construction of our proposed Hotel at our plot located at Plot No.55-56, Maharana Pratap Nagar, Zone-1, Bhopal- 462 013, Madhya Pradesh. We and our promoters being primarily into IT and Data Management services do not have any prior experience in running a hotel and we cannot assure you that our investments made for the proposed Hotel Business will yield positive returns.

- 33. We have yet to apply for certain approvals with respect to Hotel at Bhopal, Madhya Pradesh and there are certain approvals we have applied for but are pending.**

For our Hotel project, we are yet to apply for and receive various approvals / permissions from jurisdictional, statutory and regulatory authorities, a summary of which is described in the section titled "**Government and Other Approvals**" on page 175 We shall be applying for such approvals and permissions at the appropriate time. Failure or delay in obtaining these approvals would adversely affect our business.

- 34. The Hotel industry is cyclical and sensitive to changes in the economy and this could have a significant impact on our operations and financial results.**

The hotel business is cyclical and sensitive to changes in the economy in general. The hotel sector may be unfavourably affected by such factors as changes in the global and domestic economies, changes in local market conditions, excess hotel supply or reduced demand for hotel rooms and associated services, competition in the industry, changes in interest rates, the availability of finance and other natural and social factors. Since demand for hotels is affected by economic growth in India as well as globally, a global or domestic recession could lead to a downturn in the hotel industry. Such adverse developments in the hotel industry in India or in the cities where our hotels are located would have a negative impact on our profitability and financial condition.

35. *We are subject to operating risks common in the hotel industry.*

Our financial results will be affected by occupancy and room rate achieved by our hotel, our ability to control cost of developing and running additional rooms, the success of our food/beverage and catering operations. Further our operating margins would be adversely affected by increase in electricity, insurance and environmental compliance expenses. Our hotels would have to be renovated periodically to keep up with the changing trends and such renovation may involve significant development and maintenance costs. Our inability to manage the above operating risk would have a negative impact on our profitability and financial position.

36. *Increased competition in the Hotel sector may adversely affect the operation of our hotels.*

Our Hotel will compete for guests with other hotels in a highly competitive industry. Our success would be dependent on our ability to compete in areas such as room rates, quality of accommodation, service levels, and brand recognition among others. We have started construction of our proposed Hotel at Bhopal, Madhya Pradesh, India, where we face competition from existing hotel players and will also have to compete with any new hotel properties coming up in the city. Our inability to compete with them will have a negative impact on our profitability and financial condition

37. *Our Promoters and Directors may have interest in our Company, other than reimbursement of expenses incurred or remuneration.*

Apart for receipt of remuneration and re-imbursement of expenses incurred by them, our Promoters and Directors and key management personnel may be deemed to be interested to the extent of the Equity Shares held by them, or their relatives, and benefits deriving from their directorship in our Company. Our Promoters and directors are interested in the certain transactions entered into between our Company and themselves. For further details, please refer to the chapters titled “*Our Business*” and “*Our Promoters*”, beginning on page 76 and 115 respectively and the *Annexure-R titled “Related Party Transactions”* under chapter titled “*Restated Financial Statements*” beginning on page 148 of the Draft Prospectus.

B. RISK RELATED TO OUR EQUITY SHARES AND EQUITY SHARE HOLDERS

38. *Actions of our Promoters as substantial shareholders could conflict with the interest of other shareholders. Any such conflicts could have a material adverse impact on our business.*

On the date of the Draft Prospectus, the Promoters & Promoter Group hold 99.96% of our issued Equity Shares. Following the completion of the Issue, assuming full subscription, it is expected that the Promoters & Promoter Group will hold 73.56% of our issued Equity Shares. For as long as the Promoters & Promoter Group continue to hold a substantial percentage of our Equity Shares, they may influence our policies in a manner that could conflict with the interests of other shareholders. We cannot assure that the Promoters & Promoter Group would always exercise their voting rights in a manner that would be for the benefit of, or in, the best interests of our Company. For example, they could by exercising their powers of control, delay or defer a change of control or a change in our capital structure, delay or defer a merger, consolidation, takeover or other business combinations involving us, or discourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of us.

39. *Our ability to pay dividends in the future will depend on future earnings, financial condition, cash flows, working capital requirements and capital expenditures.*

Our Company has declared dividend twice so far in the FY 2012-13 @ 6% & FY 2013-14 @ 6%. The amount of our future dividend payments, if any, will depend on our future earnings, financial condition, cash flows, working

capital requirements and capital expenditures. There can be no assurance that we will be able to pay dividends again in future.

40. Further issuances of Equity Shares or Instruments Convertible in Equity Shares by us or sales of Equity Shares by any of our major shareholders could adversely affect the trading price of the Equity Shares.

Any future issuances of Equity Shares or Instruments Convertible in Equity Shares by us may lead to the dilution of investors' shareholdings in our Company. Any future equity issuances by us or sales of the Equity Shares by our Promoters & Promoter Group or other major shareholders may adversely affect the trading price of the Equity Shares. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares.

41. You may be subject to Indian taxes arising out of capital gains on sale of Equity Shares.

Under current Indian tax laws and regulations, capital gains arising from the sale of Equity Shares in an Indian Company are generally taxable in India. Any gain realized on the sale of listed Equity Shares on a stock exchange held for more than 12 months will not be subject to capital gains tax in India if Securities Transaction Tax ("STT") has been paid on the transaction. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. Any gain realised on the sale of Equity Shares held for more than 12 months to an Indian resident, which are sold other than on a recognized stock exchange and on which no STT has been paid, will be subject to long term capital gains tax in India. Further, any gain realized on the sale of listed Equity Shares held for a period of 12 months or less will be subject to short term capital gains tax in India. For more details, please refer to "Statement of Tax Benefits" on page 62 of the Draft Prospectus.

42. We cannot assure you that our Equity Shares will be listed on the SME Platform of BSE in a timely manner or at all, which may restrict your ability to dispose of the Equity Shares.

In terms of Chapter XB of the SEBI (ICDR) Regulations, 2009, as amended from time to time, we are not required to obtain any in-principle approval for listing of our Equity Shares issued. We have only applied to BSE Limited to use its name as the Stock Exchange in this Offer Document for listing our Equity Shares on the SME Platform of BSE Limited. Permission for listing of the Equity Shares will be granted only after the Equity Shares offered in this Issue have been allotted. Approval from BSE Limited will require all relevant documents authorizing the issuing of the Equity Shares to be submitted to it. There could be a failure or delay in listing the Equity Shares on the SME Platform of BSE. Further, certain procedural and regulatory requirements of SEBI and the Stock Exchanges are required to be completed before the Equity Shares are listed and trading commences. Trading in the Equity Shares is expected to commence within 12 Working Days from the Issue Closing Date. However, we cannot assure you that the trading in the Equity Shares will commence in a timely manner or at all. Any failure or delay in obtaining the approvals would restrict your ability to dispose off your Equity Shares.

43. The price of our Equity Shares may be volatile, or an active trading market for our Equity Shares may not develop.

Prior to this Issue, there has been no public market for our Equity Shares. Hem Securities Limited is acting as Market Maker for the Equity Shares of our Company. However, the trading price of our Equity Shares may fluctuate after this Issue due to a variety of factors, including our results of operations and the performance of our business, competitive conditions, general economic, political and social factors, the performance of the Indian and global economy and significant developments in India's fiscal regime, volatility in the Indian and global securities market, performance of our competitors, the Indian Capital Markets, changes in the estimates of our performance or recommendations by financial analysts and announcements by us or others regarding contracts, acquisitions, strategic partnerships, joint ventures, or capital commitments. In addition, if the stock markets experience a loss of investor confidence, the trading price of our Equity Shares could decline for reasons unrelated to our business, financial condition or operating results. The trading price of our Equity Shares might also decline in reaction to events that affect other companies in our industry even if these events do not directly affect us. Each of these factors, among others, could materially affect the price of our Equity Shares. There can be no assurance that an active trading market for our Equity Shares will develop or be sustained after this Issue, or that the price at which our Equity Shares are initially offered will correspond to the prices at which they will trade in the market subsequent to this Issue. For further details of the obligations and limitations of Market

Makers, please refer to the section titled “**General Information -Details of the Market Making Arrangement for this Issue**” on page 41 of the Draft Prospectus.

44. *There may be restrictions on daily movements in the price of our Equity Shares, which can adversely affect shareholder’s ability to sell, or the price at which it can sell, Equity Shares at a particular point of time.*

Subsequent to listing, our Company may be subject to a daily circuit breaker imposed on listed companies by the BSE, which does not allow transactions having crossed certain volatility limit in the price of its Equity Shares. This circuit breaker operates independently of the index-based market-wide circuit breakers generally imposed by SEBI on Indian stock exchanges. The percentage limit on our Company’s circuit breaker is set by the BSE based on certain factors such as the historical volatility in the price and trading volume of the Equity Shares. The BSE is not required to inform us of the percentage limit of the circuit breaker from time to time, and may change it without our knowledge. This circuit breaker, if imposed, would effectively limit the upward and downward movements in the price of the Equity Shares. As a result of this circuit breaker, we cannot assure that the shareholders will be able to sell the Equity Shares at desired prices.

C. EXTERNAL RISK FACTORS

45. *A slowdown in economic growth in India could cause our business to suffer.*

Our results of operations and financial condition are dependent on, and have been adversely affected by, conditions in financial markets in the global economy and, particularly in India. The Indian economy could be adversely affected by various factors such as political or regulatory action, including adverse changes in liberalization policies, business corruption, social disturbances, terrorist attacks and other acts of violence or war, natural calamities, interest rates, inflation, commodity and energy prices and various other factor Any slowdown in the Indian economy may adversely affect our business, financial condition, results of operations and the price of our Equity Shares.

46. *Regulatory changes with regard to Direct/Indirect taxes may adversely affect our performance or financial conditions.*

Regulatory changes relating to business segments in which we operate in India can have a bearing on our business. Each State in India has different local taxes and levies which may include value added tax, sales tax and octroi. Changes in these local taxes and levies may impact our profits and profitability. Any negative changes in the regulatory conditions in India or our other geographic markets could adversely affect our business operations or financial conditions.

47. *Instability of economic policies and the political situation in India or elsewhere could adversely affect the fortunes of the industry.*

There is no assurance that the liberalization policies of the government will continue in the future. Protests against privatization could slow down the pace of liberalization and deregulation. The Government of India plays an important role by regulating the policies governing the private sector over the past several years.

Unstable internal and international political environment could impact the economic performance in both the short term and the long term. The Government has traditionally exercised and continues to exercise a significant influence over many aspects of the Indian economy. Our Company’s business, and the market price and liquidity of the Equity Shares, may be affected by changes in interest rates, changes in the Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India.

48. *Regional hostilities, terrorist attacks, communal disturbances, civil unrest and other acts of violence or war involving India and other countries may result in a loss of investor confidence and adversely affect the financial markets and our business.*

Terrorist attacks, civil unrest and other acts of violence or war may negatively affect the Indian markets on which our Equity Shares will trade and also adversely affect the worldwide financial markets. In addition, the Asian region has from time to time experienced instances of civil unrest and hostilities among neighboring countries. Hostilities and tensions may occur in the future and on a wider scale. Military activity or terrorist attacks in India,

such as the attacks in Mumbai in November 2008 and in July 2011, may result in investor concern about stability in the region, which may adversely affect the price of our Equity Shares. Events of this nature in the future, as well as social and civil unrest within other countries in Asia, could influence the Indian economy and could have an adverse effect on the market for securities of Indian companies, including our Equity Shares.

49. *The occurrence of natural disasters may adversely affect our business, financial condition and results of operations.*

The occurrence of natural disasters, including hurricanes, floods, earthquakes, tornadoes, fires and pandemic disease may adversely affect our financial condition or results of operations. The potential impact of a natural disaster on our results of operations and financial position is speculative, and would depend on numerous factors. The extent and severity of these natural disasters determines their effect on the Indian economy. Although the long term effect of diseases such as the H5N1, Ebola, “Avian flu” virus, or H1N1, the swine flu virus, cannot currently be predicted, previous occurrences of avian flu and swine flu had an adverse effect on the economies of those countries in which they were most prevalent. An outbreak of a communicable disease in India would adversely affect our business and financial conditions and results of operations. We cannot assure you that such events will not occur in the future or that our business, financial condition and results of operations will not be adversely affected.

50. *Any downgrading of India’s debt rating by a domestic or international rating agency could negatively impact our business.*

Any adverse revisions to India’s credit ratings for domestic and international debt by domestic or international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our financial results and business prospects, ability to obtain financing for capital expenditures and the price of our Equity Shares.

51. *Any disruption in the supply of Power, IT infrastructure and telecom lines could disrupt our business process or subject us to additional costs.*

India’s infrastructure, in particular its roads, airports and power sectors, needs to be upgraded to support the growth in the country. Infrastructure in the cities needs to be improved substantially to handle the expansion of industry in which we operate. Any disruption in basic infrastructure or the failure of the Government to improve the existing infrastructure facilities could negatively impact our business since we may not be able to provide timely or adequate services to our clients. We do not maintain business interruption insurance and may not be covered for any claims or damages if the supply of power, IT infrastructure or telecom lines is disrupted. This may result in the loss of a client, impose additional costs on us and have an adverse effect on our business, financial condition and results of operations provide the same to the investor.

52. *Our transition to IFRS reporting could have a material adverse effect on our reported results of operations or financial condition.*

Our Company may be required to prepare annual and interim financial statements under IFRS in accordance with the roadmap for the adoption of, and convergence with, the IFRS announced by the Ministry of Corporate Affairs, Government of India through a press note dated January 22, 2010 (“**IFRS Convergence Note**”). The Ministry of Corporate Affairs by a press release dated February 25, 2011 has notified that 32 Indian Accounting Standards are to be converged with IFRS. The date of implementation of such converged Indian accounting standards has not yet been determined and will be notified by the Ministry of Corporate Affairs after various tax related issues are resolved. We have not yet determined with certainty what impact the adoption of IFRS will have on our financial reporting. Our financial condition, results of operations, cash flows or changes in the shareholders’ equity may appear materially different under IFRS than under Indian GAAP or our adoption of IFRS may adversely affect our reported results of operations or financial condition. This may have a material adverse effect on the amount of income recognized during that period.

SECTION III-INTRODUCTION

SUMMARY OF INDUSTRY

This is only a summary and does not contain all the information that you should consider before investing in our Equity Shares. You should read the entire Draft Prospectus, including the information contained in the chapter titled “Risk Factors” and “Restated Financial Statements y” and related notes beginning on page 13 and 121 of the Draft Prospectus before deciding to invest in our Equity Shares.

GLOBAL ECONOMY

Global activity strengthened during the second half of 2013 and is expected to improve further in 2014–15. The impulse has come mainly from advanced economies, although their recoveries remain uneven. With supportive monetary conditions and a smaller drag from fiscal consolidation, annual growth is projected to rise above trend in the United States and to be close to trend in the core Euro area economies. In the stressed euro area economies, however, growth is projected to remain weak and fragile as high debt and financial fragmentation hold back domestic demand. In Japan, fiscal consolidation in 2014–15 is projected to result in some growth moderation.

Growth in emerging market economies is projected to pick up only modestly. These economies are adjusting to a more difficult external financial environment in which international investors are more sensitive to policy weakness and vulnerabilities given prospects for better growth and monetary policy normalization in some advanced economies. As a result, financial conditions in emerging market economies have tightened further compared with the October 2013 World Economic Outlook (WEO), while they have been broadly stable in advanced economies. Downside risks continue to dominate the global growth outlook, notwithstanding some upside risks in the United States, the United Kingdom and Germany. In advanced economies, major concerns include downside risks from low inflation and the possibility of protracted low growth, especially in the euro area and Japan.

While output gaps generally remain large, the monetary policy stance should stay accommodative, given continued fiscal consolidation. In emerging market economies, vulnerabilities appear mostly localized. Nevertheless, a still-greater general slowdown in these economies remains a risk, because capital inflows could slow or reverse. Emerging market and developing economies must therefore be ready to weather market turmoil and reduce external vulnerabilities

GDP growth in United States has witnessed a steep contraction in the first quarter of 2014. Third estimates of real GDP have shown further downturn in U.S. and confirmed subdued growth in other developed economies. However, some sign of improvements have surfaced up in recent months as manufacturing sector business activities have picked up strongly in most of the major developed market such as U.S., U.K., Japan and Euro Area. Reduction in unemployment, increasing inflation rate and better economic activity pose to overcome softened growth in first quarter. In a bid to boost growth and flow of credit to private sector, European Central Bank reduced the benchmark interest rates in June 2014. Equity markets across the world observed mixed trends during June 2014, as several stock markets in developed countries reported downturn, while equities advanced in developing countries such as Russia, India, and Brazil.

Global economy experienced subdued growth during the first quarter of 2014. With emerging markets struggling with high borrowing cost, Euro Area witnessing declining output and contraction in U.S. The world economic recovery has lost momentum at the beginning of the year. However, the growth is expected to pick up gradually as the year progresses on the back of stronger manufacturing and services sector activity and improvement in international trade. Besides, improvement in labour market conditions and positive developments in economy may also instigate a case for higher interest in U.S.

INDUSTRY OVERVIEW

OVERVIEW OF THE GLOBAL AND INDIAN ECONOMY

The information in this section has been extracted from various websites and publicly available documents from various industry sources. The data may have been re-classified by us for the purpose of presentation. Neither we nor any other person connected with the Issue has independently verified the information provided in this section. Industry sources and publications, referred to in this section, generally state that the information contained therein has been obtained from sources generally believed to be reliable but their accuracy, completeness and underlying assumptions are not guaranteed and their reliability cannot be assured, and, accordingly, investment decisions should not be based on such information.

GLOBAL ECONOMY

Global activity strengthened during the second half of 2013 and is expected to improve further in 2014–15. The impulse has come mainly from advanced economies, although their recoveries remain uneven. With supportive monetary conditions and a smaller drag from fiscal consolidation, annual growth is projected to rise above trend in the United States and to be close to trend in the core Euro area economies. In the stressed euro area economies, however, growth is projected to remain weak and fragile as high debt and financial fragmentation hold back domestic demand. In Japan, fiscal consolidation in 2014–15 is projected to result in some growth moderation.

Growth in emerging market economies is projected to pick up only modestly. These economies are adjusting to a more difficult external financial environment in which international investors are more sensitive to policy weakness and vulnerabilities given prospects for better growth and monetary policy normalization in some advanced economies. As a result, financial conditions in emerging market economies have tightened further compared with the October 2013 World Economic Outlook (WEO), while they have been broadly stable in advanced economies. Downside risks continue to dominate the global growth outlook, notwithstanding some upside risks in the United States, the United Kingdom and Germany. In advanced economies, major concerns include downside risks from low inflation and the possibility of protracted low growth, especially in the euro area and Japan.

While output gaps generally remain large, the monetary policy stance should stay accommodative, given continued fiscal consolidation. In emerging market economies, vulnerabilities appear mostly localized. Nevertheless, a still-greater general slowdown in these economies remains a risk, because capital inflows could slow or reverse. Emerging market and developing economies must therefore be ready to weather market turmoil and reduce external vulnerabilities

GDP growth in United States has witnessed a steep contraction in the first quarter of 2014. Third estimates of real GDP have shown further downturn in U.S. and confirmed subdued growth in other developed economies. However, some sign of improvements have surfaced up in recent months as manufacturing sector business activities have picked up strongly in most of the major developed market such as U.S., U.K., Japan and Euro Area. Reduction in unemployment, increasing inflation rate and better economic activity pose to overcome softened growth in first quarter. In a bid to boost growth and flow of credit to private sector, European Central Bank reduced the benchmark interest rates in June 2014. Equity markets across the world observed mixed trends during June 2014, as several stock markets in developed countries reported downturn, while equities advanced in developing countries such as Russia, India, and Brazil.

Global economy experienced subdued growth during the first quarter of 2014. With emerging markets struggling with high borrowing cost, Euro Area witnessing declining output and contraction in U.S. The world economic recovery has lost momentum at the beginning of the year. However, the growth is expected to pick up gradually as the year progresses on the back of stronger manufacturing and services sector activity and improvement in international trade. Besides, improvement in labour market conditions and positive developments in economy may also instigate a case for higher interest in U.S.

The software products market in India, which includes accounting software and cloud computing-based telephony services, is expected to grow at 14 per cent in 2014.

The Department of Electronics and Information Technology is coordinating strategic activities, promoting skill development programmes, enhancing infrastructure capabilities and supporting research and development (R&D) for India’s leadership position in IT and ITeS.

The IT services sector accounted for the largest share of the IT and ITeS industry, with a total market size of US\$ 56.3 billion during FY13, followed by BPM sector (US\$ 20.9 billion), and software products and engineering services (US\$ 17.9 billion); the market size for hardware was US\$ 13.3 billion during FY12. The Indian IT-BPM industry is expected to add revenues of US\$ 13–14 billion to the existing revenues by FY15, according to National Association of Software and Services Companies (NASSCOM).

Market size of IT industry in India
India’s technology and BPM sector (including hardware) is estimated to have generated US\$ 108 billion in revenue during FY13.

Sector-wise breakup of export revenue
Export of IT services has been the major contributor, accounting for 57.9 per cent of total IT exports (excluding hardware).

The industry grew at a compound annual growth rate (CAGR) of 13.1 per cent during FY08–13. Total exports from the IT-BPM sector (excluding hardware) were estimated at US\$ 76 billion during FY13. Export of IT services has been the major contributor, accounting for 57.9 per cent of total IT exports (excluding hardware) in FY13. BPM accounted for 23.5 per cent of total IT exports during the same fiscal. The IT outsourcing sector is expected to see exports growing by 13–15 per cent during FY15.

The technology industry of India will have a US\$ 37 billion of CMO opportunity by 2020, according to a report titled 'Marketing, Disrupted: Opportunities for the Indian technology industry' by NASSCOM and SapientNitro.

Investments

Indian IT's core competencies and strengths have placed it on the international canvas, attracting investments from major countries.

According to data released by the Department of Industrial Policy and Promotion (DIPP), the computer software and hardware sector attracted foreign direct investment (FDI) worth Rs 59,381.64 crore (US\$ 9.89 billion) between April 2000 and February 2014.

Some of the major investments in Indian IT and ITeS sector are as follows:

- Tata Consultancy Services (TCS) plans to merge its two units in Japan with Mitsubishi Corp's IT subsidiary to create a joint venture (JV) company with a revenue base of US\$ 600 million in the world's second-largest market for software services.
- Private equity (PE) firm TPG Growth and India's Smile Group will jointly invest US\$ 100 million to help internet and e-commerce companies build and scale their businesses across the Asia-Pacific region and West Asia.
- Synecron plans to invest US\$ 30–35 million on the expansion of its Hyderabad and Bengaluru facilities. "We have decided to expand our presence in India by setting up facilities in Hyderabad and Bangalore. The idea is to get closer to the bigger talent pool and clients," said Mr Faisal Husain, Founder and Global CEO, Synecron.
- Bharti Airtel, India's largest telecom operator, has renewed its technology outsourcing contract with software major IBM for a period of five years.
- Infosys has partnered with telecom company Orange to provide Internet TV to its customers. Infosys will deliver a portfolio of interactive TV apps on the Orange Livebox Play. The TV apps will be powered by Infosys DigitizeEdge, a digital asset and experience platform for TV operators, media companies, advertisers and content publishers.

Government Initiatives

The Government of India played a key role with public funding of a large, well trained pool of engineers and management personnel who could forge the Indian IT industry. The Central Government and the respective State Governments are expected to collectively spend US\$ 6.4 billion on IT products and services in 2014, an increase of 4.3 per cent over 2013, according to a study by Gartner.

Some of the major initiatives taken by the Government to promote IT and ITeS sector in India are as follows:

- The Government of Bihar has unveiled 20 km free Wi-Fi zone in Patna, the longest across the planet, making a strong impression on the world's infotech map.
- The Government of India has given an in-principle approval for setting up of the first electronic system design and manufacturing (ESDM) cluster development in Electronics City, Bengaluru. The ESDM project will come up on a 1.16 acre of land at an investment of approximately Rs 85 crore (US\$ 14.16 million).
- More than 20 small and medium enterprises (SMEs) in the IT sector have recently received land allotment letters from the Government of Punjab to set up their units with an investment of Rs 500 crore (US\$ 83.24 million).
- The Government of India is planning to announce a national policy on cloud computing, as per Mr Kapil Sibal, Minister of Communications and Information Technology.
- The Governments of Maharashtra and Tamil Nadu are in talks with NASSCOM to set up 'start-up warehouses' for incubation of start-ups. The centres are expected to come up in Mumbai and Chennai and are likely to be operational by December 2014.

Road Ahead: India is the most preferred location for engineering offshoring, according to a customer poll conducted by Booz and Co. Companies are now offshoring complete product responsibility. Increased focus on R&D by IT firms in India has resulted in rising number of patents filed by them. India's IT sector is gradually moving from linear models (rising headcount to increase revenue) to non-linear ones. In line with this, IT companies in the country are focusing on new models such as platform-based BPM services and creation of intellectual property.

Tier II and III cities are increasingly gaining traction among IT companies aiming to establish business in India. Cheap labour, affordable real estate, favourable government regulations, tax breaks and special economic zone (SEZ) schemes are facilitating their emergence as new IT destinations.

Indian insurance companies also plan to spend Rs 12,100 crore (US\$ 2.01 billion) on IT products and services in 2014, a 12 per cent rise over 2013, according to Gartner. This forecast includes spending by insurers on internal IT (including personnel), software, hardware, external IT services and telecommunications.

KEY INDUSTRY REGULATIONS AND POLICIES

I. INFORMATION TECHNOLOGY ACT, 2000 (“the IT Act”)

The IT Act was enacted with the purpose of providing legal recognition to electronic transactions and facilitating electronic filing of documents. The IT Act further provides for civil and criminal liability including fines and imprisonment for various cyber crimes, including unauthorized access to computer systems, unauthorized modification to the contents of computer systems, damaging computer systems, the unauthorized disclosure of confidential information and computer fraud. The IT Act regulates Information Technology i.e. it governs information storage, processing and communication. The Act provides legal recognition of electronic records and electronic signatures, their use, retention, attribution and security.

Penalties are provided for cyber crimes which include tampering with computer source document and electronic publishing of obscene information, in addition to provision of compensation in certain cases.

II. COPYRIGHT ACT, 1957 (the “Copyright Act”)

The Copyright Act protects original literary, dramatic, musical and artistic works, Cinematographic films and sound recordings from unauthorized use of such works. Unlike the case with patents, copyright protects the expressions and not the ideas. There is no copyright in an idea. The object of copyright law is to encourage authors, artists and composers to create original works by rewarding them with exclusive right for a fixed period to reproduce the works for commercial exploitation. Copyrights subsist in following class of works:

- a) Original literary, musical, dramatic and artistic works
- b) Cinematograph films
- c) Sound recordings

Under the copyright law the creator of the original expression in a work is its author who is vested with a set of exclusive rights with respect to the use and exploitation of the work. The author is also the owner of the copyright, unless there is a written agreement by which the author assigns the copyright to another person or entity, such as a publisher, where work is done under a ‘work for hire’ agreement, the copyright vests with the hirer, i.e., the person providing the work. The owner of copyright in a work can assign or license his copyright to any person, such as publisher, under a written agreement. Copyright subsists in a work since the time it comes into being. Therefore, registration of copyright neither creates any rights nor precludes enforcement of the existing ones. However, owing to its evidentiary value, a registered copyright is easier to establish in the court of law. The term of copyright varies across different types of works. In the case of broadcasts, the Act grants “broadcast reproduction rights” to broadcasting organizations which subsist for 25 years.

VI. OTHER REGULATIONS

1. **The Indian Stamp Act, 1899 (the “Stamp Act”)**: Stamp duty in relation to certain specified categories of instruments as specified under Entry 91 of the list, is governed by the provisions of the Stamp Act, which is enacted by the Central Government. All other instruments are required to be stamped, as per the rates prescribed by the respective State Governments. Stamp duty is required to be paid on all the documents that are registered and as stated above the percentage of stamp duty payable varies from one state to another. Certain states in India have enacted their own legislation in relation to stamp duty while the other states have adopted and amended the Stamp Act, as per the rates applicable in the state. On such instruments stamp duty is payable at the rates specified in Schedule I of the Stamp Act.
2. Instruments chargeable to duty under the Stamp Act which are not duly stamped are incapable of being admitted in court as evidence of the transaction contained therein. The Stamp Act also provides for impounding of instruments which are not sufficiently stamped or not stamped at all. Unstamped and deficiently stamped instruments can be impounded by the authority and validated by payment of penalty. The amount of penalty payable on such instruments may vary from state to state.
3. **The Registration Act, 1908**: The Registration Act, 1908 was passed to consolidate the enactments relating to the registration of documents. The main purpose for which the Registration Act, 1908 was designed was to ensure information about all deals concerning land so that correct land records could be maintained. The Registration Act, 1908 is used for proper recording of transactions relating to other immovable property also. The Registration Act, 1908 provides for registration of other documents also, which can give these documents more authenticity. Registering authorities have been provided in all the districts for this purpose.
4. **The Transfer of Property Act, 1882 (the “TOPA”)**: The transfer of property, including immovable property, between living persons, as opposed to the transfer of property by operation of law, is governed by the TOPA. The TOPA establishes the general principles relating to the transfer of property, including among other things, identifying the categories of property that are capable of being transferred, the persons competent to transfer property, the validity of restrictions and conditions imposed on the transfer and the creation of contingent and vested interest in the property. The TOPA recognizes, among others, the following forms in which an interest in an immovable property may be transferred:
 - **Sale**: the transfer of ownership in property for a price paid or promised to be paid.
 - **Mortgage**: the transfer of an interest in property for the purpose of securing the payment of a loan, existing or future debt, or performance of an engagement which gives rise to a pecuniary liability. The Act recognizes several forms of mortgages over a property.
 - **Charges**: transactions including the creation of security over property for payment of money to another which are not classifiable as a mortgage. Charges can be created either by operation of law, e.g. decree of the court attaching to specified immovable property, or by an act of the parties.
 - **Leases**: the transfer of a right to enjoy property for consideration paid or rendered periodically or on specified occasions.
5. **The Indian Contract Act, 1872 (the “Contract Act”)**: The Contract Act codifies the way in which a contract may be entered into, executed, implementation of the provisions of a contract and effects of breach of a contract. A person is free to contract on any terms he chooses. The Contract Act consists of limiting factors subject to which contract may be entered into, executed and the breach enforced. It provides a framework of rules and regulations that govern formation and performance of contract. The contracting parties themselves decide the rights and duties of parties and terms of agreement.
6. **The Specific Relief Act, 1963 (the “SR Act”)**: The SR Act is complimentary to the provisions of the Contract Act and the TOPA, as the SR Act applies both to movable property and immovable property. The SR Act applies in cases where the Court can order specific performance of a contract. Specific relief can be granted only for purpose of enforcing individual civil rights and not for the mere purpose of enforcing a civil law. ‘Specific performance’ means Court will order the party to perform his part of agreement, instead of imposing on him any monetary liability to pay damages to other party.
7. **The Companies Act, 1956**: The Companies Act, 1956 deals with laws relating to companies and certain other associations. It was enacted by the parliament in 1956. The Act primarily regulates the formation, financing, functioning and winding up of companies. The Act prescribes regulatory mechanism regarding all relevant aspects, including organizational, financial and managerial aspects of companies. It deals with issue, allotment and transfer of securities and various aspects relating to company management. It provides for standard of

disclosure in public issues of capital, particularly in the fields of company management and projects, information about other listed companies under the same management, and management perception of risk factors. In the functioning of the corporate sector, although freedom of companies is important, protection of the investors and shareholders, on whose funds they flourish, is equally important. The Act plays the balancing role between these two competing factors, namely, management autonomy and investor protection.

8. **The Companies Act, 2013:** The Companies Act, 2013, has been introduced to replace the existing Companies Act, 1956 in a phased manner. The Ministry of Corporate Affairs has vide its notification dated September 12, 2013 has notified 98 Sections of the Companies Act, 2013 and the same are applicable from the date of the aforesaid notification. A further 183 Sections have been notified on March 26, 2014 and have become applicable from April 1, 2014. The Ministry of Corporate Affairs, has also issued rules complementary to the Companies Act, 2013 establishing the procedure to be followed by companies in order to comply with the substantive provisions of the Companies Act, 2013."
9. **Competition Act, 2002 (the "Competition Act"):** The Competition Act aims to prevent anti-competitive practices that cause or are likely to cause an appreciable adverse effect on competition in the relevant market in India. The Competition Act regulates anti-competitive agreements, abuse of dominant position and combinations. The Competition Commission of India (the "**Competition Commission**") which became operational from May 20, 2009 has been established under the Competition Act to deal with inquiries relating to anti-competitive agreements and abuse of dominant position and regulate combinations. The Competition Act also provides that the Competition Commission has the jurisdiction to inquire into and pass orders in relation to an anti-competitive agreement, abuse of dominant position or a combination, which even though entered into, arising or taking place outside India or signed between one or more non-Indian parties, but causes an appreciable adverse effect in the relevant market in India.

VII. REGULATIONS REGARDING FOREIGN INVESTMENT

Foreign investment in companies in the IT industry is governed by the provisions of the Foreign Exchange Management Act, 1999 ("**FEMA**") read with the applicable regulations. The Department of Industrial Policy and Promotion ("**DIPP**"), Ministry of Commerce and Industry has issued 'Circular 1 of 2014' (the "**FDI Circular**") which consolidates the policy framework on Foreign Direct Investment ("**FDI**"), with effect from April 17, 2014. The FDI Circular consolidates and subsumes all the press notes, press releases, and clarifications on FDI issued by DIPP till April 16, 2014. All the press notes, press releases, clarifications on FDI issued by DIPP till April 16, 2014 stand rescinded as on April 17, 2014.

Foreign investment is permitted (except in the prohibited sectors) in Indian companies either through the automatic route or the approval route, depending upon the sector in which foreign investment is sought to be made. Under the approval route, prior approval of the Government of India through FIPB is required. FDI for the items or activities that cannot be brought in under the automatic route may be brought in through the approval route. Where FDI is allowed on an automatic basis without the approval of the FIPB, the RBI would continue to be the primary agency for the purposes of monitoring and regulating foreign investment. In cases where FIPB approval is obtained, no approval of the RBI is required except with respect to fixing the issuance price, although a declaration in the prescribed form, detailing the foreign investment, must be filed with the RBI once the foreign investment is made in the Indian company. The RBI, in exercise of its power under the FEMA, has also notified the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident outside India) Regulations, 2000 to prohibit, restrict or regulate, transfer by or issue security to a person resident outside India.

The Consolidated FDI Circular dated April 17, 2014 issued by the DIPP does not prescribe any cap on the foreign investments in the sector in which the Company operates. Therefore foreign investment up to 100% is permitted in the Company under the automatic route. No approvals of the FIPB or the RBI are required for such allotment of equity Shares under this Issue. The Company will be required to make certain filings with the RBI after the completion of the Issue.

RBI has also issued Master Circular on Foreign Investment in India dated July 01, 2014 which is valid till June 30, 2015. In terms of the Master Circular, an Indian company may issue fresh shares to persons resident outside India (who are eligible to make investments in India, for which eligibility criteria are as prescribed). Such fresh issue of shares shall be subject to inter-alia, the pricing guidelines prescribed under the Master Circular. As mentioned above, the Indian company making such fresh issue of shares would be subject to the reporting requirements, inter-alia with respect to consideration for issue of shares and also subject to making certain filings including filing of Form FC-GPR
