- 1. Our business is wholly depended on our relationship with Banks and Mutual fund AMCs. We have entered into agreements with Banks and registered with Mutual fund AMCs, any termination of these existing relationship would adversely affect our business, results of operations, financial condition and prospects.***

Our company is engaged in the business as a Corporate Business Correspondents (BC) of Bank of India, Jharkhand Rajya Gramin Bank (JRGB) and Madhya Pradesh Gramin Bank (MPGB) and as Mutual Funds Distribution through a partner base. Further, we have also registered our company with AMFI and Mutual fund AMC for the mutual fund distribution business. Based in these agreements our Vedant Mitra Kendra acts as Banking - Customer services Point (CSPs) to fulfil all the necessary banking requirements of the people, provide Adhaar enabled payment system, Direct Money Transfer (DMT), investment in Mutual Funds – mPOS & Loan services, any termination of these existing relationship would adversely affect our

business, results of operations, financial condition and prospects. Further, we cannot control or influence the actions of the Banks and Mutual fund AMCs at any time, in case they have any economic, business or legal interests or goals that are inconsistent with ours. If they takes certain actions that we do not agree with, our business operations may be adversely affected, which would have a material adverse effect on our business, results of operations and financial condition. Also, if any of these Agreements or relationship is terminated for any reason the rights granted to us to operate would terminate, which would have a material adverse effect on our business, results of operations, financial condition and prospects. For further details, see “Our Business” on pages 75 of this Draft Prospectus.

2. *Demand for our services may decrease due to changes in consumer/investor preferences and habits, which could have a material adverse effect on our business, results of operations, and financial condition.*

The demand for our services is dependent on the consumer/investor preferences and habits and our strength in identification of the latest trends and our continued ability to offer services that are acceptable to the consumers. If consumer preferences change to undertake the transaction with the direct banking channels or branches rather than through our stores due to shifts in consumer demographics, national, regional or local economic conditions which we are not able to adapt, would adversely affect our financial results. Further, in case the investor prefer to invest directly through the Mutual fund AMCs, we may not be able to expand our Mutual fund distribution business. Our success in responding to consumer preference depends in part on our ability to anticipate market trends and introduce new and cost effective methods to address these preferences in a timely manner. Any failure to successfully anticipate and address changing customer preferences could have a material adverse effect on our business, results of operations and financial condition.

3. *Our business depends on the continued success and reputation of our Banking partners and Mutual Fund AMCs, and any negative impact on them may adversely affect our business, results of operations and financial condition.*

We have entered into agreements with Bank of India, Jharkhand Rajya Gramin Bank (JRGB) and Madhya Pradesh Gramin Bank (MPGB). Further, we have also registered our company with AMFI and Mutual fund AMC for the mutual fund distribution business. Our business is dependent wholly on these relationship with Banks and Mutual Fund AMCs, our success is to a large extent directly related to the success of these Banks and Mutual Fund AMCs, including the financial condition, advertising programs, new product development, overall quality of operations and the successful and consistent operation of these Banks and Mutual Fund AMCs. We have no direct control over the management or operations of these Banks and Mutual Fund AMCs businesses or operations. There are many factors which may affect the brand that are beyond our control which could have a material adverse effect on our business. These factors include the inability or failure to support our company, negative publicity, initiation of legal proceedings, employee misconduct, operational failures and regulatory investigations, which may adversely impact them. Any damage to these Banks and Mutual Fund AMCs could adversely impact the trust placed in it and our reputation and cause existing customers or intermediaries to withdraw their business and reconsider doing business with us. Furthermore, negative publicity may also result in increased regulation and legislative scrutiny of industry practices as well as increased litigation, which may further increase our costs of doing business and adversely affect our profitability.

4. *Any deterioration in the performance or our relationships with our Vedant Mitra Partners may adversely affect our business, results of operations and financial condition.*

Our Vedant Mitra Kendra acts as Banking - Customer services Point (CSPs) to fulfil all the necessary banking requirements of the people, Adhaar enabled payment system, Direct Money Transfer (DMT), investment in Mutual Funds - mPOS, PAN related services, Insurance services, Loan services and recharge services along with Air, rail and Bus ticketing etc. For providing these services we have entered into agreements with Bank of India, Jharkhand Rajya Gramin Bank (JRGB) and Madhya Pradesh Gramin Bank (MPGB). Further, we have also registered our company with AMFI and Mutual fund AMC for the mutual fund distribution business. Majority of these services are provided through our Vedant Mitra partners located in Jharkhand and Madhya Pradesh. But in case of any dispute or deterioration in the performance of these Partners, may result in termination of the business activities with them which may affect our result of operation and profitability. Further, any adverse development with respect to the B2B partners through whom we provide our services, could adversely affect our ability to reach customers which could have a material adverse effect on our business, results of operations and financial condition.

5. *We may not be able to identify suitable locations for expansion and also our expansion into new regions and markets may present increased risks due to our unfamiliarity with the areas in which we propose to locate.*

The growth of our business depends on the pace of expansion of our partner network, which requires us to continually identify suitable and available locations and develop our Vedant Mitra Kendra at those locations. As at the date of this Draft Prospectus, we have our network spread in Jharkhand and Madhya Pradesh. In case we plan to open new Kendra they involve substantial risks, including in relation to the following:

- the inability to identify or the unavailability of suitable sites;

- lack of our ability to compete successfully for suitable sites;
- unavailability of financing;
- the inability to obtain all necessary governmental or local authority permits and approvals and other requisite licenses and permits;
- consumer preference in new geographic regions;
- changes in governmental rules, regulations and interpretations; and
- changes in general economic and business conditions.

Further, our business agreements may also impose certain limitations on our ability to expand, including that we are required to obtain prior written approval and we must adhere to the standards and policies prescribed by them. In addition, our efforts to develop and roll out new these Kendra may also increase the complexity of our operations and place additional strain on our management and operational, financial and human resources. If we are not able to expand our business in a cost effective and profitable manner or otherwise manage the growth effectively, our business, results of operations, financial condition and prospects may be materially and adversely affected.

6. *We do not have operational or financial control over the businesses of our partners, and they could take actions that could harm our business.*

Our Vedant Mitra Kendra partners are independent operator and, while we can mandate certain operational standards and procedures through the enforcement of our internal code of conduct, they may take actions or conduct their businesses in a manner that could harm our business reputation and we may not be able to enforce our rights under the code of conduct in sufficient time to prevent damage to our reputation or at all. In addition, we cannot prevent them from taking actions that could adversely affect their financial viability, such as incurring significant indebtedness, or the profitability earned by them. In addition, these partner may be less directly interested in preserving or enhancing the brand and reputation than we are. Our company require various statutory and regulatory licenses, permits and approvals to operate our business. We need to make compliance and applications at appropriate stages of our business to continue our operations. There can be no assurance that the relevant authorities will issue these approvals or licenses, or renewals thereof in a timely manner, or at all. Also, we are yet to apply for registration under the State shop and establishment Act. Any default by our Company in complying with the same, may result in inter alia the cancellation of such licenses, consents, authorizations and/or registrations, which may adversely affect our operations. There can be no assurance that the relevant authorities will issue or renew any of such permits or approvals in time or at all. Failure to renew, maintain or obtain the required permits or approvals in time may result in the interruption of our operations and may have a material adverse effect on our business.

10. *Our company has not complied with some statutory provisions of the Companies Act. Such non-compliance may attract penalties against our Company which could impact the financial position of us to that extent.*

Our Company has not complied with certain statutory provisions under the Companies Act 2013, for instance our Company has made some clerical mistakes in documents and form filed in registrar of Companies, for instance, there were some errors in the form filed with RoC and errors in some of the documents attached thereto. 11. *We operate in a highly regulated environment, which is subject to change, and existing and new laws, regulations and government policies affecting the sectors in which we operate could adversely affect our business, financial condition and results of operations.*

We are subject to a variety of financial services regulation in the jurisdictions where we operate, including, the SEBI Act or directions issued by AMFI or Reserve Bank of India. The laws and regulations governing the business Correspondent and distribution services relating to financial products have become increasingly complex and cover a wide variety of issues, including registration, disclosures and other related services. We believe that significant regulatory changes in our industry are likely to continue on a scale that exceeds the historical pace of regulatory change, which is likely to subject industry participants to additional and generally more stringent regulations. The requirements imposed by the regulators are designed to ensure the integrity of the financial markets and to protect investors and other third parties who deal with us. Consequently, these regulations often serve to limit our activities and/or increase our costs. We may also be adversely affected by changes in the interpretation or enforcement of existing laws and rules by various governmental authorities and self-regulatory organisations.

For further details, please see "Key Regulations and Policies in India" on page 82 of this Draft Prospectus.

12. *We have recently ventured into mATM business. Due to limited operating history of our Company and limited experience of existing promoters in the line of mATM business, we may face new business and financial challenges which may adversely affect our profitability and results of operations.*

Our Company was incorporated in 2015 and has been engaged in the business as Banking - Customer services Point (CSPs) to fulfil all the necessary banking requirements of the people, Adhaar enabled payment system, Direct Money Transfer (DMT), investment in

Mutual Funds - mPOS, PAN related services, Insurance services, Loan services and recharge services along with Air, rail and Bus ticketing etc. In the year 2022, with an available business opportunity, our Company ventured into the business of setting up of mATM. Our Company has proposed to expand our business by setting up and operation of the mATM and POS. Further, we also intend to open 20 new branches and around 400 Business Correspondent across the central India. Further, the company also intend to develop Vedant pay software, API integration and Mobile android application in Central India for which the funds are being raised. However, the Promoters of our Company have very limited prior experience in this business. Due to limited operating history of our Company and limited experience of existing promoters in mATM, we may face new business and financial challenges which may adversely affect our profitability and results of operations. Also, as a Company, we have limited financial history and our prior period financial results may not accurately represent our future financial performance and therefore prospective investors may not be able to assess our Company's prospects based on past results.

13. *Security breaches could damage our reputation and result in a liability to us.*

Since we retain confidential customer information in our database, our facilities and infrastructure must remain secure. Despite the implementation of security measures, our infrastructure may be vulnerable to physical break-ins, computer viruses, programming errors or similar disruptive problems. If our security measures are circumvented, the security of confidential and propriety information stored on our systems could be jeopardized, or our operations could be interrupted. The encrypted other technology we use may not be effective and at times can fail. A material security breach could damage our reputation or result in liability to us, and we do not carry insurance that protects us from this kind of loss. We have taken all possible care with strict defined policies to ensure against any security breaches and to access anytime anywhere without any malfunctions, delay and breakdowns. We also evaluate performance, safeguard our setup from the insecure zone, future expandability, technology up-gradation, timely validation and conduct vulnerability test on our servers on an on-going basis.

14. *We are currently significantly dependent on Retail and rural customers and any adverse developments in these segments could adversely affect our business, results of operations, financial condition and cash flows.*

We offer banking products and services to retail and rural customers. Our Vedant Mitra Kendra acts as Banking - Customer services Point (CSPs) to fulfil all the necessary banking requirements of the people, Adhaar enabled payment system, Direct Money Transfer (DMT), investment in Mutual Funds - mPOS, PAN related services, Insurance services, Loan services and recharge services along with Air, rail and Bus ticketing etc. For providing these services we have entered into agreements with Bank of India, Jharkhand Rajya Gramin Bank (JRGB) and Madhya Pradesh Gramin Bank (MPGB). Further, we have also registered our company with AMFI and Mutual fund AMC for the mutual fund distribution business. Accordingly, a reduction in or failure to grow our retail and rural customer base could lead to losses and adversely affect our business and results of operations. Additionally, any decline in business, or in demand for our services could adversely affect our business, results of operations, financial condition and cash flows.

15. *We undertake fee based activities and our financial performance may be adversely affected by an inability to generate income from such activities.*

One of the primary drivers of our revenue are the fees that we charge for our services including brokerage, and the volume of such fees. The fees we charge our banking and business partners can depend upon a number of factors that are, in part, within our control, which can include the transaction type or the volume of transactions. Further, they are also dependent upon a number of external factors, which can include general macro-economic conditions, the supply or demand for a product and service, changes in general activity and competitive factors. In addition, as our fee charges are primarily governed by the agreements entered with these parties. If we are unable to manage and plan for the factors within and out of our control, we may not adequately set our fee structure to cover all or some of our costs or miss revenue generating opportunities, or even where adequately set, we may miss opportunities to increase volume, each of which may adversely affect our business, financial condition, results of operations and cash flows.

16. *The Objects of the Issue for which funds are being raised have not been appraised by any bank or financial institution. Any variation between the estimation and actual expenditure as estimated by the management could result in execution delays or influence our profitability adversely.*

The deployment of funds as stated in the "Objects of the Issue" beginning on page 58 of the Draft Prospectus is entirely at the discretion of our management and has not been appraised by any independent agency. Further, the purposes for which the Net Proceeds are to be utilised have not been appraised by an independent entity and are based on our estimates and on third-party quotations. In the event, for whatsoever reason, we are unable to execute our plans, we could have a significant amount of unallocated net proceeds. In such a situation, we would have broad discretion in allocating these net proceeds from the Issue without any action or approval of our shareholders. In case the assumptions on which these estimates have been made are not correct or they become unrealistic then there will be a variation in the estimates and the actual expenditure incurred which could result in execution delays and have an adverse effect on our operations and profitability.

Further, we have not identified the locations for opening the new Branches and Business Correspondent centre for which we intend to

utilise certain portion of the Net Proceeds. The locations of such new Branches and Business Correspondent centre will be decided by us, post the issue based on our business plan, management estimates and market conditions. The estimated costs for setting up these new new Branches and Business Correspondent centre is based on details received from vendors from whom we have purchased similar items for our new Branches and Business Correspondent centre in the recent past, industry standards, prevailing market rates, historical costs; and its internal estimates for specifications and item requirements based on our prior experience. However, we may have to reconsider our estimates or business plans due to changes in underlying factors, some of which are beyond our control, such as interest rate fluctuations, changes in input cost, inability to identify suitable location for our stores at favourable terms and other financial and operational factors. Further, we are yet to place any order of the proposed purchase of equipment or technology purchase. Accordingly, prospective investors in the issue will need to rely upon our management's judgment with respect to the use of proceeds. If we are unable to deploy the proceeds of the issue in a timely or an efficient manner, it may affect our business and results of operations.

17. We rely extensively on our information technology systems and any weakness, disruption or failure in such systems, or breach of data, could adversely affect our operations and reputation.

We are highly dependent on our information technology systems and our ability to efficiently and reliably process a high volume of transactions. To ensure a robust and secure technology platform, suitable internal policies and procedures have been adopted. Our Information Technology consists of several other policies such as the information security policy, IT network policy and IT procurement policy. The information security policy further lays down a set of standards and procedures in relation to data leakage, network security, incident response management. Further, our information technology systems are subject to potential internal and external weaknesses, disruptions and failures such as damage or incapacitation by human error, natural disasters, electrical or telecommunication outages, nation/ region-wide interruptions in the infrastructure, sabotage, computer viruses, hacking, cyber-attacks or similar events, or loss of support services from other third parties, or failures to timely upgrade our information technology systems. Any failure to comply with any information technology related guidelines or compliance from time to time, may expose us to potential regulatory action and penalties, thereby adversely affecting our financial condition, reputation and cash flow.

18. Our revenues from distribution and sale of financial products are dependent on our sustained ability to increase our AuM as well as on the performance of the funds that we distribute.

We earn distribution commission income from asset management companies for our mutual fund distribution business. We also generate a part of our operating income through purchase and sale of financial products to our clients. The mutual fund products distributed, and financial products sold, to our clients constitute a significant part of our AuM and revenue. If the asset management companies reduce the total expense ratio due to regulatory changes, then they may reduce our distribution commission income which would impact our revenues and results of operations. The willingness of investors to make investments in asset classes is contingent on its ability to generate returns, in line with or in excess of client expectations. Market conditions, economic volatility or changing financial environment may render the asset classes or products we offer less attractive to investors. Any inability on our part to distribute or offer appropriate financial products to clients or if such products underperform either according to their relevant benchmarks, or similar investment products provided by our competitors, for various reasons including general market conditions, investment decisions taken by the fund manager, inability to identify appropriate investment opportunities and the performance of the companies in which the funds are invested in, may lead to a failure to meet the clients return expectations on their investments. Underperformance by the financial products distributed or sold by us may result in a withdrawal of clients and restrict our ability to attract new clientele, further leading to potential reduction in AuM. While the performance of the funds distributed by us is outside our control, it is an important factor for us to sustain the growth of our AuM. The performance of these funds depends, primarily, on the general market conditions, investment performance made by the respective fund managers and existing competition in the market. If we are unable to sustain the increase in our AuM or the funds that we distribute underperform, clients may seek distributors or directly invest in financial products themselves, which in turn could result in reduced revenue from distribution and sale of financial products and, thus, could adversely impact our revenues and results of operations.

19. We are empanelled with several asset management companies for whom we act as a mutual fund distributor for their mutual fund schemes. We cannot assure you that our empanelment with these companies will continue, or that we will be able to renew the same upon expiry at favourable terms or at all, which may result in reduced trail income and an adverse effect on our revenues and results of operations.

We are empanelled with several asset management companies for whom we act as a mutual fund distributor for their mutual fund schemes. We cannot assure you that our empanelment with these companies will continue, or that we will be able to renew the same upon expiry at favourable terms or at all, which may result in reduced trail income and an adverse effect on our revenues and results of operations. Furthermore, the increase in depth of the Indian financial markets and increasing investor preference for equity investment or equity-linked products may prompt more asset management companies to commence business operations and offer mutual fund products. We cannot assure you that we will be able to obtain empanelment with these asset management companies, which may affect our business prospects and our results of operations.

20. Some of our Promoter Group entities are involved in similar line of business that may lead to real or potential conflicts of interest with our business.

We work on franchise model and provide financial services through our partners. We face competition at two levels i.e., segment level and the partner’s level. The segment level competition is the competition with the companies directly providing the financial services like different banks, mutual fund directly acquiring the clients. These companies are generally having larger resources and branding than that of our company. Second level is at the partner level where different companies are providing the CSPs and attracting the people to open them. Our Company may enter into such transactions in future also and we cannot assure that in such events there would be no adverse effect on results of our operations, although going forward, all related party transactions that we may enter will be subject to board or shareholder approval, as under the Companies Act, 2013 and the Listing Regulations. Our success heavily depends upon the continued services of our Key managerial personnel, along with support of our Promoters. We also depend significantly on our Key Managerial Persons for executing our day to day activities. The loss of any of our Promoter and Key Management Personnel, or failure to recruit suitable or comparable replacements, could have an adverse effect on us. In the past we have generally been successful in execution of our business but there can be no assurance that we will be able to execute our strategy on time and within the estimated budget in the future. If we are unable to implement our business and growth strategy, this may have an adverse effect on our business, financial condition and results of operations.

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our Dividend history refer to the Section “*Dividend Policy*” on page 108 of the Draft Prospectus.

In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares. No assurance may be given that we will not issue additional Equity Shares. The disposal of Equity Shares by any of our significant shareholders, or the perception that such sales may occur may significantly affect the trading price of the Equity Shares. We cannot assure you that we will not issue Equity Shares or that such shareholders will not dispose of, pledge or encumber their Equity Shares in the future.

Our promoters along with the promoter group will continue to hold collectively [●] of the equity share capital of the company. As a result of the same they will be able to exercise significant influence over the control of the outcome of the matter that requires approval of the majority shareholders vote. Such a concentration of the ownership may also have the effect of delaying, preventing or deterring any change in the control of our company. In addition to the above, our promoters will continue to have the ability to take actions that are not in, or may conflict with our interest or the interest of some or all of our minority shareholders, and there is no assurance that such action will not have any adverse effect on our future financials or results of operations.

EXTERNAL RISK FACTORS

43. Any changes in the regulatory framework could adversely affect our operations and growth prospects.

Our Company is subject to various regulations and policies. For details see section titled “Key Industry Regulations and Policies” beginning on page no. 82 of this Draft Prospectus. Our business and prospects could be materially adversely affected by changes in any of these regulations and policies, including the introduction of new laws, policies or regulations or changes in the interpretation or application of existing laws, policies and regulations. There can be no assurance that our Company will succeed in obtaining all requisite regulatory approvals in the future for our operations or that compliance issues will not be raised in respect of our operations, either of which could have a material adverse affect on our business, financial condition and results of operations.

44. If there is any change in tax laws or regulations, or their interpretation, such changes may significantly affect our financial statements for the current and future years, which may have a material adverse effect on our financial position, business and results of operations

The Government of India may implement new laws or other regulations, which could lead to new compliance requirements. New compliance requirements could increase our costs or otherwise adversely affect our business, financial condition and results of operations. Further, the manner in which new requirements will be enforced or interpreted can lead to uncertainty in our operations and could adversely affect our operations. To the extent that we are entitled to certain tax benefits in India which are available for a limited period of time, our profitability will be affected if such benefits will no longer be available, or are reduced or withdrawn prematurely or if we are subject to any dispute with the tax authorities in relation to these benefits or in the event we are unable to comply with the conditions required to be complied with in order to avail ourselves of each of these benefits. Please see “Statement of Special Tax Benefits” on page no. 66 of this Draft Prospectus. In the event that any adverse development in the law or the manner of its implementation affects our ability to benefit from these tax incentives, our business, results of operations, financial condition and prospects may be adversely affected.

45. A decline in economic growth or political instability nationally or internationally or changes in the Government in India could adversely affect our business.

Our performance and the growth of our business are necessarily dependent on the health and performance of the overall Indian economy. In the recent past, Indian economy has been affected by global economic uncertainties and liquidity crisis, domestic policy and political environment, volatility in interest rates, currency exchange rates, commodity and electricity prices, rising inflation rates and various other factors. Risk management initiatives by banks and lenders in such circumstances could affect the availability of funds in the future or the withdrawal of our existing credit facilities. The Indian economy is undergoing many changes and it is difficult to predict the impact of certain fundamental economic changes on our business. Conditions outside India, such as a slowdown or recession in the economic growth of other major countries, especially the United States, have an impact on the growth of the Indian economy. Additionally, an increase in trade deficit, a downgrading in India’s sovereign debt rating or a decline in India’s foreign exchange reserves could negatively affect interest rates and liquidity, which could adversely affect the Indian economy and our business. Any downturn in the macroeconomic environment in India could adversely affect our business, financial condition, results of operation and the trading price of our Equity Shares. Changing demand patterns from economic volatility and uncertainty could have a significant negative impact on our results of operations. Further, our performance and the market price and liquidity of the Equity Shares may be affected by changes in exchange rates and controls, interest rates, government policies, taxation, social and ethnic instability and other political and economic developments affecting India.

46. Terrorist attacks, civil unrest and other acts of violence or war involving India and other countries could adversely affect the financial markets and our business.

Terrorist attacks and other acts of violence or war may negatively affect the Indian markets on which our Equity Shares will trade and also adversely affect the worldwide financial markets. These acts may also result in a loss of business confidence, impede travel and other services and ultimately adversely affect our business. In addition, any deterioration in relations between India and any other country might result in investor concern about stability in the region, which could adversely affect the price of our Equity Shares. India has also witnessed civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic and political events in India could have a negative impact on the value of share prices generally as well as the price of our Equity Shares. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse impact on our business and the price of our Equity Shares.

47. Instability in financial markets could materially and adversely affect our results of operations and financial condition.

The Indian economy and financial markets are significantly influenced by worldwide economic, financial and market conditions. Any financial turmoil, especially in the United States of America or Europe, may have a negative impact on the Indian economy. Although economic conditions differ in each country, investors’ reactions to any significant developments in one country can have adverse

effects on the financial and market conditions in other countries. A loss in investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets. Indian financial markets have also in the past experienced the contagion effect of the global financial turmoil, evident from the sharp decline in SENSEX, BSE's benchmark index. Any prolonged financial crisis may have an adverse impact on the Indian economy and us, thereby resulting in a material and adverse effect on our business, operations, financial condition, profitability and price of our Equity Shares.

48. Any downgrading of India's debt rating by a domestic or international rating agency could adversely affect our Company's business.

Any adverse revisions to India's credit ratings for domestic and international debt by domestic or international rating agencies may adversely affect our Company's ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing is available. This could harm our Company's business and financial performance and ability to obtain financing for capital expenditures.

49. Natural disasters, fires, epidemics, pandemics, acts of war, terrorist attacks, civil unrest and other events could materially and adversely affect our business.

Natural disasters (such as typhoons, flooding and earthquakes), epidemics, pandemics such as COVID-19, acts of war, terrorist attacks and other events, many of which are beyond our control, may lead to economic instability, including in India, or globally, which may in turn materially and adversely affect our business, financial condition and results of operations. Our operations may be adversely affected by fires, natural disasters and/or severe weather, which can result in damage to our property or inventory and generally reduce our productivity and may require us to evacuate personnel and suspend operations.

It is not exhaustive or comprehensive and is not intended to be a substitute for professional advice. Investors are advised to consult their own tax consultant with respect to the tax implications of an investment in Equity Shares particularly in view of the fact that certain recently enacted legislation may not have a direct legal precedent or may have a different interpretation on the benefits, which an investor can avail.

SECTION V – ABOUT THE COMPANY

INDUSTRY OVERVIEW

The information in this section has been extracted from various websites and publicly available documents from various industry sources. The data may have been re-classified by us for the purpose of presentation. Neither we nor any other person connected with the issue has independently verified the information provided in this section. Industry sources and publications, referred to in this section, generally state that the information contained therein has been obtained from sources generally believed to be reliable but their accuracy, completeness and underlying assumptions are not guaranteed and their reliability cannot be assured, and, accordingly, investment decisions should not be based on such information.

Global Scenario:

A tentative recovery in 2021 has been followed by increasingly gloomy developments in 2022 as risks began to materialize. Global output contracted in the second quarter of this year, owing to downturns in China and Russia, while US consumer spending undershot expectations. Several shocks have hit a world economy already weakened by the pandemic: higher-than-expected inflation worldwide—especially in the United States and major European economies—triggering tighter financial conditions; a worse-than-anticipated slowdown in China, reflecting COVID-19 outbreaks and lockdowns; and further negative spillovers from the war in Ukraine.

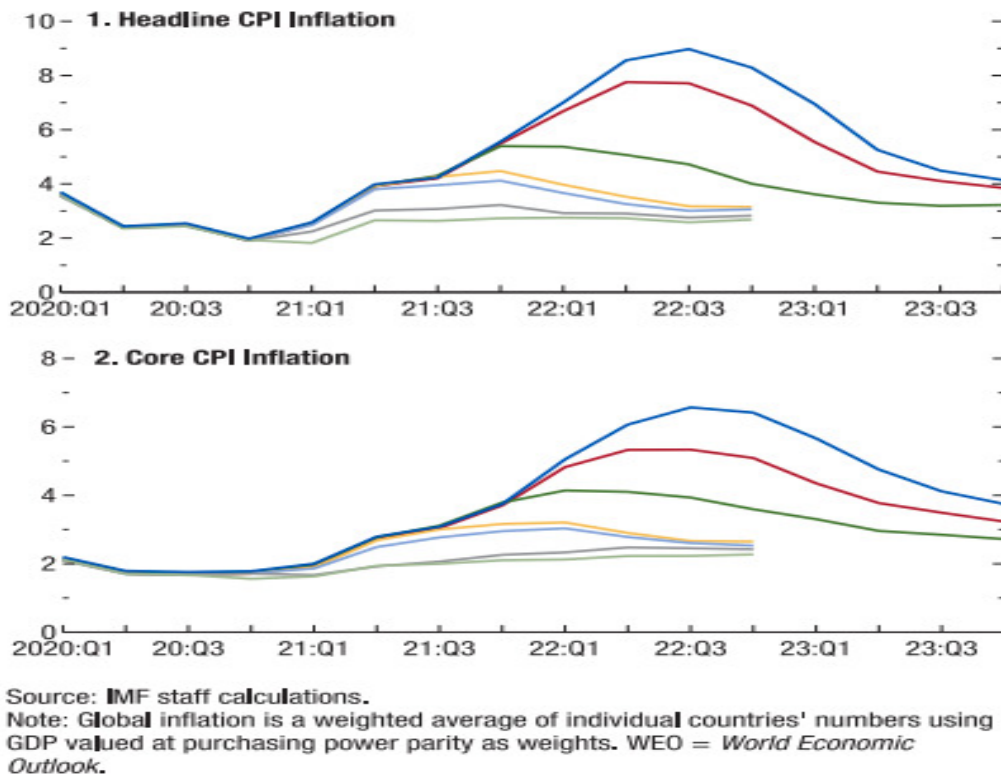

The baseline forecast is for growth to slow from 6.1 percent last year to 3.2 percent in 2022, 0.4 percentage point lower than in the April 2022 World Economic Outlook. Lower growth earlier this year, reduced household purchasing power, and tighter monetary policy drove a downward revision of 1.4 percentage points in the United States. In China, further lockdowns and the deepening real estate crisis have led growth to be revised down by 1.1 percentage points, with major global spillovers. And in Europe, significant downgrades reflect spillovers from the war in Ukraine and tighter monetary policy. Global inflation has been revised up due to food and energy prices as well as lingering supply-demand imbalances, and it is anticipated to reach 6.6 percent in advanced economies and 9.5 percent in emerging market and developing economies this year—upward revisions of 0.9 and 0.8 percentage point, respectively. In 2023, disinflationary monetary policy is expected to bite, with global output growing by just 2.9 percent.

The risks to the outlook are overwhelmingly tilted to the downside. The war in Ukraine could lead to a sudden stop of European gas imports from Russia; inflation could be harder to bring down than anticipated either if labor markets are tighter than expected or inflation expectations unanchor; tighter global financial conditions could induce debt distress in emerging market and developing economies; renewed COVID-19 outbreaks and lockdowns as well as a further escalation of the property sector crisis might further suppress Chinese growth; and geopolitical fragmentation could impede global trade and cooperation. A plausible alternative scenario in which risks materialize, inflation rises further, and global growth declines to about 2.6 percent and 2.0 percent in 2022 and 2023, respectively, would put growth in the bottom 10 percent of outcomes since 1970.

With increasing prices continuing to squeeze living standards worldwide, taming inflation should be the first priority for policymakers. Tighter monetary policy will inevitably have real economic costs, but delay will only exacerbate them. Targeted fiscal support can help cushion the impact on the most vulnerable, but with government budgets stretched by the pandemic and the need for a disinflationary overall macroeconomic policy stance, such policies will need to be offset by increased taxes or lower government spending. Tighter monetary conditions will also affect financial stability, requiring judicious use of macro-prudential tools and making reforms to debt resolution frameworks all the more necessary. Policies to address specific impacts on energy and food prices should focus on those most affected without distorting prices. And as the pandemic continues, vaccination rates must rise to guard against future variants. Finally, mitigating climate change continues to require urgent multilateral action to limit emissions and raise investments to hasten the green transition

Global slowdown intensifies as downside risks materialize. A tentative recovery in 2021 has been followed by increasingly gloomy developments in 2022. Performance was slightly better than expected in the first quarter, but world real GDP is estimated to have shrunk in the second quarter—the first contraction since 2020—owing to economic downturns in China and Russia. Downside risks discussed in the April 2022 World Economic Outlook are materializing, with higher inflation worldwide, especially in the United States and major European economies, triggering a sharp tightening in global financial conditions; a sharper-than-anticipated slowdown in China, reflecting COVID-19 outbreaks and lockdowns; and further negative cross-border effects from the war in Ukraine.

Global inflation again surprises on the upside, prompting more central bank tightening. Since 2021, consumer prices have consistently risen faster than widely expected, including in the World Economic Outlook.

In the United States, the consumer price index rose by 9.1 percent in June, compared with a year earlier, and it also rose by 9.1 percent in the United Kingdom in May—the highest inflation rates in these two countries in 40 years. In the euro area, inflation in June reached 8.6 percent, its highest level since the inception of the monetary union. Equally concerning, in emerging market and developing economies, second-quarter inflation is estimated to have been 9.8 percent. Higher food and energy prices, supply constraints in many sectors, and a rebalancing of demand back toward services have in most economies driven up headline inflation. But underlying inflation has also increased, as reflected in different gauges of core inflation, reflecting the pass-through of cost pressures by way of supply chains and tight labor markets, especially in advanced economies.¹ Wage growth has on average not kept up with inflation across both advanced and emerging market and developing economies, eroding household purchasing power. Although long-term inflation expectations have been stable in most major economies, they have started to rise according to some measures, including in the United States. In response to incoming data, central banks of major advanced economies are withdrawing monetary support more assertively and raising policy interest rates faster than expected in the April 2022 World Economic Outlook. Central banks in several emerging market and developing economies have raised interest rates more aggressively than during past advanced economy tightening cycles. The associated rise in longer-term borrowing costs, including mortgage rates, and tighter global financial conditions have led to precipitous declines in equity prices, weighing on growth. At the same time, public COVID-19 support packages have been wound down.

Indian Economy

Two years into the COVID-19 pandemic, the global economy continues to be plagued by uncertainty, with resurgent waves of mutant variants, supply-chain disruptions, and a return of inflation in both advanced and emerging economies. Moreover, the likely withdrawal of liquidity by major central banks over the next year may also make global capital flows more volatile. In this context, it is important to evaluate both the pace of growth revival in India as well as the strength of macro-economic stability indicators. It is also essential to look at progress in vaccination as this is not just a health response but also a buffer against economic disruptions caused by repeated waves of the pandemic. The Indian economy, as seen in quarterly estimates of GDP, has been staging a sustained recovery since the second half of 2020-21. Although the second wave of the pandemic in April/June 2021 was more severe from a health perspective, the economic impact was muted compared to the national lockdown of the previous year. Advance estimates suggest that GDP will record an expansion of 9.2 per cent in 2021-22. This implies that the level of real economic output will surpass the pre-COVID level of 2019-20.

Since January 2021, the widely used Purchasing Managers' Index-Manufacturing has remained in the expansionary zone (i.e. over 50) except for one month when the second wave had slowed down economic activity. The Index of Industrial Production (IIP) and Core Industry indices have both followed a similar pattern and, in November 2021, went past their pre-pandemic level for the corresponding month in 2019.

Business Correspondent Business

The Reserve Bank of India has taken several initiatives over the years for increasing banking outreach and ensuring greater financial inclusion. A significant step in this direction was the issue of RBI guidelines in January 2006 for engagement of Business Correspondents (BCs) by banks for providing banking and financial services. Since then, the regulatory framework for the BC model has been progressively honed to ensure that consumer protection is not compromised while facilitating enhanced outreach of banking services.

Business Correspondents are retail agents engaged by banks for providing banking services at locations other than a bank branch/ATM. Banks are required to take full responsibility for the acts of omission and commission of the BCs that they engage and have, therefore, to ensure thorough due diligence and additional safeguards for minimizing the agency risk. Basically, BCs enable a bank to expand its outreach and offer limited range of banking services at low cost, as setting up a brick and mortar branch may not be viable in all cases. BCs, thus, are an integral part of a business strategy for achieving greater financial inclusion.

BCs are permitted to perform a variety of activities which include identification of borrowers, collection and preliminary processing of loan applications including verification of primary information/data, creating awareness about savings and other products, education and advice on managing money and debt counseling, processing and submission of applications to banks, promoting, nurturing and monitoring of Self Help Groups/ Joint Liability Groups, post-sanction monitoring, follow-up of recovery. The RBI Financial Inclusion Plan (FIP) progress report in March 2020 showed that 94.4% of the 8,687 villages across the country with a population of more than 5,000 have access to banking services (RBI 2020). Further, as of 30 September 2019, 99.2% of the 491,490 villages with a population of fewer than 2,000 have banking service coverage, mostly through the BC channel. This progress is remarkable when compared with the figures from the previous year, when only 75.5% of villages with a population of more than 5000 and 97.8% of villages with a population of fewer than 2000 had coverage.

While coverage has certainly improved, it is notable that the report deemed a village to be “covered” if it is mapped to at least one banking outlet (including a BC agent) providing basic banking services. In several cases, the BC agent services a cluster of villages, known as a sub-service area (SSA), and is therefore available to each village by rotation on a part-time basis, often at irregular intervals. The RBI 2020 FIP revealed that, while there was a 14% increase in the BC agent serviced bank outlets (BC outlets) in villages with a population of fewer than 2000 between March 2019 and March 2020, there was a 4% decrease in BC outlets in villages with populations greater than 2000. Notably, while the number of BSBDAs has grown by 6%, the corresponding value of transactions that customers have performed via BCs in these accounts has grown by an impressive 36%, indicating existing customers’ progressively higher usage of the BC channel. We also noted a five-fold increase in the number of BC outlets in villages with a population of fewer than 2000 between March 2020 and December 2020, which the RBI attributed to the reclassification of a particular bank’s business activity (RBI 2021).

Although the RBI does not provide data on the exact number of deployed BC agents, according to the Pradhan Mantri Jan Dhan Yojana (PMJDY) website of the Department of Financial Services (DFS, Ministry of Finance, Government of India), 126,000 BC agents (also known as bank mitras) are operating across the country, divided into SSAs. The BC registry, which the Indian Bankers Association⁶ maintains, pegs this number at about 160,000, while other reports and estimates, such as the one that the Business Correspondent Federation of India (BCFI)⁷ and its members provide, indicate that this number could be anywhere between 1 and 2 million, including urban agents. Notably, a gender breakdown of BCs operating across the country is not available publicly. The disparate reporting of BC agent numbers across agencies highlights the need for a more comprehensive centralized registry and systematic tracking of banking agents.

Financial inclusion in India received a fillip with the launch of the Pradhan Mantri Jan Dhan Yojana (PMJDY), which led to the opening of 420 million bank accounts, on 10 March 2021. This was possible through the linking of no-frills or basic “Jan Dhan” bank accounts with unique biometric IDs and mobile numbers or the JAM trinity (Jan Dhan–Aadhaar–Mobile) with the backing of the India Stack platform.⁸ The banking agent platform played a critical role in the opening of basic bank accounts through the use of the Aadhar-based e-KYC (paperless Know Your Customer) service, which leverages the same agent banking channel to link the new bank account to the customer’s unique Aadhar and associated demographic and biometric data at the backend. This unique innovation of biometric-based e-KYC resulted in the opening of more bank accounts using the BC agent platform than the traditional bank branch channel (ACCESS 2021).

A bank account for every household became a reality in rural India, such that 65.83% (276.5 million) of the total bank accounts that customers opened under the PMJDY belonged to rural/semi-urban centers and 53.26% of them belonged to women (232.7 million).⁹ Further, while stand-alone state-wise and bank-wise data are available on the PMJDY website, a state-wise breakdown of data with a bank-wise and genderwise ratio is not available in the public domain. The JAM trinity boosted the quantity of direct benefit transfers (DBTs) to beneficiary bank accounts by reducing the leakage in the system. Government estimates suggested that the institutionalization of DBTs for social security schemes and governance reforms, including the removal of duplicate or fake beneficiaries and fraudulent transactions, has resulted in cumulative savings of INR1,78,396.65 crore (US\$25,485.2 million) across all schemes as of March 2020.

The Aadhaar Enabled Payment System (AePS): Biometric Authentication-Based Interoperable Payment System for Banking Transactions

The National Payments Corporation of India (NPCI) introduced the Aadhaar Enabled Payment System (AePS) in 2016 to facilitate digital transactions linked to the JAM trinity. The AePS allows customers of Aadhaar-linked bank accounts to conduct financial transactions—namely, fund transfers, payments, cash deposits, withdrawals, and bank balance enquiries—through Aadhaar-based biometric authentication. Most often, AePS transactions take place via a BC using a micro-ATM device, which could be a smartphone/tablet/laptop/desktop attached to a biometric fingerprint scanner. This BC-assisted AePS-based transaction service, which allows cash-in–cash-out and fund transfers, is particularly useful for rural cash-driven geographies where customers lack the technological know-how and smartphones necessary to conduct digital transactions independently and the physical bank branch network is hard to access.

Harnessing digital technology has helped to resolve an age-old malaise whereby a single, simple hand-held device is able to allow transactions to/from and between multiple banks. The AePS platform supports interoperable, inter-bank or “OFF-US” transactions, for which the customer account may be at a different bank (issuing bank) from the BC’s banking partner (acquiring bank). By allowing OFF-US transactions and eliminating the dependence on a particular bank’s agent, this seemingly straightforward system has been a game changer in promoting financial inclusion.

In these cases, the issuing bank must pay an interchange fee to the acquiring bank for servicing its customers. “ON-US” transactions, on the other hand, are those for which both the issuing and the acquirer bank are the same (i.e., the agent and the customer belong to the same bank). This “interchange fee”-based revenue model provides an initial business case for banks to sustain investments in establishing and managing a distribution network of BCs. Several private sector banks, such as ICICI Bank, IDFC First Bank, FINO Payment Bank, Yes Bank, RBL, and so on, have collectively deployed thousands of BC agents in rural un(der)-banked villages to generate revenue through the interchange fee and allied incomes.

The AePS platform is the world’s largest payment integrated biometric system and has achieved astounding year-on-year growth since its launch in 2016 owing to exponential growth in OFF-US AePS transactions in the recent years despite the discontinuation of interbank AePS-based cash deposit facilities in 2018–19 (Figure 2). During the FY2020–21, 1946.3 million inter-bank transactions, 11 with a value of US\$32.29 billion/INR2,260.5 billion, took place over the AePS Micro-ATM platform. In comparison, public sector banks (PSU banks) have been slower to capitalize on this business potential and have deployed fewer agents of their own beyond the mandated numbers under government-led initiatives. While the BC model has unlocked a revenue stream and increased banking points for the acquiring banks (mostly private sector) in un(der)-banked areas, it has resulted in a larger outflow of funds from issuer banks (mostly PSU banks) in the form of “interchange” fees plus “switching costs” paid to the National Payment Corporation of India

(NPCI).¹² This has adversely affected some of the larger PSU banks that were already struggling to scale up their business operations due to their fragile financial health.

Way Forward

The pandemic has highlighted the need for alternative/additional identity and transaction authentication systems to augment the capacity of the current AePS system, which requires biometric authentication linked to fingerprint scans. Field reports have pointed to both the reluctance of users to conduct transactions and the possibilities of transmission in the absence of regular disinfection given the “high-contact” nature of the solution. There is a need to explore alternative backup options and contactless solutions, including a simplified OTP system linked to the customer’s mobile number or authentication linked to iris and facial recognition technologies (IRFT) connected to the existing Aadhar database. While instituting these alternative technologies will be a welcomed demand- and supply-side solution, expanding and mainstreaming this solution will require both investments in hardware and a grievance redressal mechanism and systems to secure the privacy of customers.

Encouraging competition among banks in un(der)-banked rural areas and providing more products and services through the BC channel will help both to deepen financial inclusion and to support sustainable BC operations (Uzma and Pratihari 2019). For example, while some banks allow customers to open small-value recurring or fixed deposits electronically at the BC point, in most cases, the physical paper trail still needs to supplement this action. Banks also restrict the encashment and closure of such deposits for credit into the customers’ savings accounts (of small denominations) digitally through the BC channel. This inhibits the mobilization of savings in rural areas, especially among women. While institutional directions to improve the range of microbanking products and services for delivery through the BC channel could encourage customers to move beyond cash-in–cash-out services, a larger service offering would also improve the earnings stream for BC agents via increased commission.

The Code of Criminal Procedure Code, 1973

It is the main legislation on procedure for administration of substantive criminal law in India. It was enacted in 1973 and came into force on 1st April, 1974. It provides the machinery for the investigation of crime, apprehension of suspected criminals, collection of evidence, determination of guilt or innocence of the accused person and the determination of punishment of the guilty. Criminal law occupies a pre-dominant place among the agencies of social control and is regarded as a formidable weapon that society has forged to protect itself against anti-social behaviour. The law of criminal procedure is meant to be complimentary to criminal law. It is intended to provide a mechanism for the enforcement of criminal law. The Code of Criminal Procedure creates the necessary machinery for apprehending the criminals, investigating the criminal cases, their trials before the criminal courts and

imposition of proper punishment on the guilty person. The Code enumerates the hierarchy of criminal courts in which different offences can be tried and then it spells out the limits of sentences which such Courts are authorized to pass.

The law of criminal procedure is intended to provide a mechanism for the enforcement of criminal law. Without the proper procedural law the substantive criminal law which defines offences and provides punishment for them would be almost worthless.

The Civil Procedure Code consists of two parts. 158 Sections form the first part and the rules and orders contained in Schedule I form the second part. The object of the Code generally is to create jurisdiction while the rules indicate the mode in which the jurisdiction should be exercised.

The Code does not affect any special or local laws nor does it supersede any special jurisdiction or power conferred or any special form of procedure prescribed by or under any other law for the time being in force. The Code is the general law so that in case of conflict between the Code and the special law the latter prevails over the former. Where the special law is silent on a particular matter the Code applies, but consistent with the special enactment.

I. SIGNIFICANT ACCOUNTING POLICIES

A) BASIS OF PREPARATION OF FINANCIAL STATEMENT

The Restated Statement of Assets and Liabilities (Annexure I) of the company as at as at March 31, 2022, 2021, and 2020 , the Restated Statements of Profit and Loss (Annexure II), the Restated Cash Flow Statement (Annexure III) for the years ended March 31, 2022, 2021, and 2020 (hereinafter collectively referred to as “**Restated Financial Information**”) have been extracted by the management from the audited financial statements for the March 31, 2022, 2021, and 2020, approved by the respective Board of Directors of the companies.

These financial statements are prepared in accordance with Indian Generally Accepted Accounting Principles (GAAP) under the historical cost convention on the accrual basis. GAAP comprises mandatory accounting standards as prescribed under Section 133 of the Companies Act, 2013 (‘the Act’) read with Rule 7 of the Companies (Accounts) Rules, 2014, the provisions of the Act. The accounting policies adopted in the preparation of financial statements have been consistently applied. All assets and liabilities have been classified as current or non-current as per the company’s normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of operations and time difference between the provision of services and realization of cash and cash equivalents, the company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

B) USE OF ESTIMATES

The preparation of financial statements in conformity with Indian GAAP requires judgments, estimates and assumptions to be made that affect the reported amount of assets and liabilities, disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates are recognised in the period in which the results are known / materialized.

C) ACCOUNTING CONVENTION

The group follows the mercantile system of accounting, recognizing income and expenditure on accrual basis. The accounts are prepared on historical cost basis and as a going concern. Accounting policies not referred to specifically otherwise, are consistent with the generally accepted accounting principles.

The following significant accounting policies are adopted in the preparation and presentation of these financial statements:

1. Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

Income from services

Revenue from providing financial services is recognised when services have been rendered and there should be no uncertainty regarding consideration and its ultimate collection.

Interest Income

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable."

Dividend Income

Dividend Income is recognised on receipt basis.

2. Fixed Assets

- a) Fixed are stated as per Cost Model i.e., at cost less accumulated depreciation and impairment, if any;
- b) Costs directly attributable to acquisition are capitalized until the Fixed Assets are ready for use, as intended by the management;
- c) Subsequent expenditures relating to fixed assets are capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Repairs & maintenance costs are recognized in the Statement of profit & Loss when incurred;
- d) The cost and related accumulated depreciated are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Statement of Profit or Loss. Assets to be disposed of are reported at the lower of the carrying value or the fair value less cost to sell;
- e) Depreciation on Tangible Assets in case of company is provided in such a manner so that the cost of asset (Net of realizable value) will be amortized over their estimated remaining useful life on SLM basis as per the useful life prescribed under Schedule II to the Companies Act 2013.
- f) Depreciation methods, useful lives, and residual values are reviewed periodically, including at each financial year end;

3. IMPAIRMENT

The Management periodically assesses, using external and internal sources, whether there is an indication that an asset may be impaired. An impairment loss is recognized wherever the carrying value of an asset exceeds its recoverable amount. The recoverable amount is higher of the asset's net selling price and value in use, which means the present value of future cash flows expected to arise from the continuing use of the asset and its eventual disposal. An impairment loss for an asset is reversed if, and only if, the reversal can be related objectively to an event occurring after the impairment loss was recognized. The carrying amount of an asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

4. INVENTORIES

- a) Inventories are valued at lower of cost and net realizable value. Cost is determined on Weighted Average Cost basis. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale

5. RETIREMENT BENEFITS & OTHER EMPLOYEE BENEFITS

Defined-contribution plans:

All short term employee benefits are accounted on undiscounted basis during the accounting period based on services rendered by employees.

In the restated financial statements, The Company has made provision for payment of Gratuity to its employees, based on the actuarial valuation report obtained from actuarial valuer.

6. FOREIGN EXCHANGE TRANSACTIONS

There are no foreign exchange transactions during the period.

7. CASH FLOW STATEMENT

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non- cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities are segregated.

8. BORROWING COSTS

Borrowing costs that are directly attributable to the acquisition or construction of a qualifying asset are capitalized as part of the cost of that asset till such time the asset is ready for its intended use. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use. Costs incurred in raising funds are amortized equally over the period for which the funds are acquired. All other borrowing costs are charged to profit and loss account.

9. INCOME TAX

The accounting treatment for the Income Tax in respect of the Company's income is based on the Accounting Standard on 'Accounting for Taxes on Income' (AS-22). The provision made for Income Tax in Accounts comprises both, the current tax and deferred tax. Provision for Current Tax is made on the assessable Income Tax rate applicable to the relevant assessment year after considering various deductions available under the Income Tax Act, 1961.

Deferred tax is recognised for all timing differences; being the differences between the taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Such deferred tax is quantified using the tax rates and laws enacted or substantively enacted as on the Balance Sheet date. The carrying amount of deferred tax asset/liability is reviewed at each Balance Sheet date and consequential adjustments are carried out.

10. EARNINGS PER SHARE

Basic earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the period. Diluted earnings per share is computed by dividing the profit after tax by the weighted average number of equity shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

The diluted potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value which is the average market value of the outstanding shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

11. PROVISIONS AND CONTINGENT LIABILITIES

A provision is recognized if, as a result of a past event, the Company has a present legal obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by the best estimate of the likely future outflow of economic benefits required to settle the obligation at the reporting date.

Where no reliable estimate can be made, a disclosure is made as contingent liability. A disclosure for a contingent liability is also made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

12. CASH & CASH EQUIVALENTS

Cash and cash equivalents comprise cash and cash on deposit with banks. The Company considers all highly liquid investments with a remaining maturity at the date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents.

13. SEGMENT REPORTING

Phased implementation of Unified Payments Interface

SEBI has issued a circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018 and circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019 circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 June 28, 2019, circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019 and circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 08, 2019 (collectively the “UPI Circulars”) in relation to streamlining the process of public issue of equity shares and convertibles. Pursuant to the UPI Circulars, UPI will be introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under the ASBA) for applications by RIBs through intermediaries with the

objective to reduce the time duration from public issue closure to listing from six working days to up to three working days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI Mechanism, the UPI Circular proposes to introduce and implement the UPI Mechanism in three phases in the following manner:

Phase I: This phase has become applicable from January 1, 2019 until March 31, 2019 or floating of five main board public issues, whichever is later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, a Retail Individual Applicant had the option to submit the Application Form with any of the intermediary and use his / her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six Working Days.

Phase II: This phase has become applicable from July 1, 2019 and was to initially continue for a period of three months or floating of five main board public issues, whichever is later. Subsequently, it was decided to extend the timeline for implementation of Phase II until March 31, 2020. Further, as per SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, the current Phase II of Unified Payments Interface with Application Supported by Blocked Amount is continued till further notice. Under this phase, submission of the ASBA Form by RIIs through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds will be discontinued and will be replaced by the UPI payment mechanism. However, the time duration from public issue closure to listing continues to be six Working Days during this phase.

Phase III: The commencement period of Phase III is yet to be notified. In this phase, the time duration from public issue closure to listing is proposed to be reduced to three Working Days.

All SCSBs offering facility of making application in public issues shall also provide facility to make application using the UPI Mechanism. The Issuers will be required to appoint one of the SCSBs as a sponsor bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the Retail Individual Applicants into the UPI mechanism.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and Foreign Exchange Management Act, 1999 ("FEMA"). While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the Reserve Bank of India ("RBI") and Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India ("DIPP").

The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the Consolidated Foreign Direct Investment Policy notified by the DPIIT File No. 5(2)/2020-FDI Policy dated October 15, 2020, with effect from October 15, 2020 (the "FDI Policy"), which consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT or the DPIIT that were in force and effect prior to October 15, 2020. The Government of India proposes to update the consolidated circular on FDI Policy once every year and therefore, the FDI Policy will be valid until the DPIIT issues an updated circular.

In terms of the FEMA NDI Rules, a person resident outside India may make investments into India, subject to certain terms and conditions, and provided that an entity of a country, which shares land border with India or the beneficial owner of an investment into India who is situated in or is a citizen of any such country, shall invest only with government approval.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that (i) the activities of the investee company are under the automatic route under the foreign direct investment policy and transfer does not attract the provisions of the Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI / RBI.

Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country ("Restricted Investors"), will require prior approval of the Government, as prescribed in the Consolidated FDI Policy and the FEMA Rules. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government. Furthermore, on April 22, 2020, the Ministry of Finance, Government of India has also made a similar amendment to the FEMA Rules. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank of fund in India. Each Bidder should seek independent legal advice about its ability to participate in the Offer. In the event such prior approval of the Government of India is required, and such approval has been obtained, the Bidder shall intimate our Company and the Registrar to the Offer in writing about such approval along with a copy thereof within the Offer Period.

As per the existing policy of the Government of India, OCBs cannot participate in this Issue and in accordance with the extant FDI guidelines on sectoral caps, pricing guidelines etc. as amended by Reserve bank of India, from time to time.
