SECTION III: RISK FACTORS

An investment in our Equity Shares involves a high degree of financial risk. Prospective investors should carefully consider all the information in the Draft Red Herring Prospectus, particularly the **“Financial Information of the Company”** and the related notes, **“Our Business”** and **“Management’s Discussion and Analysis of Financial Condition and Results of Operations”** on page 142, 96 and 175 respectively of this Draft Red Herring Prospectus and the risks and uncertainties described below, before making a decision to invest in our Equity Shares.

The risk factors set forth below are not exhaustive and do not purport to be complete or comprehensive in terms of all the risk factors that may arise in connection with our business or any decision to purchase, own or dispose of the Equity Shares. This section addresses general risks associated with the industry in which we operate and specific risks associated with our Company. Any of the following risks, individually or together, could adversely affect our business, financial condition, results of operations or prospects, which could result in a decline in the value of our Equity Shares and the loss of all or part of your investment in our Equity Shares. While we have described the risks and uncertainties that our management believes are material, these risks and uncertainties may not be the only risks and uncertainties we face. Additional risks and uncertainties, including those we currently are not aware of or deem immaterial, may also have an adverse effect on our business, results of operations, financial condition and prospects.

This Draft Red Herring Prospectus contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Draft Red Herring Prospectus. The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors below. However, there are risk factors the potential effects of which are not quantifiable and therefore no quantification has been provided with respect to such risk factors. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of the Offer, including the merits and the risks involved. You should not invest in this Offer unless you are prepared to accept the risk of losing all or part of your investment, and you should consult your tax, financial and legal advisors about the particular consequences to you of an investment in our Equity Shares.

Materiality

The Risk factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality.

1. Some events may not be material individually but may be found material collectively.
2. Some events may have material impact qualitatively instead of quantitatively.
3. Some events may not be material at present but may be having material impact in future.

Note:

The risk factors as envisaged by the management along with the proposals to address the risk if any. Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial implication of any of the risks described in this section.

In this Draft Red Herring Prospectus, any discrepancies in any table between total and the sums of the amount listed are due to rounding off. Any percentage amounts, as set forth in **“Risk Factors”** on page 26 and **“Management Discussion and Analysis of Financial Condition and Results of Operations”** on page 175 of this Draft Red Herring Prospectus unless otherwise indicated, has been calculated on the basis of the amount disclosed in the **“Restated Financial Statements”**.

INTERNAL RISK FACTORS

1. **We are dependent upon third parties for manufacture and supply of substantially all of our products with which we do not have long term contracts or exclusive supply arrangements. Any delay or failure on the part of such vendors to deliver products, may adversely affect our business, profitability and reputation.**

We obtain substantially all of the products from third parties, with whom we generally do not have long-term contracts or agreements. The orders for the materials are placed on requirement basis. In the event that, there are any delays or disruptions in the supply of these materials from our manufactures/vendors, our ability to deliver the products may be affected. Any of our supplier’s failure to adhere to agreed timelines, whether due to their inability to comply with, or obtain, regulatory approvals, or otherwise, may result in delays and disruptions to our sales, increased costs, delayed payments for our products and damage to our reputation leading to an adverse effect on our results of operations.

As on December 31, 2022, we are connected with over 250 overseas and domestic vendors for sourcing these dental products. All our products are sourced from third-party suppliers and some of these products are sourced from a limited number of suppliers or a single supplier as well. In addition, some of our suppliers may have more established relationships with our competitors, and as a result of these relationships, such suppliers may choose to limit or terminate their relationships with us or prioritize our competitors' orders in the case of supply shortages. Our top 10 suppliers for the stub period ended on December 31, 2022 and Fiscals 2022, 2021 and 2020 accounted for 30.94%, 43.04%, 55.28% and 52.84% of our total purchases for respective years.

Therefore, we are subject to risks of shortages or discontinuation in supply, long lead times, cost increases and quality control issues with our suppliers. In the event of any such interruption in supply, we would need to identify and obtain acceptable replacement sources on a timely basis. There is no guarantee that we would be able to obtain such alternative sources of supply on a timely basis, if at all, and an extended interruption in supply, particularly of a high-sales volume product, could result in a significant disruption in our sales and operations, as well as damage to our relationships with customers and our reputation. We believe we have maintained stable relationships with these vendors in the past, we cannot assure you that, we will be able to source adequate quantities of products in a timely manner from our existing vendors in the future or we will be able to find alternative vendors at acceptable prices and quality levels or at all.

In addition, any restrictions, either from the Central or state governments of India, or from countries which we import from, on the import of products or any adverse change in policies by India or other countries, in terms of tariff and non-tariff barriers, may adversely affect our business, prospects, financial condition and results of operations. There can be no assurance that such restrictions/regulations would not be made more stringent which would consequently restrict our ability to import products from other jurisdictions. Further, there can be no assurance that, under these circumstances, we will be successful in identifying alternate vendors for products or we will be able to source the products at favourable terms in a timely manner. Any restriction on import of products could have an adverse effect on our ability to deliver products to our customers, business and results of operations.

2. Our future success depends on our ability to promote our brand and protect our reputation. Our failure to establish and promote our brand and any damage to our reputation will hinder our growth.

We believe that the market perception of our brands is one of the key factors for the sustained demand of our products. We engage in a wide range of marketing and advertising activities, which enable us to maintain the popularity and recall the brand value. We believe our strategy to enhance our brand recognition is crucial to our future success. We have invested, and will need to continue to dedicate, significant time, efforts and resources to advertising and market promotion initiatives. Our marketing/advertising expenses were Rs 103.16 lakhs, Rs 103.27 lakhs, Rs 100.57 lakhs and Rs 60.89 lakhs respectively for the period ended December 31, 2022 and Fiscal Year 2022, 2021, 2020, representing 1.18%, 1.34%, 2.51% and 2.00% respectively of our total revenue from operations. We may need to devote an even greater portion of our resources to continue to strengthen our brand recognition and build our user base, which may impact our profitability. We cannot guarantee that our marketing efforts will ultimately be successful, as it is affected by numerous factors, including the effectiveness of our marketing campaigns, our ability to provide consistent, high quality products and services, customers' satisfaction with our products, as well as supports and services we provide, among others.

Our facilities are accredited with ISO 9001:2015 for quality management system. The breadth and depth of our product offerings address a majority of the dentists' clinical needs for consumable dental materials. Given the nature of our products and the sector in which we operate, our customers have high standards for product quality. Adherence to quality standards is a critical factor in our business as any defects in the products manufactured or procured by our Company or failure to comply with the technical specifications may lead to cancellation of the orders placed by customers. As a result, we are required to incur expenses to maintain our quality assurance systems such as periodic checking by the operators to ensure there is no defect in the products. We will continue to spend a portion of our future revenues to manage our product quality and to maintain our quality control a failure of which may negatively impact our profitability. In addition, we do not have control over the quality of products which are sold by us. Our ability to remain competitive, maintain costs and profitability depend, in part, on our ability to source and maintain a stable and sufficient supply of quality products. In addition, a large part of our success is dependent on our ability to offer certain key products within certain categories to our consumers. If we experience significant relationship attrition with key vendors and fail to attract new relationships, the quantity and variety of products that are offered through our platform may decline, consumers may use our platform less frequently or not at all, and our revenue and results of operations may be adversely affected.

We believe that a large part of the success of our brands is attributable to the after sales services provided by our service technicians and, authorized service providers and any deficiency in such after sales services may adversely impact the reputation of our brands. Further, we may not be able to collect customer feedback in an adequate or frequent manner, or implement it effectively to improve our products and services, which may adversely impact the development of products in the future for new product and market segments.

3. *Our future growth is dependent upon our ability identify and maintain new products, technologies and customers that achieve market acceptance with acceptable margins.*

Our future success depends on our ability to timely identify competitive and innovative products and to market them quickly and cost-effectively and also, we may be required to upgrade ourself with new innovative or value added products being developed by others. Our ability to anticipate customer needs and develop or acquire new products, services and technologies at competitive prices requires significant resources, including employees with the requisite skills, experience and expertise, particularly in our technology segment, including dental practice management, patient engagement. The failure to successfully address these challenges could materially disrupt our sales and operations. In case of any mismanagement in level of inventory and market demand, we may lose customers and be required to discount certain products, all of which could have an adverse effect on our business, results of operations, financial condition, cash flows and prospects. Decline in the demand for some of the products without a corresponding increase in demand for alternative products sold through our online platform could negatively impact our revenue temporarily or permanently. These trends may also cause fluctuations in our results of operations between different periods.

Our business has grown substantially in recent years, addition of new products and upgradation of existing one along with addition of new customers play a significant role. During FY 19-20, we had approximately 32000 customers which increased to around 60000 during the nine months period ended on December 31, 2022. Our revenue from operations has grown from ₹3041.81 lakhs in Financial Year 2020 to ₹4007.08 lakhs and ₹7692.05 lakhs in Financial Year 2021 and Financial Year 2022, respectively. However, we cannot assure you that our historical growth rates will be sustainable or achieved at all in the future. If we fail to develop/add new products/customers, or fail to do so in a cost-effective manner, we may not be able to increase our revenue or maintain profitability.

Our success is also dependent on the ability of our vendor brands to anticipate, identify and respond to the latest technological trends and customer demands and to translate such trends and demands into product offerings in a timely manner, adapt to customer preferences, and our ability to continue upgrading our platforms in a manner so as to cater to evolving customer preferences. Further, we offer our customers our owned brand products. The success of our owned brand products depends on customer acceptance and our ability to recognise and adapt to customer preferences. If we fail to recognise and adapt to such acceptance and preference, our revenue will be reduced, which could negatively affect our business, financial condition, cash flows and results of operations.

4. *The sale of our owned brand products subjects us to unique risks and enhances certain other risks*

We outsource the manufacture of our owned brand products to third party manufacturers. For Fiscal 2022 and nine months period ended December 22, our revenue from sale of owned brand products were Rs. 3542.94 lakhs and Rs. 4076.71 lakhs respectively which constituted 46.06% and 46.71% of total revenue from operations.

Sale of our owned brand products, including the products governed under various applicable Acts, subjects us to unique risks and heightens certain other risks, including:

- dependency on commercial relationships with the third party manufacturers whom we engage to manufacture our owned brand products;
- potential infringement risk, or be accused of infringing, intellectual property rights of third parties that may lead to a litigation or reputational risk;
- dependency and risk of potential deterioration in the relationships with our existing suppliers;
- potential product liability towards customer risks for any production defects for products manufactured at third parties, which may also impact the reputation of our company's brand;
- protecting our intellectual property rights;
- challenges during import registrations of ingredients/ intermediaries in the process of manufacturing;
- such regulations also impact our imported brands, where we are importer on record and the distributors in India or any labour compliance liabilities as a principal employer;
- sale of owned brands on third party platforms may impact our reputation and sales such as amazon, flipkart; and
- dependency on relationship across multiple channels of sales for our owned brands.

If any such risks eventuate, our business, financial condition, cash flows and results of operations could be adversely affected.

5. *We purchase inventory in anticipation of sales, and if we fail to manage our inventory effectively, our business and results of operations could be adversely affected.*

We purchase inventory from multiple vendors, distributors and manufacturers based on our projected sales and as such, if we fail to manage our inventory effectively, our business and results of operations may be adversely affected. For example, excess inventory procurement may lead to interest costs and also liquidation cost or loss of sales, markdowns or write-offs, where products sold under the key business verticals are subject to expiry. In nine months period ended December 31, 2022, Fiscal 2022, Fiscal 2021 and 2020, we have an inventory amounting to Rs. 1636.35 Rs. 993.08 lacs, 277.61 Lacs and 228.87 lacs respectively which represent 67.32%, 57.86%, 43.91% and 52.05% of our total current assets respectively. Further, any damage or destruction to our inventory at our Warehouse may impact our operating results.

6. *Our business depends on the growth of the digital commerce industry in India and our ability to effectively respond to changing user behaviour on digital platforms.*

A large portion of our revenues depend substantially on the receptiveness of the value-seeking users to the internet as a way to purchase goods and to carry out financial transactions and we must hence effectively respond to changing user behaviour on such online channels. As the nature of e-commerce is dynamic and subject to risk of rapid disruption driven by technology innovations, we must continuously innovate to overcome the fact that potential users are presented with an increasingly large number of options to choose from. Such potential growth is dependent on the overall internet penetration in India. We cannot assure you that a more technologically sophisticated and reliable fixed telecommunications network or internet infrastructure will develop that would further facilitate the growth of e-commerce in India. Should the telecommunications operators not sustain or invest in expanding and upgrading the telecommunications infrastructure in India, it may impact the growth of the e-commerce sector adversely.

Other factors applicable to the industry that might prevent potential users from purchasing products from e-commerce platforms, including our platform, include:

- concerns about buying products online without a physical storefront, face-to-face interaction with sales personnel and the ability to physically handle and examine products;
- concerns about delayed shipments or the inconvenience/cost of returning or exchanging items purchased online;
- concerns about the security of online transactions and the privacy of personal information; and
- usability, functionality and features of online platforms.

7. *We operate in highly competitive markets, and the scale and resources of some of our competitors may allow them to compete more effectively than we can, which could result in a loss of our market share and a decrease in our net revenues and profitability.*

The Indian dental care market is highly competitive with the presence of both domestic and international players. Some of the leading players in the market include 3M, Dentsply Sirona, Prevest Denpro Ltd., Danaher Corporation etc. These companies are focusing on innovation and product development to maintain their market position. Our competitors include a number of online marketplaces, such as Pink Blue Supply Solutions Private Limited, Dentalmart E-Commerce Pvt. Ltd etc, offline retail stores, and brands that take a direct-to-customer approach, effectively removing us from the distribution and sales process. The internet and mobile networks provide new, rapidly evolving and competitive channels for the sale of all types of goods and services. Customers who purchase goods and services through us have other alternatives, and sellers have other channels to reach customers. We expect competition to continue to intensify.

Online and offline competitors may offer goods and services that we do not offer and which may be more attractive and they can spend more resources to marketing and promotional campaigns. In addition, competitors may innovate faster, more efficiently, and with new technologies which may increase competitive pressures to offer more efficient or lower-cost services or offer products direct to the customer. If we are unable to change our offerings in ways that reflect the changing demands of offline and online sellers or compete effectively with and adapt to such changes, our business, financial condition, cash flows and results of operations would be adversely affect.

Further, some of our competitors have competitive advantages such as longer operating histories, more experience in implementing their business plan and strategy, better brand recognition, popular offline locations, greater negotiating leverage, established supply relationships and greater financial, marketing and other resources. The intense competition we face in our businesses, and general economic and business conditions may affect our ability to appropriately price our products. If our competitors offer deep discounts on certain products, we may be compelled to lower our prices or offer other favourable terms in order to compete effectively, which may adversely affect our margins and our operating results. As a result, there can be no assurance that we will not encounter increased competition in the future. Nor can there be any assurance that our Company will, in light of competitive pressures, be able to remain profitable or, if profitable, maintain its current profit margins.

8. *If we fail to retain existing customers or fail to maintain AOV levels, we may not be able to sustain our revenue base and margins, which would have a material adverse effect on our business and results of operations.*

Our inability to continuously generate and introduce new and upgraded products to our customer may result in a failure to provide a satisfying experience for customers, which could result in our inability to retain our customer and consequently affect our business. In addition, there are important elements for customer purchasing process eg. product pricing, quality, customer support, product returns, refunds etc., such elements also differs for each customer. Our ability to meaningfully engage with our customers will depend on our ability to deliver these elements and to present a seamless and easy to use interface, which include comparison of product value, utility and benefits and convenience of customer support, product returns, exchanges and refunds.

Our marketing strategies focus on creating awareness of our website, mobile application and brand, and fostering strong word of mouth reviews. Any deterioration in our relationship with our customer and their satisfaction with our products may in turn adversely affect our business and demand for our services. Should we fail to retain our existing customer, in particular our high value customer, then our AOV and revenue may reduce which would adversely affect our operating margins.

9. *There are certain discrepancies/errors noticed in some of our corporate records relating to forms filed with the Registrar of Companies and other provisions of Companies Act, 2013. Any penalty or action taken by any regulatory authorities in future, for non-compliance with provisions of corporate and other law could impact the reputation and financial position of the Company to that extent.*

Our company has missed to comply with certain statutory provisions in the past including but not limited to the details as mentioned in this risk factor, There are few discrepancies noticed in some of our corporate records relating to e-forms filed with the Registrar of Companies and errors in some of the documents attached thereto, for instance, our Company in the past has inadvertently missed to enclose the Cash Flow Statement in the Form AOC-4 filed by the Company for the F.Y. 2017-18 and has made clerical error in the Board resolution filed for appointment of Managing director with ROC. Our Company has not filed certain ROC forms such as form CHG-1 for creation of charge on vehicle loan and on overdraft facilities taken against fixed deposits of the company in the past which inter-alia includes non-compliance of Section 77 of the Companies Act, 2013 and is subject to penalty under section 86 and/or other relevant provision(s) of Companies Act, 2013, as maybe applicable, however as on date of the Draft Red Herring Prospectus all such vehicle loan and overdraft facilities have been repaid by our company.

Further, our company has not complied with certain Accounting Standards such as AS -15 however the same have been duly complied by the company in the restated financial statements. In case of any action being taken by the regulatory authorities against the Company and/or its officers, the same may have an adverse effect on our business and reputation. Although, no show cause notice in respect of the non-compliance has been received by the Company till date, any penalty imposed for such non compliance in future by the any regulatory authority could affect our financial conditions to that extent.

10. *If we are unable to manage our growth or execute our strategies effectively, our business plan and expansion may not be successful, and our business and prospects may be adversely affect.*

In order to continue to grow our business, we will need to continuously and efficiently invest in warehousing infrastructure, managing existing and future relationship with vendors, transport companies and other participants in our network to establish and maintain mutually beneficial relationships with them. We have recently obtained a property on lease at Apparel Industrial Park, Dargapura Village, Kasaba Hobli Taluk, Doddaballapur, Bengaluru, Karnataka, which we plan to use it as warehouse center in future.

In addition, to support our business growth, we may have to implement a variety of new and upgraded managerial, operating, technology, logistics, financial and human resource systems, procedures and controls, which in turn may lead to higher costs and oversight by management. It cannot be assured that we will be able to successfully implement all or some of the managerial, operating, financial and human resource systems, procedures and control. If we are unable to manage our growth through the online platform or the offline sales or if we are unable to execute any of our strategies effectively, our business and prospects may be adversely affected.

We may also experience a decline in our revenue growth rate due to factors such as insufficient growth in the number of brands and customers on our platform, increasing competition from both online and offline companies, a decrease in the growth of our overall market, failure to capitalize on growth opportunities, a slowdown in the Indian economy, which may lead to a decrease in customer demand of our products which would have an adverse impact on our cash flows, financial condition and results of operations.

11. We require certain approvals, licenses, registrations and permits to operate our business, and failure to obtain or renew them in a timely manner or maintain the statutory and regulatory permits and approvals required to operate our business may adversely affect our operations and financial conditions.

We require certain statutory and regulatory permits, licenses and approvals to operate our business. Though we believe that we have obtained those permits and licenses which are adequate to run our business, we cannot assure that there is no other statutory/regulatory requirement which we are required to comply with. Further, some of these approvals are granted for fixed periods of time and need renewal from time to time. We are required to renew such permits, licenses and approvals. There can be no assurance that the relevant authorities will issue any of such permits or approvals in time or at all. Failure by us to renew, maintain or obtain the required permits or approvals in time may result in the interruption of our operations and may have a material adverse effect on our business, financial condition and results of operations.

Further, subsequent to our conversion into limited Company on March 15, 2023, we need to apply for change in name in all our registrations and statutory approvals which are in previous name of our Company. For further details, please refer to chapter titled **“Government and Other Approvals”** on page 188 of this Draft Red Herring Prospectus. Any delay or failure to do so could have an adverse effect on our business and results of operations.

The approvals required by our Company are subject to numerous conditions and there can be no assurance that these would not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. If there is any failure by us to comply with the applicable regulations or if the regulations governing our business are amended, we may incur increased costs, be subject to penalties, have our approvals and permits revoked or suffer a disruption in our operations, any of which could adversely affect our business.

12. We rely upon the performance, reliability and security of network and mobile infrastructure, third-party data centre hosting facilities, and other third-party providers

We rely on services from third parties, such as telecommunications services, credit card processors, payment gateways, logistics provider and SMS service providers, and those services may be subject to outages and interruptions that are not within our control. In addition, we may experience down periods when our third-party credit card or payment mobile applications processors are unable to process the online payments of our customers, disrupting our ability to receive customer orders.

We also rely on cloud infrastructure service providers and systems maintained by third-party service providers. Our operations depend on the virtual cloud infrastructure and its configuration and interconnection specifications, as well as the information stored in these virtual data centers. We have no physical access or control over our virtual cloud infrastructure services and we cannot quickly or easily switch our operations to another third party cloud infrastructure service provider. Any technical glitch in services of third party service providers, termination or suspension of our arrangements with our technology vendors would interrupt our business by affecting our ability to access our data and infrastructure.

With respect to our marketing channels, we rely heavily on relationships with providers of search engines, social media etc. to provide significant sources of traffic to our website. Search engine companies change their natural search engine algorithms periodically, and our ranking in natural searches may be adversely affected by those changes, as has occurred from time to time. If search engines change their algorithms, terms of service, display and featuring of search results, or if competition increases for advertisements, we may be unable to cost-effectively drive customers to our mobile applications and websites.

In addition, our technology infrastructure and the technology infrastructure of our third-party providers are vulnerable to damage or interruption as a result of software or hardware malfunctions, system implementations or upgrades, computer viruses, third-party security breaches, employee error, misuse, war, natural calamities, power loss, telecommunications failures, cyber-attacks, human error, and other similar events could lead to extended interruptions of our operations, a corresponding loss of revenue and profits, cause breaches of data security, loss of intellectual property or critical data, or the release and misappropriation of sensitive information, or otherwise impair our operations.. If any such event were to occur, our business, financial condition, cash flows and results of operations may be adversely affected.

13. Our business depends on our ability to maintain and scale our technology. Any interruptions or delays in service on our mobile applications or websites or any undetected errors or design faults could result in limited capacity, reduced demand, processing delays, and loss of customers or suppliers

A key element of our strategy is to generate a high volume of traffic on our mobile application and website. Our reputation and ability to attract, retain and serve our customers depend upon the reliable performance of our mobile application and website and the

underlying network infrastructure. We have experienced interruptions in these systems in the past, including server failures that temporarily slowed down or interfered with the performance of our mobile applications and websites, and we may experience interruptions in the future. As our customer base and the amount of information shared on our mobile applications and websites continue to grow, we will need an increasing amount of network capacity and computing power. Any interruption or inadequacy that causes performance issues or interruptions in the availability of our mobile applications or websites could reduce customer satisfaction and result in a reduction in the number of customers purchasing our products and services, adversely affecting our business and financial position.

14. The geographical concentration of our warehousing facility may restrict our operations and adversely affect our business, results of operations and financial conditions.

Our business is dependent upon our ability to manage our warehouse facility located at Gurugram, which are subject to various operating risks, including those beyond our control, such as the industrial accidents and severe weather conditions and natural disasters. Any significant malfunction may entail significant repair and maintenance costs and cause delays in our operations. Such disruptions could result in the damage or destruction of a significant portion of our warehousing abilities, significant delays in the transport of our products, loss of key managerial personnel, and/or otherwise adversely affect our business, financial condition and results of operations.

Further, our major revenue from top five states contributed to 49.91% and 46.91% of the total revenue from operation for Fiscal 2022 and for nine months period ended December 31, 2022 respectively. Such geographical concentration of our business in this region heightens our exposure to adverse developments related to competition, as well as economic and demographic changes in this region, which may adversely affect our business prospects, financial conditions and results of operations.

15. We depend on third party service providers for logistics and some portion of aftersales services.

Our ability to meet our customers' expedited delivery expectations is an integral component of our business strategy for which our customers rely. Shipping is a significant expense in the operation of our business. We ship almost all of our orders through third-party delivery services, and typically bear the cost of shipment. Accordingly, any significant increase in shipping rates could have a material adverse effect on our business, financial condition or operating results. Similarly, strikes or other service interruptions by those shippers, including at transportation centers or shipping ports, could cause our operating expenses to rise and materially adversely affect our ability to deliver products on a timely basis.

Cost of product returns in an e-commerce business is mainly absorbed by the business. This includes cost of delivery, freight and risk of fraud returns that may lead to additional cost and risk exposure with the product sold. In some cases, the returned inventory is not suitable for resale which further impacts our overall margins. Further, any changes in our shipping arrangements for reverse logistics or any interruptions in shipping could adversely affect our business, financial condition, cash flows and results of operations.

The third-party logistics service provider that we rely on may also subject us to additional risks. For example, traffic accidents caused by such couriers in performing their services on our behalf may cause negative publicity in the local community and may negatively affect our brand image and reputation. In addition, as our third-party couriers interact directly with our customers, we may suffer harm, including substantial reputational harm from any misconduct or illegal actions committed by them. If we are unable to effectively address these risks, our image, reputation, cash flows and financial performance may be adversely affected.

16. We may not be able to adequately protect or continue to use our intellectual property.

As on the date of this Draft Red Herring Prospectus, we have 32 trademark registrations in India. Further we have 15 trademark applications that are pending approval by the trademark registry and rectification application has been filed for 1 trademark by us.

Amongst the pending trademark registrations, our logo , which we are using for our business, was applied for registration under class 35 and class 10 of the Trademarks Act, 1999. The application under class 35 is accepted and advertised, however that under class 10 is objected.

Out of total 32 trademarks, 6 registrations are applied in the name of our company, 7 registrations are applied in the name of our group company i.e. Waldent Innovations Private Limited and 19 registrations are applied in the name of our Promoter i.e. Dr. Vikas Agarwal. However, our company has made the applications for Post registration changes in trademarks to give effect to the trademark assignment agreements entered into with the respective trademark owners. For details of our intellectual property rights, see ***“Government and Other Approvals”*** on page 188 of this Draft Red Herring Prospectus. Some of our trademarks have been opposed and there can be no assurance that our trademark applications will be accepted and the trademarks will be registered. Pending the

registration of these trademarks, any other vendor in the similar line of business as ours may use the above-mentioned trademarks and we may have a lesser recourse to initiate legal proceedings to protect our intellectual property. In the event we are not able to obtain registrations due to opposition by third parties or if any injunctive or other adverse order is issued against us in respect of any of our trademarks for which we have applied for registration, we may not be able to use such trademarks and / or avail the legal protection or prevent unauthorised use of such trademarks by third parties, which may adversely affect our goodwill and business.

Further, despite our efforts to protect and enforce our proprietary rights, unauthorized parties may in the future use, our trademarks or similar trademarks, copy aspects of our website images, features, compilation and functionality or obtain and use information that we consider as proprietary, such as the technology used to operate our website or our content, thereby undermining our position within the e-commerce market. Our competitors may adopt, service/website names similar to ours, thereby impeding our ability to build brand identity and possibly diluting our brand and leading to brand dilution or customer confusion. In addition, there could be potential trade name or trademark ownership or infringement claims brought by owners of other rights, including registered trademarks, in our marks or marks similar to ours. Any such claims, brand dilution or customer confusion related to our brands (including our trademarks) could damage our reputation and brand identity and substantially harm our business and results of operations.

17. Security breaches and any disruption to our information technology could adversely impact our business.

Our business generates, stores and processes a large quantity of personal, transaction, demographic and behavioral information and data and as such we may experience disruptions, failures or breaches of our technology platforms. We also face risks inherent in handling large volumes of data and in protecting the security of such data, such as protecting the data in and hosted on our system, including against attacks on our system by outside parties or fraudulent behavior by our employees; addressing concerns related to privacy and sharing, safety, security and other factors. Any failure, or perceived failure, by us to comply with our posted privacy policies or with any regulatory requirements or privacy and data protection-related laws, rules and regulations could result in proceedings or actions against us by governmental entities or others, which could have an adverse effect on our results of operations, cash flows and business.

We seek to protect our IT systems and network infrastructure from security breaches and other disruptive problems caused by our increased internet connectivity. We employ security systems, including firewalls and password encryption, designed to minimize the risk of security breaches but there can be no assurance that these security measures will be successful. Breaches of our security measures could affect the security of information stored in and transmitted through these computer systems and network infrastructure. A failure in security measures could have a material adverse effect on our business and our future financial performance. Our business relies on information technology to operate on a daily basis. The success of our businesses depends in part upon the ability to store, retrieve, process and manage substantial amounts of information. Any disruption in our information technology systems could render us unable to operate our business. This could adversely affect our business, reputation and revenues.

18. We do not own the registered office and Warehouse from which we carry out our business activities. In case of non-renewal of rent agreements or dispute in relation to use of the said premise, our business and results of operations can be adversely affected.

Our registered office and warehouse are being taken by us on rent from third parties for limited period of time which are required to be renewed periodically. In the event of termination/non-renewal of said agreements, on commercially reasonable terms or at all we may be required to vacate the said premises and may therefore be forced to relocate. This may cause disruption in our inventory management, corporate affairs and business and impede our effective operations which could lead temporarily impact our business operations until we get suitable alternative location.

In addition, the agreements pertaining to the fulfilment centre has irregularities of enforceability, such as non-registration of agreement and inadequate payment of stamp duty, which may affect the evidentiary value of the relevant agreements in specific performance or other injunctive procedures in a court of law, and could impair our operations. Further, it may result in levy of penal charges, in case cognizance being taken by concerned Authorities. For details on the duration of existing rent agreements for our premises, please refer to the section titled **“Our Business”** beginning on page 96 of this Draft Red Herring Prospectus.

Further, any unanticipated or steep increase in the regulatory costs on account of stamp duty, municipal taxes or any other local duties, taxes, levies may adversely impact our ability to expand our warehouse in an affordable manner. There can be no assurance that we will, in the future, be able to renew the agreements for the existing locations on same or similar terms, or will be able to find alternate locations for the offices on similar terms favorable to us, or at all. We may also fail to negotiate the renewal of our rent agreements for our premises, either on commercially acceptable terms or at all, which could result in increased rental rates for subsequent renewals or searching of new premises, affecting our financial condition and operations. In the event that the rent agreement is terminated or they

are not renewed on commercially acceptable terms, we may suffer a disruption in our operations which could materially and adversely affect our business, financial condition and results of operations.

19. We have experienced negative cash flows from operations in the recent past, and we may have negative cash flows in the future.

Our cash flows from operating activities, investing activities and financing activities for the period ended December 31, 2022 and Fiscal 2022, 2021 and 2020 is set forth below:

Particulars	Rs. In Lakhs			
	December 31, 2022	March 31, 2022	March 31, 2021	March 31, 2020
Net cash flow from operations	188.66	39.65	(45.71)	79.87
Net cash flow from/ (used in) investing activities	(55.97)	(57.33)	(128.79)	(41.43)
Net cash flow from/ (used in) financing activities	(68.48)	79.14	126.24	(6.47)

Cash flows of a company are a key indicator to show the extent of cash generated from the operations of a company to meet capital expenditure, pay dividends, repay loans and make new investments without raising finance from external resources. If we are not able to generate sufficient cash flows, it may adversely affect our business and financial operations

20. Fluctuation in foreign currency exchange rates could affect our financial condition and results of operations

Our business involves import and export transactions with foreign companies, which is paid or received in foreign currencies. A depreciation of Rupee against these foreign currencies would mean that our imports would become expensive and will impact our gross margins. During the stub period ended on December 31, 2022 and FY 2021-22, 2020-21 and 2019-20 the imports accounted for approximately Rs. 2067.47 lakhs, Rs. 949.43 lakhs, Rs. 21.34 lakhs and Rs. Nil lakhs respectively. Similarly, any appreciation of Rupee against these foreign currencies would adversely affect the export value of our products. During the stub period ended on December 31, 2022 and FY 2021-22, 2020-21 and 2019-20 the exports accounted for approximately Rs. 41.43 lakhs, Rs Nil lakhs, Rs.135.51 lakhs and Rs. 254.45 lakhs respectively. The exchange rate between the Rupee and these foreign currencies has fluctuated substantially in recent years and may continue to fluctuate significantly in the future. The foreign exchange gain/(loss) during the stub period ended on December 31, 2022 and FY 2021-22, 2020-21 and 2019-20 accounted for Rs 24.13 lakhs, Rs 8.45 lakhs, Rs Nil lakhs and Rs (2.46) lakhs respectively. We bear the complete risk of currency exchange rate fluctuations.

21. Some of our Group Companies and Promoter Group Entities operate in the same line of business as us, which may lead to conflict of interest.

Our Group Companies and Promoter Group entities, Waldent Innovations Private Limited, Vasa Dental Supplier, Indian Dental Company and The DentGist Company are involved in ventures which are in the same line of business as of our Company. Hence, we may have to compete with our Group Companies and Promoter Group entities for business, which may impact our business, financial condition and results of operations. We cannot assure that our Promoters who have common interest in said entity will not favour the interest of the said entity. As a result, conflicts of interests may arise in allocating business opportunities amongst our Company and these Companies in circumstances where our respective interests' conflict. In cases of conflict, our Promoter may favour these companies in which our Promoters have interest. There can be no assurance that our Promoters or members of the Promoter Group will not compete with our existing business or any future business that we may undertake or that their interests will not conflict with ours. The interests of our Promoters may also conflict in material aspects with our interests or the interests of our Shareholders. However, our Company will ensure necessary procedures and practices as permitted by laws and regulatory guidelines to address situations of conflict of interest as and when they arise. Any such present and future conflicts could have a material adverse effect on our reputation, business, results of operations and financial condition which may adversely affect our profitability and results of operations. For further details, see **"Our Group Companies"** and **Note 32 - Related Party Transactions"** under Section titled **"Financial Information of the Company"** on page 195 and 165 respectively of this Draft Red Herring Prospectus.

Further we share the same premises of our registered office with Our Group Companies and Promoter Group entities, Waldent Innovations Private Limited, Vasa Dental Supplier and The DentGist Company. There is no separate sub-lease agreement, rent sharing agreement or are a sharing agreement. In case of any dispute, we may suffer a disruption in our operations which could have an adverse effect on our business and operations. Any multiple or overlapping use of the said facilities may create some disruption which may affect our business operations.

22. Restrictions on import and an increase in shipment cost may adversely impact our business, cash flows and results of operations.

Some of the dental products are imported. During the stub period ended on December 31, 2022 and Fiscal 2022, 2021 and 2020 the import purchases accounted for 27.67%, 13.82%, Nil and Nil of total purchases in the respective years. The import is regulated by the various regulatory requirements, which empowers the relevant authority to undertake any measures that it deems fit, particularly in relation to medical equipment's, parts, components and disposables to be imported. Such measures include denying approval for import of such products. There can be no assurance that such regulations will not become more stringent in the future, which could potentially restrict our ability to import from other jurisdictions. Historically, we have been dependent on import from China.

While our imports from such jurisdictions are not currently subject to any regulatory ban or restriction, there can be no assurance that such regulations will not evolve into more stringent regulations, which would place onerous requirements on us and consequently restrict our ability to import. There can also be no assurance that, under these circumstances, we will be successful in identifying alternate suppliers or we will be able to source such products, raw materials or components domestically at favourable terms in a timely manner. While we have not in the past experienced any significant challenge in importing products, there can be no assurance that we will not experience any such challenges in the future.

23. Our insurance coverage may not be adequate to protect us against certain operating hazards and this may have a material adverse effect on our business.

As on date of this Draft Red Herring Prospectus, we have obtained various insurance policies such as insurance coverage in respect of certain risks related to stock at warehouse, furniture & fixtures, fittings, other equipments, vehicle and marine cargo insurance policy. We face the risk of loss resulting from product liability, intellectual property, contractual, warranty, and other lawsuits, whether or not such claims are valid. Moreover, our insurance coverage may not be adequate to cover such claims or may not be available to the extent we expect. Although, we attempt to obtain coverage for and mitigate our liability for damages arising from negligent acts, errors or omissions through insurance policies, our liability may sometimes not be covered as a result of the limitations of liability set forth in our insurance policies. For details of insurance policies, see “**Our Business**” on page 96 of this Draft Red Herring Prospectus.

Our insurance policies are subject to annual review, and we cannot assure you that we will be able to renew these policies on similar or otherwise acceptable terms, or at all. If we were to incur a serious uninsured loss or a loss that significantly exceeds the limits of our insurance policies, it could have an adverse effect on our financial condition, results of operations and cash flows. While we believe that insurance coverage will be available in the future, we cannot assure you that such coverage will be available at costs and terms acceptable to us or that such coverage will be adequate with respect to future claims that may arise. If we suffer a significant uninsured loss or if an insurance claim in respect of the subject matter of insurance is not accepted or any insured loss suffered by us significantly exceeds our insurance coverage, our business, financial condition and results of operations may be materially and adversely affected. Further, in the future, we may experience difficulty in obtaining insurance coverage for new and evolving product offerings at favorable prices, which could require us to incur greater costs. If we are not able to adequately insure against the risks we face, or the insurance coverage we have taken is inadequate to cover our losses, our business, financial condition and results of operations could be adversely affected.

24. If we are unable to service our debt obligations in a timely manner or to comply with various financial and other covenants and other terms and conditions of our financing agreements, it may adversely affect our business, prospects, results of operations and financial condition

As of December 31, 2022 our Company had total indebtedness in the form of short term and long term borrowings of Rs. 266.31 lakhs. Out of the said indebtedness of Rs. 266.31 lakhs, we have obtained unsecured loan from bank and financial institutions of Rs. 127.45 lakhs, which are taken on high rate of interest ranging from 15% to 17%. Our indebtedness could have several important consequences, including but not limited to the following:

- a portion of our cash flows may be used towards repayment of our existing debt, which will reduce the availability of our cash flows to fund working capital, capital expenditures and other general corporate requirements;
- our ability to obtain additional financing in the future at reasonable terms may be restricted;
- fluctuations in market interest rates may affect the cost of our borrowings, as some of our indebtedness is at variable interest rates;
- there could be a material adverse effect on our business, financial condition and results of operations if we are unable to service our indebtedness or otherwise comply with financial and other covenants specified in the financing agreements; and

Many of our financing agreements also include various conditions and covenants that require us to obtain consent of the lenders prior to carrying out certain activities or entering into certain transactions. Certain covenants in these agreements require us to obtain approval/permission from our lenders in certain conditions. In the event of default or the breach of certain covenants, our lender has the option to make the entire outstanding amount payable immediately. There can be no assurance that we will be able to comply with

these financial or other covenants or that we will be able to obtain consents necessary to take the actions that we believe are required to operate and grow our business. For further details in this regard, please refer to chapter titled **“Statement of Financial Indebtedness”** beginning on page 173 of this Draft Red Herring Prospectus.

25. *Loans availed by Our Company has been secured on personal guarantees of our Directors/Promoters. Our business, financial condition, results of operations, cash flows and prospects may be adversely affected in case of invocation of any personal guarantees provided by our Directors/Promoters.*

Loans availed by our Company has been secured on guarantees of our Promoters and Directors. In the event of default on such borrowings, these personal guarantees may be invoked by our lenders thereby adversely affecting our Promoters’ ability to manage the affairs of our Company and this, in turn, could adversely affect our business, prospects, financial condition and results of operations. Further, if any of these personal guarantees are revoked by our Promoters, we may also not be successful in procuring alternate securities or guarantees satisfactory to the lenders, and as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could affect our financial condition and cash flows. For further details regarding loans availed by our Company, please refer **“Statement of Financial Indebtedness”** on page 173 of this Draft Red Herring Prospectus.

26. *Our Company has taken unsecured loans that may be recalled by the lenders at any time and our Company may not have adequate working capital to make timely payments or at all.*

Our Company has availed unsecured loans which may be recalled by its lenders at any time. As on December 31, 2022, the unsecured loans amounted to Rs. 127.45 lakhs due to lender. In the event that any lender seeks a repayment of any such loan, our Company would need to find alternative sources of financing, which may not be available on commercially reasonable terms, or at all. As a result, any such demand may materially affect our business, cash flows, financial condition and results of operations. For further details, please see the section entitled **“Statement of Financial Indebtedness”** on page 173 of this Draft Red Herring Prospectus.

27. *Our lenders have imposed certain restrictive conditions on us under our financing arrangements. This may limit our ability to pursue our business and limit our flexibility in planning for, or reacting to, changes in our business or industry.*

Certain of our financing agreements include conditions and restrictive covenants, including the requirement that we obtain consent from or intimate our respective lenders prior to carrying out certain activities and entering into certain transactions including, among others, declaring or paying dividends, effecting any change in our Company’s capital structure, carrying out or entering into any amalgamation, consolidation, demerger, merger, restructuring and investing by way of share capital or lending or advancing funds to or placing deposits with any other concerns except in normal course of our business. These restrictions may limit our flexibility in responding to business opportunities, competitive developments and adverse economic or industry conditions.

Our financing agreements also generally contain certain financial covenants including the requirement to maintain, among others, specified debt-to-equity ratios, total outside liabilities to tangible net worth and minimum net worth. These covenants vary depending on the requirements of the financial institution extending the loan and the conditions negotiated under each financing document. Such covenants may restrict or delay certain actions or initiatives that we may propose to take from time to time. We cannot assure you that we will comply with the covenants with respect to our financing arrangements in the future or that we will be able to secure waivers for any non-compliance in a timely manner or at all. If the obligations under any of our financing agreements are accelerated, we may have to dedicate a substantial portion of our cash flow from operations to make payments under such financing documents, thereby reducing the availability of cash for our working capital requirements and other general corporate purposes. The occurrence of these events may have an adverse effect on our cash flow and financial conditions of the company. For further details regarding our indebtedness, see **“Statement of Financial Indebtedness”** on page 173 of this Draft Red Herring Prospectus.

28. *We have in the past entered into related party transactions and may continue to do so in the future.*

Our Company has entered into various transactions with our Directors, Promoter and Promoter Group members/entities. These transactions, inter-alia includes, issue of shares, purchase, sales, remuneration, loans and advances, reimbursements etc. For details, please refer to **Note 32 - Related Party Transactions** under Section titled **“Financial Information of the Company”** and Chapter titled **“Capital Structure”** beginning on page 165 and 59 respectively of this Draft Red Herring Prospectus.

Although all related-party transactions that we may enter into in the future are subject to approval by our Audit Committee, Board or shareholders, as required under the Companies Act, we cannot assure you that such future transactions or any other future transactions, individually or in aggregate, will not have an adverse effect on our financial condition and results of operations or that we could not have achieved more favorable terms if such transactions are not entered into with related parties. Such related party transactions in the future or any other future transactions may potentially involve conflicts of interest which may be detrimental to the interest of our

Company and we cannot assure you that such transactions, individually or in the aggregate, will always be in the best interests of our minority shareholders and will not have an adverse effect on our business, financial condition and results of operations.

29. *The average cost of acquisition of Equity Shares by our Promoters, are lower than the face value of Equity Share.*

The average cost of acquisition of Equity Shares of our Promoters are lower than the face value of Equity Shares i.e. ₹ 10/-. For further details regarding the average cost of acquisition of Equity Shares by our Promoters in our Company and build-up of Equity Shares of our Promoters in our Company, please see Chapter titled "**Capital Structure**" beginning on page 59 of this Draft Red Herring Prospectus.

30. *We depend on the performance of management and other highly-qualified and skilled personnel, and if we are unable to attract, retain, and motivate these and other well-qualified employees, our business could be harmed.*

Our success and growth depends upon consistent and continued performance of our employees with direction and leadership from senior management. From time to time, there may be changes in our executive management team or other key employees to enhance the skills of our teams or as a result of attrition. The loss of one or more of our executive officers or other key employees could adversely affect our functions and business operations. We also do not maintain key man life insurance with respect to any members of management or other employees.

Since our industry faces high demand and intense competition for talent, we may fail to timely attract or retain qualified or highly-skilled employees that we will need to achieve our strategic objectives. In addition to hiring new employees, we must continue to focus on developing, motivating and retaining our best employees, many of whom are at-will employees who may terminate their employment relationship with us at any time for alternate career opportunities.

If we fail to identify, recruit and integrate strategic personnel, our business, financial condition, cash flows and results of operations could be adversely affected. Any loss of members of our senior management team or key personnel could significantly delay or prevent the achievement of our business objectives, could harm our business and customer relationships. If we are not able to retain and motivate our current personnel or effectively integrate and retain employees, our ability to achieve our strategic objectives, and our business, financial condition, cash flows and results of operations will be adversely affected.

31. *The Promoters (including Promoter Group) and Directors hold 95% of the Equity Shares of our Company and are therefore interested in the Company's performance in addition to their remuneration and reimbursement of expenses.*

Our Promoter and Directors are interested in our Company, in addition to regular remuneration or benefits and reimbursement of expenses, to the extent of their shareholding in our Company or their relatives, dividend entitlement, or loans advanced by them to the Company, and benefits deriving from the directorship in our Company. There can be no assurance that our Promoters will exercise their rights as shareholders to the benefit and best interest of our Company. Our Promoters will continue to exercise significant control over us, including being able to control the composition of our Board of Directors and determine decisions requiring simple or special majority voting of shareholders, and our other shareholders may be unable to affect the outcome of such voting. For further information, please refer to the chapters/section titled "**Our Business**", "**Our Promoters and Promoter Group**" and "**Note 32 - Related Party Transactions**", beginning on pages 96, 136 and 165 respectively of this Draft Red Herring Prospectus.

32. *We could be harmed by employee misconduct or errors that are difficult to detect and any such incidences could adversely affect our financial condition, results of operations and reputation.*

Employee misconduct or errors could expose us to business risks or losses, including regulatory sanctions and serious harm to our reputation. There can be no assurance that we will be able to detect or deter such misconduct. Moreover, the precautions we take to prevent and detect such activity may not be affective in all cases. Our employees may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions on account of which our business, financial condition, results of operations and goodwill could be adversely affected.

33. *Any Penalty or demand raised by statutory authorities in future will affect our financial position of the Company.*

We sell a broad range of dental products, which attracts tax liability such as Goods and Service tax and Income tax as per the applicable provisions of Law. We are also subject to the labour laws like depositing of contributions with Provident Fund & ESI. Any demand or penalty raised by the concerned authority in future for any previous years or current year will affect the financial position of the Company. Further, in the past, the Company has filed some returns with delayed fees/penalty under above applicable acts but any demand/penalty raise by concerned authority in future will affect the financial position of the Company.

34. *Our ability to pay any dividends will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditures.*

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our Dividend history refer to the Section **“Dividend Policy”** on page 141 of the Draft Red Herring Prospectus.

35. *There is no monitoring agency appointed by Our Company to monitor the utilization of the Offer proceeds.*

As per SEBI (ICDR) Regulations, 2018, as amended, appointment of monitoring agency is required only for Offer size above Rs. 10,000.00 Lacs. Hence, we have not appointed any monitoring agency to monitor the utilization of Offer proceeds. However, the audit committee of our Board will monitor the utilization of Offer proceeds in terms of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. Further, our Company shall inform about material deviations in the utilization of Offer proceeds to the stock exchange and shall also simultaneously make the material deviations / adverse comments of the audit committee public.

36. *We have relied on a third party industry report which has been used for industry related data in this Draft Red Herring Prospectus and such data have not been independently verified by us.*

We have relied on the report titled **“Dental Materials Market”** dated April 08, 2023 prepared by Marketysers Global Consulting LLP (‘‘Marketysers Report’’) for industry related data that has been disclosed in this Draft Red Herring Prospectus. The report uses certain methodologies for market sizing and forecasting. We have not independently verified such data and therefore we cannot assure you that they are complete or reliable. Accordingly, investors should read the industry related disclosure in this Draft Red Herring Prospectus in this context. Industry sources and publications are also prepared based on information as of specific dates and may no longer be current or reflect current trends. Industry sources and publications may also base their information on estimates, projections, forecasts and assumptions that may prove to be incorrect. While industry sources take due care and caution while preparing their reports, they do not guarantee the accuracy, adequacy or completeness of the data. Accordingly, investors should not place undue reliance on, or base their investment decision solely on this information. For further details, please refer to the section titled **“Industry Overview”** on page 86 of this Draft Red Herring Prospectus

37. *Our Company has during the preceding one year from the date of the Draft Red Herring Prospectus allotted Equity Shares at a price which is may be lower than the Offer Price.*

In the last 12 months, we have made allotments of Equity Shares (other than bonus issue of shares) through right issue of shares, which may be lower than the Offer Price. For details relating to number of shares issued, date of allotment etc. please refer to section titled **“Capital Structure”** on page 59 of this Draft Red Herring Prospectus. The Offer Price is not indicative of the price that will prevail in the open market following listing of the Equity Shares.

38. *The Objects of the Offer for which funds are being raised, are based on our management estimates and the same have not been appraised by any bank or financial institution or any independent agency. The deployment of funds in the project is entirely at our discretion, based on the parameters as mentioned in the chapter titles “Objects of the Offer”.*

The fund requirement and deployment is based on the estimates of our management and has not been appraised by any bank or financial institution or any other independent agency. These fund requirements are based on our current business plan. We cannot assure that the current business plan will be implemented in its entirety or at all. In view of the highly competitive and dynamic nature of our business, we may have to revise our business plan from time to time and consequently these fund requirements. The deployment of the funds as stated on page 71 under chapter **“Objects of the Offer”** is at the discretion of our Board of Directors and is not subject to monitoring by any external independent agency. Further, we cannot assure that the actual costs or schedule of implementation as stated on page 71 under chapter **“Objects of the Offer”** will not vary from the estimated costs or schedule of implementation. Any such variance may be on account of one or more factors, some of which may be beyond our control. Occurrence of any such event may delay our business plans and/or may have an adverse bearing on our expected revenues and earnings.

39. *Increases in operational costs could adversely affect our results of operations.*

Factors such as inflation, increased labor and employee benefit costs, increased rental costs, and increased energy costs may increase our operating costs and those of our sellers, manufacturers, suppliers, freight and delivery companies. Further, to maintain our operational costs and margins, it is imperative to optimize the expansion of capacity of our fulfillment centers.

Many of the factors affecting sellers, manufacturers and suppliers are beyond the control of these parties. In many cases, these increased costs may cause sellers, manufacturers, suppliers, freight and delivery companies, to spend less time providing services to our customers or to seek alternative sources of income. Likewise, these increased costs may cause sellers, manufacturers, suppliers, freight and delivery companies to pass costs on to us and our customers by increasing prices, which would likely cause order volume to decline, and may cause sellers, manufacturers, suppliers to cease operations altogether.

40. Certain key performance indicators for certain listed industry peers included in this Draft Red Herring Prospectus have been sourced from public sources and there is no assurance that such financial and other industry information is complete.

Pursuant to the requirements of the SEBI (ICDR) Regulations dated November 21, 2022, we have included certain key performance indicators, comprising financial and operational information, for certain listed industry peers, in the “*Basis for Offer Price*” beginning on page 78 of this Draft Red herring Prospectus. Although this information is sourced from and relied upon on the restated audited financial statements of the relevant listed industry peers as available on the websites of the Stock Exchanges, including the annual reports of the respective companies submitted to Stock Exchanges, there is no assurance that this information with respect to industry peers is either complete. There are different methodologies and formulas used to compute the various ratios.

41. Our Promoter and the Promoter Group will jointly continue to retain majority shareholding in our Company after the offer, which will allow them to determine the outcome of the matters requiring the approval of shareholders.

Our promoter along with the promoter group will continue to hold collectively upto [●] % of the Equity share capital of the company. As a result of the same, they will be able to exercise significant influence over the control of the outcome of the matter that requires approval of the majority shareholders vote. Such a concentration of the ownership may also have the affect of delaying, preventing or deterring any change in the control of our company. In addition to the above, our promoter will continue to have the ability to take actions that are not in, or may conflict with our interest or the interest of some or all of our minority shareholders, and there is no assurance that such action will not have any adverse effect on our future financials or results of operations.

42. We may require equity issuance, which will lead to dilution of equity and may affect the market price of our Equity Shares or additional funds through incurring debt to satisfy our capital needs, which we may not be able to procure and any future equity offerings by us.

Our growth is dependent on having a strong balance sheet to support our activities. In addition to the internally generated cash flow, we may need other sources of financing to meet our capital needs which may include entering into new debt facilities with lending institutions or raising additional equity in the capital markets. We may need to raise additional capital from time to time, dependent on business conditions. The factors that would require us to raise additional capital could be business growth beyond what the current balance sheet can sustain; additional capital requirements imposed due to changes in regulatory regime or significant depletion in our existing capital base due to unusual operating losses. Any fresh issue of shares or convertible securities would dilute existing holders, and such issuance may not be done at terms and conditions, which are favourable to the then existing shareholders of our Company. If our Company decides to raise additional funds through the incurrence of debt, our interest obligations will increase, and we may be subject to additional covenants, which could further limit our ability to access cash flows from our operations. Such financings could cause our debt to equity ratio to increase or require us to create charges or liens on our assets in favour of lenders. We cannot assure you that we will be able to secure adequate financing in the future on acceptable terms, in time, or at all. Our failure to obtain sufficient financing could result in the delay or abandonment of our expansion plans. Our business and future results of operations may be affected if we are unable to implement our expansion strategy.

Any issuance of Equity Shares by our Company may dilute shareholding of investors in our Company; and hence affect the trading price of our Company’s Equity Shares and its ability to raise capital through an issue of its securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of our Company’s Equity Shares. Additionally the disposal, pledge or encumbrance of Equity Shares by any of our Company’s major shareholders, or the perception that such transactions may occur may affect the trading price of the Equity Shares. No assurance may be given that our Company will not issue Equity Shares or that such shareholders will not dispose of, pledge or encumber their Equity Shares in the future.

43. The Offer price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Offer and the market price of our Equity Shares may decline below the Offer Price and you may not be able to sell your Equity Shares at or above the Offer Price.

The offer price of the equity shares have been based on many factor and may not be indicative of the market price of our Equity Shares after the Offer. For further information please refer the section titled “**Basis for Offer Price**” beginning on page 78 of the Draft Red Herring Prospectus. The market price of our Equity Shares could be subject to significant fluctuations after the Offer, and may decline below the Offer Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Offer Price.

44. Investors other than retail (including non-institutional investors, QIBs and Corporate Bodies) are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Amount) at any stage after submitting an Application.

Pursuant to the SEBI ICDR Regulations, Investors other than retail (including non-institutional investors and Corporate Bodies) are not permitted to withdraw or lower their Application (in terms of quantity of Equity Shares or the Amount) at any stage after submitting an Application. While our Company is required to complete Allotment pursuant to the Offer within six Working Days from the Offer Closing Date, events affecting the Bidders decision to invest in the Equity Shares, including material adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operation or financial condition, may arise between the date of submission of the Application and Allotment. Our Company may complete the Allotment of the Equity Shares even if such events occur, and such events limit the Bidder’s ability to sell the Equity Shares Allotted pursuant to the Offer or cause the trading price of the Equity Shares to decline on listing.

EXTERNAL RISK FACTORS

45. The continuing effect of the COVID-19 pandemic on our business, results of operations and financial condition is highly uncertain and cannot be predicted.

Product supply and pricing can be volatile due to a number of factors beyond our control, including global demand and supply, general economic and political conditions, tariff disputes, transportation and labour costs, labour unrest, natural disasters, competition, import duties, the outbreak of infectious diseases such as COVID-19, tariffs and currency exchange rates and there are inherent uncertainties in estimating such variables, regardless of the methodologies and assumptions that we may use. The outbreak, or threatened outbreak, of any severe communicable disease (particularly COVID-19) could adversely affect the overall business sentiment and environment, particularly if such outbreak is inadequately controlled. The outbreak of COVID-19 has resulted in authorities implementing several measures such as travel bans and restrictions, quarantines and lockdowns. These measures have impacted and may further impact our workforce and operations, the operations of our customers. In case there is a rapid increase in severe cases of infections leading to deaths, where the measures taken by governments are not successful or are any bans imposed by the government in this regard are lifted prematurely, may cause significant economic disruption in India and in the rest of the world. If any of our employees were suspected of contracting COVID-19 or any other epidemic disease, this could require us to quarantine some or all of these employees or disinfect the facilities. In addition, our revenue and profitability could be impacted to the extent that a natural disaster, health epidemic or other outbreak harms the Indian and global economy in general. The outbreak has significantly increased economic uncertainty. It is likely that the current outbreak or continued spread of COVID-19 will cause an economic slowdown and it is possible that it could cause a global recession.

46. A slowdown in economic growth in India may adversely affect our business, financial condition, cash flows, results of operations and prospects.

The performance and growth of our business are necessarily dependent on economic conditions prevalent in India, which may be materially and adversely affected by centre or state political instability or regional conflicts, a general rise in interest rates, inflation, and economic slowdown elsewhere in the world or otherwise. There have been periods of slowdown in the economic growth of India. India’s economic growth is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports (oil and oil products), global economic uncertainty and liquidity crisis, volatility in exchange currency rates and annual rainfall which affects agricultural production. Any continued or future slowdown in the Indian economy or a further increase in inflation could have a material adverse effect on the price of our raw materials and demand for our products and, as a result, on our business and financial results. The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the U.S. and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors’ reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any worldwide financial instability, including the financial crisis and fluctuations in the stock markets in China and further deterioration of credit conditions in the U.S. or European markets, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our business and financial results.

47. Changing laws, rules and regulations and legal uncertainties in India, including adverse application of tax laws and regulations, may adversely affect our business and financial performance.

Our business and financial performance could be adversely affected by changes in law or interpretations of existing, or the promulgation of new, laws, rules and regulations in India applicable to us and our business. For further details please refer to the chapter “***Government and Other Approvals***” on page 188 for details of the laws currently applicable to us. There can be no assurance that the central or the state governments in India may not implement new regulations and policies which will require us to obtain approvals and licenses from the central or the state governments in India and other regulatory bodies or impose onerous requirements and conditions on our operations. Any such changes and the related uncertainties with respect to the implementation of the new regulations may have a material adverse effect on all our business, financial condition and results of operations. In addition, we may have to incur capital expenditures to comply with the requirements of any new regulations, which may also materially harm our results of operations. For instance, the Government has proposed a comprehensive national goods and services tax (“**GST**”) regime that will combine taxes and levies by the Central and state Governments into a unified rate structure. Given the limited availability of information in the public domain concerning the GST, we are unable to provide any assurance as to the tax regime following implementation of the GST. The implementation of this new structure may be affected by any disagreement between certain state Governments, which could create uncertainty. Any such future amendments may affect our overall tax efficiency, and may result in significant additional taxes becoming payable.

48. Instability in financial markets could materially and adversely affect our results of operations and financial condition.

The Indian economy and financial markets are significantly influenced by worldwide economic, financial and market conditions. Any financial turmoil, especially in the United States of America or Europe, may have a negative impact on the Indian economy. Although economic conditions differ in each country, investors’ reactions to any significant developments in one country can have adverse effects on the financial and market conditions in other countries. A loss in investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets. The global financial turmoil, an outcome of the sub-prime mortgage crisis which originated in the United States of America, led to a loss of investor confidence in worldwide financial markets. Indian financial markets have also experienced the contagion affect of the global financial turmoil, evident from the sharp decline in SENSEX, NSE benchmark index. Any prolonged financial crisis may have an adverse impact on the Indian economy and us, thereby resulting in a material and adverse effect on our business, operations, financial condition, profitability and price of our Equity Shares.

49. Natural calamities could have a negative impact on the Indian economy and cause Our Company’s business to suffer.

India has experienced natural calamities such as earthquakes, tsunami, floods etc. In recent years, the extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

50. Government regulation of foreign ownership of Indian securities may have an adverse effect on the price of the Equity Shares.

Foreign ownership of Indian securities is subject to government regulation. Under foreign exchange regulations currently in affect in India, transfer of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the rupees proceeds from the sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the Income Tax authorities. There can be no assurance that any approval required from the RBI or any other government agency can be obtained.

51. Our performance is linked to the stability of policies and the political situation in India.

The Government of India has traditionally exercised, and continues to exercise, a significant influence over many aspects of the economy. Our business, and the market price and liquidity of our Equity Shares, may be affected by interest rates, changes in government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. Any political instability in India may adversely affect the Indian securities markets in general, which could also adversely affect the trading price of our Equity Shares. Any political instability could delay the reform of the Indian economy and could have a material adverse effect on the market for our Equity Shares. There can be no assurance to the investors that these liberalization policies will continue

under the newly elected government. Protests against privatization could slow down the pace of liberalization and deregulation. The rate of economic liberalization could change, and specific laws and policies affecting companies in the industrial equipment manufacturing sectors, foreign investment, currency exchange rates and other matters affecting investment in our securities could change as well. A significant change in India's economic liberalization and deregulation policies could disrupt business and economic conditions in India and thereby affect our business.

Illustration of the Book Building and Price Discovery Process: Bidders should note that this example is solely for illustrative purposes and is not specific to the Offer; it also excludes Bidding by Anchor Investors. Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹20 to ₹ 24 per share, Offer size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Offer the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The Issuer, in consultation with the BRLM, may finalise the Offer Price at or below such Cut-Off Price, i.e., at or below ₹ 22.00. All Bids at or above this Offer Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

ANNEXURE TO THE STATEMENT OF SPECIAL TAX BENEFITS

The information provided below sets out the special tax benefits available to the Company and the Equity Shareholders under the Income Tax Act, 1961 presently in force in India. It is not exhaustive or comprehensive and is not intended to be a substitute for professional advice. Investors are advised to consult their own tax consultant with respect to the tax implications of an investment in Equity Shares particularly in view of the fact that certain recently enacted legislation may not have a direct legal precedent or may have a different interpretation on the benefits, which an investor can avail.

A. SPECIAL DIRECT AND INDIRECT TAX BENEFITS TO THE COMPANY:

Under the Income Tax Act, 1961 (“the Act”)

Special tax benefits available to the Company

- The Company is not entitled to any special tax benefits under the Income Tax Act, 1961 and GST Act.

B. SPECIAL DIRECT AND INDIRECT TAX BENEFITS TO THE SHAREHOLDERS:

- The Shareholders of the Company are not entitled to any special tax benefits under the Income Tax Act, 1961 and GST Act.

NOTES:

1. The above Annexure of special tax benefits sets out the provisions of Tax Laws in a summary manner only and is not a complete analysis or listing of all potential tax consequences of the purchase, ownership and disposal of shares.
2. The above Annexure covers only the special tax benefits under the Act, read with the relevant rules, circulars and notifications and does not cover any benefit under any other law in force in India. This Annexure also does not discuss any tax consequences, in the country outside India, of an investment in the shares of an Indian company.
3. The above Annexure of special tax benefits is as per the current direct tax laws relevant for the assessment year 2023-24. Several of these benefits are dependent on the Company or its shareholders fulfilling the conditions prescribed under the relevant provisions of the Tax Laws.

The CBDT has further issued Circular 29/2019 dated October 02, 2019 clarifying that since the MAT provisions under Section 115JB itself would not apply where a domestic company exercises option of lower tax rate under Section 115BAA, MAT credit would not be available.

In view of the individual nature of tax consequences, each investor is advised to consult his or her tax advisor with respect to specific tax consequences of his/her investment in the shares of the Company.

SECTION V – ABOUT THE COMPANY

INDUSTRY OVERVIEW

The information contained in this section has been obtained or derived from the report titled “*Dental Materials Market*” dated April 08, 2023 prepared by Marketysers Global Consulting LLP (“Marketysers Report”). Neither we, nor any other person connected with the Offer has independently verified this information. Industry sources and the publications generally state that the information contained therein has been obtained from sources generally believed to be reliable, but their accuracy, completeness and underlying assumptions are not guaranteed and their reliability cannot be assured. Industry publications are also prepared based on information as of specific dates and may no longer be current or reflect current trends. The Report shall not be construed as comprehensive evaluation of the industry, the Company or the Equity Shares. For further details and risks in relation to commissioned report, see “*Risk Factors — We have relied on a third party industry report which has been used for industry related data in this Draft Red Herring Prospectus and such data have not been independently verified by us*” on page 37 of this Draft Red Herring Prospectus.

ECONOMIC OVERVIEW: GLOBAL

Global growth is projected to fall from an estimated 3.4 percent in 2022 to 2.9 percent in 2023, then rise to 3.1 percent in 2024. The forecast for 2023 is 0.2 percentage point higher than predicted in the October 2022 World Economic Outlook (WEO) but below the historical (2000–19) average of 3.8 percent. The rise in central bank rates to fight inflation and Russia’s war in Ukraine continue to weigh on economic activity. The rapid spread of COVID-19 in China dampened growth in 2022, but the recent reopening has paved the way for a faster-than-expected recovery. Global inflation is expected to fall from 8.8 percent in 2022 to 6.6 percent in 2023 and 4.3 percent in 2024, still above pre-pandemic (2017–19) levels of about 3.5 percent.

The balance of risks remains tilted to the downside, but adverse risks have moderated since the October 2022 WEO. On the upside, a stronger boost from pent-up demand in numerous economies or a faster fall in inflation are plausible. On the downside, severe health outcomes in China could hold back the recovery, Russia’s war in Ukraine could escalate, and tighter global financing costs could worsen debt distress. Financial markets could also suddenly reprice in response to adverse inflation news, while further geopolitical fragmentation could hamper economic progress.

In most economies, amid the cost-of-living crisis, the priority remains achieving sustained disinflation. With tighter monetary conditions and lower growth potentially affecting financial and debt stability, it is necessary to deploy macroprudential tools and strengthen debt restructuring frameworks. Accelerating COVID-19 vaccinations in China would safeguard the recovery, with positive cross-border spillovers. Fiscal support should be better targeted at those most affected by elevated food and energy prices, and broad-based fiscal relief measures should be withdrawn. Stronger multilateral cooperation is essential to preserve the gains from the rules-based multilateral system and to mitigate climate change by limiting emissions and raising green investment.

INDIAN ECONOMY OVERVIEW – GENERAL:

“Despite the global slowdown, India’s economic growth rate is stronger than in many peer economies and reflects relatively robust domestic consumption and lesser dependence on global demand,” said ADB Country Director for India Takeo Konishi. “The Government of India’s strong infrastructure push under the Prime Minister’s Gati Shakti (National Master Plan for Multimodal Connectivity) initiative, logistics development, and industrial corridor development will contribute significantly to raising industrial competitiveness and boosting future growth.”

Inflation will likely moderate to 5% in FY2023, assuming moderation in oil and food prices, and slow further to 4.5% in FY2024 as inflationary pressures subside. In tandem, monetary policy in FY2023 is expected to be tighter as core inflation persists, while becoming more accommodative in FY2024. The current account deficit is projected to decline to 2.2% of GDP in FY2023 and 1.9% in FY2024. Growth in goods exports is forecast to moderate in FY2023 before improving in 2024, as production-linked incentive schemes and efforts to improve the business environment, such as streamlined labor regulations, improve performance in electronics and other areas of manufacturing growth. Services exports growth has been robust and is expected to continue to strengthen India’s overall balance of payments position.

Formally recognised as part of the chronic non-communicable disease burden by the United Nations (UN).

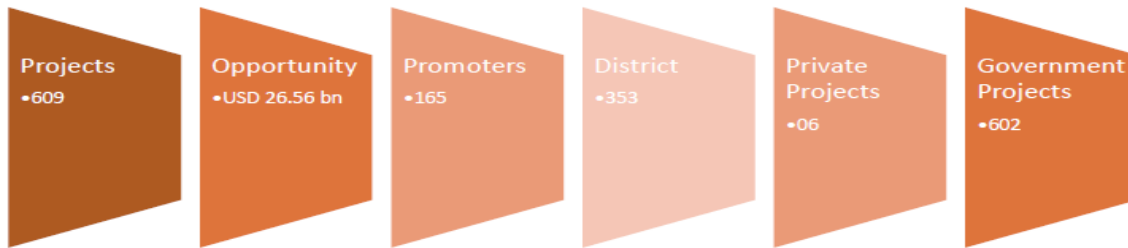

- According to the latest statistics from the World Health Organization (WHO), the global number of dentists is over 1.6 million.

INVESTMENT OPPORTUNITIES IN HEALTHCARE (MARCH 2023)

INVESTMENT OPPORTUNITIES IN HOSPITAL/MEDICAL INFRASTRUCTURE

India's hospital industry is experiencing significant interest from investors, both domestic and international. The government's intention to increase public health spending to 2.5% of the country's GDP by 2025 is expected to be advantageous for the hospital sector. The Indian Investment Grid (IIG), which is a platform managed by Invest India for displaying investment opportunities by sector, has almost 600 investment possibilities in the hospital/medical infrastructure sub-sector valued at USD 32 billion (INR 2.3 lakh crore).

GOVERNMENT POLICIES IN THE DENTAL INDUSTRY

The Indian government has implemented several public health initiatives, including the National Digital Health Mission, the Pradhan Mantri Jan Arogya Yojna, Ayushman Bharat-Health & Wellness Clinics, and the National Health Agency but there is still much work to be done in the area of dental and oral health. The administration continues to wrestle with the Dental Council of India (DCI) and the proposed Dental Commission of India bill that is now on the Parliament on the regulatory front as well. In India, unlike the majority of western nations, specialized dental insurance coverage are uncommon. The Indian Dental Association has been working to develop new, all-inclusive insurance program for oral and dental health care.

INDUSTRY OVERVIEW: DENTAL CARE INDUSTRY OVERVIEW

INDIAN DENTAL CARE INDUSTRY OVERVIEW

Certain demographic and epidemiological changes are expected to increase healthcare demand while also influencing the types of health services required in the future. One such development is increased income, which can result in roughly 73 million Indian households entering the middle class over the next ten years, encouraging their purchasing power, especially in healthcare.

By 2026, it is expected that 8% of Indians will earn more than USD 12,000 per year. Another noteworthy trend is the rise in life expectancy and the ageing of the population. India's life expectancy is expected to exceed 70 years by 2022, while the country's population is expected to grow to 1.45 billion by 2028, making it the world's most populous country.

While India has the largest population of youth of any country in the world, the number of senior citizens (those aged 60 and more) is also increasing. In fact, it is predicted that by 2041, the proportion of senior citizens in India's population will have doubled, from 8.6% in 2011. India is anticipated to have 300 million senior persons by the year 2050.

The Indian dental industry consists mainly of independent clinics operated by individual dentists. However, there has been a recent emergence of dental specialty chains in major cities of India, which are often supported by venture capital or private equity funding. These chains have contributed significantly to the growth of the industry by promoting the use of advanced, high-quality tools, fittings, and equipment. Indian companies primarily focus on the production of clinical disposables, instruments, disinfectant tools, sterilizing equipment, impression materials, and temporary materials for tooth filling.

The high-end segment of the market, such as dental implants, fittings, and prosthetics, is mainly dominated by foreign players with local presence in India, although many Indian companies also manufacture under license for foreign manufacturers while simultaneously engaging in trade and importing activities. Currently, there are around 5,000 dental laboratories and 300 dental institutes providing basic and advanced oral health care. As the number of dental chains increases, the organized dental clinics' share is expected to grow across the country.

TECHNOLOGICAL ADVANCEMENTS IN DENTISTRY

The development of new dental technologies, such as digital scanning, 3D printing, and laser dentistry, has increased the demand for high-quality and innovative dental materials.

Technological advancements in dentistry have led to the development of new materials that offer improved performance, biocompatibility, and aesthetics.

Technological advancements in dentistry have also led to the development of new materials that can be used in regenerative dentistry.

Technological advancements in dentistry have also led to the development of materials that can be used in preventive dental care.

3D printing has created opportunities for the development of new materials that can be used to create patient-specific dental implants, while laser dentistry has led to the development of materials that can be used in minimally invasive dental procedures.

Advancements in resin composite materials have resulted in materials that offer improved strength, wear resistance, and esthetics, making them an attractive alternative to traditional amalgam fillings. Similarly, advancements in ceramic materials have resulted in materials that offer improved translucency and strength, making them an attractive option for dental restorations such as crowns and veneers.

DEVELOPMENT OF INNOVATIVE MATERIALS

The development of innovative materials can differentiate dental practices and laboratories from their competitors. Dental professionals who offer the latest materials and technologies can attract new patients who are looking for advanced treatment options.

The development of innovative materials can open up new applications in the dental industry. For example, the use of new materials in regenerative dentistry can provide opportunities for the development of new treatments for damaged dental tissues.

Innovative materials can improve patient outcomes by providing better aesthetic results, reducing the risk of complications, and improving overall patient satisfaction. Materials that are biocompatible, longlasting, and easy to use can help dental professionals achieve better clinical outcomes and provide a higher standard of care.

ADOPTION OF IMPLANT DENTISTRY

Implant dentistry refers to the placement of artificial tooth roots, usually made of titanium or ceramic, into the jawbone to support dental restorations such as crowns, bridges, or dentures. This practice has become increasingly popular in recent years due to its high success rate and long-term benefits for patients.

GROWING DENTAL EDUCATION SECTOR

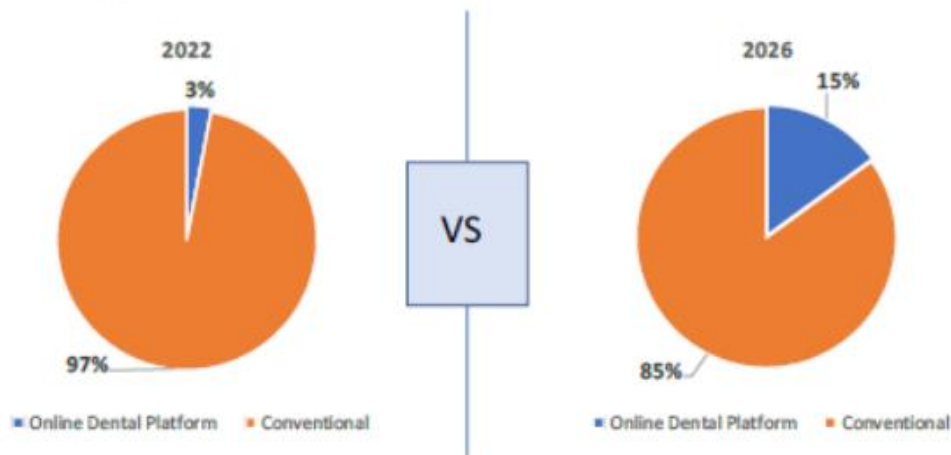

The growing dental education sector presents an opportunity for the dental materials market in several ways. Dental education involves training future dentists, dental assistants, hygienists, and other professionals in the field of dentistry. As dental education continues to expand, there is an increasing demand for dental materials that can be used for educational purposes.

One way that the dental materials market can benefit from the growing dental education sector is by providing materials for use in dental laboratories and clinics where students can practice their skills. These materials could include dental composites, bonding agents, impression materials, and restorative materials. Dental schools and training programs may also require specific materials for students to use during their training, such as materials with specific properties that mimic natural teeth.

Moreover, as the dental education sector grows, there is also a need for research into dental materials and techniques, which presents another opportunity for the dental materials market. Companies that manufacture dental materials can partner with dental schools and research institutions to develop and test new materials and techniques that can improve patient outcomes.

Another way that the dental materials market can benefit from the growing dental education sector is by developing educational materials that can be used to train dental professionals. These materials could include textbooks, e-learning courses, and other educational resources that cover topics such as the properties of different materials, the proper use of materials, and best practices for dental restorations.

RISING PREVALENCE OF DENTAL DISORDERS IN INDIA

- According to a study conducted by the National Center for Biotechnology Information (NCBI) in 2021, the research included 13,662 adult participants in total. Whole tooth mortality, defined as the loss of all 32 teeth, was found to be 10.7%, whereas partial tooth mortality, defined as the presence of one or more teeth, was found to be 58.8%.
- Growing prevalence of tooth loss in India, is generating a significant demand for dental implant materials such as titanium alloys, zirconia, and ceramic materials. This has created an opportunity for manufacturers of dental implant materials to expand their presence in the Indian market and to develop products specifically for the Indian population.
- Prevalence of oral diseases has significantly increased in India over the years. According to the India Oral Health Profile published by the World Health Organization (WHO) in November 2022, the prevalence of untreated caries of deciduous teeth in children between 1-9 years was 43.3%, while that of permanent teeth in children over the age of 5 was 28.8% Prevalence of severe periodontal disease and edentulism in individuals over 15 and 20 years of age are 21.8% and 4.0% respectively.
- Dental disorders are becoming increasingly common in India, with a large proportion of the population experiencing issues such as tooth decay, gum disease, and tooth loss. This has created a growing demand for dental materials such as composites, cements, and ceramics, which are used in restorative and prosthodontic procedures.
- According to the National Statistical Office (NSO)'s Report, India's elderly population (aged 60 and above) is projected to touch 194 million in 2031 from 138 million in 2021, a 41 per cent increase over a decade. As people age, they are more likely to experience dental issues such as tooth loss, periodontitis, and oral cancer. This has led to an increase in demand for dental consumables, equipment and instrument that can be used in restorative and prosthodontic and other procedures for older adults.

Transactions in foreign currencies entered into by the Company are accounted at the exchange rates prevailing on the date of the transaction or at rates that closely approximate the rate at the date of the transaction.

Measurement of foreign currency monetary items at the Balance Sheet date

"Foreign currency monetary items (other than derivative contracts) of the Company outstanding at the Balance Sheet date are restated at the year-end rates.

Exchange differences arising out of these translations are charged to the Statement of Profit and Loss."

2.13 Investments

Long-term investments are carried individually at cost less provision for diminution, other than temporary, in the value of such investments. Current investments are carried individually, at the lower of cost and fair value. Cost of investments include acquisition charges such as brokerage, fees and duties.

2.14 Borrowing costs

"Borrowing costs include interest, Amortisation of ancillary costs incurred and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Costs in connection with the borrowing of funds to the extent not directly related to the acquisition of qualifying assets are charged to the Statement of Profit and Loss over the tenure of the loan. Borrowing costs, allocated to and utilised for qualifying assets, pertaining to the period from commencement of activities relating to construction / development of the qualifying asset up to the date of Capitalisation of such asset is added to the cost of the assets.

Borrowing cost attributable to the fixed assets during construction/ exploration, renovation and modernization are capitalized. Such borrowing costs are apportioned on the average balance of capital work in progress for the year. Other borrowing costs are recognized as an expense in the period in which they are incurred."

2.15 Segment reporting

The Company identifies primary segments based on the dominant source, nature of risks and returns and the internal organisation and management structure. The operating segments are the segments for which separate financial information is available and for which operating profit/loss amounts are evaluated regularly by the executive

2.16 Taxes on income

"Tax expense comprises current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with Income Tax Act, 1961. Deferred income tax reflects the impact of current year timing differences between taxable income that originates in one period and are capable of reversal in one or more subsequent periods

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay

normal income tax. Accordingly, MAT is recognised as an asset in the Balance Sheet when it is probable that future economic benefit associated with it will flow to the Company.

Deferred tax is recognised on timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws enacted or substantially enacted as at the reporting date. Deferred tax liabilities are recognised for all timing differences. Deferred tax assets in respect of unabsorbed depreciation and carry forward of losses are recognised only if there is virtual certainty that there will be sufficient future taxable income available to realise such assets. Deferred tax assets are recognised for timing differences of other items only to the extent that reasonable certainty exists that sufficient future taxable income will be available against which these can be realised. Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the Company has a legally enforceable right for such set off. Deferred tax assets are reviewed at each Balance Sheet date for their realisability."

2.17 Impairment of assets

The carrying values of assets / cash generating units are reviewed at each Balance Sheet date for impairment. If any indication of impairment exists, the recoverable amount of such assets is estimated and impairment is recognised if the carrying amount of these assets exceeds their recoverable amount. The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor. When there is indication that an impairment loss recognised for an asset in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognised in the Statement of Profit and Loss.

2.18 Provisions and contingencies

"A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates.

A contingent liability is disclosed where, as a result of past events, there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made."

2.19 Leases

a) Finance lease

- i. Assets taken on finance lease are capitalised at fair value or net present value of the minimum lease payments, whichever is less.
- ii. Lease payments are apportioned between the finance charges and outstanding liability in respect of assets taken on lease.

b) Operating lease

- i. Leases, where the lessor effectively retains substantially all the risks and benefits of ownership of the leased term are classified as operating lease. Lease rent are recognized as an expense in the Statement of Profit and Loss on a straight line basis over the lease term.

2.20 Earning per share

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Partly paid equity shares are treated as a fraction of an equity share to the extent that they were entitled to participate in dividends relative to a fully paid equity share during the reporting year. For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

29. Employee benefit Plan

(A) Defined benefit Plan

The defined benefit plan operated by the Company is as below:

Retiring gratuity

The Company has an obligation towards gratuity, a defined benefit retirement plan covering eligible employees. The plan provides for a lump-sum payment to vested employees at retirement, death while in employment or on termination of employment of an amount equivalent to 15 to 30 days salary payable for each completed year of service. Vesting occurs upon completion of five years of service. The Company does not make any contributions to gratuity funds and the plan is unfunded. The Company accounts for the liability for gratuity benefits payable in the future based on an actuarial valuation.

The defined benefit plans expose the Company to a number of actuarial risks as below:

- (a) **Interest risk:** A decrease in the bond interest rate will increase the plan liability.
- (b) **Salary risk:** The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.
- (c) **Longevity risk:** The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants. An increase in the life expectancy of the plan participants will increase the plan's liability.

The following table sets out the amounts recognised in the financial statements in respect of retiring gratuity plan:

Phased implementation of Unified Payments Interface

SEBI has issued a circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018 and circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019 circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 June 28, 2019, circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019 and circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 08, 2019 (collectively the “UPI Circulars”) in relation to streamlining the process of public issue of equity shares and convertibles. Pursuant to the UPI Circulars, UPI will be introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under the ASBA) for applications by RIBs through intermediaries with the objective to reduce the time duration from public issue closure to listing from six working days to up to three working days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI Mechanism, the UPI Circular proposes to introduce and implement the UPI Mechanism in three phases in the following manner:

Phase I: This phase has become applicable from January 1, 2019 until March 31, 2019 or floating of five main board public issues, whichever is later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, a Retail Individual Bidder had the option to submit the Bid cum Application Form with any of the intermediary and use his / her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six Working Days.

Phase II: This phase has become applicable from July 1, 2019 and was to initially continue for a period of three months or floating of five main board public issues, whichever is later. Subsequently, it was decided to extend the timeline for implementation of Phase II until March 31, 2020. Further, as per SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, the current Phase II of Unified Payments Interface with Application Supported by Blocked Amount is continued till further notice. Under this phase, submission of the ASBA Form by RIIs through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds will be discontinued and will be replaced by the UPI payment mechanism. However, the time duration from public issue closure to listing continues to be six Working Days during this phase.

Phase III: The commencement period of Phase III is yet to be notified. In this phase, the time duration from public issue closure to listing is proposed to be reduced to three Working Days.

All SCSBs offering facility of making application in public issues shall also provide facility to make application using the UPI Mechanism. The Issuers will be required to appoint one of the SCSBs as a sponsor bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the Retail Individual Bidders into the UPI mechanism.

Illustration of the Book Building and Price Discovery Process: Bidders should note that this example is solely for illustrative purposes and is not specific to the Offer; it also excludes Bidding by Anchor Investors. Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹20 to ₹ 24 per share, Offer size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Offer the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The Issuer, in consultation with the BRLM, may finalise the Offer Price at or below such Cut-Off Price, i.e., at or below ₹ 22.00. All Bids at or above this Offer Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and Foreign Exchange Management Act, 1999 ("FEMA"). While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the Reserve Bank of India ("RBI") and Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India ("DIPP").

The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the Consolidated Foreign Direct Investment Policy notified by the DPIIT File No. 5(2)/2020-FDI Policy dated October 15, 2020, with effect from October 15, 2020 (the "FDI Policy"), which consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT or the DPIIT that were in force and effect prior to October 15, 2020. The Government of India proposes to update the consolidated circular on FDI Policy once every year and therefore, the FDI Policy will be valid until the DPIIT issues an updated circular.

In terms of the FEMA NDI Rules, a person resident outside India may make investments into India, subject to certain terms and conditions, and provided that an entity of a country, which shares land border with India or the beneficial owner of an investment into India who is situated in or is a citizen of any such country, shall invest only with government approval.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that (i) the activities of the investee company are under the automatic route under the foreign direct investment policy and transfer does not attract the provisions of the Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI / RBI.

Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country ("Restricted Investors"), will require prior approval of the Government, as prescribed in the Consolidated FDI Policy and the FEMA Rules. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government. Furthermore, on April 22, 2020, the Ministry of Finance, Government of India has also made a similar amendment to the FEMA Rules. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank or fund in India. Each Bidder should seek independent legal advice about its ability to participate in the Offer. In the event such prior approval of the Government of India is required, and such approval has been obtained, the Bidder shall intimate our Company and the Registrar to the Offer in writing about such approval along with a copy thereof within the Offer Period.
