Such data involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those discussed in the section **‘Risk Factors’** on page 24. Accordingly, investors should not place undue reliance on, or base their investment decision on this information.

The extent to which the market and industry data used in this Prospectus is meaningful depends on the reader’s familiarity with and understanding of the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which business of our Company is conducted, and methodologies and assumptions may vary widely among different industry sources.

In accordance with the SEBI ICDR Regulations, **“Basis for Issue Price”**, beginning on page 84 includes information relating to our peer group companies. Such information has been derived from publicly available sources. No investment decision should be made solely on the basis of such information.

Currency of Financial Presentation

All references to “Rupees” or “INR” or “₹” or “Rs.” are to Indian Rupees, the official currency of the Republic of India. Except where specified, including in the section titled **“Industry Overview”** throughout the Prospectus all figures have been expressed in Lakhs.

Any percentage amounts, as set forth in **“Risk Factors”**, **“Our Business”**, **“Management’s Discussion and Analysis of Financial Conditions and Results of Operations”** on page 24, 94 and 240 of this Prospectus, unless otherwise indicated, have been calculated based on our restated respectively financial statement prepared in accordance with Indian GAAP.

The Prospectus contains conversion of certain US Dollar and other currency amounts into Indian Rupees that have been presented solely to comply with the requirements of the SEBI (ICDR) Regulations, 2018. These conversions should not be construed as a representation that those US Dollar or other currency amounts could have been, or can be converted into Indian Rupees, at any particular rate.

FORWARD LOOKING STATEMENTS

This Prospectus includes certain “forward-looking statements”. We have included statements in the Prospectus which contain words or phrases such as “will”, “aim”, “is likely to result”, “believe”, “expect”, “will continue”, “anticipate”, “estimate”, “intend”, “plan”, “contemplate”, “seek to”, “future”, “objective”, “goal”, “project”, “should”, “will pursue” and similar expressions or variations of such expressions, that are “forward-looking statements”. Also, statements which describe our strategies, objectives, plans or goals are also forward looking statements.

All forward looking statements are subject to risks, uncertainties and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. Forward-looking statements reflect our current views with respect to future events and are not a guarantee of future performance. These statements are based on our management’s beliefs and assumptions, which in turn are based on currently available information. Although we believe the assumptions upon which these forward-looking statements are based are reasonable, any of these assumptions could prove to be inaccurate, and the forward-looking statements based on these assumptions could be incorrect. Important factors that could cause actual results to differ materially from our expectations include but are not limited to:

- General economic and business conditions in the markets in which we operate and in the local, regional, national and international economies;
- Changes in consumer demand and preferences;
- Failure to successfully upgrade our product portfolio, from time to time;
- Any change in government policies resulting in increases in taxes payable by us;
- Our ability to retain our key managements persons and other employees;
- Changes in laws and regulations that apply to the industries in which we operate.
- Our failure to keep pace with rapid changes in technology;
- Our ability to grow our business;
- Our ability to make interest and principal payments on our existing debt obligations and satisfy the other covenants contained in our existing debt agreements;
- General economic, political and other risks that are out of our control;
- Inflation, deflation, unanticipated turbulence in interest rates, equity prices or other rates or prices;
- Company’s ability to successfully implement its growth strategy and expansion plans;
- Failure to comply with regulations prescribed by authorities of the jurisdictions in which we operate;
- Inability to successfully obtain registrations in a timely manner or at all;
- Concentration of ownership among our Promoters;
- The performance of the financial markets in India and globally;
- Shortage of, and price increases in, materials and skilled and unskilled labour, and inflation in key supply market;

For further discussion of factors that could cause our actual results to differ, see the Section titled “*Risk Factors*”, “*Our Business*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” beginning on page 24, 94 and 240 respectively of the Prospectus. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated.

There can be no assurance to investors that the expectations reflected in these forward-looking statements will prove to be correct. Given these uncertainties, investors are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements to be a guarantee of our future performance.

Neither our Company, our Directors, our Officers, Lead Manager and Underwriter nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI requirements, our Company and the LM will ensure that investors in India are informed of material developments until such time as the grant of listing and trading permission by the Stock Exchange for the Equity Shares allotted pursuant to this Issue.

SECTION II – SUMMARY OF PROSPECTUS

A. OVERVIEW OF BUSINESS

We are engaged in the business of manufacturing and marketing of wide range of kitchen appliances under the brand name of Greenchef. Our kitchen appliances include wide range of value for money solutions comprising of Gas Stoves, Pressure Cookers, Mixer Grinders, Wet Grinders, Electric Rice Cooker, Induction Cooktops, Non-stick cookwares like: Tawa, Fry Pan, Kadai, Biryani Pot, Tadka Pan, Paniyarakkal, Appamchetty etc, Kettles, Hose Pipes, Gas Cylinder Trolley and Spin Mop. Further our company is also engaged in marketing of appliances like: Chimney, Stainless Steel Utensils, Blenders, Vegetable Chopper, Silicon Gasket, Water Bottles, Fans, Iron etc.

B. OVERVIEW OF INDUSTRY

The kitchen appliances industry in India is expected to grow at a CAGR of 8.7% during the period of 2022-2026 in terms of volumes. This industry is expected to grow due to increased technological advancements, cost and energy efficiency, leading to improved product awareness and a rise in demand from the tier-II and tier-III cities. This market has been growing well for the past few years and is expected to grow further based on the increasing consumer consumption trends and the rise in per capita income. Several stores were shut for several months during the COVID-19 lockdowns, resulting in a major drop in demand for kitchen home appliances.

SECTION III: RISK FACTORS

An investment in our Equity Shares involves financial risk. Prospective investors should carefully consider all the information in the Prospectus, particularly the **“Financial Information of the Company”** and the related notes, **“Our Business”** and **“Management’s Discussion and Analysis of Financial Condition and Results of Operations”** on page 193, 94 and 240 respectively of this Prospectus and the risks and uncertainties described below, before making a decision to invest in our Equity Shares.

The risk factors set forth below are not exhaustive and do not purport to be complete or comprehensive in terms of all the risk factors that may arise in connection with our business or any decision to purchase, own or dispose of the Equity Shares. This section addresses general risks associated with the industry in which we operate and specific risks associated with our Company. Any of the following risks, individually or together, could adversely affect our business, financial condition, results of operations or prospects, which could result in a decline in the value of our Equity Shares and the loss of all or part of your investment in our Equity Shares. While we have described the risks and uncertainties that our management believes are material, these risks and uncertainties may not be the only risks and uncertainties we face. Additional risks and uncertainties, including those we currently are not aware of or deem immaterial, may also have an adverse effect on our business, results of operations, financial condition and prospects.

This Prospectus contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Prospectus. The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors below. However, there are risk factors the potential effects of which are not quantifiable and therefore no quantification has been provided with respect to such risk factors. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of the Offer, including the merits and the risks involved. You should not invest in this Offer unless you are prepared to accept the risk of losing all or part of your investment, and you should consult your tax, financial and legal advisors about the particular consequences to you of an investment in our Equity Shares.

Materiality

The Risk factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality.

1. Some events may not be material individually but may be found material collectively.
2. Some events may have material impact qualitatively instead of quantitatively.
3. Some events may not be material at present but may be having material impact in future.

Note:

The risk factors as envisaged by the management along with the proposals to address the risk if any. Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial implication of any of the risks described in this section.

In this Prospectus, any discrepancies in any table between total and the sums of the amount listed are due to rounding off. Any percentage amounts, as set forth in **“Risk Factors”** on page 24 and **“Management Discussion and Analysis of Financial Condition and Results of Operations”** on page 240 of this Prospectus unless otherwise indicated, has been calculated on the basis of the amount disclosed in the **“Restated Financial Statements”**.

INTERNAL RISK

1. **We operate in highly competitive markets, and the scale and resources of some of our competitors may allow them to compete more effectively than we can, which could result in a loss of our market share and a decrease in our net revenues and profitability.**

The kitchen appliance industry is highly fragmented as there is competition from various domestic and international players. There are some of the big multinational brands like Haier, Bosch and Midea who are in competition to the domestic players. These domestic players include both - organised and unorganised players. The growth trajectory in kitchen appliances industry has encouraged new entrants to enter into this industry with new business models. In such highly competitive environment, to gain more market share the players are likely to reduce the pricing which is a challenge for the existing players. (Source: CareEdge Report).

We face intense competition from other retailers that market products similar to ours. We also face regional competition from local brands in the various geographies where our products are sold. We compete in various aspects, including brand recognition, value for money, user experience, breadth of product and service offerings, product functionality and quality, sales and distribution, supply chain management, customer loyalty, and talents, among others. Intensified competition may result in pricing pressures and reduced profitability and may impede our ability to achieve sustainable growth in our revenues or cause us to lose market share. Our competitors may also engage in aggressive and negative marketing or public relations strategies which may harm our reputation and increase our marketing expenses. Any of these events could substantially harm our results of operations.

Some of our existing and potential competitors enjoy substantial competitive advantages, including: longer operating history, the capability to leverage their sales efforts and marketing expenditures across a broader portfolio of products, more established relationships with a larger number of suppliers, contract manufacturers and channel partners, access to larger and broader user bases, greater brand recognition, greater financial, research and development, marketing, distribution and other resources, more resources to make investments and acquisitions, larger intellectual property portfolios, and the ability to bundle competitive offerings with other products and services. We cannot assure you that we will compete with them successfully.

2. *Our future success depends on our ability to promote our brand and protect our reputation. Our failure to establish and promote our brand and any damage to our reputation will hinder our growth.*

We believe that the market perception of our brands is one of the key factors for the sustained demand of our products amongst consumers. We engage in a wide range of marketing and advertising activities, including in-shop displays, banners & hoardings like: advertisements on flex boards, mdf display boards, backlit boards, glow sign boards, ACP boards, flange glowing boards etc, social media marketing, arch installations, road show marketing, advertisements in theatres, newspapers, TV channels, bus shelter branding, try cycle campaign etc which enable us to maintain the popularity and recall the brand value. We also maintain an in-house team of 164 sales and marketing personnel who continuously engage with various publications and advertisement agencies. We believe our strategy to enhance our brand recognition is crucial to our future success. We have invested, and will need to continue to dedicate, significant time, efforts and resources to advertising and market promotion initiatives. Our marketing/advertising expenses were Rs 517.10 lakhs, Rs 967.69 lakhs, Rs 512.71 lakhs and Rs 660.29 lakhs respectively for the period ended December 31, 2022 and Fiscal Year 2022, 2021, 2020, representing 2.03%, 2.88%, 2.15% and 2.78% respectively of our total revenue from operations. We may need to devote an even greater portion of our resources to continue to strengthen our brand recognition and build our user base, which may impact our profitability. We cannot guarantee that our marketing efforts will ultimately be successful, as it is affected by numerous factors, including the effectiveness of our marketing campaigns, our ability to provide consistent, high quality products and services, consumers' satisfaction with our products, as well as supports and services we provide, among others.

We list our products on various e-commerce websites and our customers are increasingly using such platforms to provide feedback and information about products, in a manner that can be quickly and broadly disseminated. Our brands could be damaged by any negative publicity on social media platforms or by claims or perceptions about the quality or safety of the products sold, regardless of whether such claims or perceptions are true. Any such negative publicity related to our brand, products, manufacturing malfunction, suppliers, distributors could have an adverse impact on our brand, which may negatively affect our business and can significantly reduce our brand value and consumer trust.

We believe that a large part of the success of our brands is attributable to the after sales services provided by our service technicians and, authorized service providers and any deficiency in such after sales services may adversely impact the reputation of our brands. Further, we may not be able to collect customer feedback in an adequate or frequent manner, or implement it effectively to improve our products and services, which may adversely impact the development of products in the future for new product and market segments.

3. *If we fail to successfully develop and commercialize new products, services and technologies that are well received by consumers in a timely manner, our operating results may be materially and adversely affected.*

The Indian Government has taken several initiatives to augment the growth of the kitchen appliances sector. Some of these initiatives are Make in India Initiative, Pradhan Mantri Ujjwala Yojana (PMUY), Deen Dayal Upadhyaya Gram Jyoti Yojana, Pradhan Mantri Sahaj Bijli Har Ghar Yojana – Saubhagya Scheme – Rural Electrification, National Policy on Electronics Policy. These initiatives and policies are expected to augment the growth of kitchen appliance sector. (Source: CareEdge Report). Our ability to compete successfully depends in large part on our ability to continue to introduce new and innovative products, services and technologies that are well received by consumers and in a timely manner, and in turn, grow our household user base.

Our ability to roll out new and innovative products and services depends on a number of factors, including significant investments in research and development, quality control of our products and services and effective management of our supply chain. The execution of such initiatives can be complex and costly. As such, we could experience delays in completing the development and introduction of new products, services and technologies in the future. We may need to devote an even greater portion of our resources to the research and development of new or enhanced products, services and technologies, which may adversely affect our profitability. In addition, our research and development efforts may not yield the benefits we expect to achieve in a timely manner, or at all. To the extent we are unable to execute our strategy of continuously introducing new and innovative products, diversifying our product portfolio and satisfying consumers' changing preferences, we may not be able to grow our household user base and our competitive position.

Further our expansion into new product categories and scenarios, and substantial increases in product lines may expose us to new challenges and more risks. Our potential lack of familiarity with new products and scenarios and the lack of relevant customer data relating to these products may make it more difficult for us to anticipate user demand and preferences. Our new products may turn out to be mutually disruptive and may cause an interruption to our business as a result.

We may misjudge market demand, resulting in inventory build-up and possible inventory write-downs. We may not be able to effectively control our costs and expenses in rolling out these new product categories and scenarios. We may have certain quality issues and experience higher return rates on new products, receive more customer complaints and face costly product liability claims, such as injury allegedly or actually caused by our products, which would harm our brand and reputation as well as our financial performance.

Furthermore, we may need to price our new products more aggressively to penetrate new markets, and gain market share or remain competitive. It may be difficult for us to achieve profitability in the new product categories and our profit margin, if any, may be lower than we anticipate, which would adversely affect our overall profitability and results of operations.

4. *We are highly dependent on certain key customers for a substantial portion of our revenues. Loss of relationship with any of these customers may have a material adverse effect on our profitability and results of operations.*

We depend on certain customers who have contributed to a substantial portion of our total revenues. Our top 10 customers accounted, cumulatively, for 36.24%, 26.56%, 28.91% and 32.24% of our revenue from operations for the nine months period ended on December 31, 2022 and in Fiscals 2022, 2021 and 2020 respectively. There is no guarantee that we will retain the business of our existing key customers or maintain the current level of business with each of these customers.

Reliance on a limited number of customers for significant revenue may generally involve several risks. These risks may include, but are not limited to, reduction, delay or cancellation of orders from our significant customers, failure to renegotiate favourable terms with our key customers, the loss of these customers entirely, our inability to meet the expectations to track the changing preferences of our customers or non-acceptance of our products by customers, all of which would have a material adverse effect on the business, financial condition, results of operations and future prospects of our Company. In order to retain some of our existing customers we may also be required to accept terms to such customers which we may place restraints on our resources.

Maintaining strong relationships with our key customers is, therefore, essential to sustain the growth of our business. The loss of any key customer, may significantly affect our revenues, and we may have difficulty securing comparable levels of business from other customers to offset any consequent loss.

5. *We are susceptible to supply shortages and interruptions, long lead times, and price fluctuations for raw materials and components, any of which could disrupt our supply chain and have a material adverse impact on our results of operations.*

Our product portfolio includes various product categories and product lines. Mass production of our products requires timely and adequate supply of various types of raw materials and components. Some of the major components and all the raw materials used to produce our products are sourced from third-party suppliers and some of these components and raw materials are sourced from a limited number of suppliers or a single supplier as well. Therefore, we are subject to risks of shortages or discontinuation in supply, long lead times, cost increases and quality control issues with our suppliers. In addition, some of our suppliers may have more established relationships with our competitors, and as a result of these relationships, such suppliers may choose to limit or terminate their relationships with us or prioritize our competitors' orders in the case of supply shortages. The quality of our products is primarily derived from the quality of our raw materials, and any deterioration in the quality of raw materials supplied to us will have an adverse effect on the quality of our products, market reputation and sales volumes. There can be no guarantee that we will be able to maintain our current line-up of suppliers or adequate supply of such raw materials at all times. Our top 10 suppliers for the stub period ended

on December 31, 2022 and Fiscals 2022, 2021 and 2020 accounted for 43.62%, 32.46%, 54.41% and 39% of our purchases for raw materials and stock in trade for respective years.

The major raw materials required in manufacturing activities include metals like aluminium, steel and copper. The prices of these raw materials are volatile and subject to fluctuations arising from changes in domestic and international supply and demand dynamics, labour costs, competition, market speculation, and government regulations. Rapid changes in the prices of such raw materials may affect the production price and consequently the market price of these products. While some materials like steel or plastics are common to many product types, others are mainly associated with very specific products and functionalities. The year 2021-22 provided many challenges. The second wave of the pandemic and the resultant lock-down disrupted operations and dampened market sentiment. The Russia- Ukraine war led to supply chain imbalances and a surge in prices of fuels, raw materials and commodities. Prices of inputs such as steel, aluminium, have also spiked at its peak due to the ongoing geopolitical tensions. Though, the commodity prices have softened now but players continue to hike price to recover earlier surges in raw materials. Nonetheless, with the prices of inputs such as steel, aluminium, declining gradually, the industry's profitability is expected to improve going forward. But the industry still faces the threat of spiraling inflation and increasing financing rates (Source: CareEdge Report)

Moreover we also import components like: Toughened Glass, Gas Cock / Gas Valve, PCB, sensors, heating coil, heating plate, Lever Assembly, Heating Element, Temperature Controller, Connecting Wire, Clamp, glass lid etc. In the event of a discontinuation or closure of the foreign suppliers for these components, we may not be able to source identical ones from local sources which may lead to increase in production costs and consequently affect the pricing of our products.

For the period ended on December 31, 2022 and for the Fiscal 2022, 2021 and 2020 the raw material consumption constitutes 52.22%, 56.21%, 55.11% and 41.09% of our revenue from operations. We may be unable to pass the entire impact of the rise in the prices of raw materials to our customers, which may result in lower profit margins for our business. Further, any increase in the selling price of our products may adversely impact the demand for our products, our sales and consequently our profit margins. In the event of a component or raw material shortage or supply interruption from suppliers, we will need to identify alternative sources of supply, which can be time-consuming, difficult to locate, and costly. We may not be able to source these components or raw materials on terms that are acceptable to us, or at all, which may undermine our ability to meet our production requirements or to fill customer orders in a timely manner. This could cause delays in shipment of our products, harm our relationships with our customers and adversely affect our results of operations.

6. *We are significantly dependent on the sale of our two product verticals viz: Gas Stoves and Pressure Cookers. An inability to anticipate or adapt to evolving upgradation of these products or inability to ensure product quality or reduction in the demand of these products may adversely impact our revenue from operations and growth prospects.*

Our financial performance is significantly dependent on the sale of our two product verticals viz: Gas Stoves and Pressure Cookers. For the stub period ended on December 31, 2022 and Fiscals 2022, 2021 and 2020 our revenue from sales of Gas Stoves represented 36.72%, 41.63%, 36.56% and 41.65% of our revenue from operations respectively and that from the sale of Pressure Cookers represented 18.29%, 14.06%, 12.09% and 11.18% of our revenue from operations respectively. Amongst our competitors, we are hold 5.44% market share in the Gas Stove product category and 2.08% market share in the Pressure Cooker product category (Source: CareEdge Report). We cannot assure you that we will increase our market share in the future for these products. Demand for these products depends primarily on our ability to maintain and upgrade our product quality and features, consumer preferences and market trends. In addition, our company must successfully compete with our competitors offering similar products. We may not be able to introduce new product that are in faster-growing and more profitable categories. Any of these factors could have a material adverse impact on our financial condition and the results of operations. We cannot assure you that we will be able to maintain historic levels of business from such significant appliances, or that we will be able to significantly reduce our dependence on such limited number of appliances in the future. We may also be required to invest in updated technology and processes to develop upgraded product having the desired specification, qualities and characteristics, and continually monitor and adapt to evolving demand in the industry.

7. *The markets in which we compete are characterized by consumers and their rapidly changing preferences, advancement in technology and therefore as a result our Company may be affected by any disruptions in the industry.*

We are engaged in manufacturing of kitchen appliances that is majorly used by the household consumers other than its commercial applications. Thus the markets in which we compete are characterized by changing consumer preferences, rapidly changing technology, evolving industry standards and continuous improvements in products and services. These conditions frequently result in short product life cycles. If the end-user demand is low for our products, we may see significant changes in orders from our customers and may experience greater pricing pressures. If technologies or standards supported by us become obsolete or fail to gain widespread commercial acceptance, we may experience a

reduced demand for our products which may result in a decline in sales and in operating margins depending on the nature of the product and the end user demand and all of these combined may gradually result in a loss to our Business.

8. *Our business may be adversely impacted by product defects and liability issues which may adversely affect our business, reputation and results of operations.*

Product defects can occur throughout the designing or manufacturing processes or as a result of our reliance on third parties for components raw materials or job work. Any product defects or any other failure of our products or substandard product quality could harm our reputation and result in adverse publicity, lost revenues, delivery delays, product recalls, adverse relationships with distributors or C&F agents, product liability claims, administrative penalties, harm to our brand and reputation, significant warranty and other expenses, and could have a material adverse impact on our business, financial condition, operating results and prospects. While the warranty cost fluctuates every year, which is based on current events and actions, our warranty costs may exceed our estimates, resulting in increase of current period expenses.

Such quality issues may result in customers returning defective products to us for a cash refund or a replacement of their products during the warranty period of the products. Under our contracts with our distributors, in certain scenarios where there are numbers of products returned by end-consumers to the distributor, we may be required to buy back the remaining quantity of products at the predetermined price as per the contract. We cannot assure you that the rate and cost of us providing refunds or replacements will not increase in the future. Increases in the rate of product returns may lead to customer dissatisfaction, which may adversely affect our reputation, brand image, business and financial condition.

Disputes over warranties of our products can arise in the ordinary course of our business. In extreme situations, we may be exposed to various liabilities relating to potential personal injuries as a result of misuse or quality defects of the products we sell. We may experience material product liability losses, and we may be unable to defend these claims at a contained level of cost or at all. The cost of product replacements or product returns in the future may be substantial, particularly given our increasing product categories and models, and we could incur substantial costs to implement modifications or to fix defects in our products

Moreover, since our products combine hardware and electrical components, any glitches in such electrical components may intervene and disrupt our efforts to integrate our products in consumers' lifestyles. Any failure or defects that a consumer experiences in one product, can affect the other product lines and hamper our image. As a result, we may be impeding our business prospectus, results of operations and financial condition could be adversely affected.

9. *We are heavily reliant on our relationships with certain online marketplaces and offline distributors. Disruptions to such relationships, changes in their business practices, their failure to meet payment schedules and provide timely and accurate information, or conflicts among our channels of distribution could adversely affect our business, cash flows and results of operations.*

We are reliant on online market places through e-commerce platforms such as Flipkart India Private Limited, Jiomart, Bigbasket and Amazon Seller Services Private Limited for the sale of our products, and also have an extensive offline sales channel comprised of around 450 distributors with presence in 22 states and 3 union territories in India as of December 31, 2022. For the period ended on December 31, 2022 and for the Fiscal 2022, 2021 and 2020 our online sales from e-commerce platform constituted 18.91%, 16.19%, 8.87% and 1.24% of our revenue from operations respectively. For a few customers, under our terms and conditions with them, we are obligated to re-purchase or provide additional price support on products that are unsold after a certain period of time. We are also developing our revenue from sales to few modern retail chains such as DMART, Reliance Retail Limited, StarBazaar and for the period ended on December 31, 2022 and Fiscal 2022, 2021 and 2020 our revenue from these retail chains were Rs 275.26 lakhs, Rs 145.74 lakhs, Rs 5.77 lakhs and Rs 191.99 lakhs respectively.

We have not entered into long-term agreements with our distributors. Further, our distributors may unilaterally terminate their existing agreements with us at short notice, thereby adversely affecting our offline distribution network and consequently, our business, cash flows and results of operations may be affected.

We monitor the prices at which the online marketplaces sell our products to customers and which our distributors sell our products to retailers and in turn by retailers to customers. For instance, pursuant to our agreements with certain online marketplaces, we mutually agree on price ranges and discounts (wherever applicable) at which they are obligated to retail our products. We also have a dedicated resource monitor that monitors the prices of our products on the online marketplaces. This is to ensure that our products are not sold at a larger discount than that permitted by us. Such policies may impact inventory levels maintained by online marketplaces, our distributors or retailers. If our competitors offer online marketplaces, distributors and retailers more favourable terms or have more products available to meet their needs or utilize the leverage of broader product lines to be sold through them, these distributors and retailers may de-emphasize

or decline to distribute our products. Further, we cannot assure you that we will be able to secure promotions on online marketplaces, and our inability to do so may affect our brand visibility on these online marketplaces.

Purchase orders made by online marketplaces, distributors and retailers may also be amended or cancelled prior to finalization. Further, they have the right to verify and determine whether the products supplied by us are in accordance with the specifications stated in purchase orders. In the event the products are not as per the specifications of the purchase orders, the customers or distributors may reject the entire consignment at the time of the delivery. We are also responsible for collecting the damaged or defective products. In addition, the online retail channels of online marketplaces may be disrupted due to technological disruptions. Should such amendments, cancellations or disruptions occur, it may adversely impact our production schedules and inventories. Further, most of our distributors are not contractually bound to provide us with a specific volume of business and can terminate our relationship with or without cause, with little or no advance notice and without compensation. In addition, in certain possible scenarios, the online marketplaces or distributors may have the right to return the products to us, and in certain situations where there are a high number of returns, we may be required to re-purchase the entire quantity of products at the original price we sold them for. For certain of such contracts, the contract may be terminated by the relevant online marketplace, distributor or the retail chains if there are delays in the delivery of our products.

The online and the offline marketplaces could change their business practices, such as inventory levels, or seek to modify their contractual terms, such as payment terms. Due to temporary changes in the operations of our customers, we may experience delays in collecting payments from such parties. We may face the pressure to modify our trading terms if our customers are unable or unwilling to continue our distribution model.

We intend to maintain or further develop our existing relationships with our customers and continue to jointly promote our brands and products on their platforms. Due to increased collaboration and information sharing, such arrangements could render us more susceptible to the risks stated above. In order to expand the sales volume of our products, it is essential that we continue to expand the density as well as the geographical reach of our existing distribution network and ensure that our products reach every market segment and customer base. If we are unable to continue to expand our distribution network, our business, cash flows and results of operations may suffer.

10. We may not be able to optimally utilise our backward integration to enhance and support our business which may affect our operations, reputation and profitability.

We have the ability to manufacture some of the components in house for manufacturing our products. We believe the backward integration of our manufacturing facilities has reduced our dependence on third party suppliers for such components resulting greater control on the manufacturing process. Backward integration also provides upper edge in designing of products, enhanced quality of products and customer retention capability. We strive to manage captive manufacturing and assembly, quality testing, packaging and logistics support. In line with our focus to provide diversified products solutions and to develop better control on our supply chain and improve our margins, we intend to further focus on backward integration at our manufacturing facilities. Should there be any disruptions or malfunctions at any of our facilities as a result of which the components required for manufacturing the end products are not available on time, we may have to procure such components from third party suppliers which may not be available at short notice in the volume required by us, within the timelines required by us or at the rates favourable to us which may have an adverse effect on our profitability and results of operations. Such failure to procure quality components on time may also harm our reputation and cause us to lose market share.

11. Expansion into new geographic regions and markets may subject us to various challenges.

We intend to increase the sales and distribution of our products across India. At present, our maximum revenue is generated from southern region. For the period ended on December 31, 2022 and Fiscal 2022, 2021 and 2020 the revenue from top ten states constitutes 85.61%, 80.46%, 85.05% and 91.92% respectively of our total revenue from operations. We have limited experience and knowledge of operating in other states outside of southern India, and our foray into new geographies or into new products in the existing geographies may be subject to high barriers to entry including existing competition, local laws and market dynamics.

Further, we may not be able to effectively assess the level of promotional marketing required in a particular state, and the recognition of our brands and products in such states may not be in the manner or to the extent anticipated by us. Our expansion into new geographies may also be challenging on account of our lack of familiarity with the social, political, economic and cultural conditions of these new regions, language barriers, difficulties in staffing and managing such operations and the lack of brand recognition and reputation in such regions. We may also encounter other additional anticipated risks and significant competition in such markets.

12. As we continue to grow, we may not be able to effectively manage our growth and the increased complexity of our business, which could negatively impact our brand and financial performance.

Continued growth of our business and household user base requires us to expand our product portfolio, strengthen our brand recognition, expand and enhance our sales channels, better manage our supply chain, upgrade our information systems and technologies, secure more space for our expanding workforce, and devote other resources to our business expansions, among others. As we continue to grow, managing our business will become more complicated as we develop a wider product and service mix, some of which we may have less experience in. In addition, as we increase our product and service offerings, we will need to work with a larger number of business partners and maintain and expand mutually beneficial relationships with our existing and new business partners. Our inability to manage the expansion of our products range, customer base and manufacturing capacities, and execute our growth strategy in a timely manner or within budget estimates, or our inability to meet the expectations to track the changing preferences of our customers or other stakeholders could have an adverse effect on our business, results of operations and financial condition. We intend to continue expansion of our product range, including expanding operations towards backward integration in our manufacturing facilities to pursue existing and potential market opportunities.

We cannot assure you that we will be able to effectively manage our growth, that our current personnel, infrastructure, systems, procedures and controls or any measures to enhance them will be adequate and successful to support our expanding operations or that our strategies and new business initiatives will be executed successfully. If we are not able to manage our growth or execute our strategies effectively, our expansion may not be successful and our business and prospects may be materially and adversely affected. We have experienced certain operating/ distribution/ manufacturing difficulties in the past in ramping up certain production/ delivery/ in a timely manner to meet the increasing demand and purchase orders from our customers. As we continue to expand, we may experience similar difficulties if we are unable to manage our growth, which may adversely affect our reputation and results of operations.

13. Our operating results may fluctuate from period to period which may affect our business and financial condition.

There is a risk that our operating results may fluctuate. Some of the principal factors affecting our operating results include:

- our customers' sales and future business prospect, purchasing patterns and inventory managements;
- terms and conditions of the arrangements entered into with distributors and C&F agents;
- wide range of products we supply to our customers;
- Pricing pressure from our competitors for similar products.
- our effectiveness in managing manufacturing processes, inventory management, making optimal use of available manufacturing capacity; breakdown, failure, or substandard performance of equipment and our ability to repair them thereby reducing the breakdown, failure, or substandard performance of equipment and our ability to repair them thereby reducing the impact on manufacturing process;
- Changes in demand for our products or change in consumer preferences.
- timing of new technology development and requirement of our capability to upgrade;
- new product introductions and delays in developing the capability to produce new products;
- our ability to obtain financing in a timely manner; and
- Local conditions and events that may affect our production volumes, such as labour conditions and political instability.
- our ability to manage the timing of our component purchases so that components are available when needed for production, while avoiding the risks of purchasing such components in excess of immediate production needs;

The occurrence of any such or other problems could materially and adversely affect our business, financial condition, and results of operation. Thus, it is possible that in some future period our operating results or growth rate may be below the expectations of investors.

14. We have experienced negative cash flows from operations in the recent past, and we may have negative cash flows in the future.

Our cash flows from operating activities, investing activities and financing activities for the period ended December 31, 2022 and Fiscal 2022, 2021 and 2020 is set forth below:

	(Rs in lakhs)			
Particulars	December 31, 2022	March 31, 2022	March 31, 2021	March 31, 2020
Net cash generated from/(used in) operating activities	1,743.38	375.90	(549.01)	(69.32)
Net cash used in investing activities	(957.08)	(1,294.78)	(186.74)	(224.71)

Net cash generated from (used in) financing activities	(833.14)	952.80	819.40	325.94
--	----------	--------	--------	--------

Cash flows of a company are a key indicator to show the extent of cash generated from the operations of a company to meet capital expenditure, pay dividends, repay loans and make new investments without raising finance from external resources. If we are not able to generate sufficient cash flows, it may adversely affect our business and financial operations.

15. Pricing pressure from our competitors may affect our ability to maintain or increase our product prices and, in turn, our revenue from product sales, gross margin and profitability, which may materially and adversely affect our business, cash flows, financial condition and results of operations.

We have uniform pricing across various product categories for all the sales made in India. Competitive pricing by our competitors may manifest in various forms, including, among others, through our competitors lowering their prices for similar products. This may lead to a decrease in our revenues and profits. Moreover, if we fail to follow our retail price stipulations, our brand value and the public perception of our brand positioning could be negatively affected. We may seek to reduce the price of our raw materials and production through negotiations with our suppliers and streamline product designs to offset the impact of pricing pressure. We cannot assure you that we will be able to avoid future pricing pressure from our competitors or offset the impact of any price reductions through improved operational efficiencies, cost-effective sourcing alternatives, new manufacturing processes, or other cost reductions through other productivity initiatives. If we were to face competitive pricing from our competitors, and the aforementioned measures or other steps we take fail to maintain or increase our margins and revenues from product sales, our business, financial condition and results of operations may be adversely affected.

16. Our business is dependent on our manufacturing facilities and we are subject to certain risks in our manufacturing process. Obsolescence, destruction, theft, breakdowns of our major plants or machineries or failures to repair or maintain the same may affect our business, cash flows, financial condition and results of operations.

We have our manufacturing facilities located at Bangalore in Karnataka and at Parwanoo in Himachal Pradesh. Our business is dependent upon our ability to manage our manufacturing facilities, which are subject to various operating risks, including those beyond our control, such as the breakdown and failure of equipment or industrial accidents and severe climate conditions and natural disasters. Any significant malfunction or breakdown of our machinery may entail significant repair and maintenance costs and cause delays in our operations. If we are unable to repair breakdown of machinery in a timely manner or at all, our operations may need to be suspended until we procure new machinery to replace the same.

Obsolescence, destruction, theft or breakdowns of our major plants or machineries may significantly increase our machineries purchase cost and the depreciation of our plants and machineries, as well as change the way our management estimates the useful life of our plants and machineries. In such cases, we may not be able to acquire new plants or machineries or repair the damaged plants or machineries in time or at all. Some of our major machineries or parts may be costly to replace or repair. We may experience significant price increases due to supply shortages, inflation, transportation difficulties or unavailability. Such obsolescence, destruction, theft, breakdowns, repair or maintenance failures or price increases may not be adequately covered by the insurance policies availed by our Company and may have an effect our business, cash flows, financial condition and results of operations.

Although we have not experienced any significant disruptions at our manufacturing facilities in the past, we cannot assure you that there will not be any disruptions in our operations in the future. Our inability to effectively respond to such events and rectify any disruption, in a timely manner and at an acceptable cost, could lead to the slowdown or shut-down of our operations or under-utilization of our manufacturing facilities, which in turn may have an adverse effect on our business, results of operations and financial condition. Any slowdown or shutdown in our manufacturing operations or underutilization of our manufacturing facilities could have an adverse effect on our business, results of operations and financial condition.

Additionally, we rely on certain third-party manufacturers outside India for certain types of products such as chimneys, hobs, irons, water bottles, etc. In the event that there are disruptions in the manufacturing facilities of such third-party manufacturers, it will impact our ability to deliver such products and meet with our commitments. If these products from third-party manufacturers cease to be available to us at costs acceptable to us or if we experience problems with, or interruptions in supply of these products and we are unable to find other facilities to provide similar products on comparable terms and on a timely basis, our operations would be disrupted and our financial condition and results of operations could be affected.

17. Our Company has not adequately complied with some provisions of Companies Act, 1956/2013. There are certain Discrepancies /errors noticed in some of our corporate records relating to forms filed with the Registrar of Companies and other provisions of Companies Act, 1956/2013. Any penalty or action taken by any regulatory authorities in future, for non-compliance with provisions of corporate and other law could impact the reputation and financial position of the Company to that extent.

Our company has missed to comply with certain statutory provisions in the past including but not limited to the details as mentioned in this risk factor The Company has not filed certain ROC forms such as Form CHG-1 for creation of vehicle loans taken in the past which inter-alia includes non-compliance of Section 77 of the Companies Act, 2013 and is subject to penalty under section 86 and/or other relevant provision(s) of Companies Act, 2013, as maybe applicable, however all such loans have been repaid as on date of the Prospectus. Further our company had accepted loan in non-compliance of provisions of section 73 of Companies Act 2013 in the year 2019-20, however the same was repaid during that year itself. Our Company has failed to comply with provisions of sec 135 of Companies Act, 2013 to spend on CSR expenses during FY 19-20 to FY 21-22, however the respective provisions of CSR as per section 135 of companies Act 2013 is not applicable to the company during FY 22-23. Thereafter pursuant to meeting the threshold limit for Cost Audit our Company failed to appoint the cost auditor and comply with provision of section 148 of the Companies Act, 2013 from FY 2017-18 however the same has now been complied with.

We have also observed some discrepancies in relation to appointment of Directors like: improper resolutions due to clerical errors were attached in e-forms and our independent directors appointed on our board were not registered in the Independent Director's Databank of Indian Institute of Corporate Affairs since it became applicable in the year 2020, however they are currently registered on the same. We have observed some clerical errors in relation to amounts of unsecured loans disclosed in form DPT 3 filed by the company in FY 20-21 and FY 21-22. Further the transfer deeds for transfer of equity shares in the past are not traceable. Although, no show cause notice in respect of the non-compliance has been received by the Company till date, any penalty imposed for such non-compliance in future by the any regulatory authority could affect our financial conditions to that extent. In case of any action being taken by the regulatory authorities against the Company and/or its officers, the same may have an adverse effect on our business and reputation. Our company has not complied with certain Accounting Standards such as AS-21 and AS-15 however the same have been duly complied by the company in the restated financial statements.

Further, in the past, there have been some instances of delay in statutory filings like GST or PF returns and there is no assurance that such delay may not happen in future. Although, no show cause notice in respect of the above has been received by the Company till date, any penalty imposed for such non-compliance or delay in future by any regulatory authority could affect our financial conditions to that extent.

18. Our company had not prepared Consolidated Financial Statements in the past with its then Subsidiary Companies, Greenchef Manufacturers and Distributors Private Limited and Modulus Springs Private Limited.

Our company had not prepared Consolidated Financial Statements in the past with its then Subsidiary companies, Greenchef Manufacturers and Distributors Private Limited and Modulus Springs Private Limited which inter-alia includes non-compliance of Section 129 and 137 of the Companies Act, 2013 and AS-21 as per Indian GAAP. However, our company has now prepared Audited Consolidated financial statements of the company for the FY 21-22, FY 20-21 and FY 19-20 approved by the Board of Directors on March 20, 2023 for the purpose of compilation of the same in the restated financial statements. Further both Greenchef Manufacturers and Distributors Private Limited and Modulus Springs Private Limited cease to be subsidiary of our company as on December 31, 2022. Accordingly we have presented the consolidated financial statements for the Fiscals 2022, 2021 and 2020 in the restated financial statements. While no legal proceedings or regulatory action has been initiated against our Company in relation to such non-compliance as of the date of this Prospectus, we cannot assure you that such regulatory actions will not be initiated against our Company in future and we cannot assure you that we will not be subject to penalties imposed by concerned regulatory authorities in this respect. Further the company has initiated corrective measures to comply with Section 129 and 137 of the Companies Act, 2013 by filing form GNL-1 to the ROC.

19. We may not be able to adequately protect or continue to use our intellectual property.

We have registered certain business names, domain names and logos as trademarks under various classes with the Registrar of Trademarks in India, under the Trade Marks Act, 1999. As on the date of this Prospectus, we have 30 trademark registrations in India. Further, we have 17 trademark applications in India which have been objected by the trademark registry out of which rectification application has been filed for 1 trademark applications. For details of our intellectual property rights, see **"Government and Other Statutory Approvals"** on page 255 of this Prospectus. Some of our trademarks have been opposed and there can be no assurance that our trademark applications will be accepted and the trademarks will be registered. Pending the registration of these trademarks, any other vendor in the similar line of business as ours may use the above-mentioned trademarks and we may have a lesser recourse to initiate legal proceedings to protect

our intellectual property. In the event we are not able to obtain registrations due to opposition by third parties or if any injunctive or other adverse order is issued against us in respect of any of our trademarks for which we have applied for registration, we may not be able to use such trademarks and / or avail the legal protection or prevent unauthorised use of such trademarks by third parties, which may adversely affect our goodwill and business.

The registration of intellectual property including trademarks is a time-consuming process and there can be no assurance that any registration applications we may pursue will be successful and that such registration will be granted to us. If we fail to register the appropriate intellectual property, or our efforts to protect relevant intellectual property prove to be inadequate, the value attached to our brand and proprietary rights could deteriorate, which could have a material adverse effect on our business growth and prospects, financial condition, results of operations, and cash flows.

In particular, the use of similar trade names by third parties may result in confusion among our customers, and we are exposed to the risk that entities in India and elsewhere could pass off their products as our products, including imitation products, which may adversely affect sale of our products, resulting in a decrease in market share due to a decrease in demand for our products. Such imitation products may not only result in loss of sales but also adversely affect our reputation and consequently our future sales and results of operations. In the event of such unauthorized use, we may be compelled to pursue legal action for the protection of our brand and intellectual property, which may divert our attention and resources thereby affecting our business operations. Any litigation, whether or not it is resolved in our favour, could result in significant expense to us and divert the efforts of our technical and management personnel, which may adversely affect our business operations or financial results. For any of these reasons, despite our efforts, we may be unable to prevent third parties from infringing upon or misappropriating our intellectual property.

We may also be susceptible to claims from third-parties asserting infringement and other related claims. Regardless of their merits, such claims could materially and adversely affect our relationships with current or future customers, result in costly litigation, delay or disrupt supply of products, divert management’s attention and resources, subject us to significant liabilities, or require us to cease certain activities. Any of the foregoing could materially and adversely affect our business, financial condition, results of operations and cash flows.

20. *The emergence of modern trade channels in the form of supermarkets and online retailers may adversely affect our pricing ability, and result in temporary loss of retail shelf space and disrupt sales of kitchen appliances, which may have an adverse effect on our results of operations and financial condition.*

India has recently witnessed the emergence of supermarkets and online retailers and the market penetration of large scaled organized retail in India is likely to increase further. While we believe this provides us with an opportunity to improve our supply chain efficiencies and increase the visibility of our brands, it also increases the negotiating position of such stores. We cannot assure you that we will be able to negotiate new distribution agreements or renegotiate our existing distribution agreements, specially our pricing or credit provisions, on terms favourable to us, or at all. Any inability to enter into distribution agreements and on terms favourable to us, may have an adverse effect on our pricing and margins, and consequently adversely affect our results of operations and financial condition.

From time to time, retailers change distribution centers that supply products to some of their retail stores. If a new distribution center has not previously distributed our products in that region, it may take time to get a retailer’s distribution center to begin distributing new products in its region. Even if a retailer approves the distribution of products in a new region, product sales may decline while the transition in distribution takes place. If we do not get approval to have our products offered in a new distribution region or if getting this approval takes longer than anticipated, our sales and operating results may suffer.

21. *Our Company and Directors are involved in certain legal proceedings and potential litigations. Any adverse decision in such proceedings may render us/them liable to liabilities/penalties/prosecutions and may adversely affect our business and results of operations.*

Our Company and Directors are currently involved in certain legal proceedings. These legal proceedings are pending at different levels of adjudication before various courts, tribunals, and government departments.

Amount mentioned to the extent quantifiable. The amount may be subject to additional interest/other charges being levied by the concerned authorities which are unascertainable as on date of this prospectus

For further details, see **“Outstanding Litigation and Material Developments”** beginning on page 251 of this Prospectus. Any adverse outcome from adjudication of these pending litigations in the future may have an impact on the Company’s profitability, revenue, operations, etc. If the courts or tribunals rule against our Company or our Promoters and Directors, we may face monetary and/or reputational losses and may have to make provisions in our financial statements, which could increase our expenses and our liabilities.

22. Our business is operating under various laws which require us to obtain approvals from the concerned statutory/regulatory authorities in the ordinary course of business and our inability to obtain, maintain or renew requisite statutory and regulatory permits and approvals for our business operations could materially and adversely affect our business, prospects, results of operations and financial condition.

Our business requires us to obtain and renew from time to time, certain approvals, licenses, registrations and permits, some of which have expired and for which we have either made or are in the process of making an application for obtaining the approval or its renewal. In particular, we require certain approvals, licenses, registrations and permissions under various regulations, guidelines, circulars and statutes regulated by various authorities for operating our business activities that by us may contain conditions, some of which could be onerous. Our Company has applied for Fire NOC to the Chief Fire Officer by application dated February 01, 2023 for our factory Unit 1, 2 and 3 situated at Bangalore which is pending for approval. Further our company does not possess NOC for Ground water extraction at these factory units. There can be no assurance that the relevant authorities will issue these approvals or licenses in a timely manner, or at all. In the event of any unanticipated delay in receipt of such approvals, it will have an adverse impact on our business operations.

Failure by us to renew, maintain or obtain the required permits or approvals at the requisite time may result in the interruption of our operations and may have an adverse effect on our business, financial condition and results of operations. Further, we cannot assure that the approvals, licenses, registrations and permits issued to us would not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. Any failure to renew the approvals that have expired or apply for and obtain the required approvals, licenses, registrations or permits, or any suspension or revocation of any of the approvals, licenses, registrations and permits that have been or may be issued to us, may impede our operations. For further details, see **“Government and Other Statutory Approvals”** on page 255 of this Prospectus. In the event that we are unable to obtain such approvals in a timely manner or at all, our business operations may be adversely affected. We may be impleaded in any environmental legal proceedings in the course of our business due to non-compliances with terms and conditions of regulatory approvals or authorizations.

23. Our plan relating to construction of new manufacturing facility and installation of additional plant and machinery is subject to the risk of unanticipated delays in implementation and cost overruns.

We intend to use a part of the Net Proceeds towards (i) construction of factory building at our proposed new manufacturing facility at Plot No. 503, 504 & 505, SY No. 96, Vasanthanasapura 2nd Phase Industrial Area, Yalladadllu Village, Kora Hobli, Tumakuru Taluk, Tumakuru District and (ii) towards installation of additional plant and machinery. For further information, refer **“Objects of the Issue”** on page 75 of this Prospectus. Our plan remain subject to the potential problems and uncertainties including cost overruns or delays. Problems that could adversely affect our plans include labour shortages, increased cost of construction or manpower, delays in completion, defects in design or construction, the possibility of unanticipated future regulatory restrictions, delays in receiving

governmental, statutory and other regulatory approvals, incremental pre- operating expenses, taxes and duties, interest and finance charges, working capital margin and other external factors which may not be within the control of our management. There can be no assurance that the proposed capital expenditure towards construction of new manufacturing facility and installation of additional plant & machinery will be completed as planned or on schedule, and if they are not completed in a timely manner, or at all, our budgeted costs may be insufficient to meet our proposed capital expenditure requirements. If our actual capital expenditures significantly exceed our budgets, or even if our budgets were sufficient to cover these projects, we may not be able to achieve the intended economic benefits, which in turn may materially and adversely affect our financial condition, results of operations, cash flows, and prospects. There can be no assurance that we will be able to complete the aforementioned establishment in accordance with the proposed schedule of implementation and any delay could have an adverse impact on our growth, prospects, cash flows and financial condition.

24. *Our operating results could be materially harmed if we are unable to accurately forecast consumer demand for our products or manage our inventory.*

We strive to keep optimum inventory with C&F agents and distributors to control our costs and working capital requirements. To maintain an optimal inventory, we monitor our inventory levels based on our projections of demand as well as on a real-time basis. Our distribution model also enables us to fulfil large orders from our distribution centers directly, and replenish our stocks with minimal lead time. Although our manufacturing units are strategically located to serve the requirements in a timely manner. For example; our Pawanoo, Himachal Pradesh facility is focussed on manufacturing of Gas Stoves and hose pipes for which our Company has also entered into marketing agreement with oil companies like: Hindustan Petroleum Corporation Limited, Indian Oil Corporation Limited, Bharat Petroleum Corporation Limited. To deliver to the locations at which these oil companies require the products is mostly based in northern region, hence the balance of the inventory can be maintained, but we need to keep a strict check on the requirement. However, unavailability of products, due to high demand or inaccurate forecast, may result in loss of sales and adversely affect our customer relationships. We manage our inventory by constantly monitoring and tracking our current inventory levels, while keeping a small portion of reserve stock, based on our forecast customer demand. If we fail to accurately forecast customer demand, we may experience excess inventory levels or a shortage of products available for sale. For example, our inventory level could increase in the third quarter as we prepare for large online sales promotion events due to festive season, and it would be difficult for us to forecast the sales that we may achieve in those events. Inventory levels in excess of customer demand may result in inventory write-offs and the sale of excess inventory at discounted prices, which may cause our gross margin to suffer and could impair the strength of our brand. On the other hand, in the case we experience shortage of products, we may be unable to meet the demand for our products, and our business and operating results could be adversely affected.

Therefore, an inaccurate forecast can also result in an over-supply of products, which may increase inventory costs, negatively impact cash flow, reduce the quality of inventory, shrinkages and ultimately lead to reduction in margins. Further, some of our products can become obsolete in terms of designs, and any inventory that we hold with respect to old designs may not get sold or replaced by our suppliers. Any of the aforesaid circumstances could have a material adverse effect on our business, results of operations and financial condition. During the stub period ended on December 31, 2022 and Fiscal 2022, 2021 and 2020 our inventories were Rs 8,467.01 lakhs, Rs 6,706.40 lakhs, Rs 4,275.89 lakhs, Rs 3,610.27 lakhs. Further, if we fail to convert the inventory we purchase by manufacturing our products, we may be required to write-down our inventory or pay our suppliers without new purchases, or create additional vendor financing, all of which could have an adverse impact on our income and cash flows.

25. *Our insurance coverage may not be adequate to protect us against certain operating hazards and this may have a material adverse effect on our business.*

Our operations are subject to hazards inherent in manufacturing facilities such as risk of equipment failure, work accidents, fire, earthquakes, flood and other force majeure events, acts of terrorism and explosions including hazards that may cause injury and loss of life, severe damage to and the destruction of property and equipment and environmental damage. Long periods of business disruption could result in a loss of customers. Although we take precautions to minimize the risk of any significant operational problems at our manufacturing facilities, and we have not experienced any such material incidents in the past, there can be no assurance that we will not face such disruptions in the future.

During the manufacturing process, we may be exposed to various risks which we may not be able to foresee or may not have adequate insurance coverage. Our insurance coverage may not be adequate to cover such loss or damage to life and property, and any consequential losses arising due to such events will affect our operations and financial condition. Further, in addition to the above, any such fatal accident or incident causing damage or loss to life and property, even if we are fully insured or held not to be liable, could negatively affect our reputation, thereby making it more difficult for us to conduct our business operations effectively, and could significantly affect our business, availability of insurance coverage in the future and our results of operations. The occurrence of any one of the above events may result in us being

named as a defendant in lawsuits asserting claims for substantial damages, including for personal injury and property damage and fines and/or penalties.

While we believe that the insurance coverage that we maintain is in accordance with industry standards, there can be no assurance that any claim under the insurance policies maintained by us will be honoured fully, in part or on time, or that we have taken out sufficient insurance to cover all material losses. To the extent that we suffer loss or damage for which we did not obtain or maintain insurance, that is not covered by insurance or exceeds our insurance coverage, the loss would have to be borne by us and our cash flows, results of operations and financial performance could be adversely affected. In the event that our Company files a claim under the applicable insurance policy, there is no assurance that we will be able to recover all, or part of the losses incurred.

26. We have in the past entered into related party transactions and may continue to do so in the future.

Our Company has entered into various transactions with our Directors, Promoter and Promoter Group members/entities. These transactions, inter-alia includes, issue of shares, remuneration, loans and advances, purchase, sales, rent expenses reimbursement of expenses etc. For details, please refer to **“Note ZA - Related Party Transactions”** under Section titled **“Financial Information of the Company”** and Chapter titled **“Capital Structure”** beginning on page 225 and 61 respectively of this Prospectus. Our Company has entered into such transactions due to easy proximity and quick execution in compliance with provisions of Companies Act, 2013. Although all related-party transactions that we may enter into in the future are subject to approval by our Audit Committee, Board or shareholders, as required under the Companies Act, we cannot assure you that such future transactions or any other future transactions, individually or in aggregate, will not have an adverse effect on our financial condition and results of operations or that we could not have achieved more favourable terms if such transactions are not entered into with related parties.

Furthermore, it is likely that we may enter into related party transactions in the future. Any future transactions with our related parties could potentially involve conflicts of interest. Accordingly, there can be no assurance that such transactions, individually or in the aggregate, will not have a material adverse effect on our business, financial condition, cash flows, results of operations and prospects.

27. We operate our business from rented premises.

Our registered office and all our manufacturing facilities, through which we operate our business, in Bengaluru and Parwanoo are taken on rent from third parties. Any adverse impact on the title /ownership rights/ development rights of our landlords may adversely affect our operations. Further in the event of non-renewal of these rent or leave and licence agreements, our operations and profitability may be adversely affected. We cannot assure you that we will be able to continue the above arrangement on commercially favourable terms in future. If we are required to vacate the current premises, we would be required to make alternative arrangements for our manufacturing facilities and other infrastructure, and we cannot assure that the new arrangements will be on commercially acceptable/favourable terms.

Our company is in process of establishing its own manufacturing unit at Plot No. 503, 504 & 505, SY No. 96, Vasanthanarasapura 2nd Phase Industrial Area, Yalladadllu Village, Kora Hobli, Tumakuru Taluk, Tumakuru District for which the requisite land is already purchased and the construction of factory building is in process. If we are required to relocate our business operations during this period or in the event of inability or delay in relocating our manufacturing activities to the proposed new manufacturing facility, we may suffer a disruption in our operations or have to pay higher charges, which could have an adverse effect on our business, prospects, results of operations and financial condition. For further details, please refer to the chapter titled **‘Our Business’** on page 94 of Prospectus.

28. The Objects of the Issue for which funds are being raised, are based on our management estimates and the same have not been appraised by any bank or financial institution or any independent agency. The deployment of funds in the project is entirely at our discretion, based on the parameters as mentioned in the chapter titles “Objects of the Issue”.

The fund requirement and deployment, as mentioned in the **“Objects of the Issue”** on page 75 of this Prospectus is based on the estimates of our management and has not been appraised by any bank or financial institution or any other independent agency. These fund requirements are based on our current business plan. We cannot assure that the current business plan will be implemented in its entirety or at all. In view of the highly competitive and dynamic nature of our business, we may have to revise our business plan from time to time and consequently these fund requirements. The deployment of the funds as stated on page 75 under chapter **“Objects of the Issue”** is at the discretion of our Board of Directors and is not subject to monitoring by any external independent agency. Further, we cannot assure that the actual costs or schedule of implementation as stated on page 75 under chapter **“Objects of the Issue”** will not vary from the estimated costs or schedule of implementation. Any such variance may be on account of one or more factors, some of which may be beyond our control. Occurrence of any such event may delay our business plans and/or may have an adverse bearing on our expected revenues and earnings.

29. *If we fail to identify and effectively respond to changing consumer preferences and spending patterns in a timely manner, the demand for our products could decrease, causing our business, results of operations, financial condition and cash flows to be adversely affected.*

The kitchen appliances products market is characterized by frequent changes, particularly in consumer preferences, new products and product variations. The popularity and demand of a product may vary over time due to changing consumer preferences, including those relating to sustainability, durability and maintaining cleanliness etc. Consumer preferences in the market are difficult to predict and changes in those preferences or the introduction of new products by our competitors could put our products at a competitive disadvantage. Our continued success depends on our ability react in a timely and cost-effective manner to changes in consumer preferences for our products, as well as to where and how consumers shop for those products.

We continually work to enhance the recognition of our brand and products and refine our approach as to how, when and where we market and sell our products using data and technology. While we aim to introduce new products from time to time, we recognize that consumer preferences cannot be predicted with certainty and can change rapidly, and that there is no certainty that these will be commercially viable or effective or accepted by our consumers. If we are unable to foresee or respond effectively to the changes in market conditions, new and changing trends or desired consumer preferences, accurately anticipate and forecast demand for products, then there may be a decline in the demand and sales for our products, thereby reducing our market share and preventing us from acquiring new customers and retaining existing customers, which could have an adverse effect on our business, results of operations, financial condition and cash flows.

30. *Our Promoter Group Entity, M/s Siddhartha Enterprises was engaged in similar line of business primarily in manufacturing and importing of components for kitchen appliances. Any conflict of interest in future may occur between the business of M/s Siddhartha Enterprises and us which may adversely affect our business, prospects, results of operations and financial condition.*

Our Promoter Group Entity, M/s Siddhartha Enterprises was engaged in similar line of business primarily in manufacturing and importing of components for kitchen appliances. However pursuant to acquisition of all the plant & machinery of M/s Siddhartha Enterprises by our company in FY 21-22 it is currently not manufacturing kitchen appliances. We have not entered into any non-compete agreement with M/s Siddhartha Enterprises. We will endeavour to take adequate steps to address any conflict of interest by adopting the necessary procedures and practices as permitted by applicable law, to address any conflict which may arise in the future. We cannot assure you that our Promoters will not favour the interests of M/s Siddhartha Enterprises over our interests in future or that we will be able to suitably resolve any such conflict without an adverse effect on our business or operations.

31. *Our contingent liabilities as stated in our Restated Financial Statements could affect our financial condition.*

Our Contingent liability as on December 31, 2022 was Rs. 218.33 Lakhs. If this contingent liability materializes, fully or partly, the financial condition of our Company could be affected.

(Amt in Lakhs)

Particulars	31-12-2022
Contingent liabilities in respect of:	
In Respect of legal matter involving indirect taxes	84.36
In respect of Bank Guarantee issued by company	130.00
In respect of TDS & Income Tax matters	3.97
Total	218.33

For more information, regarding our contingent liabilities, please refer “*Note Y*” in chapter titled “*Financial Information of the Company*” beginning on page 193 of this Prospectus.

32. *We depend on third party service providers for logistics and some portion of aftersales services.*

We outsource all of our transportation and logistics services, as well as some portion of installation and after-sale services, for our products to third-party service providers. We rely on these outsourcing partners to bring our products to our customers and in some cases, install them for our customers, and provide after-sale services. While these arrangements allow us to focus on our main business, they also reduce our direct control over the logistics and aftersales services provided to our customers. Any failure of our logistics partners to perform may have a material negative impact on the timely delivery of our products and customer satisfaction. In addition, logistics in our primary locations or transit to final destinations may be disrupted for a variety of reasons including, natural and man-made disasters, information technology system failures, commercial disputes, military actions or economic, business, labour, environmental, public health, or

political issues. We may also be unable to pass any increase in logistics costs to our customers. Errors that occur in product installation or product maintenance processes can compromise our products and services, adversely affect customer experience, and harm our business.

33. *We have significant working capital requirements. If we experience insufficient cash flows from our operations or are unable to borrow to meet our working capital requirements, it may materially and adversely affect our business, cash flows and results of operations.*

Our business requires significant working capital including in connection with our manufacturing operations, financing our inventory, providing bank guarantees, purchase of raw materials and our development of new products which may be adversely affected by changes in terms of credit and payment. Delays in payment or reduction of advance payments and/or accelerated payments to suppliers, fixed deposits to facilitate bank guarantees to our customers, could adversely affect our working capital, lower our cash flows and materially increase the amount of working capital to be funded. We may also be unable to adequately finance our working capital requirements on account of various factors, including extraneous factors such as delay in disbursements under our financing arrangements, increased interest rates, insurance or other costs, or borrowing and lending restrictions or finance our working capital requirements on commercially acceptable terms or at all, each of which may have a material adverse effect on our business, financial condition, prospects and results of operations. Continued increase in our working capital requirements may have an adverse effect on our financial condition and results of operations. If we decide to raise additional funds through the incurrence of debt, our interest and debt repayment obligations will increase, and could have a significant effect on our profitability and cash flows and we may be subject to additional covenants, which could limit our ability to access cash flows from operations

34. *Trade receivables form a major part of our current assets. Failure to manage our trade receivables could have an adverse effect on our net sales, profitability, cash flow and liquidity.*

Our Company's business is working capital intensive and hence, inventories and trade receivables form a major part of our current assets. To effectively manage our trade receivables, we must be able to accurately evaluate the credit worthiness of our customers and ensure that suitable terms and conditions are given to them in order to ensure our continued relationship with them. However, if we fail to accurately evaluate the credit worthiness of our customers, it may lead to bad debts, delays in recoveries and / or write-offs which could lead to a liquidity crunch, thereby adversely affecting our business and results of operations. During the stub period ended on December 31, 2022 and Fiscal 2022, 2021 and 2020 our trade receivables were Rs 6,780.03 lakhs, Rs 6,476.74 lakhs, Rs 5,986.67 lakhs, Rs 5,894.14 lakhs which constituted 26.61%, 19.29%, 25.05% and 24.81% of our revenue from operations.

35. *The activities carried out at our manufacturing facilities can cause injury to people or property in certain circumstances.*

The activities carried out at our manufacturing facilities may be potentially dangerous to our employees. While we employ safety procedures in the operation of our manufacturing facilities and maintain what we believe to be adequate insurance, there is a risk that an accident may occur at any of our manufacturing facilities. An accident may result in personal injury to our employees, or the labour deployed at our facilities, destruction of property or equipment, manufacturing or delivery delays, environmental damage, or may lead to suspension of our operations and/or imposition of liabilities. Any such accident may result in litigation, the outcome of which is difficult to assess or quantify, and the cost to defend such litigation can be significant. As a result, the costs to defend any action or the potential liability resulting from any such accident or death or arising out of any other litigation, and any negative publicity associated therewith, may have a negative effect on our business, financial condition, results of operations, cash flows and prospects.

36. *If we are unable to service our debt obligations in a timely manner or to comply with various financial and other covenants and other terms and conditions of our financing agreements, it may adversely affect our business, prospects, results of operations and financial condition*

As of December 31, 2022 our Company had total indebtedness in the form of short term and long term borrowings of ₹ 6134.26 lakhs. Our indebtedness could have several important consequences, including but not limited to the following:

- a portion of our cash flows may be used towards repayment of our existing debt, which will reduce the availability of our cash flows to fund working capital, capital expenditures and other general corporate requirements;
- our ability to obtain additional financing in the future at reasonable terms may be restricted;
- fluctuations in market interest rates may affect the cost of our borrowings, as some of our indebtedness is at variable interest rates;
- there could be a material adverse effect on our business, financial condition and results of operations if we are unable to service our indebtedness or otherwise comply with financial and other covenants specified in the financing agreements; and

Many of our financing agreements also include various conditions and covenants that require us to obtain consent of the lenders prior to carrying out certain activities or entering into certain transactions. Certain covenants in these agreements require us to obtain approval/permission from our lenders in certain conditions. In the event of default or the breach of certain covenants, our lender has the option to make the entire outstanding amount payable immediately. There can be no assurance that we will be able to comply with these financial or other covenants or that we will be able to obtain consents necessary to take the actions that we believe are required to operate and grow our business.

For further details in this regard, please refer to chapter titled *“Statement of Financial Indebtedness”* beginning on page 236 of this Prospectus.

37. Our Promoter Group Entity has incurred losses in past, any operating losses in the future could adversely affect the results of operations and financial conditions of our group.

The details of profit and loss of our Promoter Group Entity in the past years are as follows:-

(Amt. in Lakhs)

Group Company	For The Year Ended		
	March 31, 2022	March 31, 2021	March 31, 2020
M/s Siddhartha Enterprises	(139.72)	(280.05)	21.57

Any operating losses by our group entities could adversely affect the overall operations of the group and financial conditions and also divert the attention of the management and promoter towards such entity which could have an adverse affect on our operations and financials.

38. We may be subject to labour unrest, operating risks, slowdowns, increased wage costs, and shut-downs.

Our manufacturing activities are labour intensive and consequently our success depends upon maintaining good relations with our workforce. As of December 31, 2022, we had approximately 1400 permanent employees engaged across various operational and business divisions in India. India has stringent labour legislations that protect the interests of workers, including legislation that set forth detailed procedures for the establishment of unions, dispute resolution and employee removal, and legislations that imposes certain financial obligations on employers upon retrenchment. Our employees are not unionized currently. However, there is no assurance that our employees will not seek unionization in the future. In the event that employees at our manufacturing facilities take any steps to unionise, it may become difficult for us to maintain flexible labour policies, and may increase our costs and adversely affect our business.

Further, our business operations, specifically our processing facilities are subject to certain operating risks, such as breakdown or failure of equipment, power supply or processes, reduction or stoppage of water supply, performance below expected levels of efficiency, obsolescence and natural disasters.

Any strikes or lock-outs, work stoppages, slowdowns, shut downs, supply interruptions or costs or other factors beyond our control, may disrupt our operations and could negatively impact our financial performance or financial condition. Additionally, our inability to recruit employees, in particular skilled employees and retain our current workforce could have a material adverse effect on our business, financial condition and profitability. There can be no assurance that we will not experience slowdowns or shutdowns in the manner described above, or in any other manner, in the future, for reasons which are beyond our control. Any slowdown or shutdown will adversely impact our results of operations, market share and financial condition.

39. We appoint contract labour for carrying out certain of our operations and we may be held responsible for paying the wages of such workers, if the independent contractors through whom such workers are hired default on their obligations, and such obligations could have an adverse effect on our results of operations and financial condition.

In order to retain flexibility and control costs, our Company appoints independent contractors who in turn engage on-site contract labour for performance of certain of our operations. Although our Company does not engage these labourers directly, we may be held responsible for any wage payments to be made to such labourers in the event of default by such independent contractor. Any requirement to fund their wage requirements may have an adverse impact on our results of operations and financial condition and we may also be subject to legal proceedings in this regard. In addition, under the Contract Labour (Regulation and Abolition) Act, 1970, as amended, we may be required to absorb a number of such contract labourers as permanent employees. Thus, any such order from a regulatory body or court may have an adverse effect on our business, results of operations and financial condition.

40. Changes in technology may render our current technologies obsolete or require us to make substantial investments.

Modernization and technology up gradation is essential to reduce costs and increase the output. Our technology and machineries may become obsolete or may not be upgraded timely, hampering our operations and financial conditions and we may lose our competitive edge. Although we believe that we have installed updated technology, we shall continue to strive to keep our technology, plant and machinery in line with the latest technological standards. In case of a new found technology in the industry in which we operate, we may be required to implement new technology or upgrade the machineries and other equipment employed by us. Further, the costs in upgrading our technology and modernizing the plant and machineries are significant which could substantially affect our finances and operations.

41. *Our Company has taken unsecured loans that may be recalled by the lenders at any time.*

Our Company have availed unsecured loans which may be called by their lenders at any time. As on December 31, 2022 the unsecured loan amounting Rs 1,757.21 lakhs were due to lenders. In the event that lender seeks a repayment of any such loan, our Company would need to find alternative sources of financing, which may not be available on commercially reasonable terms, or at all. Also there is no formal agreement with any of our lenders. As a result, any such demand may affect our business, cash flows, financial condition and results of operations. For further details on financing arrangements entered into by our Company, please refer chapter titled "Statement of Financial Indebtedness" beginning on page 236 of Prospectus.

42. *Excessive dependence on Canara Bank Limited in respect of Loan facilities obtained by our Company.*

Our company has been sanctioned credit facilities by Canara Bank Limited. The Company is dependent on such facility for its Term loans, Overdraft facilities and other funding requirement and any default under such arrangement with such lender may create problem for operation of the Company, which may affect the financial stability of the Company. At the same time this may result into difficulty in arranging for funds for re-payment and may also adversely affect the financial position of the Company.

43. *Under-utilization of our manufacturing capacities could have an adverse effect on our business, future prospects and future financial performance.*

Our capacity utilization levels are dependent on our ability to carry out uninterrupted operations at manufacturing facility, the availability of raw materials, industry/ market conditions, as well as by the product requirements of, and procurement practice followed by, our customers. In the event we face prolonged disruptions at our facilities including due to interruptions in the supply of water, electricity or as a result of labour unrest, or are unable to procure sufficient raw materials, we would not be able to achieve full capacity utilization of our current manufacturing facility, resulting in operational inefficiencies which could have a material adverse effect on our business and financial condition. During the period ended December 31, 2022 and Fiscal 2022, 2021 and 2020 our overall capacity utilization for manufacturing products like: Gas Stoves were 63%, 77%, 46%, 66% respectively and for Pressure Cooker were 88%, 70%, 53% and 68% respectively. For further information, see "***Our Business - Capacity and Capacity Utilization***" on page 94 of this Prospectus. These rates are not indicative of future capacity utilization rates, which is dependent on various factors, including demand for our products, availability of raw materials, our ability to manage our inventory and improve operational efficiency. Under-utilization of our manufacturing capacities over extended periods, or significant under-utilization in the short-term, could materially and adversely impact our business, growth prospects and future financial performance.

44. *We are dependent on our Promoters, our senior management and other key personnel, and the loss of, or our inability to attract or retain, such persons could affect our business, results of operations, financial condition and cash flows.*

Our performance depends largely on the efforts and abilities of our promoters, senior management and other key personnel. They have gained experience in this line of business and have over the years built relations with suppliers, third party service providers, customers, regulators and other persons who are connected with us and have been actively involved in the day to day operations and management, further we believe that the inputs and experience of our senior management, in particular, and other key personnel are valuable for product development and manufacturing activities, successful delivery of products and our overall business operations and the strategic directions taken by our Company. For details in relation to the experience of our key management personnel, see "***Our Management***" on page 171 of this Prospectus. We cannot assure you that these individuals or any other member of our senior management team will not leave us or join a competitor or that we will be able to retain such personnel or find adequate replacements in a timely manner, or at all. We may require a long period of time to hire and train replacement personnel when qualified personnel terminate their employment with our Company. We may also be required to increase our levels of employee compensation more rapidly than in the past to remain competitive in attracting employees that our business requires. The loss of the services of such persons may have an effect on our business, results of operations, financial condition and cash flows.

45. *We have not entered into any definitive arrangements to utilize certain portions of the Net Proceeds of the Issue. Our funding requirements and deployment of the Net Proceeds of the Issue are based on management estimates and quotations from vendors and have not been independently appraised.*

We intend to use the net proceeds of the Issue for the purposes described in the section titled “*Objects of the Issue*” on page 75. The Objects of the Issue and our funding requirement is based on management estimates and quotations received from vendors and have not been appraised by any bank or financial institution. We are yet to place orders for the total capital expenditure which we propose to fund from the Net Proceeds. We have not entered into any definitive agreements to utilize the Net Proceeds for this object of the Issue and have relied on the quotations received from third parties for estimation of the cost, These are based on current conditions and are subject to changes in external circumstances or costs, or in other financial condition, business or strategy, as discussed further below.

Our management, in accordance with the policies established by our Board of Directors from time to time, will have flexibility in deploying the Net Proceeds of the Issue. Our funding requirements may be subject to change based on various factors such as the timing of completion of the Issue, market conditions outside the control of our Company, and any other business and commercial considerations. This may entail rescheduling and revising the planned expenditure and funding requirement and increasing or decreasing the expenditure for a particular purpose from the planned expenditure as may be determined by our Company and by the Shareholders by way of a special resolution, subject to compliance with applicable law.

Our management estimates may differ from the value that would have been determined by third party appraisals, which may require us to reschedule or reallocate our expenditure, subject to applicable laws, and may have an adverse impact on our business, financial condition, results of operations and cash flows. Accordingly, investors in the Equity Shares will be relying on the judgment of our management regarding the application of the Net Proceeds.

46. *The average cost of acquisition of Equity Shares by our Promoters, could be lower than the issue price.*

Our Promoters’ average cost of acquisition of Equity Shares in our Company may be lower than the Issue Price decided by the Company in consultation with the Lead Manager. For further details regarding average cost of acquisition of Equity Shares by our Promoters in our Company and build-up of Equity Shares by our Promoters in our Company, please refer to the chapters “*Capital Structure*” beginning on pages 61 of this Prospectus.

47. *We could be harmed by employee misconduct or errors that are difficult to detect and any such incidences could adversely affect our financial condition, results of operations and reputation.*

Employee misconduct or errors could expose us to business risks or losses, including regulatory sanctions and serious harm to our reputation. There can be no assurance that we will be able to detect or deter such misconduct. Moreover, the precautions we take to prevent and detect such activity may not be affective in all cases. Our employees may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions on account of which our business, financial condition, results of operations and goodwill could be adversely affected.

48. *Fraud, theft, employee negligence or similar incidents may adversely affect our results of operations and financial condition.*

Our operations may be subject to incidents of theft or damage to inventory. The business may also encounter some inventory loss on account of employee theft, vendor fraud and general administrative error. While we have not experienced any such instance in the past, there can be no assurance that we will not experience any fraud, theft, employee negligence, security lapse or similar incidents in the future, which could adversely affect our results of operations and financial condition. Though we have insurance losses due to theft, fire, breakage or damage caused by other casualties, could adversely affect our results of operations and financial condition.

49. *Information relating to our installed capacities and the historical capacity utilization of our manufacturing facilities included in this Red Herring Prospectus is based on various assumptions and estimates and future production and capacity utilization may vary.*

Information relating to our installed capacities and the historical capacity utilization of our manufacturing facilities included in this Red Herring Prospectus is based on various assumptions and estimates of our management, including proposed operations, assumptions relating to availability and quality of raw materials and assumptions relating to potential utilization levels and operational efficiencies. Actual utilization rates may differ significantly from the estimated installed capacities or historical estimated capacity utilization information of our facilities. Undue reliance should therefore not be placed on our installed capacity or historical estimated capacity utilization information for our existing facilities included in this Prospectus.

50. *Our ability to pay any dividends will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditures.*

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our Dividend history refer to the Section “*Dividend Policy*” on page 192 of the Prospectus.

51. *Our Promoter and the Promoter Group will jointly continue to retain majority shareholding in our Company after the offer, which will allow them to determine the outcome of the matters requiring the approval of shareholders.*

Our promoter along with the promoter group will continue to hold collectively upto 73.52 % of the Equity share capital of the company. As a result of the same, they will be able to exercise significant influence over the control of the outcome of the matter that requires approval of the majority shareholder’s vote. Such a concentration of the ownership may also have the affect of delaying, preventing or deterring any change in the control of our company. In addition to the above, our promoter will continue to have the ability to take actions that are not in, or may conflict with our interest or the interest of some or all of our minority shareholders, and there is no assurance that such action will not have any adverse effect on our future financials or results of operations.

52. *Any future issuance of our Equity Shares may dilute prospective investors’ shareholding, and sales of our Equity Shares by our major shareholders may adversely affect the trading price of our Equity Shares.*

Our growth is dependent on having a strong balance sheet to support our activities. In addition to the internally generated cash flow, we may need other sources of financing to meet our capital needs which may include entering into new debt facilities with lending institutions or raising additional equity in the capital markets. We may need to raise additional capital from time to time, dependent on business conditions. The factors that would require us to raise additional capital could be business growth beyond what the current balance sheet can sustain; additional capital requirements imposed due to changes in regulatory regime or significant depletion in our existing capital base due to unusual operating losses. Any fresh issue of shares or convertible securities would dilute existing holders, and such issuance may not be done at terms and conditions, which are favourable to the then existing shareholders of our Company. If our Company decides to raise additional funds through the incurrence of debt, our interest obligations will increase, and we may be subject to additional covenants, which could further limit our ability to access cash flows from our operations. Such financings could cause our debt to equity ratio to increase or require us to create charges or liens on our assets in favour of lenders. We cannot assure you that we will be able to secure adequate financing in the future on acceptable terms, in time, or at all. Our failure to obtain sufficient financing could result in the delay or abandonment of our expansion plans. Our business and future results of operations may be affected if we are unable to implement our expansion strategy.

Any issuance of Equity Shares by our Company may dilute shareholding of investors in our Company; and hence affect the trading price of our Company’s Equity Shares and its ability to raise capital through an issue of its securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of our Company’s Equity Shares. Additionally the disposal, pledge or encumbrance of Equity Shares by any of our Company’s major shareholders, or the perception that such transactions may occur may affect the trading price of the Equity Shares. No assurance may be given that our Company will not issue Equity Shares or that such shareholders will not dispose of, pledge or encumber their Equity Shares in the future.

53. *The Offer price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Offer and the market price of our Equity Shares may decline below the Offer Price and you may not be able to sell your Equity Shares at or above the Offer Price.*

The offer price of the equity shares have been based on many factor and may not be indicative of the market price of our Equity Shares after the Offer. For further information please refer the section titled “*Basis for Offer Price*” beginning on page 84 of the Prospectus. The market price of our Equity Shares could be subject to significant fluctuations after the Offer, and may decline below the Offer Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Offer Price.

54. *Investors other than retail (including non-institutional investors, QIBs and Corporate Bodies) are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Amount) at any stage after submitting an Application.*

Pursuant to the SEBI ICDR Regulations, Investors other than retail (including non-institutional investors and Corporate Bodies) are not permitted to withdraw or lower their Application (in terms of quantity of Equity Shares or the Amount) at any stage after submitting an Application. While our Company is required to complete Allotment pursuant to the Offer within six Working Days from the Offer Closing Date, events affecting the Bidders decision to invest in the Equity Shares, including material adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operation or financial condition, may arise between the date of submission of the Application and Allotment. Our Company may complete the Allotment of the Equity Shares even if such events occur, and such events limit the Bidder's ability to sell the Equity Shares Allotted pursuant to the Offer or cause the trading price of the Equity Shares to decline on listing.

- 55. *Our Promoters and Directors have provided personal guarantees for financing facilities availed by our Company and may in the future provide additional guarantees and any failure or default by our Company to repay such facilities in accordance with the terms and conditions of the financing agreements could trigger repayment obligations on them, which may impact their ability to effectively service their obligations as our Promoters and Directors and thereby, adversely impact our business and operations.***

Our Promoters and Directors have personally guaranteed the repayment of certain loan facilities taken by us. Our Promoters may continue to provide such guarantees and other security post listing. In case of a default under our loan agreements, any of the guarantees provided by our Promoters and Directors may be invoked, which could negatively impact the reputation and net worth of our Promoters and Directors. In addition, our guarantors may be required to liquidate their shareholding in our Company to settle the claims of the lenders, thereby diluting their shareholding in our Company.

Furthermore, in the event that our Promoters and Directors withdraw or terminate their guarantees, our lenders for such facilities may ask for alternate guarantees, repayment of amounts outstanding under such facilities, or even terminate such facilities. We may not be successful in procuring guarantees satisfactory to the lenders, and as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could affect our financial condition and cash flows.

- 56. *Non-compliance with increasingly stringent safety, health, environmental and labour laws and other applicable regulations, may adversely affect our business, results of operations, cash flows and financial condition.***

Our operations generate pollutants and waste, some of which may be hazardous and therefore, we are subject to various laws and government regulations, including in relation to safety, health, environmental protection and labour. These laws and regulations impose controls on air and water discharge, disposal of bio-medical waste, storage, transport, handling, disposal, employee exposure to hazardous substances and other aspects of our manufacturing operations. Improper handling or storage of these materials could result in accidents, injure our personnel, property and damage the environment. We obtain the requisite registrations and approvals from time to time and aim to prevent such hazards by training our personnel, conducting industrial hygiene assessments and employing other prescribed safety measures. The occurrence of any such event in the future could have an adverse effect on our business, results of operations, cash flows and financial condition. We may be impleaded in any environmental legal proceedings in the course of our business due to non-compliances with terms and conditions of regulatory approvals or authorizations.

In addition, environmental laws and regulations in India have increasingly become more stringent. The scope and extent of the new environmental regulations, including their effect on our operations, cannot be predicted with any certainty. We may incur increased costs and other burdens relating to compliance with such new requirements, which may also require significant management time and other resources, and any failure to comply may adversely affect our business, results of operations, cash flows and prospects.

EXTERNAL RISK FACTORS:

1. *The continuing effect of the COVID-19 pandemic on our business, results of operations and financial condition is highly uncertain and cannot be predicted.*

The outbreak, or threatened outbreak, of any severe communicable disease (particularly COVID-19) could adversely affect the overall business sentiment and environment, particularly if such outbreak is inadequately controlled. The outbreak of COVID-19 has resulted in authorities implementing several measures such as travel bans and restrictions, quarantines and lockdowns. These measures have impacted and may further impact our workforce and operations, the operations of our consumers. In case there is a rapid increase in severe cases of infections leading to deaths, where the measures taken by governments are not successful or are any bans imposed by the government in this regard are lifted prematurely, may cause significant economic disruption in India and in the rest of the world. If any of our employees were suspected of contracting COVID-19 or any other epidemic disease, this could require us to quarantine some or all of these employees or disinfect the facilities. In addition, our revenue and profitability could be impacted to the extent that a natural disaster, health epidemic or other outbreak harms the Indian and global economy in general. The outbreak has significantly increased economic uncertainty. It is likely that the current outbreak or continued spread of COVID-19 will cause an economic slowdown and it is possible that it could cause a global recession.

2. *A slowdown in economic growth in India may adversely affect our business, financial condition, cash flows, results of operations and prospects.*

The performance and growth of our business are necessarily dependent on economic conditions prevalent in India, which may be materially and adversely affected by centre or state political instability or regional conflicts, a general rise in interest rates, inflation, and economic slowdown elsewhere in the world or otherwise. There have been periods of slowdown in the economic growth of India. India's economic growth is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports (oil and oil products), global economic uncertainty and liquidity crisis, volatility in exchange currency rates and annual rainfall which affects agricultural production. Any continued or future slowdown in the Indian economy or a further increase in inflation could have a material adverse effect on the price of our raw materials and demand for our products and, as a result, on our business and financial results. The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the U.S. and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investor's reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any worldwide financial instability, including the financial crisis and fluctuations in the stock markets in China and further deterioration of credit conditions in the U.S. or European markets, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our business and financial results.

3. *Changing laws, rules and regulations and legal uncertainties in India, including adverse application of tax laws and regulations, may adversely affect our business and financial performance.*

Our business and financial performance could be adversely affected by changes in law or interpretations of existing, or the promulgation of new, laws, rules and regulations in India applicable to us and our business. For further details please refer to the chapter "**Government and Other Statutory Approvals**" on page 255 for details of the laws currently applicable to us. The governmental and regulatory bodies in India and other jurisdictions where we operate may notify new regulations and/or policies, which may require us to obtain approvals and licenses from the government and other regulatory bodies, or

impose onerous requirements and conditions on our operations, in addition to those which we are undertaking currently. Any such changes and the related uncertainties with respect to the implementation of new regulations may have a material adverse effect on our business, financial condition, results of operations and cash flows.

In addition, unfavorable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment laws governing our business, operations and investments in our Company by non-residents, could result in us being deemed to be in contravention of such laws and/or may require us to apply for additional approvals. Tax and other levies imposed by the central and state governments in India that affect our tax liability include central and state taxes and other levies, income tax, turnover tax, goods and services tax, stamp duty and other special taxes and surcharges which are introduced on a temporary or permanent basis from time to time. The final determination of our tax liabilities involves the interpretation of local tax laws and related regulations in each jurisdiction as well as the significant use of estimates and assumptions regarding the scope of future operations and results achieved and the timing and nature of income earned and expenditures incurred. We are involved in various disputes with tax authorities. For details of these disputes, see **“Outstanding Litigation and Material Developments”** on page 252. Moreover, the central and state tax scheme in India is extensive and subject to change from time to time.

Any change in Indian tax laws could have an effect on our operations. For instance, the Taxation Laws (Amendment) Ordinance, 2019, a new tax ordinance issued by India’s Ministry of Finance on September 20, 2019, prescribes a number of changes to the income tax rate applicable to companies in India. According to this new ordinance, companies can henceforth voluntarily opt for a concessional tax regime (subject to no other special benefits/exemptions being claimed), which would ultimately reduce the effective tax rate for Indian companies. Any such future amendments may affect other benefits such as an exemption for income earned by way of dividend from investments in other domestic companies and units of mutual funds, exemption for interest received in respect of tax-free bonds, and long-term capital gains on equity shares if withdrawn by the statute in the future, and the same may no longer be available to us. Any adverse order passed by the appellate authorities/ tribunals/ courts would influence our profitability.

The Finance Act, 2022 (“Finance Act”), has, amongst others things, provided a number of amendments to the direct and indirect tax regime, including, without limitation, a simplified alternate direct tax regime and that dividend distribution tax (“DDT”), will not be payable in respect of dividends declared, distributed or paid by a domestic company after March 31, 2020, and accordingly, such dividends would not be exempt in the hands of the shareholders, both resident as well as non-resident and are likely to be subject to tax deduction at source. The Company may or may not grant the benefit of a tax treaty (where applicable) to a non-resident shareholder for the purposes of deducting tax at source from such dividend. Investors should consult their own tax advisors about the consequences of investing or trading in the Equity Shares. Further, the Government of India has notified the Finance Act, 2023, which has introduced various amendments to taxation laws in India. There is no certainty on the impact that the Finance Act may have on our business and operations or on the industry in which we operate. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current business or restrict our ability to grow our business in the future.

4. *Instability in financial markets could materially and adversely affect our results of operations and financial condition.*

The Indian economy and financial markets are significantly influenced by worldwide economic, financial and market conditions. Any financial turmoil, especially in the United States of America or Europe, may have a negative impact on the Indian economy. Although economic conditions differ in each country, investors’ reactions to any significant developments in one country can have adverse effects on the financial and market conditions in other countries. A loss in investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets. The global financial turmoil, an outcome of the sub-prime mortgage crisis which originated in the United States of America, led to a loss of investor confidence in worldwide financial markets. Indian financial markets have also experienced the contagion effect of the global financial turmoil, evident from the sharp decline in SENSEX, BSE’s benchmark index. Any prolonged financial crisis may have an adverse impact on the Indian economy and us, thereby resulting in a material and adverse effect on our business, operations, financial condition, profitability and price of our Equity Shares.

5. *Natural calamities could have a negative impact on the Indian economy and cause Our Company’s business to suffer.*

India has experienced natural calamities such as earthquakes, tsunami, floods etc. In recent years, the extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

6. *Government regulation of foreign ownership of Indian securities may have an adverse effect on the price of the Equity Shares.*

Foreign ownership of Indian securities is subject to government regulation. Under foreign exchange regulations currently in effect in India, transfer of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the rupees proceeds from the sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the Income Tax authorities. There can be no assurance that any approval required from the RBI or any other government agency can be obtained.

7. *Our performance is linked to the stability of policies and the political situation in India.*

The Government of India has traditionally exercised, and continues to exercise, a significant influence over many aspects of the economy. Our business, and the market price and liquidity of our Equity Shares, may be affected by interest rates, changes in government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. Any political instability in India may adversely affect the Indian securities markets in general, which could also adversely affect the trading price of our Equity Shares. Any political instability could delay the reform of the Indian economy and could have a material adverse effect on the market for our Equity Shares. There can be no assurance to the investors that these liberalization policies will continue under the newly elected government. Protests against privatization could slow down the pace of liberalization and deregulation. The rate of economic liberalization could change, and specific laws and policies affecting companies in the industrial equipment manufacturing sectors, foreign investment, currency exchange rates and other matters affecting investment in our securities could change as well. A significant change in India's economic liberalization and deregulation policies could disrupt business and economic conditions in India and thereby affect our business.

Details of the Market Making arrangement for this Issue

Our Company and the BRLM has entered into Market Making Agreement dated June 15, 2023 with the following Market Maker, to fulfill the obligations of Market Making for this issue:

Name	Hem Finlease Private Limited
Correspondence Address	203, Jaipur Tower, M I Road, Jaipur, Rajasthan 302001, India.
Tel No.	0141-4051000
E-mail	ib@hemsecurities.com
Website	www.hemsecurities.com
Contact Person	Mr. Ashok Soni
SEBI Registration No.	INZ000167734
NSE Market Maker Registration No.	SMEMM0674109092020

The Market Maker shall fulfill the applicable obligations and conditions as specified in the SEBI (ICDR) Regulations, and its amendments from time to time and the circulars issued by the NSE and SEBI regarding this matter from time to time.

Following is a summary of the key details pertaining to the Market making arrangement:

- The Market Maker(s) (individually or jointly) shall be required to provide a 2-way quote for 75% of the time in a day. The same shall be monitored by the stock exchange. Further, the Market Maker(s) shall inform the exchange in advance for each and every black out period when the quotes are not being offered by the Market Maker(s).

- The prices quoted by Market Maker shall be in compliance with the Market Maker Spread Requirements and other particulars as specified or as per the requirements of the NSE Emerge (SME platform of NSE) and SEBI from time to time.
- The minimum depth of the quote shall be ₹1,00,000/-. However, the investors with holdings of value less than ₹ 1,00,000/- shall be allowed to offer their holding to the Market Maker(s) (individually or jointly) in that scrip provided that he sells his entire holding in that scrip in one lot along with a declaration to the effect to the selling broker.
- The Market Maker shall not sell in lots less than the minimum contract size allowed for trading on the NSE Emerge (in this case currently the minimum trading lot size is 1600 equity shares; however the same may be changed by the NSE Emerge from time to time).
- After a period of three (3) months from the market making period, the Market Maker would be exempted to provide quote if the Shares of Market Maker in our company reaches to 25% of Issue Size. Any Equity Shares allotted to Market Maker under this Issue over and above 25% of Issue Size would not be taken in to consideration of computing the threshold of 25% of Issue Size. As soon as the Shares of Market Maker in our Company reduces to 24% of Issue Size, the Market Maker will resume providing 2 way quotes.
- There shall be no exemption/ threshold on downside. However, in the event the Market Maker exhausts his inventory through market making process, NSE may intimate the same to SEBI after due verification.
- Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker(s), for the quotes given by him.
- There would not be more than five Market Makers for a scrip at any point of time and the Market Makers may compete with other Market Makers for better quotes to the investors.
- On the first day of the listing, there will be pre-opening session (call auction) and there after the trading will happen as per the equity market hours. The circuits will apply from the first day of the listing on the discovered price during the pre-open call auction.
- The Market maker may also be present in the opening call auction, but there is no obligation on him to do so.
- There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily/fully from the market – for instance due to system problems, any other problems. All controllable reasons require prior approval from the Exchange, while *force-majeure* will be applicable for non-controllable reasons. The decision of the Exchange for deciding controllable and non-controllable reasons would be final.
- The Market Maker(s) shall have the right to terminate said arrangement by giving a 3 (three) months' notice or on mutually acceptable terms to the Merchant Banker, who shall then be responsible to appoint a replacement Market Maker(s) and execute a fresh arrangement. In case of termination of the above mentioned Market Making agreement prior to the completion of the compulsory Market Making period, it shall be the responsibility of the BRLM to arrange for another Market Maker in replacement during the term of the notice period being served by the Market Maker but prior to the date of releasing the existing Market Maker from its duties in order to ensure compliance with the requirements of regulation 106 V of the SEBI (ICDR) Regulations, 2018, as amended. Further our Company and the BRLM reserve the right to appoint other Market Makers either as a replacement of the current Market Maker or as an additional Market Maker subject to the total number of Designated Market Makers does not exceed five or as specified by the relevant laws and regulations applicable at that particulars point of time. The Market Making Agreement is available for inspection at our office from 10.00 A.M. to 5.00 P.M. on working days.
- **Risk containment measures and monitoring for Market Makers:** NSE Emerge will have all margins, which are applicable on NSE main board viz., Mark-to-Market, Value-At-Risk (VAR) Margin, Extreme Loss Margin, Special Margins and Base Minimum Capital etc. NSE can impose any other margins as deemed necessary from time-to-time.
- **Punitive Action in case of default by Market Makers:** NSE Emerge will monitor the obligations on a real time basis and punitive action will be initiated for any exceptions and/or non-compliances. Penalties/ fines may be imposed by the Exchange on the Market Maker, in case he is not able to provide the desired liquidity in a particular security as per the specified guidelines. These penalties/ fines will be set by the Exchange from time to time. The Exchange will impose a penalty on the Market Maker in case he is not present in the market (offering two way quotes) for at least 75% of the time. The nature of the penalty will be monetary as well as suspension in market making activities/ trading membership. The Department of Surveillance and Supervision of the Exchange would decide and publish the penalties/ fines/ suspension for any type of misconduct/ manipulation/ other irregularities by the Market Maker from time to time.

- **Price Band and Spreads:** The price band shall be 20% and the market maker spread (difference between the sell and the buy quote) shall be within 10% or as intimated by Exchange from time to time.
- Pursuant to SEBI Circular number CIR/MRD/DSA/31/2012 dated November 27, 2012, limits on the upper side for market makers during market making process has been made applicable, based on the Issue size and as follows:

Issue Size	Buy quote exemption threshold (including mandatory initial inventory of 5% of the Issue Size)	Re-Entry threshold for buy quote (including mandatory initial inventory of 5% of the Issue Size)
Up to ₹20 Crore	25%	24%
₹20 to ₹50 Crore	20%	19%
₹50 to ₹80 Crore	15%	14%
Above ₹80 Crore	12%	11%

The SEBI Circular bearing reference no: CIR/MRD/DP/ 02/2012 dated January 20, 2012, has laid down that for issue size up to ₹ 250 crores, the applicable price bands for the first day shall be:

- i. In case equilibrium price is discovered in the Call Auction, the price band in the normal trading session shall be 5% of the equilibrium price.
- ii. In case equilibrium price is not discovered in the Call Auction, the price band in the normal trading session shall be 5% of the issue price.

Additionally, the securities of the Company will be placed in SPOS and would remain in Trade for Trade settlement for first 10 days from commencement of trading. The following spread will be applicable on the SME platform.

S. No.	Market Price Slab (in ₹)	Proposed Spread (in % to sale price)

Notes:

- We have considered the above quotations for the budgetary estimate purpose and have not placed orders for them. The actual cost of procurement and actual supplier/dealer may vary.
- All quotations received from the vendors mentioned above are valid as on the date of this Prospectus. However, we have not entered into any definitive agreements with any of these vendors and there can be no assurance that the same vendors would be engaged to eventually supply the machineries/equipments or at the same costs.
- The machinery/equipment models and quantity to be purchased are based on the present estimates of our management. The Management shall have the flexibility to revise such estimates (including but not limited to change of vendor or any modification/addition/deletion of machineries or equipments) at the time of actual placement of the order. In such case, the Management can utilize the surplus of proceeds, if any, arising at the time of actual placement of the order, to meet the cost of such other machinery, equipments or utilities, as required. Furthermore, if any surplus from the proceeds remains after meeting the total cost of machineries, equipments and utilities for the aforesaid purpose, the same will be used for our general corporate purposes, subject to limit of 25% of the amount raised by our Company through this Issue.
- We are not acquiring any second hand machinery.

The quotations relied upon by us in arriving at the above cost are valid for a specific period of time and may lapse after the expiry of the said period. Consequent upon which, there could be a possible escalation in the cost of machineries proposed to be acquired by us at the actual time of purchase, resulting in increase in the estimated cost. Further, cost will be escalated on account of freight expenses, installation charges, packaging & forwarding, custom duty etc. Such cost escalation would be met out of our internal accruals.

Assumptions for working capital requirements

The following table sets forth the details of the holding period (with days rounded to the nearest whole number) considered for financial years ended March 31, 2022, March 31, 2021 and March 31, 2020, as well as projections for financial year ended March 31, 2023 and March 31, 2024.

Particulars	Unit	FY 20	FY 21	FY 22	FY 23	FY 24
		Audited	Audited	Audited	Estimated	Estimated
Debtors	Days	97	91	68	65	55
Creditors	Days	62	46	55	60	15
Inventories	Days	49	60	60	60	60

Justification:

Sr. No	Particulars	Justification
1	Debtors	The historical holding days of trade receivables has been improving from 97 days in Fiscal 2020 to 68 days in Fiscal 2022. As per the current credit terms of the company & prevalent trend in business of the company, the holding level for debtors is anticipated at 65 days of total revenue from operations during Fiscal 23 and at 55 days of total revenue from operations during Fiscal 24
2	Creditors	Past trend of trade payable holding days has been improving from 62 days in the Fiscal 2020 to 55 days in Fiscal 2022. It is estimated to be 60 days for Fiscal 2023 however, our Company intends to reduce trade payable to 15 days during Fiscal 2024 to avail cash discount as well as competitive purchase price to increase overall profitability of our Company.
3	Inventories	Inventories include raw materials and finished goods. The historical holding days of inventories has been in range 49 to 60 days during the last three financial years. Company estimates inventories holding days to be around 60 days in Fiscal 23 and Fiscal 24

4. General Corporate Purpose

Our management, in accordance with the policies of our Board, will have flexibility in utilizing the proceeds earmarked for general corporate purposes. We intend to deploy the balance Fresh Issue proceeds aggregating Rs. 868.48 lakhs towards the general corporate purposes to drive our business growth. In accordance with the policies set up by our Board, we have flexibility in applying the remaining Net Proceeds, for general corporate purpose including but not restricted to, meeting operating expenses, initial development costs for projects other than the identified projects, and the strengthening of our business development and marketing capabilities, meeting exigencies, which the Company in the ordinary course of business may not foresee or any other purposes as approved by our Board of Directors, subject to compliance with the necessary provisions of the Companies Act, 2013.

We confirm that any issue related expenses shall not be considered as a part of General Corporate Purpose. Further in case, our actual issue expenses turn to be lesser than the estimated issue expenses of Rs. 478.74 lacs, such surplus amount shall be utilized for General Corporate Purpose in such a manner that the amount for general corporate purposes, as mentioned in the Prospectus, shall not exceed 25% of the amount raised by our Company through this Issue.

Proposed Schedule of Implementation:

The proposed year wise break up of deployment of funds and Schedule of Implementation of Net Issue Proceeds is as under:

(Rs. In Lakhs)

Sr. No.	Particulars	Amount to be deployed and utilized in F.Y. 2023-24
1.	Funding Capital Expenditure towards installation of additional plant and machinery.	514.76
2.	Funding Capital Expenditure towards construction of factory building	2500.00
2.	Funding of working capital requirement	1,000.00
3.	General Corporate Purpose	868.48
	Total	4,883.24

Means of Finance

Except as mentioned above for Funding Capital Expenditure towards construction of factory building, the objects are proposed to be funded from the Net Proceeds and by utilizing our internal accruals and bank borrowings. Accordingly, we confirm that there is no requirement to make firm arrangements of finance under the SEBI ICDR Regulations through verifiable means towards at least 75% of the stated means of finance, excluding the Net Proceeds to be raised from the Issue and existing identifiable internal accruals, as prescribed under the SEBI ICDR Regulations.

Subject to applicable law, if the actual utilization towards the Objects is lower than the proposed deployment, such balance will be used for general corporate purposes to the extent that the total amount to be utilized towards general corporate purposes will not exceed 25% of the Gross Proceeds in accordance with Regulation 7(2) of the SEBI ICDR Regulations. In case of a shortfall in raising the requisite capital from the Net Proceeds or an increase in the total estimated cost of the Objects, business considerations may require us to explore a range of options including utilizing our internal accruals and seeking additional debt from existing and/or future lenders. We believe that such alternate arrangements would be available to fund any such shortfalls. Further, in case of variations in the actual utilization of funds earmarked for the purpose set forth above, increased funding requirements for a particular purpose may be financed by surplus funds, if any, available in respect of other purposes for which funds are being raised in the Fresh Issue. Any variation in the utilization of the Net Proceeds as disclosed in this Red Herring Prospectus shall be subject to certain compliance requirements, including prior approval of the shareholders of our Company. The Objects may be varied in the manner provided in *“Objects of the Issue – Variation in Objects”* on page 75.

As we operate in competitive environment, our Company may have to revise its business plan from time to time and consequently our fund requirements may also change. Our Company’s historical expenditure may not be reflective of our future expenditure plans. Our Company may have to revise its estimated costs, fund allocation and fund requirements owing to various factors such as economic and business conditions, increased competition and other external factors which may not be within the control of our management. This may entail rescheduling or revising the planned expenditure and funding requirements, including the expenditure for a particular purpose at the discretion of the Company’s management.

For further details on the risks involved in our business plans and executing our business strategies, please see the section titled *“Risk Factors”* beginning on page 24 of the Red Herring Prospectus.

Appraisal

None of the Objects have been appraised by any bank or financial institution or any other independent third-party organization. The funding requirements of our Company and the deployment of the proceeds of the Issue are currently based on available quotations and management estimates. The funding requirements of our Company are dependent on a number of factors which may not be in the control of our management, including but not limited to variations in interest rate structures, changes in our financial condition and current commercial conditions of our Business and are subject to change in light of changes in external circumstances or in our financial condition, business or strategy.

Shortfall of Funds

Any shortfall in meeting the fund requirements will be met by way of internal accruals and or unsecured Loans.

Bridge Financing Facilities

As on the date of the Prospectus, we have not raised any bridge loans which are proposed to be repaid from the Net Proceeds.

Monitoring Utilization of Funds

As the size of the Issue will not exceed Rs.10,000 Lakhs, the appointment of Monitoring Agency would not be required as per Regulation 262(1) of the SEBI ICDR Regulations. Our Board and the management will monitor the utilization of the Net Issue Proceeds through our audit committee. Pursuant to Regulation 32 of the SEBI Listing Regulations, our Company shall on half-yearly basis disclose to the Audit Committee the Application of the proceeds of the Issue. On an annual basis, our Company shall prepare a statement of funds utilized for purposes other than stated in this Prospectus and place it before the Audit Committee. Such disclosures shall be made only until such time that all the proceeds of the Issue have been utilized in full.

Interim Use of Proceeds

Pending utilization of the Issue proceeds of the Issue for the purposes described above, our Company will deposit the Net Proceeds with scheduled commercial banks included in schedule II of the RBI Act.

Our Company confirms that it shall not use the Net Proceeds for buying, trading or otherwise dealing in shares of any listed company or for any investment in the equity markets or investing in any real estate product or real estate linked products.

Variation in Objects

In accordance with Section 27 of the Companies Act, 2013, our Company shall not vary the objects of the Issue without our Company being authorized to do so by the Shareholders by way of a special resolution. In addition, the notice issued to the Shareholders in relation to the passing of such special resolution shall specify the prescribed details as required under the Companies Act and shall be published in accordance with the Companies Act and the rules there under. As per the current provisions of the Companies Act, our Promoters or controlling Shareholders would be required to provide an exit opportunity to such shareholders who do not agree to the proposal to vary the objects, at such price, and in such manner, as may be prescribed by SEBI, in this regard.

Other confirmations

There are no material existing or anticipated transactions with our Promoter, our Directors, our Company's key Managerial personnel, in relation to the utilization of the Net Proceeds. No part of the Net Proceeds will be paid by us as consideration to our Promoters, our Directors or key managerial personnel except in the normal course of business and in compliance with the applicable laws.

STATEMENT OF SPECIAL TAX BENEFITS

To,

The Board of Directors
Greenchef Appliances Limited
No. 477 E, IV Phase, Peenya Industrial Area,
Bangalore - 560 058,
Karnataka, India

Dear Sirs,

Sub: Statement of Tax Benefits ('The Statement') available to Greenchef Appliances limited ('The Company') and its shareholders under the Direct and Indirect Tax Laws in India

We hereby report that the enclosed annexure prepared by the management of **Greenchef Appliances limited**, states the special tax benefits available to the Company and the shareholders of the Company under the Income-Tax Act, 1961, the Central Goods and Services Tax Act, 2017, the Integrated Goods and Services Tax Act, 2017, the Union Territory Goods and Services Tax Act, 2017, respective State Goods and Services Tax Act, 2017 (collectively the "GST Act") presently in force in India. Several of these benefits are dependent on the Company or its shareholders fulfilling the conditions prescribed under the relevant provisions of the Act. Hence, the ability of the Company or its shareholders to derive the tax benefits is dependent upon fulfilling such conditions which, based on business imperatives which the Company may face in the future, the Company may or may not choose to fulfill.

The benefits discussed in the enclosed Annexure cover only special tax benefits available to the Company and do not cover any general tax benefits available to the Company. Further, the preparation of enclosed statement and the contents stated therein is the responsibility of the Company's management. We are informed that, this Statement is only intended to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of the tax consequences and the changing tax laws, each investor is advised to consult his or her own tax consultant with respect to the specific tax implications arising out of their participation in the proposed initial public offering of Equity shares ("the Issue") by the Company.

We do not express any opinion or provide any assurance as to whether:

- a) The Company or its shareholders will continue to obtain these benefits in future; or
- b) The conditions prescribed for availing the benefits have been/would be met.

The contents of the enclosed statement are based on information, explanations and representations obtained from the Company and on the basis of our understanding of the business activities and operations of the Company.

Our views are based on facts and assumptions indicated to us and the existing provisions of tax law and its interpretations, which are subject to change or modification from time to time by subsequent legislative, regulatory, administrative, or judicial decisions. Any such changes, which could also be retrospective, could have an effect on the validity of our views stated herein. We assume no obligation to update this statement on any events subsequent to its issue, which may have a material effect on the discussions herein. This report including enclosed annexure are intended solely for your information and for the inclusion in the Draft Red Herring Prospectus/ Red Herring Prospectus or any other issue related material in connection with the proposed initial public offer of the Company and is not to be used, referred to or distributed for any other purpose without our prior written consent.

ANNEXURE TO THE STATEMENT OF SPECIAL TAX BENEFITS

The information provided below sets out the special tax benefits available to the Company and the Equity Shareholders under the Income Tax Act, 1961 presently in force in India. It is not exhaustive or comprehensive and is not intended to be a substitute for professional advice. Investors are advised to consult their own tax consultant with respect to the tax implications of an investment in Equity Shares particularly in view of the fact that certain recently enacted legislation may not have a direct legal precedent or may have a different interpretation on the benefits, which an investor can avail.

A. SPECIAL DIRECT AND INDIRECT TAX BENEFITS TO THE COMPANY

The Company is not entitled to any special tax benefits under the Income Tax Act, 1961 and GST Act.

B. SPECIAL DIRECT AND INDIRECT TAX BENEFITS TO THE SHAREHOLDERS

The Shareholders of the Company are not entitled to any special tax benefits under the Income Tax Act, 1961 and GST Act.

Notes:

1. For the purpose of reporting here, we have not considered the general tax benefits available to the company or shareholders.
2. The above statement covers only certain relevant direct tax law benefits and indirect tax law benefits or benefit.
3. No assurance is given that the revenue authorities/courts will concur with the views expressed herein. Our views are based on the existing provisions of law and its interpretation, which are subject to changes from time to time. We do not assume responsibility to update the views consequent to such changes. We shall not be liable to any claims, liabilities or expenses relating to this assignment except to the extent of fees relating to this assignment, as finally judicially determined to have resulted primarily from bad faith or intentional misconduct. We will not be liable to any other person in respect of this statement.

Global economy outlook

As per the International Monetary Fund (IMF)'s World Economic Outlook growth projections released in October 2022, the world economy grew by 6 % in CY21¹ majorly due to economic recovery and the lower base. For CY22, global economic growth is estimated at 3.2% citing disruptions due to the Russia-Ukraine conflict and higher-than-expected inflation worldwide. CY23 global economic growth is projected to slow down further to 2.7% mainly due to tightening global financial conditions, expectations of steeper interest rate hikes by major central banks to fight inflation, a sharper slowdown in China and spillover effects from the war in Ukraine with gas supplies from Russia to Europe tightening. The IMF projects world economic growth between 2.6%-3.3% on year on year (Y-o-Y) basis for next 5 years.

IMF revises the GDP growth outlook considering uncertainties relating to global inflation

Advanced Economies Group

For the major Advanced economies group, the GDP growth is estimated to be lower at 2.4% in CY22 and projected at 1.1% in CY23. One of the major countries from this group is United States.

The baseline growth for United States is revised down by 0.7 percentage points for CY22 and remains unchanged for CY23. This is reflective of declining real disposable income impacting consumer demand with higher interest rates taking toll on spending.

The growth in Euro Area is comparatively less pronounced than that in United States, which displays average of performance of the member countries in Euro Area. Recovery in tourism related services and industrial production in Italy and Spain, Russian gas supply cuts, tighter financial conditions, with rapidly rising policy rate reflects upward revision of 0.5 percentage point in CY22 and downward revision 0.7 percentage point in CY23.

Emerging market and developing economies group

For the Emerging market and developing economies group, GDP growth is estimated to have declined to 3.7% in CY22 and projected to sustain at that level in CY23. This downgrade is primarily reflection of sharp slowdown in China’s economy and moderation in India’s economic growth. The China’s GDP growth is estimated to slow down to 3.2% in CY22 and then pick-up to 4.4% in CY23. This is the lowest growth in more than four decades, excluding the initial COVID-19 crisis in CY20. Shanghai, a major global supply chain hub, entered a strict lockdown in April 2022 due to worrisome surge in Covid-19 cases, forcing citywide economic activity to halt for about eight weeks. The worsening crisis in China’s property sector is also dragging down sales and real estate investment. Furthermore, COVID-19 pandemic related intermittent lockdowns continue to adversely impact economic growth.

The estimates for India’s GDP growth have been downgraded to 6.8% in CY22 and 6.1% in CY23. This downgrade is majorly reflection of weaker-than-expected outturn in the second quarter and more subdued global demand.

India to remain fastest growing economy transcending China

Despite of the turmoil in last two-three years, India bears good tidings for becoming USD 5 trillion economy by CY27. According to the IMF dataset on Gross Domestic Product (GDP) at current prices for India, the current GDP is estimated to be at USD 3.5 trillion for CY22 and projected to be at USD 5.5 trillion by CY27. The expected GDP growth rate of India for coming years is almost double as that of world economy.

Chart 2: GDP growth trend comparison - India and China (Real GDP, Y-o-Y change in %)

E-Estimated; P- Projections; Source: IMF, World Economic Outlook Database (October 2022)

Besides this, India stands out as the fastest growing economy amongst the major economies. Outshining the growth rate of China, the Indian economy is expected to grow at more than 6% rate in the period of CY23-CY27.

Indian economy is paving its way towards becoming largest economy in the world. Currently, India is the third largest economy globally in terms of Purchasing Power Parity (PPP) with ~7% share in global economy with China [~18%] on the top and United states [~15%] being second. Purchasing Power Parity is an economy performance indicator denoting price of an average basket of goods and services that a household needs for livelihood in each country. In spite of the pandemic and the geo-political tensions in Europe, India has been one of the major contributors to world economic growth.

Indian Economy Outlook

GDP growth and Outlook

Resilience to external shocks remains critical for near-term outlook

The FY21² started with the country being hit by the pandemic which saw lockdowns and restrictions being imposed across states. This impeded economic output in Q1FY21 and led to a year-on-year (y-o-y) decline of 23.8% in GDP. By the end of Q4FY21, the economy preceded the way to recovery. In broader sense, the pandemic resulted in 6.6% negative growth for the Indian economy in FY21.

The Indian economy bounced back strongly in Q1FY22 with 20.1% y-o-y growth due to lower base effect. The easing of lockdowns and restrictions across states since June coupled with the decline in Covid-19 cases and higher vaccination rate facilitated higher economic activity as reflected in the GDP for Q2FY22, which grew annually by 8.4%. The dip in Q3FY22 of 5.4% can be attributed to the fading base effect. India's economy recorded modest growth of 4.1% in Q4FY22, down from 5.4% in the previous quarter. The economy was hit by the third wave of Covid-19 pandemic during the quarter. Global supply bottlenecks due to the Russia-Ukraine dispute and higher input costs slowed down the pace of recovery in the last quarter. Overall, India is estimated to have witnessed 8.7% growth in FY22.

In Q1FY23, India recorded 13.5% growth in GDP which can largely be attributed better performance by agriculture and services sectors. Following this double-digit growth, Q2FY23 witnessed 6.3% growth. This slowdown in growth as compared to the previous quarter can be accounted to the normalization of base and a contraction in the manufacturing sector's output. Prospectively, announcements in the Union Budget 2022-23 on boosting public infrastructure through enhanced capital expenditure are expected to augment growth and crowd in private investment through large multiplier effects in FY23. However, heightened inflationary pressures and resultant policy tightening may pose risk to the growth potential.

GDP growth outlook

With improvement in demand for contact-intensive sectors as well as positive business and consumer sentiment, the discretionary spending and urban consumption is expected to bolster economic growth. Along with increasing government support and push towards capex, the investment activities are expected to stay upright through improving bank credit and increasing capacity utilization. On the other hand, headwinds from geopolitical tensions, tightening global financial conditions and slowing external demand pose downside risks to net exports and hence to India's GDP outlook.

Taking all these factors into consideration, in December 2022, the RBI in its bi-monthly monetary policy meeting estimated the real GDP growth to be at 6.8% for FY23.

Industrial Growth

Improved core sector and capital goods sector helps in IIP growth momentum

Index of Industrial production (IIP) is an index to track manufacturing activity in an economy.

On a cumulative basis, IIP grew by 11.4% in FY22. However, this high growth is mainly backed by a low base of FY21. FY22 IIP was higher by 2.0% when compared with the pre-pandemic level of FY20, indicating that while economic recovery is underway, it is still very nascent.

Moreover, in this current year, IIP registered 5.5% growth for the cumulative period April – November 2022. This growth is supported by favorable base and momentum effect. Going ahead, it will be critical for the current growth momentum in the

²FY – Financial Year

industrial sector to be maintained. In the environment of global slowdown, maintaining growth in Industrial output will depend on the resilience and momentum of domestic demand recovery. Healthy credit growth and moderating inflation in the economy is likely to be supportive of domestic consumption demand in the months to come. Pick up in the investment demand is also expected to be supportive of segments like capital goods and infrastructure. However, industrial sector might feel the pinch of global slowdown as reflected by contraction in the export dependent sectors.

Going forward, moderating inflation in the economy is likely to be supportive of domestic demand in the months to come. Easing of global commodity prices is also expected to aid the manufacturing sector in the coming quarter by reducing the input cost.

Consumer Price Index

CPI continues to remain high

Inflation has reappeared as a global issue in both advanced and emerging economies. India's retail price inflation stood at 5.5% in FY22 which is within the targeted tolerance band of 6%. The consumer inflation started to upswing from October 2021 onwards. As per the monthly numbers, the inflation rate reached the tolerance level of 6% in January 2022. Following this, the month of March 2022 registered 6.9% rate.

Chart 4: Retail Price Inflation in terms of index numbers and Y-o-Y Growth in % (Base: 2011-12=100)

Source: MOSPI

Consecutively, during the cumulative period of April 2022 – December 2022, the inflation rate remained above the RBI's tolerance level, surpassing the band of 6.8%. The retail inflation touched low of 5.7% in December 2022 retreating back into the RBI's tolerance band for the second consecutive month after 5.9% in previous month. The moderation in inflation, primarily food inflation is comforting but it is mostly led by vegetables which are susceptible to weather fluctuations.

The CPI is primarily factored in by RBI while preparing their bi-monthly monetary policy. At the bi-monthly meeting held in December 2022, RBI projected inflation to be at 6.7% for FY23. For the Q3FY23, estimations were made at to 6.6% and 5.9% for Q4FY23 . Going forward, CPI inflation for Q1FY24 is projected at 5% and for Q2FY24 at 5.4%.

RBI tightening the monetary policy to tame the inflation

RBI hiked its policy repo rate by 35 basis points (bps) to 6.25% in a meeting held between 5-7 December 2022. RBI maintained the liquidity adjustment facility (LAF) corridor by adjusting the standing deposit facility (SDF) rate at 6.00% as the floor and the marginal standing facility (MSF) at the upper end of band at 6.50%.

The central bank continued to maintain its stance as accommodative.

The consecutive rate hike by RBI has come against the backdrop of intensifying inflationary pressures in the global and domestic economies. With the US dollar index appreciation to a two decade high in July 2022, both advanced and emerging economies witnessed weakening of their currencies against the US dollar. RBI foresees this could lead to imported inflationary pressure. With domestic economic activities gaining traction, RBI has shifted gear to prioritize controlling inflation. RBI continues to remain focused on withdrawal of accommodation to ensure that inflation remains within the target going forward, while supporting growth.

OVERVIEW ON KITCHEN APPLIANCES INDUSTRY

Kitchen appliances are mainly the appliances used for smooth and easy cooking. These appliances are used in household and other places for daily cooking needs. Users can reduce their time and efforts required for cooking activities effectively with the help of such appliances. The kitchen appliances are available in numerous colors, styles, materials, sizes and mechanisms and have extensive applications in the residential and commercial sectors across globe. Demand for easy and fast cooking appliances is expected to increase along with technological advancement which is catalyzing the growth of this industry in coming years.

The kitchen appliances are sub-segment of the consumer durable industry. The consumer durable industry as a whole can be broadly classified into 3 sectors:

- **White Goods:** White goods mainly include air conditioners, refrigerators, washing machines, audio equipment and speakers.
- **Brown Goods:** These kind of consumer durable goods mostly include kitchen appliances like chimneys, electric fans, grinders, iron, microwave ovens, mixers and varied other cooking ranges.
- **Consumer Electronics:** Some of the most commonly used consumer electronic goods are DVD players, MP3 players, mobile telephones, telephones, VCD players etc.

Considering this classification, kitchen appliances are broadly covered under white goods as well as brown goods.

OVERVIEW ON GLOBAL KITCHEN APPLIANCES INDUSTRY

The global kitchen appliances market has reached approximately USD 250 billion in the year 2022. It is thereafter projected to grow at 4%-5% CAGR by the year 2027. Globally, Asia Pacific has emerged as booming region along with Europe.

The key growth drivers for global kitchen appliances demand is growing world's population, rapid urbanization and exponential growth in household sector in emerging economies and increase in disposable income. According to the United Nations (UN), the world's population stood at 7.9 billion in the year 2021 and expected to touch 9.7 billion in the year 2050. With this, kitchen appliances market is expected to witness steady growth as kitchen will continue to be essential center for domestic activities propelling the demand for kitchen appliances globally.

OVERVIEW ON INDIAN KITCHEN APPLIANCES INDUSTRY

The Indian Consumer Durable Industry (which includes domestic appliances and consumer electronics) is forecasted to double its market value in next 3 years and expected to reach around USD 18 billion (around Rs. 1.4 trillion) by the year 2050, according to the Consumer Electronics and Appliances Manufacturers Association (CEAMA). CEAMA is also optimistic to make India the alternative hub for exports.

The kitchen appliances industry in India is expected to grow at a CAGR of 9.0% during the period of 2022-2026 in terms of volumes. This industry is expected to grow due to increased technological advancements, cost and energy efficiency, leading to improved product awareness and a rise in demand from the tier-II and tier-III cities. This market has been growing well for the past few years and is expected to grow further based on the increasing consumer consumption trends and the rise in per capita income. Several stores were shut for several months during the COVID-19 lockdowns, resulting in a major drop in demand for kitchen home appliances. The growth is supported by an increased demand for branded products and modern

kitchen appliances owing to increasing disposable incomes and changing lifestyle, which instigate an inclination toward sophistication of kitchens, especially for the growing working women population. India's food industry is also rapidly expanding which is leading to a growth in kitchen appliances industry. The expansion of retail shops, restaurants, and cafes has a favourable impact on the growth of the kitchen appliances sector. Growing online retailing is also giving further impetus to the market to venture into this strongly emerging channel of distribution to capture maximum sales, and meet the consumer demand effectively.

Based on product types, the market has been segmented into gas stoves & hobs, non-stick cookware, pressure cooker, mixer grinder, wet grinders, induction cooktops, kettles, and rice cookers. Based on distribution channels, the market has been classified into online and offline. Offline distribution channels are important in the Indian kitchen appliances market, particularly for conventional products such as mixer grinders, gas stoves, and pressure cookers. In India, brick-and-mortar retail establishments continue to be the dominant distribution method for these products. The majority of buyers still prefer to buy kitchen appliances in physical stores where they can touch and feel the goods and get advice from sales personnel.

The India kitchen appliances market is anticipated to reach USD 2,933 million by the year 2026, increasing from USD 1,671 million in the year 2022, at a CAGR of 15.1%. The industry is thriving with the increasing demands of vast and diverse user base in the country. The kitchen appliances are majorly utilised by the urban and the semi-urban sectors. The contribution from rural economy has only begun recently from this sector. About two-third of Indian kitchen appliances is sold in the urban centres and major metropolitan cities. Metros such as Mumbai and Delhi are emerging as consumption hubs for kitchen appliances. The presence of both organized and unorganized firm characterizes the market, with the former accounting for majority of the market share. The rise of ecommerce and the increase in demand for smart kitchen equipment presents considerable growth potential for manufacturers. The presence of a significant number of unorganized competitors offering low-cost items, as well as highly price sensitive mentality of Indian consumers, pose difficulties to the Indian kitchen appliances industry. In addition to that, supply chain delays and geopolitical tensions around the world are expected to impede the Indian kitchen appliances market growth during the forecast time.

Many consumers prefer to shop online because it is so convenient and there is such a broad selection of goods available. With the expanding global shopping trends, it is also anticipated that online sales will experience the fastest development in the future.

Offline Segment- With a wide variety of products and brands readily available, in addition to special discounts and advice from salespeople in the stores, consumers can purchase and install goods more easily, which has significantly accelerated this segment's development over the past few decades. To effectively understand the features of products from sales representatives through demos and presentations, people typically prefer to purchase electronic appliances from specialized stores. The

traditional offline market, however, continues to play a significant role in the market, particularly in rural regions where e-commerce adoption is still minimal.

The sales through online channel is more as compared to the offline channel. In terms of volume, the online channel is expected to grow at a CAGR of 3% between 2022-2026 while the offline channel is expected to grow at a CAGR of 1.9% over the same time period.

The rice cooker market is anticipated to grow at a CAGR of 6.2% over the period of 2022-2026, in terms of volumes. The market growth is driven by consumer shifting preferences for energy-efficient cooking appliances like the electric rice cooker. It uses 23% to 57% less energy than other traditional cooking appliances. New launches and product innovation are expected to increase product visibility amongst consumers over the next few years.

Channel Wise Distribution

Online Segment – The demand for rice cooker is anticipated to increase owing to all the innovative features. The major players are adopting advertising and promotional strategies to spread awareness among people regarding rice cookers sold through an ecommerce platform. E-commerce platforms collaborate closely with manufacturers of kitchen appliances to streamline the online purchasing process. The sale of large appliances online with free shipping, unconditional returns, and flexible customer credit are incentives offered by these portals.

Offline Segment - It is anticipated that an increase in retail locations, particularly in developing cities will increase the visibility of these electrical products through offline channels. Furthermore, it is anticipated that the offline distribution channel segment will continue to hold a sizable market share in the future.

The sales through online channel is more as compared to the offline channel. In terms of volume, the online channel is expected to grow at a CAGR of 7.6% between 2022-2026 while the offline channel is expected to grow at a CAGR of 4% within the same time period.

PRICING AND AVAILABILITY OF RAW MATERIALS

The kitchen appliance industry uses various raw materials specifically metal and plastic. These materials come mainly from virgin sources but also to some extent from recycled sources. The major raw materials required in manufacturing activities include metals like aluminium, steel and copper. The prices of these raw materials are volatile and subject to fluctuations arising from changes in domestic and international supply and demand dynamics, labour costs, competition, market speculation, and government regulations. Rapid changes in the prices of such raw materials may affect the production price and consequently the market price of these products. While some materials like steel or plastics are common to many product types, others are mainly associated with very specific products and functionalities.

The choice of materials used for the production of kitchen appliances has evolved over time. The two most significant trends are:

- increasing amount of plastic, replacing steel
- mechanical controls replacing electronic controls.

In addition, there are major trends such as products becoming smarter, well-connected and in some cases multifunctional, which are increasingly setting the tendency for better product design, efficient material usage as well as developments in recycling technologies and processes.

With connected and smart appliances and new user interfaces, there are more electronics components such as displays and touch screens in the products. Products are increasingly fitted with sensors and other technologies, including the use of small electronic components located away from a central printed circuit board, making certain materials more dispersed within a product.

Major trends impacting the material composition of products are production cost reduction. Especially the use of plastic polymers which has led to the reduction in production cost, the appearance of the product, safety requirements, and endurance of the product.

The year 2021-22 provided many challenges. The second wave of the pandemic and the resultant lock-down disrupted operations and dampened market sentiment. The Russia- Ukraine war led to supply chain imbalances and a surge in prices of fuels, raw materials and commodities. Prices of inputs such as steel, aluminium, have also spiked at its peak due to the ongoing geopolitical tensions. Though, the commodity prices have softened now but players continue to hike price to recover earlier

surges in raw materials. Nonetheless, with the prices of inputs such as steel, aluminium, declining gradually, the industry’s profitability is expected to improve going forward. But the industry still faces the threat of spiraling inflation and increasing financing rates.

Some of the key raw materials used in manufacturing of kitchen appliances are steel, aluminium, copper and High-Density Polyethylene (HDPE). Pricing trends of each of these materials is mentioned below in detail:

- **Steel Price**

India is the second largest steel producer in the world. Steel is consumed by various sectors like construction and infrastructure, capital goods, automobiles, consumer durables (kitchen appliances) and railways among other sectors. The Indian steel sector has been able to grow over the year due to domestic availability of raw material such as iron ore and cost-effective labour. The domestic steel production was at its highest at 114 million tonnes in FY22 (up from 96 million tonnes in FY21), an increase of 18.1% (y-o-y) on account of the revival in economic activities and low-base effect.

The average domestic finished steel prices peaked at Rs 96,079 per tonne in April 2022. After a sharp uptick, it started to witness a downward trend and declined to Rs 69,084 per tonne in December 2022, a decline of 17% on a y-o-y basis. The international prices were also on a declining trend on account of weak global demand. The domestic steel prices are expected to directionally follow the global prices and strengthen due to continued strong domestic demand and increase in input prices. In addition to the announcement on export duty, the import duty on steel raw materials was cut which is likely to lower the cost of domestic steel production. This is expected to enhance the availability of steel in the domestic market.

- **Aluminium**

Aluminium is one of the lightest metals in the world and is the second most used metal after steel. The production process of aluminium can be divided into upstream and downstream processes. The upstream process involves mining and refining activities and downstream process involves smelting, casting and fabricating. India is the second largest producer of aluminium followed by China. The country’s aluminium consumption is mainly driven by its use in power (48%), automobiles (15%), construction (13%), packaging (8%), industrial (7%), and consumer durable (7%) sector.

The aluminium price after remaining weak for two years in FY20 and FY21, witnessed growth of 54% in FY22 to USD 2,769 per tonne. The prices of aluminium touched USD 3,538 per tonne in the month of March 2022, a growth of 61% compared to the same month in previous year, due to rise in geopolitical tensions. Russia having the third largest capacity of aluminium affected the prices and led to the surge in prices. Additionally, lockdown in China (major producer of aluminium) and decision to close polluting smelters which pulled out some supply from the market also supported the price growth.

The prices further decreased by 11% in the month of December 2022 to USD 2,395 as compared to the corresponding period previous year. The volatility in prices was mainly observed due to low demand for aluminium in China due to lockdowns which led to stock pile up in China. The US Dollar index hit all time high amid the high interest rates offered by US Federal Reserve which further weakened the commodity demand due to foreign exchange costs. Hence, the prices of aluminium fell in sync with London Metal Exchange (LME) prices. This, in turn, impacted prices of aluminium.

The demand for aluminium and aluminium products is stable on account of steady consumption growth, and correction in prices.

Copper

Copper is majorly used in sectors like building and construction, infrastructure, consumer durables (kitchen appliances), electricals, telecommunications. The average prices of copper increased by 40.9% in FY22 to USD 9,686 per tonne from USD 6,875 per tonne in FY21.

The prices of copper peaked at its highest in March 2022 to USD 10,238 per tonne and increased by 13.47% over the previous year. This surge in prices was mainly because of tight supplies from main producers like Chile and Peru, low global inventories amid revival in economic activities after easing in Covid-19 restrictions. The price in May 2022 decreased by 8.06% to USD 9,363 per tonne from USD 10,183 per tonne in April 2022, due to the geopolitical tension around Russia and the weak international demand for the metal from countries like China, US and European nations. Moreover, the US Dollar index hit all time high amid the high interest rates offered by US Federal Reserve which further weakened the commodity demand due to foreign exchange costs. Ever since then, the prices have been showing a declining trend and fell to USD 8,367 per tonne in December 2022, a fall of 12% as compared to the corresponding period previous year.

Furthermore, the copper prices are expected to remain moderate in the near-term mainly because of softer demand from China due to Covid-19 related restrictions and lockdowns. The industry is also expected to witness moderation in revenues as the sales realizations will be lower as compared to previous fiscal.

High-Density Polyethylene (HDPE)

HDPE is a petroleum-based thermoplastic polymer, which is considered as one of the most versatile plastic materials available today. This is popularly known for its massive strength-to-density ratio, strong tensile strength, and intermolecular force, which is also harder, opaquer, and can withstand extremely high temperatures.

The increasing demand for kitchen appliances is expected to propel the growth of HDPE going forward. Kitchen appliances are consumer goods that have a long-life span (over three years) and are used over time. An increase in demand for kitchen appliances will increase the demand for HDPE as most of the kitchen appliances are manufactured using transformable plastic.

However, with concerns of global economic slowdown, the impact of war in Ukraine, lockdowns in China with resurging covid-19 cases, and the risks of stagflation envisaging numerous market scenarios are pressing the need for HDPE industry players to be more vigilant in the future. Robust changes brought in by the pandemic covid-19 in the HDPE supply chain and the burgeoning drive for a cleaner and sustainable environment are necessitating companies to alter their strategies.

KEY DEMAND DRIVERS OF THE INDUSTRY

The demand for a wide range of kitchen appliances is growing as a result of the ongoing increase in disposable income and technological innovation in India. This in turn is fuelling fierce competition among the various kitchen appliances brands that are available across the country.

- **Increasing disposable income**

With the rising disposable income, the demand growth is also accelerating, thus predicting a positive time for this sector. The overall increase in per capita income of the people has significant impact on the rising of the kitchen appliances sector in India. The consumers are very keen in elevating their lifestyle. The attractive marketing strategies of the manufacturing companies, peer pressure and competitive market lead to the booming fast-moving consumer durable (FMCD) industry in India. Between the period fiscal 2013 to fiscal 2023, net disposable income has registered CAGR of 10.7%.

• Urbanisation

Urbanization is a key driver of India's overall growth. The kitchen appliances industry is estimated to grow strongly due to rapid urbanization, increase in nuclear families and a growing middle class with high disposable incomes and aspirational living standards. Urbanization of India's population is growing on a larger population base. People living in Tier-II and tier-III cities have greater purchasing power parity, high internet penetration, and increasingly brand-conscious young population. Delhi, Mumbai, and Kolkata will be among the world's largest cities and cumulatively become home to 100 million people. This rapid urbanization would increase the demand of kitchen appliances industry. Apart from changing lifestyles and working styles urbanization has led to growth in the organized retail sector; this in turn has led to change in consumer buying behaviour. Rising urbanization in India leads to increase in overall retail spending in India which would directly benefit the kitchen appliances and cookware market as the highest share of people's expenditure is on food.

The urban population in India is estimated to have increased from 403 million (31.6% of total population) in the year 2012 to 498 million (35.4% of total population) in the year 2021.

• Favourable demographics and increasing domestic customer base

With 1.3 billion people, India is the second most populous country in the world, but with an average age of 29, it has one of the youngest populations globally. As this vast resource of young citizens enter the workforce, it could create a 'demographic dividend'. India is home to a fifth of the world's youth demographic and this population advantage could play a critical role in growth of Kitchen Appliances industry.

With the rise of working women, increasing proportion of working population and younger age group amongst the urban population in India, the demand is expected to grow for this industry. Rise in education among the youth could lead to a decline in dependency ratio and enhance lifestyles. This, in turn could strengthen consumer spending.

The population ageing 15-64 years accounts for about 67% of total population in India with about 950 million population in the year 2021.

• Consumer Behaviour

Customers' behaviour has undergone a massive shift over the last few years. Consumers demand products that are value for money and offer a superior experience with better connectivity, advanced technology and a premium look and feel, rather than opting for the cheapest appliance or gadget.

Below mentioned table depicts the amenities used by each of these classes:

	Rich India	Middle India	Poor India
Avg. annual exp (Rs.)	2,67,297	1,39,939	92,608
Amenity of LPG Stove	82%	47%	23%
Amenity of Separate Kitchen	77%	48%	37%

Source: Household Survey of India's Consumer Economy and Consumer Environment (ICE360^oI Survey), 2014

In addition, the health consciousness with preference for home cooked food and work from-home trends are seen as major demand drivers. An increased shift in consumer preference for sustainability and energy efficient, connected products, embedded with advanced AI technologies, is marking the next stage of market growth for the Kitchen Appliances industry. While there has been a continuous increase in the role of technology in the kitchen appliances industry, it is expected that the trend will continue to grow going forward in coming years. As a result, manufacturers are expected to continue to focus on building a solid pipeline of products that meets these expectations.

There has been gradual change in consumer spending behaviour as well. Private Final Consumption Expenditure (PFCE) which is measure of consumer spending has also showcased growth in past decade. Wherein, spending on home appliances category accounts for 0.1% of total expenditure.

Following chart depicts the trend of per capita PFCE:

- **Easy-availability of financing**

Consumer financing has become a major driver in the consumer durables industry. Retailers are providing easy financing options to the consumers by partnering with banks. The easy-availability of consumer financing is beneficial mainly for the lower- and middle-income group, especially when the cost of capital and flexibility of the scheme is in their favour.

- **Shift towards digital platforms**

The digital platforms of shopping and the secured online payment structures also contribute to the development of this sector. Consumers have been digitally influenced by the e-commerce platforms. There is large percentage of people who visit online platforms before buying the items offline. They compare the rates, the features, read the reviews and then they plan to invest in a particular kitchen appliance. More than 70% of the Indian population is hail from the rural sector. The Government has started many campaigns and initiatives to improve internet connectivity, the campaign of “Make India Digital”. The cheaper internet rates and the competitive rates of smartphones have played a positive role in boosting the sale of consumer durable as a whole. Rapid internet penetration, increasing smart phone usage and rise in digital literacy are accelerating the migration to e-commerce and digital payments, with online platforms bringing the brands closer to the consumers. This has enabled greater penetration of brands to Tier-II plus cities in India, enlarging the customer base in hitherto underrepresented markets.

- **Growing e-commerce penetration**

India is expected to become the world’s fastest growing e-commerce market, driven by robust investment in the sector and rapid increase in the number of internet users. The major contributor to e-commerce retail sales are consumer electronics and apparels followed by food & grocery, jewellery, furniture and others.

The E-Commerce sector is expected to grow at a CAGR of 19% during the period FY20 to FY25. This growth in the sector is driven by the increase in number of mobile users, internet connection, grocery and fashion/apparel. The online shoppers in India are expected to reach 220 million by FY25 and the penetration of online retail market is expected to reach 10.7% by FY24 from 4.7% in FY19.

The Government of India is planning to create a Billion Dollar Online Economy by 2025 through its ‘Digital India Campaign’.

India has more than 800 million internet users in December 2022 as per Ministry of Electronics and Information Technology (MeITY). This displays that there is access to the information. As per the data from Telecom Regulatory Authority of India (TARI) India’s overall internet user base grew 4.3% year-on-year in CY2021 to 829.3 million after steady double-digit growth during 2015-20 amid the rising prices of entry- level smartphones that slowed down 2G-to-4G conversion. New mobile internet subscribers fell 40-45% in 2022 following the jump in base smartphone prices, weighing down India’s internet user base growth, a trend likely to continue in 2023. The number of new subscribers using the mobile internet per year plunged from pre-covid levels of 60-70 million to around 35-40 million in CY2022. The full-fledged arrival of 5G across India is gradually leading to smartphone becoming more affordable, which in turn could lead to customers upgrading directly to 5G services.

The COVID-19 pandemic has had an impact on the Indian kitchen appliances sector, both positively and negatively. The desire for home-cooked meals had surged due to lockdowns and limitations, increasing sales of kitchen appliances such as mixers, grinders, and others. The pandemic, on the other hand, has disrupted the supply chain for kitchen equipment, with manufacturing and distribution facilities closing or working at reduced capacity. This has resulted in product shortages and price increases for various appliances.

To counter the COVID-19-associated challenges, the major companies advanced to digital sales channels, adopted new business strategies, and started or improved their social media presence. The transition to digital platforms resulted in an upsurge in the online retail business. Irrespective of the increase in their digital presence, small and medium-sized manufacturers may face challenges when attempting to enter and take advantage of the e-commerce market, as they face tough competition from well-established large businesses. When physical stores were closed or operated at a reduced capacity, the transition to Internet sales intensified.

Growth in online retail platforms such as e-commerce and social media is expected to offer lucrative growth opportunities to major market players during the forecast period. E-commerce is helping businesses to become more efficient as well as reliable. It is now very important for kitchen appliance companies to have a presence on online sales channels to be able to maintain a competitive edge in the global market. Moreover, online sales channels are key indicators in the globalization of business. Kitchen appliances manufacturing companies can offer their products on e-commerce websites that can help customers with an up-close view of the product. This website can help companies to gather information on customers which can be useful for future marketing.

- **Growing Investments**

The players of the kitchen appliances industry are making investments across their portfolios with the growing domestic and exports demand. Rapid expansion of the food industry and the growing use of advanced technology in built-in kitchen appliances is accelerating the demand for built-in kitchen appliances amongst consumers. Players like Whirlpool of India Ltd., Samsung India Electronics Private Limited, Haier Smart Home Co. Ltd., Bajaj Industries Ltd, Philips India Limited, Samsung India Electronics Pvt. Ltd., Sunflame Enterprises (P) Ltd., TTK Prestige Limited are making investments across their portfolios to meet the increasing demand for kitchen appliances. The capital expenditure underway for Kitchen Appliances sector for the FY22 stands Rs. 1,479 crores as compared to Rs. 850 crores in FY18 showing significant increase in capacity expansion.

INDUSTRY RISK AND MITIGATION

The Indian kitchen appliances industry has faced several challenges in the recent past with COVID-19-induced lockdowns, semiconductor shortages and poor consumer sentiment.

Slowdown in economy

India's gross domestic product growth rate have slowed down to 4% in FY20 and -7.3% in FY21. The outbreak of Covid-19 in year 2020 negatively impacted the demand and further contributed to slowdown. There has been a sluggishness in domestic private consumption demand, manufacturing, merchandise exports growth. Sluggishness in private consumption is reflected in limited income growth, cost increases, slowing real estate demand and an overall dent to consumer sentiment. In fact, much of this cyclical slowdown has affected sectors that are large employment generators, suggesting that incomes and/or employment growth in them are expected to have suffered. As households have been dipping into their savings while also leveraging themselves, their ability to spend could be constrained. In addition to the consumption slowdown, the demand was further impacted by continued tightening of liquidity conditions and negative sentiments in the rural market. Despite of the macro-economic challenges, India bears good tidings for becoming fastest growing economy in the world.

Semi-Conductor Shortage

The industry has been reeling from semiconductor shortages over the past few years. Several kitchen appliances manufacturers had to plan to supply chain operations keeping in mind the challenges in the global ecosystem. The supply chain has been impacted due to the pandemic and the chip production takes almost 6 months to develop into the final product. The semiconductor chip shortage remains the most significant headwind on a global level. There have been some signs of improvement recently. However, it remains to be seen when the industry will return to a more stable rate of production. In order to mitigate this issue, the Government of India has launched PLI scheme which offers a production linked incentive to boost domestic manufacturing and attract large investments in specified sectors. The scheme shall extend an incentive on incremental sales (over base year) of goods manufactured in India and covered under target segments, to eligible companies, for a period of five (5) years. The government has proposed to provide incentives of Rs. 76,000 crores for the development of semiconductors and display manufacturing ecosystem which will provide globally competitive incentive package to the companies for setting up plants in India in order to manufacture high quality semiconductor chips over the next 6-10 years. This initiative will further help to strengthen the domestic semiconductor manufacturing capacity in India.

Volatility in raw material prices

OEMs across the kitchen appliances industry are facing challenge of high raw material prices. The prices of inputs such as steel, aluminum etc. spiked due to the ongoing geopolitical tensions, therefore manufacturers have increased prices of appliances. The economically less-privileged segment of buyers which are sensitive to increase in price are more likely to get impacted which might lower the demand sentiment. Nonetheless, with the prices of inputs such as steel, aluminum declining gradually, the industry's profitability is expected to improve going forward.

High competition

The kitchen appliance industry is highly fragmented as there is competition from various domestic and international players. There are some of the big multinational brands like Haier, Bosch and Midea who are in competition to the domestic players. These domestic players include both - organised and unorganised players. The growth trajectory in kitchen appliances industry has encouraged new entrants to enter into this industry with new business models. In such highly competitive environment, to gain more market share the players are likely to reduce the pricing which is a challenge for the existing players.

GOVERNMENT INITIATIVES AND POLICIES

The Indian Government has taken several initiatives to augment the growth of the kitchen appliances sector. Some of these initiatives are Make in India Initiative, Pradhan Mantri Ujjwala Yojana (PMUY), Deen Dayal Upadhyaya Gram Jyoti Yojana, Pradhan Mantri Sahaj Bijli Har Ghar Yojana – Saubhagya Scheme – Rural Electrification, National Policy on Electronics Policy. These initiatives and policies are expected to augment the growth of kitchen appliance sector.

• Make in India Initiative

‘Make in India’ was launched to transform the country into a leading global manufacturing and investment destination so that potential investors and partners across the world would participate in the growth story of 'New India'. There is a surge in demand for kitchen appliances, which is giving a push to manufacturing in India. The Union Government has exempted taxes on certain components and parts to promote manufacturing in India. Apart from these, there are export incentives and reduced customs duties on raw material imports. Several other measures have been taken to give the Make-in-India plan a boost and promote the manufacturing of electronic items which were earlier imported from other countries and assembled in India. The government’s project ‘Make in India’ is expected to lead the growth and investment opportunities within the kitchen appliances industry.

Some of the Government impetus for ‘Make in India’ in Consumer Durables Sector includes below policies and schemes includes:

- Modified Electronics Manufacturing Clusters (EMC 2.0) Scheme – This scheme provides financial assistance in setting up manufacturing unit.
- Modified Special Incentive Package Scheme (MSIPS) – This scheme provides new and expanding electronic manufacturing units receive incentives along with re-imburement on excise duties and central tax for high capital investments units.

• Pradhan Mantri Ujjwala Yojana (PMUY) –

Ministry of Petroleum and Natural Gas (MOPNG) in May 2016, introduced the ‘Pradhan Mantri Ujjwala Yojana’ (PMUY) as a flagship scheme, with an objective to make clean cooking fuel such as Liquefied Petroleum Gas (LPG) available to the rural and deprived households to safeguard the health of women & children which were otherwise using traditional cooking fuels such as firewood, coal, cow-dung cakes etc. Usage of traditional cooking fuels had detrimental impact on the health of rural women as well as on the environment. Under the scheme, Rs 8000 crore had been earmarked for providing five crore LPG connections to Below Poverty Level (BPL) households. The Scheme provides a financial support of Rs 1600 for each LPG connection to the BPL household. With advent of such government initiatives, a large untapped market has surfaced for kitchen appliances like cooktops in interior region as well. This enables kitchen appliances players to generate more sales in terms of volumes as well as value.

Subsequently, the scheme was expanded in April 2018 to include women beneficiaries from seven more categories (Scheduled Caste/Scheduled Tribe, Pradhan Mantri Awaas Yojana, Antyodaya Anna Yojana, Most backward classes, tea garden, forest dwellers, Islands). Also, the target was revised to 8 Crore LPG connections. In the Union budget for FY 21-22, provision for an additional one crore LPG connection under the PMUY scheme was announced. This one crore additional PMUY connections (under Ujjwala 2.0) aim to provide deposit-free LPG connections to those low-income families who could not be covered under the earlier phase of PMUY. Along with a deposit free LPG connection, Ujjwala 2.0 will provide first refill and hotplate free of cost to the beneficiaries. In Ujjwala 2.0, migrants will not be required to submit ration cards or address proof. A self-declaration for both ‘family declaration’ and as a ‘proof of address’ will suffice. Ujjwala 2.0 will help achieve the Prime Minister’s vision of universal access to LPG.

This initiative has helped kitchen appliances manufacturers to partner with the oil and gas companies like HPCL, BPCL, as a co-branding strategy with new gas connections, in order to increase sales.

- **Deen Dayal Upadhyaya Gram Jyoti Yojana and Pradhan Mantri Sahaj Bijli Har Ghar Yojana – Saubhagya Scheme – Rural Electrification**

Deen Dayal Upadhyaya Gram Jyoti Yojana (DDUGJY) is designed to provide continuous power supply to the entire rural India. It is one of the key initiatives of Government of India and a flagship programmes of the Ministry of Power which will facilitate 24x7 supply of electricity. The DDUGJY can benefit rural households significantly as electricity is extremely vital for growth and development of the country.

The Government of India launched Pradhan Mantri Sahaj Bijli Har Ghar Yojana – Saubhagya in October, 2017, with the objective to achieve universal household electrification by providing electricity connections to all un-electrified households in rural areas and all poor households in urban areas in the country. All the States and Union Territories (UTs) have signed MoUs with the Central Government to ensure 24x7 power supply to all households, industrial & commercial consumers and adequate supply of power to agricultural consumers

The India government’s DDUGJY scheme has led to intense electrification of Indian villages. The overall intense electrification is expected to bring in overall socio-economic development in rural areas, mainly in terms of improved connectivity to all villages and rural households, more access to mass communication media (radio, telephone, television) and increased agricultural productivity, among others.

Consumer appliances market is also expected to witness higher penetration with growing rural electrification endeavours. The Indian Government’s continued push for rural electrification could benefit a host of consumer durables and electronics makers, mainly Food preparation and other Kitchen Appliances. Also, the recently introduced ‘Pradhan Mantri Sahaj Bijli Har Ghar Yojna (Saubhagya)’ scheme, which promises electricity to every Indian household by 2018, is likely to shed more light on profitability of consumer appliances makers over the next few years.

- **National Policy on Electronics Policy**

In 2019, the Ministry of Electronics and Information Technology passed the National Policy on Electronics Policy. A new Consumer Protection Bill was passed to make the existing rules more effective. There are some electronic kitchen appliances that operate on battery. The government has encouraged the manufacturing of battery chargers in India which will help innovation for kitchen appliances industry. The battery market is ripe at this moment, due to which several investments are being done by the government.

- **Foreign Direct Investment**

The Foreign Direct Investment (FDI) into single-brand retail has increased from 51% to 100% thus encouraging the foreign brands to reach the domestic users. For reducing dependence on imports, the Government of India has allowed 100% FDI in the electronics hardware manufacturing sector through the automatic route and 51% FDI in Multi-brand retail sector. Under the automatic route in the ESDM (Electronic System Design & Manufacturing) sector, 100% FDI is allowed, with foreign companies setting up manufacturing units in India. This proved to be a key attraction for foreign investors in the kitchen appliances industry.

- **GST Rates on Kitchen Appliances Industry**

The kitchen appliances industry has been subjected to GST based on their purpose and field of application. GST has also aided in ensuring uniformity of indirect tax rates across the country. The implementation of GST aims at reducing several tax burdens on manufacturers and foster their growth through more production. The below table depicts GST rate structure:

GST Tax rate

We manufacture the majority of core products like: railing pipe, mixing tube, brass burner, pan support etc required in Gas Stoves, weight valve and vent tube required in pressure cookers, mixi motor and jars required in Mixer Grinders etc. This enables us to control and monitor the quality and costs of these products. For certain product categories and sub-categories, we engage in sourcing from third party manufacturers both domestically and from outside India. For sourced products, we have a dedicated team to undertake inspection and ensure that such products are built to suit our specifications in terms of design and quality. We also provide after sales services in relation to our products. These services include repairs and maintenance of sold goods and installation Services. Our service charges vary from type of services (In warranty, out - of warranty), place of service (Home service, dealer location service) and on the nature or type of the product. The service charges depend on the type of product and services availed by the customers. As of December 31, 2022 our service team comprised of 130 service technicians across 13 states. Further we have also appointed 107 authorized service providers across 15 states. Our CRM software enables us to track customer requests and after sales support to ensure customer satisfaction.

We have three manufacturing facilities located at Bengaluru, Karnataka and one manufacturing facility located at Parwanoo, Himachal Pradesh. Our Parwanoo facility is focussed on manufacturing of Gas Stoves and hose pipes for which Our Company has also entered into marketing agreement with oil companies like: Hindustan Petroleum Corporation Limited, Indian Oil Corporation Limited and Bharat Petroleum Corporation Limited. Under these agreements, they authorize us to use their logo on our products like Gas Stove, Hose pipe, Trolley etc. manufactured as per their specifications. The said products are sold to distributors and they in turn sell to dealers that are mostly Authorised Gas Agencies of these oil companies. We pay channel access fee to the oil companies and for every product sold, we pay a commission to these oil companies. Our manufacturing facilities are accredited with ISO 9001:2015 for quality management system.

As of December 31, 2022, our manufacturing facilities are well connected with five strategically located C&F agents in the state of Rajasthan Maharashtra, Uttar Pradesh, Gujarat and Bihar. Additionally as on December 31, 2022 we have around 450 distributors in 22 states and 3 union territories of India. The C&F agents and distributors are, in turn, connected with a dealer network for sale of our products through their respective retail outlets. Further we are approved vendors of various modern retail chains such as DMART, Reliance Retail Limited, StarBazaar for the sale of our products from several of their retail outlets in India. Our products are also sold online through e-commerce platforms such as Flipkart India Private Limited, Jiomart, Bigbasket and Amazon Seller Services Private Limited.

Our Company was founded by our Promoters, Sukhlal Jain, Praveen Kumar Sukhlal Jain and Vikas Kumar Sukhlal Jain with experience of around 51 years, 20 years and 22 years in the kitchen appliances industry. We believe that the sector-specific

experience and expertise of our promoters has contributed significantly in the growth of our Company. We have received the below mentioned prestigious awards in the past that bear testimony to the customer confidence our products have gained over the years.

OUR COMPETITIVE STRENGTHS

A one stop shop for kitchen solutions with a diverse range of products across consumer preferences

Commenced our operations from a small size trading company in kitchen appliances to a manufacturing company with wide range of products like: Gas Stoves, Pressure Cookers, Mixer Grinders, Wet Grinders, Electric Rice Cooker, Induction Cooktops, Non-stick Cookwares, Kettles, Hose pipes, Gas Cylinder Trolley and Spin Mop with revenue from operations of ₹ 25,482.78 lakhs, ₹ 33,578.47 lakhs, ₹ 23,899.10 lakhs, ₹ 23,754.52 lakhs for period ended December 31, 2022 and Fiscal 2022, 2021 and 2020, and a presence in 22 states and 3 Union Territories of India. Our brand, Greenchef, in the Indian kitchen appliances industry is offering its customers to engage with the products specifically designed for their budget and lifestyle. As a result of our co-branding initiatives with oil companies such as Indian Oil Company Limited, Hindustan Petroleum Corporation Limited, Bharat Petroleum Corporation Limited to utilize their sale and distribution channels, our Gas Stoves have enjoyed a wide customer outreach. In this regard, Ministry of Petroleum and Natural Gas (MoPNG) in May 2016, introduced the 'Pradhan Mantri Ujjwala Yojana' (PMUY) as a flagship scheme, with an objective to make clean cooking fuel such as Liquefied Petroleum Gas (LPG) available to the rural and deprived households to safeguard the health of women & children which were otherwise using traditional cooking fuels such as firewood, coal, cow-dung cakes etc. This enables kitchen appliances players to generate more sales in terms of volumes as well as value. (Source: CareEdge Report)

We have obtained 17 design registrations in relation to our various products like: Mixer Grinders, Wet Grinders, Gas Stoves, which further strengthen our approach towards diversification. We believe that we have undertaken the diversification of our product portfolio on the basis of the needs of the customers, and we regularly seek their insights and feedback to ensure that our product range is optimized to ensure customer satisfaction. Over the years we have successfully developed a wide number of SKUs for each product category.

Emerging player in some of the key verticals

We believe that our experience in manufacturing, successful backward integration and design capabilities, strong relationships with our suppliers and customers has resulted in us achieving emerging market position in some of our key product verticals. We believe our emerging position helps us in buying components at competitive prices, achieve operational efficiencies, helps us in continuing to expand our customer base and further strengthens our relationship with customers. It further enhances our ability to diversify into related products and enter new geographies.

Increasing disposable income, Urbanization, Favourable demographics and increasing domestic customer base, Consumer Behaviour, Easy-availability of financing, Shift towards digital platforms, Growing e-commerce penetration, PLI Schemes, Growing Capital Expenditure are Key Demand Drivers of the Industry in India. (*Source: CareEdge Report*). We believe that our market penetration together with expansion plans for our manufacturing facilities as well as backward integration into manufacturing, enable us to be well-positioned to capture the growing demand.

Widespread, well connected distribution network with a presence across multiple retail channels and online e-commerce platforms and a dedicated after-sales network.

We believe that the integration of our supply chain and distribution network with our manufacturing facilities provides us with a competitive advantage over other players in the Indian kitchen appliances industry. As of December 31, 2022, our manufacturing facilities are well connected with five strategically located C&F agents in the state of Rajasthan Maharashtra, Uttar Pradesh, Gujarat and Bihar. Additionally as on December 31, 2022 we have around 450 distributors in 22 states and 3 union territories of India. The C&F agents and distributors are, in turn, connected with a dealer network for sale of our products through their respective retail outlets. Further we are approved vendors of various retail chains such as DMART, Reliance Retail Limited, StarBazaar for the sale of our products from several of their retail outlets in India. Further, we our products are sold online through e-commerce platforms such as Flipkart India Private Limited, Jiomart, Bigbasket and Amazon Seller Services Private Limited.

We believe that even with our expanded geographical outreach across India, our operations have the ability to quickly respond to a complex web of suppliers and customers, changing consumer preferences and constantly fluctuating demand. We strive to ensure that the quality of our products is complemented by the after-sales services provided to our customers across segments, through a dedicated CRM and a large team of service personnel to cater to the requirements of our customers. As of December 31, 2022 our service team comprised of 130 service technicians across 13 states. Further we have also appointed 107 authorized service providers across 15 states.

We engage in a wide range of marketing and advertising activities, including in-shop displays, banners & hoardings like: advertisements on flex boards, mdf display boards, backlit boards, glow sign boards, ACP boards, flange glowing boards etc, social media marketing, arch installations, road show marketing, advertisements in theatres, newspapers, TV channels, bus shelter branding, tricycle campaign etc which enable us to maintain the popularity and recall the brand value. We also maintain an in-house team of 164 sales and marketing personnel who continuously engage with various publications and advertisement agencies.

Strong manufacturing capability with efficient backward integration

We have three manufacturing facilities located at Bengaluru, Karnataka and one manufacturing facility located at Parwanoo, Himachal Pradesh. Our manufacturing facilities are accredited with ISO 9001:2015 for quality management system. As of December 31, 2022 our manufacturing facilities have an aggregate production capacity of 51.48 lakhs units per annum to

manufacture Gas Stoves, Pressure Cooker, Mixer Grinder, Wet Grinder, Electric Rice Cooker, Induction Cooktop, Non-stick Cookwares and Kettle.

We have the ability to manufacture components such as railing pipe, mixing tube, brass burner, pan support, weight valve, vent tube, sheet metal components, die cast parts and fixtures in house for manufacturing our products. We believe the backward integration of our manufacturing facilities has reduced our dependence on third party suppliers for such components resulting greater control on the manufacturing process. Backward integration also provides upper edge in designing of products, enhanced quality of products and customer retention capability.

Our manufacturing facilities are equipped with quality machinery, assembly lines and power backup. For the stub period ended on December 31, 2022, fiscals 2022, 2021 and 2020, our setup includes plant and machinery of Rs. 1,582.84 lakhs, Rs. 1396.00 lakhs, Rs. 636.96 lakhs and Rs. 728.01 lakhs that helps us bring efficiencies and economies of scale.

Consistent focus on quality

We believe that quality is a pre-requisite for a positive consumer experience and long-term brand loyalty. This philosophy has formed the foundation of the expansion and diversification of our product portfolio since our inception. Our focus on quality is maintained at all stages right from the sourcing of raw materials, which is undertaken from manufacturers to the product manufacturing and assembly stage, which is subject to a rigorous review and monitoring process undertaken at our manufacturing facilities. For products which are sourced by us from third party suppliers, we have a dedicated sourcing team and quality assurance team, which closely monitors the quality of such products.

Experienced Promoter and management team

Our Promoters, Sukhlal Jain, Praveen Kumar Sukhlal Jain and Vikas Kumar Sukhlal Jain have been associated with our Company since its inception and have an experience of around 51 years, 20 years and 22 years in the kitchen appliances industry. We believe that our business growth is attributable to rich promoter experience fostered by an entrepreneurial spirit. Thus we are well placed to capitalize the knowledge and experience of our promoters and management team which has been instrumental in growth of our Company. Our management team has substantial experience in the sectors which we serve, which enables us to capture market opportunities, formulate and execute business strategies, manage client expectations as well as proactively respond to changes in the market conditions. Moreover the independent directors on our Board of our company Mrs. Japna Choudhary is a Company Secretary with 12 years of experience, Mr. Smith Kumar Mogra is a Chartered Accountant with 7 years of experience and Mrs. Dhara Bhavesh Jain is a Dentist with 12 years of experience. Their advisory services and inputs are a value addition to our performance, compliance and overall operations.

Our mid-level management is supported by our trained personnel and skilled workers who benefit from our regular in-house training initiatives. We therefore believe that our qualified management and employee base have enabled us to extend our operating capabilities, improved the quality of our products and facilitated our growth in the industry.

OUR BUSINESS STRATEGIES

Increase our geographical reach and expansion of addressable market

We continually seek to enhance our addressable market through our network of C&F agents, distributors and dealers across the country. As on December 31, 2022 we have generated around 85.61% of our revenue from sales in top 10 geographical regions. We gradually intend to expand our business operations to other regions of the country, especially the North-East. We plan to continue our strategy of diversifying and expanding our presence in these regions for the growth of our business. Through further diversification of our operations geographically, we hope to hedge against risks of operations in only specific areas and protection from fluctuations resulting from business concentration in limited geographical areas. Appointment of C&F agents to undertake our stocking and distribution, enables us to reach our customers faster by reducing transportation time, optimise inventory, and limit trade over-dues. We further intend to extend our network of C&F agents, distributors and dealers.

Capitalize on increasing indigenization, commercialization and policy initiatives in the industry.

The Government has implemented several schemes relating to the kitchen appliances industry. All these schemes shall boost the kitchen appliances production in India, thereby increasing the demand for our products.

In the Union budget for FY 21-22, provision for an additional one crore LPG connection under the PMUY scheme was announced. This one crore additional PMUY connections (under Ujjwala 2.0) aim to provide deposit-free LPG connections to those low-income families who could not be covered under the earlier phase of PMUY. This initiative has helped kitchen

appliances manufacturers to partner with the oil and gas companies like HPCL, BPCL, as a co-branding strategy with new gas connections, in order to increase sales (*Source: CareEdge Report*). Our company has already entered into marketing agreement with oil companies like: Hindustan Petroleum Corporation Limited, Indian Oil Corporation Limited and Bharat Petroleum Corporation Limited. These initiatives will provide us with an opportunity to increase our market share. We look forward to leverage this vast network of rural households.

The government's project 'Make in India' is expected to lead the growth and investment opportunities within kitchen appliances industry. (*Source: CARE Report*). Also the recently introduced 'Pradhan Mantri Sahaj Bijli Har Ghar Yojna (Saubhagya)' scheme, which promises electricity to every Indian household by 2018, is likely to shed more light on profitability of consumer appliances makers over the next few years. (*Source: CARE Report*). We believe that our Company is well-poised to capitalize on these opportunities, creating value for all of the stakeholders involved, in the process. We believe a significant demand for our products is generated in India owing to our government's objective to enhance domestic sourcing as well as self-reliance.

Scale up branding, promotional and digital activities

Our wide spread presence and scale of operations allows us to increasingly focus on branding and promotional activities to enhance our visibility in the kitchen appliances industry. We seek to continue to enhance brand awareness and customer loyalty through our promotional and marketing efforts substantially increasing our digital presence and engagements.

We make our products available to our customers through omni-channel distribution networks across both online and offline touch points. With more than 800 million internet users in December 2022 as per Ministry of Electronics and Information Technology (MeITY) (*Source: CareEdge Report*), there is access to information. The digital platform and social media has enabled us to reach and engage with a wider audience and also customise product offering to our prospective customers. We believe that our consumer-focused products and product information increase customer confidence in our products and influences our customers' buying decisions. We intend to continue our offline marketing initiatives including in-shop displays, banners & hoardings like: advertisements on flex boards, mdf display boards, backlit boards, glow sign boards, ACP boards, flange glowing boards etc, social media marketing, arch installations, road show marketing, advertisements in theatres, newspapers, TV channels, bus shelter branding, tricycle campaign etc to focus on brand building initiatives of the company.

Our revenue from sale of Online and Offline mode for the nine months period ended on December 31, 2022 and for FY 21-22, FY 20-21 and FY 19-20 is as under:

Online & Offline Sales				
Sales Channels	December 31, 2022	March 31, 2022	March 31, 2021	March 31, 2020
Online Sales	4,818.23	5,436.39	2,118.74	294.70
Offline sales	20,664.55	27,776.62	21,766.12	23,454.94
Total	25,482.78	33,213.01	23,884.86	23,749.64

Continue to strengthen our existing product portfolio and diversify into products with attractive growth and profitability prospects

Our product portfolio under the brand Greenchef consists of Gas Stoves, Mixer Grinder, Wet Grinder, Pressure Cookers, Induction cooktops, Non-stick Cookwares, with number of SKUs for each product item, thereby aiding different functions and utilities in the kitchen and home. We have consistently focused on expanding and optimising our product range to offer utility, a range of features and value for money. We seek to develop new products to cater to the evolving requirements of a large customer base and cover newer customer segments. The customer base in India is witnessing rising income levels and improvement in overall employment.

With 1.3 billion people, India is the second most populous country in the world, but with an average age of 29, it has one of the youngest populations globally. As this vast resource of young citizens enter the workforce, it could create a 'demographic dividend'. India is home to a fifth of the world's youth demographic and this population advantage could play a critical role in growth of Kitchen Appliances industry. (*Source: CareEdge Report*). Apart from changing lifestyles and working styles urbanization has led to growth in the organized retail sector; this in turn has led to change in consumer buying behaviour. Rising urbanization in India leads to increase in overall retail spending in India which would directly benefit the kitchen appliances and cookware market as the highest share of people's expenditure is on food. (*Source: CareEdge Report*)

During the nine month periods ended December 31, 2022 and for Fiscals 2022, 2021 and 2020, traded products contribute to approximately 18%, 20%, 48% and 28% of our revenue from operations respectively. We propose to expand our presence in existing product categories by increasing the emphasis on manufacturing a greater proportion of our products, and reducing our reliance on traded products.

Invest in new manufacturing facility and increase backward integration in the plant

Our manufacturing facilities are equipped to manufacture a wide and diverse range of products, as well as several components used in our products. Currently we operate from three manufacturing facilities at Bengaluru and intend to centralize the same with our initiative to invest in a new manufacturing facility located at Plot No. 503, 504 & 505, SY No. 96, Vasanthanarasapura 2nd Phase Industrial Area, Yalladadllu Village, Kora Hobli, Tumakuru Taluk, Tumakuru District. We have purchased the said land from KIDAB and are planning to set up an integrated factory for manufacturing our kitchen appliances. This concentration of our manufacturing activities under a single shed would enable us to achieve greater efficiency in reducing time taken for and the cost of manufacturing our products, from design to commercial production and, in our in-house testing and quality assurance processes, resulting in higher profit margins.

In line with our focus to provide diversified products solutions and to develop better control on our supply chain and improve our margins, we intend to further focus on backward integration at our manufacturing facilities. We focus to add machineries to produce quality tools and dies which in turn supports quality components and sub-assemblies. This will help us to improve our cost efficiency, reduce dependency on third party suppliers and provide better control on production time and quality of components used in the manufacturing of products.

In order to capitalize on the future demand and expand our growth we intend to expand backward integration of our existing manufacturing facility by setting up (i) Conveyorized Powder Coating Plant that will facilitate inhouse powder coating for Gas Stoves and Electric Rice Cookers (ii) Plastic Injection Molding Machines that will facilitate in house manufacturing of plastic parts required in various kitchen appliances (iii) Hard Anodizing Plant that will facilitate hard anodizing process of Pressure Cooker and Non-Stick Cookware (iv) Multi Kettle Mould & Welding Machine for in house manufacturing of various parts of a kettle (v) Forging press Machine that will facilitate in house manufacturing of gas valve in the Gas Stoves and (vi) Polishing Machines to facilitate automatic buffing in our manufacturing process.

We plan to purchase these machineries from the Net Proceeds of the issue. For details, also see **“Objects of the Issue”** on page 75. These investments in new machineries will lead to reduction in cost and increase in production efficiency. We will continue to pursue such opportunities where we believe they will add value to our business, our stakeholders and our customers

Continue to strive for cost efficiency

We aim to continue to maintain our focus on cost management, including in-house integrated manufacturing capabilities across our business to deliver growth as well as to achieve economies of scale. We will continue to seek to manage our supply chain costs through optimal inventory levels, backward integration, economic orders and other measures. Economies of scale will also enable us to continuously improve our operational efficiencies.

G) NON-STICK COOKWARES

We offer a wide array of products under the sub-category of Non-Stick Cookwares including (i) Flat Tawa, (ii) Kadai, (iii) Fry pan, (iv) Concave Tawa, (v) Paniyarakkal, (v) Biryani Pot. The cookwares come in various designs like flat shaped, concave shaped, with or without lids, induction compatible etc. Our range of Non-stick cookwares are ISI certified and usually offer a warranty of 1 year. As of December 31, 2022 we are maintaining more than 80 SKUs for Non-stick Cookwares.

H) KETTLE

We offer multipurpose stainless steel kettle with 360° rotational base and variable temperature control. The kettles are designed with cool touch handle and wide mouth which is easy to clean. The kettles are available in two capacities of 1.2 litres and 1.5 litres with a warranty of 1 year. As of December 31, 2022 we are maintaining more than 5 SKUs for Kettle.

I) HOSE PIPE, GAS CYLINDER TROLLEY, SPIN MOP

We also manufacture products like: hose pipes used in Gas Stoves, Gas Cylinder Trolley and Spin Mop. LPG (Liquified Petroleum Gas) Hose Pipe is a flexible hose used to transport LPG gas from a gas cylinder to a stove or other appliance. It is commonly used in households in India for cooking. The hose is made of high-quality, heat-resistant rubber and is equipped

with a regulator to control the flow of gas. It is also equipped with safety features such as overpressure protection and flame arrestors. The hose is designed to be highly durable and able to withstand exposure to high temperatures and pressure.

A Stainless Steel Gas Cylinder Trolley is a wheeled cart used to transport gas cylinders safely and easily. The trolley is made of stainless steel, which provides durability and resistance to corrosion. It has wheels for smooth movement. The cylinders are securely fastened to the trolley to prevent them from tipping over or rolling away. The trolley also has a compact design, allowing it to be stored in a small space when not in use. Its use ensures the safe and convenient transportation of LPG cylinders for domestic purposes.

We offer mops which spin in 360° to dry and wipe the floorings. The mop is made of micro fibre head for ensuring extra absorbent characteristics. Usually available in 2 colours, blue and green and offer with 6 months warranty.

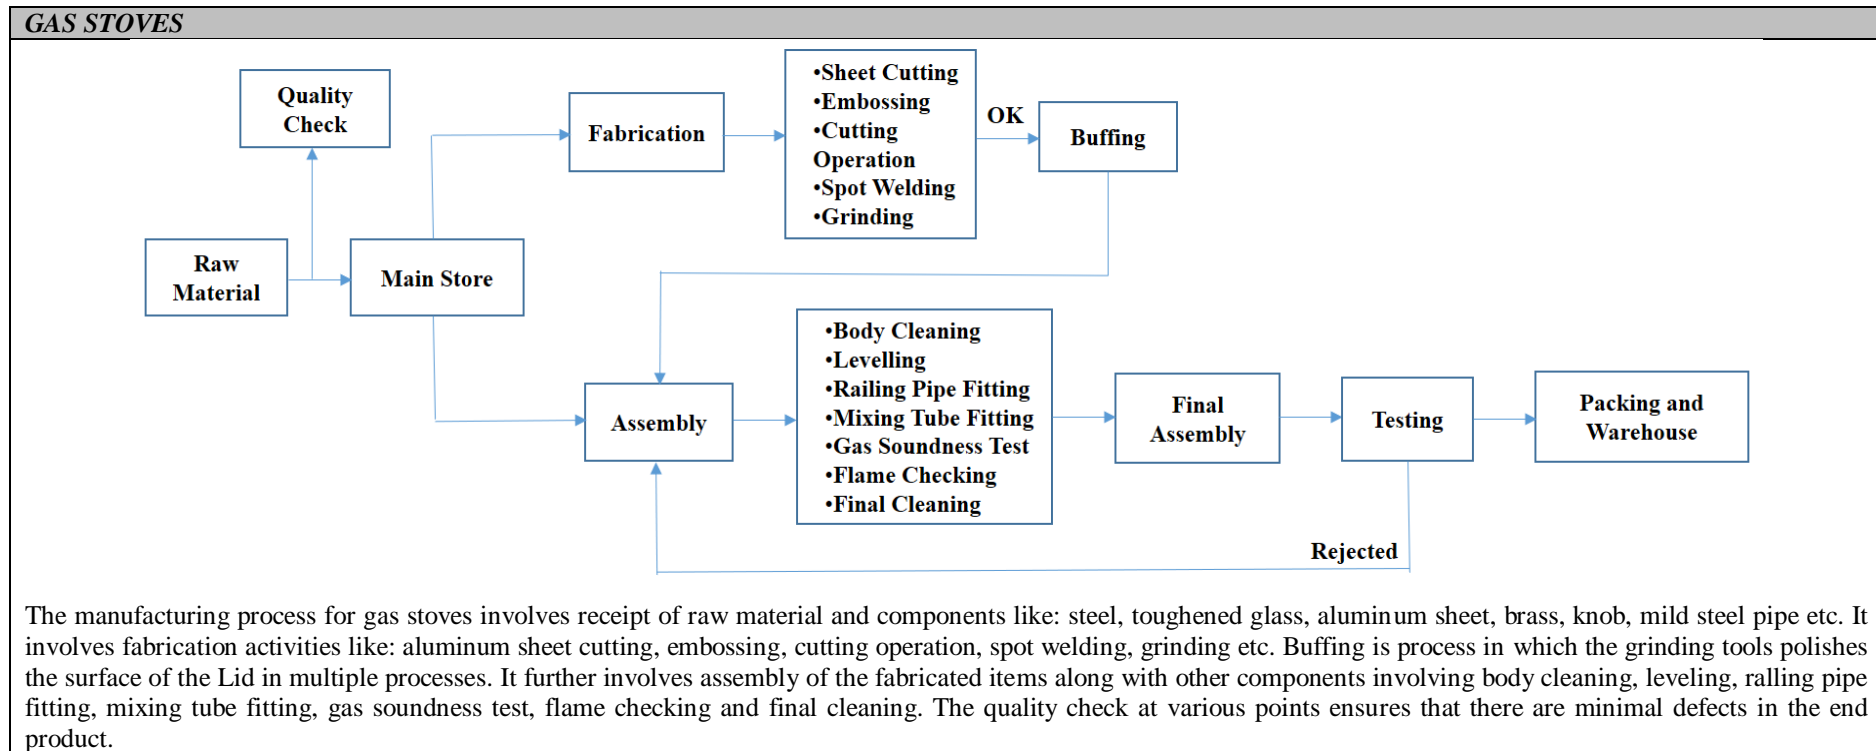

We also trade in other appliances including (i) Chimney, (ii) HOB Gas Stoves, (iii) Iron (i) Stainless steel utensils, (i) Blenders, (ii) Vegetable Chopper, (Iii) Water Bottles, (Viii) Silicon Gasket etc

MANUFACTURING PROCESSES

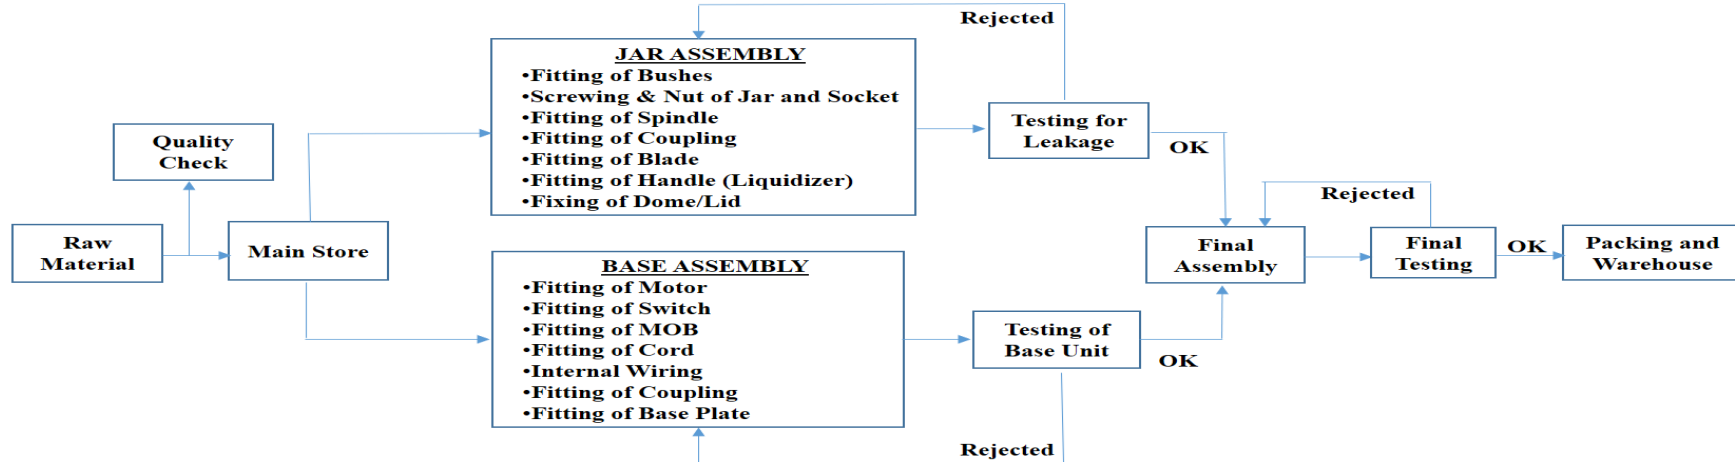

PRESSURE COOKER

The manufacturing process for pressure cooker involves receipt of raw material and components like: aluminium, rubber (outsources), steel, plastic handle (outsourced). It involves two fabrication activities- fabrication of body and fabrication of lid. Fabrication of body involves activities like: circle pressing, broaching, punch cutting, bottom designing, holing, and fabrication of lid involves activities like circle pressing, trimming, bending, holing, GRS hole and counter bore. Buffing is process in which the grinding tools polishes the surface of the Lid in multiple processes. It further involves assembly of the fabricated items along with other components involving riveting, washing, handle fixing, matching and air pressure test. The quality check at various points ensures that there are minimal defects in the end product.

MIXER GRINDER

The manufacturing process for mixer grinder involves receipt of raw material and components like: ABS plastic, PP plastic, stainless steel, copper wire, aluminium wire, aluminum sheets. It involves assembly of jar and base. Assembly of jar involves activities like: fitting of bushes, screwing & nut of jar and socket, fitting of spindle, coupling, blade, handle, dome/lid and assembly of base involves activities like fitting of motor, switch, cord, wiring, coupling and base plate. The quality check at various points ensures that there are minimal defects in the end product. We started manufacturing Mixer Grinders in FY 21-22 prior to which it was manufactured by our promoter group entity M/s Siddhartha Enterprises.

WET GRINDER

The manufacturing process for wet grinder involves receipt of raw material and component like stones. It involves rolling, welding, polishing of drum and fabrication activities like: motor fitting, bottom fitting, connections, centre shaft and leakage bush fitting, body buffing and top fitting. It further involves assembly of drum and base stone along with the fabricated. The quality check at various points ensures that there are minimal defects in the end product. We started manufacturing Wet Grinders in FY 21-22 prior to which it was manufactured by our promoter group entity M/s Siddhartha Enterprises.

ELECTRIC RICE COOKER

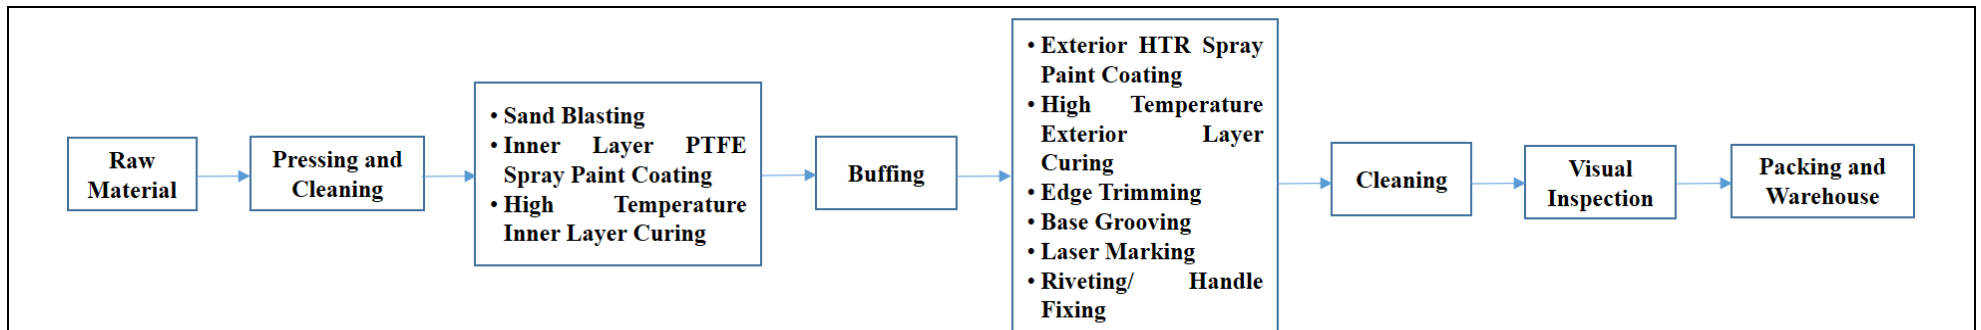

The manufacturing process for electric rice cooker involves receipt of raw material and components like: steel, aluminum, MS, heating coil (imported from China), ABS. It involves assembly of the components which includes activities like handle and panel assembly, PCB lever assembly, thermostat fixing and wiring, magnetic sensor assembly, heating coil fixing and wire connection. It further involves activities like lid, cooking plate, bowl packing and cleaning. The quality check at various points ensures that there are minimal defects in the end product.

INDUCTION COOKTOP

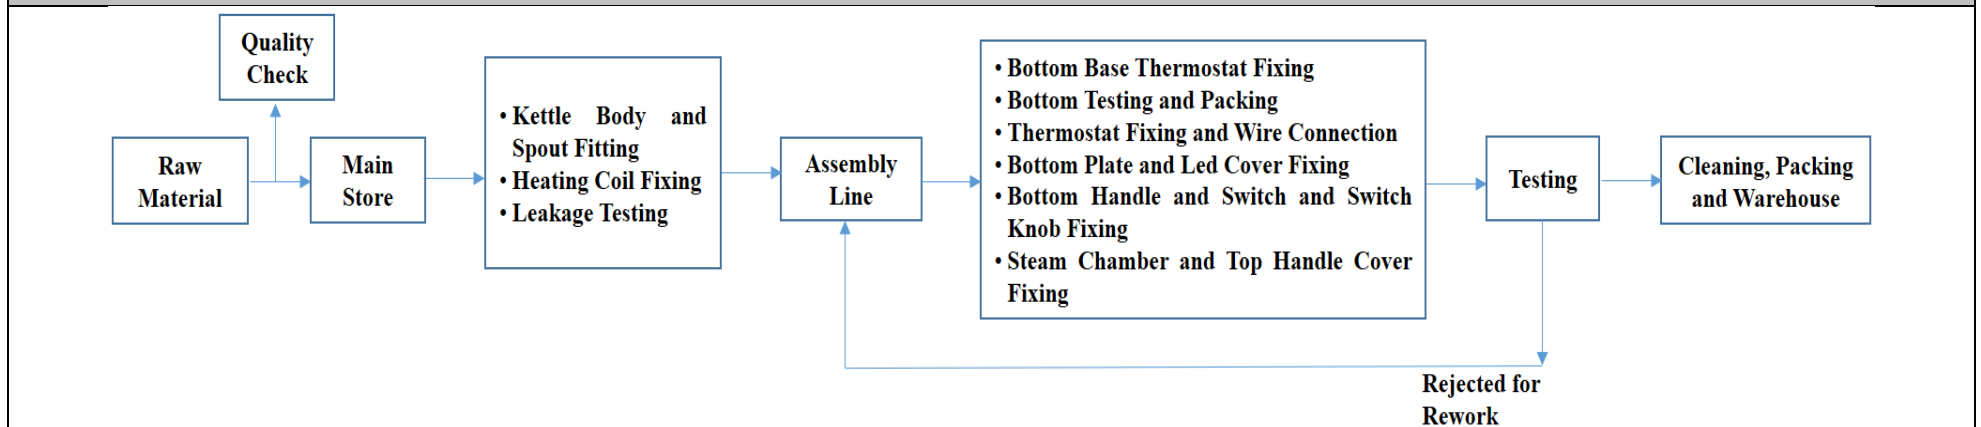

The manufacturing process for induction cooktop involves receipt of raw material and components like: ABS, PP plastic, PCB, ceramic glass (imported from China), motorised fan (imported from China), aluminum coil. It involves assembly of the components which includes activities like glass fixing, main PCB fitting, cooling fan fitting, power cord assembly, induction coil fixing and control PCB fitting. The quality check at various points ensures that there are minimal defects in the end product. We started manufacturing Induction Cooktop in FY 21-22 prior to which it was manufactured by our promoter group entity M/s Siddhartha Enterprises.

NON-STICK COOKWARES

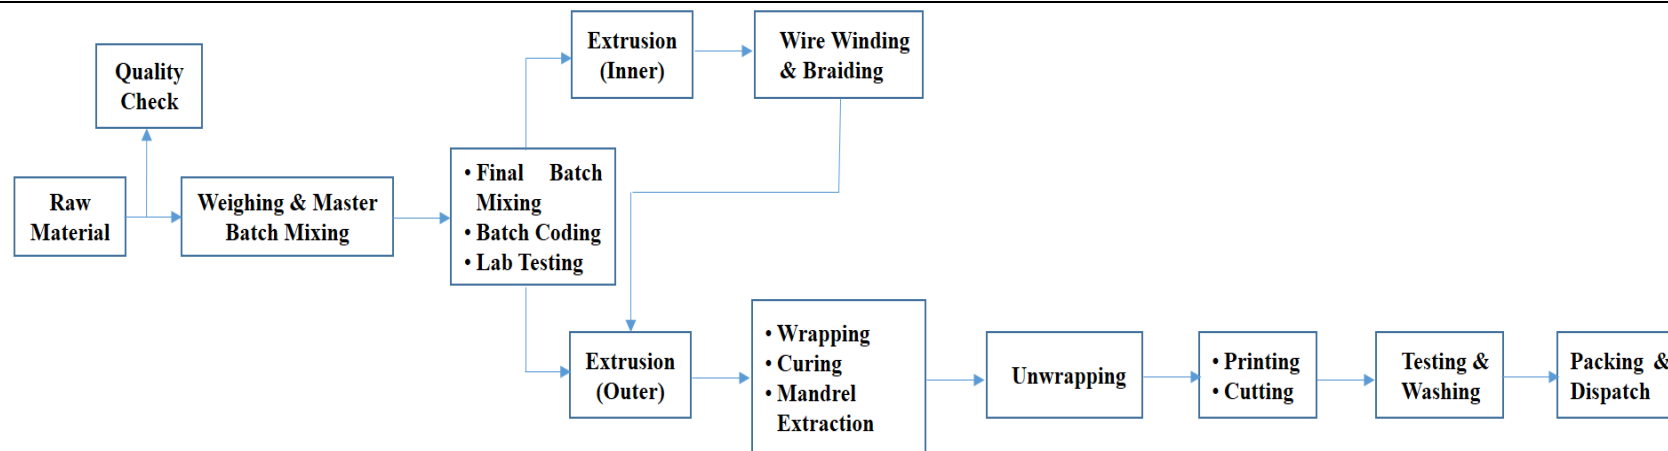

The manufacturing process for Non-Stick cookware involves receipt of raw material and components like: aluminum & plastic handle, grevlon coating. It involves activities like pressing and cleaning of components along with other activities like sand blasting, inner layer PTFE spray paint coating, high temperature inner layer curing and buffing which is a process of grinding tools polishing the surface of the lid in multiple processes. It further involves activities such as exterior HTR spray paint coating, high temperature exterior layer curing, edge trimming, base grooving, laser marking, riveting/ handle fixing and cleaning. The quality check at various points ensures that there are minimal defects in the end product. We started manufacturing Non-stick cookwares in FY 21-22 prior to which it was manufactured by our promoter group entity M/s Siddhartha Enterprises.

KETTLE

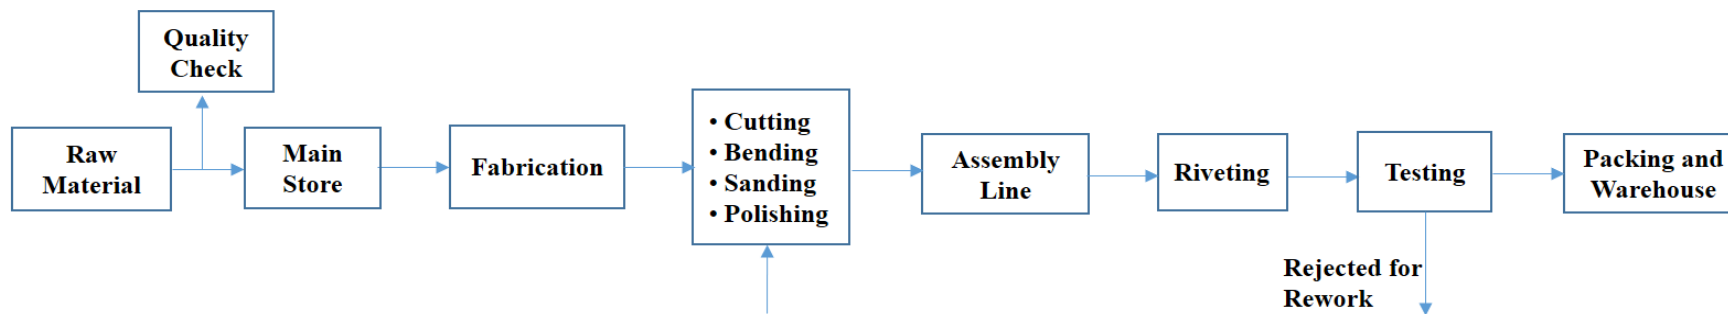

The manufacturing process for electric kettle involves receipt of raw material and components like: steel, ABS plastic, heating coil (imported from China). It involves activities like kettle body and spout fitting, heating coil fixing, leakage testing. It further involves assembly of the components which includes activities like bottom base thermostat fixing, bottom testing and packing, thermostat fixing and wire connection, bottom plate and led cover fixing, bottom handle and switch and switch knob fixing, steam chamber and top handle cover fixing. The quality check at various points ensures that there are minimal defects in the end product.

HOSE PIPE

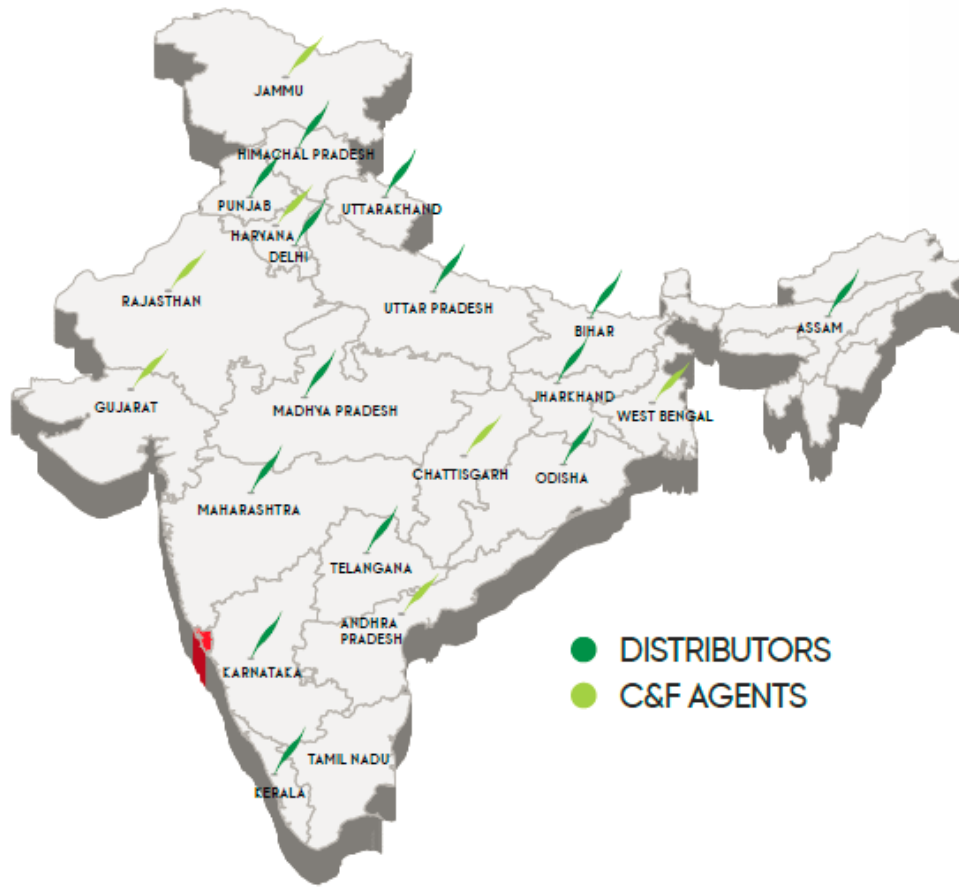

The manufacturing process for hose pipe involves receipt of raw material and components like: rubber & steel wire. It involves activities like weighing & master batch mixing, final batch mixing, batch coding and lab testing of the components. It further involves extrusion of the components which includes activities like wire winding & braiding, wrapping, curing, mandrel extraction along with unwrapping, printing and cutting. The quality check at various points ensures that there are minimal defects in the end product.

TROLLEY

The manufacturing process for trolley involves receipt of raw material and components like: stainless steel sheet, fastners, wheels etc. It involves fabrication activities like: stainless sheet cutting, bending, sanding and polishing to remove rough edges or marks left. It further involves assembly of the fabricated items along with other components including riveting of wheels. The quality check at various points ensures that there are minimal defects in the end product.

In addition to what has been specified in this Prospectus, taxation statutes such as the Income Tax Act, 1961 and Central Goods and Services Tax Act, 2017, various labour laws and other miscellaneous laws apply to us as they do to any other Indian company. The statements below are based on the current provisions of Indian law, and the judicial and administrative interpretations thereof, which are subject to change or modification by subsequent legislative, regulatory, administrative or judicial decisions. For details of government approvals obtained by us, see the chapter titled ***“Government and Other Statutory Approvals”*** beginning on page no 255 of this Prospectus.

Depending upon the nature of the activities undertaken by our Company the following are the various regulations applicable to our company

Key Acts, Regulations and Policies governing our Company

I. REGULATIONS REGARDING FOREIGN INVESTMENTS

Under the current consolidated FDI Policy, effective from October 15, 2020, issued by the Department for Promotion of Industry and Internal Trade (“DPIIT”) (formerly known as Department of Industrial Policy and Promotion) including any modifications thereto or substitutions thereof, issued from time to time (the “Consolidated FDI Policy”) and the Foreign Exchange Management (Non Debt Instruments) Rules, 2019, 100% FDI through automatic route is permitted in the manufacturing sector. Additionally, trading under the Consolidated FDI Policy is also under the automatic route and FDI is permitted upto 100% therein. Trading under the Consolidated FDI Policy includes sale of goods/merchandise to retailers, industrial, commercial, institutional or other professional business users or to other wholesalers and related subordinated service providers.

With effect from April 1, 2020, the aggregate limit is the sectoral caps applicable to Indian company as laid out in paragraph 3(b) of Schedule I of FEMA Non-Debt Instruments Rules, with respect to paid-up equity capital on fully diluted basis or such same sectoral cap percentage of paid-up value of each series of debentures or preference shares or share warrants.

Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-Debt Instruments) Amendment Rules, 2020, which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares a land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country, will require prior approval of the Government of India, as prescribed in the Consolidated FDI Policy and the FEMA Non-Debt Instruments Rules.

Foreign Trade (Development and Regulation) Act, 1992 (“FTA”)

The FTA seeks to increase foreign trade by regulating imports and exports to and from India. The FTA read with the Indian Foreign Trade Policy, 2015-20 provides that no person or company can make exports or imports without having obtained an importer exporter code number unless such person or company is specifically exempted. An application for an importer exporter code number has to be made to the Office of the Director General of Foreign Trade, Ministry of Commerce. An importer-exporter code number allotted to an applicant is valid for all its branches, divisions, units and factories.

Foreign Trade Policy 2015-20 (“EXIM Policy”)

Under the FTA, the Government of India is empowered to periodically formulate the EXIM Policy and amend it thereafter whenever it deems fit. All exports and imports have to be in compliance with such EXIM Policy. The EXIM Policy provides for certain schemes for the promotion of export of finished goods and import of inputs.

II. ENVIRONMENTAL LAWS AND REGULATIONS

We are subject to various environmental laws and regulations as the operation of our establishments might have an impact on the environment. The basic purpose of such statutes is to control, abate and prevent pollution. In order to achieve these objectives, Pollution Control Boards (“PCBs”), have been set up in each state and at a central level. Establishments, as prescribed under various regulations are required to obtain consent orders from the PCBs. These consent orders are required to be renewed periodically.

Water (Prevention and Control of Pollution) Act, 1974 (“Water Act”)

The Water Act prohibits the use of any stream or well for the disposal of polluting matter, in violation of the standards set out by the concerned state PCB. The Water Act also provides that the consent of the concerned state PCB must be obtained prior to establishing any industry, operations or any treatment and disposal system, which is likely to discharge sewage or effluent into a water body.

Water (Prevention & Control of Pollution) Cess Act, 1977 (“Water Cess Act”) and Water (Prevention & Control of Pollution) Cess Rules, 1978 (“Water Cess Rules”)

The Water Cess Act has been enacted to provide for the levy and collection of a cess on water consumed by persons carrying on certain industries by local authorities constituted under the Water Act, with a view to augment the resources of the central and state PCBs for the prevention and control of water pollution. The Water Cess Rules have been notified under Section 17 of the Water Cess Act and provide, inter alia, standards for meters and places where they are to be affixed and the furnishing of returns by consumers.

Air (Prevention and Control of Pollution) Act, 1981 (“Air Act”)

The Air Act requires that any industry or institution emitting smoke or gases must apply in a prescribed form and obtain consent from the state PCB prior to commencing any activity. The state PCB is required to grant, or refuse, consent within four months of receipt of the application. The consent may contain conditions relating to specifications of pollution control equipment to be installed.

Environment (Protection) Act, 1986 (“EPA”)

The EPA has been enacted with the objective of protecting and improving the environment and for matters connected therewith. As per the EPA, the Central Government has been given the power to take all such measures for the purpose of, inter alia, protecting and improving the quality of the environment and to prevent environmental pollution. Further, the Central Government has been given the power to give directions in writing to any person, officer or any authority for any of the purposes of the EPA. Such directions include, inter alia, the power to direct the closure, prohibition or regulation of any industry, operation or process.

Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016 (“Hazardous Waste Rules”)

The Hazardous Waste Rules regulate the management, treatment, storage and disposal of hazardous waste by imposing an obligation on every occupier and operator of a facility generating hazardous waste to dispose of such waste without harming the environment. The term “hazardous waste” has been defined in the Hazardous Waste Rules and any person who has, control over the affairs of the factory or the premises or any person in possession of the hazardous waste has been defined as an “occupier”. Every occupier and operator of a facility generating hazardous waste must obtain authorization from the relevant state pollution control board. Further, the occupier, importer or exporter is liable for damages caused to the environment resulting from the improper handling and disposal of hazardous waste and must pay any financial penalty that may be levied by the respective state pollution control board.

III. INDUSTRIAL AND LABOUR LAWS

Shops and Establishments Act of relevant state

Under the provisions of local Shops and Establishments laws applicable in various states, establishments are required to be registered. Such laws regulate the working and employment conditions of the workers employed in shops and establishments

including commercial establishments and provide for fixation of working hours, rest intervals, overtime, holidays, leave, termination of service, maintenance of shops and establishments and other rights and obligations of the employers and employees.

The Factories Act, 1948 (“Factories Act”)

The Factories Act defines a “factory” to cover any premises which employs ten or more workers and in which manufacturing process is carried on with the aid of power and, any premises where there are at least twenty workers even though there is no electrically aided manufacturing process being carried on. Each state government has rules in respect of the prior submission of plans and their approval for the establishment of factories, and registration and licensing of factories. The Factories Act provides that an occupier of a factory i.e. the person who has ultimate control over the affairs of the factory and in the case of a company, any one of the directors, must ensure the health, safety and welfare of all workers. There is a prohibition on employing children below the age of fourteen years in a factory. The occupier and the manager of a factory may be punished in accordance with the Factories Act for different offences in case of contravention of any provision thereof and in case of a continuing contravention after conviction, an additional fine for each day of contravention may be levied

Employees’ Provident Fund and Miscellaneous Provisions Act, 1952 (“the EPF Act”) and the Employees Provident Fund Scheme, 1952

The EPF Act is applicable to an establishment employing more than 20 employees and as notified by the government from time to time. All the establishments under the EPF Act are required to be registered with the appropriate Provident Fund Commissioner. Also, in accordance with the provisions of the EPF Act, the employers are required to contribute to the employees’ provident fund the prescribed percentage of the basic wages, dearness allowances and remaining allowance (if any) payable to the employees. The employee shall also be required to make the equal contribution to the fund. The Central Government under Section 5 of the EPF Act (as mentioned above) frames Employees Provident Scheme, 1952.

Employees Deposit Linked Insurance Scheme, 1976

The scheme shall be administered by the Central Board constituted under section 5A of the EPF Act. The provisions relating to recovery of damages for default in payment of contribution with the percentage of damages are laid down under Section 8A of the act. The employer falling under the scheme shall send to the Commissioner within fifteen days of the close of each month a return in the prescribed form. The register and other records shall be produced by every employer to Commissioner or other officer so authorized shall be produced for inspection from time to time. The amount received as the employer’s contribution and also Central Government’s contribution to the insurance fund shall be credited to an account called as “Deposit-Linked Insurance Fund Account.”

The Employees’ Pension Scheme, 1995

Family pension in relation to this act means the regular monthly amount payable to a person belonging to the family of the member of the Family Pension Fund in the event of his death during the period of reckonable service. The scheme shall apply to all the employees who become a member of the EPF or PF of the factories provided that the age of the employee should not be more than 59 years in order to be eligible for membership under this act. Every employee who is member of EPF or PF has an option of the joining scheme. The employer shall prepare a Family Pension Fund contribution card in respect of the entire employee who is member of the fund.

Payment of Bonus Act, 1965

The Payment of Bonus Act, 1965 imposes statutory liability upon the employers of every establishment in which 20 or more persons are employed on any day during an accounting year to pay bonus to their employees. It further provides for payment of minimum and maximum bonus and linking the payment of bonus with the production and productivity.

The Act shall apply to every factory, mine plantation, port and railway company; to every shop or establishment within the meaning of any law for the time being in force in relation to shops and establishments in a State, in which ten or more persons are employed, or were employed, on any day of the preceding twelve months; such other establishments or class of establishments, in which ten or more employees are employed, on any day of the preceding twelve months, as the Central Government, may by notification, specify in this behalf. A shop or establishment to which this act has become applicable shall be continued to be governed by this act irrespective of the number of persons falling below ten at any day.

Payment of Gratuity Act, 1972

Under the Payment of Gratuity Act, 1972, an employee in a factory or any other establishment in which 10 or more than 10 persons are employed on any day during an accounting year who is in continuous service for a period of five years notwithstanding that his service has been interrupted during that period by sickness, accident, leave, absence without leave, lay-off, strike, lock-out or cessation of work not due to the fault of the employee is eligible for gratuity upon his retirement, superannuation, death or disablement.

Minimum Wages Act, 1948 (“MWA”)

The Minimum Wages Act, 1948 came into force with an objective to provide for the fixation of a minimum wage payable by the employer to the employee. Under the MWA, every employer is mandated to pay the minimum wages to all employees engaged to do any work skilled, unskilled, manual or clerical in any employment listed in the schedule to the MWA, in respect of which minimum rates of wages have been fixed or revised under the MWA. Construction of Buildings, Roads, and Runways are scheduled employments. It prescribes penalties for non-compliance by employers for payment of the wages thus fixed.

Maternity Benefit Act, 1961

The Maternity Benefit Act, 1961 provides for leave and right to payment of maternity benefits to women employees in case of confinement or miscarriage etc. The act is applicable to every establishment which is a factory, mine or plantation including any such establishment belonging to government and to every establishment of equestrian, acrobatic and other performances, to every shop or establishment within the meaning of any law for the time being in force in relation to shops and establishments in a state, in which ten or more persons are employed, or were employed, on any day of the preceding twelve months; provided that the state government may, with the approval of the Central Government, after giving at least two months’ notice shall apply any of the provisions of this act to establishments or class of establishments, industrial, commercial, agricultural or otherwise.

- b. Design Act, 2000
- c. Indian Copyright Act, 1957
- d. The Bureau of Indian Standards Act, 2016

The Trade Marks Act, 1999 (the “Trade Marks Act”)

The Trade Marks Act governs the statutory protection of trademarks and prevention of the use of fraudulent marks in India. It provides for the application and registration of trademarks in India. It also provides for exclusive rights to marks such as brand, label, and heading and to obtain relief in case of infringement for commercial purposes as a trade description. Under the provisions of the Trade Marks Act, an application for trade mark registration may be made with the Controller General of Patents, Designs and Trademarks by any person or persons claiming to be the proprietor of a trade mark, whether individually or as joint applicants, and can be made on the basis of either actual use or intention to use a trade mark in the future. Once granted, a trade mark registration is valid for 10 years unless cancelled, subsequent to which, it can be renewed. If not renewed, the mark lapses and the registration is required to be restored to gain protection under the provisions of the Trade Marks Act. The Trade Marks Act prohibits registration of deceptively similar trademarks and provides penalties for infringement, falsifying or falsely applying for trademarks. Further, pursuant to the notification of the Trade Marks (Amendment) Act, 2010, simultaneous protection of trade mark in India and other countries has been made available to owners of Indian and foreign trade marks. It also seeks to simplify the law relating to the transfer of ownership of trade marks by assignment or transmission and to bring the law in line with international practices.

The Copyright Act, 1957

Copyright is a right given by the law to creators of literary, dramatic, musical and artistic works and producers of cinematograph films and sound recordings. In fact, it is a bundle of rights including, inter alia, rights of reproduction, communication to the public, adaptation and translation of the work. There could be slight variations in the composition of the rights depending on the work.

Design Act, 2000 (“Design Act”)

The Design Act, which came into force in May 2001, along with the rules made thereunder consolidate and amend the law relating to protection of designs. A design refers to the features of shape, configuration, pattern, ornamentation or composition of lines or colours applied to any article, in two or three dimensional or both forms, by an industrial process or means, whether manual, mechanical or chemical, separate or combined, which in the finished article appeal to and are judged solely by the eye. In order to register a design, it must be new or original and must not be disclosed to the public anywhere in India or any other country by publication in tangible form or by use or in any other way prior to the filing date. A design should be significantly distinguishable from known designs or combination of known designs in order for it to be registered. A registered design is valid for a period of 10 years after which the same can be renewed for a second period of five years, before the expiration of the original period of 10 years. After such period, the design is made available to the public by placing it in the public domain.

The Bureau of Indian Standards Act, 2016 (“BIS Act”)

Bureau of Indian Standards Act, 2016 provides for the establishment of the Bureau of Indian Standards (“BIS”) for the development of the activities, inter alia, standardization, conformity assessment and quality assurance of goods, articles, processes, systems and services, and formatters connected therewith and incidental thereto. Functions of the BIS include, inter

alia, (a) recognizing as an Indian standard, with the prior approval of the Central Government, the mark of any international body or institution at par with the standard mark, for such goods, articles, process, system or service in India or elsewhere; (b) specifying a standard mark to be called the Bureau of Indian Standards Certification Mark which shall be of such design and contain such particulars as maybe prescribed to represent a particular Indian standard; (c) providing training services in relation to inter alia, quality management, standards, conformity assessment; (d) publishing Indian standards; promotion of safety in connection with any goods, article, process, system or service; and (e) any such other functions as may be necessary for promotion, monitoring and management of the quality of goods, articles, processes, systems and services and to protect the interests of consumers and other stakeholders.

VI. OTHER APPLICABLE LAWS AND POLICIES

Laws relating to Country of Origin.

Currently, Legal Metrology (Packaged Commodities) Rules, 2011 (“Packaged Commodity Rules”) require a declaration of 'country of origin' or 'country of manufacture' or 'country of assembly' on the imported products. This is aimed at curbing false and misleading claims by the brands to deceive the customers, as also to give complete information of the product to a potential buyer. Demands for specifying the Country of Origin ("COO") of products sold online has gained ground in view of Prime Minister's vision "Make in India". The Government had asked e-commerce entities to adhere to the Packaged Commodity Rules and display Country of Origin of products listed on their platform/s by August 01, 2020. In the recently of proposed amendment to the Consumer Protection (E-Commerce) Rules, 2020, inter alia, requires and e-commerce entity that offers imported goods or services for sale, to identify goods based on their country of origin, provide a filter mechanism on their e-commerce website and display notification regarding the origin of goods at the pre-purchase stage, at the time of goods being viewed for purchase, suggestions of alternatives to ensure a fair opportunity for domestic goods and further to provide ranking for goods and ensure that the ranking parameters do not discriminate against domestic goods and seller.

Consumer Protection Act, 2019 (the “Consumer Protection Act”) and rules made thereunder.

The Consumer Protection Act was designed and enacted to provide simpler and quicker access to redress consumer grievances. It seeks, amongst other things, to promote and protects the interests of consumers against deficiencies and defects in goods or services and secure the rights of a consumer against unfair trade practices, which may be practiced by manufacturers, service providers and traders. The definition of “consumer” under the Consumer Protection Act includes persons engaged in offline or online transactions through electronic means or by tele-shopping or direct-selling or multi-level marketing. It provides for the establishment of consumer disputes redressal forums and commissions for the purposes of redressal of consumer grievances. In addition to awarding compensation and/or passing corrective orders, the forums and commissions under the Consumer Protection Act, in cases of misleading and false advertisements, are empowered to impose imprisonment for a term which may extend to two years and fine which may extend to ten lakhs.

In line with the Consumer Protection Act, the Ministry of Consumer Affairs, Food and Public Distribution, Government of India (“Ministry of Consumer Affairs”) has also notified the Consumer Protection (E-Commerce) Rules, 2020 (“E-Commerce Rules”) on July 23, 2020, which provide a framework to regulate the marketing, sale and purchase of goods and services online. The E-Commerce Rules govern e-commerce entities which own, operate, or manage, a digital or electronic facility or platform for electronic commerce, but does not include a seller offering his goods or services for sale on a marketplace e-commerce entity. The Ministry of Consumer Affairs has also released amendments to the E-Commerce Rules for public comments. The aforesaid amendments require e-commerce entities to, amongst other things, register themselves with the Department for Promotion of Industry and Internal Trade, appoint a chief compliance officer, a nodal contact person and a resident grievance officer. Additionally, the amendments prohibit e-commerce entities from misleading users by manipulating search results, prohibit flash sales and abuse of dominant position, and mandate e-commerce entities to identify sponsored listings of products and services with clear and prominent disclosures.

Information Technology Act, 2002 (“Information Technology Act”)

The Information Technology Act seeks to (i) provide legal recognition to transactions carried out by various means of electronic data interchange involving alternatives to paper-based methods of communication and storage of information; (ii) facilitate electronic filing of documents; and (iii) create a mechanism for the authentication of electronic documentation through digital signatures. The Information Technology Act facilitates electronic commerce by recognizing contracts concluded through electronic means, protects intermediaries in respect of third party information liability and creates liability for failure to protect sensitive personal data.

The Information Technology Act empowers the Government of India to formulate rules with respect to reasonable security practices and procedures and sensitive personal data. In exercise of this power, the Department of Information Technology, Ministry of Electronics and Information Technology, Government of India (“DoIT”), on April 11, 2011, notified the

Information Technology (Reasonable Security Practices and Procedures and Sensitive Personal Data or Information) Rules, 2011 (“IT Security Rules”) which prescribe directions for the collection, disclosure, transfer and protection of sensitive personal data by a body corporate or any person acting on behalf of a body corporate. The IT Security Rules require every such body corporate to provide a privacy policy for handling and dealing with personal information, including sensitive personal data, ensuring security of all personal data collected by it and publishing such policy on its website. The IT Security Rules further require that all such personal data be used solely for the purposes for which it was collected and any third party disclosure of such data is made with the prior consent of the information provider, unless contractually agreed upon between them or where such disclosure is mandated by law.

The DoIT also notified the Information Technology (Intermediaries Guidelines and Digital Media Ethics Code) Rules, 2021 (“IT Intermediaries Rules”) on February 25, 2021, requiring intermediaries receiving, storing, transmitting, or providing any service with respect to electronic messages to not knowingly host, publish, transmit, select or modify any information prohibited under the IT Intermediaries Rules, to disable hosting, publishing, transmission, selection or modification of such information once they become aware of it, as well as specifying the due diligence to be observed by intermediaries.

Electronics and Information Technology Goods (Requirements for Compulsory Registration) Order, 2012 (“Compulsory Registration Order”)

The Compulsory Registration Order mandates that the manufacturing, storage, import, sale or distribution of goods which do not meet the specified standard and/or bear a self-declaration confirming conformance to relevant Indian Standard is prohibited. The only exception is for those goods which are manufactured for export. Further, any sub-standard or defective goods must be deformed beyond use by the manufacturer and disposed of as scrap. The Compulsory Registration Order is issued by the Department of Electronics and Information Technology, Ministry of Communication and Information Technology, Government of India (“DEIT”). For details of approvals obtained in accordance with applicable regulations, see *“Government and Other Statutory Approvals”* on page 255.

The Indecent Representation of Women (Prohibition) Act, 1986 (“IRWA”)

The IRWA prohibits indecent representation of women through advertisements, publications, writings, paintings, figures or in any other manner. It states that no person shall publish or release any advertisements involving an obscene portrayal of women or agree to participate in the publication or show, in any form. In the event an offence under IRWA has been committed by a company, every person, who, at the time the offence was committed was in-charge of, and was responsible to, the company for the conduct of the business of the company, as well as the company, shall be deemed to be guilty of the offence and shall be liable to be proceeded against and punished accordingly.

Competition Act, 2002

An act to prevent practices having adverse effect on competition, to promote and sustain competition in markets, to protect interest of consumer and to ensure freedom of trade in India. The act deals with prohibition of agreements and Anti-competitive agreements. No enterprise or group shall abuse its dominant position in various circumstances as mentioned under the Act. The prima facie duty of the commission is to eliminate practices having adverse effect on competition, promote and sustain competition, protect interest of consumer and ensure freedom of trade. The commission shall issue notice to show cause to the parties to combination calling upon them to respond within 30 days in case it is of the opinion that there has been an appreciable adverse effect on competition in India. In case a person fails to comply with the directions of the Commission and Director General he shall be punishable with a fine which may exceed to ₹ 1 lakh for each day during such failure subject to maximum of Rupees One Crore.

Municipality Laws

Pursuant to the Seventy Fourth Amendment Act, 1992, the respective State Legislatures in India have the power to endow the Municipalities (as defined under Article 243Q of the Constitution of India) with the power to implement schemes and perform functions in relation to matters listed in the Twelfth Schedule to the Constitution of India which includes regulation of public health. The respective States of India have enacted laws empowering the Municipalities to regulate public health including the issuance of a health trade license for operating eating outlets and implementation of regulations relating to such license along with prescribing penalties for non-compliance.

Police Laws

The State Legislatures in India are empowered to enact laws in relation to public order and police under Entries 1 and 2 of the State List (List II) to the Constitution of India. Pursuant to the same the respective States of India have enacted laws regulating the same along with prescribing penalties for non-compliance.

Approvals from Local Authorities

Setting up of a Factory or Manufacturing/Housing unit/Establishments entails the requisite Planning approvals to be obtained from the relevant Local Panchayat(s) outside the city limits and appropriate Metropolitan Development Authority within the city limits. Consents from the state Pollution Control Board(s), the relevant state Electricity Board(s), the State Excise Authorities, Sales Tax, are required to be obtained before commencing the building of a factory or the start of manufacturing operations.

The Indian Contract Act, 1872

The Contract Act is the legislation which lays down the general principles relating to formation, performance and enforceability of contracts. The rights and duties of parties and the specific terms of agreement are decided by the contracting parties themselves, under the general principles set forth in the Contract Act. The Contract Act also provides for circumstances under which contracts will be considered as 'void' or 'voidable'. The Contract Act contains provisions governing certain special contracts, including indemnity, guarantee, bailment, pledge, and agency.

Transfer of Property Act, 1882

The transfer of property is governed by the Transfer of Property Act, 1882 ("T.P. Act"). The T.P. Act establishes the general principles relating to the transfer of property including among other things identifying the categories of property that are capable of being transferred, the persons competent to transfer property, the validity of restrictions and conditions imposed on the transfer and the creation of contingent and vested interest in the property.

Registration Act, 1908

The Registration Act, 1908 ("Registration Act") has been enacted with the object of providing public notice of execution of documents affecting a transfer of interest in property. Section 17 of the Registration Act identifies documents for which registration is compulsory and includes among other things, any non-testamentary instrument which purports or operates to create, declare, assign, limit or extinguish, whether in present or in future, any right, title or interest, whether vested or contingent, in immovable property of the value of one hundred rupees or more, and a lease of immovable property for any term exceeding one year or reserving a yearly rent. Section 18 of the Registration Act provides for non-compulsory registration of documents as enumerated in the provision.

The Negotiable Instruments Act, 1881(NI Act)

In India, the laws governing monetary instruments such as cheques are contained in the NI Act, which is largely a codification of the English Law on the subject. To ensure prompt remedy against defaulters and to ensure credibility of the holders of the negotiable instrument a criminal remedy of penalty was inserted in Negotiable Instruments Act, 1881 in form of the Banking, Public Financial Institutions and Negotiable Instruments Laws (Amendment), 1988 which were further modified by the Negotiable Instruments (Amendment and Miscellaneous Provisions) Act, 2002. The Act provides effective legal provision to restrain people from issuing cheques without having sufficient funds in their account or any stringent provision to punish them in the event of such cheque not being honoured by their bankers and returned unpaid.

FEMA Regulations

As laid down by the FEMA Regulations, no prior consents and approvals are required from the Reserve Bank of India, for Foreign Direct Investment under the automatic route within the specified sectoral caps. In respect of all industries not specified as FDI under the automatic route, and in respect of investment in excess of the specified sectoral limits under the automatic route, approval may be required from the FIPB and/or the RBI. The RBI, in exercise of its power under the FEMA, has notified the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2000 ("FEMA Regulations") & Foreign Exchange Management (Non-debt Instruments) Rules, 2019 to prohibit, restrict or regulate, transfer by or issue security to a person resident outside India. Foreign investment in India is governed primarily by the provisions of the FEMA which relates to regulation primarily by the RBI and the rules, regulations and notifications there under, and the policy prescribed by the Department of Industrial Policy and Promotion, Ministry of Commerce & Industry, Government of India.

The Arbitration & Conciliation Act, 1996

The Arbitration and Conciliation Act, 1996 is an act to consolidate and amend the law relating to domestic arbitration, international commercial arbitration and enforcement of foreign arbitral awards as also to define the law relating to conciliation

and for matters connected therewith or incidental thereto. It aims at streamlining the process of arbitration and facilitating conciliation in business matters. The Act recognizes the autonomy of parties in the conduct of arbitral proceedings by the arbitral tribunal and abolishes the scope of judicial review of the award and minimizes the supervisory role of Courts. A significant feature of the Act is the appointment of arbitrators by the Chief Justice of India or Chief Justice of High Court. The Chief Justice may either appoint the arbitrator himself or nominate a person or Institution to nominate the arbitrator. The autonomy of the arbitral tribunal has further been strengthened by empowering them to decide on jurisdiction and to consider objections regarding the existence or validity of the arbitration agreement.

The Code of Criminal Procedure, 1973

It is the main legislation on procedure for administration of substantive criminal law in India. It was enacted in 1973 and came into force on 1st April, 1974. It provides the machinery for the investigation of crime, apprehension of suspected criminals, collection of evidence, determination of guilt or innocence of the accused person and the determination of punishment of the guilty.

Criminal law occupies a pre-dominant place among the agencies of social control and is regarded as a formidable weapon that society has forged to protect itself against anti-social behaviour. The law of criminal procedure is meant to be complimentary to criminal law. It is intended to provide a mechanism for the enforcement of criminal law. The Code of Criminal Procedure creates the necessary machinery for apprehending the criminals, investigating the criminal cases, their trials before the criminal courts and imposition of proper punishment on the guilty person. The Code enumerates the hierarchy of criminal courts in which different offences can be tried and then it spells out the limits of sentences which such Courts are authorized to pass.

The law of criminal procedure is intended to provide a mechanism for the enforcement of criminal law. Without the proper procedural law the substantive criminal law which defines offences and provides punishment for them would be almost worthless.

The Code of Civil Procedure, 1908

The Code of Civil Procedure, 1908 is a procedural law related to the administration of civil proceedings in India. The Civil Procedure Code consolidates and amends the law relating to the procedure of the Courts of Civil jurisdiction. The Code of Civil Procedure is an adjective law it neither creates nor takes away any right. It is intended to regulate the procedure to be followed by Civil Courts. The Civil Procedure Code consists of two parts. 158 Sections form the first part and the rules and orders contained in Schedule I form the second part. The object of the Code generally is to create jurisdiction while the rules indicate the mode in which the jurisdiction should be exercised.

The Code does not affect any special or local laws nor does it supersede any special jurisdiction or power conferred or any special form of procedure prescribed by or under any other law for the time being in force. The Code is the general law so that in case of conflict between the Code and the special law the latter prevails over the former. Where the special law is silent on a particular matter the Code applies, but consistent with the special enactment.

Loss over the tenure of the borrowing. Borrowing costs, allocated to and utilised for qualifying assets, pertaining to the year from commencement of activities relating to construction / development of the qualifying asset upto the date of capitalisation of such asset are added to the cost of the assets. Capitalisation of borrowing costs is suspended and charged to the Statement of Profit and Loss during extended periods when active development activity on the qualifying assets is interrupted.

k. Leases

Leases arrangements, where the risks and rewards incidental to ownership of an asset substantially vest with the lessor, are classified as operating leases and the lease rentals thereon are charged to the Statement of Profit and Loss on accrual basis over the period of the lease on a straight line basis. Assets acquired under finance lease arrangements are recognized as an asset and a liability is set up at the inception of the lease, at an amount equal to lower of the fair value of the leased assets or the present value of the future minimum lease payments.

l. Segment information

The Company has considered the business segment as the primary reporting segment on the basis that the risk and returns of the Company is primarily determined by the nature of products and services.

m. Earnings per share

The basic earnings per share is computed by dividing the net profit or loss after tax for the period attributable to equity share holders for the year by the weighted average number of equity shares outstanding during the year. There are no potentially dilutive shares.

n. Taxes on income

Current Tax:

Income taxes are calculated using the tax effect accounting method where taxes are accrued in the same period the related revenues and expenses arise. A provision is made for income tax annually based on the tax liability computed after considering tax allowances and exemptions.

Deferred Tax:

The difference that result between the profit offered for income tax and the profit as per the financial statements are identified and thereafter a deferred tax asset or liability is recorded for timing difference namely the differences that originate in one accounting period and get reversed in another based on the tax effect of the aggregate amount being considered. The tax effect is calculated on the accumulated timing differences at the end of an accounting period based on prevailing enacted or substantially enacted regulations. Deferred tax assets/liability are recognized only if there is reasonable certainty that they will be realized and are reviewed for the appropriateness of their respective carrying values at each balance sheet date.

o. Impairment of Assets

The carrying amounts of assets are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any indication exists, the assets recoverable amount is estimated. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the assets net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value based on the average pre-tax borrowing rate of the country where the assets are located, adjusted for risks specific to the asset. After impairment, depreciation is provided on the assets revised carrying amount over its remaining useful life. However, during the year the company has not recognized any impairment loss.

p. Provisions and contingent liability

A provision is recognized when an enterprise has a present obligation as a result of past event; it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation that the likelihood of outflow of resources is remote, no provision or disclosure is made.

Provisions for onerous contracts, i.e., contracts where the expected unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under it, are recognised when it is probable that an outflow of resources embodying economic benefits will be required to settle a present obligation as a result of an obligating event, based on a reliable estimate of such obligation.

q. Cash Flow Statement

Cash flows are reported using indirect method, whereby net profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from regular revenue generating, investing and financing activities of the Company are segregated.

r. Cash and Cash equivalents

Cash and cash equivalents comprise of cash in hand and balances with bank and other short term deposits / investments, that are readily convertible into known amounts of cash and are subject to insignificant risk of changes in value.

Jurisdiction:

Exclusive jurisdiction for the purpose of this Issue is with the competent courts/ authorities in Bengaluru, Karnataka.

The Equity Shares have not been and will not be registered under the U.S Securities Act, 1933 or any state securities laws in the United States, and may not be offered or sold within the United States, except pursuant to an exemption from or in a transaction not subject to, registration requirements of the Securities Act. Accordingly, the Equity Shares are only being offered or sold outside the United States in compliance with Regulation S under the U.S. Securities Act, 1933 and the applicable laws of the jurisdictions where those offers and sales occur.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

Joint Holders:

Where 2 (two) or more persons are registered as the holders of any Equity Shares, they will be deemed to hold such Equity Shares as joint-holders with benefits of survivorship.

Nomination Facility to Investor:

In accordance with Section 72 of the Companies Act, 2013 the sole or first applicant, along with other joint applicant, may nominate any one person in whom, in the event of the death of sole applicant or in case of joint applicant, death of all the applicants, as the case may be, the Equity Shares allotted, if any, shall vest. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall in accordance with Section 72 of the Companies Act, 2013 be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to Equity Share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale of equity share(s) by the person nominating. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at the Corporate Office of our Company or to the Registrar and Transfer Agents of our Company.

In accordance with Section 72 of the Companies Act, 2013 any Person who becomes a nominee by virtue of Section 72 of the Companies Act, 2013 shall upon the production of such evidence as may be required by the Board, elect either:

- (a) to register himself or herself as the holder of the Equity Shares; or
- (b) to make such transfer of the Equity Shares, as the deceased holder could have made.

Further, the Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of 90 (ninety) days, the Board may thereafter withhold payment of all dividends, bonuses or other moneys payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the allotment of Equity Shares in the Issue is in dematerialized form, there is no need to make a separate nomination with us. Nominations registered with the respective depository participant of the applicant would prevail. If the investors require changing the nomination, they are requested to inform their respective depository participant.

Phased implementation of Unified Payments Interface

SEBI has issued a circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018 and circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019 circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 June 28, 2019, circular

no. SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019 and circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 08, 2019 (collectively the “UPI Circulars”) in relation to streamlining the process of public issue of equity shares and convertibles. Pursuant to the UPI Circulars, UPI will be introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under the ASBA) for applications by RIBs through intermediaries with the objective to reduce the time duration from public issue closure to listing from six working days to up to three working days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI Mechanism, the UPI Circular proposes to introduce and implement the UPI Mechanism in three phases in the following manner:

Phase I: This phase has become applicable from January 1, 2019 until March 31, 2019 or floating of five mainboard public issues, whichever is later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, a Retail Individual Applicant had the option to submit the Application Form with any of the intermediary and use his / her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six Working Days.

Phase II: This phase has become applicable from July 1, 2019 and was to initially continue for a period of three months or floating of five main board public issues, whichever is later. Subsequently, it was decided to extend the timeline for implementation of Phase II until March 31, 2020. Further, as per SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, the current Phase II of Unified Payments Interface with Application Supported by Blocked Amount is continued till further notice. Under this phase, submission of the ASBA Form by RIIs through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds will be discontinued and will be replaced by the UPI payment mechanism. However, the time duration from public issue closure to listing continues to be six Working Days during this phase.

Phase III: The commencement period of Phase III is yet to be notified. In this phase, the time duration from public issue closure to listing is proposed to be reduced to three Working Days.

All SCSBs offering facility of making application in public issues shall also provide facility to make application using the UPI Mechanism. The Issuers are to appoint one of the SCSBs as a sponsor bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the Retail Individual Applicants into the UPI mechanism.

For further details, refer to the General Information Document available on the websites of the Stock Exchanges and the Book Running Lead Manager.

PART A

Book Building Procedure

In terms of Rule 19(2)(b) of the Securities Contracts (Regulation) Rules, 1957, as amended (the “SCRR”) read with Regulation 252 of SEBI ICDR Regulations, 2018, the Issue is being made for at least 25% of the post-Issue paid-up Equity Share capital of our Company. The Issue is being made under Regulation 229(2) of Chapter IX of SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018 via book building process wherein not more than 50% of the Issue shall be allocated on a proportionate basis to QIBs, provided that our Company and may, in consultation with the Book Running Lead Manager, allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations, of which one-third shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Allocation Price. In the event of under-subscription, or non-allocation in the Anchor Investor Portion, the balance Equity Shares shall be added to the QIB Portion. Further, 5% of the QIB Portion (excluding the Anchor Investor Portion) shall be available for allocation on a proportionate basis only to Mutual Funds, and the remainder of the QIB Portion shall be available for allocation on a proportionate basis to all QIBs (other than Anchor Investors), including Mutual Funds, subject to valid Bids being received at or above the Issue Price. Further, not less than 15% of the Issue shall be available for allocation on a proportionate basis to Non Institutional Investors and not less than 35% of the Issue shall be available for allocation to Retail Individual Bidders in accordance with the SEBI ICDR Regulations, subject to valid Bids being received at or above the Issue Price.

Subject to valid Bids being received at or above the Issue Price, under subscription, if any, in any category, except the QIB Portion, would be allowed to be met with spill-over from any other category or a combination of categories at the discretion of our Company in consultation with the Book Running Lead Manager, and the Designated Stock Exchange. However, under-subscription, if any, in the QIB Portion will not be allowed to be met with spillover from other categories or a combination of categories.

The Equity Shares, on Allotment, shall be traded only in the dematerialised segment of the Stock Exchanges.

Bid cum Application Form

Copies of the Bid cum Application Form (other than for Anchor Investors) and the abridged prospectus will be available at the offices of the Book Running Lead Manager, the Designated Intermediaries at Bidding Centres, and Registered Office of our Company. An electronic copy of the Bid cum Application Form was also available for download on the websites of the NSE, at least one day prior to the Bid/Issue Opening Date.

Copies of the Anchor Investor Application Form will be available at the offices of the Book Running Lead Manager.

All Bidders (other than Anchor Investors) shall mandatorily participate in the Issue only through the ASBA process. ASBA Bidders must provide either (i) the bank account details and authorisation to block funds in the ASBA Form, or (ii) the UPI ID, as applicable, in the relevant space provided in the ASBA Form. The ASBA Forms that do not contain such details are liable to be rejected. Applications made by the RIIs using third party bank account or using third party linked bank account UPI ID are liable for rejection. Anchor Investors are not permitted to participate in the Issue through the ASBA process. ASBA Bidders shall ensure that the Bids are made on ASBA Forms bearing the stamp of the relevant Designated Intermediary, submitted at the relevant Bidding Centres only (except in case of electronic ASBA Forms) and the ASBA Forms not bearing such specified stamp are liable to be rejected. Since the Offer is made under Phase II of the UPI Circulars, ASBA Bidders may submit the ASBA Form in the manner below:

- i. RIIs (other than the RIIs using UPI Mechanism) may submit their ASBA Forms with SCSBs (physically or online, as applicable), or online using the facility of linked online trading, demat and bank account (3 in 1 type accounts), provided by certain brokers.
- ii. RIIs using the UPI Mechanism, may submit their ASBA Forms with the Syndicate, sub-syndicate members, Registered Brokers, RTAs or CDPs, or online using the facility of linked online trading, demat and bank account (3 in 1 type accounts), provided by certain brokers.
- iii. QIBs and NIBs may submit their ASBA Forms with SCSBs, Syndicate, sub-syndicate members, Registered Brokers, RTAs or CDPs.

Anchor Investors were not permitted to participate in the Issue through the ASBA process.

The prescribed colour of the Bid cum Application Form for various categories is as follows:

Category	Colour*
Anchor Investor**	White
Indian Public / eligible NRI's applying on a non-repatriation basis (ASBA)	White
Non-Residents including eligible NRI's, FPI's, FIIs, FVCLs, etc. applying on a repatriation basis (ASBA)	Blue

*Excluding Electronic Bid cum Application Form

** Bid cum application form for Anchor Investor was made available at the Office of the Book Running Lead Manager.

Designated Intermediaries (other than SCSBs) after accepting Bid Cum Application Form submitted by RIIs (without using UPI for payment), NIIs and QIBs captured and uploaded the relevant details in the electronic bidding system of stock exchange(s) and shall submit/deliver the Bid Cum Application Forms to respective SCSBs where the Bidders has a bank account and shall not submit it to any non-SCSB Bank.

Further, for applications submitted to designated intermediaries (other than SCSBs), with use of UPI for payment, after accepting the Bid Cum Application Form, respective intermediary shall capture and upload the relevant application details, including UPI ID, in the electronic bidding system of stock exchange(s).

Bidders only used the specified Bid Cum Application Form for making an Application in terms of the Prospectus.

The Bid Cum Application Form contained information about the Bidder and the price and the number of Equity Shares that the Bidders wished to apply for. Bid Cum Application Forms downloaded and printed from the websites of the Stock Exchange shall bear a system generated unique application number. Bidders were required to ensure that the ASBA Account has sufficient credit balance as an amount equivalent to the full Application Amount can be blocked by the SCSB or Sponsor Bank at the time of submitting the Application.

An Investor, intending to subscribe to this Issue, submitted a completed Bid Cum Application Form to any of the following intermediaries (Collectively called – Designated Intermediaries”)

Sr. No.	Designated Intermediaries

Eligible NRIs bidding on non-repatriation basis are advised to use the Bid cum Application Form for residents (white in colour).

Eligible NRIs bidding on a repatriation basis are advised to use the Bid cum Application Form meant for Non-Residents (blue in colour).

BIDS BY FPI INCLUDING FII'S:

In terms of the SEBI FPI Regulations, any qualified foreign investor or FII who holds a valid certificate of registration from SEBI shall be deemed to be an FPI until the expiry of the block of three years for which fees have been paid as per the SEBI FII Regulations. An FII or a sub-account may participate in this Issue, in accordance with Schedule 2 of the FEMA Regulations, until the expiry of its registration with SEBI as an FII or a sub-account. An FII shall not be eligible to invest as an FII after registering as an FPI under the SEBI FPI Regulations.

In case of Bids made by FPIs, a certified copy of the certificate of registration issued by the designated depository participant under the FPI Regulations is required to be attached to the Bid cum Application Form, failing which our Company reserves the right to reject any Bid without assigning any reason. An FII or subaccount may, subject to payment of conversion fees under the SEBI FPI Regulations, participate in the Issue, until the expiry of its registration as a FII or sub-account, or until it obtains a certificate of registration as FPI, whichever is earlier. Further, in case of Bids made by SEBI-registered FIIs or sub-accounts, which are not registered as FPIs, a certified copy of the certificate of registration as an FII issued by SEBI is required to be attached to the Bid cum Application Form, failing which our Company reserves the right to reject any Bid without assigning any reason.

In terms of the SEBI FPI Regulations, the Issue of Equity Shares to a single FPI or an investor group (which means the same set of ultimate beneficial owner(s) investing through multiple entities) must be below 10% of our post-Issue Equity Share capital. Further, in terms of the FEMA Regulations, the total holding by each FPI shall be below 10% of the total paid-up Equity Share capital of our Company and the total holdings of all FPIs put together shall not exceed 24% of the paid-up Equity Share capital of our Company. The aggregate limit of 24% may be increased up to the sectorial cap by way of a resolution passed by the Board of Directors followed by a special resolution passed by the Shareholders of our Company and subject to prior intimation to RBI. In terms of the FEMA Regulations, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs as well as holding of FIIs (being deemed FPIs) shall be included. The existing individual and aggregate investment limits an FII or sub account in our Company is 10% and 24% of the total paid-up Equity Share capital of our Company, respectively.

FPIs are permitted to participate in the Issue subject to compliance with conditions and restrictions which may be specified by the Government from time to time.

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 22 of the SEBI FPI Regulations, an FPI, other than Category III foreign portfolio and unregulated broad based funds, which are classified as Category II foreign portfolio investor by virtue of their investment manager being appropriately regulated, may Issue or otherwise deal in offshore derivative instruments (as defined under the SEBI FPI Regulations as any instrument, by whatever name called, which is issued overseas by an FPI against securities held by it that are listed or proposed to be listed on any recognized stock exchange in India, as its underlying) directly or indirectly, only in the event (i) such offshore derivative instruments are issued only to persons who are regulated by an appropriate regulatory authority; and (ii) such offshore derivative instruments are issued after compliance with know your client norms. An FPI is also required to ensure that no further issue or transfer of any offshore derivative instrument is made by or on behalf of it to any persons that are not regulated by an appropriate foreign regulatory authority.

FPIs who wish to participate in the Issue are advised to use the Bid cum Application Form for Non- Residents (blue in colour).

BIDS BY SEBI REGISTERED VCF'S, AIF'S AND FVCI'S:

The SEBI FVCI Regulations and the SEBI AIF Regulations inter-alia prescribe the investment restrictions on the VCFs, FVCIs and AIFs registered with SEBI. Further, the SEBI AIF Regulations prescribe, among others, the investment restrictions on AIF's.

The holding by any individual VCF registered with SEBI in one venture capital undertaking should not exceed 25% of the corpus of the VCF. Further, VCFs and FVCIs can invest only up to 33.33% of the investible funds by way of subscription to an initial public offering.

The category I and II AIFs cannot invest more than 25% of the corpus in one Investee Company. A category III AIF cannot invest more than 10% of the corpus in one Investee Company. A venture capital fund registered as a category I AIF, as defined in the SEBI AIF Regulations, cannot invest more than 1/3rd of its corpus by way of subscription to an initial public offering of a venture capital undertaking. Additionally, the VCFs which have not re-registered as an AIF under the SEBI AIF Regulations shall continue to be regulated by the VCF Regulation until the existing fund or scheme managed by the fund is wound up and such funds shall not launch any new scheme after the notification of the SEBI AIF Regulations.

All FIIs and FVCIs should note that refunds, dividends and other distributions, if any, will be payable in Indian Rupees only and net of Bank charges and commission.

Our Company or the Book Running Lead Manager will not be responsible for loss, if any, incurred by the Bidder on account of conversion of foreign currency.

There was no reservation for Eligible NRIs, FPIs and FVCIs and all Bidders were treated on the same basis with other categories for the purpose of allocation.

BIDS BY HUFs

In case of Bids made by limited liability partnerships registered under the Limited Liability Partnership Act, 2008, a certified copy of certificate of registration issued under the Limited Liability Partnership Act, 2008, must be attached to the Bid cum Application Form. Failing this, our Company reserves the right to reject any bid without assigning any reason thereof. Limited liability partnerships can participate in the Issue only through the ASBA process.

BIDS BY INSURANCE COMPANIES:

In case of Bids made by insurance companies registered with the IRDA, a certified copy of certificate of registration issued by IRDA must be attached to the Bid cum Application Form. Failing this, our Company reserves the right to reject any Bid by Insurance Companies without assigning any reason thereof. The exposure norms for insurers, prescribed under the Insurance Regulatory and Development Authority (Investment) Regulations, 2000, as amended, are broadly set forth below:

- 1) equity shares of a company: the least of 10% of the investee company's subscribed capital (face value) or 10% of the respective fund in case of life insurer or 10% of investment assets in case of general insurer or reinsurer;
- 2) the entire group of the investee company: not more than 15% of the respective fund in case of a life insurer or 15% of investment assets in case of a general insurer or reinsurer or 15% of the investment assets in all companies belonging to the group, whichever is lower; and
- 3) the industry sector in which the investee company belong to: not more than 15% of the fund of a life insurer or a general insurer or a reinsurer or 15% of the investment asset, whichever is lower.

The maximum exposure limit, in the case of an investment in equity shares, cannot exceed the lower of an amount of 10% of the investment assets of a life insurer or general insurer and the amount calculated under (1), (2) and (3) above, as the case may be. Insurance companies participating in this Issue shall comply with all applicable regulations, guidelines and circulars issued by IRDAI from time to time.

BIDS UNDER POWER OF ATTORNEY:

In case of Bids made pursuant to a power of attorney or by limited companies, corporate bodies, registered societies, FIIs, Mutual Funds, insurance companies and provident funds with a minimum corpus of ₹ 2500 Lakhs (subject to applicable law) and pension funds with a minimum corpus of ₹2500 Lakhs, a certified copy of the power of attorney or the relevant resolution or authority, as the case may be, along with a certified copy of the memorandum of association and articles of association and/or bye laws must be lodged along with the Bid cum Application Form. Failing this, our Company reserves the right to accept or reject any Bid in whole or in part, in either case, without assigning any reasons thereof. In addition to the above, certain additional documents are required to be submitted by the following entities:

- a) With respect to Bids by FIIs and Mutual Funds, a certified copy of their SEBI registration certificate must be lodged along with the Bid cum Application Form.
- b) With respect to Bids by insurance companies registered with the Insurance Regulatory and Development Authority, in addition to the above, a certified copy of the certificate of registration issued by the Insurance Regulatory and Development Authority

- must be lodged along with the Bid cum Application Form.
- c) With respect to Bids made by provident funds with a minimum corpus of ₹ 2500 Lakhs (subject to applicable law) and pension funds with a minimum corpus of ₹ 2500 Lakhs, a certified copy of a certificate from a chartered accountant certifying the corpus of the provident fund/pension fund must be lodged along with the Bid cum Application Form.
 - d) With respect to Bids made by limited liability partnerships registered under the Limited Liability Partnership Act, 2008, a certified copy of certificate of registration issued under the Limited Liability Partnership Act, 2008, must be attached to the Bid cum Application Form
 - e) Our Company in consultation with the Book Running Lead Manager in their absolute discretion, reserves the right to relax the above condition of simultaneous lodging of the power of attorney along with the Bid cum Application form, subject to such terms and conditions that our Company and the Book Running Lead Manager may deem fit.

The above information is given for the benefit of the Bidders. Our Company, the Book Running Lead Manager and the Syndicate Members are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of the Prospectus. Bidders are advised to make their independent investigations and Bidders are advised to ensure that any single Bid from them does not exceed the applicable investment limits or maximum number of Equity Shares that can be held by them under applicable law or regulation or as specified in the Prospectus.

BIDS BY PROVIDENT FUNDS / PENSION FUNDS:

In case of Bids made by provident funds with minimum corpus of ₹ 25 Crore (subject to applicable law) and pension funds with minimum corpus of ₹ 25 Crore, a certified copy of certificate from a chartered accountant certifying the corpus of the provident fund/ pension fund must be lodged along with the Bid cum Application Form. Failing this, the Company reserves the right to accept or reject any bid in whole or in part, in either case, without assigning any reason thereof.

BIDS BY BANKING COMPANY:

In case of Bids made by banking companies registered with RBI, certified copies of: (i) the certificate of registration issued by RBI, and (ii) the approval of such banking company's investment committee are required to be attached to the Bid cum Application Form, failing which our Company reserves the right to reject any Bid by a banking company without assigning any reason.

The investment limit for banking companies in non-financial services companies as per the Banking Regulation Act, 1949, as amended (the "Banking Regulation Act"), and the Reserve Bank of India (Financial Services provided by Banks) Directions, 2016, is 10% of the paid-up share capital of the investee company not being its subsidiary engaged in non-financial services or 10% of the banks' own paid-up share capital and reserves, whichever is lower. However, a banking company would be permitted to invest in excess of 10% but not exceeding 30% of the paid-up share capital of such investee company if (i) the investee company is engaged in non-financial activities permitted for banks in terms of Section 6(1) of the Banking Regulation Act, or (ii) the additional acquisition is through restructuring of debt / corporate debt restructuring / strategic debt restructuring, or to protect the banks' interest on loans / investments made to a company. The bank is required to submit a time bound action plan for disposal of such shares within a specified period to RBI. A banking company would require a prior approval of RBI to make (i) investment in a subsidiary and a financial services company that is not a subsidiary (with certain exception prescribed), and (ii) investment in a nonfinancial services company in excess of 10% of such investee company's paid up share capital as stated in 5(a)(v)(c)(i) of the Reserve Bank of India (Financial Services provided by Banks) Directions, 2016.

BIDS BY SCSB'S:

SCSBs participating in the Issue are required to comply with the terms of the SEBI circulars dated September 13, 2012 and January 2, 2013. Such SCSBs are required to ensure that for making Bid cum Applications on their own account using ASBA, they should have a separate account in their own name with any other SEBI registered SCSBs. Further, such account shall be used solely for the purpose of making Bid cum application in public issues and clear demarcated funds should be available in such account for such Bid cum applications.

ISSUANCE OF A CONFIRMATION NOTE ("CAN") AND ALLOTMENT IN THE ISSUE:

1. Upon approval of the basis of allotment by the Designated Stock Exchange, the Book Running Lead Manager or Registrar to the Issue shall send to the SCSBs a list of their Bidders who have been allocated Equity Shares in the Issue.
2. The Registrar will then dispatch a CAN to their Bidders who have been allocated Equity Shares in the Issue. The dispatch of a CAN shall be deemed a valid, binding and irrevocable contract for the Bidder

Issue Procedure for Application Supported by Blocked Account (ASBA) Bidders

ALLOTMENT PROCEDURE AND BASIS OF ALLOTMENT

The Allotment of Equity Shares to Bidders other than Retail Individual Bidders and Anchor Investors may be on proportionate basis. For Basis of Allotment to Anchor Investors, Bidders may refer to Prospectus. No Retail Individual Investor will be Allotted less than the minimum Bid Lot subject to availability of shares in Retail Individual Investor Category and the remaining available shares, if any will be Allotted on a proportionate basis.

BASIS OF ALLOTMENT

a. For Retail Individual Bidders

Bids received from the Retail Individual Bidders at or above the Issue Price shall be grouped together to determine the total demand under this category. The Allotment to all the successful Retail Individual Bidders will be made at the Issue Price.

The Issue size less Allotment to Non-Institutional and QIB Bidders shall be available for Allotment to Retail Individual Bidders who have Bid in the Issue at a price that is equal to or greater than the Issue Price. If the aggregate demand in this category is less than or equal to 20,49,600 Equity Shares at or above the Issue Price, full Allotment shall be made to the Retail Individual Bidders to the extent of their valid Bids.

If the aggregate demand in this category is greater than 20,49,600 Equity Shares at or above the Issue Price, the Allotment shall be made on a proportionate basis up to a minimum of 1600 Equity Shares and in multiples of 1600 Equity Shares thereafter. For the method of proportionate Basis of Allotment, refer below.

b. For Non-Institutional Bidders

Bids received from Non-Institutional Bidders at or above the Issue Price shall be grouped together to determine the total demand under this category. The Allotment to all successful Non- Institutional Bidders will be made at the Issue Price.

The Issue size less Allotment to QIBs and Retail shall be available for Allotment to Non- Institutional Bidders who have Bid in the Issue at a price that is equal to or greater than the Issue Price. If the aggregate demand in this category is less than or equal to 8,78,400 Equity Shares at or above the Issue Price, full Allotment shall be made to Non-Institutional Bidders to the extent of their demand.

In case the aggregate demand in this category is greater than 8,78,400 Equity Shares at or above the Issue Price, Allotment shall be made on a proportionate basis up to a minimum of 1600 Equity Shares and in multiples of 1600 Equity Shares thereafter. For the method of proportionate Basis of Allotment refer below.

c. For QIBs

Not more than 50% of the Net Issue shall be allocated on a proportionate basis to QIBs, provided that our Company may, in consultation with the Book Running Lead Manager, allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations, of which one-third shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Allocation Price.

In the event of under-subscription, or non-allotment in the Anchor Investor Portion, the balance Equity Shares shall be added to the Net QIB Portion. Further, 5% of the Net QIB Portion shall be available for allocation on a proportionate basis only to Mutual Funds, and the remainder of the Net QIB Portion shall be available for allocation on a proportionate basis to all QIBs (other than Anchor Investors), including Mutual Funds, subject to valid Bids being received at or above the Offer Price.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign Investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which, Such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the Foreign investor is required to follow certain prescribed procedures for making such investment. The RBI and the Concerned ministries/departments are responsible for granting approval for foreign investment.

The Government of India has from time to time made policy pronouncements on foreign direct investment (“FDI”) through press notes and press releases. The Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry Government of India (earlier known as the Department of Industrial Policy and Promotion) (“DPIIT”) issued the FDI Policy, which with effect from October 15, 2020 consolidated, subsumed superseded all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as of and prior to October 15, 2020. The FDI Policy will be valid until the DPIIT issues an updated circular. Up to 100% foreign investment under the automatic route is currently permitted for our Company.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of RBI, provided that: (i) the activities of the investee company are under the automatic route under the FDI Policy and transfer does not attract the provisions of the SEBI Takeover Regulations, (ii) the non-resident shareholding is within the sectoral limits under the FDI Policy, and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/RBI. For details of the aggregate limit for investments by NRIs and FPIs in our Company, see “Offer Procedure – Bids by Eligible NRIs” and “Offer Procedure – Bids by FPIs” on page 288.

Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country (“Restricted Investors”), will require prior approval of the Government, as prescribed in the FDI Policy and the FEMA Rules. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government of India. Furthermore, on April 22, 2020, the Ministry of Finance, Government of India has also made a similar amendment to the FEMA Rules. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank or fund in India. Each Bidder should seek independent legal advice about its ability to participate in the Offer. In the event such prior approval of the Government of India is required, and such approval has been obtained, the Bidder shall intimate our Company and the Registrar to the Offer in writing about such approval along with a copy thereof within the Bid/Offer Period.

As per the existing policy of the Government of India, OCBs cannot participate in the Offer.

For further details, see “*Issue Procedure*” on page 288.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Bids may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

The above information is given for the benefit of the Bidders. Our Company, the Selling Shareholders and the BRLMs are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Prospectus. Applicants are advised to make their independent investigations and ensure that the number of Equity Shares Bid for do not exceed the applicable limits under laws or regulations.
