BUSINESS OVERVIEW AND STRATEGY

Company Overview: Incorporated in 2011, we design and manufacture CNC, NC and conventional metal forming machines which caters to the industrial sector requirement for metal fabrication solutions. Our wide spectrum of metal forming machines includes press brake machines, shearing machines, plate rolling machines, iron workers machines, hydraulic presses and busbar bending, cutting & punching machine.

Product/Services offerings:

Press Brake Machines

Press brake machines are offered in CNC, NC and conventional models. They are primarily used to bend or fold sheet metal, plate materials, or metal parts into a desired shape or angle.

Shearing Machines

Shearing machines are used for cutting various materials, such as metal sheets, plates and plastics, into desired shapes and sizes. They work by applying a powerful downward force to a moving blade, which then cuts through the material.

Busbar Machines (3 in 1 processing)

Busbar machines are specialized equipment used in electrical and power distribution industries to fabricate and modify busbars.

Plate rolling Machines

Plate rolling machines are industrial machines designed for the process of rolling and curving sheet metal and metal plates

Ironworker Machines

Ironworker machines composes of a heavy-duty frame with a work table, a hydraulic system and a set of mechanical tools. They are designed to perform a variety of tasks, such as cutting, punching, notching, and bending metal materials.

Hydraulic Press Machines

Press machines are used to shape, cut and deform apply force and pressure to materials for shaping and forming them with precision.

INTERNAL RISK FACTORS:

The below mentioned risks are top 10 risk factors as per the RHP.

- We derived a significant portion of our revenue from the sale of our key product i.e. CNC press brake machines. Any decline in the sales of our key product could have an adverse effect on our business, results of operations and financial condition.
- We do not have firm commitment long-term supply agreements with our customers. If our customers choose not to source their requirements from us, there may be a material adverse effect on our business and results of operations.
- Our Company does not have long-term agreements with suppliers for our input materials and a significant increase in the cost of, or a shortfall in the availability, or deterioration in the quality, of such input materials could have an adverse effect on our business and results of operations.
- We operate in a highly competitive industry and increased competition may lead to a reduction in our revenues, reduced profit margins or a loss of market share.
- Our business is dependent on the performance of the Application Industries. Any downturn in the Application Industries can adversely impact our business, results of operations, cash flow and financial condition of our Company.
- Our Statutory Auditor have included certain qualifications in their Audit Report (including CARO Report) for financial statements pertaining to F.Y. 2020-21, 2021-22 and 2022-23 and tax audit reports for the same financial years.
- Failure to innovate our product offerings and adapting to technological advancements and changes may have an adverse effect on our business and results of operations
- There are outstanding legal proceedings involving our Company, our Directors and our Promoters. Any adverse decisions could impact our cashflows and profit or loss to the extent of demand amount, interest and penalty, divert management time and attention and have an adverse effect on our business, prospects, results of operations and financial condition.
- We require certain approvals, licenses, registrations and permits to operate our business, and failure to obtain or renew them in a timely manner or maintain the statutory and regulatory permits and approvals required to operate our business may adversely affect our operations and financial conditions.
- We are subject to strict quality requirements and any failure to comply with quality standards may lead to cancellation of existing and future orders, product recalls, product liability, warranty claims and other disputes and claims.
