INTERNAL RISK FACTORS:

The below mentioned risks are top 10 risk factors as per the RHP.

1. Our production costs are vulnerable to fluctuations in raw material prices, especially Copper scrap. Currently, we haven't secured any long-term supply agreements for the raw materials we need.
 2. We are primarily dependent upon few key suppliers within limited geographical location for procurement of raw materials. Any disruption in the supply of these raw materials due to fluctuations in the prices could have a material adverse effect on our business operations and financial conditions.
 3. We generate our major portion of sales from our operations in certain geographical regions and any adverse developments affecting our operations in these regions could have an adverse impact on our revenue and results of operations.
 4. We have very short span of operating history as company.
 5. Our top 10 and top 5 customers contribute majority of our revenues from operations for the year ended March 31, 2024, 2023 and 2022. Any loss of business from one or more of them may adversely affect our revenues and profitability.
 6. Copper wires can be substituted by aluminium wires due to the lower cost and weight of metal which may pose a threat to the core business of our Company impacting the overall profitability.
 7. Majority of our revenue is dependent on single business segment i.e. copper rods. An inability to anticipate or adapt to evolving upgradation of products or inability to ensure product quality or reduction in the demand of such products may adversely impact our revenue from operations and growth prospects.
 8. Ours is a high volume-low margin business. Any disruption in our turnover or failure to regularly grow the same may have a material adverse effect on our business, results of operations and financial condition.
 9. We do not own the registered office & manufacturing unit and marketing office from which we carry out our business activities. In case of nonrenewal of rent agreements or dispute in relation to use of the said premise, our business and results of operations can be adversely affected.
 10. Our historical performance is not indicative of our future growth or financial results and we may not be able to sustain our historical growth rates.
