FORWARD LOOKING STATEMENTS

This Draft Red Herring Prospectus includes certain “forward-looking statements”. We have included statements in the Draft Red Herring Prospectus which contain words or phrases such as “will”, “aim”, “is likely to result”, “believe”, “expect”, “will continue”, “anticipate”, “estimate”, “intend”, “plan”, “contemplate”, “seek to”, “future”, “objective”, “goal”, “project”, “should”, “will pursue” and similar expressions or variations of such expressions, that are “forward-looking statements”. Also, statements which describe our strategies, objectives, plans or goals are also forward-looking statements. However, these are not the exclusive means of identifying forward looking statements.

All forward looking statements are subject to risks, uncertainties and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. Forward-looking statements reflect our current views with respect to future events and are not a guarantee of future performance. These statements are based on our management’s beliefs and assumptions, which in turn are based on currently available information. Although we believe the assumptions upon which these forward-looking statements are based are reasonable, any of these assumptions could prove to be inaccurate, and the forward-looking statements based on these assumptions could be incorrect. Important factors that could cause actual results to differ materially from our expectations include but are not limited to the following:

1. Changes in government regulations, municipal policies, or restrictions related to outdoor advertising could affect the availability or use of media assets;
2. A decline in general economic activity could lead to reduced advertising budgets from clients, impacting demand for outdoor advertising services;
3. Increased competition from other outdoor media companies, as well as alternative advertising platforms such as digital and social media, could affect market share and pricing power;
4. A significant portion of revenue is linked to media assets located in specific high-traffic areas. Any loss of rights or licenses for key locations could adversely impact operations;
5. Rapid changes in advertising technology, including digital media consumption patterns, could reduce the relative importance of traditional outdoor advertising formats;
6. Dependence on a limited number of major clients for a significant portion of revenue could pose a risk if any of these clients reduce or discontinue their advertising spends;
7. Delays in project execution, failure to maintain assets properly, or disruption due to external factors such as weather conditions or civic issues could impact service delivery and financial performance;
8. Since the company manages or facilitates outdoor sites, any disputes, non-renewals, or changes in lease terms with property owners or authorities could affect asset availability;
9. Non-compliance with municipal rules, advertising codes, or environmental regulations could lead to penalties, asset removals, or reputational harm;
10. Broad events such as inflation, political instability, changes in consumer behavior, or large-scale public movements could influence the effectiveness and revenues from outdoor advertising campaigns;
11. Inability to maintain and develop our brand;
12. Adverse statutory and regulatory actions from Income Tax department or any other statutory or regulatory authority;
13. Our business strategies and plans to achieve these strategies;
14. Conflict of interest between our business and activities undertaken by entities in which certain of our directors and our Promoters have interest in future;
15. General economic and business conditions in the markets in which we operate and in the local, regional and national economies;
16. Changes in political and social conditions in India, the monetary and interest rate policies of India and other countries;
17. Inflation, deflation, unanticipated turbulence in interest rates, equity prices or other rates or prices;
18. The occurrence of natural disasters or calamities;
19. Other factors beyond our control and our ability to manage risks that arise from these factors.

For further discussion of factors that could cause our actual results to differ, see the Section titled ***“Risk Factors”, “Our Business” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations”*** beginning on page 28, page 104, and page 193 respectively of the Draft Red Herring Prospectus. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated.

There can be no assurance to investors that the expectations reflected in these forward-looking statements will prove to be correct. Given these uncertainties, investors are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements to be a guarantee of our future performance.

Neither our Company or our Directors or our Officers or Book Running Lead Manager or Underwriter nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI requirements, our Company and the BRLM will ensure that investors in India are informed of material developments until such time as the grant of listing and trading permission by the Stock Exchange for the Equity Shares allotted pursuant to this Issue.

2. Our business is significantly dependent on concession, licensing, and marketing agreements granted by government and quasi-government authorities, and failure to renew or retain such rights could materially and adversely affect our revenues and market position.

We derive a significant portion of our revenues from concession, licensing, and marketing agreements granted by government and quasi-government authorities, including the Airports Authority of India (“AAI”), Indian Railways, and Metro Rail authorities, for operating advertising assets at airports, railway stations, metro stations, and other public locations. These agreements, which are typically awarded through competitive bidding processes for fixed terms ranging from three to ten years, constitute a substantial part of our operational footprint and revenue base.

Renewal of such agreements is not automatic and is generally subject to re-bidding, where competitors may offer more commercially favorable terms. Further, the granting authorities retain broad powers to terminate or modify the agreements in certain circumstances, including breach of conditions, non-payment of dues, unsatisfactory performance, changes in policy, or public interest considerations.

Any inability to successfully retain or renew key concessions, particularly at high-traffic locations, could result in an immediate loss of advertising inventory and revenues, weakening our bargaining power with advertisers and necessitating write-offs of security deposits, dismantling costs, or impairment of related assets. There can be no assurance that we will be able to renew or obtain concessions on terms as favorable as those currently in place, or at all. Failure to do so could materially and adversely affect our business, results of operations, and financial condition.

3. We are required to provide substantial security deposits under our concession agreements, the forfeiture or invocation of which could materially affect our liquidity.

Our concession and licensing agreements require us to provide security deposits to secure and maintain advertising rights at airports, railway stations and metro stations. These deposits are generally non-interest bearing and are held by the granting authorities as a form of performance security for the duration of the respective agreements.

If we fail to perform our obligations under any of these agreements, or if there is a delay in payment or early termination of the agreements, the granting authorities may, at their discretion, forfeit part of the security deposits without the requirement to demonstrate actual loss. For instance, under certain airport concession agreements, if the agreement is terminated before completion of 50% of the tenure, the authority may forfeit an amount equivalent to six months of the Minimum Monthly Guarantee (MMG). If termination occurs after completion of 50% of the tenure, the security deposit is refundable without any forfeiture. Any such forfeiture could materially reduce our cash reserves and adversely affect our liquidity. Further, repeated forfeitures of security deposit could adversely affect our reputation with government authorities and financial institutions, which may make it more difficult for us to secure future concessions or obtain financing on favourable terms.

4. *Certain concession agreements require us to pay Minimum Monthly Guarantees (MMG) irrespective of revenue, and any inability to meet these obligations could materially affect our business and financial condition.*

Some of our airport and railway concession agreements require us to pay a fixed Minimum Monthly Guarantee (MMG) to the granting authorities, regardless of the actual revenue generated from the advertising spaces. These MMG payments are typically determined at the time of bidding and remain payable even if actual revenue is lower due to seasonal fluctuations, reduced passenger traffic, or unforeseen events such as pandemics or infrastructure disruptions.

If actual revenue falls short of the MMG, we may be required to fund the shortfall from internal resources or borrowings, which could put pressure on our liquidity and profitability. Consistently underperforming locations may become financially challenging to sustain, and failure to meet MMG obligations could result in penalties, forfeiture of security deposits, or termination of rights by the granting authorities.

Such instances could also adversely affect our reputation with government authorities and financial institutions, potentially limiting our ability to secure new concessions or renew existing agreements. Consequently, any inability to meet MMG requirements could materially impact our business, financial condition, and results of operations.

5. *We are yet to place orders for certain static and digital media assets for our Out-of-Home (“OOH”) advertising business, and any delays could postpone implementation and increase costs.*

Our Company has received third-party quotations for the acquisition and deployment of static and digital outdoor media assets across railway stations, airports, and city-based locations in the states of Bihar and Jharkhand. These assets include hoardings, unipole, gantries, LED screens, and other display formats. The proposed capital expenditure for these assets is intended to be funded from the Net Proceeds of this Issue. However, we have not yet placed orders for these assets.

The cost estimates are based on the third-party quotations, which are valid for a limited period and may be subject to revisions, commercial conditions, and technical factors. We cannot assure that we will be able to procure these assets in a timely manner or at the prices indicated in the quotations. Any delay in placing orders, an increase in acquisition costs, or inability of the vendors to deliver the assets on time could lead to time and cost overruns in setting up these locations.

Further, if we are unable to procure the assets from the quoted vendors, there is no assurance that we will be able to identify alternative vendors that meet our requirements at acceptable prices. Our inability to procure these display assets in a timely manner or at reasonable costs may result in increased capital expenditure, delays in the proposed schedule of implementation, and extensions or variations in the deployment of the Net Proceeds, which could adversely affect our business, prospects, and results of operations.

6. *Our operations are geographically concentrated in a few Indian states, exposing us to region-specific economic, political, and regulatory risks.*

Our operations are predominantly concentrated in the states of Bihar, Jharkhand, West Bengal and certain parts of the North-Eastern region of India. A substantial portion of our revenues is generated from Out-of-Home (“OOH”) advertising assets in these regions, including airports, railway stations, metro stations and city-based advertising formats. For Fiscal 2025, approximately 44.77% of our total revenue was derived from Bihar, 16.69% from Jharkhand, 9.64% from West Bengal, and approx. 5.22% from the North-Eastern states. We do not own or operate any media assets outside Bihar, Jharkhand, West Bengal and some North Eastern States, although we service clients from other parts of India through campaigns executed in these geographies. Accordingly, our business and financial performance are subject to significant concentration risks.

Below mentioned is the geography wise revenue earned by the company during last 3 financial years.

(Amount in Rs. Lakhs)

Geographical wise sales	FY 2024-25	% to Total Sales	FY 2023-24	% To Total Sales	FY 2022-23	% To Total Sales

Gujarat	98.29	2.68%	2.50	0.08%	6.19	0.27%

Total	3665.29	100.00%	3203.39	100.00%	2257.17	100.00%

Any adverse developments in these regions, including changes in applicable laws and regulations, political or economic instability, natural disasters, public health emergencies, infrastructure disruptions, civil unrest, or labour issues, may significantly impact our ability to operate our media assets. Further, adverse actions by governmental or regulatory authorities, including cancellation, modification or non-renewal of advertising rights, or restrictions specific to our industry such as limitations on award of new projects, removal or relocation of existing assets, or revised compliance requirements, may adversely impact our operations and expansion plans.

Operational challenges such as delays in approvals, slower execution of installations, or shortage of skilled manpower may affect our ability to deliver campaigns within client timelines. As our media assets are concentrated in a few states, our ability to serve clients from other geographies depends on these limited regions, and any disruption may not be offset elsewhere. While we intend to expand our footprint, there is no assurance that such diversification will be timely, successful, or cost-effective.

7. Our ability to execute city-based Out-of-Home (OOH) advertising campaigns depends on the availability and cost of suitable media sites, including hoardings, and any shortage or price escalation in such inventory may adversely affect our business, financial condition, and results of operations.

A portion of our OOH advertising business, particularly in city-based formats, is dependent on our ability to procure appropriate media sites such as hoardings, billboards, unipole, pole kiosks, gantries, wall wraps, and other display formats. These sites are typically sourced from third-party media owners, municipal bodies, or other private lessors, through lease arrangements or rental contracts. The availability of such sites in high-traffic or strategically relevant locations is critical to meeting client expectations and campaign specifications.

There can be no assurance that such sites will be consistently available in the desired locations, at commercially viable terms, or within required timelines. In certain cases, local authorities may impose restrictions, deny renewal of existing sites, or initiate demolition drives in specific zones, thereby reducing the total inventory of usable OOH media sites. Additionally, fluctuations in site rentals due to increased demand, limited supply, or changes in municipal guidelines may impact our cost structure and margins.

Our inability to procure suitable sites, or any significant escalation in rental or acquisition costs without a corresponding increase in client billing rates, may adversely affect the profitability of campaigns or result in loss of business to competitors. In some cases, we may also be required to relocate campaigns to alternate sites that may not deliver equivalent visibility or impact. These limitations could lead to reduced client satisfaction, revenue loss, and impairment of our competitive positioning in the market. Accordingly, continued availability of quality media sites at commercially viable prices is essential for sustaining our operations, and any disruption may materially and adversely affect our business, results of operations, and financial condition.

8. We are dependent on high-revenue contracts at select airports and railway zones, and any failure to retain or renew these contracts could materially affect our revenue base.

A significant portion of our revenue is derived from a limited number of high-revenue contracts at key airports and railway zones, including contracts with authorities such as the Airports Authority of India (AAI) and Indian Railways through IRCTC. These contracts contribute substantially to our overall revenue and profitability. Our ability to maintain or grow revenue from these locations depends on timely renewals, continued compliance with contractual obligations, and satisfactory performance. Failure to retain, renew, or secure these contracts on favourable terms, or any reduction in the scale of operations under these contracts, could materially reduce our revenue and adversely affect our financial condition, results of operations, and cash flows.

9. We may be unable to respond to changes in consumer demands and market trends in a timely manner.

Our success depends on our ability to identify, originate and define product and market trends, both on a pan India, international and more local level, as well as to anticipate, gauge and react to rapidly changing consumer demands in a timely

manner. Our advertising strategies must also appeal to a broad range of customers whose preferences may vary significantly across regions and cannot be predicted with certainty. We cannot assure you that the demand for our services with end-consumers will continue to grow or that we will be able to continue to develop appealing styles or meet rapidly changing consumer demands in the future. If we misjudge the market or fail to anticipate a shift in consumer preferences, we may be faced with a reduction in revenues. Any inability to respond to changes in consumer demands and market trends in a timely manner could have a material adverse effect on our business, financial condition and results of operations.

10. Our business requires significant working capital, and delays in receivables or inability to secure adequate financing could adversely affect our liquidity and operations.

Our business requires a significant amount of working capital, with a major portion deployed towards trade receivables and inventories. Our trade receivables as of March 31, 2025, March 31, 2024, and March 31, 2023 were ₹1071.35 lakhs, ₹877.06 lakhs, and ₹664.56 lakhs, respectively, while our inventories as of March 31, 2025, March 31, 2024, and March 31, 2023 were ₹0.56 lakhs, ₹0.64 lakhs, and ₹71.07 lakhs, respectively.

The results of our operations are dependent on our ability to effectively manage trade receivables and inventory. Effective management of trade receivables requires accurate evaluation of our customers' creditworthiness and setting suitable terms and conditions to maintain ongoing relationships. Failure to accurately assess and manage these terms may result in delayed collections, write-offs, or bad debts, potentially leading to a liquidity crunch, which could adversely affect our business and results of operations. Such a liquidity crunch may also necessitate increased working capital borrowings, resulting in higher finance costs and reduced profitability.

Our inability to maintain sufficient cash flow, access credit facilities, or secure alternative sources of funding in a timely manner to meet working capital requirements or debt obligations could adversely affect our financial condition and results of operations. If we are unable to recover our dues from trade receivables or sell inventory in a timely manner, we may be unable to maintain sales levels, thereby adversely affecting our financial health.

For further details of our working capital requirements, please refer to the chapter titled "**Objects of the Issue**" on page 76 of this Draft Red Herring Prospectus.

11. We are bound by obligations and restrictive covenants under our concession agreements with government authorities, and any breach or non-compliance may result in termination, penalties, or other adverse consequences.

We have entered into concession agreements with various government and quasi-government authorities, including airports, railways, and metro corporations, in connection with our advertising operations. These agreements impose specific obligations and restrictive covenants, such as timely payment of license fees, compliance with technical and safety standards, maintenance of advertising assets, and adherence to applicable laws and operational requirements.

Any failure to comply with these conditions may constitute a breach of contract, which could result in financial penalties, termination of rights, forfeiture of security deposits, or disqualification from participating in future tenders. In addition, such agreements typically provide authorities with broad rights to revoke, suspend, or alter the terms of the concession even in the absence of default, and in some cases, require us to indemnify the authority against losses arising from non-compliance.

if any of our agreements are terminated, revoked, or modified on terms unfavorable to us, we may lose advertising rights, be unable to recover investments already made, or face operational disruptions. Further, we are currently involved in litigation arising from disputes under such concession agreements, including proceedings against Indian Railways relating to removal of advertising hoardings. For further details, please refer to the chapter titled "**Outstanding Litigation and Material Developments**" on page 201 of this Draft Red Herring Prospectus. Any such adverse outcomes could materially and adversely affect our business, financial condition, cash flows, and results of operations.

12. We are exposed to the risk of delayed payments, defaults, or disputes with clients, which may adversely affect our cash flows, working capital, and financial performance.

A significant portion of our revenue is generated from clients in the out-of-home ("OOH") advertising segment, including airports, railway stations, metro stations, and city-based locations. Our business is exposed to the risk of delays in collections or defaults by clients, which could negatively impact our liquidity, operational efficiency, and ability to meet financial obligations. Any delay or default in payments may require us to utilize internal resources, borrowings, or credit facilities to fund ongoing operations, resulting in higher finance costs and lower profitability.

Further, in some cases, amounts due may remain outstanding for extended periods or may not be recoverable at all. Efforts to recover such dues could lead to disputes or litigation with clients or counterparties, which may involve significant time, costs, and management attention, without assurance of a favorable outcome. If defaults, delays, or disputes occur frequently or involve major clients, our cash flows, working capital, and results of operations may be materially and adversely affected. For

details of litigation involving recovery of dues, see the chapter titled “Outstanding Litigation and Material Developments” on page 201 of this Draft Red Herring Prospectus.

13. *We do not own the registered office including corporate office and other offices from which we carry out our business activities. If there are issues such as non-renewal of rent agreements, disputes regarding the use of these premises, or disruptions in business operations due to actions by our business associates, our business and operational results could be adversely affected.*

Our registered office, corporate office, godown and other premises from which we carry out our business activities, are being taken by us on rent. In the event of termination/non-renewal of said agreements, we may be required to vacate the said premises which may cause disruption in our corporate affairs and business and impede our effective operations which could temporarily impact on our business operations until we get suitable alternative premises. For details on the duration of existing rent/lease agreements for our premises, please refer to the section titled “**Our Business**” beginning on page 104 of this Draft Red Herring Prospectus. There can be no assurance that we will, in the future, be able to renew the agreements for the existing locations on same or similar terms, or will be able to find alternate locations for the offices on similar terms favorable to us, or at all. We may also fail to negotiate the renewal of our rent agreements for our premises, either on commercially acceptable terms or at all, which could result in increased rental rates for subsequent renewals or searching of new premises, affecting our financial condition and operations. In the event that the rent agreement is terminated or they are not renewed on commercially acceptable terms, we may suffer a disruption in our Business operations which could materially and adversely affect our business, financial condition and results of operations.

14. *We depend on third-party vendors for critical services such as site fabrication, printing, transport, installation, and maintenance. Any operational or financial instability at vendor-end may delay campaign execution or degrade service quality.*

Our business operations rely on third-party vendors for essential activities including site fabrication, printing of advertising material, transport of materials, installation of hoardings, electrical setup for digital media, and routine maintenance. These third-party vendors operate independently under work orders, project schedules, and service-level agreements and are not under our direct control. Any operational inefficiency, delay, quality issue, or financial instability at a third-party vendor’s end, such as labour shortages, non-availability of materials, equipment failure, or cash flow constraints, may result in delayed or substandard execution of advertising campaigns, leading to missed client deadlines, reputational impact, contractual penalties, or cancellation of orders.

If any key third-party vendor ceases operations or changes commercial terms significantly, we may face challenges in identifying alternate vendors quickly without incurring additional costs or compromising quality. Our reliance on third-party vendors increases our operational vulnerability and may affect our ability to deliver consistent service standards across campaigns. Any prolonged or unresolved disruption at the vendor end could materially impact our business operations, financial performance, and client relationships.

15. *Our Group Companies are engaged in businesses similar to ours, which may lead to potential conflicts of interest.*

Our Group Companies, namely Century Venture Private Limited, Bigspace Media Private Limited and Airport Advertising (Agartala) Private Limited are engaged in businesses similar to that of our Company. Our Promoters and members of the Promoter Group have interests in these entities, and we cannot assure that they will not favor the interests of such Group Companies over our Company. Consequently, there may be situations where business opportunities available to our Company may also be available to such Group Companies, leading to potential conflicts of interest in their allocation. Further, there can be no assurance that our Promoters or members of the Promoter Group will not engage in competing businesses in the future or that their interests will always align with ours.

While our Company intends to adopt necessary procedures, as permitted under applicable laws and regulations, to address any such conflict of interest as and when it arises, we cannot assure that such measures will be adequate or effective in all cases. Any present or future conflict of interest could adversely affect our business operations, financial condition, reputation, and results of operations. For further details, see “**Our Group Companies**” and “**Annexure X – Related Party Transactions**” under the section titled “**Financial Information of the Company**” on page 214 and page 179, respectively, of this Draft Red Herring Prospectus.

16. *Our Out-of-Home (“OOH”) media installations are exposed to environmental and physical risks, and any structural failure, accident, or weather-related deterioration could result in legal liability, higher maintenance costs, reduced advertising effectiveness, and financial losses.*

Our outdoor media assets, including hoardings, gantries, kiosks, and digital LED screens, are installed in open public areas, including city roads, highways, pedestrian zones, and locations around railway stations, airports, and metro stations. A significant portion of these assets are located in regions such as Bihar, West Bengal and some of the North Eastern states,

which experience challenging weather conditions, including prolonged monsoon seasons, high humidity, heavy rainfall, cyclonic winds, and periodic flooding. Exposure to such conditions can accelerate structural corrosion, degrade printed materials, damage electrical components of digital installations, and lead to overall wear and tear of our media infrastructure.

Any structural failure, such as collapse, falling signage, or damage due to weather-related deterioration, could cause injury, loss of life, damage to third-party property, traffic disruption, or public nuisance. Such incidents could expose us to third-party claims, civil or criminal liability, regulatory investigations, penalties under municipal and safety laws, and suspension or termination of site permissions. Additionally, deterioration of assets may reduce visual quality, brightness, and appeal of our advertising displays, potentially affecting advertiser satisfaction and effectiveness. Assets in flood-prone or high-humidity areas are particularly susceptible to water seepage, rusting, and short-circuiting, which could lead to service interruptions and higher repair, replacement, or maintenance costs. Any major incident or consistent deterioration could lead to client claims for compensation or discounts, negatively impact advertiser relationships, damage our reputation, and materially affect our operations, revenue, and financial performance.

17. Our Company's logo  *is not registered as on date of this Draft Red Herring Prospectus. We may be unable to adequately protect our intellectual property. Furthermore, we may be subject to claims alleging breach of third-party intellectual property rights which could have a material adverse effect on our business, results of operations and financial condition.*

Our company has applied for the registration of our logo “  ” under class 35 of the Trade Marks Act, 1999

and the same is pending as date. There can be no assurance that our trademark application will be accepted and the trademark will be registered. Any other vendor in the similar line of business as ours may use the above-mentioned trademark and we may have a lesser recourse to initiate legal proceedings to protect our brand name. In the event we are not able to obtain registrations due to opposition by third parties or if any injunctive or other adverse order is issued against us in respect of our logo for which we have applied for registration, we may not be able to use such trademark and / or avail the legal protection or prevent unauthorized use of such trademark by third parties, which may adversely affect our goodwill and business. Therefore, as on date we do not enjoy the statutory provisions that are accorded to a registered trademark. Further, we may not be able to detect any unauthorized use or infringement or take appropriate and timely steps to enforce or protect our intellectual property, nor can we provide any assurance that any unauthorized use or infringement will not cause damage to our business prospects. In case we are unable to obtain the registration for the said trademark in our name, our business revenues and profitability may be impacted. For further details on our trademark, please refer to chapter titled “**Our Business**” beginning on page 104 of this Draft Red Herring Prospectus.

18. We require certain approvals or licenses in the ordinary course of business and the failure to renew, obtain or retain them in a timely manner, or at all, may adversely affect our operations.

We require various statutory and regulatory permits, licenses and approvals to operate our business. Though we believe that we have obtained approvals adequate to run our operations, we cannot assure that there are no other statutory or regulatory requirements applicable to us. Some of the approvals obtained by us are valid for a fixed period and require periodic renewal. There can be no assurance that the relevant authorities will issue or renew such approvals in a timely manner, or at all, which may lead to an interruption of our operations and have a material adverse effect on our business, financial condition and results of operations.

Our Company is yet to apply for registration of change in its name pursuant to its conversion into a public limited company under the trademark application filed with the Trade Marks Registry under the Trade Marks Act, 1999. Until such registration is completed, there can be no assurance that our rights under the existing application will be fully protected against potential challenges, oppositions, or claims by third parties.

Further, approvals required by our Company are subject to numerous conditions, and there can be no assurance that these would not be suspended, revoked or cancelled in the event of non-compliance or alleged non-compliance with any terms and conditions, or pursuant to any regulatory action. If there is any failure by us to comply with the applicable regulations, or if the regulatory framework governing our business changes, we may incur increased costs, be subject to penalties, lose certain approvals, or suffer disruption of our operations, any of which could adversely affect our business. For details regarding approvals obtained and

19. There are certain discrepancies/errors noticed in some of our corporate records relating to forms filed with the Registrar of Companies and other provisions of Companies Act, 2013. Any penalty or action taken by any regulatory authorities in future, for non-compliance with provisions of corporate and other law could impact the reputation and financial position of the Company to that extent.

There are few discrepancies noticed in some of our corporate records relating to e-forms filed with the Registrar of Companies,

which inter-alia includes clerical errors like: inappropriate regularization of additional directors appointed by board in the past, however all such appointments of directors have been ratified as on date of the Draft Red Herring Prospectus. The Company has not filed certain ROC forms such as Form CHG-1 for creation charge for vehicle loans taken in the past, which inter-alia includes non-compliance of Section 77 of the Companies Act, 2013 and is subject to penalty under section 86 and/or other relevant provision(s) of Companies Act, 2013, as maybe applicable, however all such loans have been repaid as on date of the Draft Red Herring Prospectus. Moreover, our company had not attached the Audit report and cash flow statement with financial statements for financial year 2014-15 and not attached Audited financial statements for financial year 2015-16 in non-compliance of Section 129 read with Section 2(40) of the Companies Act 2013.

Further, our company have in the past inadvertently not followed the requirements of AS 15-Employee benefits, which have been later duly complied with during the preparation of the restatement of account as presented in this Draft Red Herring Prospectus. Although no show cause notice in respect of the non-compliance has been received by the Company till date, any penalty imposed for such noncompliance in future by the any regulatory authority could affect our financial conditions to that extent.

20. Non-availability of secretarial records of the company filed with ROC.

Since the Company was incorporated in 1999, it is not possible to trace certain historical secretarial records filed with the ROC. Key missing records include, among others, forms relating to the history of equity share capital and changes in the registered office of the Company. Details of equity share allotments and changes in registered office have been extracted from available minutes, share certificates, and the statutory register maintained by the Company. However, we cannot assure that the filings were made with the ROC.

Although Our Company has obtained a search report dated May 06, 2025 from a Practicing Company Secretary firm, Kishan Kumar & Associates (C.P. No. 14830). While we have relied on our statutory records for historical details, the absence of complete filings on the RoC portal may limit our ability to demonstrate past compliance in certain cases. If any non-compliance or deficiency is identified, our Company may be required to undertake corrective measures, make additional filings, or respond to regulatory queries, which may involve time, cost, or penalties.

21. We rely on skilled manpower for installation, maintenance, and operations, and any attrition, labor unrest, or shortage of skilled workers may disrupt our business operations and affect financial performance.

Our Out-of-Home (“OOH”) advertising business depends on skilled personnel for the installation, upkeep, and operational management of media assets, including hoardings, gantries, kiosks, and digital LED screens. Delays or disruptions in execution due to insufficient skilled manpower, industrial disputes, labor unrest, strikes, or high attrition could adversely affect timely deployment and maintenance of our assets.

Any prolonged shortage of skilled workers or inability to retain experienced personnel may lead to operational delays, increased costs, reduced service quality, or inability to meet contractual obligations to advertisers. This, in turn, could adversely affect client relationships, reputation, revenue, and overall financial performance.

22. If we are unable to attract new clients or our existing clients do not renew their contract or default in payments, the growth of our business and cash flows will be adversely affected.

Default or delays in payments by a significant portion of our customers may have an adverse effect on cash flows, results of operations and financial condition. Default or delays in payments by a significant portion of our customers may have an adverse effect on cash flows, results of operations and financial condition. However, our top 10 customers contributed 39.73 %, 46.38 % and 49.57 % of our revenues from operations for the year ended March 31, 2025, 2024 and 2023, respectively. To increase our revenue and cash flows, we must regularly add new clients. If we are unable to generate sufficient sales leads through our marketing programs, or if our existing or new clients do not perceive our services to be of sufficiently high value and quality, we may not be able to increase sales and our operating results would be adversely affected. In addition, our existing clients have no obligation to repeat contracts/ new projects to us due to various factors including clients satisfaction with our services, collection of data and information as desired by our clients, our prices and the prices of competing service providers. If we fail to achieve repetitive projects from existing clients or to add new clients, our operating results will suffer, and our revenue growth, cash flows and profitability may be materially and adversely affected.

23. Our Company had negative cash flows in the past, details of which are given below. Sustained negative cash flow could impact our growth and business. We have experienced negative cash flows in the past which have been set out below:

We have experienced negative cash flows in the past which have been set out below:

Particulars	(Amount in ₹ Lakhs)
For the financial year ended	

	F.Y. 2024-25	F.Y. 2023-24	F.Y. 2022-23
Net Cash flow from Operating Activities	541.49	15.83	(9.66)
Net Cash flow from Financing Activities	(325.28)	165.43	29.29
Net Cash flow from Investing Activities	(235.16)	(152.25)	(53.25)

Cash flow of a company is a key indicator to show the extent of cash generated from operations. If we are not able to generate sufficient cash flows in future, it may adversely affect our business and financial operations.

For further details of the cash flows of the company, kindly refer section titled “**Restated Financial Statements**” beginning on page 148 of this Draft Red Herring Prospectus.

24. Any Penalty or demand raised by statutory authorities in future will affect financial position of the Company.

Our business operations are subject to the provisions of taxation laws, including Goods and Services Tax and Income Tax, as well as labour laws such as contributions towards Provident Fund and Employee State Insurance. Any delay or default in compliance with these requirements, or any demand, penalty, or interest levied by the relevant authorities, may result in additional financial burden and adversely impact our financial position. In the past, there have been instances of delay in statutory filings and payments, including GST returns and employee-related contributions, for which late fees and penalties were paid. We cannot assure you that we will not face similar instances in the future, and any such non-compliance may materially and adversely affect our business, financial condition, results of operations and prospects.

25. Our business operations at airports and railway stations may be adversely affected in the event of privatization or transfer of management rights of such facilities, which could impact the renewal or continuation of our advertising rights.

We are dependent on advertising rights granted by statutory authorities such as the Airports Authority of India (“AAI”), Public Limited company and Indian Railways, which typically award advertising contracts through competitive bidding processes. In the event that any airport, railway station, or similar facility where we operate is privatized, or its management rights are transferred to private entities, the process of awarding, renewing, or continuing advertising rights may change significantly. Private operators may adopt different policies, including awarding exclusive advertising rights to their group entities or strategic partners, restricting third-party participation, or altering commercial terms in a manner that is less favorable than the existing arrangements.

In such circumstances, we may face difficulties in renewing our existing rights, securing new contracts, or maintaining our presence at such facilities. Any inability to successfully transition to or compete under the policies of private operators could adversely affect our operations, revenues, and profitability. Further, there can be no assurance that the terms and conditions offered by private operators, if we are able to secure rights, will be comparable to those available under contracts awarded by AAI or Indian Railways.

26. Passenger footfall at the airports, railway stations, and metro stations where we operate is a key driver of advertiser demand. Any reduction in such footfall may adversely affect our business and results of operations.

The attractiveness of advertising at airports, railway stations, and metro stations depends significantly on the number and profile of passengers passing through these locations. Passenger traffic may be influenced by factors beyond our control, including changes in transportation preferences, introduction of alternative routes, fluctuations in airline or railway schedules, strikes, service suspensions, or health emergencies. For example, during the COVID-19 pandemic, passenger volumes across airports, railway stations, and metro systems were severely reduced, leading to lower advertiser interest and a decline in occupancy rates for advertising inventory. If a similar decline in passenger volumes were to occur in the future, it may reduce advertiser demand and adversely affect our revenue and profitability.

27. Our contingent liabilities and commitments as stated in our Restated Consolidated Financial Statements could affect our financial condition.

Our contingent liabilities as stated in our Restated Consolidated Financial Statements could affect our financial condition. Our contingent liabilities as on March 31, 2025 is Rs. 472.50 lakhs. For further details of the contingent liabilities and commitments of our Company as on March 31, 2025, see “**Restated Financial Statements**” on page 148 of this Draft Red Herring Prospectus. If a significant portion of these liabilities materialize, fully or partly, it could have an effect on our results of operations and financial condition. Further, there can be no assurance that we will not incur similar or increased levels of contingent liabilities in the future.

28. We could be harmed by employee misconduct or errors that are difficult to detect and any such incidences could adversely affect our financial condition, results of operations and reputation.

Employee misconduct or errors could expose us to business risks or losses, including regulatory sanctions and cause serious harm to our reputation and goodwill of our Company. There can be no assurance that we will be able to detect or deter such misconduct. Moreover, the precautions we take to prevent and detect such activity may not be effective in all cases. Our employees and agents may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions on account of which our business, financial condition, results of operations and goodwill could be adversely affected. However, we have not faced any such past incidence

All the above companies have been voluntarily strike off by the promoters by filing requisite from with the Registrar of Companies, but in case of scrutiny or penal action by any regulatory authority our promoters may be held liable. Although no further notice has been received by our promoter post-strike-off of the company, but there cannot be any assurance that the regulatory authority will not take any penal action against that company or our promoter. In case any such action is taken it may have an adverse effect on the operations of our Company and may affect the reputation of our Company

30. We have in the past entered into related party transactions and may continue to do so in the future. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our Company's financial condition and results of operations.

We have entered into various transactions with our Directors/ Promoters and Promoter Group members. These transactions, inter-alia include, remuneration, loans and advances, etc. For details, please refer to "**Annexure X- Related Party Transactions**" under Section titled "**Financial Information of the Company**" on page 179 of this Draft Red Herring Prospectus. Our Company has entered such transactions due to easy proximity and quick execution on arms-length price in compliance with provisions of Companies Act 2013 and other applicable laws. Although all related-party transactions that we may enter into in the future are subject to approval by Board or shareholders, as required under the Companies Act, we cannot assure you that such future transactions or any other future transactions, individually or in aggregate, will not have an adverse effect on our financial condition and results of operations or that we could not have achieved more favourable terms if such transactions are not entered into with related parties.

Furthermore, it is likely that we may enter into related party transactions in the future. Any future transactions with our related parties could potentially involve conflicts of interest. Accordingly, there can be no assurance that such transactions, individually or in the aggregate, will not have a material adverse effect on our business, financial condition, cash flows, results of operations and prospects.

31. We are dependent on our Promoters and Directors for the continued success of our business through their continuing services and strategic guidance and support.

We benefit from our relationship with our individual Promoters and our success depends upon the continuing services of our Promoters and executive Directors who have been responsible for the growth of our business and is closely involved in the overall strategy, direction and management of our business. Our Promoters and executive Directors have been actively involved in the day to day operations and management. Accordingly, our performance is dependent upon the services of our Promoters and executive Directors. If our Promoters and executive directors are unable or unwilling to continue in their present position, we may not be able to replace them easily or at all. Further, we rely on the continued services and performance of our key managerial personnel, executives and senior management for continued success and smooth functioning of the operations of the Company. If we lose the services of any of our key managerial personnel, we may be unable to locate suitable or qualified replacements and may incur additional expenses to recruit and train new personnel, which could adversely affect our business operations and affect our ability to continue to manage and expand our business. Our Promoters and executive Directors, along with the key managerial personnel, have over the years built relations with various customers and other persons who form part of our stakeholders and are connected with us. The loss of their services could impair our ability to implement our strategy, and our business, financial condition, results of operations and prospects may be materially and

adversely affected. For further details of our Directors and key managerial personnel, please refer to Section “**Our Management**” on page 128 of this Draft Red Herring Prospectus.

32. *The commercial success of our services depends to a large extent on the success of our end use customers. If there is any downturn in the industries in which our customers operate, it could have a material adverse effect on our business, financial condition and results of operations.*

Our revenue and growth depend on the marketing and advertising budgets of our clients, which are influenced by the economic and commercial conditions of their respective sectors. Our clients operate across industries including banking and financial services, insurance, education, healthcare, hosiery, jewelry, FMCG, oil and gas, power and energy, steel, mining, and infrastructure services. A slowdown in any of these sectors may lead to reduced discretionary spending, including advertising and brand promotion. The Out-of-Home (OOH) advertising industry is particularly sensitive to macroeconomic factors such as GDP growth, consumer spending patterns, inflation, interest rates, and general business sentiment. During periods of economic uncertainty, businesses often reduce or defer advertising expenditure, which can directly affect demand for our media inventory and services. In such situations, clients may renegotiate contracts, shorten campaign durations, or delay campaign execution, leading to lower site occupancy and reduced billing.

The success and visibility of our clients’ campaigns also affect repeat business and long-term engagement. If clients experience financial losses, product failures, or reputational issues, it may negatively impact their perception of our services and affect future demand. Clients in sectors such as real estate or infrastructure, who are often major users of hoardings and static media, may reduce outdoor campaigns during periods of regulatory changes, funding constraints, or sectoral slowdowns. We are also exposed to sector-specific risks including changes in advertising regulations, digital disruption, or shifts in consumer media consumption, which can reduce the effectiveness of traditional OOH formats and influence advertising spend.

If these risks materialize, our clients’ willingness or ability to allocate budgets to OOH advertising may be reduced. This exposes our business to sectoral downturns and concentration risks, particularly when a significant portion of revenue comes from a few high-spending industries. Any reduction in client spending or demand could materially and adversely affect our business, financial condition, and results of operations.

33. *Orders placed by customers may be delayed, modified or cancelled, which may have an adverse effect on our business, financial condition and results of operations.*

We may encounter problems in executing the orders in relation to our services, or executing it on a timely basis. Moreover, factors beyond our control or the control of our customers may postpone the delivery of such services or cause its cancellation. Due to the possibility of cancellations or changes in scope and schedule of delivery of such services, resulting from our customer’s discretion or problems we encounter in the delivery of such services or reasons outside our control or the control of our customers, we cannot predict with certainty when, if or to what extent we may be able to deliver the orders placed. Additionally, delays in the delivery of such services can lead to customers delaying or refusing to pay the amount, in part or full, that we expect to be paid in respect of such products. In addition, even where a delivery proceeds as scheduled, it is possible that the customers may default or otherwise fail to pay amounts owed

34. *We face competition in the outdoor media advertising industry, particularly in airport, railway, metro and city-based advertising, which may adversely affect our business, financial condition, and results of operations.*

The outdoor media advertising industry is highly competitive, and we face competition from both large organized players with established track records, strong financial resources, broader media portfolios, and significant market penetration, as well as smaller unorganized players, particularly in city-based media. In respect of airports, railways, and metro stations, rights are generally awarded through competitive bidding processes, where our competitors may have the ability to bid more aggressively or offer more favourable commercial terms. In addition, certain competitors may possess advantages such as stronger industry relationships, superior service offerings, or greater flexibility to respond to changing market dynamics. Such competitive pressures may result in loss of market share, reduced margins, or failure to secure new projects. We cannot assure you that we will be able to compete successfully in the future, and any inability to do so may materially and adversely affect our business, financial condition, results of operations, and prospects.

35. *If we are unable to manage our growth effectively and further expand into new markets, our business, future financial performance and results of operations could be materially and adversely affected.*

The success of our business will depend on our ability to effectively implement our business and growth strategy. As part of our growth strategy, we aim to, among other things, continue to expand our presence in new geographies and segments of the OOH advertising industry, including airports, metro stations, railway stations and city-based media, to strengthen our existing portfolio of advertising rights, to strive for cost efficiency, to attract and retain talented employees and to consistently deliver services in line with customer and authority expectations.

As we continue to grow our business and expand into new markets, we may face several challenges, including:

- a) acquiring and retaining new advertisers and agency clients;
- b) identifying customer requirements and preferences in such markets;
- c) making accurate assessments of the resources and investments required for new concessions;
- d) preserving a uniform culture, values and work environment across a larger organisation;
- e) developing and improving our internal administrative infrastructure, particularly our financial, operational, communications, internal control and other internal systems;
- f) recruiting, training and retaining sufficient skilled management, technical and marketing personnel;
- g) maintaining high levels of customer and authority satisfaction; and
- h) adhering to performance, compliance and quality standards stipulated under our concession agreements.

In pursuing our growth strategy, we will require additional working capital, which may have a material impact on our cash flows and results of operations. Our operating expenses and working capital requirements may increase significantly pursuant to our expansion plans. Our ability to manage our growth effectively requires us to forecast accurately our revenues, growth and operational capacity and to expend funds to improve our operational, financial and management controls, reporting systems and procedures. An inability to implement our future business plan, manage our growth effectively, further expand into new markets or failure to secure the required funding on favourable terms, or at all, could have a material and adverse effect on our business, future financial performance and results of operations.

36. *We generally do business with our customers on purchase order basis and do not enter into long term contracts with most of them.*

Our business is dependent on our continuing relationships with our customers. Our Company has not entered into any long-term contract with any of customers. Any change in the consumption pattern of our end users or disassociation of major customers can adversely affect the business of our Company. The loss of or interruption of work by, a significant customer or a number of significant customers or the inability to procure new orders on a regular basis or at all may have an adverse effect on our revenues, cash flows and operations

37. *Our historical performance is not indicative of our future growth or financial results and we may not be able to sustain our historical growth rates.*

Our business has experienced growth in past. Our revenue from operations has increased from Rs. 2257.17 lakhs in financial year 2022-23 to Rs. 3203.39 Lakhs and Rs. 3665.29 Lakhs in Financial Years 2023-24 and 2024-25 respectively and our Profit after tax has increased from Rs. 107.96 lakhs in FY 2022-23 to Rs. 367.60 Lakhs and Rs. 470.47 lakhs in FY 2023-24 and 2024-25 respectively. We cannot assure you that we will be able to sustain the levels of revenue and profit growth that we have had in the past. Further, a number of our strategic initiatives are in initial stages. While we may experience initial success with such initiatives, there is no assurance that these will succeed in the long term.

38. *Unsecured loans taken by our Company can be recalled by the lenders at any time.*

Our Company has currently availed unsecured loans from certain lenders. These loans may be recalled by the lenders at any time. In the event that, any lender seeks a repayment of any such loan, our Company would need to find alternative sources of financing, which may not be available on commercially reasonable terms, or at all and this may affect our Company's liquidity. If we are unable to procure such financing, we may not have adequate working capital to maintain the desired inventory level. As a result, any such demand may materially and adversely affect our business, cash flows, financial condition and results of operations. For further details on financing arrangements entered into by our Company, see "**Financial Indebtedness**" on page 191 of this Draft Red Herring Prospectus.

39. *Our Company has during the preceding one year from the date of this Draft Red Herring Prospectus have allotted Equity Shares at a price which is lower than the Issue Price.*

For details, please refer to section titled "**Capital Structure**" on page 63 of this Draft Red Herring Prospectus. The Issue Price may not be an indicative of the price that will prevail in the open market following listing of the Equity Shares.

40. *Our insurance coverage may not be adequate to protect us against certain operating hazards and this may have a material adverse effect on our business.*

Our Company has obtained insurance coverage in respect of certain risks. For further details in relation to our Insurance, please refer to the section titled – Insurance in the chapter titled "**Our Business**" beginning on page 104 of this Draft Red Herring Prospectus. This insurance policies are renewed periodically to ensure that the coverage is adequate, however, our insurance policies do not cover all risks. There can be no assurance that our insurance policies will be adequate to cover the

losses in respect of which the insurance has been availed. If we suffer a significant uninsured loss or if insurance claim in respect of the subject-matter of insurance is not accepted or any insured loss suffered by us significantly exceeds our insurance coverage, our business, financial condition and results of operations may be materially and adversely affected. For further details, please refer chapter titled “**Our Business**” beginning on page 104 of this Draft Red Herring Prospectus.

41. Our actual results could differ from the estimates and projections used to prepare our financial statements.

The estimates and projections are based on and reflect our current expectations, assumptions and/ or projections as well as our perception of historical trends and current conditions, as well as other factors that we believe are appropriate and reasonable under the circumstances. There can be no assurance that our expectations, estimates, assumptions and/or projections, including with respect to the future earnings and performance will prove to be correct or that any of our expectations, estimates or projections will be achieved.

42. We are subject to the risk of failure of, or a material weakness in, our internal control systems.

We are exposed to risks arising from the inadequacy or failure of internal systems or processes, and any actions we may take to mitigate these risks may not be sufficient to ensure an effective internal control environment. Given our high volume of transactions, errors may be repeated or compounded before they are discovered and rectified. Our management information systems and internal control procedures may not be able to identify non-compliance or suspicious transactions in a timely manner, or at all. Where internal control weaknesses are identified, our actions may not be sufficient to fully correct such weaknesses. As a result, we may incur expenses or suffer monetary losses, which may not be covered by our insurance policies and may result in a material effect on our business, financial condition and results of operations.

43. We may not be successful in implementing our business strategies.

The success of our business depends substantially on our ability to implement our business strategies effectively. Even though we have successfully executed our business strategies in its first year of operation, there is no guarantee that we can implement the same on time and within the estimated budget going forward or that we will be able to meet the expectations of our targeted clients. Changes in regulations applicable to us may also make it difficult to implement our business strategies. Failure to implement our business strategies would have a material adverse effect on our business and results of operations.

44. The average cost of acquisition of Equity Shares by our Promoters, could be lower than the issue price.

The average cost of acquisition of Equity Shares of our Promoters may be lower than the Issue Price decided by the Company in consultation with the Book Running Lead Manager. For further details regarding average cost of acquisition of Equity Shares by our Promoters in our Company and build-up of Equity Shares by our Promoters in our Company, please refer to the chapters “**Capital Structure**” beginning on page 63 of this Draft Red Herring Prospectus.

45. Excessive dependence on UCO Bank in respect of Loan facilities obtained by our Company.

Our company has been sanctioned term loan and cash credit facilities by UCO Bank. The Company is dependent on such facilities and any default under such arrangement with such lender may create problem for operation of the Company, which may affect the financial stability of the Company. At the same time this may result into difficulty in arranging for funds for re-payment and may also adversely affect the financial position of the Company.

46. We are subject to restrictive covenants under our credit facilities that limit our operational flexibility.

The loan agreements entered into by us with banks contain specific covenants which require us to obtain the prior approval/ permission from the banks on the occurrence of certain events such as formulation of any scheme of amalgamation or reconstruction, undertaking of any new project or expansion, making any substantial change in our management set up, any change in our capital structure resulting in reduction of capital, etc. Further, there can be no assurance that such consents will be granted or that we will be able to comply with the financial covenants under our financing arrangements. In the event we breach any financial or other covenants contained in any of our financing arrangements, we may be required under the terms of such financing arrangements to immediately repay our borrowings either in whole or in part, together with any related costs. This may adversely impact our results of operations and cash flows. For further details on the Cash Credit Limits and other banking facilities, please see “**Statement of Financial Indebtedness**” on page 191 of this Draft Red Herring Prospectus

47. Our Promoter and the Promoter Group will jointly continue to retain majority shareholding in our Company after the issue, which will allow them to determine the outcome of the matters requiring the approval of shareholders.

Our Promoter and Directors are interested in our Company, in addition to regular remuneration or benefits and reimbursement of expenses, to the extent of their shareholding in our Company or their relatives, dividend entitlement, properties given by them on lease/rental basis or loans advanced by them to the Company, and benefits deriving from the directorship in our

Company. There can be no assurance that our Promoter will exercise his rights as shareholder to the benefit and best interest of our Company. 48. *Loans availed by Our Company has been secured on personal guarantees of our Promoters and Directors. Our business, financial condition, results of operations, cash flows and prospects may be adversely affected in case of invocation of any personal guarantees provided by our directors.*

Our Promoters namely Shashi Kumar Chaudhary and Seema Chaudhary have provided personal guarantee to secure a significant portion of our existing borrowings taken from the banks and may continue to provide such guarantees and other security post listing. In case of a default under our loan agreements, any of the personal guarantees provided by the aforesaid may be invoked which could negatively impact their reputation and net worth. Also, we may face certain impediments in taking decisions in relation to our Company, which in turn would result in a material adverse effect on our financial condition, business, results of operations and prospects and would negatively impact our reputation. We may also not be successful in procuring alternate guarantees/ alternate security satisfactory to the lenders, as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could affect our financial condition and cash flows. For further details regarding loans availed by our Company, please refer “**Statement of Financial Indebtedness**” on page 191 of this Draft Red Herring Prospectus.

49. *We cannot assure you that we will be able to secure adequate financing in the future on acceptable terms. Our failure to obtain sufficient financing could result in delay or abandonment of our business plans and this may have an adverse effect on our growth and operations.*

We may require additional funds in connection with our future business operations. In addition to the Net Proceeds of this Issue and our internal accruals, we may need other sources of funding to meet these requirements, which may include entering into new debt facilities with lending institutions. Our ability to obtain external financing in the future is subject to a variety of uncertainties. Our ability to obtain additional financing on favourable terms, if at all, will depend on a number of factors, including our future financial condition, results of operations and cash flows, the amount and terms of our existing indebtedness, general market conditions and market conditions for financing activities and the economic, political and other conditions in the markets where we operate. If we decide to raise additional funds through the issuance of debt, our interest obligations will increase, and we may be subject to additional covenants. Such financing could cause our debt to equity ratio to increase or require us to create charges or liens on our assets in favour of lenders.

We cannot assure you that we will be able to secure adequate financing in the future on acceptable terms, in time, or at all. Our failure to obtain sufficient financing could result in delay or abandonment of our business plans and this may have an adverse effect on our future growth and operations.

50. *Any variation in the utilization of the Net Proceeds as disclosed in this Draft Red Herring Prospectus shall be subject to certain compliance requirements, including prior approval of the shareholders of our Company.*

We propose to utilize the Net Proceeds to meet our Working Capital requirements and general corporate purposes. For further details of the proposed objects of the Issue, see “**Objects of the Issue**” beginning on page 76 of this Draft Red Herring Prospectus. We cannot determine with any certainty if we would require the Net Proceeds to meet any other expenditure or fund any exigencies arising out of the competitive environment, business conditions, economic conditions or other factors beyond our control. In accordance with the Companies Act, 2013 and the SEBI ICDR Regulations, we cannot undertake any variation in the utilization of the Net Proceeds as disclosed in this Draft Red Herring Prospectus without obtaining the approval of shareholders of our Company through a special resolution. In the event of any such circumstances that require us to vary the disclosed utilization of the Net Proceeds, we may not be able to obtain the approval of the shareholders of our Company in a timely manner, or at all. Any delay or inability in obtaining such approval of the shareholders of our Company may adversely affect our business or operations. Further, our Promoters would be required to provide an exit opportunity to the shareholders of our Company who do not agree with our proposal to modify the objects of the Issue, at a price and manner as prescribed by SEBI. Additionally, the requirement to provide an exit opportunity to such dissenting shareholders of our Company may deter our Promoters from agreeing to the variation of the proposed utilization of the Net Proceeds, even if such variation is in the interest of our Company. Further, we cannot assure you that the Promoter will have adequate resources at their disposal at all times to enable them to provide an exit opportunity. In light of these factors, we may not be able to vary the objects of the Issue to use any unutilized proceeds of the Issue, if any, even if such variation is in the interest of our Company. This may restrict our Company’s ability to respond to any change in our business or financial condition, if any, which may adversely affect our business and results of operations.

51. *The deployment of funds raised through this Issue shall not be subject to any Monitoring Agency and shall be purely*

Since the Issue is for an amount not exceeding ₹ 5000 lakhs, in terms of SEBI ICDR Regulations, 2018, our Company is not required to appoint an Independent Monitoring Agency for overseeing the deployment of utilization of funds raised through this Issue. The deployment of these funds raised through this Issue, is hence, at the discretion of the management and the Board of Directors of our Company and will not be subject to monitoring by any independent agency. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our finances. However, the audit committee of our Board will monitor the utilization of Issue proceeds in terms of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 & the company will submit a certificate of the statutory auditor for utilization of money raised through the public issue while filing the quarterly financial results, till the issue proceeds are fully utilized in terms of SEBI ICDR regulations. Further, our Company shall inform about material deviations in the utilization of Issue proceeds to the stock exchange and shall also simultaneously make the material deviations / adverse comments of the audit committee public.

52. *We may require further equity issuance, which will lead to dilution of equity and may affect the market price of our Equity Shares or additional funds through incurring debt to satisfy our capital needs, which we may not be able to procure and any future equity offerings by us.*

Our growth is dependent on having a strong balance sheet to support our activities. In addition to the IPO Proceeds and our internally generated cash flow, we may need other sources of financing to meet our capital needs which may include entering into new debt facilities with lending institutions or raising additional equity in the capital markets. We may need to raise additional capital from time to time, dependent on business conditions. The factors that would require us to raise additional capital could be business growth beyond what the current balance sheet can sustain; additional capital requirements imposed due to changes in regulatory regime or significant depletion in our existing capital base due to unusual operating losses. Any fresh issue of shares or convertible securities would dilute existing holders, and such issuance may not be done at terms and conditions, which are favourable to the then existing shareholders of our Company. If our Company decides to raise additional funds through the incurrence of debt, our interest obligations will increase, and we may be subject to additional covenants, which could further limit our ability to access cash flows from our operations. Such financings could cause our debt to equity ratio to increase or require us to create charges or liens on our assets in favor of lenders. We cannot assure you that we will be able to secure adequate financing in the future on acceptable terms, in time, or at all. Our failure to obtain sufficient financing could result in the delay or abandonment of our expansion plans. Our business and future results of operations may be affected if we are unable to implement our expansion strategy.

Any future issuance of Equity Shares by our Company may dilute shareholding of investors in our Company; and hence affect the trading price of our Company's Equity Shares and its ability to raise capital through an issue of its securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of our Company's Equity Shares. Additionally, the disposal, pledge or encumbrance of Equity Shares by any of our Company's major shareholders, or the perception that such transactions may occur may affect the trading price of the Equity Shares. No assurance may be given that our Company will not issue Equity Shares or that such shareholders will not dispose of, pledge or encumber their Equity Shares in the future..

53. *There is no guarantee that the Equity Shares issued pursuant to the Issue will be listed on the SME Platform of BSE limited (BSE SME) in a timely manner or at all.*

In accordance with Indian law and practice, permission for listing and trading of the Equity Shares issued pursuant to the Issue will not be granted until after the Equity Shares have been issued and allotted. Approval for listing and trading will require all relevant documents authorizing the issuing of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on the SME Platform of BSE Limited ("BSE SME"). Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares.

54. *The Equity Shares have never been publicly traded, and, after the Issue, the Equity Shares may experience price and volume fluctuations, and an active trading market for the Equity Shares may not develop. Further, the price of the Equity Shares may be volatile, and you may be unable to resell the Equity Shares at or above the Issue Price, or at all.*

Prior to the Issue, there has been no public market for the Equity Shares, and an active trading market on the Stock Exchanges may not develop or be sustained after the Issue. Listing and quotation does not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares. The Issue Price of the Equity Shares is proposed to be determined in accordance with the SEBI ICDR Regulations and may not be indicative of the market price of the Equity Shares at the time of commencement of trading of the Equity Shares or at any time thereafter. The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results of our Company, market conditions specific to the industry we operate in, developments relating to India, volatility in securities markets in jurisdictions other than India, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in economic, legal and other regulatory factors.

55. The Objects of the Issue for which funds are being raised have not been appraised by any bank or financial institution. Any variation between the estimation and actual expenditure as estimated by the management could result in execution delays or influence our profitability adversely.

The deployment of funds as stated in the “**Objects of the Issue**” beginning on page 76 of this Draft Red Herring Prospectus is entirely at the discretion of our management and has not been appraised by any independent agency. Further, the purposes for which the Net Proceeds are to be utilized have not been appraised by an independent entity and are based on our estimates and on third-party quotations. In the event, for whatsoever reason, we are unable to execute our plans, we could have a significant amount of unallocated net proceeds. In such a situation, we would have broad discretion in allocating these net proceeds from the Issue without any action or approval of our shareholders. In case the assumptions on which these estimates have been made are not correct or they become un-realistic then there will be a variation in the estimates and the actual expenditure incurred which could result in execution delays and have an adverse effect on our operations and profitability.

56. Any of the Bidders are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid.

Pursuant to the SEBI ICDR Regulations, Any of the Bidders are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid. While we are required to complete Allotment, listing and commencement of trading pursuant to the Issue within three (3) Working Days from the Bid/Issue Closing Date, events affecting the Bidders’ decision to invest in our Equity Shares, including adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operations, cash flows and financial condition may arise between the date of submission of the Bid and Allotment, listing and commencement of trading. We may complete the Allotment, listing and commencement of trading of our Equity Shares even if such events occur and such events may limit the Bidders’ ability to sell our Equity Shares Allotted pursuant to the Issue or may cause the trading price of our Equity Shares to decline on listing.

We cannot assure you that the facts and statistics are stated or compiled on the same basis or with the same degree of accuracy as may be the case elsewhere. For further details, see “**Industry Overview**” on page 94 of this Draft Red Herring Prospectus.

58. Certain key performance indicators for certain listed industry peers included in this Draft Red Herring Prospectus have been sourced from public sources and there is no assurance that such financial and other industry information is complete.

Pursuant to the requirements of the SEBI ICDR Regulations, we have included certain key performance indicators, comprising financial and operational information, for certain listed industry peers, in the “**Basis for Issue Price**” beginning on page 84 of the Draft Red Herring Prospectus. Although this information is sourced from and relied upon on the audited financial statements of the relevant listed industry peers as available on the websites of the Stock Exchanges, including the annual reports of the respective companies submitted to Stock Exchanges, there is no assurance that this information with respect to industry peers is either complete. There may be different methodologies and formulas used to compute the various ratios.

59. Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, working capital requirements, business prospects and any other financing arrangements. Accordingly, realization of a gain on shareholder’s investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our dividend history, see “**Dividend Policy**” on page 147 of this Draft Red Herring Prospectus.

60. We may be subject to surveillance measures, such as the Additional Surveillance Measures (ASM) and the Graded Surveillance Measures (GSM) by the Stock Exchanges which may adversely affect trading price of our Equity Shares.

SEBI and Stock Exchanges in order to enhance market integrity and safeguard interest of investors, have been introducing various enhanced pre-emptive surveillance measures. The main objective of these measures is to alert and advise investors to be extra cautious while dealing in these securities and advice market participants to carry out necessary due diligence while dealing in these securities. Accordingly, SEBI and Stock Exchanges have provided for (a) GSM on securities where such trading price of such securities does not commensurate with financial health and fundamentals such as earnings, book value, fixed assets, net-worth, price per equity multiple and market capitalization; and (b) ASM on securities with surveillance concerns based on objective parameters such as price and volume variation and volatility. On listing, we may be subject to general market conditions which may include significant price and volume fluctuations. The price of our Equity Shares may also fluctuate after the issue due to several factors such as volatility in the Indian and global securities market, our profitability and performance, performance of our competitors, changes in the estimates of our performance or any other political or economic factor. The occurrence of any of the abovementioned factors may trigger the parameters identified by SEBI and the Stock Exchanges for placing securities under the GSM or ASM framework such as net worth and net fixed assets of securities, high low variation in securities, client concentration and close to close price variation. In the event our Equity Shares are subject to such pre-emptive surveillance measures implemented by the Stock Exchange, we may be subject to certain additional restrictions in connection with trading of our Equity Shares such as limiting trading frequency (for example, trading either allowed once in a week or a month) or freezing of price on upper side of trading which may have an adverse effect on the market price of our Equity Shares or may in general cause disruptions in the development of an active trading market for our Equity Shares.

EXTERNAL RISK FACTORS

61. A slowdown in economic growth in India may adversely affect our business, financial condition, cash flows, results of operations and prospects.

The performance and growth of our business are necessarily dependent on economic conditions prevalent in India, which may be materially and adversely affected by Centre or state political instability or regional conflicts, a general rise in interest rates, inflation, and economic slowdown elsewhere in the world or otherwise. Further, there have been periods of slowdown in the economic growth of India. India's economic growth is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports (oil and oil products), global economic uncertainty and liquidity crisis, volatility in exchange currency rates and annual rainfall which affects agricultural production. Any continued or future slowdown in the Indian economy or a further increase in inflation could have a material adverse effect on the price of our raw materials and demand for our products and, as a result, on our business and financial results. The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the U.S. and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any worldwide financial instability, including the financial crisis and fluctuations in the stock markets in China and further deterioration of credit conditions in the U.S. or European markets, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our business and financial results.

62. Financial instability in both Indian and international financial markets could adversely affect our results of operations and financial condition.

The Indian market and the Indian economy are influenced by economic and market conditions in other countries, including conditions in the United States, Europe and certain emerging economies in Asia. Financial turmoil in Asia, Russia and elsewhere in the world in recent years has adversely affected the Indian economy. Any worldwide financial instability may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector and us. Although economic conditions vary across markets, loss of investor confidence in one emerging economy may cause increased volatility across other economies, including India. Financial instability in other parts of the world could have a global influence and thereby negatively affect the Indian economy. Financial disruptions could materially and adversely affect our business, prospects, financial condition, results of operations and cash flows. Further, economic developments globally can have a significant impact on our principal markets. Concerns related to a trade war between large economies may lead to increased risk aversion and volatility in global capital markets and consequently have an impact on the Indian economy. Recent developments in the ongoing conflict between Russia and Ukraine has resulted in and may continue to result in a period of sustained instability across global financial markets, induce volatility in commodity prices, increase borrowing costs, cause outflow of capital from emerging markets and may lead to overall slowdown in economic activity in India. In addition, China is one of India's major trading partners and there are rising concerns of a possible slowdown in the Chinese economy as well as a strained relationship with India, which could have an adverse impact on the

63. Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

64. Investors may be adversely affected due to retrospective tax law changes made by the GoI affecting us.

Certain recent changes to the Income Tax Act provide that income arising directly or indirectly through the sale of a capital asset of an offshore company, including shares, will be subject to tax in India, if such shares derive indirectly or directly their value substantially from assets located in India. The term “substantially” has not been defined under the Income Tax Act and therefore, the applicability and implications of these changes are largely unclear. Due to these recent changes, investors may be subject to Indian income taxes on the income arising directly or indirectly through the sale of the Equity Shares. In the past, there have been instances where changes in the Income Tax Act have been made retrospectively and to that extent, there cannot be an assurance that such retrospective changes will not happen again.

65. Changing laws, rules and regulations and legal uncertainties in India, including adverse application of tax laws and regulations, may adversely affect our business and financial performance.

Our business and financial performance could be adversely affected by changes in law or interpretations of existing, or the promulgation of new, laws, rules and regulations in India applicable to us and our business. For further details, please refer to the chapter **“Government and Other Approvals”** on page 211 for details of the laws currently applicable to us. There can be no assurance that the central or the state governments in India may not implement new regulations and policies which will require us to obtain approvals and licenses from the central or the state governments in India and other regulatory bodies or impose onerous requirements and conditions on our operations. Any such changes and the related uncertainties with respect to the implementation of the new regulations may have a material adverse effect on all our business, financial condition and results of operations. In addition, we may have to incur capital expenditures to comply with the requirements of any new regulations, which may also materially harm our results of operations.

66. If certain labour laws become applicable to us, our profitability may be adversely affected.

India has stringent labour legislations that protect the interests of workers, including legislation that sets forth detailed procedures for dispute resolution and employee removal and legislation that imposes certain financial obligations on employers upon retrenchment. Any change or modification in the existing labour laws may affect our flexibility in formulating labour related policies.

67. Government regulation of foreign ownership of Indian securities may have an adverse effect on the price of the Equity Shares.

Foreign ownership of Indian securities is subject to government regulation. Under foreign exchange regulations currently in affect in India, transfer of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the rupees proceeds from the sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the Income Tax authorities. There can be no assurance that any approval required from the RBI or any other government agency can be obtained.

68. Any downgrading of India’s sovereign rating by an independent agency may harm our ability to raise financing.

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares

69. Natural disasters, fires, epidemics, pandemics, acts of war, terrorist attacks, civil unrest and other events could materially and adversely affect our business

Natural disasters (such as typhoons, flooding and earthquakes), epidemics, pandemics such as COVID-19, man-made disasters, including acts of war, terrorist attacks, environmental issues and other events, many of which are beyond our control, may lead to economic instability, including in India or globally, which may in turn materially and adversely affect our business, financial condition, cash flows and results of operations. Our operations may be adversely affected by fires, natural disasters and/or severe weather, which can result in damage to our property or inventory and generally reduce our productivity and may require us to evacuate personnel and suspend operations. Any terrorist attacks or civil unrest as well as other adverse social, economic and political events in India could have a negative effect on us. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the price of the Equity Shares. India has experienced natural calamities such as earthquakes, tsunami, floods etc. In recent years, the extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

70. Instability in financial markets could materially and adversely affect our results of operations and financial condition.

The Indian economy and financial markets are significantly influenced by worldwide economic, financial and market conditions. Any financial turmoil, especially in the United States of America or Europe, may have a negative impact on the Indian economy. Although economic conditions differ in each country, investors' reactions to any significant developments in one country can have adverse effects on the financial and market conditions in other countries. A loss in investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets. The global financial turmoil, an outcome of the sub-prime mortgage crisis which originated in the United States of America, led to a loss of investor confidence in worldwide financial markets. Indian financial markets have also experienced the contagion effect of the global financial turmoil, evident from the sharp decline in SENSEX, BSE's benchmark index. Any prolonged financial crisis may have an adverse impact on the Indian economy and us, thereby resulting in a material and adverse effect on our business, operations, financial condition, profitability and price of our Equity Shares.

71. Investor may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.

Under current Indian tax laws, capital gains arising from the sale of equity shares within 12 months in an Indian company are classified as short-term capital gains and generally taxable. Any gain realized on the sale of listed equity shares on a stock exchange that are held for more than 12 months is considered as long-term capital gains and is taxable as per prevalent tax laws in India. Any long-term gain realized on the sale of equity shares, which are sold other than on a recognized stock exchange and on which no STT has been paid, is also subject to tax in India. Capital gains arising from the sale of equity shares are exempt from taxation in India where an exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable to pay tax in India as well as in their own jurisdiction on a gain on the sale of equity shares.

72. Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing.

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

It is not exhaustive or comprehensive and is not intended to be a substitute for professional advice. Investors are advised to consult their own tax consultant with respect to the tax implications of an investment in Equity Shares particularly in view of the fact that certain recently enacted legislation may not have a direct legal precedent or may have a different interpretation on the benefits, which an investor can avail. We have not covered here the tax benefits available to all the shareholders of any company listed in India.

A. SPECIAL DIRECT TAX BENEFITS TO THE COMPANY

The Company is not entitled to any special direct tax benefits under the Income Tax Act, 1961.

B. SPECIAL INDIRECT TAX BENEFITS TO THE COMPANY

C. SPECIAL DIRECT AND INDIRECT TAX BENEFITS TO THE SHAREHOLDERS

The Shareholders of the Company are not entitled to any special tax benefits under the Income Tax Act, 1961 and GST Act.

NOTES:

1. The above Annexure of special tax benefits sets out the provisions of Tax Laws in a summary manner only and is not a complete analysis or listing of all potential tax consequences of the purchase, ownership and disposal of shares.
2. The above Annexure covers only the special tax benefits under the Act, read with the relevant rules, circulars and notifications and does not cover any benefit under any other law in force in India. 4. In respect of non-residents, the tax rates and consequent taxation mentioned above will be further subject to any benefits available under the relevant Double Taxation Avoidance Agreement, if any, entered into between India and the country in which the non-resident has fiscal domicile.

The CBDT has further issued Circular 29/2019 dated October 02, 2019 clarifying that since the MAT provisions under Section 115JB itself would not apply where a domestic company exercises option of lower tax rate under Section 115BAA, MAT credit would not be available.

The Company has evaluated and decided to exercise the option permitted under Section 115BAA of the Act during the restatement period and accordingly current tax provisions has been calculated.

6. This Annexure is intended only to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. SECTION V- ABOUT THE COMPANY

INDUSTRY OVERVIEW

The information in this section has been extracted from various websites and publicly available documents from various industry sources. The data may have been re-classified by us for the purpose of presentation. Neither we nor any other person connected with the issue has independently verified the information provided in this section. Industry sources and publications, referred to in this section, generally state that the information contained therein has been obtained from sources generally believed to be reliable but their accuracy, completeness and underlying assumptions are not guaranteed and their reliability cannot be assured, and, accordingly, investment decisions should not be based on such information.

Investors should note that this is only a summary of the industry in which we operate and does not contain all information that should be considered before investing in the Equity Shares. Before deciding to invest in the Equity Shares, prospective investors should read this Draft Red Herring Prospectus, including the information in “**Our Business**” and “**Financial Information**” beginning on page 104 and 148 respectively of this Draft Red Herring Prospectus. An investment in the Equity Shares involves a high degree of risk. For a discussion of certain risks in connection with an investment in the Equity Shares, see “**Risk Factors**” beginning on page 28 of this Draft Red Herring Prospectus.

WORLD ECONOMIC OUTLOOK:

Global growth is projected at 3.0 percent for 2025 and 3.1 percent in 2026. The forecast for 2025 is 0.2 percentage point higher than that in the reference forecast of the April 2025 World Economic Outlook (WEO) and 0.1 percentage point higher for 2026. This reflects stronger-than-expected front-loading in anticipation of higher tariffs; lower average effective US tariff rates than announced in April; an improvement in financial conditions, including due to a weaker US dollar; and fiscal expansion in some major jurisdictions. Global headline inflation is expected to fall to 4.2 percent in 2025 and 3.6 percent in 2026, a path similar to the one projected in April. The overall picture hides notable cross-country differences, with forecasts predicting inflation will remain above target in the United States and be more subdued in other large economies.

Risks to the outlook are tilted to the downside, as they were in the April 2025 WEO. A rebound in effective tariff rates could lead to weaker growth. Elevated uncertainty could start weighing more heavily on activity, also as deadlines for additional tariffs expire without progress on substantial, permanent agreements. Geopolitical tensions could disrupt global supply chains and push commodity prices up. Larger fiscal deficits or increased risk aversion could raise long-term interest rates and tighten global financial conditions. Combined with fragmentation concerns, this could reignite volatility in financial markets. On the upside, global growth could be lifted if trade negotiations lead to a predictable framework and to a decline in tariffs. Policies need to bring confidence, predictability, and sustainability by calming tensions, preserving price and financial stability, restoring fiscal buffers, and implementing much-needed structural reforms.

INDIAN ECONOMY OVERVIEW:

Strong economic growth in the first quarter of FY23 helped India overcome the UK to become the fifth-largest economy after it recovered from the COVID-19 pandemic shock. Nominal GDP or GDP at Current Prices in the year 2023-24 is estimated at Rs. 295.36 lakh crores (US\$ 3.54 trillion), against the First Revised Estimates (FRE) of GDP for the year 2022-23 of Rs. 269.50 lakh crores (US\$ 3.23 trillion). The growth in nominal GDP during 2023-24 is estimated at 9.6% as compared to 14.2% in 2022-23. Strong domestic demand for consumption and investment, along with Government's continued emphasis on capital expenditure are seen as among the key driver of the GDP in the second half of FY24. During the period April-June 2025, India's exports stood at US\$ 109.11 billion, with Engineering Goods (25.35%), Petroleum Products (18.33%) and electronic goods (7.73%) being the top three exported commodity. Rising employment and increasing private consumption, supported by rising consumer sentiment, will support GDP growth in the coming months.

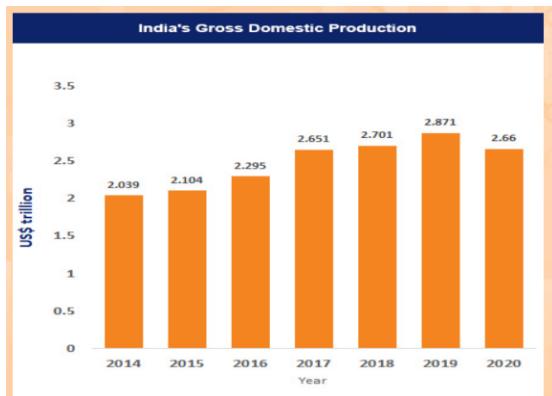

Future capital spending of the government in the economy is expected to be supported by factors such as tax buoyancy, the streamlined tax system with low rates, a thorough assessment and rationalization of the tariff structure, and the digitization of tax filing.

In the medium run, increased capital spending on infrastructure and asset-building projects is set to increase growth multipliers. The contact-based services sector has demonstrated promise to boost growth by unleashing the pent-up demand. The sector's success is being captured by a number of HFIs (High-Frequency Indicators) that are performing well, indicating the beginnings of a comeback.

India has emerged as the fastest-growing major economy in the world and is expected to be one of the top three economic powers in the world over the next 10-15 years, backed by its robust democracy and strong partnerships.

India's appeal as a destination for investments has grown stronger and more sustainable because of the current period of global unpredictability and volatility, and the record amounts of money raised by India-focused funds in 2022 are evidence of investor faith in the "Invest in India" narrative.

Market Size

Real GDP for Q2 of FY25 is estimated at Rs. 44.10 lakh crores (US\$ 509.36 billion) with growth rate of 5.4%, compared to Rs. 41.86 lakh crore (US\$ 484.27 billion) for Q2 of 2023-24. The growth in real GDP during 2023-24 is estimated at 8.2% as compared to 7.0% in 2022-23. There are 113 unicorn startups in India, with a combined valuation of over US\$ 350 billion. As many as 14 tech startups are expected to list in 2024 Fintech sector poised to generate the largest number of future unicorns in India. With India presently has the third-largest unicorn base in the world. The government is also focusing on renewable sources by achieving 40% of its energy from non-fossil sources by 2030. India is committed to achieving the country's ambition of Net Zero Emissions by 2070 through a five-pronged strategy, 'Panchamrit'. Moreover, India ranked 3rd in the renewable energy country attractive index.

According to the McKinsey Global Institute, India needs to boost its rate of employment growth and create 90 million non-farm jobs between 2023 to 2030 in order to increase productivity and economic growth. The net employment rate needs to grow by 1.5% per annum from 2023 to 2030 to achieve 8-8.5% GDP growth between same time periods. India's Current Account Deficit (CAD) narrowed to 0.7% of GDP in FY24. The CAD stood at Rs. 96,790 crore (US\$ 11.2 billion) for Q2 of FY25 from Rs. 97,655 crore (US\$ 11.3 billion) in Q2 of FY24 or 1.3% of GDP. This was largely due to decrease in merchandise trade deficit.

Exports fared remarkably well during the pandemic and aided recovery when all other growth engines were losing steam in terms of their contribution to GDP. Going forward, the contribution of merchandise exports may waver as several of India's trade partners witness an economic slowdown. According to Minister of Commerce and Industry, Consumer Affairs, Food and Public Distribution and Textiles Mr. Piyush Goyal, Indian exports are expected to reach US\$ 1 trillion by 2030.

Road Ahead

India's economy grew by 6.2% in Q3 FY25. Signs of recovery are now visible, with growth expected to rise to 7.6% in Q4 FY25-indicating a possible turnaround in the coming months. India's comparatively strong position in the external sector reflects the country's positive outlook for economic growth and rising employment rates. India ranked 5th in foreign direct investment inflows among the developed and developing nations listed for the first quarter of 2022.

India's economic story during the first half of FY24 highlighted the unwavering support the government gave to its capital expenditure, which, in FY24, stood 37.4% higher than the same period last year. In the Union Budget of FY26, capital expenditure took lead by steeply increasing the capital expenditure outlay by 10.0 % to Rs. 11.21 lakh crore (US\$ 131.42 billion) over Rs. 10.18 lakh crore (US\$ 119.34 billion) in FY25. Stronger revenue generation because of improved tax compliance, increased profitability of the company, and increasing economic activity also contributed to rising capital spending levels.

India's total exports of goods and services rose by 5.5% to a record Rs. 69.8 lakh crore (US\$ 820.9 billion) in FY25, compared to Rs. 65.8 lakh crore (US\$ 773.0 billion) in FY24.

With a reduction in port congestion, supply networks are being restored. With a proactive set of administrative actions by the government, flexible monetary policy, and a softening of global commodity prices and supply-chain bottlenecks, inflationary pressures in India look to be on the decline overall.

Note: The conversion rate used for January 2025 is Rs. 1 = US\$ 0.0117

INDIAN SERVICE INDUSTRY

Introduction

The reforms of the 1990s have been associated with the expansion of the service sector in India. Midway through the 1980s, the service sector began to expand, but it took off in the 1990s when India started a series of economic reforms in response to a serious balance of payments issue.

The services sector is not only the dominant sector in India's GDP but has also attracted significant foreign investment, has contributed significantly to exports, and has provided large-scale employment. India's services sector covers a wide variety of activities such as trade, hotel and restaurants, transport, storage and communication, financing, insurance, real estate, business services, community, social and personal services, and services associated with construction. To enhance India's commercial services exports, share in the global services market from 3.3% and permit a multi-fold expansion in the GDP, the government is also making significant efforts in this direction.

The service sector has over 50% contribution to India's GDP, and it had witnessed a growth of 9.1% in 2022-23. Out of 8.12 million jobs in FY23, service sector companies in IT, banking, and finance accounted for almost half of the new jobs generated. The services sector of India remains the engine of growth for India's economy and contributed 55% to India's Gross Value Added at current prices in FY24 (as per advance estimates). The services category ranked first in FDI inflows, as per data released by the Department for Promotion of Industry and Internal Trade (DPIIT).

India is a unique emerging market in the globe due to its unique skills and competitive advantage created by knowledge-based services. The Indian services industry, which is supported by numerous government initiatives like smart Cities, clean India, and digital India is fostering an environment that is strengthening the services sector. The sector has the potential to open up a multi-trillion-dollar opportunity that might stimulate symbiotic growth for all nations. Service providers in India continued to signal positive demand trends in June, which underpinned a stronger increase in new business volumes and further job creation.

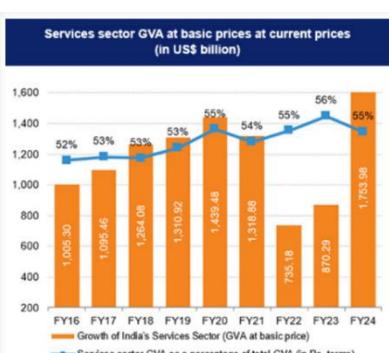

The World Bank has raised India's growth forecast for the current financial year to 7%, up from 6.6%, thanks to increased government spending on infrastructure. The World Bank's India Development Update report attributes this growth to enhanced public investment in infrastructure and rising household investments in real estate.

India's services sector also saw growth, with exports rising to US\$ 30.61 billion in September from US\$ 28.42 billion in the same period last year.

As per first advance estimates for FY25, India's services sector has steadily increased its share of GVA, rising from 50.6% in FY14 to about 55% in FY25, with 8.3% average growth since FY23.

India's gig economy is set to grow at a 17% CAGR, reaching US\$ 455 billion (Rs. 38,42,475 crore) by FY24, potentially adding 1.25% to GDP by FY30 with 90 million jobs.

Over the next 10 years, the National Digital Health Blueprint can unlock the incremental economic value of over US\$ 200 billion for the healthcare industry in India.

India's digital economy is estimated to reach US\$ 1 trillion by 2025. The implementation of the Goods and Services Tax (GST) has created a common national market and reduced the overall tax burden on goods. It is expected to reduce costs in the long run on account of the availability of GST input credit, which will result in a reduction in the prices of services. India's software service industry is expected to reach US\$ 1 trillion by 2030.

4. Focus on Customer Satisfaction and Execution Capabilities

We place emphasis on meeting client-specific advertising requirements through effective media planning, timely execution, and creative support. Our services include assisting clients in identifying appropriate advertising locations aligned with their budgets and regional priorities, developing artwork through in-house or third-party resources, and coordinating the display of

advertisements. Our ability to deliver advertising campaigns as per client expectations has supported client satisfaction and contributed to long-term relationships.

5. Strong Client Retention and Repeat Business

We have developed repeat business with clients across various sectors. Our client engagement process involves identifying parameters such as target audience, location preferences, creative design, and campaign objectives, and offering suitable advertising formats accordingly. We believe that this approach has supported client retention and contributed to our revenues.

OUR STRATEGIES: -

1. Expansion of our existing service portfolio:

Our Company is currently engaged in airport advertising, railway advertising, metro advertising, and city-based Out-of-Home (“OOH”) media. As part of our strategic initiatives, we intend to strengthen our presence in these segments by increasing advertising inventory and introducing new media formats, subject to business conditions and necessary approvals. We have secured sole advertising rights for the new terminal at Patna Airport, which, we believe, will augment our airport media portfolio. In addition, we have obtained advertising rights for the installation and display of LED screens at Ranchi Railway Station campus, which is intended to support the expansion of our digital presence in railway advertising. As part of the Objects of the Issue, we also intend to purchase static media at various railway stations in the states of Bihar and Jharkhand, which is expected to expand our coverage in the railway advertising segment.

We may explore the introduction of Digital Out-of-Home (“DOOH”) advertising solutions within our city-based OOH segment. Such initiatives may include expansion of hoarding coverage and installation of digital media assets. These measures are intended to broaden our service offerings and provide flexibility to advertisers, subject to business viability, prevailing market conditions and other factors set out in “Risk Factors”.”.

2. Covering wide area of Geographies:

We intend to expand our operational coverage to cater to the requirements of a diverse client base. To support this, we may selectively acquire advertising assets from smaller asset holders, which is expected to enable us to consolidate fragmented media inventory and improve operational efficiency.

In addition, we plan to expand into relatively untapped regions, including parts of the north-eastern states, to increase our market presence. We believe that such regional expansion will enable us to serve a wider customer base, subject to demand conditions and operational feasibility.

3. Customer relationship management:

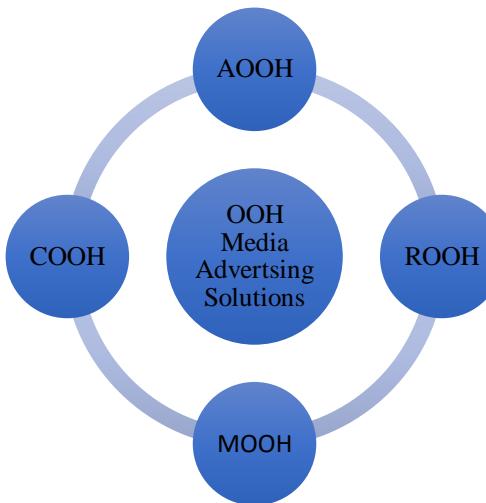

We believe that maintaining relationships with our customers is a critical factor in our business. We intend to continue engaging with our clients regularly to understand their requirements such as location, target audience, concept, and design, and to offer appropriate media solutions. We believe that this approach has supported recurring business from existing customers, and we intend to maintain focus on timely and accurate delivery of services in order to sustain such relationships.

4. Operational efficiency:

We intend to improve efficiency by managing costs carefully, applying consistent processes across locations, and maintaining financial discipline. We also intend to adopt technology in areas such as media planning, asset monitoring, and campaign management. These measures are expected to help streamline operations and support profitability.

COMPETITION

The Out-of-Home (OOH) advertising industry is fragmented and highly competitive, with our media properties competing for advertiser budgets against other OOH operators as well as alternative media platforms such as radio, newspapers, television, and online channels. We face competition from both national and regional players, some of whom may have greater resources, wider geographic presence, or stronger brand recognition, including companies such as Laqshya Media Group, Jagran Engage, Signpost, Bright Outdoor Media, and Global Advertisers. Our ability to compete is influenced by factors such as pricing, service quality, innovation, and access to high-visibility locations, and given the dynamic nature of the competitive landscape, there can be no assurance that we will be able to compete successfully or maintain our market position.

Our insurance policies may not be sufficient to cover our economic loss. For further details, kindly refer the section on **"Risk Factors"** beginning on page 28 of this Draft Red Herring Prospectus. **"Our insurance coverage may not be adequate to protect us against certain operating hazards and this may have a material adverse effect on our business".**

Business Overview:

Established in 1999, our Company provides advertising services with a primary focus on Out-of-Home (“OOH”) media formats, including both digital and non-digital solutions. We operate primarily in the Airport Out-of-Home (“AOOH”) and Railway Out-of-Home (“ROOH”) segments by offering advertising spaces within and outside airport terminal buildings and through digital and static hoardings across railway stations and railway land. We have recently commenced Metro Out-of-Home (“MOOH”) advertising, including advertisements on Platform Screen Doors (“PSDs”), and have also started offering in-shop branding services. Additionally, we provide a variety of traditional city media formats, including hoardings, billboards, unipole, multipoles, pole kiosks, wall wraps, wall paintings, lollipops, gantries, in-shop branding, and other related media assets.

We have an operational presence across Bihar, Jharkhand, West Bengal, and the North Eastern states, managing outdoor media assets and executing advertising campaigns. Beyond these regions, we provide OOH advertising services across India through a mix of exclusive and non-exclusive media rights, catering to a client base in multiple states and industry sectors. We hold exclusive advertising rights at the airports in Patna, Ranchi, Deoghar, Darbhanga, and Jorhat, and non-exclusive rights at Dibrugarh, Dimapur, and Itanagar airports. Additionally, we have marketing rights at Gaya, Agartala, and Silchar airports. In the railway segment, we hold exclusive advertising rights outside station campuses under the East Central Railway (“ECR”) zone, covering the divisions of Danapur, Dhanbad, Mughalsarai, Samastipur, and Sonepur, encompassing a total of 714 railway stations. In the metro segment, we hold Platform Screen Door (“PSD”) advertising rights at Howrah and Esplanade metro stations. Further, for specific client campaigns, we also procure temporary advertising assets from third-party hoarding owners based on campaign requirements.

We operate a store-cum-workshop facility located at Sinha Library Road, Kotwali, G.P.O, Patna, Bihar, where inventory including advertising material and equipment are stored and prepared. The Company follows internal procedures intended to ensure quality control, timely delivery, and cost management. We aim to align our media offerings with client requirements in the area of communication and brand visibility.

Our clients include corporate, non-corporate, government, and non-government organizations, including public sector undertakings, across sectors such as banking and financial services, insurance, education, healthcare, hosiery, jewellery, FMCG, oil and gas, power and energy, steel, mining, and infrastructure services. We also cater to government departments, including tourism and communication agencies at the state and central levels. Additionally, we serve advertising agencies, media buying firms, and marketing consultancies. These entities engage our OOH advertising services to promote their products, services, awareness campaigns, and brand communications across various formats.

The Company was originally incorporated by its Promoter, Mr. Shashi Kumar Chaudhary, with the primary objective of dealing in consumer durable products. In 2011, the Company diversified into the media and advertising sector, commencing outdoor media operations in Bihar and Jharkhand through city-based media formats. In 2013, the Company began undertaking airport advertising assignments. In 2016, operations were extended to the North Eastern region of India and West Bengal. In 2018, the Company initiated media advertising in railway stations, and in 2024, it commenced media operations within metro transit systems. The Company has obtained both exclusive and non-exclusive media rights across various locations to support these operations.

STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

For details in respect of Statement of Significant Accounting Policies, please refer to “**Restated Consolidated Financial Statements**” beginning on page 148 of this Draft Red Herring Prospectus.

Factors Affecting our Results of Operations

1. Changes in government regulations, municipal policies, or restrictions related to outdoor advertising could affect the availability or use of media assets;
2. A decline in general economic activity could lead to reduced advertising budgets from clients, impacting demand for outdoor advertising services;
3. Increased competition from other outdoor media companies, as well as alternative advertising platforms such as digital and social media, could affect market share and pricing power;
4. A significant portion of revenue is linked to media assets located in specific high-traffic areas. Any loss of rights or licenses for key locations could adversely impact operations;
5. Rapid changes in advertising technology, including digital media consumption patterns, could reduce the relative importance of traditional outdoor advertising formats;
6. Dependence on a limited number of major clients for a significant portion of revenue could pose a risk if any of these clients reduce or discontinue their advertising spends;
7. Delays in project execution, failure to maintain assets properly, or disruption due to external factors such as weather conditions or civic issues could impact service delivery and financial performance;
8. Since the company manages or facilitates outdoor sites, any disputes, non-renewals, or changes in lease terms with property owners or authorities could affect asset availability;
9. Non-compliance with municipal rules, advertising codes, or environmental regulations could lead to penalties, asset removals, or reputational harm;
10. Broad events such as inflation, political instability, changes in consumer behavior, or large-scale public movements could influence the effectiveness and revenues from outdoor advertising campaigns;
11. Inability to maintain and develop our brand;
12. Adverse statutory and regulatory actions from Income Tax department or any other statutory or regulatory authority;
13. Our business strategies and plans to achieve these strategies;
14. Conflict of interest between our business and activities undertaken by entities in which certain of our directors and our Promoters have interest in future;

Century Business Media Limited

15. General economic and business conditions in the markets in which we operate and in the local, regional and national economies;
16. Changes in political and social conditions in India, the monetary and interest rate policies of India and other countries;
17. Inflation, deflation, unanticipated turbulence in interest rates, equity prices or other rates or prices;
18. The occurrence of natural disasters or calamities;
19. Other factors beyond our control and our ability to manage risks that arise from these factors.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and Foreign Exchange Management Act, 1999 (“FEMA”). While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the Reserve Bank of India (“RBI”) and Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“DIPP”).

The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the Consolidated Foreign Direct Investment Policy notified by the DPIIT File No. 5(2)/2020-FDI Policy dated October 15, 2020, with effect from October 15, 2020 (the “FDI Policy”), which consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT or the DPIIT that were in force and effect prior to October 15, 2020. The Government of India proposes to update the consolidated circular on FDI Policy once every year and therefore, the FDI Policy will be valid until the DPIIT issues an updated circular.

In terms of the FEMA NDI Rules, a person resident outside India may make investments into India, subject to certain terms and conditions, and provided that an entity of a country, which shares land border with India or the beneficial owner of an investment into India who is situated in or is a citizen of any such country, shall invest only with government approval.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that (i) the activities of the investee company are under the automatic route under the foreign direct investment policy and transfer does not attract the provisions of the Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/ RBI.

Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country (“Restricted Investors”), will require prior approval of the Government, as prescribed in the Consolidated FDI Policy and the FEMA Rules. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government. Furthermore, on April 22, 2020, the Ministry of Finance, Government of India has also made a similar amendment to the FEMA Rules. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank or fund in India. Each Bidder should seek independent legal advice about its ability to participate in the Offer. In the event such prior approval of the Government of India is required, and such approval has been obtained, the Bidder shall intimate our Company and the Registrar to the Issue in writing about such approval along with a copy thereof within the Issue Period.

As per the existing policy of the Government of India, OCBs cannot participate in this Issue and in accordance with the extant FDI guidelines on sectoral caps, pricing guidelines etc. as amended by Reserve bank of India, from time to time. Investors are advised to confirm their eligibility under the relevant laws before investing and / or subsequent purchase or sale transaction in the Equity Shares of our Company. Investors will not offer, sell, pledge or transfer the Equity Shares of our Company to any person who is not eligible under applicable laws, rules, regulations, guidelines. Our Company, the Underwriters and their respective directors, officers, agents, affiliates and representatives, as applicable, accept no responsibility or liability for advising any investor on whether such investor is eligible to acquire Equity Shares of our Company.

(Non-debt Instruments) Rules, 2019.
